

DEPARTMENT OF CITY PLANNING APPEAL RECOMMENDATION REPORT

City Planning Commission

Date: July 11, 2024
Time: After 8:30 A.M.*
Place: Los Angeles City Hall, Board of Public Works
200 North Spring Street
Edward R. Roybal Session Room, 350
Los Angeles, CA 90012

And via Teleconference. Information will be provided no later than 72 hours before the meeting on the meeting agenda published at <https://planning.lacity.org/about/commissionsboards-hearings-and/or-by-contacting-cpc@lacity.org>

Public Hearing: Required
Appeal Status: Not further appealable
Expiration Date: July 11, 2024
Multiple Approval: NA

Case No.: DIR-2022-2825-TOC-
SPR -HCA -1A
CEQA No.: ENV-2022-2826-CE
Incidental Cases: NA
Related Cases: NA
Council No.: 5 – Yaroslavsky
Plan Area: Wilshire
Specific Plan: NA
Certified NC: Greater Wilshire
Land Use Designation: Medium Residential and
General Commercial
Zone: R3-1 and C2-1
Applicant: Dong Chul Shin
Bando DELA 2, LLC
Representative: Hyeung Seok Kang
AndMore Partners
Appellant: Supporters Alliance for
Environmental
Responsibility (SAFER)

PROJECT LOCATION: 3363, 3365, 3555 Olympic Boulevard, 989 Saint Andrews Place, 3377 West Olympic Boulevard, 998, 996, 986, 984, 980, 974 Gramercy Drive

PROPOSED PROJECT: The proposed project includes the demolition of the two existing commercial structures along Olympic Boulevard and a nursery school on Saint Andrews Place, as well as the construction, use and maintenance of a 7-story mixed-use development containing approximately 174,415 square feet of floor area, with a floor area ratio (FAR) of 3.41:1. The project proposes 4,800 square feet of commercial uses and a total of 153 dwelling units, 137 of which will be market-rate and 16 will be restricted to Extremely Low-Income Households. The building will have a maximum height of 85 feet, as measured from grade. The unit mix will be comprised of 114 one-bedroom, 32 two-bedroom, six (6) three-bedroom and one (1) four-bedroom units. The project will provide 136 standard automobile parking spaces, four (4) ADA parking spaces, 20 EVSE parking spaces and 40 EV parking spaces, 102 long-term bicycle parking spaces and 11 short-term bicycle parking spaces for residential use. Additionally, the project will provide 3 standard automobile parking spaces, 1 ADA parking space, 1 EVSE parking space and 2 EV parking spaces, 3 long-term bicycle parking spaces and 3 short-term bicycle parking spaces for commercial use. Seven commercial automobile parking spaces and 14 residential automobile parking spaces will be located on the ground floor.

REQUESTED ACTION: An Appeal of the February 6, 2024, Director of Planning determination which approved the following Transit Oriented Communities Affordable Housing Incentive Program project, and Site Plan Review pursuant to Los Angeles Municipal Code (“LAMC”) Sections 12.22 A.31, 12.22 A.25(g) and 16.05:

1. **Determined**, that based on the whole of the administrative record as supported by the justification prepared and found in the environmental case file, the project is exempt from the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines, Section 15332, Class 32, and there is no substantial evidence demonstrating that any exceptions contained in Section 15300.2 of the CEQA Guidelines regarding cumulative impacts, significant effects or unusual circumstances, scenic highways, hazardous waste sites, or historical resources applies;
2. **Approve with Conditions a Transit Oriented Communities (TOC) Affordable Housing Incentive Program Compliance Review for a qualifying Tier 3 project**, totaling 153 dwelling units, reserving 16 units for Extremely Low Income Household occupancy for a period of 55 years, utilizing Base Incentives and the following Additional Incentives:
 1. **Height Increase.** A 22-foot height increase in the R3-1 Zone to a maximum 67 feet in height in lieu of the maximum 45-foot height limit, as otherwise required by LAMC Section 12.21.1.
 2. **Open Space.** A 25 percent reduction in the useable open space requirement to allow a minimum of 12,469 square feet in lieu of the minimum 16,625 square feet, as otherwise required by LAMC Section 12.21 G.2;
 3. **Averaging of Floor Area, Density, Parking, Open Space, and Permitting Vehicular Access.** An averaging of floor area and density over the project site and permit vehicular access from a less restrictive zone to a more restrictive zone.

RECOMMENDED ACTIONS:

1. **Determine**, that based on the whole of the administrative record as supported by the justification prepared and found in the environmental case file, the project is exempt from the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines, Section 15332, Class 32, and there is no substantial evidence demonstrating that any exceptions contained in Section 15300.2 of the CEQA Guidelines regarding cumulative impacts, significant effects or unusual circumstances, scenic highways, hazardous waste sites, or historical resources applies;
2. **Deny** the appeal of DIR-2021-6250-TOC-HCA; and **Sustain** the decision of the Director of Planning conditionally approving a Transit Oriented Communities Affordable Housing Incentive Program, pursuant to Los Angeles Municipal Code (“LAMC”) Sections 12.22 A.31 and 12.22 A.25(g), and Site Plan Review pursuant to LAMC 16.05 allowing the construction, use, and maintenance of a 7-story mixed-use building containing approximately 174,415 square feet of floor area, of which 4,800 square feet will be for commercial uses, with 153 dwelling units, reserving 16 for Extremely Low-Income Households; and

3. **Adopt** the Director of Planning's Conditions of Approval and Findings for DIR-2022-2825-TOC-SPR-HCA.

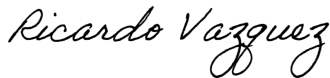

VINCENT P. BERTONI, AICP
Director of Planning

Jane J. Choi, AICP, Principal City Planner

Griselda Gonzalez, City Planner

Ricardo Vazquez, Planning Associate

ADVICE TO PUBLIC: *The exact time this report will be considered during the meeting is uncertain since there may be several other items on the agenda. Written communications may be mailed to the Commission Secretariat, Room 272, City Hall, 200 North Spring Street, Los Angeles, CA 90012 (Phone No. 213-978-1299) or emailed to cpc@lacity.org. While all written communications are given to the Commission for consideration, the initial packets are sent to Commission the week prior to the Commission's meeting date. If you challenge these agenda items in court, you may be limited to raising only those issues you or someone else raised at the public hearing agendized herein, or in written correspondence on these matters delivered to this agency at or prior to the public hearing. As a covered entity under Title II of the Americans with Disabilities Act, the City of Los Angeles does not discriminate on the basis of disability, and upon request, will provide reasonable accommodation to ensure equal access to these programs, services and activities. Sign language interpreters, assistive listening devices, or other auxiliary aids and/or other services may be provided upon request. To ensure availability of services, please make your request no later than three working days (72 hours) prior to the meeting by calling the Commission Secretariat at (213) 978-1299.

PROJECT ANALYSIS

PROJECT SUMMARY

On February 6, 2024, the Director of Planning approved a project using the Transit Oriented Communities Affordable Housing Incentive Program for the construction, use, and maintenance of a seven-story mixed-use building with 153 residential units, reserving 16 dwelling units for Extremely Low Income Households for a period of 55 years with Tier 3 incentives. Additionally, the Director of Planning approved a Site Plan Review for the project per LAMC 16.05.

The proposed project includes the demolition of the two existing commercial structures along Olympic Boulevard as well as the nursery school on Saint Andrews Place. The project also includes the construction use and maintenance of a seven (7) story mixed-use development containing 174,415 square feet of floor area, with a floor area ratio (FAR) of 3.41:1. The project proposes 4,800 square feet of commercial uses and a total of 153 dwelling units, 137 of which will be market-rate and 16 will be restricted to Extremely Low-Income Households. The building will have a maximum of 85 feet, as measured from grade. The unit mix will be comprised of 114 one-bedroom, 32 two-bedroom, 6 three-bedroom and one (1) four-bedroom units.

Figure 1. Project Rendering at the Corner of Saint Andrews Place and Olympic Boulevard

BACKGROUND

The project consists of 12 continuous rectangle-shaped lots in an L-shaped configuration with a total lot size of approximately 51,124 square feet (48,512 square feet after dedication). The project site is located on the northerly side of Olympic Boulevard with approximately 247 feet of street frontage. The project site is bounded to the west by Gramercy Drive where it has 275 feet of street frontage, and to the east by Saint Andrews Place where it has 125 feet of street

frontage. The project is zoned C2-1 and R3-1 and designated for General Commercial and Medium Residential. The project is not located within the boundaries of or subject to any specific plan, community design overlay or “Q” Qualified Conditions or “D” Development Limitations ordinance. The site is located within the Los Angeles State Enterprise Zone, the City of Los Angeles Transit Priority Area and is within the Housing Element Inventory of Sites. Additionally, the site is within Urban Agriculture Incentive Zone Area. The project site is not within a liquefaction area or a flood zone.

Per the TOC Referral Form, dated October 8, 2020, the project site is located within one-half mile of the Los Angeles County Metropolitan Transportation Authority (Metro) Rapid 705 and Santa Monica Bus 7 transit stops. As such, the project is eligible for Tier 3 TOC Affordable Housing Incentives. Tier 3 Base Incentives require On-Site Restricted Affordable Units at the rate of 10 percent of the total number of units for Extremely Low Income Households. The project proposes to set aside 16 units, that is over 10 percent of the total 153 units, for Extremely Low Income Households. The project qualifies for three (3) additional incentives if eleven (11) percent of the base 90 units is set aside for Extremely Low Income Households. The project proposes to set aside 16 units, that is over eleven (11) percent of the base 90 units, for Extremely Low Income Households. As such, the project is eligible for up to three (3) Additional Incentives. Pursuant to the SB 8 (TOC) Determination Letter dated February 22, 2022, and prepared by the Los Angeles Housing and Community Investment Department (HCIDLA), the provisions of SB 330 do not apply to commercial properties. Therefore, no SB 330 replacement affordable units are required. As such, the project complies with SB 8.

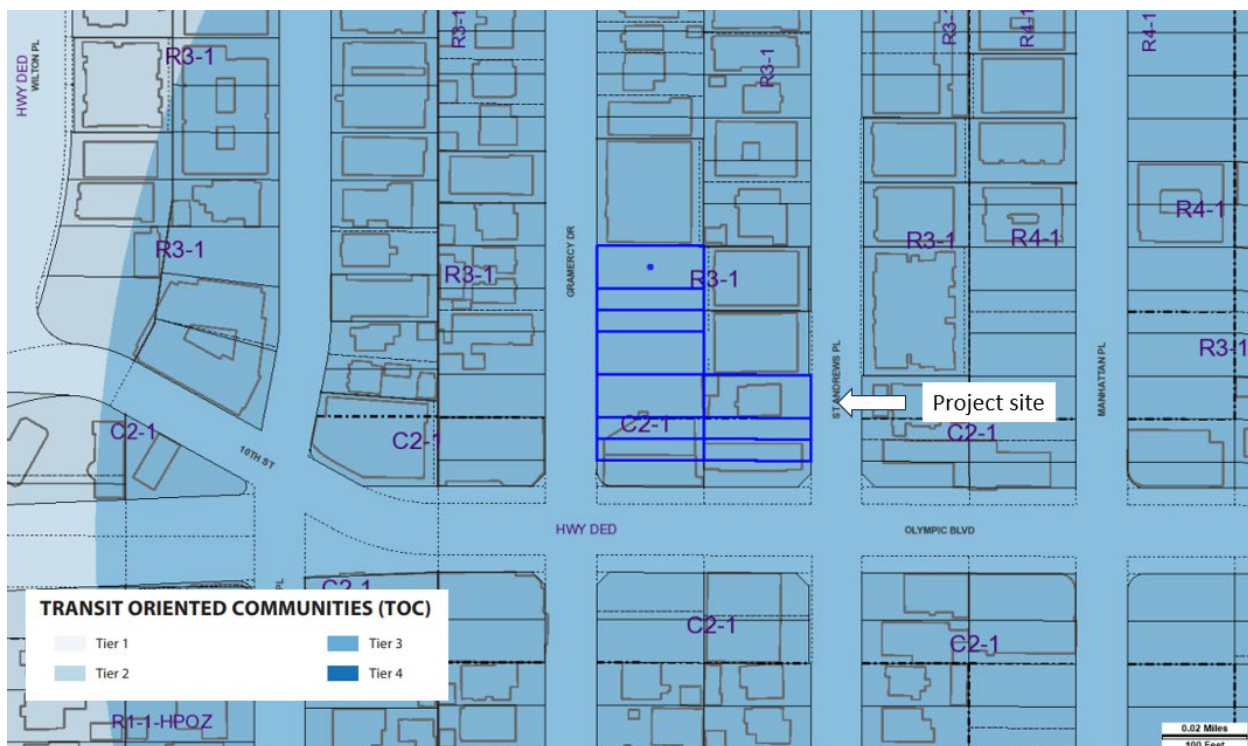

Figure 2. ZIMAS Transit Oriented Communities / AB 2097 showing the sites eligibility for Tier 3

Pursuant to the TOC Affordable Housing Incentives Program, the project was determined to be eligible for the base incentives which are granted by-right for eligible TOC projects, and the following three (3) Additional Incentives to construct the proposed project as listed below:

- a. **Height Increase.** A 22-foot height increase in the R3-1 Zone to a maximum 67 feet in height in lieu of the maximum 45-foot height limit, as otherwise required by LAMC

Section 12.21.1.

- b. Open Space.** A 25 percent reduction in the useable open space requirement to allow a minimum of 12,469 square feet in lieu of the minimum 16,625 square feet, as otherwise required by LAMC Section 12.21 G.2;
- c. Averaging of Floor Area, Density, Parking, Open Space, and Permitting Vehicular Access.** An averaging of floor area and density over the project site and permit vehicular access from a less restrictive zone to a more restrictive zone.

Surrounding Neighborhood:

The surrounding properties are developed with urban uses. Properties to the south, across Olympic Boulevard, are zoned C2-1, designated for General Commercial, and improved with a three-story commercial building housing a community bank and a parking lot. To the west across Gramercy Drive and along Olympic Boulevard there is a five-story hotel on a lot that is zoned C2-1, designated General Commercial. To the north of the hotel, along Gramercy Drive, properties are zoned R3-1, designated Medium Residential and are improved with one and two story multifamily and single-family structures. Adjoining the subject property to the north along Gramercy Drive the lot is zoned R3-1, designated Medium Residential and improved with a 19-unit three story multifamily structure. Adjoining the property to the north along Saint Andrew's Place the site is zoned R3-1, designated Medium Residential and improved multifamily buildings. To the east of the subject project on Olympic the property is zoned C2-1, designed General Commercial and is improved with a one-story commercial structure that is currently used by automotive repair facilities. To the east of the subject project along Saint Andrews Place, north of the automotive repair facilities, the property is zoned R3-1, designated Medium Residential and improved with a two-story duplex.

Communications from the Public:

Planning staff received six (6) emails from the public supporting the demolition of the existing structures on the site and the development of the project. The emails cite concerns over public safety at the site.

APPEAL ANALYSIS

APPEAL SUMMARY

On February 6, 2024, the Director of Planning issued a Determination to conditionally approve Base and Additional Incentives for increased density, additional height, reduced parking, reduced open space and averaging of floor area, density, parking, open space, and permitting vehicular access, and a Site Plan Review.

The Planning Director's decision determined, based on the whole of the administrative record, that the project is exempt from the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines, Article 19, Section 15332 (Class 32), and there is no substantial evidence demonstrating that any exception contained in Section 15300.2 of the State CEQA Guidelines regarding location, cumulative impact, significant effects or unusual circumstances, scenic highways, hazardous waste sites, or historical resources applies.

On February 20, 2024, an appeal was filed for the subject case by Brian Flynn of Lozeau Drury LLP, on behalf of the Supporters Alliance for Environmental Responsibility (SAFER). The appeal justification includes grievances against the land use decision as well as the Class 32

infill development Categorical Exemption issued for the project, under Environmental Case No. ENV-2022-2826-CE.

Pursuant to LAMC Section 12.22-A.25(g)(2)(i)(f) and appeal process for TOC entitlements, only an applicant, abutting property owners, and abutting tenants can appeal the TOC determination. The Appellant here does not meet this criterion. The appeal that is currently before the Commission only relates to the Director of Planning's Determination regarding Site Plan Review.

The Appeal Justification letter includes CEQA-related appeal points. This Staff Report addresses these points below.

APPEAL POINT 1: Site Plan Review was approved in error.

The appellant states that CEQA review must be complete before the City approved the Project's entitlements. The appellant asserts that the CEQA review was not conducted properly and by failing to properly conduct environmental review under CEQA, the "Planning Director's approval of the Project's Site Plan Review entitlement is invalid."

STAFF RESPONSE 1:

The appellant challenges the Planning Director's determination conditionally approving the Site Plan Review entitlement in conjunction with the proposed project but fails to cite any specific issues that relate to the Site Plan Review component of the land use determination. The appeal, rather, focuses on the determination that the project is exempt from CEQA pursuant to CEQA Guideline, Section 15332 (Class 32, Infill Development). As demonstrated in the Justification for the Class 32 Categorical Exemption dated February 2024 the proposed project was analyzed under CEQA and there is substantial evidence in the record to support the decision-maker's determination that the project is exempt from CEQA. As evidenced in the February 6, 2024 determination letter, the necessary findings were made to confirm that the project meets the requirements for Site Plan Review. The Site Plan Review Findings that were made include the following: the project is in substantial conformance with the purposes, intent and provisions of the Community Plan and does not conflict with any applicable regulations or standards; the arrangement of the proposed development is consistent and compatible with existing and future development in neighboring properties; and the project contains adequate amenities and is within close proximity to transit services which will contribute to the habitability of the residents and minimize the impacts on neighboring properties.

APPEAL POINT 2:

The appellant asserts that there is "a lack of substantial evidence in the record that the Project met the requirements of the Infill Exemption," the categorical exemption pursuant to Section 15332 of the CEQA Guidelines. The appellant also asserts that members of SAFER who live and/or work in the vicinity of the proposed Project will "breathe the air, suffer traffic congestion, and will suffer other environmental impacts of the Project unless it is properly mitigated" and that an "initial study followed by an EIR or negative declaration" should have been prepared.

STAFF RESPONSE 2:

The CEQA Guidelines provide that a Class 32 CE may not be used if any of five (5) exceptions apply: (a) cumulative impacts; (b) significant effect; (c) scenic highways; (d) hazardous waste

sites; and (e) historical resources. Specifically, the Appellant indirectly contends that the significant effect exception applies to the proposed project because the members of appellant group “will suffer ... environmental impacts of the Project unless it is properly mitigated.” CEQA Guidelines exception 15300.2(c) states that a categorical exemption is inapplicable “where there is a reasonable possibility that the activity will have a significant effect on the environment due to unusual circumstances.” An agency’s determination that a project falls within a categorical exemption includes an implied finding that none of the exceptions identified in the CEQA Guidelines apply. Instead, the burden of proof shifts to the challenging party to produce evidence showing that one of the exceptions applies to take the project out of the exempt category. (*San Francisco Beautiful v. City and County of San Francisco* (2014) 226 Cal.App.4th 1012, 1022-23.)

Here, the Appellant has not met its burden to show any exception, including significant effect, applies, as there is no evidence in the record to conclude that there will be a significant effect on the environment caused by the proposed project. Speculation that significant effects on the environment will occur simply because the project is approved is insufficient to trigger this exception and is not evidence that the proposed project will have adverse impacts (*Hines v. California Coastal Comm’n* (2010) 186 Cal.App.4th 830, 857. The appellant asserts that “rather than exempt the Project from CEQA, the City should have prepared an initial study followed by an EIR or negative declaration in accordance with CEQA prior to consideration of approvals for the Project.” However, the Appellant has not submitted any substantial evidence that validates its assertions that the significant effect exception applies and that the exemption is not appropriate. Furthermore, the Appellant does not state which significant effects are actually at issue other than making a vague claim that members of SAFER will “breathe the air, suffer traffic congestion, and will suffer other environmental impacts of the Project unless it is properly mitigated”. For example, automobile delay, as described solely by level of service or similar measures of vehicular capacity or traffic congestion, cannot constitute a significant environmental impact for purposes of CEQA. (Public Resources Code § 21099.)

As demonstrated in the Justification for the Class 32 Categorical Exemption dated July 2024, the proposed project and other projects in the vicinity are subject to Regulatory Compliance Measures (RCMs) related to air quality, noise, hazardous materials, geology, and transportation. Numerous RCMs in the City’s Municipal Code and State law provide requirements for construction activities and ensure impacts from construction related air quality, noise, traffic, and parking are less than significant. For example, the South Coast Air Quality Management District (SCAQMD) has District Rules related to dust control during construction, type and emission of construction vehicles, architectural coating, and air pollution. The project submitted a Noise Technical Study dated June 2024 by Impact Sciences that found that regulatory compliance measures ensure that noise from the project would be less than significant. All projects are subject to the City’s Noise Ordinance No. 144,331, which regulates construction equipment and maximum noise levels during construction and operation. The Justification for the Class 32 Categorical Exemption contained a reference error. The Air Quality report for the project was produced by Meridian Consultants and is dated February 2023. The report found that “[t]he Project would result in less than significant cumulative air quality impacts during construction and operation of the Project.” RCMs in the Municipal Code, ensure that any noise resulting from the construction of the project would be less than significant. The Tree Report was conducted by George Applegate (RCA# 1830) and is dated March 23, 2022. The Tree Report was reviewed by the Urban Forestry Division (UFD), stamp dated by UFD on June 20, 2023. Note, no street tree or protected tree may be removed without prior approval of the Board of Public Works/Urban Forestry Divis (BPW) under LAMC Sections 62.161 - 62.171. Any potential tree removal is thus governed by RCMs in the municipal code that makes the removal less than significant.

CONCLUSION AND STAFF RECOMMENDATION

The appeal of the Planning Director's Site Plan Review does not demonstrate that the Planning Director erred or abused discretion. The findings made to approve the Site Plan Review, and to determine that the project is categorically exempt have been done in full conformance with the applicable provisions of the Los Angeles Municipal Code and the California Environmental Quality Act. The development is consistent with the underlying zone and the TOC Guidelines, and the building has been designed and conditioned to be sensitive to and compatible with surrounding uses. The project site is located in an area zoned for medium residential. Providing additional housing on an underutilized site that fronts a commercial corridor (Olympic Boulevard) is in line with the City's overarching goals, policies, and objectives for new development.

Therefore, it is recommended that the City Planning Commission affirm that the project is categorically exempt from environmental review, deny the appeal, sustain the Director's Determination approving the Site Plan Review and adopt the Director's conditions of approval.

PROJECT DESCRIPTION

NEW PROPOSED 7-STORY MIXED USE APARTMENT DEVELOPMENT. 5-STORY OF RESIDENTIAL (TYPE-III A) OVER SINGLE OR DOUBLE PODIUM WITH TWO LEVELS OF SUBTERRANEAN PARKING (TYPE-I A). FULLY SPRINKLED.

A TOTAL PROPOSED OF MAXIMUM OF 5,000 SF OF COMMERCIAL SPACE AND 153 UNITS OF DWELLING UNITS. 16 UNITS (10% OF TOTAL UNITS) ARE ELI UNITS.

THE PROJECT REQUESTS A SITE PLAN REVIEW. IT IS ALSO REQUESTING TO USE THE TOC BASE INCENTIVE TO INCREASE F.A.R AND REDUCE REQUIRED PARKING AND SEEKING THREE ADDITIONAL ON-MENU INCENTIVES FOR REDUCTION IN OPEN SPACE, INCREASE IN HEIGHT IN THE R3-ZONE; AND AVERAGING OF FAR, DENSITY, PARKING, OPEN SPACE, AND VEHICULAR ACCESS.

NOT A PUBLIC HOUSING FACILITY OWNED AND/OR OPERATED BY, FOR OR ON BEHALF OF A PUBLIC ENTITY AND NOT RECEIVING ANY TAX CREDIT FOR STATE OR FEDERAL. NOT A TCAC FACILITY. 100% PRIVATELY FUNDED.

LEGAL DESCRIPTION

PARCEL 1:
LOT 122 AND THE NORTH HALF OF LOT 123 OF THE COUNTRY CLUB HEIGHTS, IN THE CITY OF LOS ANGELES, COUNTY OF LOS ANGELES, STATE OF CALIFORNIA, AS PER MAP RECORDED IN BOOK 6, PAGE 56, OF MAPS, IN THE OFFICE OF THE COUNTY RECORDER OF SAID COUNTY.

PARCEL 2:
THE SOUTHERLY 25 FEET OF LOT 123, COUNTRY CLUB HEIGHTS, IN THE CITY OF LOS ANGELES, COUNTY OF LOS ANGELES, STATE OF CALIFORNIA, AS PER MAP RECORDED IN BOOK 6, PAGE 56, OF MAPS, IN THE OFFICE OF THE COUNTY RECORDER OF SAID COUNTY.

PARCEL 3:
THE NORTH 30 FEET OF LOT 157 AND ALL OF LOTS 158, 159 AND 160 AND THE COUTHERLY 25 FEET OF LOT 161 OF COUNTRY CLUB HEIGHTS, IN THE CITY OF LOS ANGELES, COUNTY OF LOS ANGELES, STATE OF CALIFORNIA, AS PER MAP RECORDED IN BOOK 6, PAGE 56, OF MAPS, IN THE OFFICE OF THE COUNTY RECORDER OF SAID COUNTY.

PARCEL 4:
LOT 162 AND THE NORTH ONE-HALF OF LOT 161, COUNTRY CLUB HEIGHTS, IN THE CITY OF LOS ANGELES, COUNTY OF LOS ANGELES, STATE OF CALIFORNIA, AS PER MAP RECORDED IN BOOK 6, PAGE 56, OF MAPS, IN THE OFFICE OF THE COUNTY RECORDER OF SAID COUNTY.

PARKING NOTE
1. RESIDENTIAL STALLS ARE ASSIGNED TO SPECIFIC RESIDENTIAL UNITS. IDENTIFICATION FOR ACCESSIBLE PARKING SPACES SHALL NOT BE REQUIRED

- PLAN NOTES**
- FOR EXTERIOR / INTERIOR WALL TYPES SEE SHEET: A5.01 - A5.03
 - HORIZONTAL DIMENSIONS ARE TO FACE OF STUDS, MASONRY OR CONCRETE UNLESS OTHERWISE NOTED. VERTICAL DIMENSIONS ARE TO HARD SURFACE FINISH FLOOR AND TO TOP OF CONCRETE WHERE NO FINISH FLOORING, CARPET OR RESILIENT FLOORING OCCUR.
 - SEE STRUCTURAL DRAWINGS FOR:
 - SIZES AND LOCATIONS OF FRAMING AND PLYWOOD SHEATHING.
 - SPECIAL NAILING AND BLOCKING REQUIREMENTS.
 - HOLD DOWN NOTES AND SCHEDULES.
 - PROVIDE PLYWOOD MATCHING THICKNESS OF ADJACENT SHEAR PANELS ON ALL EXTERIOR WALLS WHERE PLYWOOD SHEAR PANELS DO NOT OCCUR.
 - PRIOR TO PURCHASING OF DOOR FRAMES, VERIFY LOCATION OF SHEAR WALLS, NO. OF LAYERS AND THICKNESS OF PLYWOOD, TOTAL THICKNESS OF WALLS AND DEPTHS OF DOOR FRAMES.
 - IF PLYWOOD SHEATHING IS REQUIRED ON ON SIDE OF A DOOR OR WINDOW, BUT NOT ON THE OTHER SIDE, FURR AS REQUIRED TO MAKE WALLS THE SAME THICKNESS ON BOTH SIDES OF THE DOOR OR WINDOW.
 - LINE WOOD STUD WALLS AND FLOOR / ROOF JOIST SPACES WHERE DUCTS OCCURS WITH 5/8" TYPE "X" GYPSUM WALL BOARD.
 - LINE WOOD STUD WALLS AND OPENINGS IN WOOD STUD WALLS OCCURRING ABOVE CEILINGS WITH 5/8" TYPE "X" GYPSUM WALL BOARD.

- SOUND ISOLATE PIPES IN STUD PARTITIONS. DO NOT ALLOW PIPING TO TOUCH STUDS, GYPSUM WALL BOARD OR ELECTRICAL DEVICES.
- EXTEND FINISH FLOORING UNDER LIVING UNIT LAVATORIES KITCHEN SINKS, DISHWASHERS AND INTO REFRIGERATOR SPACE.
- INTERIOR OF UTILITY WALL CABINETS SHALL BE 12" CLEAR MINIMUM.
- PROVIDE WALL AND CEILING BACKING FOR ATTACHMENT OF RAILINGS, GRAB BARS AT TUBS, SHOWERS (BACKING MAYBE OMITTED FOR MANUFACTURED ASSEMBLIES WITH INTEGRAL BACKING) AND TOILETS, TUB AND SHOWER SEATS EQUIPMENT, FIXTURES AND CABINETS.
- INSULATION
 - EXTERIOR WALLS: (R-19)
 - ROOF: (R-30)
 - EXTERIOR FLOOR: (R-13)
 - INTERIOR WALL: (R-19)
- COORDINATE LOCATIONS OF LAVATORIES AND SINK WITH CABINET LAYOUT.
- WHERE TWO DIFFERENT WALL TYPES / THICKNESS OCCUR, ESPECIALLY ALONG CORRIDORS, FURR OUT THINNER WALL TO MATCH THICKER WALL AND CONTINUE UNTIL WALL TURNS TO A CORNER OR INTERSECTS A PERPENDICULAR WALL.
- BASE CABINETS UNDER KITCHEN SINKS AND LAVATORIES, INCLUDING TOE BOARD AND SHELVING, SHALL BE REMOVABLE WITHOUT THE USE OF SPECIALIZED TOOLS OR SPECIALIZED KNOWLEDGE TO PROVIDE CLEARANCE FOR A WHEELCHAIR.

OVERALL SECOND FLOOR PLAN

SCALE
1/16" = 1'-0" **1**

PLAN NOTES

- FOR EXTERIOR / INTERIOR WALL TYPES SEE SHEET: A5.01 - A5.03
- HORIZONTAL DIMENSIONS ARE TO FACE OF STUDS, MASONRY OR CONCRETE UNLESS OTHERWISE NOTED. VERTICAL DIMENSIONS ARE TO HARD SURFACE FINISH FLOOR AND TO TOP OF CONCRETE WHERE NO FINISH FLOORING, CARPET OR RESILIENT FLOORING OCCUR.
- SEE STRUCTURAL DRAWINGS FOR:
 - SIZES AND LOCATIONS OF FRAMING AND PLYWOOD SHEATHING.
 - SPECIAL NAILING AND BLOCKING REQUIREMENTS.
 - HOLD DOWN NOTES AND SCHEDULES.
- PROVIDE PLYWOOD MATCHING THICKNESS OF ADJACENT SHEAR PANELS ON ALL EXTERIOR WALLS WHERE PLYWOOD SHEAR PANELS DO NOT OCCUR.
- PRIOR TO PURCHASING OF DOOR FRAMES, VERIFY LOCATION OF SHEAR WALLS, NO. OF LAYERS AND THICKNESS OF PLYWOOD, TOTAL THICKNESS OF WALLS AND DEPTHS OF DOOR FRAMES.
- IF PLYWOOD SHEATHING IS REQUIRED ON ON SIDE OF A DOOR OR WINDOW, FURR AS REQUIRED TO MAKE WALLS THE SAME THICKNESS ON BOTH SIDES OF THE DOOR OR WINDOW.
- LINE WOOD STUD WALLS AND FLOOR / ROOF JOIST SPACES WHERE DUCTS OCCURS WITH 5/8" TYPE "X" GYPSUM WALL BOARD.
- LINE WOOD STUD WALLS AND OPENINGS IN WOOD STUD WALLS OCCURRING ABOVE CEILINGS WITH 5/8" TYPE "X" GYPSUM WALL BOARD.

- SOUND ISOLATE PIPES IN STUD PARTITIONS. DO NOT ALLOW PIPING TO TOUCH STUDS, GYPSUM WALL BOARD OR ELECTRICAL DEVICES.
- EXTEND FINISH FLOORING UNDER LIVING UNIT LAVATORIES KITCHEN SINKS, DISHWASHERS AND INTO REFRIGERATOR SPACE.
- INTERIOR OF UTILITY WALL CABINETS SHALL BE 12" CLEAR MINIMUM.
- PROVIDE WALL AND CEILING BACKING FOR ATTACHMENT OF RAILINGS, GRAB BARS AT TUBS, SHOWERS (BACKING MAYBE OMITTED FOR MANUFACTURED ASSEMBLIES WITH INTEGRAL BACKING) AND TOILETS, TUB AND SHOWER SEATS EQUIPMENT, FIXTURES AND CABINETS.
- INSULATION
 - EXTERIOR WALLS: (R-19)
 - ROOF: (R-30)
 - EXTERIOR FLOOR: (R-13)
 - INTERIOR WALL: (R-19)
- COORDINATE LOCATIONS OF LAVATORIES AND SINK WITH CABINET LAYOUT.
- WHERE TWO DIFFERENT WALL TYPES / THICKNESS OCCUR, ESPECIALLY ALONG CORRIDORS, FURR OUT THINNER WALL TO MATCH THICKER WALL AND CONTINUE UNTIL WALL TURNS TO A CORNER OR INTERSECTS A PERPENDICULAR WALL.
- BASE CABINETS UNDER KITCHEN SINKS AND LAVATORIES, INCLUDING TOE BOARD AND SHELVING, SHALL BE REMOVABLE WITHOUT THE USE OF SPECIALIZED TOOLS OR SPECIALIZED KNOWLEDGE TO PROVIDE CLEARANCE FOR A WHEELCHAIR.

PLAN NOTES

- FOR EXTERIOR / INTERIOR WALL TYPES SEE SHEET: A5.01 - A5.03
- HORIZONTAL DIMENSIONS ARE TO FACE OF STUDS, MASONRY OR CONCRETE UNLESS OTHERWISE NOTED. VERTICAL DIMENSIONS ARE TO HARD SURFACE FINISH FLOOR AND TO TOP OF CONCRETE WHERE NO FINISH FLOORING, CARPET OR RESILIENT FLOORING OCCUR.
- SEE STRUCTURAL DRAWINGS FOR:
 - SIZES AND LOCATIONS OF FRAMING AND PLYWOOD SHEATHING.
 - SPECIAL NAILING AND BLOCKING REQUIREMENTS.
 - HOLD DOWN NOTES AND SCHEDULES.
- PROVIDE PLYWOOD MATCHING THICKNESS OF ADJACENT SHEAR PANELS ON ALL EXTERIOR WALLS WHERE PLYWOOD SHEAR PANELS DO NOT OCCUR.
- PRIOR TO PURCHASING OF DOOR FRAMES, VERIFY LOCATION OF SHEAR WALLS, NO. OF LAYERS AND THICKNESS OF PLYWOOD, TOTAL THICKNESS OF WALLS AND DEPTHS OF DOOR FRAMES.
- IF PLYWOOD SHEATHING IS REQUIRED ON ONE SIDE OF A DOOR OR WINDOW, FURR AS REQUIRED TO MAKE WALLS THE SAME THICKNESS ON BOTH SIDES OF THE DOOR OR WINDOW.
- LINE WOOD STUD WALLS AND FLOOR / ROOF JOIST SPACES WHERE DUCTS OCCURS WITH 5/8" TYPE "X" GYPSUM WALL BOARD.
- LINE WOOD STUD WALLS AND OPENINGS IN WOOD STUD WALLS OCCURRING ABOVE CEILINGS WITH 5/8" TYPE "X" GYPSUM WALL BOARD.

- SOUND ISOLATE PIPES IN STUD PARTITIONS. DO NOT ALLOW PIPING TO TOUCH STUDS, GYPSUM WALL BOARD OR ELECTRICAL DEVICES.
- EXTEND FINISH FLOORING UNDER LIVING UNIT LAVATORIES KITCHEN SINKS, DISHWASHERS AND INTO REFRIGERATOR SPACE.
- INTERIOR OF UTILITY WALL CABINETS SHALL BE 12" CLEAR MINIMUM.
- PROVIDE WALL AND CEILING BACKING FOR ATTACHMENT OF RAILINGS, GRAB BARS AT TUBS, SHOWERS (BACKING MAYBE OMITTED FOR MANUFACTURED ASSEMBLIES WITH INTEGRAL BACKING) AND TOILETS, TUB AND SHOWER SEATS EQUIPMENT, FIXTURES AND CABINETS.
- INSULATION
 - EXTERIOR WALLS: (R-19)
 - ROOF: (R-30)
 - EXTERIOR FLOOR: (R-13)
 - INTERIOR WALL: (R-19)
- COORDINATE LOCATIONS OF LAVATORIES AND SINK WITH CABINET LAYOUT.
- WHERE TWO DIFFERENT WALL TYPES / THICKNESS OCCUR, ESPECIALLY ALONG CORRIDORS, FURR OUT THINNER WALL TO MATCH THICKER WALL AND CONTINUE UNTIL WALL TURNS TO A CORNER OR INTERSECTS A PERPENDICULAR WALL.
- BASE CABINETS UNDER KITCHEN SINKS AND LAVATORIES, INCLUDING TOE BOARD AND SHELVING, SHALL BE REMOVABLE WITHOUT THE USE OF SPECIALIZED TOOLS OR SPECIALIZED KNOWLEDGE TO PROVIDE CLEARANCE FOR A WHEELCHAIR.

THIRD FLOOR PLAN

SCALE
1/8" = 1'-0" **1**

- PLAN NOTES**
- FOR EXTERIOR / INTERIOR WALL TYPES SEE SHEET: A5.01 - A5.03
 - HORIZONTAL DIMENSIONS ARE TO FACE OF STUDS, MASONRY OR CONCRETE UNLESS OTHERWISE NOTED. VERTICAL DIMENSIONS ARE TO HARD SURFACE FINISH FLOOR AND TO TOP OF CONCRETE WHERE NO FINISH FLOORING, CARPET OR RESILIENT FLOORING OCCUR.
 - SEE STRUCTURAL DRAWINGS FOR:
 - SIZES AND LOCATIONS OF FRAMING AND PLYWOOD SHEATHING.
 - SPECIAL NAILING AND BLOCKING REQUIREMENTS.
 - HOLD DOWN NOTES AND SCHEDULES.
 - PROVIDE PLYWOOD MATCHING THICKNESS OF ADJACENT SHEAR PANELS ON ALL EXTERIOR WALLS WHERE PLYWOOD SHEAR PANELS DO NOT OCCUR.
 - PRIOR TO PURCHASING OF DOOR FRAMES, VERIFY LOCATION OF SHEAR WALLS, NO. OF LAYERS AND THICKNESS OF PLYWOOD, TOTAL THICKNESS OF WALLS AND DEPTHS OF DOOR FRAMES.
 - IF PLYWOOD SHEATHING IS REQUIRED ON ONE SIDE OF A DOOR OR WINDOW, FURR AS REQUIRED TO MAKE WALLS THE SAME THICKNESS ON BOTH SIDES OF THE DOOR OR WINDOW.
 - LINE WOOD STUD WALLS AND FLOOR / ROOF JOIST SPACES WHERE DUCTS OCCURS WITH 5/8" TYPE "X" GYPSUM WALL BOARD.
 - LINE WOOD STUD WALLS AND OPENINGS IN WOOD STUD WALLS OCCURRING ABOVE CEILINGS WITH 5/8" TYPE "X" GYPSUM WALL BOARD.

- SOUND ISOLATE PIPES IN STUD PARTITIONS. DO NOT ALLOW PIPING TO TOUCH STUDS, GYPSUM WALL BOARD OR ELECTRICAL DEVICES.
- EXTEND FINISH FLOORING UNDER LIVING UNIT LAVATORIES KITCHEN SINKS, DISHWASHERS AND INTO REFRIGERATOR SPACE.
- INTERIOR OF UTILITY WALL CABINETS SHALL BE 12" CLEAR MINIMUM.
- PROVIDE WALL AND CEILING BACKING FOR ATTACHMENT OF RAILINGS, GRAB BARS AT TUBS, SHOWERS (BACKING MAYBE OMITTED FOR MANUFACTURED ASSEMBLIES WITH INTEGRAL BACKING) AND TOILETS, TUB AND SHOWER SEATS EQUIPMENT, FIXTURES AND CABINETS.
- INSULATION
 - EXTERIOR WALLS: (R-19)
 - ROOF: (R-30)
 - EXTERIOR FLOOR: (R-13)
 - INTERIOR WALL: (R-19)
- COORDINATE LOCATIONS OF LAVATORIES AND SINK WITH CABINET LAYOUT.
- WHERE TWO DIFFERENT WALL TYPES / THICKNESS OCCUR, ESPECIALLY ALONG CORRIDORS, FURR OUT THINNER WALL TO MATCH THICKER WALL AND CONTINUE UNTIL WALL TURNS TO A CORNER OR INTERSECTS A PERPENDICULAR WALL.
- BASE CABINETS UNDER KITCHEN SINKS AND LAVATORIES, INCLUDING TOE BOARD AND SHELVING, SHALL BE REMOVABLE WITHOUT THE USE OF SPECIALIZED TOOLS OR SPECIALIZED KNOWLEDGE TO PROVIDE CLEARANCE FOR A WHEELCHAIR.

SIXTH FLOOR PLAN

SCALE
 1/8" = 1'-0" **1**

- PLAN NOTES**
- FOR EXTERIOR / INTERIOR WALL TYPES SEE SHEET: A5.01 - A5.03
 - HORIZONTAL DIMENSIONS ARE TO FACE OF STUDS, MASONRY OR CONCRETE UNLESS OTHERWISE NOTED. VERTICAL DIMENSIONS ARE TO HARD SURFACE FINISH FLOOR AND TO TOP OF CONCRETE WHERE NO FINISH FLOORING, CARPET OR RESILIENT FLOORING OCCUR.
 - SEE STRUCTURAL DRAWINGS FOR:
 - SIZES AND LOCATIONS OF FRAMING AND PLYWOOD SHEATHING.
 - SPECIAL NAILING AND BLOCKING REQUIREMENTS.
 - HOLD DOWN NOTES AND SCHEDULES.
 - PROVIDE PLYWOOD MATCHING THICKNESS OF ADJACENT SHEAR PANELS ON ALL EXTERIOR WALLS WHERE PLYWOOD SHEAR PANELS DO NOT OCCUR.
 - PRIOR TO PURCHASING OF DOOR FRAMES, VERIFY LOCATION OF SHEAR WALLS, NO. OF LAYERS AND THICKNESS OF PLYWOOD, TOTAL THICKNESS OF WALLS AND DEPTHS OF DOOR FRAMES.
 - IF PLYWOOD SHEATHING IS REQUIRED ON ON SIDE OF A DOOR OR WINDOW, BUT NOT ON THE OTHER SIDE, FURR AS REQUIRED TO MAKE WALLS THE SAME THICKNESS ON BOTH SIDES OF THE DOOR OR WINDOW.
 - LINE WOOD STUD WALLS AND FLOOR / ROOF JOIST SPACES WHERE DUCTS OCCURS WITH 5/8" TYPE "X" GYPSUM WALL BOARD.
 - LINE WOOD STUD WALLS AND OPENINGS IN WOOD STUD WALLS OCCURRING ABOVE CEILINGS WITH 5/8" TYPE "X" GYPSUM WALL BOARD.

- SOUND ISOLATE PIPES IN STUD PARTITIONS. DO NOT ALLOW PIPING TO TOUCH STUDS, GYPSUM WALL BOARD OR ELECTRICAL DEVICES.
- EXTEND FINISH FLOORING UNDER LIVING UNIT LAVATORIES KITCHEN SINKS, DISHWASHERS AND INTO REFRIGERATOR SPACE.
- INTERIOR OF UTILITY WALL CABINETS SHALL BE 12" CLEAR MINIMUM.
- PROVIDE WALL AND CEILING BACKING FOR ATTACHMENT OF RAILINGS, GRAB BARS AT TUBS, SHOWERS (BACKING MAYBE OMITTED FOR MANUFACTURED ASSEMBLIES WITH INTEGRAL BACKING) AND TOILETS, TUB AND SHOWER SEATS EQUIPMENT, FIXTURES AND CABINETS.
- INSULATION
 - EXTERIOR WALLS: (R-19)
 - ROOF: (R-30)
 - EXTERIOR FLOOR: (R-13)
 - INTERIOR WALL: (R-19)
- COORDINATE LOCATIONS OF LAVATORIES AND SINK WITH CABINET LAYOUT.
- WHERE TWO DIFFERENT WALL TYPES / THICKNESS OCCUR, ESPECIALLY ALONG CORRIDORS, FURR OUT THINNER WALL TO MATCH THICKER WALL AND CONTINUE UNTIL WALL TURNS TO A CORNER OR INTERSECTS A PERPENDICULAR WALL.
- BASE CABINETS UNDER KITCHEN SINKS AND LAVATORIES, INCLUDING TOE BOARD AND SHELVING, SHALL BE REMOVABLE WITHOUT THE USE OF SPECIALIZED TOOLS OR SPECIALIZED KNOWLEDGE TO PROVIDE CLEARANCE FOR A WHEELCHAIR.

ROOF PLAN SCALE 1/8" = 1'-0" **1**

- PLAN NOTES**
- FOR EXTERIOR / INTERIOR WALL TYPES SEE SHEET: A5.01 - A5.03
 - HORIZONTAL DIMENSIONS ARE TO FACE OF STUDS, MASONRY OR CONCRETE UNLESS OTHERWISE NOTED. VERTICAL DIMENSIONS ARE TO HARD SURFACE FINISH FLOOR AND TO TOP OF CONCRETE WHERE NO FINISH FLOORING, CARPET OR RESILIENT FLOORING OCCUR.
 - SEE STRUCTURAL DRAWINGS FOR:
 - SIZES AND LOCATIONS OF FRAMING AND PLYWOOD SHEATHING.
 - SPECIAL NAILING AND BLOCKING REQUIREMENTS.
 - HOLD DOWN NOTES AND SCHEDULES.
 - PROVIDE PLYWOOD MATCHING THICKNESS OF ADJACENT SHEAR PANELS ON ALL EXTERIOR WALLS WHERE PLYWOOD SHEAR PANELS DO NOT OCCUR.
 - PRIOR TO PURCHASING OF DOOR FRAMES, VERIFY LOCATION OF SHEAR WALLS, NO. OF LAYERS AND THICKNESS OF PLYWOOD, TOTAL THICKNESS OF WALLS AND DEPTHS OF DOOR FRAMES.
 - IF PLYWOOD SHEATHING IS REQUIRED ON ON SIDE OF A DOOR OR WINDOW, FURR AS REQUIRED TO MAKE WALLS THE SAME THICKNESS ON BOTH SIDES OF THE DOOR OR WINDOW.
 - LINE WOOD STUD WALLS AND FLOOR / ROOF JOIST SPACES WHERE DUCTS OCCURS WITH 5/8" TYPE "X" GYPSUM WALL BOARD.
 - LINE WOOD STUD WALLS AND OPENINGS IN WOOD STUD WALLS OCCURRING ABOVE CEILINGS WITH 5/8" TYPE "X" GYPSUM WALL BOARD.

- SOUND ISOLATE PIPES IN STUD PARTITIONS. DO NOT ALLOW PIPING TO TOUCH STUDS, GYPSUM WALL BOARD OR ELECTRICAL DEVICES.
- EXTEND FINISH FLOORING UNDER LIVING UNIT LAVATORIES KITCHEN SINKS, DISHWASHERS AND INTO REFRIGERATOR SPACE.
- INTERIOR OF UTILITY WALL CABINETS SHALL BE 12" CLEAR MINIMUM.
- PROVIDE WALL AND CEILING BACKING FOR ATTACHMENT OF RAILINGS, GRAB BARS AT TUBS, SHOWERS (BACKING MAYBE OMITTED FOR MANUFACTURED ASSEMBLIES WITH INTEGRAL BACKING) AND TOILETS, TUB AND SHOWER SEATS EQUIPMENT, FIXTURES AND CABINETS.
- INSULATION
 - EXTERIOR WALLS: (R-19)
 - ROOF: (R-30)
 - EXTERIOR FLOOR: (R-13)
 - INTERIOR WALL: (R-19)
- COORDINATE LOCATIONS OF LAVATORIES AND SINK WITH CABINET LAYOUT.
- WHERE TWO DIFFERENT WALL TYPES / THICKNESS OCCUR, ESPECIALLY ALONG CORRIDORS, FURR OUT THINNER WALL TO MATCH THICKER WALL AND CONTINUE UNTIL WALL TURNS TO A CORNER OR INTERSECTS A PERPENDICULAR WALL.
- BASE CABINETS UNDER KITCHEN SINKS AND LAVATORIES, INCLUDING TOE BOARD AND SHELVING, SHALL BE REMOVABLE WITHOUT THE USE OF SPECIALIZED TOOLS OR SPECIALIZED KNOWLEDGE TO PROVIDE CLEARANCE FOR A WHEELCHAIR.

**DETERMINATION – Transit Oriented Communities Affordable Housing Incentive Program and
Site Plan Review**

Pursuant to the Los Angeles Municipal Code (LAMC) Sections 12.22 A.31 and 16.05, I have reviewed the proposed project and as the designee of the Director of Planning, I hereby:

Determine, that based on the whole of the administrative record as supported by the justification prepared and found in the environmental case file, the project is exempt from the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines, Section 15332, Class 32, and there is no substantial evidence demonstrating that any exceptions contained in Section 15300.2 of the CEQA Guidelines regarding cumulative impacts, significant effects or unusual circumstances, scenic highways, hazardous waste sites, or historical resources applies;

Approve with Conditions a Transit Oriented Communities (TOC) Affordable Housing Incentive Program Compliance Review for a qualifying Tier 3 project, totaling 153 dwelling units, reserving 16 units for Extremely Low Income Household occupancy for a period of 55 years, utilizing Base Incentives and the following Additional Incentives:

- a. **Height Increase.** A 22-foot height increase in the R3-1 Zone to a maximum 67 feet in height in lieu of the maximum 45-foot height limit, as otherwise required by LAMC Section 12.21.1.
- b. **Open Space.** A 25 percent reduction in the useable open space requirement to allow a minimum of 12,469 square feet in lieu of the minimum 16,625 square feet, as otherwise required by LAMC Section 12.21 G.2;
- c. **Averaging of Floor Area, Density, Parking, Open Space, and Permitting Vehicular Access.** An averaging of floor area and density over the project site and permit vehicular access from a less restrictive zone to a more restrictive zone.

Approve with Conditions a Site Plan Review for the development project which creates, or results in an increase of, 50 or more dwelling units; and

Adopt the attached Findings and Conditions of Approval.

CONDITIONS OF APPROVAL

1. **Site Development.** Except as modified herein, the project shall be in substantial conformance with the plans and materials submitted by the applicant, stamped Exhibit "A," and attached to the subject case file. No change to the plans shall be made without prior review by the Department of City Planning, Central Project Planning Division, and written approval by the Director of Planning. Each change shall be identified and justified in writing. Minor deviations may be allowed in order to comply with the provisions of the Municipal Code or the project conditions.

Transit Oriented Communities Affordable Housing Incentive Program Conditions

2. **Residential Density.** The project shall be limited to a maximum density of 153 residential dwelling units, including On-Site Restricted Affordable Units.
3. **On-Site Restricted Affordable Units.** Sixteen (16) units shall be reserved for Extremely Low Income Household, as defined by the California Government Code Section 65915 and by the Los Angeles Housing Department (LAHD). In the event the SB 8 Replacement Unit condition requires additional affordable units or more restrictive affordability levels, the most restrictive requirements shall prevail.
4. **Changes in On-Site Restricted Units.** Deviations that increase the number of On-Site Restricted Units or that change the composition of units or parking numbers shall be consistent with LAMC Section 12.22 A.31 and TOC Guidelines.
5. **Housing Requirements.** Prior to the issuance of a building permit, the owner shall execute a covenant to the satisfaction of the Los Angeles Housing Department (LAHD) to make sixteen (16) units available to Extremely Income Households or equal to 10 percent of the project's total proposed residential density allowed, for sale or rental, as determined to be affordable to such households by LAHD for a period of 55 years. In the event the applicant reduces the proposed density of the project, the number of required reserved on-site Restricted Units may be adjusted, consistent with LAMC Section 12.22 A.25, to the satisfaction of LAHD, and in consideration of the project's Replacement Unit Determination. Enforcement of the terms of said covenant shall be the responsibility of LAHD. The applicant shall submit a copy of the recorded covenant to the Department of City Planning for inclusion in this file. The project shall comply with the Guidelines for the Affordable Housing Incentives Program adopted by the City Planning Commission and with any monitoring requirements established by the LAHD. Unless otherwise required by state or federal law, the project shall provide an onsite building manager's unit, which the owner shall designate in the covenant. The Owner may not use an affordable restricted unit for the manager's unit.
6. **Floor Area Ratio (FAR).** The project shall be permitted a maximum Floor Area Ratio (FAR) of 3.41 to allow 174,415 square feet of floor area. Floor area dedicated to commercial uses shall be limited to 4,800 square feet.
7. **Open Space.** The project shall provide a minimum of 12,540square feet of usable open space.
8. **Height.** The Project shall be limited to a maximum building height of 85 feet in the C2-1 Zone and 67 feet in the R3-1 Zone, as measured from Grade.

9. **Averaging of Floor Area Ratio, Density, Parking or Open Space, and permitting Vehicular Access.** The project is permitted to average floor area ratio, density, parking, and open space over the project site, and permit vehicular access from a less restrictive zone to a more restrictive zone.
10. **Residential Automobile Parking.** Automobile parking shall be provided at a minimum of 0.5 spaces per unit for a minimum of 77 residential spaces for the project located in Tier 3. Additionally, 7 commercial automobile parking spaces shall be provided. The Project is proposing 207 parking spaces, with 200 spaces for residential uses and 7 spaces for commercial uses.
11. **Unbundling.** Required parking may be sold or rented separately from the units with the exception of all Restricted Affordable Units which shall include any required parking in the base rent or sales price, as verified by LAHD.
12. **Bicycle Parking.** Bicycle parking shall be provided consistent with LAMC Section 12.21 A.16.

Site Plan Review Conditions

13. **Commercial Use.** The project shall be limited to 4,800 square feet of commercial space.
14. **Materials.** A variety of high-quality exterior building materials, consistent with the approved Exhibit "A" shall be used. Substitutes of an equal quality may be permitted to the satisfaction of the Department of City Planning.
15. **Parking Screening.** With the exception of vehicle and pedestrian entrances, facades of all above-grade vehicle parking structures shall be enclosed and screened to minimize visual impacts on the public realm in substantial conformance with Exhibit "A".
16. **Landscape Plan.** All open areas not used for buildings, driveways, parking areas, recreational facilities or pedestrian pathways shall be attractively landscaped, including an automatic irrigation system, and maintained in accordance with a landscape plan prepared by a licensed landscape architect or architect and submitted for approval to the Department of City Planning, Development Services Center. The landscape plan shall indicate landscape points for the project equivalent to 10 percent more than otherwise required by LAMC 12.40 and Landscape Ordinance Guidelines.
17. **Landscape Maintenance.** All landscaped areas, trees, shrubs and ground cover shall be maintained as healthy and vigorous at all times; irrigation systems shall be continuously maintained pursuant to LAMC Section 12.41 B.5.
18. **Trees.** The applicant shall plant a minimum of (69) 24-inch box trees, or larger, on site and/or in the public right-of-way pursuant to LAMC Section 12.21 G.2. Street trees shall be provided to the satisfaction of the Urban Forestry Division. 12.21.G.3 (Chapter 1, Open Space Requirement for Six or More Residential Units). Per Exhibit A and 12.21.G.3, twelve (12) Street trees shall be provided, including 7 existing and 5 new Trees.
19. **Electric Vehicle Parking.** All electric vehicle charging spaces (EV Spaces) and electric vehicle charging stations (EVCS) shall comply with the regulations outlined in Sections

99.04.106 and 99.05.106 of Article 9, Chapter IX of the LAMC, to the satisfaction of the Department of Building and Safety.

20. **Trash Storage.** Trash storage and collection shall be enclosed in the parking garage and no visible from the public right-of-way. Trash collection shall occur within the enclosed parking garage and shall not interfere with traffic on any public street.
21. **Mechanical Equipment.** All mechanical equipment on the roof shall be screened from view. All surface or ground mounted mechanical equipment shall be screened from public view and treated to match the materials and colors of the building which they serve.
22. **Lighting.** All outdoor and parking lighting shall be shielded and down-cast within the site in a manner that prevents the illumination of adjacent public rights-of-way, adjacent properties and the night sky unless otherwise required by the Federal Aviation Administration (FAA) or for other public safety purposes.
23. **Maintenance.** The project site (including all trash storage areas, associated parking facilities, sidewalks, yard areas, parkways, and exterior walls along the property lines) shall be maintained in an attractive condition and shall be kept free of trash and debris.
24. **Signage.** Any signage shall comply with the Municipal Code or other applicable laws. No sign rights are granted with this case. There shall be no off-site signage on construction fencing during construction.
25. **Soil Management.** During the grading, hauling and construction phases of the project, the project applicant shall implement the Soil Management Plan prepared by Environ Phase Consulting dated November 15, 2023. Additionally, the project applicant shall post the Soil Management Plan, including the Health and Safety Plan (Attachment B) at the worksite.

Administrative Conditions

26. **Final Plans.** Prior to the issuance of any building permits for the project by the Department of Building & Safety, the applicant shall submit all final construction plans that are awaiting issuance of a building permit by the Department of Building & Safety for final review and approval by the Department of City Planning. All plans that are awaiting issuance of a building permit by the Department of Building & Safety shall be stamped by Department of City Planning staff "Final Plans". A copy of the Final Plans, supplied by the applicant, shall be retained in the subject case file.
27. **Notations on Plans.** Plans submitted to the Department of Building & Safety, for the purpose of processing a building permit application shall include all of the Conditions of Approval herein attached as a cover sheet and shall include any modifications or notations required herein.
28. **Approval, Verification and Submittals.** Copies of any approvals, guarantees or verification of consultations, review of approval, plans, etc., as may be required by the subject conditions, shall be provided to the Department of City Planning prior to clearance of any building permits, for placement in the subject file.
29. **Code Compliance.** Use, area, height, and yard regulations of the zone classification of the subject property shall be complied with, except where granted conditions differ herein.

30. **Department of Building & Safety.** The granting of this determination by the Director of Planning does not in any way indicate full compliance with applicable provisions of the Los Angeles Municipal Code Chapter IX (Building Code). Any corrections and/or modifications to plans made subsequent to this determination by a Department of Building & Safety Plan Check Engineer that affect any part of the exterior design or appearance of the project as approved by the Director, and which are deemed necessary by the Department of Building & Safety for Building Code compliance, shall require a referral of the revised plans back to the Department of City Planning for additional review and sign-off prior to the issuance of any permit in connection with those plans.
31. **Department of Water and Power.** Satisfactory arrangements shall be made with the Los Angeles Department of Water and Power (LADWP) for compliance with LADWP's Rules Governing Water and Electric Service. Any corrections and/or modifications to plans made subsequent to this determination in order to accommodate changes to the project due to the under-grounding of utility lines, that are outside of substantial compliance or that affect any part of the exterior design or appearance of the project as approved by the Director, shall require a referral of the revised plans back to the Department of City Planning for additional review and sign-off prior to the issuance of any permit in connection with those plans.
32. **Enforcement.** Compliance with and the intent of these conditions shall be to the satisfaction of the Department of City Planning.
33. **Expiration.** In the event that this grant is not utilized within three years of its effective date (the day following the last day that an appeal may be filed), the grant shall be considered null and void. Issuance of a building permit, and the initiation of, and diligent continuation of, construction activity shall constitute utilization for the purposes of this grant.
34. **Recording Covenant.** Prior to the issuance of any permits relative to this matter, a covenant acknowledging and agreeing to comply with all terms and conditions established herein shall be recorded in the County Recorder's Office. The agreement (standard master covenant and agreement form CP-6770) shall run with the land and shall be binding on any subsequent owners, heirs or assigns. The agreement with the conditions attached must be submitted to the Development Services Center for approval before being recorded. After recordation, a certified copy bearing the Recorder's number and date shall be provided to the Development Services Center at the time of Condition Clearance for attachment to the subject case file.
35. **Indemnification and Reimbursement of Litigation Costs.**

Applicant shall do all of the following:

- (i) Defend, indemnify and hold harmless the City from any and all actions against the City relating to or arising out of, in whole or in part, the City's processing and approval of this entitlement, including but not limited to, an action to attack, challenge, set aside, void, or otherwise modify or annul the approval of the entitlement, the environmental review of the entitlement, or the approval of subsequent permit decisions, or to claim personal property damage, including from inverse condemnation or any other constitutional claim.
- (ii) Reimburse the City for any and all costs incurred in defense of an action related to or arising out of, in whole or in part, of the City's processing and approval of the entitlement, including but not limited to payment of all court costs and attorney's fees, costs of any

judgments or awards against the City (including an award of attorney's fees), damages, and/or settlement costs.

- (iii) Submit an initial deposit for the City's litigation costs to the City within 10 days' notice of the City tendering defense to the applicant and requesting a deposit. The initial deposit shall be in an amount set by the City Attorney's Office, in its sole discretion, based on the nature and scope of action, but in no event shall the initial deposit be less than \$50,000. The City's failure to notice or collect the deposit does not relieve the applicant from responsibility to reimburse the City pursuant to the requirement in paragraph (ii).
- (iv) Submit supplemental deposits upon notice by the City. Supplemental deposits may be required in an increased amount from the initial deposit if found necessary by the City to protect the City's interests. The City's failure to notice or collect the deposit does not relieve the applicant from responsibility to reimburse the City pursuant to the requirement in paragraph (ii).
- (v) If the City determines it necessary to protect the City's interest, execute an indemnity and reimbursement agreement with the City under terms consistent with the requirements of this condition.

The City shall notify the applicant within a reasonable period of time of its receipt of any action and the City shall cooperate in the defense. If the City fails to notify the applicant of any claim, action, or proceeding in a reasonable time, or if the City fails to reasonably cooperate in the defense, the applicant shall not thereafter be responsible to defend, indemnify or hold harmless the City.

The City shall have the sole right to choose its counsel, including the City Attorney's office or outside counsel. At its sole discretion, the City may participate at its own expense in the defense of any action, but such participation shall not relieve the applicant of any obligation imposed by this condition. In the event the applicant fails to comply with this condition, in whole or in part, the City may withdraw its defense of the action, void its approval of the entitlement, or take any other action. The City retains the right to make all decisions with respect to its representations in any legal proceeding, including its inherent right to abandon or settle litigation.

For purposes of this condition, the following definitions apply:

"City" shall be defined to include the City, its agents, officers, boards, commissions, committees, employees, and volunteers.

"Action" shall be defined to include suits, proceedings (including those held under alternative dispute resolution procedures), claims, or lawsuits. Actions includes actions, as defined herein, alleging failure to comply with any federal, state or local law.

Nothing in the definitions included in this paragraph are intended to limit the rights of the City or the obligations of the applicant otherwise created by this condition.

PROJECT BACKGROUND

The project consists of 12 continuous rectangle-shaped lots in an L-shaped configuration with a total lot size of approximately 51,124 square feet (48,512 square feet after dedication). The project site is located on the northerly side of Olympic Boulevard with approximately 247 of street frontage. The project site is bounded to the west by Gramercy Drive where it has 275 feet of street frontage, and to the east by Saint Andrews Place where it has 125 feet of street frontage. The project is zoned C2-1 and R3-1 and designated for General Commercial and Medium Residential. The project is not located within the boundaries of or subject to any specific plan, community design overly or "Q" Qualified Conditions or "D" Development Limitations ordinance. The site is located within the Los Angeles State Enterprise Zone, the City of Los Angeles Transit Priority Area and is within the Housing Element Inventory of Sites. Additionally, the site is within Urban Agriculture Incentive Zone Area. The project site is not within a liquification area or a flood zone.

The site is currently improved with two commercial structures. These include a non-operating restaurant on 3377 Olympic Boulevard, and an auto repair facility on 3355 Olympic Boulevard. Prior to November 11, 2022, there was also a vacant structure at 989 Saint Andrews Place that previously operated as a nursery school. However, the structure suffered from a fire on November 11, 2022, that resulted in damage to the building requiring its demolition due to public safety concerns. On January 20, 2023, the project was issued a permit to allow the demolition of the structure (#23019-10000-00306). The demolition of the structure occurred during May 1 through May 9, 2023. Per email correspondence dated February 7, 2023, with the Department of City Planning Office of Historic Resources (OHR), OHR confirmed that the nursery school along Saint Andrews Place is not eligible as a historic resource. Additionally, OHR confirmed via email dated September 25, 2023, that the commercial structures along Olympic Boulevard are not eligible as historic resources. The project proposes to remove one (1) protected tree, an Oak tree, *Quercus Lobata* and to replace with four (4) Southern California Black Walnut, *Juglas Californica*, a different type of protected tree species. Additionally, the project proposes the removal of three (3) street trees. The replacement of the removed street trees shall be to the satisfaction of Urban Forestry Division (UFD). The removal of street trees is subject to a replacement ratio of 2:1 ratio to the satisfaction of UFD.

The surrounding properties are developed with urban uses. Properties to the south, across Olympic Boulevard, are zoned C2-1, designated for General Commercial, and improved with a three-story commercial building housing a community bank and a parking lot. To the west across Gramercy Drive and along Olympic Boulevard there is a five-story hotel on a lot that is zoned C2-1, designated General Commercial. To the north of the hotel, along Gramercy Drive, properties are zoned R3-1, designated Medium Residential and are improved with one and two story multifamily and single-family structures. Adjoining the subject property to the north along Gramercy Drive the lot is zoned R3-1, designated Medium Residential and improved with a 19-unit three story multifamily structure. Adjoining the property to the north along Saint Andrew's Place the site is zoned R3-1, designated Medium Residential and improved multifamily buildings. To the east of the subject project on Olympic the property is zoned C2-1, designed General Commercial and is improved with a one-story commercial structure that is currently used by automotive repair facilities. To the east of the subject project along Saint Andrews Place, north of the automotive repair facilities, the property is zoned R3-1, designated Medium Residential and improved with a two-story duplex.

The proposed project includes the demolition of the two existing commercial structures along Olympic Boulevard as well as the nursery school on Saint Andrews Place, as well as the construction use and maintenance of a 7-story mixed-use development containing 174,415

square feet of floor area, with a floor area ratio (FAR) of 3.41:1. The project proposes 4,800 square feet of commercial uses and a total of 153 dwelling units, 137 of which will be market-rate and 16 will be restricted to Extremely Low-Income Households. The building will have a maximum of 85 feet, as measured from grade. The unit mix will be comprised of 114 one-bedroom, 32 two-bedroom, 6 three-bedroom and 1 four-bedroom units. The project will provide 136 standard automobile parking spaces, 4 ADA parking spaces, 20 EVSE parking spaces and 40 EV parking spaces, 102 long-term bicycle parking spaces and 11 short-term bicycle parking spaces for residential use. Additionally, the project will provide 3 standard automobile parking spaces, 1 ADA parking spaces, 1 EVSE parking spaces and 2 EV parking spaces, 3 long-term bicycle parking spaces and 3 short-term bicycle parking spaces for commercial use. Seven commercial automobile parking spaces and 14 residential automobile parking spaces will be located on the ground floor. Basement Level 1 will provide 88 residential automobile parking spaces and Basement Level 2 will provide 98 residential automobile parking spaces. Seven commercial bicycle parking spaces will be located on the ground floor along with 11 short-term residential bicycle parking spaces. 102 long-term residential bicycle parking spaces will be located on Basement Level 1.

A total of 12,540 square feet of usable open space, consisting of 8,140 common open spaces and 4,400 square feet of balconies, will be provided. The project proposes the removal of one (1) protected medium Size Valley Oak *Quercus lobata* and 20 on-site non-protected trees and five (5) street trees in the public right-of-way. Additionally, the applicant proposes to plant sixty-nine (69) 24-inch box trees on-site. The project proposes grading and export of approximately 57,525 cubic yards of earth.

HOUSING REPLACEMENT (SB 8 DETERMINATION) BACKGROUND

In addition to the requirements of California State Density Bonus Law, on October 9, 2019, the Governor signed into law the Housing Crisis Act of 2019 (HCA) through Senate Bill (SB) 330 (2019). SB 330 created new statewide rules regarding the production, preservation and planning for housing. The HCA establishes a statewide temporary housing emergency and has been in effect since January 1, 2020. Subsequently, on September 16, 2021, the Governor signed into law SB 8 (2021), the first major clarification of the HCA. SB 8 is in effect as of January 1, 2022. SB 8 extended the term of the emergency period and expanded the provisions established by SB 330 onto Housing Development Projects consisting of a single residential unit and to projects that require no discretionary approvals. Furthermore, as amended by SB 8, a Protected Unit is required to be replaced in a Housing Development Project consisting of two or more units with a unit of equivalent size and include a right-of-first refusal and relocation assistance for lower income occupants of a Protected Unit and a right to remain up to six months prior to the start of construction activities for all occupants. For the duration of the statewide housing emergency, the HCA, among other things, creates new housing replacement requirements for Housing Development Projects by prohibiting the approval of any proposed Housing Development Project on a site that will require the demolition of existing residential dwelling units or occupied or vacant "Protected Units" unless the proposed housing development project replaces those units.

Pursuant to the SB 8 (TOC) Determination Letter dated February 22, 2022, and prepared by the Los Angeles Housing and Community Investment Department (HCIDLA), the provisions of SB 330 do not apply to commercial properties. Therefore, no SB 330 replacement affordable units are required. The project proposes to set aside 13 units for Extremely Low Income Households. As such, the project complies with SB 8.

TRANSIT ORIENTED COMMUNITIES AFFORDABLE HOUSING INCENTIVE PROGRAM BACKGROUND

Measure JJJ was adopted by the Los Angeles City Council and established the Transit Oriented Communities (TOC) Affordable Housing Incentive Program. The measure required that the Department adopt a set of TOC Guidelines, which establishes incentives for residential and mixed-use projects located within one-half mile of a major transit stop, as defined under existing State law.

The TOC Affordable Housing Incentive Program Guidelines (TOC Guidelines), released on September 22, 2017, and amended on February 26, 2018, established a tier-based system with varying development bonuses and incentives based on a project's distance from different types of transit. The largest bonuses are reserved for those areas in the closest proximity to significant rail stops or the intersection of major bus rapid transit lines. Required affordability levels are increased incrementally in each higher tier. The incentives provided in the TOC Guidelines describe the range of bonuses from particular zoning standards that applicants may select.

Per the TOC Referral Form, dated October 8, 2020, the project site is located within one-half mile of the Los Angeles County Metropolitan Transportation Authority (Metro) Rapid 705 and Santa Monica Bus 7 transit stops. As such, the project is eligible for Tier 3 TOC Affordable Housing Incentives.

Tier 3 Base Incentives require On-Site Restricted Affordable Units at the rate of 10 percent of the total number of units for Extremely Low Income Households. The project proposes to set aside 16 units, that is 10 percent of the total 153 units, for Extremely Low Income Households. The project qualifies for three (3) additional incentives if eleven (11) percent of the base 90 units is set aside for Extremely Low Income Households. The project proposes to set aside 16 units, that is eleven (11) percent of the base 90 units, for Extremely Low Income Households. As such, the project is eligible for up to three (3) Additional Incentives.

The project is eligible for the following Tier 3 Base Incentives, which are granted by-right for eligible TOC projects:

1. Density. A 70-percent increase in density to allow a total of 153 units in lieu of 90 base units.

The project is zoned C2-1 and R3-1, which allows a maximum density of one dwelling unit per 400 square feet of lot area and one dwelling unit per 800 square feet of lot area. The project site includes approximately 19,829 square feet of lot area in the C2-1 Zone and approximately 31,295 square feet of lot area in the R3-1 Zone. With a 70-percent increase in density permitted in Tier 3 of the TOC Guidelines, the project is permitted a total density of 153 units. The project is proposing 153 units, which is within the maximum density permitted.

2. FAR. An increase in the FAR to 3.75:1 in lieu of the 1.5:1 base FAR in the C2-1 Zone; and an increase in FAR to 4.5:1 in lieu of the 3:1 base FAR in the R3-1 Zone.

The project site is zoned C2-1, which allows a maximum FAR of 1.5:1, and R3-1, which allows a maximum FAR of 3.5:1. The TOC Guidelines allow an increase in the maximum FAR to permit a FAR of 3.75:1 or an increase of 50%. The buildable area in the portion of

the site zoned C2-1 is 19,829 square feet per LAMC Section 12.02, which allows a maximum floor area of 74,358.75 square feet with a 3.75:1 FAR. In the portion of the site that is zoned R3-1, the buildable portion is 25,691 square feet per LAMC Section 12.02, which allows a maximum floor area of 115,609.2 square feet with a 4.5:1 FAR. Combined this would allow 189,968.25 square-feet of floor area. The project proposes 174,415 square feet of floor area which is below the maximum floor area of 189,968.25 square feet. The FAR for the project is 3.41:1, which is below the maximum allowed of 3.75:1 FAR for qualifying TOC projects.

3. **Parking.** A minimum of 0.5 automobile parking spaces per residential unit for an eligible Tier 3 Transit Oriented Communities. The number of required automobile parking spaced for commercial uses shall be reduced by 30%. The project proposes a total of 153 dwelling units. The TOC Guidelines allow 0.5 spaces per dwelling unit, which requires a minimum of 77 parking spaces. The project proposes 200 parking spaces for residential uses, which meets the minimum requirement. LAMC 12.21.4 (c) requires one parking spot for each 500 square feet of commercial floor area. The project proposed to build 4,800 square feet of commercial floor area. Rounding up to 5,000 square feet results in a requirement of 10 automobile parking spaces for commercial use. TOC Guidelines offer a 30% reduction in commercial parking. The project proposed to provide 7 automobile parking spaces for commercial use, which is in compliance with the required commercial automobile parking requirement.

Pursuant to TOC Guidelines, the applicant requests three (three) incentives Tier 3 Additional Incentives as follows:

1. **Height:** 22-foot increase in height in the R3-1 Zone to a Maximum Height of 67 feet in lieu of the maximum height otherwise allowed of 45 feet for a site zoned R3-1 pursuant to LAMC 12.21.1. The height incentive in the TOC program allows Eligible Housing Developments in Tier 3 areas 22 additional feet in height. The project proposed a 22-foot increase on the portion of the site zoned R3-1. The project proposes a height of 85 on the portion of the site that is zoned C2-1 and 67 feet in the R3-1 Zone. There is no height restriction on the C2-1 zone, as such the height of the project in the area of the site that is zoned C2-1 is in compliance with the LAMC.
2. **Open Space.** Up to a 25 percent decrease in the required open space to allow 14,469 square feet in lieu of 16,575 square feet. Per LAMC 12.21.G.2, the project is required to provide 100 square feet of open space per each studio and one (1) bedroom unit and 125 square feet of open space per each two (2) bedroom unit. LAMC 12.22 A.25(f)(6)i. allows up to a 25-percent decrease in open space in Tier 3. The project proposes 12,540 square feet of open space, which meets the minimum requirement.
3. **Averaging of FAR, Density, Parking, and Open Space, and Vehicular Access.** The TOC program allows for Eligible Housing Developments to average FAR, Density, Parking, Open Space, and Vehicular Access. The TOC Program Guidelines allow projects that set-aside 11% of number of their base units for Extremely Low Income residents the option to request three additional incentives. The project is setting aside 16 units for ELI residents, which is more than 11% of the projects 90 base units. As such this third incentive is allowed under the TOC guidelines.

TRANSIT ORIENTED COMMUNITIES AFFORDABLE HOUSING INCENTIVE PROGRAM ELIGIBILITY REQUIREMENTS

To be an eligible TOC Housing Development, a project must meet the Eligibility criteria set forth in Section IV of the TOC Guidelines. A Housing Development located within a TOC Affordable Housing Incentive Area shall be eligible for TOC Incentives if it meets all of the following requirements, which it does:

1. *On-Site Restricted Affordable Units. In each Tier, a Housing Development shall provide On-Site Restricted Affordable Units at a rate of at least the minimum percentages described below. The minimum number of On-Site Restricted Affordable Units shall be calculated based upon the total number of units in the final project.*
 - a. *Tier 1 - 8% of the total number of dwelling units shall be affordable to Extremely Low Income (ELI) Households, 11% of the total number of dwelling units shall be affordable to Very Low (VL) Income Households, or 20% of the total number of dwelling units shall be affordable to Lower Income Households.*
 - b. *Tier 2 - 9% ELI, 12% VL or 21% Lower.*
 - c. *Tier 3 - 10% ELI, 14% VL or 23% Lower.*
 - d. *Tier 4 - 11% ELI, 15% VL or 25% Lower.*

Per the TOC Referral Form, the project qualifies for Tier 3 TOC Affordable Housing Incentives. As such, the project is required to reserve at least 10 percent, or 16 units, of the total 153 units for Extremely Low Income Households. The project proposes to reserve 16 units for Extremely Low Income Households. As such, the project satisfies the eligibility requirement for On-Site Restricted Affordable Units.

2. **Major Transit Stop.** *A Housing Development shall be located on a lot, any portion of which must be located within 2,640 feet of a Major Transit Stop, as defined in Section II and according to the procedures in Section III.2 of the TOC Guidelines.*

A Major Transit Stop is a site containing a rail station or the intersection of two or more bus routes with a service interval of 15 minutes or less during the morning and afternoon peak commute periods. Per the TOC Referral Form, dated April 6, 2022, the project site is located within one-half mile of the Metro Route 207 (NextGen) and the Metro Route 28 (NextGen) transit stops with a service interval of 15 minutes or less during the morning and afternoon peak commute periods. As such, the project meets the eligibility requirement for proximity to a Major Transit Stop.

3. **Housing Replacement.** *A Housing Development must meet any applicable housing replacement requirements of California Government Code Section 65915(c)(3), as verified by the Department of Housing and Community Investment (HCIDLA) prior to the issuance of any building permit. Replacement housing units required per this section may also count towards other On-Site Restricted Affordable Units requirements.*

Pursuant to the SB 8 (TOC) Determination Letter dated February 22, 2022, and prepared by the Los Angeles Housing Department (LAHD), the provisions of SB 8 do not apply to commercial properties. Therefore, no SB 8 replacement affordable units are required. As such, the project complies with SB 8 and meets the eligibility requirements for housing replacement.

4. **Other Density or Development Bonus Provisions.** *A Housing Development shall not seek and receive a density or development bonus under the provisions of California Government Code Section 65915 (State Density Bonus law) or any other State or local program that provides development bonuses. This includes any development bonus or other incentive granting additional residential units or floor area provided through a General Plan Amendment, Zone Change, Height District Change, or any affordable housing development bonus in a Transit Neighborhood Plan, Community Plan Implementation Overlay (CPIO), Specific Plan, or overlay district.*

The project is not seeking any additional density or development bonuses under the provisions of the State Density Bonus Law or any other State or local program that provides development bonuses, including, but not limited to a General Plan Amendment, Zone Change, Height District Change, or any affordable housing development bonus in a Transit Neighborhood Plan, Community Implementation Overlay (CPIO), Specific Plan, or overlay district. As such, the project meets this eligibility requirement.

5. **Base Incentives and Additional Incentives.** *All Eligible Housing Developments are eligible to receive the Base Incentives listed in Section VI of the TOC Guidelines. Up to three Additional Incentives listed in Section VII of the TOC Guidelines may be granted based upon the affordability requirements described below. For the purposes of this section below, “base units” refers to the maximum allowable density allowed by the zoning, prior to any density increase provided through these Guidelines. The affordable housing units required per this section may also count towards the On-Site Restricted Affordable Units requirement in the Eligibility Requirement No. 1 above (except Moderate Income units).*

- a. *One Additional Incentive may be granted for projects that include at least 4% of the base units for Extremely Low Income Households, at least 5% of the base units for Very Low Income Households, at least 10% of the base units for Lower Income Households, or at least 10% of the base units for persons and families of Moderate Income in a common interest development.*
- b. *Two Additional Incentives may be granted for projects that include at least 7% of the base units for Extremely Low Income Households, at least 10% of the base units for Very Low Income Households, at least 20% of the base units for Lower Income Households, or at least 20% of the base units for persons and families of Moderate Income in a common interest development.*
- c. *Three Additional Incentives may be granted for projects that include at least 11% of the base units for Extremely Low Income Households, at least 15% of the base units for Very Low Income Households, at least 30% of the base units for Lower Income Households, or at least 30% of the base units for persons and families of Moderate Income in a common interest development.*

The project is seeking three (3) Additional Incentives for increased height, reduced open space, and averaging of FAR, density, parking, open space, and vehicular access, which requires at least eleven (11) percent of the 90 base units to be set aside for Extremely Low Income Households for three (3) additional incentives. The project proposes to set aside 16 units for Extremely Low Income Households, which is seven (17) percent of the 90 base units. As such, the project meets the eligibility requirement for Additional Incentives.

6. **Projects Adhering to Labor Standards.** *Projects that adhere to the labor standards required in LAMC 11.5.11 may be granted two Additional Incentives from the menu in Section VII of these Guidelines (for a total of up to five Additional Incentives).*

The project is not seeking two (2) Additional Incentives beyond the three (3) incentives for which the project qualifies. As such, the project need not adhere to the labor standards required in LAMC Section 11.5.11, and this eligibility requirement does not apply.

7. **Multiple Lots.** *A building that crosses one or more lots may request the TOC Incentives that correspond to the lot with the highest Tier permitted by Section III above.*

The project site consists of 12 contiguous lots which are all located within a Tier 3 TOC Affordable Housing Incentive Area. As such, this eligibility requirement does not apply.

8. **Request for a Lower Tier.** *Even though an applicant may be eligible for a certain Tier, they may choose to select a Lower Tier by providing the percentage of On-Site Restricted Affordable Housing units required for any lower Tier and be limited to the Incentives available for the lower Tier.*

The applicant has not selected a lower Tier. As such, this eligibility requirement does not apply.

9. **100% Affordable Housing Projects.** *Buildings that are Eligible Housing Developments that consist of 100% On-Site Restricted Affordable units, exclusive of a building manager's unit or units shall, for purposes of these Guidelines, be eligible for one increase in Tier than otherwise would be provided.*

The proposed project does not consist of 100-percent On-Site Restricted Affordable units. As such, this eligibility requirement does not apply.

TRANSIT ORIENTED COMMUNITIES AFFORDABLE HOUSING INCENTIVE PROGRAM / AFFORDABLE HOUSING INCENTIVES COMPLIANCE FINDINGS

Pursuant to Section 12.22 A.31(e) of the LAMC, the Director shall review a Transit Oriented Communities (TOC) Affordable Housing Incentive Program project application in accordance with the procedures outlined in LAMC Section 12.22 A.25(g).

1. **Pursuant to Section 12.22 A.25(g) of the LAMC, the Director shall approve a density bonus and requested incentives unless the Director finds that:**
 - a. **The incentives are not required to provide for affordable housing costs as defined in California Health and Safety Code Section 50052.5 or Section 50053 for rents for the affordable units.**

The record does not contain substantial evidence that would allow the Director to make a finding that the requested incentives are not necessary to provide for affordable housing costs per State Law. The California Health & Safety Code Sections 50052.5 and 50053 define formulas for calculating affordable housing costs for Very Low, Low, and Moderate Income Households. Section 50052.5 addresses owner-occupied housing and Section 50053 addresses rental households. Affordable housing costs are a calculation of residential rent or ownership pricing not to exceed 25-percent gross

income based on area median income thresholds dependent on affordability levels.

The list of incentives in the TOC Guidelines was pre-evaluated at the time the TOC Affordable Housing Incentive Program Ordinance was adopted to include types of relief that minimize restrictions on the size of the project. As such, the Director will always arrive at the conclusion that the on-menu incentives are required to provide for affordable housing costs because the incentives by their nature increase the scale of the project.

The following incentives allow the developer to increase height, decrease the usable open space and average FAR, density, parking, open space, and vehicular access so that affordable housing units reserved for 16 Extremely Low Income Households can be constructed and the overall space dedicated to residential uses is increased. These incentives are expressed in the TOC Guidelines which permit exceptions to zoning requirements that result in building design or construction efficiencies that provide for affordable housing costs. These incentives also support the applicant's decision to reserve 16 units of the total 153 units for Extremely Low Income Households.

Height. Increase height in the portion of the size zoned R3-1 by 22 feet to a total height not to exceed 67 feet, in lieu of the required 45 feet pursuant to LAMC Section 12.21.1.

Open Space. A 4,035-square-foot reduction in the usable open space, permitting 12,469 square feet in lieu of the otherwise required 16,625 square feet pursuant to LAMC Section 12.21 G.2.

Averaging of FAR, Density, Parking, Open Space and Vehicular Access. The project site is within the C2-1 and R3-1 Zones, which vary in their FAR, density and height requirements, among other differences. The project seeks to average FAR, Density, Parking, Open Space and Vehicular Access across the entire project site.

- b. The Incentive will not have a specific adverse impact upon public health and safety or the physical environment, or on any real property that is listed in the California Register of Historical Resources and for which there are no feasible method to satisfactorily mitigate or avoid the specific adverse impact without rendering the development unaffordable to Very Low, Low and Moderate Income Households. Inconsistency with the zoning ordinance or the general plan land use designation shall not constitute a specific, adverse impact upon the public health or safety.**

There is no evidence in the record that the proposed incentive will have a specific adverse impact. A "specific adverse impact" is defined as, "a significant, quantifiable, direct and unavoidable impact, based on objective, identified written public health or safety standards, policies, or conditions as they existed on the date the application was deemed complete" (LAMC Section 12.22 A.25(b)). The finding that there is no evidence in the record that the proposed incentives will have a specific adverse impact is further supported by the CEQA findings. The findings to deny an incentive under Density Bonus Law are not equivalent to the findings for determining the existence of a significant unavoidable impact under CEQA. However, under a number of CEQA impact thresholds, the City is required to analyze whether any environmental changes caused by the project have the possibility to result in health and safety impacts. For example, CEQA Guidelines Section 15065(a)(4), provides that the City is required to

find a project that will have a significant impact on the environment and require an EIR if the environmental effects of a project will cause a substantial adverse effect on human beings.

The proposed project and potential impacts were analyzed in accordance with the CEQA Guidelines. The project was evaluated against the exceptions to the use of Categorical Exemptions pursuant to Section 15300.2 of the CEQA Guidelines. The Director of Planning determined that none of the exceptions apply to the proposed project and the project is Categorically Exempt from CEQA pursuant to Class 32 of the CEQA Guidelines. Therefore, there is no substantial evidence that the proposed project will have a specific adverse impact upon public health and safety or the environment, or on any real property that is listed in the California Register of Historical Resources.

The project was required to provide Phase I and Phase II Environmental Site Assessments. These reports were triggered due to the automotive uses at 3355 West Olympic Blvd. The site at 3355 West Olympic Boulevard was used as a gasoline station from 1940 through 1968. Since 1968 the site has been used as an automotive repair facility. Phase II ESAs were produced for all the sites involved in the project. The Phase II ESA for 3355 West Olympic Boulevard found elevated levels of total petroleum hydrocarbons (TPH) at sample site B1 and B2 at a depth of 10 feet. The report noted that converting the site to a more sensitive use, such as underground parking, would require special handling of the soil to protect the health of workers. The report did not cite any health risks to residents. Environ Phase Consulting produced a Soil Management Plan (SMP) to address the potential health risk to workers related to handling soil. The SMP provides clear roles and responsibilities for parties involved in the removal and processing of soil at the site. Additionally, the SMP provides processes for testing and notifying regional and state regulators if environmental issues arise. The SMP provides clear thresholds for reporting issues to the Los Angeles Regional Water Quality Control Board (LARWQCB) and the Department of Toxic Substances Control (DTSC). Given the processes implemented through the SMP and the Regulatory Compliance Measures through LARWQCB and the DTSC, the removal of contaminated soil does not constitute an environmental impact.

SITE PLAN REVIEW FINDINGS

The following is a delineation of the findings related to the applicant's request for Site Plan Review for a proposed project resulting in an increase of 50 or more dwelling units pursuant to Section 16.05 of the Los Angeles Municipal Code.

- 2. That the project is in substantial conformance with the purposes, intent and provisions of the General Plan, applicable community plan and any applicable specific plan.**

The General Plan sets forth goals, objectives, and programs that serve as the foundation for all land use decisions. The City of Los Angeles' General Plan consists of the Framework Element, seven State-mandated Elements including, Land Use, Mobility, Housing, Conservation, Noise Safety, and Open Space, and optional elements including Air Quality and Service Systems. The Land Use Element is comprised of 35 community plans that establish parameters for land use decisions within those subareas of the City.

The Wilshire Community Plan designates the subject site for General Commercial and Medium Residential land uses corresponding to C1, C1.5, C2, C4, RAS3 and RAS4 (for General Commercial), and R3 (for Medium Residential). The Wilshire Community Plan designates the subject site for General Commercial land use corresponding to the C2-1 zone and the subject site for Medium Residential land use to the R3-1 zone, as such the zoning for the subject property is in conformance with its land use designations.

The proposed project includes the demolition of the two existing commercial structures along Olympic Boulevard. As stated previously the nursery school on Saint Andrews Place was demolished previously in response to safety issues related to a fire at the structure. In addition to the demolition of the previously mentioned structures, the project also proposes the construction use and maintenance of a 7-story mixed-use development containing 174,415 square feet of floor area, with a maximum floor area ratio (FAR) of 3.41:1. The project proposes 4,800 square feet of commercial uses and a total of 153 dwelling units, 137 of which will be market-rate and 16 will be restricted to Extremely Low Income Households. The building will have a maximum of 85 feet in height, as measured from grade. The applicant is utilizing the base incentives afforded via the Transit Oriented Communities Affordable Housing Incentive Program and proposes to set aside 10 percent, or 16 dwelling units, of the 153 units for Extremely Low Income Households. The gain of 153 units aligns with the goals and objectives of the General Plan Elements: Framework Element, Housing Element, Mobility Element, and the Land Use Element – Wilshire Community Plan. The project site is not subject to any specific plans.

Framework Element

The Framework Element is a strategy for long-term growth which sets a citywide context to guide the update of the Community Plan and Citywide Elements. The Framework Element is a comprehensive, long range document containing purposes, policies and programs for the development of the City of Los Angeles. The Citywide General Plan Framework text defines policies related to growth and includes policies for land use, housing, urban form/neighborhood design, open space/conservation, economic development, transportation, and infrastructure/public services.

The primary objectives of the policies in the Framework Element are to support the viability of the City's residential neighborhoods, and when growth occurs, to encourage sustainable growth in a number of higher-intensity commercial and mixed-use districts, centers and boulevards, and industrial districts particularly in proximity to transportation corridors and transit stations.

The project is consistent with the following General Plan Framework Goals and Policies:

Goal 3A *A physically balanced distribution of land uses that contributes towards and facilitates the City's long-term fiscal and economic viability, revitalization of economically depressed areas, conservation of existing residential neighborhoods, equitable distribution of public resources, conservation of natural resources, provision of adequate infrastructure and public services, reduction of traffic congestion and improvement of air quality, enhancement of recreation and open space opportunities, assurance of environmental justice and a healthful living environment, and achievement of the vision for a more livable city.*

Objective 3.2 *Provide for the spatial distribution of development that promotes an improved quality of life by facilitating a reduction of vehicular trips, vehicle miles traveled, and air pollution.*

Objective 3.4 *Encourage new multi-family residential, retail commercial, and office development in the City's neighborhood districts, community, regional, and downtown centers as well as along primary transit corridors/boulevards, while at the same time conserving existing neighborhoods and related districts.*

Goal 3C *Multi-family neighborhoods that enhance the quality of life for the City's existing and future residents.*

Objective 3.7 *Provide for the stability and enhancement of multi-family residential neighborhoods and allow for growth in areas where there is sufficient public infrastructure and services and the residents' quality of life can be maintained or improved.*

The project site has a land use designation of General Commercial and Medium Residential with the corresponding properties zoned C2-1 and R3-1. The proposed project involves the demolition of two commercial structures and a vacant nursery school, and the construction use and maintenance of a 7-story mixed use building containing approximately 174,415 square feet of floor area and 153 residential units on a 51,124 square-foot site within the Wilshire Community Plan area. The project will reserve 16 dwelling units for Extremely Low-Income Households. The project site is located within one-half mile Los Angeles County Metropolitan Transit Authority (Metro) Route 207 (NextGen) and Metro Route 28 (NextGen). In addition, the building will have a maximum height of 85 feet in the C2-1 zone and 67 feet in the R3-1 zone, as measured from Grade to the top of the parapet. The project will have a maximum FAR of 3.41:1. The project will provide a minimum of 200 residential and 7 commercial automobile parking spaces in a one street level parking garage in addition to two subterranean levels of parking. The project will provide a minimum of 11 short-term and 102 long-term bicycle parking spaces for residential use. For commercial use the project will provide 3 short-term and 3 long-term bicycle parking spaces. The project will provide 12,540 square feet of open space and 69 24-inch box trees.

The 153 new apartments are on a site with a General Office and Medium Residential land use that is suited for multi-family use due to the proximity to transit, employment opportunities, retail and restaurants. Of the 153 residential units, 137 will be market-rate units and 16 will be Extremely Low Income restricted affordable units. The project offers a mix of 114 one bedroom, 32 two bedroom, 6 three-bedroom unit, and 1 four-bedroom units. The project is a mixed-use development that is compatible in height and character to the existing commercial corridor on Olympic Boulevard while also similar in scale with the adjacent multi-family-residential neighborhoods. Olympic Boulevard is identified in the Framework Element as a Mixed Use Boulevard on Figure 3-1 Long Range Land Use Diagram Metro. Mixed Use Boulevards were envisioned in the Framework Element as follows:

These connect the city's neighborhood districts and community, regional and Downtown centers. Mixed Use development is encouraged along these boulevards, with the scale, density and height of development compatible with the surrounding areas. Generally, different types of Mixed Use Boulevards will fall within a range of floor area ratios from 1.5:1 up to 4.0:1 and be generally characterized by 1- to 2-story commercial structures, up to 3-

to 6-story mixed use buildings between centers and higher buildings within centers. Mixed Use Boulevards are served by a variety of transportation facilities.

The project fits this description of a Mixed Use Boulevard in the Framework Element. It is a mixed-use building that is seven stories in height with TOC incentives, positioned in proximity to transit. The proposed project is well-positioned near a major intersection in proximity to sufficient public infrastructure and services to meet the project's demand. As such, the project is in conformance with the purpose of the Framework Element.

Housing Element

The City's Housing Element for 2021-2029 was adopted by City Council on November 24, 2021. The Housing Element identifies the City's housing conditions and needs, establishes the goals, objectives, and policies that are the foundation of the City's housing and growth strategy, and provides an array of programs the City intends to implement to create sustainable, mixed-income neighborhoods across the City. The Housing Element aims to provide affordable housing and amenity-rich, sustainable neighborhoods for its residents, answering the variety of housing needs of its growing population. Specifically, the Housing Element encourages units to accommodate all income groups.

GOAL 1 A City where housing production results in an ample supply of housing to create more equitable and affordable options that meet existing and projected needs.

The proposed project will replace two existing commercial structures along with a demolished non-operating nursery school, all of which combined total 12,807 square feet, with seven-story mixed-use building with 153 residential units, which reserves 10% of total units, that is 16 units, for Extremely Low Income Households. The project will provide 174,415 square feet of residential floor area, with a maximum FAR of 3.75:1. The project is proposing to utilize local density bonus incentives to the development of additional affordable housing units in the Wilshire area. The project will provide needed housing in close proximity to job opportunities and an area well-served by public transportation including the Metro Route 207 (NextGen) as well as Metro Route 28 (NextGen). The project conserves the scale and character of the surrounding commercial and residential neighborhoods. The project is compatible with existing development patterns adjacent to the project site, which are characterized by a variety of commercial and multifamily residential uses. As such, the proposed project substantially conforms to the purpose of the Housing Element of the General Plan.

Mobility Element

The Mobility Plan 2035 includes goals that define the City's high-level mobility priorities. The Mobility Element sets forth objectives and policies to establish a citywide strategy to achieve long-term mobility and accessibility within the City of Los Angeles. Among other objectives and policies, the Mobility Plan aims to support ways to reduce vehicle miles traveled (VMT) per capita by increasing the availability of affordable housing options with proximity to transit stations and major bus stops and offering more non-vehicle alternatives, including transit, walking and bicycling.

In the Mobility Plan 2035, Chapter 3 entitled "Access for All Angelinos" includes the discussion topic "A transportation system is only useful insofar as it accessible and convenient."

Policy 3.3 Land Use Access and Mix: Promote equitable land use decisions that result in fewer vehicle trips by providing greater proximity and access to jobs, destinations, and other neighborhood services.

Policy 3.4 Transit Services: Provide all residents, workers and visitors with affordable, efficient, convenient, and attractive transit services.

Policy 3.8 Bicycle Parking: Provide bicyclists with convenient, secure and well-maintained bicycle parking facilities.

In the Mobility Plan 2035, Chapter 5 entitled “Clean Environments & Healthy Communities” includes the discussion topic “Transportation is deeply implicated in the health of both human beings and natural systems. Mobility directly impacts human health and wellness, both physical and mental. Active transportation modes such as bicycling and walking can significantly improve personal fitness and create new opportunities for social interaction, while lessening impacts on the environment.”

Policy 5.1 Sustainable Transportation: Encourage the development of a sustainable transportation system that promotes environmental and public health.

Policy 5.2 Vehicle Miles Traveled (VMT): Support ways to reduce vehicle miles traveled (VMT) per capita.

The proposed mixed-use building is a pedestrian-oriented development that provides 16 affordable units within one-half mile of the Metro Route 207 and Metro Route 28 transit stops. The transit services located adjacent to the project site will provide access to employment centers and jobs, local and regional destinations, and other neighborhood services for project residents. Additionally, neighborhood-serving retail is present in the area surrounding the project site and can be accessed by biking and walking.

The proposed project will also allow for the reduction of vehicle trips by providing a high-density mixed-use development within proximity to public transit. The availability of the transit options within walking distance creates a lesser need for the use of personal vehicles. The project will provide 207 vehicular parking spaces. Additionally, the project will provide a total of 105 long-term and 14 short-term bicycle parking spaces on site. There will be long-term bicycle parking storage on the subterranean parking levels, and the short-term bicycle parking stalls will be located at the front of the building where they are easily accessible from the street. As such, the project conforms to the purpose of the Mobility Element of the General Plan.

Plan for a Healthy Los Angeles and Conservation Elements

The Plan for Healthy LA was adopted in 2015 and includes goals, objectives, policies, and programs that relate to the health of the city. The Conservation Element primarily addresses the conservation of the open spaces.

The Vision contained in this plan calls for “ample green and open space, including a robust tree canopy in all neighborhoods and opportunities for urban agriculture.” The Action Plan calls for, among other directives, “energy efficiencies, weatherization, proper positioning of

trees to shade buildings, alternative energy and solar generation systems, explore the feasibility of building designs that incorporate facile systems to charge electric vehicles, and use of rainwater, storm water, gray water and recycled water.”

The Conservation Element was adopted in 2001 and primarily addresses the conservation aspects of the open spaces.

It is important to conserve natural open space lands and enhance urban open spaces. “Open space” is a broad term that can include virtually anything from a sidewalk or lawn to the mountains and ocean. It is defined by the California general plan law (Government Code Section 65560) as “any parcel or area of land or water that essentially is unimproved and devoted to an open-space use,” whether for preservation and protection of natural resources or for human activity.

The proposed multi-family residential building is a pedestrian-oriented development that provides five (5) trees in parkways along Olympic Boulevard in addition to preserving seven (7) existing street trees. The trees located in the public right-of-way will prevent the heat island effect and provide passive cooling opportunities for the enjoyment of the public. As such, the project conforms to the purpose of the Plan for a Healthy Los Angeles and Conservation Elements of the General Plan.

Land Use Element – Wilshire Community Plan

The Wilshire Community Plan was adopted by the City Council in 2001. The Community Plan’s purpose is to enhance neighborhood characteristics while providing housing opportunities, improving commercial areas preserving community identity, development around transit, providing economic base, and improving the quality of the built environment. The Land Use Designations and corresponding zones in the Community Plan are implemented through zoning regulations in the Los Angeles Municipal Code (LAMC) including applicable ordinances that are codified in the LAMC.

Goal 1 Provide a safe, secure, and high-quality residential environment for all economic, age, and ethnic segments of the Wilshire community.

Objective 1-1 Provide for the preservation of existing quality housing and for the development of new housing to meet the diverse economic and physical needs of the existing residents and expected new residents in the Wilshire Community Plan Area to the year 2010.

Policy 1-1.3 Provide for adequate multi-family residential development.

Objective 1-2 Reduce vehicular trips and congestion by developing new housing in close proximity to regional and community commercial centers, subway stations and existing bus route stops.

Policy 1-2.1 Encourage higher density residential uses near major public transportation centers.

Objective 1-3 Preserve and enhance the varied and distinct residential character and integrity of existing residential neighborhoods.

The Wilshire Community Plan designates the site for General Office and Medium Residential land uses. The project site is zoned C2-1 and R3-1. The C2-1 zone limits the density of the subject site to the R4 Zone requirements. The R4 Zone permits a base density of 400 square feet of lot area per dwelling; however, the site is also subject to Height District 1 that limits the FAR of the site to 1.5:1. The R3-1 zone limits density to 800 square feet of lot area per dwelling unit. The project site includes approximately 19,829 square feet of lot area in the C2-1 Zone and 31,295 square feet of lot area in the R3-1 Zone. All together the square footage of the site and the dwelling unit density limitations allow for 90 dwelling units by-right.

The project utilizes the City's Ordinance No. 184,745 (Transit Oriented Communities Affordable Housing Incentive Program), codified in LAMC Section 12.22 A.31 to increase the maximum density from 90 to 153 dwelling units, 16 of which will be set aside for Extremely Low Income Households. The project will provide a mix one-, two-, three- and four-bedroom units. The project site is located along Olympic Boulevard, a major transit and commercial corridor. The project site is located within one-half mile of the Metro Route 207 (NextGen) and the Metro Route 28 (NextGen). The project is not displacing any existing housing units as the project site is currently improved with two commercial structures and a vacant nursery school that was demolished, creating a net increase of 153 dwelling units. The project will contribute to the Wilshire area as a medium- to high-density residential development that provides housing and commercial retail services. The project would be compatible with the surrounding commercial and multi-family residential developments which vary in height. Furthermore, the project is consistent with applicable objective zoning standards. As such, the project conforms to the purpose of the Wilshire Community Plan.

3. The project consists of an arrangement of buildings and structures (including height, bulk and setbacks), off-street parking facilities, loading areas, lighting, landscaping, trash collection, and other such pertinent improvements, that is or will be compatible with existing and future development on adjacent properties and neighboring properties.

The project site consists of 12 contiguous rectangular-shaped lots with a total combined lot size of approximately 51,124 square feet (pre-dedication). The project fronts the north side of Olympic Boulevard with approximately 247 feet of frontage. The project's west elevation on the east side of Gramercy Drive measures approximately 275 feet of street frontage. The projects east elevation on the west side of Saint Andrews Place measures approximately 125 feet of street frontage. The site is zoned C2-1 and R3-1 and designated to General Commercial and Medium Residential land uses by the Wilshire Community Plan. The site was improved with two commercial structures and a vacant nursery school.

The surrounding properties are developed with urban uses. Properties to the south, across Olympic Boulevard, are zoned C2-1, designated for General Commercial, and improved with a three-story commercial building housing a community bank and a parking lot. To the west across Gramercy Drive and along Olympic there is a five-story hotel on a lot that is zoned C2-1, designated General Commercial. To the north of the hotel, along Gramercy Drive, properties are zoned R3-1, designated Medium Residential and are improved with one and two story multifamily and single-family structures. Adjoining the subject property to the north along Gramercy Drive the lot is zoned R3-1, designated Medium Residential and

improved with a 19-unit three story multifamily structure. Adjoining the property to the north along Saint Andrew's Place the site is zoned R3-1, designated Medium Residential and improved multifamily buildings. To the east of the subject project on Olympic the property is zoned C2-1, designed General Commercial and is improved with a one-story commercial structure that is currently used by automotive repair facilities. To the east of the subject project along Saint Andrews Place, north of the automotive repair facilities, the property is zoned R3-1, designated Medium Residential and improved with a two-story duplex.

The proposed project includes the demolition of the two existing commercial structures along Olympic Boulevard, as mentioned previously the nursery school on Saint Andrews Place was demolished in response to safety concerns resulting from a fire at the structure, as well as the construction, use and maintenance of a 7-story mixed-use development containing 174,415 square feet of floor area, with a maximum floor area ratio (FAR) 3.75:1. The project proposes 4,800 square feet of commercial uses and a total of 153 dwelling units, 137 of which will be market-rate and 16 will be restricted to Extremely Low-Income Households. The building will have a maximum of 85 feet, as measured from grade. The unit mix will be comprised of 114 one-bedroom, 32 two-bedroom, 6 three-bedroom and 1 four-bedroom units. The project will provide 136 standard automobile parking spaces, 4 ADA parking spaces, 20 EVSE parking spaces and 40 EV parking spaces, 102 long-term bicycle parking spaces and 11 short-term bicycle parking spaces for residential use. Additionally, the project will provide 3 standard automobile parking spaces, 1 ADA parking spaces, 1 EVSE parking spaces and 2 EV parking spaces, 3 long-term bicycle parking spaces and 3 short-term bicycle parking spaces for commercial use.

A total of 12,540 square feet of usable open space, consisting of 8,140 common open spaces and 4,400 square feet of balconies, will be provided. The project proposes the removal of one (1) protected Valley Oak Tree, *Quercus lobata*, and 20 on-site non-protected trees and four (4) street trees in the public right-of-way. Additionally, the applicant proposes to plant 69 24-inch box trees on-site. The project proposes grading of up to 57,525 cubic yards of earth and export of up to 57,525 cubic yards of earth.

Height

The entire subject site is within Height District No. 1, which allows for unlimited height and stories for commercially zoned properties as well as 45 feet in height for residentially zoned properties. The proposed project will reach a maximum height of 85 feet in the C2-1 zone and 67 feet in the R3-1 zone, as measured from the lowest grade point to the top of the parapet. The project provides two levels of subterranean automobile parking and one level of automobile parking at the at-grade parking garage. Height District 1 has no height limit for properties located in the C2. For the portion of the project in the R3, the project is exercising its eligibility for a bonus of 22 feet in height for reserving 11% of the base units as restricted to household with Extremely Low Income. Therefore, the project is within the allowable maximum height for the subject zones.

Bulk/Massing

The project site is zoned C2-1, which allows a maximum FAR of 1.5:1, and R3-1, which allows a maximum FAR of 3:1. TOC Guidelines allow for the averaging of FAR and Density. The buildable area in the portion of the site zoned C2-1 is 19,829 square feet per LAMC Section 12.02, which allows a maximum floor area of 74,358.75 square feet with a 3.75:1 FAR. In the portion of the site that is zoned R3-1, the buildable portion is 25,691 square feet

per LAMC Section 12.02, which allows a maximum floor area of 115,609 square feet with a 4.5:1 FAR. Combined, this would allow 189,968.25 square-feet of floor area. The project proposes 174,415 square feet of floor area which is below the maximum floor area of 189,968.25 square feet. The FAR for the project is 3.41:1. Through the averaging of FAR and Density project are permitted to add additional floor area to commercially zoned areas as long as that additional floor area is only for residential development. Given that the project's floor area is below the maximum permitted through TOC incentives, and that the additional floor area in the C2-1 zone is being utilized for residential purposes, the project is in compliance with the averaging of FAR and Density.

The project has been designed as an integrated single structure with articulation and variation consistent with applicable City design guidance. The project seeks to reflect the commercial and residential context in the area by placing its commercial and community spaces towards Olympic Boulevard and ensuring that residential spaces are located next to areas that are zoned residential. Parking within the building (subterranean and ground levels), commercial spaces, and residential units located within the building have been integrated into the overall architectural theme of the Project. Vehicular access is limited to the west and east site to limit vehicle activity along Olympic Boulevard, enhancing the pedestrian experience along the commercial spaces of the building. Commercial parking spaces are provided on the ground floor. The vast majority of parking is located in the subterranean floors, which enables the building to increase the visual interest of the project by placing residences and commercial spaces on much of the ground floor.

The building creates variation through its use of various materials, windows of different sizes and balconies found through the project. The building incorporates a material palette reserved to white, dark gray, and black with wood accents. Residential units on the ground floor are buffered from the street with landscaping, and height. The building's massing treatments continue around the corner to express continuity. The range of building materials, colors and finishes, the projects landscape and hardscape materials, result in a design that is complementary to the neighborhood. Ground floor commercial uses will enhance the pedestrian experience along Olympic Boulevard, further activating the street with pedestrian activity. The project as articulated in stamped "Exhibit A" is consistent with the Citywide Design Guidelines.

Setbacks

The proposed building is subject to zero-foot front yard setback in the C2-1 zone and 15-foot setback in the R3-1 zone. The project has a 10-foot side yard in the R3-1 zone. The project is in conformance to the required front and side yards in the C2-1 zone as defined by LAMC Section 12.14.C.2 and R3-1 zone as defined by LAMC Section 12.10.C.2.

Parking/Loading

The parking garage will be accessible via ingress and egress driveways located along Gramercy Drive and Saint Andrew's Place. These driveways provide access to the subterranean parking level and ground floor parking. The driveway entrances will also be away from the main pedestrian entrance of the building. Ground floor parking will only include seven (7) spaces for commercial uses, allowing for greater residential and commercial uses along the ground floor.

TOC Guidelines require .5 automobile parking spaces per dwelling unit which results in a required 77 residential automobile parking spaces for this development. Additionally, LAMC Section 12.21.A.4 requires one parking spot for each 500 square feet of commercial area leading to a requirement of 10 commercial automobile parking spaces for this project. The project is utilizing the TOC Base Incentive to reduce its commercial parking spaces by 30% to seven (7) spaces. The project proposes 200 residential parking spaces and seven (7) commercial parking spaces. The project is thus in compliance with parking requirements.

In accordance with LAMC Section 12.21-A, the project is required to provide a minimum of 11 short-term and 102 long-term bicycle parking spaces for residential uses. Additionally, the project is required to provide a minimum of 3 short-term and 3 long-term commercial bicycle spaces. The project will provide the minimum required bicycle parking spaces.

Lighting

The project is conditioned so that all pedestrian walkways and vehicle access points will be well-lit with lighting fixtures that are harmonious with the building design. As conditioned, all outdoor lighting provided on-site will be shielded to prevent excessive illumination and spillage onto adjacent public rights-of-way, adjacent properties, and the night sky.

Landscaping

The project will provide landscaping in the form of landscaped common area open space on the ground floor, second floor and roof. The project proposes a mix of plants and trees that include Bay Laurels, Brisbane Box, London Plane Tree, California Black Walnut, Swan Hill Fruitless Olive, California Gray Rush and Blue Glow Agave. The ground floor will include 51 trees, 13 podium trees and five (5) street trees. The landscaping along Gramercy Drive seeks to create visual interest for pedestrians. On the second floor the project proposes LID planters along Gramercy Drive, Saint Andrews Place and Olympic Boulevard in excess of the required number of LID planters. These planters create an additional landscape buffer between private yards and the public street. The project provides additional landscaping along Gramercy Drive and Saint Andrews Place on the second floor. This is in addition to the landscaping found at the pool and lounge seating area on the second floor. On the roof the project provides a dry garden green roof.

The project is conditioned to landscape all open areas not used for buildings, driveways, parking areas, and recreational facilities and pedestrian pathways shall be attractively landscaped, including an automatic irrigation system, and maintained in accordance with a landscape plan prepared by a licensed landscape architect or architect and submitted for approval to the Department of City Planning, Development Services Center. Additionally, the landscape plan must indicate landscape points for the project equivalent to 10 percent more than otherwise required by LAMC 12.40 and Landscape Ordinance Guidelines.

Trash Collection

Trash storage and collection are proposed to be enclosed in the parking garage on the interior of the building and are therefore not visible from the drive aisle or public view. Trash collection can only be accessed from the garage and shall not interfere with traffic on any public street, as conditioned. Therefore, service providers will be required to access the trash area from the driveway along the alley driveway, to avoid effects to circulation along the drive aisle.

Building Materials

The building's material palette is reserved to white, dark grey and black, with wood accents. The façade treatment wraps around the building to all sides. Along Olympic Boulevard the project provides storefront glazing that promotes commercial uses and enhances the pedestrian experience. The variety of building materials and articulation as shown on the stamped "Exhibit A" is consistent with the Citywide Design Guidelines and the Urban Design Studio's Design Review meeting on July 27, 2022.

Electric Vehicle Charging Stations

The project is conditioned to provide electric vehicle charging spaces (EV Spaces) and electric vehicle charging stations (EVCS) per the regulations outlined in Sections 99.04.106 and 99.05.106 of Article 9, Chapter IX of the LAMC, to the satisfaction of the Department of Building and Safety.

4. Any residential project provides recreation and service amenities to improve habitability for its residents and minimizes the impacts on neighborhood properties.

The project will provide a total of 12,540 square feet of outdoor amenity for its residents, including 8,140 square feet of common open space and 4,400 square feet of balconies. The project will also provide private balconies in 88 units. The applicant submitted a landscape plan, prepared by NVD Studio, showing that the common open space areas will be attractively landscaped with trees, shrubs, and groundcover. As such, the project will provide recreation and service amenities to improve habitability for its residents and minimize the impacts on neighboring properties.

ENVIRONMENTAL FINDINGS

The Director of Planning determined that based on the whole of the administrative record as supported by *Justification for Categorical Exemption Case No. ENV-2022-2826-CE* in the case file, the project is exempt from CEQA pursuant to CEQA Guidelines, Section 15332 Class 32, and there is no substantial evidence demonstrating that any exceptions contained in Section 15300.2 of the CEQA Guidelines, regarding cumulative impacts, significant effects, unusual circumstances, scenic highways, hazardous waste sites or historical resources applies.

TIME LIMIT – OBSERVANCE OF CONDITIONS

All terms and conditions of the Director's Determination shall be fulfilled before the use may be established. Pursuant to LAMC Section 12.25 A.2, the instant authorization is further conditional upon the privileges being utilized within **three years** after the effective date of this determination and, if such privileges are not utilized, building permits are not issued, or substantial physical construction work is not begun within said time and carried on diligently so that building permits do not lapse, the authorization shall terminate and become void.

TRANSFERABILITY

This determination runs with the land. In the event the property is to be sold, leased, rented or occupied by any person or corporation other than yourself, it is incumbent that you advise them regarding the conditions of this grant. If any portion of this approval is utilized, then all other conditions and requirements set forth herein become immediately operative and must be strictly

observed.

VIOLATIONS OF THESE CONDITIONS, A MISDEMEANOR

The applicant's attention is called to the fact that this grant is not a permit or license and that any permits and licenses required by law must be obtained from the proper public agency. Furthermore, if any condition of this grant is violated or not complied with, then the applicant or his successor in interest may be prosecuted for violating these conditions the same as for any violation of the requirements contained in the Municipal Code, or the approval may be revoked.

Section 11.00 of the LAMC states in part (m): "It shall be unlawful for any person to violate any provision or fail to comply with any of the requirements of this Code. Any person violating any of the provisions or failing to comply with any of the mandatory requirements of this Code shall be guilty of a misdemeanor unless that violation or failure is declared in that section to be an infraction. An infraction shall be tried and be punishable as provided in Section 19.6 of the Penal Code and the provisions of this section. Any violation of this Code that is designated as a misdemeanor may be charged by the City Attorney as either a misdemeanor or an infraction.

Every violation of this determination is punishable as a misdemeanor unless provision is otherwise made and shall be punishable by a fine of not more than \$1,000 or by imprisonment in the County Jail for a period of not more than six months, or by both a fine and imprisonment."

APPEAL PERIOD - EFFECTIVE DATE

This grant is not a permit or license and any permits and/or licenses required by law must be obtained from the proper public agency. If any Condition of this grant is violated or not complied with, then the applicant or their successor in interest may be prosecuted for violating these Conditions the same as for any violation of the requirements contained in the Los Angeles Municipal Code (LAMC).

This determination will become effective after the end of appeal period date on the first page of this document, unless an appeal is filed with the Department of City Planning. An appeal application must be submitted and paid for before 4:30 PM (PST) on the final day to appeal the determination. Should the final day fall on a weekend or legal City holiday, the time for filing an appeal shall be extended to 4:30 PM (PST) on the next succeeding working day. Appeals should be filed early to ensure the Development Services Center (DSC) staff has adequate time to review and accept the documents, and to allow appellants time to submit payment.

An appeal may be filed utilizing the following options:

Online Application System (OAS): The OAS (<https://planning.lacity.org/oas>) allows entitlement appeals to be submitted entirely electronically by allowing an appellant to fill out and submit an appeal application online directly to City Planning's DSC, and submit fee payment by credit card or e-check.

Drop off at DSC. Appeals of this determination can be submitted in-person at the Metro or Van Nuys DSC locations, and payment can be made by credit card or check. City Planning has established drop-off areas at the DSCs with physical boxes where appellants can drop off appeal applications; alternatively, appeal applications can be filed with staff at DSC public counters. Appeal applications must be on the prescribed forms, and accompanied by the required fee and

a copy of the determination letter. Appeal applications shall be received by the DSC public counter and paid for on or before the above date or the appeal will not be accepted.

Forms are available online at <http://planning.lacity.org/development-services/forms>. Public offices are located at:

City Planning staff may follow up with the appellant via email and/or phone if there are any questions or missing materials in the appeal submission, to ensure that the appeal package is complete and meets the applicable LAMC provisions.

If you seek judicial review of any decision of the City pursuant to California Code of Civil Procedure Section 1094.5, the petition for writ of mandate pursuant to that section must be filed no later than the 90th day following the date on which the City's decision became final pursuant to California Code of Civil Procedure Section 1094.6. There may be other time limits which also affect your ability to seek judicial review.

Verification of condition compliance with building plans and/or building permit applications are done at the City Planning Metro or Valley DSC locations. An in-person or virtual appointment for Condition Clearance can be made through the City's BuildLA portal (appointments.lacity.org). The applicant is further advised to notify any consultant representing you of this requirement as well.

QR Code to Online Appeal Filing

QR Code to Forms for In-Person Appeal Filing

QR Code to BuildLA Appointment Portal for Condition Clearance

Only an applicant or any owner or tenant of a property abutting, across the street or alley from, or having a common corner with the subject property can appeal this Transit Oriented Communities/Density Bonus Compliance Review Determination. Per the Density Bonus Provision of State Law (Government Code Section 65915), the Density Bonus increase in units above the base density limits per the underlying zone(s) and the appurtenant parking reductions are not a discretionary action and therefore cannot be appealed. Only the requested

incentives are appealable. Per LAMC Sections 12.22 A.25 and 12.22 A.31, appeals of Density Bonus Compliance Review and Transit Oriented Communities cases with the Director of Planning or Zoning Administrator as the initial decision maker are heard by the City Planning Commission.

JUSTIFICATION FOR PROJECT EXEMPTION CASE NO. ENV-2022-2826-CE Revised July 1, 2024

On February 6, 2024 of issuance The Director of Planning has determined that based on the whole of the administrative record, that the project is exempt from CEQA pursuant to CEQA Guidelines, Section 15332, Class 32 In-Fill Development Projects, and there is no substantial evidence demonstrating that an exception to a categorical exemption pursuant to CEQA Guidelines, Section 15300.2 applies. On June 27, 2024 the applicant submitted a Noise Technical Report. The justification has been updated to include this information. The new language is located below, bold and underlined. Deleted language is struck out.

A project qualifies for a Class 32 Categorical Exemption if it is developed on an infill site and meets the following criteria:

- a) The project is consistent with the applicable general plan designation and all applicable general plan policies as well as with the applicable zoning designation and regulations;
- b) The proposed development occurs within city limits on a project site of no more than five acres substantially surrounded by urban uses;
- c) The project site has no value as habitat for endangered, rare or threatened species;
- d) Approval of the project would not result in any significant effects relating to traffic, noise, air quality, or water quality; and
- e) The site can be adequately served by all required utilities and public services.

The proposed project includes the demolition of a 6,625 square foot commercial buildings and a 2,760 square foot auto service center, as well as an after-the-fact demolition of a 3,442 square foot nursery school building, and the construction, use, and maintenance of a seven-story mixed-use development containing 174,415 square feet of floor area, with a maximum floor area ratio (FAR) of 3.75:1. The project proposes 4,800 square feet of commercial uses and a total of 153 dwelling units, 137 of which will be market-rate and 16 will be restricted to Extremely Low-Income (ELI) Households. The building will have a maximum of 85 feet, as measured from grade to the highest point of the roof structure. The unit mix will be comprised of 114 one-bedroom units, 32 two-bedroom units, six (6) three-bedroom units and one (1) four-bedroom unit.

The project will provide 200 residential automobile parking spaces, of which 136 will be standard parking spaces, 40 will be EV, 20 will be EVSE and four (4) will be ADA accessible. Additionally, the project will provide seven (7) commercial parking spaces, of which three (3) will be standard parking spaces, two (2) will be EV, one (1) will be EVSE and one (1) will be ADA accessible. The project will also provide 102 long-term bicycle parking spaces and 11 short-term bicycle parking spaces for

residential use along with three (3) long-term bicycle parking spaces and three (3) short-term bicycle parking spaces for commercial use. The parking facilities will be located along the ground floor and in two levels of subterranean parking.

A total of 12,540 square feet of usable open space, consisting of 8,140 common open spaces and 4,400 square feet of private open space, will be provided. The project will also be required to improve the pedestrian public right of way including removing a non-ADA compliant sidewalk along Olympic Boulevard, Saint Andrews Place and Gramercy Drive with new sidewalk to achieve ADA compliance. The project proposes grading and exporting of 57,525 cubic yards of earth.

The site is currently developed with a vacant commercial structure and an auto-repair facility. The site was also previously developed with a nursery. However, there was a fire at the nursery school building on 989 Saint Andrews Place on November 11, 2022, that resulted in substantial damage to the building, requiring its demolition due to safety concerns. On January 20, 2023, the project was issued a permit to allow the demolition of the structure (#23019-10000-00306). The demolition of the structure occurred during May 1 through May 9, 2023. For the purposes of this CEQA analysis there are no environmental issues or questions as to the historical value of the nursery that would have prohibited the demolition of said structure. On February 7, 2023, the Office of Historic Resources confirmed via email that none of the structures on the subject property are historical resources. As such, while demolition of structures on project sites undergoing a discretionary entitlement is generally not allowed, the need to address the public safety issue caused by the November 11, 2022 fire and the lack of environmental or historical resources issues related to these properties, the demolition of the nursery did not cause a negative environmental impact to an eligible historic resource.

On September 27, 2022, the applicant submitted a permit application to Los Angeles Department of Building and Safety (LADBS) for a new 7-story, 153-unit (16 ELI), mixed use building with five (5) residential levels over a two (2) story subterranean parking structure (Permit 22010-10000-04192).

The project is requesting the following Base and Additional Incentives of the Transit Oriented Communities (TOC) Affordable Housing Incentive Program per Case No. DIR-2021-4251-TOC:

- Base Incentives:
 - A 70 percent increase in density to allow 153 units in lieu of 90 base units.
 - A reduction in the automobile parking requirement to allow a minimum of 77 spaces for residential uses and 7 for commercial uses to be provided.
 - A Floor Area Ratio (FAR) increase to permit a maximum of 3.75:1 to allow 174,414 square feet.
- Additional Incentives
 - Height increase of 22 feet to a maximum of 67 feet in lieu of the 45 foot maximum in the R3-1 Zone to per LAMC Section 12.21.1.
 - Open Space. A 25 percent reduction in the usable open space requirement to allow a minimum of 12,469 square feet in lieu of the minimum 16,625 square feet, as otherwise required by LAMC Section 12.21 G.2;
 - Averaging of Density, Floor Area Ratio (FAR), Parking, Open Space and Vehicular Access. An averaging of floor area and density over the project site and permit

vehicular access from a less restrictive zone to a more restrictive zone.

The project site is zoned C2-1 and R3-1 and designated as a site within the State Enterprise Zone: Los Angeles, Housing Element Inventory of Sites, Local Emergency Temporary Regulations - Time Limits and Parking Relief - LAMC 16.02.1, and Transit Priority Area in the City of Los Angeles. The site is not located in a historic district and is not identified as a historic resource. In an email dated February 7, 2023, the Office of Historic Resources verified that the vacant nursery building, which was built in 1922, was not a historical resource.

The site is located approximately 1 kilometers from the Puente Hills Blind Thrust. The project site is approximately 51,124 square feet in size, which would permit a base density of 90 dwelling units. The project proposes the construction of 153 dwelling units, which exceeds the maximum density. In addition, the proposed height, total useable open space and the averaging of density, FAR, Parking Spaces, Vehicular Access are beyond that which is required by the Municipal Code. However, through the approval of the Director's Determination for the Base and Additional Incentives under the TOC Affordable Housing Incentive Program, the project would be consistent with the goals, objectives, and policies of the Community Plan and with the applicable zoning regulations.

The subject site is approximately 1.17 acres and is located wholly within the City of Los Angeles. Properties in the immediate surrounding area are zoned C2-1 and R3-1 and developed with a mix of single and multifamily residential structures as well as commercial developments. The surrounding properties are developed with urban uses. Properties to the south, across Olympic Boulevard, are zoned C2-1, designated for General Commercial, and improved with a three-story commercial building housing a community bank and a parking lot. To the west across Grammercy Drive and along Olympic there is a five-story hotel on a lot that is zoned C2-1, designated General Commercial. To the north of the hotel, along Gramermy Drive, properties are zoned R3-1, designated Medium Residential and are improved with one and two story multifamily and single-family structures. Adjoining the subject property to the north along Grammercy Drive the lot is zoned R3-1, designated Medium Residential and improved with a 19-unit three story multifamily structure. The adjoining property to the north along Saint Andrew's Place the site is zoned R3-1, designated Medium Residential and improved with two to three story multifamily buildings. The final property abutting the subject property to the north along Saint Andrews Place is a lot zoned R3-1, designated Medium Residential, and improved with a single family home. To the east of the subject project on Olympic the property is zoned C2-1, designated General Commercial and is improved with a one-story commercial structure that is currently used by automotive repair facilities. To the east of the subject project along Saint Andrews Place, north of the automotive repair facilities, the property is zoned R3-1, designated Medium Residential and improved with a two-story duplex. The subject site is located within a fully developed urban area. As such, the site does not contain or have value as a habitat for endangered, rare or threatened species, and is not located adjacent to any habitat for endangered, rare or threatened species.

The project proposes to remove four (4) street trees as the applicant will be required to improve the right-of-way under LAMC Section 12.37. Prior to any work on the right-of-way, the applicant will be required to obtain approved plans from the Department of Public Works. As there currently is no approved right-of-way improvement plan and for purposes of conservative analysis and the requirements of CEQA, Planning has analyzed the worst-case potential for removal of all street trees. Note, no street tree may be removed without prior approval of the Board of Public Works/Urban Forestry (BPW) under LAMC Sections 62.161 - 62.171. At the time of preparation of this CE, no approvals have been given for any tree removals in the right-of-way by BPW. Based on the above, Planning has required a Tree Report to identify all trees on the project site and in the right-of-way that could be impacted by the Project and to consider the potential removal of four (4) street trees and one (1) protected tree. As identified in the Tree Report prepared by Greg Applegate Certified

Arborist (RCA #365) on December 15, 2022, there are 20 non-protected trees and one (1) protected tree on site, and 5 Street Trees. The project proposes the removal of 10 on-site non-protected trees, four (4) street trees in the public right-of-way, and one (1) protected tree a *Quercus lobata* (Valley Oak). Additionally, the applicant proposes to plant sixty-nine 24-inch box trees on-site. The replacement of the four (4) street trees and the one (1) protected trees will be to the satisfaction of the Urban Forestry Division and the Board of Public Works.

According to the Department of Transportation (LADOT) Referral Form signed and dated January 12, 2022, the project is not located within a Transportation Specific Plan Area and a traffic study is required for the proposed mixed-use development, with 4,800 square feet of commercial uses and a total of 153 dwelling units. The Traffic Assessment, prepared by Overland Consultants and dated February 2022, concluded that the project will not have any significant impacts to traffic. LADOT reviewed the Assessment and concurred with its findings as shown in its communication dated March 23, 2022. **The project submitted a Noise Technical Study dated June 2024 by Impact Sciences that found that regulatory compliance measures ensure that noise from the project would be less than significant.** The project must comply with the City's Noise Ordinances No. 144,331 and 161,574 and any subsequent ordinances, which limits the emission or increases in noise levels as specified in the ordinance. During the construction of the proposed project, the applicant will be required to comply with the City's Noise Ordinance No. 161,574, which regulates noise from demolition and construction activities. Section 41.40 of the LAMC prohibits construction activity (including demolition) and repair work, where the use of any power tool, device, or equipment would disturb persons occupying sleeping quarters in any dwelling hotel, apartment, or other place of residence, between the hours of 9:00 p.m. and 7:00 a.m. Monday through Friday, and between 6:00 p.m. and 8:00 a.m. on Saturday. All such activities are also prohibited on Sundays and all federal holidays. Section 112.05 of the LAMC also specifies the maximum noise level of construction machinery that can be generated in any residential zone of the city or within 500 feet thereof. The project would not result in any significant construction noise impacts with the implementation of the City's Noise Ordinances and regulations. ~~The project would not result in any significant construction noise impacts with the implementation of the City's Noise Ordinances and regulations. Additionally, the Noise Study prepared by Impact Sciences, Inc., dated December 2021 concluded the project will not result in impacts to noise during its operational phase.~~

The building construction phase includes the construction of the proposed building on the subject property, connection of utilities, laying irrigation for landscaping, architectural coatings, paving, and landscaping the subject property. These construction activities would temporarily create emissions of dust, fumes, equipment exhaust, and other air contaminants. Construction activities involving grading and foundation preparation would primarily generate PM2.5 and PM10 emissions. Mobile sources (such as diesel-fueled equipment onsite and traveling to and from the project site) would primarily generate NOx emissions. The application of architectural coatings would result primarily in the release of ROG emissions. The amount of emissions generated on a daily basis would vary, depending on the amount and types of construction activities occurring at the same time.

Appropriate dust control measures would be implemented as part of the proposed project during each phase of development, as required by South Coast Air Quality Management District (SCAQMD) Rule 403 - Fugitive Dust. Specifically, Rule 403 control requirements include, but are not limited to, applying water in sufficient quantities to prevent the generation of visible dust plumes, applying soil binders to uncovered areas, reestablishing ground cover as quickly as possible, utilizing a wheel washing system to remove bulk material from tires and vehicle undercarriages before vehicles exit the Project Site, and maintaining effective cover over exposed areas. The Air Quality Study prepared by Impact Sciences, Inc., and dated December 2021 concluded the project will not result in impacts to air quality. The Air Quality Study found "...construction of the Project would not exceed regional

VOC, NOx, CO, SOx, PM10, and PM2.5 concentration thresholds. All criteria air pollutants would be below SCAQMD construction thresholds. As such, construction of the Project would not generate any significant environmental impacts associated with air quality compliance.” ~~The report goes on to state that the project would not generate significant environmental impacts from its operations, the projects Localized Construction and Operational Emissions would not exceed than localized significance construction and operation thresholds, the projects long-term operational impacted associated with the release of Toxic Air Contaminants would not be likely to exceed SCAQMD thresholds of significance, and that the project “...would not jeopardize the attainment of air quality standards in the AQMP for the South Coast Air Basin and the Los Angeles County portion of the South Coast Air Basin.”~~ As such, the project will not result in a significant impact on air quality. **The Air Quality Study prepared by Medidian Consultant, and dated February 2023 concluded the project will not result in impacts to air quality. The Air Quality Study found that the project would be “...would be consistent with air quality policies set forth by the South Coast Air Quality Management District (SCAQMD) and the Air Quality Management Plan.” Furthermore, the report states “Construction and operational emissions would not contribute to short- or long-term emissions that would increase the carcinogenic effects on sensitive receptors. Emissions associated with operation would not exceed the SCAQMD-recommended thresholds.** Thus, the Project would not result in a regional violation of applicable air quality standards or jeopardize the timely attainment of such standards in the South Coast Air Basin.” Additionally, the report finds that the project would not result in substantial pollutant concentration, odors and that any impact on air quality would be less than significant. Finally, the report states that “[b]ased upon a worst-case assessment, the Project does not result in significant impacts to surrounding land uses from air quality”.

Construction activities would not involve any significant excavation near an identified water source. In addition, the project will be required to comply with various regulatory requirements, which would reduce stormwater flows off-site. The project will comply with Chapter VI Article 4.4 of the LAMC, Stormwater and Urban Runoff Pollution Control, which requires the application of Best Management Practices (BMPs) to reduce or prevent pollutant discharges. Under the conditions of a building permit for the project, the project applicant will be required to eliminate or reduce non-stormwater discharges to public waterways, develop and implement a Stormwater Pollution Prevention Plan (SWPPP) for project construction activities, and perform inspections of the stormwater pollution prevention measures and control practices to ensure conformance with the site SWPPP. Therefore, development of the proposed project would not degrade the quality of stormwater runoff from the site.

The site is currently and adequately served by the City's Department of Water and Power, the City's Bureau of Sanitation, the Southern California (SoCal) Gas Company, the Los Angeles Police Department, the Los Angeles Fire Department, Los Angeles Unified School District, Los Angeles Public Library, and other public services. Therefore, the project meets all of the Criteria for the Class 32 CE.

There are five (5) exceptions which the City is required to consider before finding a project exempt under Class 32: (a) Cumulative Impacts; (b) Significant Effect; (c) Scenic Highways; (d) Hazardous Waste Sites; and (e) Historical Resources.

At the time of the preparation of this report, there are three (3) known discretionary projects of the same multi-family residential development type within 500 feet of the subject site. The project is subject to Regulatory compliance Measures (RCMs) in the City of Los Angeles that regulate impacts related to air quality and construction and operational noise as previously mentioned. **The project**

submitted a Noise Technical Study dated June 2024 by Impact Sciences that found that regulatory compliance measures ensure that noise from the project would be less than significant. According to the Department of Transportation Referral Form signed and dated January 12, 2022 the project is not located within a Transportation Specific Plan Area but VMT analysis is required for the proposed mixed-use development, with 4,800 square feet of commercial uses and a total of 153 dwelling units. The Traffic Assessment Memorandum of Understanding, prepared by Overland Consultants, and dated February, 2022, and reviewed by LADOT, and dated March 23, 2022 concluded that the project will not have any significant impacts to traffic.

As mentioned, the project proposes a mixed-use development, with 4,800 square feet of commercial uses and a total of 153 dwelling units that is consistent with the zone and land use designation of the site, utilizing the Base and Additional Incentives under the TOC Affordable Housing Incentive Program. Properties in the immediate surrounding area are zoned C2-1 and R3-1 with General Commercial and Medium Residential Land uses, developed with single-family and multi-family residential structures as well as commercial structures. Thus, there are no unusual circumstances which may lead to a significant effect on the environment. The proposed development is not unusual for the vicinity of the subject site and will be compatible with existing uses in the area. Neither the existing use on the site, nor the proposed use demonstrates any unusual circumstances, and the project will not generate significant traffic, air quality, or noise impacts. Additionally, the only State Scenic Highway within the City of Los Angeles is the Topanga Canyon State Scenic Highway, State Route 27, which travels through a portion of Topanga State Park. State Route 27 is located approximately 17 miles west of the subject property. Therefore, the subject site will not create any impacts within a designated as a state scenic highway. Furthermore, according to Envirostor, the State of California's database of Hazardous Waste Sites, neither the subject site, nor any site in the vicinity, is identified as a hazardous waste site. The project site has not been identified as a historic resource by local or state agencies, and the project site has not been determined to be eligible for listing in the National Register of Historic Places, California Register of Historical Resources, the Los Angeles Historic-Cultural Monuments Register, and/or any local register; and was not found to be a potential historic resource based on the City's HistoricPlacesLA website or SurveyLA, the citywide survey of Los Angeles. Finally, the City does not choose to treat the site as a historic resource.

Phase I and Phase II Environmental Site Assessments (ESA) were conducted for the properties on the subject site. These reports were triggered due to the automotive uses at 3355 West Olympic Blvd. The site at 3355 West Olympic Boulevard was used as a gasoline station from 1940 through 1968. Since 1968 the site has been used as an automotive repair facility. Phase II ESAs were produced for all the sites involved in the project. The Phase II ESA for 3355 West Olympic Boulevard found elevated levels of total petroleum hydrocarbons (TPH) at sample site B1 and B2 at a depth of 10 feet. These sites are near the location of hydraulic hoists that were used in the automobile repair facility, which make them the likely cause of the contamination. The report went on to state that VOCs were found "...in the boring locations B1 and B2 at concentrations that did not exceed the LARWQCB Table 4-1 Maximum Soil Screening Levels for sites with clayey silt soil and distance above groundwater between 20' and 150' below ground surface (bgs)." Given that screening levels were not exceeded, and that ground water was not offended by the soil contamination, the LARWQCB would not open a case to address this issue. The report noted that converting the site to a more sensitive use, such as underground parking, would require special handling of the soil to protect the health of workers. The report did not cite any health risks to residents. The project contracted Environ Phase Consulting, which produced a Soil Management Plan (SMP) to address the potential health risk to workers related to handling soil. The project has voluntarily agreed to implement the SMP. The SMP provides clear roles and responsibilities for parties involved in the removal and processing of soil at the site. Additionally, the SMP provides processes for testing and notifying regional and state regulators if environmental issues arise. The SMP provides clear thresholds for reporting issues to the Los Angeles Regional Water Quality Control Board

ENV-2022-2826-CE

(LARWQCB) and the Department of Toxic Substances Control (DTSC). Given the implementation of the SMP through the construction process and the Regulatory Compliance Measures, the removal of contaminated soil does not constitute an environmental impact.

CITY OF LOS ANGELES
INTER-DEPARTMENTAL CORRESPONDENCE

3355 – 3377 W Olympic Bl
DOT Case No. CEN22-52805

Date: March 23, 2022

To: Susan Jimenez, Administrative Clerk
Department of City Planning

From: 
Wes Pringle, Transportation Engineer
Department of Transportation

Subject: **TRANSPORTATION ASSESSMENT FOR THE PROPOSED MIXED-USE DEVELOPMENT
LOCATED AT 3355 – 3377 WEST OLYMPIC BOULEVARD (PAR-2022-1142-TOC)**

The Los Angeles Department of Transportation (LADOT) has reviewed the transportation assessment prepared by Overland Traffic Consultants, Inc. (Overland), dated February 2022, for the proposed mixed-use project at 3355 – 3377 West Olympic Boulevard within the Central Area Planning Commission (APC) and a Transit Oriented Community (TOC) Tier 3. In compliance with Senate Bill (SB) 743 and the California Environmental Quality Act (CEQA), a vehicle miles traveled (VMT) analysis is required to identify the project's ability to promote the reduction of green-house gas emissions, the access to diverse land uses, and the development of multi-modal networks. The significance of a project's impact in this regard is measured against the VMT thresholds established in LADOT's Transportation Assessment Guidelines (TAG), as described below.

DISCUSSION AND FINDINGS

A. Project Description

The project proposes to remove a 50-student private school, a 2,700 square foot auto care center, and a vacant restaurant building and construct a mixed-use development with a total of 153 apartments (137 market rate apartments and 16 affordable housing units) and 4,900 square feet of ground-level commercial floor area with approximately 3,400 square feet of retail use and 1,500 square feet of restaurant use at 3355 – 3377 West Olympic Boulevard located on the north side of Olympic Boulevard between Gramercy Drive and St. Andrews Place. Parking for the project will be provided onsite with a total of 237 (205 residential, 25 guest, and seven commercial) parking spaces. Parking and the onsite loading zone will be accessed via Gramercy Drive by residents and via St. Andrews Place by commercial patrons and for trash service as illustrated in **Attachment A**. The project will also provide 174 (168 residential and six commercial) bicycle parking spaces onsite. The residential bicycle parking will have 153 long-term and 15 short-term spaces and the commercial bicycle parking will have three long-term and three short-term spaces. The project is expected to be completed by 2025.

B. Freeway Safety Analysis

Per the Interim Guidance for Freeway Safety Analysis memorandum issued by LADOT on May 1, 2020 to address Caltrans safety concerns on freeways, the study addresses the project's effects on vehicle queuing on freeway off-ramps. Such an evaluation measures the project's potential to lengthen a forecasted off-ramp queue and create speed differentials between vehicles exiting the freeway off-ramps and vehicles operating on the freeway mainline. The evaluation identified the number of project trips expected to be added to nearby freeway off-ramps serving the project site. It was determined that project traffic at any freeway off-ramp will not exceed 25 peak hour trips. Therefore, a freeway ramp analysis is not required.

C. CEQA Screening Threshold

Prior to accounting for trip reductions resulting from the application of Transportation Demand Management (TDM) Strategies, a trip generation analysis was conducted to determine if the project would exceed the net 250 daily vehicle trips screening threshold. Using the City of Los Angeles VMT Calculator tool, which draws upon trip rate estimates published in the Institute of Transportation Engineers (ITE) Trip Generation Manual, 9th Edition as well as applying trip generation adjustments when applicable, based on sociodemographic data and the built environment factors of the project's surroundings, it was determined that the project **does** exceed the net 250 daily vehicle trips threshold.

Additionally, the analysis included further discussion of the transportation impact thresholds:

- T-1 Conflicting with plans, programs, ordinances, or policies
- T-2.1 Causing substantial vehicle miles traveled
- T-3 Substantially increasing hazards due to a geometric design feature or incompatible use.

The assessment determined that the project would **not** have a significant transportation impact under Thresholds T-1 and T-3. A project's impacts per Threshold T-2.1 is determined by using the VMT calculator and is discussed further below. A copy of the VMT Calculator summary report is provided as **Attachment B** to this report.

D. Transportation Impacts

On July 30, 2019, pursuant to SB 743 and the recent changes to Section 15064.03 of the State's CEQA Guidelines, the City of Los Angeles adopted VMT as criteria in determining transportation impacts under CEQA. The LADOT TAG provide instructions on preparing transportation assessments for land use proposals and defines the significant impact thresholds.

The LADOT VMT Calculator tool measures project impact in terms of Household VMT per Capita, and Work VMT per Employee. LADOT identified distinct thresholds for significant VMT impacts for each of the seven APC areas in the City. For the Central APC area, in which the project is located, the following thresholds have been established:

- Household VMT per Capita: 6.0
- Work VMT per Employee: 7.6

As cited in the VMT Analysis report prepared by Overland, the project proposes to incorporate the TDM strategy of including bike parking per Los Angeles Municipal Code (LAMC) as a project design feature. With the application of this TDM strategy, the proposed project is projected to have a Household VMT per capita of 5.5 and no Work VMT. Therefore, it is concluded that implementation of the project would result in no significant VMT impact. A copy of the VMT Calculator summary report is provided as **Attachment B**.

E. Access and Circulation

During preparation of the new CEQA guidelines, the State's Office of Planning and Research stressed that lead agencies can continue to apply traditional operational analysis requirements to inform land use decisions provided that such analyses were outside of the CEQA process. The authority for requiring non-CEQA transportation analysis and requiring improvements to address potential circulation deficiencies, lies in the City of Los Angeles' Site Plan Review authority as established in Section 16.05 of the LAMC. Therefore, LADOT continues to require

and review a project's site access, circulation, and operational plan to determine if any access enhancements, transit amenities, intersection improvements, traffic signal upgrades, neighborhood traffic calming, or other improvements are needed. In accordance with this authority, the project has completed a circulation analysis using a "level of service" screening methodology that indicates that the trips generated by the proposed development will not likely result in adverse circulation conditions at several locations. Vehicular access to the project will be provided along Gramercy Drive and St. Andrews Place. LADOT has reviewed this analysis and determined that it adequately discloses operational concerns. A copy of the circulation analysis table that summarizes these potential deficiencies is provided as **Attachment C** to this report.

PROJECT REQUIREMENTS

Non-CEQA-Related Requirements and Considerations

To comply with transportation and mobility goals and provisions of adopted City plans and ordinances, the applicant should be required to implement the following:

1. Parking Requirements
The project would provide parking for 237 vehicles and 174 bicycles. The applicant should check with the Departments of Building and Safety and City Planning on the number of parking spaces required for this project within a TOC Tier 3.
2. Highway Dedication and Street Widening Requirements
Per the new Mobility Element of the General Plan, **Olympic Boulevard**, a Boulevard II, would require a 40-foot half-width roadway within a 55-foot half-width right-of-way; **St. Andrews Place**, a Collector, would require 20-foot half-width roadway within a 33-foot half-width right-of-way; and **Gramercy Drive**, a Local Street, would require an 18-foot roadway within a 30-foot half-width right-of-way. The applicant should coordinate with the Bureau of Engineering's Land Development Group who will determine if there are any other applicable highway dedication, street widening and/or sidewalk requirements for this project.
3. Project Access and Circulation
The conceptual site plan for the project (see **Attachment A**) is acceptable to LADOT. The project would be accessed via Gramercy Drive and St. Andrews Place. Review of this study does not constitute approval of the dimensions for any new proposed driveway. Review and approval of new driveways should be coordinated with LADOT's Citywide Planning Coordination Section (201 North Figueroa Street, 5th Floor, Room 550, at 213-482-7024). In order to minimize and prevent last minute building design changes, the applicant should contact LADOT for driveway width and internal circulation requirements prior to the commencement of building or parking layout design. The applicant should check with City Planning regarding the project's vehicular access and design.
4. Worksite Traffic Control Requirements
LADOT recommends that a construction work site traffic control plan be submitted to LADOT's Citywide Temporary Traffic Control Section or Permit Plan Review Section for review and approval prior to the start of any construction work. Refer to <http://ladot.lacity.org/businesses/temporary-traffic-control-plans> to determine which section to coordinate review of the work site traffic control plan. The plan should show the location of any roadway or sidewalk closures, traffic detours, haul routes, hours of operation, protective devices, warning signs and access to abutting properties. LADOT also recommends that all

construction related truck traffic be restricted to off-peak hours to the extent feasible.

5. TDM Ordinance Requirements

The TDM Ordinance (LAMC 12.26 J) is currently being updated. The updated ordinance, which is currently progressing through the City's approval process, will:

- Expand the reach and application of TDM strategies to more land uses and neighborhoods,
- Rely on a broader range of strategies that can be updated to keep pace with technology, and
- Provide flexibility for developments and communities to choose strategies that work best for their neighborhood context.

Although not yet adopted, LADOT recommends that the applicant be subject to the terms of the proposed TDM Ordinance update. The updated ordinance is expected to be completed prior to the anticipated construction of this project, if approved.

6. Development Review Fees

Section 19.15 of the LAMC identifies specific fees for traffic study review, condition clearance, and permit issuance. The applicant shall comply with any applicable fees per this ordinance.

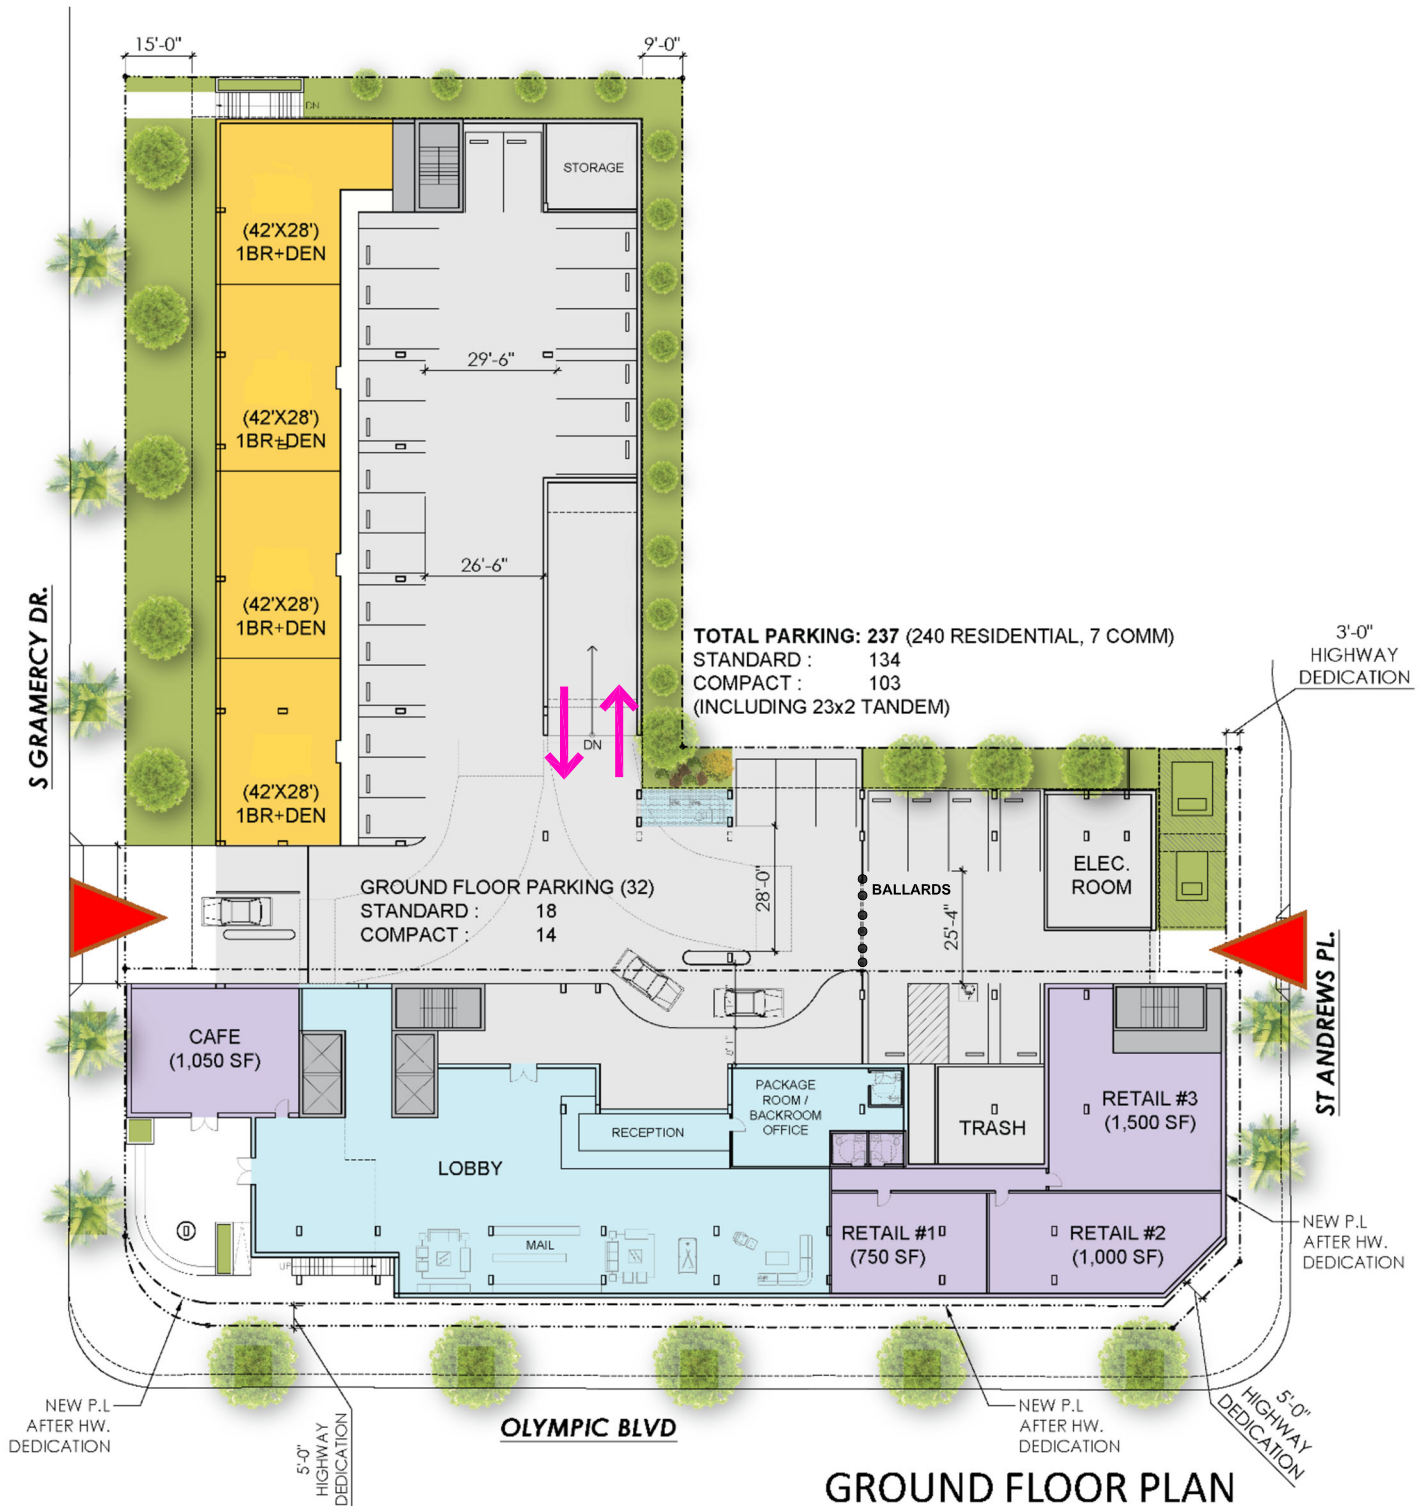

If you have any questions, please contact Eileen Hunt of my staff at (213) 972-8481.

CITY OF LOS ANGELES VMT CALCULATOR Version 1.3

Project Screening Criteria: Is this project required to conduct a vehicle miles traveled analysis?

Project Information

Project:

Scenario:

Address:

Existing Land Use

Land Use Type	Value	Unit
School Private School (K-12)	50	Students
Retail Auto Repair	2.7	ksf
School Private School (K-12)	50	Students

Click here to add a single custom land use type (will be included in the above list)

Proposed Project Land Use

Land Use Type	Value	Unit
Retail High-Turnover Sit-Down Restaurant	1.5	ksf
Housing Multi-Family	137	DU
Housing Affordable Housing - Family	16	DU
Retail General Retail	3.4	ksf
Retail High-Turnover Sit-Down Restaurant	1.5	ksf

Click here to add a single custom land use type (will be included in the above list)

Project Screening Summary

Existing Land Use	Proposed Project
142 Daily Vehicle Trips	848 Daily Vehicle Trips
745 Daily VMT	5,014 Daily VMT
Tier 1 Screening Criteria	
Project will have less residential units compared to existing residential units & is within one-half mile of a fixed-rail station. <input type="checkbox"/>	
Tier 2 Screening Criteria	
The net increase in daily trips < 250 trips	706 Net Daily Trips
The net increase in daily VMT ≤ 0	4,269 Net Daily VMT
The proposed project consists of only retail land uses ≤ 50,000 square feet total.	4.900 ksf
The proposed project is required to perform VMT analysis.	

Is the project replacing an existing number of residential units with a smaller number of residential units AND is located within one-half mile of a fixed-rail or fixed-guideway transit station?

Yes No

REFERRAL FORMS:

TRANSPORTATION STUDY ASSESSMENT

DEPARTMENT OF TRANSPORTATION - REFERRAL FORM

RELATED CODE SECTION: Los Angeles Municipal Code Section 16.05 and various code sections.

PURPOSE: The Department of Transportation (LADOT) Referral Form serves as an initial assessment to determine whether a project requires a Transportation Assessment.

GENERAL INFORMATION

- Administrative: Prior to the submittal of a referral form with LADOT, a Planning case must have been filed with the Department of City Planning.
- All new school projects, including by-right projects, must contact LADOT for an assessment of the school's proposed drop-off/pick-up scheme and to determine if any traffic controls, school warning and speed limit signs, school crosswalk and pavement markings, passenger loading zones and school bus loading zones are needed.
- Unless exempted, projects located within a transportation specific plan area may be required to pay a traffic impact assessment fee regardless of the need to prepare a transportation assessment.
- Pursuant to LAMC Section 19.15, a review fee payable to LADOT may be required to process this form. The applicant should contact the appropriate LADOT Development Services Office to arrange payment.
- LADOT's Transportation Assessment Guidelines, VMT Calculator, and VMT Calculator User Guide can be found at <http://ladot.lacity.org>.
- A transportation study is not needed for the following project applications:
 - Ministerial / by-right projects
 - Discretionary projects limited to a request for change in hours of operation
 - Tenant improvement within an existing shopping center for change of tenants
 - Any project only installing a parking lot or parking structure
 - Time extension
 - Single family home (unless part of a subdivision)
- This Referral Form is not intended to address the project's site access plan, driveway dimensions and location, internal circulation elements, dedication and widening, etc. These items require separate review and approval by LADOT.

SPECIAL REQUIREMENTS

When submitting this referral form to LADOT, include the completed documents listed below.

- Copy of Department of City Planning Application (CP-7771.1).
- Copy of a fully dimensioned site plan showing all existing and proposed structures, parking and loading areas, driveways, as well as on-site and off-site circulation.
- If filing for purposes of Site Plan Review, a copy of the Site Plan Review Supplemental Application.
- Copy of project-specific VMT Calculator¹ analysis results.

TO BE VERIFIED BY PLANNING STAFF PRIOR TO LADOT REVIEW

LADOT DEVELOPMENT SERVICES DIVISION OFFICES: Please route this form for processing to the appropriate LADOT Office as follows:

Metro
213-972-8482
100 S. Main St, 9th Floor
Los Angeles, CA 90012

	Land Use (list all)	Size / Unit	Daily Trips ¹
Proposed ¹	Apartments	137 Units	
	Affordable Apartments	16 Units	
	Retail	4500 SF	
	<i>Total trips¹:</i>		
<p>a. Does the proposed project involve a discretionary action? Yes <input type="checkbox"/> No <input type="checkbox"/></p> <p>b. Would the proposed project generate 250 or more daily vehicle trips²? Yes <input checked="" type="checkbox"/> No <input type="checkbox"/></p> <p>c. If the project is replacing an existing number of residential units with a smaller number of residential units, is the proposed project located within one-half mile of a heavy rail, light rail, or bus rapid transit station³? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/></p> <p>If YES to a. and b. or c., or to all of the above, the Project <u>must</u> be referred to LADOT for further assessment.</p> <p>Verified by: Planning Staff Name: _____ Phone: _____</p> <p style="text-align: center;">Signature: _____ Date: _____</p>			

¹ Qualifying Existing Use to be determined by LADOT staff on following page, per LADOT's Transportation Assessment Guidelines.

² To calculate the project's total daily trips, use the VMT Calculator. Under 'Project Information', enter the project address, land use type, and intensity of all proposed land uses. Select the '+' icon to enter each land use. After you enter the information, copy the 'Daily Vehicle Trips' number into the total trips in this table. Do not consider any existing use information for screening purposes. For additional questions, consult LADOT's [VMT Calculator User Guide](#) and the LADOT Transportation Assessment Guidelines (available on the LADOT website).

³ Relevant transit lines include: Metro Red, Purple, Blue, Green, Gold, Expo, Orange, and Silver line stations; and Metrolink stations.

TO BE COMPLETED BY LADOT

3. PROJECT INFORMATION

	Land Use (list all)	Size / Unit	Daily Trips	
Proposed	Apartments (Multi-Family)	137 Units		
	Affordable Apartments (Family)	16 Units		
	Retail	4,500 SF		
	<i>Total new trips:</i>			784
Existing	Auto Repair	2,700 SF		
	Private School	50 Students		
	<i>Total existing trips:</i>			142
	<i>Net Increase / Decrease (+ or -)</i>			642

- a. Is the project a single retail use that is less than 50,000 square feet? Yes No
- b. Would the project generate a net increase of 250 or more daily vehicle trips? Yes No
- c. Would the project result in a net increase in daily VMT? Yes No
- d. If the project is replacing an existing number of residential units with a smaller number of residential units, is the proposed project located within one-half mile of a heavy rail, light rail, or bus rapid transit station? Yes No
- e. Does the project trigger Site Plan Review (LAMC 16.05)? Yes No
- f. Project size:
 - i. Would the project generate a net increase of 1,000 or more daily vehicle trips? Yes No
 - ii. Is the project's frontage 250 linear feet or more along a street classified as an Avenue or Boulevard per the City's General Plan? Yes No
 - iii. Is the project's building frontage encompassing an entire block along a street classified as an Avenue or Boulevard per the City's General Plan? Yes No

VMT Analysis (CEQA Review)

If **YES** to **a.** and **NO** to **d.** a VMT analysis is **NOT** required.

If **YES** to both **b.** and **c.**; or to **d.** a VMT analysis **is** required.

Access, Safety, and Circulation Assessment (Corrective Conditions)

If **YES** to **b.**, a project access, safety, and circulation evaluation may be required.

If **YES** to **e.** and either **f.i.**, **f.ii.**, or **f.iii.**, an access assessment may be required.

LADOT Comments:

Please note that this form is not intended to address the project's site access plan, driveway dimensions and location, internal circulation elements, dedication and widening, etc. These items require separate review and approval by LADOT. Qualifying Existing Use to be determined per LADOT's Transportation Assessment Guidelines.

4. Specific Plan with Trip Fee or TDM Requirements: **Yes** **No**

Fee Calculation Estimate: _____

VMT Analysis Required (Question b. satisfied): **Yes** **No**

Access, Safety, and Circulation Evaluation Required (Question b. satisfied): **Yes** **No**

Access Assessment Required (Question b., e., and either f.i., f.ii. or f.iii satisfied): **Yes** **No**

EXECUTIVE SUMMARY

Introduction

Overland Traffic Consultants has prepared this transportation assessment of the CEQA impacts for a proposed mixed – use development at 3355 – 3377 Olympic Boulevard in the City of Los Angeles, see Project’s location in Figure 1.

The purpose of this Transportation Assessment (TA) is to document potential transportation impacts associated with the Project using the Los Angeles Department of Transportation’s (LADOT) Transportation Assessment Guidelines (TAG). The TAG establishes procedures and methods for review of development projects pursuant to the California Environmental Quality Act (CEQA) guidelines. LADOT has determined that a Transportation Assessment (TA) is required for the Project and has set the study parameters in a Memorandum of Understanding (MOU) (see LADOT MOU Appendix A).

Project Description

The Project Site is in the Wilshire Community Plan area at 3355 – 3377 Olympic Boulevard (Project Site) consisting of several lots with a total lot area of approximately 44,837 square feet (1.03 acres).

The mixed – use development (Project) consists of 153 apartments (137 market rate apartments and 16 affordable units) and approximately 4,900 square feet of commercial floor area (3,400 s.f. retail floor area and 1,500 s.f. restaurant floor area).

Project Parking and Access

The Project proposes 237 parking spaces (205 residential spaces, 25 guest parking spaces and 7 commercial parking spaces) at ground level with access from Gramercy Drive (local street) north of Olympic Boulevard. The Project will provide approximately 174 bicycle parking spaces on-site (153 long-term residential spaces and 15 short-term spaces) with 3 long-term and 3 short-term commercial bike spaces. A passenger loading zone is provided on-site.

FIGURE 1

PROJECT SETTING

Transportation Assessment CEQA and NON – CEQA Review

On July 30, 2019, the City of Los Angeles adopted the vehicle miles traveled (VMT) metric as its criterion for determining transportation impacts under the California Environmental Quality Act (CEQA). These changes are mandated by requirements of the State of California Senate Bill 743 (SB 743) and the State’s CEQA Guidelines.

These new CEQA guidelines for evaluating transportation impacts no longer focus on measuring automobile delay and level of service (LOS). Instead, SB 743 directed lead agencies to revise transportation assessment guidelines to include a transportation performance metric that promotes: the reduction of greenhouse gas emissions, the development of multimodal networks, and access to diverse land uses.

The July 2020 LADOT TAG (with August 26, 2021, update) is the City of Los Angeles’ document providing guidance for conducting CEQA transportation analyses for land development projects. The TAG identifies three CEQA thresholds for identifying significant transportation impacts in accordance with SB 743 that are applicable to the Project.

- Threshold T-1: Conflicting with Plans, Programs, Ordinances, or Policies
- Threshold T-2.1: Causing Substantial Vehicle Miles Traveled (VMT)
- Threshold T-3: Substantially Increasing Hazards Due to a Geometric Design Feature or Incompatible Use

The City’s adopted process also requires a non-CEQA analysis for land development projects. The purpose of this review is to evaluate how project development affect vehicular access, circulation, and safety for all users of the transportation system.

Findings

Based on the evaluation discussed in Chapters 2 and 3, no significant CEQA VMT transportation impacts or significant circulation, access, and safety deficiencies (non-CEQA) were identified by the development of the Project. Therefore, no transportation mitigation measures are required of the Project.

Cumulative VMT impacts have been evaluated through a consistency check with the Southern California Association of Governments' (SCAG) Regional Transportation Plan/Sustainable Communities Strategy (2016-2040 RTP/SCS) plan. The RTP/SCS is the regional plan that demonstrates compliance with air quality conformity requirements and greenhouse gas (GHG) reduction targets.

Per the LADOT TAG, land development projects that are consistent with the RTP/SCS plan in terms of development location and density are part of the regional solution for meeting air pollution and GHG goals. Projects that have less than a significant VMT impact are deemed to be consistent with the SCAG's 2016-2040 RTP/SCS and would have a less-than-significant cumulative impact on VMT. The Project does not have a significant VMT impact and is consistent with the RTP/SCS plan.

No cumulative development project impacts have been identified that would preclude the City's ability to provide transportation mobility in the area. As such, the Project will not create any cumulative operational impacts, emergency access impacts, and/or hazardous geometric design features.

CHAPTER 1

PROJECT DESCRIPTION

The Project Site is in Council District #5 within the Wilshire Community Plan area. The address of the Project is 3355 – 3377 W. Olympic Boulevard (Project Site). Figure 2 illustrates the map location of the Project.

Project Description

The Project development is located on several lots with a combined lot area of approximately 44,837 square feet (1.03 acres). The mixed – use development (Project) consists of 153 apartments (137 market rate apartments and 16 affordable units) and approximately 4,900 square feet of ground level commercial floor area (approximately 3,400 s.f. retail floor area and 1,500 s.f. restaurant floor area).

Project Parking and Access

The Project proposes 237 parking spaces (205 residential spaces, 25 guest parking spaces and 7 commercial parking spaces) at ground level with access from Gramercy Drive (local street) north of Olympic Boulevard. The Project will provide a minimum of 174 bicycle parking spaces on-site (153 long-term residential spaces and 15 short-term spaces) with 3 long-term and 3 short-term commercial bike spaces. A passenger loading zone is provided on-site.

Figures 3a, 3b and 3c illustrate the site plan, access, and parking layouts.

CHAPTER 2

CEQA TRANSPORTATION ASSESSMENT

The TAG is the City document that establishes procedures and methods for conducting CEQA transportation analyses for land development projects. The TAG identifies three CEQA thresholds for identifying significant transportation impacts in accordance with SB 743 that are applicable to the Project.

- Threshold T-1: Conflicting with Plans, Programs, Ordinances, or Policies
- Threshold T-2.1: Causing Substantial Vehicle Miles Traveled (VMT)
- Threshold T-3: Substantially Increasing Hazards Due to a Geometric Design Feature or Incompatible Use

I. Conflicts with Plans, Programs, Ordinances or Policies (Threshold T-1)

To guide the City's Mobility Plan 2035 (Transportation Element of the General Plan), the City has adopted programs, plans, ordinances, and policies that establish the transportation planning framework for all travel modes, including vehicular, transit, bicycle, and pedestrian facilities. Land development projects shall be evaluated for conformance with these City transportation plans, programs, and policies.

Per the TAG guidelines, the Threshold T-1 CEQA question (impact criteria) would be if a project conflicts with a program, plan, ordinance(s), or policy addressing the circulation system? However, a project would not be shown to result in an impact merely based on whether a project would not implement a program, policy, or plan. Rather, it is the intention of this threshold test to ensure that proposed development does not conflict with nor preclude the City from implementing adopted programs, plans, and policies.

Screening Criteria for Policy Analysis

If the development project requires a discretionary action, and the answer is yes to any of the following screening threshold questions, further analysis may be required to assess whether the proposed project would conflict with plans, programs, ordinances, or policies.

1. Does the project require a discretionary action that requires the decision maker to find that the decision substantially conforms to the purpose, intent, and provisions of the General Plan?

Yes, the Project requires a discretionary action.

2. Is the Project known to directly conflict with a transportation plan, policy or program adopted to support multi-modal transportation options or public safety?

No, the Project would not conflict with these key City planning documents, and potential impacts would be less than significant, see Table 1, Consistency Check.

3. Is the Project proposing to, or required to, make any voluntary or required, modifications to the public right-of-way (i.e., street dedications, reconfigurations of curb lines, etc.)?

YES, Pursuant to the following Mobility Element Street Standards for the Project's adjacent street standards, the Project has dedication and street widening requirements.

Olympic Boulevard is designated a Boulevard II roadway which requires a 110-foot right-of-way (55-foot half width) and 80-foot (40-foot half width) roadway.

- Olympic Boulevard is dedicated to a 50-foot half width and a 37-foot half street adjacent to the Project Site. A 5-foot dedication and 3-foot street widening is necessary to satisfy the Boulevard II standard for Olympic Boulevard.

St. Andrews Place is designated a Collector roadway which requires a 66-foot right-of-way (33-foot half width) and 40-foot (20-foot half width) roadway.

- St. Andrews Place is dedicated to a 30-foot half width and an 18-foot half street adjacent to the Project Site. A 3-foot dedication and 2-foot street widening is necessary to satisfy the Collector standard for St. Andrews Place.

Gramercy Drive is designated a Local roadway which requires a 60-foot right-of-way (30-foot half width) and 36-foot (18-foot half width) roadway.

- Gramercy Drive is dedicated to a 30-foot half width and an 18-foot half street adjacent to the Project Site. No dedication or street widening is necessary to satisfy the Local standard for Gramercy Drive.

The TAG provides a list of key City plans, policies, programs, and ordinances for consistency review as shown below in Table 1. Projects that generally conform with and do not conflict with these City's development policies and standards addressing the circulation system, will generally be considered consistent.

Table 1
Consistency Check with Key City Plans, Programs, Ordinances or Policies

TAG Table 2.1-1: City Documents that Establish the Regulatory Framework				
	Plan or Policy	Consistent?	Notes	Preclude City Implementation?
1.	LA Mobility Plan 2035	Yes	The Project will comply with the LA Mobility Plan 2035 street standards for Olympic Boulevard, St. Andrews Place and Gramercy Drive as required by the Bureau of Engineering.	No
2.	Plan for Healthy LA	Yes	The Project would support Policy 5.7, Land Use Planning for Public Health and Greenhouse Gas (GHG) Emission Reduction by reducing single-occupant vehicle trips by its proximity to high quality and high frequency transit service. The Project would include both electric charging stations and pre-wiring spaces for potential future electric vehicle charging (Ord. 186485). The Project provides pedestrian access separate from the vehicular access. The Project would not conflict with policies in the Plan for Healthy LA.	No
3.	Land Use Element of the General Plan (35 Community Plans)	Yes	The Project is in the Wilshire Community Plan area. The Project would be in substantial conformance with the purposes, intent, and provisions of the General Plan and the Community Plan.	No
4.	Specific Plans	N/A	The Project is not located in a Specific Plan area.	N/A
5.	LAMC Section 12.21A.16 (Bicycle Parking)	Yes	The Project will comply with the ratio of short and long-term bicycle parking pursuant to LAMC Section 12.21. A.16.	No
6.	LAMC Section 12.26J (TDM Ordinance)	Yes	LAMC Section 12.26J for Transportation Demand Management and Trip Reduction Measures applies only to the construction of new non-residential floor area greater than 25,000 s.f. The Project provides 4,900 s.f. of commercial floor area. The Project will comply with the existing and future TDM Ordinances, as required.	No
7.	LAMC Section 12.37 (Waivers of Dedications and Improvement)	Yes	The Project is not requesting a Waiver of Dedication and Improvements.	No

Table 1(cont'd)
Consistency Check with Key City Plans, Programs, Ordinances or Policies

	Plan or Policy	Consistent?	Notes	Preclude City Implementation?
8.	Vision Zero Action Plan	Yes	The Project would not preclude or conflict with the implementation of future Vision Zero projects in the public right-of-way, such as shown on the safety improvement maps. https://ladotlivablestreets.org/programs/vision-zero/maps	No
9.	Vision Zero Corridor Plan	Yes	Western Avenue Safety improvements have been installed between 3rd St and Washington Blvd, including new minor street crosswalks and continental crosswalk upgrades. Other new by projects include Pico Boulevard (Western Avenue to 2 nd Avenue) Safety improvements and Washington Boulevard (La Brea Avenue to Vermont Avenue) Safety Improvements. The Project would not preclude or conflict with the implementation of these Vision Zero projects in the public right-of-way. https://ladotlivablestreets.org/projects/Crenshaw-Boulevard-Safety	No
10.	Citywide Design guidelines	Yes		No
	Guideline 1: Promote a safe, comfortable, and accessible pedestrian experience for all	Yes	The Project will create a continuous and straight sidewalk clear of obstructions for pedestrian travel. The Project will provide adequate sidewalk width and right-of-way that accommodates pedestrian flow and activity. Pedestrian access will be provided at street level with direct access to the surrounding neighborhood and amenities.	No
	Guideline 2: Carefully incorporate vehicular access such that it does not degrade the pedestrian experience.	Yes	The Project complies with the Citywide Design Guidelines incorporating vehicle access locations that do not discourage and/or inhibit the pedestrian experience. Vehicular access is provided from Gramercy Drive, a local street.	No
	Guideline 3: Design projects to actively engage with streets and public space and maintain human scale.	Yes	The building design uses attractive architectural elements. The Project would not preclude or conflict with the implementation of future streetscape projects in the public right-of-way.	No

Cumulative Consistency Check

Pursuant to the TAG, each of the plans, programs, ordinances, and policies to assess potential conflicts with proposed projects should be reviewed to assess cumulative impacts that may result from the Project in combination with other nearby development projects. In accordance with the TAG, the cumulative analysis must include Related Projects within 0.5 miles of the Project Site. A listing of the Related Projects considered in this analysis is provided in Appendix G.

A cumulative impact could occur if the Project, with other future development projects located on the same block were to cumulatively preclude the City's ability to serve transportation user needs as defined by the City's transportation policy framework. No other development projects were identified on the same block. Note that Related Projects would be individually responsible for complying with the City's transportation plans, programs ordinances and policies.

The Project does not have a significant transportation impact under CEQA Threshold T-1 (Conflicting with Plans, Programs, Ordinances, or Policies).

Criteria for Transportation Projects - Would the Transportation Project include the addition of through traffic lanes on existing or new highways, including general purpose lanes, high-occupancy vehicle (HOV) lanes, peak period lanes, auxiliary lanes, and lanes through grade-separated interchanges (except managed lanes, transit lanes, and auxiliary lanes of less than one mile in length designed to improve roadway safety)?

Not Applicable - This analysis for Transportation Projects and this Project is not a transportation project because the Project is a land development project. Therefore, the Transportation Project analysis is not part of this Project's CEQA review.

II. Causing Substantial Vehicle Miles Traveled (Threshold T - 2.1)

The intent of this threshold question is to assess whether a land development project causes a substantial VMT impact. CEQA Guidelines Section 15064.3(b) relates to use of

VMT as the methodology for analyzing transportation impacts.

To address this question, LADOT's TAG identified significant VMT impact thresholds for each of seven Area Planning Commission (APC) sub-areas in the City of Los Angeles. A project's VMT is compared against the City's APC threshold goals for household VMT per capita and work VMT per employee to evaluate the significance of the project's VMT.

A development project will have a potential impact if the development project would generate VMT exceeding 15% below the existing average VMT for the Area Planning Commission (APC) area in which the project is located per TAG's Table 2.2-1.

The Project is in the Central APC sub - area which limits daily household VMT per capita to a threshold value of 6.0 and a daily work VMT per employee to a threshold value of 7.6 for commercial retail/restaurant greater than 50,000 s.f. (15% below the existing VMT for the Central APC).

The Project's household VMT per capita is estimated at 5.5 which is below the household VMT threshold for the Central APC. The work VMT per employee is not applicable because the commercial space is less than the 50,000 s.f. threshold. Results of the Project's VMT calculation (as shown in Appendix F).

No VMT Project impacts are created by the development of the Project for the Central APC.

Transportation Demand Management (TDM)

The Project's design features include TDM measures that reduce trips and VMT through TDM strategies selected in the VMT calculator. Specifically, the Project's TDM program includes bike parking which is a regulatory measure and part of the Project per the LAMC, as described below by LADOT'S TAG:

- Bike Parking - This strategy involves implementation of short and long-term bicycle parking to support safe and comfortable bicycle travel by providing parking facilities at destinations under existing LAMC regulations applicable to the Project (LAMC Section 12.21.A.16).

The effectiveness of the TDM strategies included in the VMT Calculator is based primarily on research documented in the 2010 California Air Pollution Control Officers Association (CAPCOA) publication, Quantifying Greenhouse Gas Mitigation Measures (CAPCOA, 2010).

Cumulative VMT Consistency Check

Cumulative VMT impacts are evaluated through a consistency check with the Southern California Association of Governments' (SCAG) Regional Transportation Plan/Sustainable Communities Strategy (2016-2040 RTP/SCS) plan. The RTP/SCS is the regional plan that demonstrates compliance with air quality conformity requirements and greenhouse gas (GHG) reduction targets.

Per the City's TAG, projects that are consistent with the RTP/SCS plan in terms of development location and density are part of the regional solution for meeting air pollution and GHG goals. Projects that have less than a significant VMT impact are deemed to be consistent with the SCAG's 2016-2040 RTP/SCS and would have a less-than-significant cumulative impact on VMT.

As shown, the Project VMT impact would not exceed the City's Central APC VMT impact thresholds and as such, the Project's contribution to the cumulative VMT impact is adequate to demonstrate there is no cumulative VMT impact that would preclude the City's ability to provide transportation mobility in the area.

III. Substantially Increasing Hazards Due to a Geometric Design Feature or Incompatible Use (Threshold T- 3.1)

Impacts regarding the potential increase of hazards due to a geometric design feature generally relate to the design of access points to and from the Project Site, and may include safety, operational, or capacity impacts. Impacts can be related to vehicle conflicts as well as to operational delays caused by vehicles slowing and/or queuing to access a project site.

No deficiencies are apparent in the site access plans which would be considered significant. This determination considers the following factors:

1. Vehicle access to the parking will be from Gramercy Drive, a local street).
2. The Project's access is consistent with LADOT driveway width and placement per LADOT Manual of Policies and Procedures, Section 321, Driveway Design.

A review of the Project Site plan does not present any hazardous geometric design features that would result in vehicle/pedestrian, vehicle/bicycle, or vehicle/vehicle safety hazards. Therefore, the Project does not have a significant transportation impact under CEQA Threshold T-3.1 (Substantially Increasing Hazards Due to a Geometric Design Feature).

CHAPTER 3

NON-CEQA TRANSPORTATION ASSESSMENT

In addition to conducting a CEQA review of development projects pursuant to SB743, LAMC Section 16.05 (Site Plan Review) authorizes a non-CEQA transportation analysis of development projects to identify deficiencies that may occur in the area due to the Project's development. LADOT retains the ability to review and impose development conditions to improve operational safety and access around a project site and to better assess how proposed projects may affect the City's transportation system under the non-CEQA assessment.

To assist in the Project's non-CEQA evaluation, the following information summarizes the environmental conditions in which the Project Site is located.

ENVIRONMENTAL SETTING

Land Use

The Project Site is in the Wilshire Community Plan Community Plan area approximately 2.5 miles west of downtown Los Angeles. The Community Plan area bounded by Melrose Avenue and Rosewood Avenue to the north; 18th Street, Venice Boulevard and Pico Boulevard to the south; Hoover Street to the east; and the Cities of West Hollywood and Beverly Hills to the west. The Project Site is also located in Los Angeles Council District 5 and the Greater Wilshire Neighborhood Council area.

The Wilshire Community Plan Community Plan consists of 8,961 net acres with 23.2% devoted to single family, 31.1% to multiple-family, 13.6% to commercial, 0.5% to industrial and 4.6% to open space/public facilities and 27% for streets. Neighborhood commercial uses exist along Olympic Boulevard with multi-family residential is located to the north of the Project Site. Single family is located to the south of the Olympic Boulevard strip commercial.

Appendix B contains the Wilshire Community Plan land use map and land use summary table.

Transportation Facilities

The City of Los Angeles has adopted the Mobility Plan 2035 as an update to the City's General Plan Transportation Element to incorporate the complete streets principles for integrating multi-mode transportation networks. The Mobility Plan 2035 dictates the street standards and designations for all users. Appendix C provides the community plan circulation map of the area roadway designations and roadway design standards.

Pursuant to the City of Los Angeles Mobility Element, arterial roadways are designated Boulevards and Avenues. Boulevards represent the City's widest streets that typically provide regional access to major destinations; the roadway standard for a Boulevard II roadway is a right - of - way width of 110 feet and a roadway width of 80 feet. Avenues may vary in their land use context, with some streets passing through both residential and commercial areas; the roadway standard for an Avenue II roadway is a right - of - way width of 86 feet and a roadway width of 56 feet.

Non - arterial roadways connect arterial roadways to local residential neighborhoods or industrial areas. Non - arterial roadways are designated Collector or Local streets. The standard for a Collector Street is a right - of - way width of 66 feet and a roadway width of 40 feet. The standard for a Local Street is a right - of - way width of 60 feet and a roadway width of 36 feet.

Regional access to the area is provided by the east-west Santa Monica Freeway (I-10) which is located approximately 1.25 miles to the south with full access ramps at Western Avenue and at Arlington Avenue. The 10-lane Santa Monica Freeway carries approximately 335,000 vehicles per day (VPD) with 18,100 vehicles per hour (VPH) west of Arlington Avenue and 350,000 VPD with 18,900 VPH east of Arlington Avenue.

Major east - west streets serving the study area include Olympic Boulevard, Pico Boulevard, and 8th Street. Key north - south streets providing access to the study area include Western Avenue, Arlington Avenue/Wilton Place and St. Andrews Place.

Descriptions of the main project serving streets are presented below.

Olympic Boulevard is an east-west roadway designated Boulevard II roadway in the Mobility Plan 2035. Olympic Boulevard is included in the Vehicle Enhanced Network, Pedestrian Enhanced District, and High Injury Network of the Mobility Plan. Olympic Boulevard is fully improved with two full time traffic lanes plus third peak hour lane (7-9am and 3-7pm) in each direction, 1-hour on-street parking during off peak, and a median left-turn lane.

Pico Boulevard is an east-west roadway designated Avenue II roadway. Pico Boulevard is included in the Tier 3 Bike Lane Network, Pedestrian Enhanced District, and High Injury Network of the Mobility Plan. Pico Boulevard provides two traffic lanes in each direction plus on-street parking.

8th Street is an east-west roadway designated Avenue II roadway. 8th Street is included in the Tier 2 Bike Lane Network. 8th Street east of Western Avenue is part of the High Injury Network.

Western Avenue is a north-south Avenue II roadway. Western Avenue is included in the Tier 3 Bike Lane Network, Pedestrian Enhanced District, and High Injury Network of the Mobility Plan. Western Avenue provides two traffic lanes in each direction, left-turn lanes at major intersections plus on-street parking.

Arlington Avenue/Wilton Place is a north-south Avenue III roadway. Arlington Avenue/Wilton Place is included Tier 2 Bike Network Pedestrian Enhanced District of the Mobility Plan. Two lanes in each direction with left-turn channelization and on-street parking is provided.

St. Andrews Place is a north-south Collector roadway that provides 1 lane in each direction and signalized at its intersection with Olympic Boulevard and at 8th Street. St. Andrews Place is identified as part of the City's Neighborhood Enhanced Network (NEN)

Gramercy Drive is a north-south Local Street that provides 1 lane in each direction. Gramercy Drive is stop sign controlled at its intersection with Olympic Boulevard.

Transit Information

Multiple transit lines (Bus and Rail) are available nearby to serve the Project. Public transportation in the study area is provided by the Metropolitan Transportation Authority (Metro) and the City of Los Angeles DASH Transit and Commuter Express service.

Regional Rail Service

The Metro D Line (Purple) and B Line (Red) subway lines serve the Wilshire Community Pan area, running along portions of Wilshire Boulevard and Vermont Avenue. The nearest rail station is located at Wilshire Boulevard and Western Avenue, approximately 0.7 miles to the northeast of the Project Site. The D Line (Purple) Line serves the Wilshire/Western station which is currently under construction - the D Line is being extended to the Westside region.

Local Transit Service

LADOT Wilshire Center/Koreatown DASH – Located less than quarter mile half mile to the northeast at the Koreatown Plaza (NEC San Marino Street and Western Avenue) is the LADOT Wilshire Center/Koreatown DASH service which provides frequent, inexpensive, and convenient neighborhood transit service.

LADOT Commuter Express 534 – Travels between Westwood, West Los Angeles, Century City and Downtown Los Angeles along Olympic Boulevard near the Project.

Metro is implementing The NextGen Bus Plan which is a reimagined bus system that focuses on providing fast, frequent, dependable, and accessible service to meet the needs of today's riders. Note that adjustments to the transit schedules are on-going because of the pandemic and ridership.

Metro NextGen Line 28 travels east-west between Century City and Downtown Los Angeles along Olympic Boulevard.

Metro NextGen Line 207 travels north-south between Los Feliz / Hollywood and Crenshaw along Western Avenue.

The transit line route maps are illustrated in Appendix D.

Complete Streets Mobility Networks (Vehicle, Bicycle, Transit and Neighborhood)

The Mobility Plan Element establishes a layered network of street standards that are designed to emphasize mobility modes within the larger system. This approach maintains the primary function of the streets that exist but identifies streets for potential alternative transportation modes providing a range of options available when selecting the appropriate design elements. Street may be listed in several networks with the goal of selecting a variety of mobility enhancements.

Network layers have been created for the Complete Street Network that prioritizes a certain mode within each layer with the goal of providing better connectivity. The network layers are Vehicle Enhanced network, Transit Enhanced network, Bicycle Enhanced network, Neighborhood Enhanced network, and Pedestrian Enhanced District. Definitions of these networks per the Complete Street Design Guidelines are provide below. Mobility Element maps, Walkability Index maps, bicycle plan maps, and pedestrian destination maps are included in Appendix E.

Vehicle Enhanced Network (VEN) - The VEN includes a select number of arterials that carry high volume of traffic for long distance travel on corridors with freeway access. Moderate enhancements typically include technology upgrades and peak-hour restrictions for parking and turning movements. Comprehensive enhancements can include improvements to access management, all-day lane conversions of parking, and all-day turning movement restrictions or permanent access control.

- Olympic Boulevard is identified on Vehicle Network Map.

Transit Enhanced Network (TEN) - The TEN is comprised of streets that prioritize travel for transit riders.

- Western Avenue is identified as a Moderate Plus Transit Enhanced Street.
- Crenshaw Boulevard, Wilshire Boulevard and Washington are identified as Comprehensive Transit Enhanced Streets.

Bicycle Enhanced Network (BEN) – The BEN is comprised of a network of low – stressed protected bike lanes (Tier 1) and bike paths prioritize bicycle travel by providing specific bicycle facilities and improvements. The BEN proposes bike facilities on arterial roadways with a striped separation. Tier 1 corresponding to protected bicycle lanes, and Tier 2 and Tier 3 bicycle lanes on arterial roads with a striped separation that are differentiated only by their potential implementation phasing - The difference between Tier 2 and Tier 3 implies probability that some lanes are not expected to be implemented by 2035.

The City of Los Angeles adopted a 2010 Bicycle Master Plan to encourage alternative modes of transportation throughout the City of Los Angeles. The Master Plan was developed to provide a network system that is safe and efficient to use in coordination with the vehicle and pedestrian traffic on the city street systems. The Master Plan has mapped out the existing, funded, and potential future Bicycle Paths, Bicycle Lanes, and Bicycle Routes. A brief definition of the bicycle facilities is provided below:

Bicycle Path – A bicycle path is a facility that is separated from the vehicular traffic for the exclusive use of the cyclist (although sometimes combined with a pedestrian lane). The designated path can be completely separated from vehicular traffic or cross the vehicular traffic with right-of-way assigned through signals or stop signs.

- No bicycle paths are provided in the immediate area.

Bicycle Lane – A bicycle lane is typically provided on street with a designated lane striped on the street for the exclusive use of the cyclist. The bicycle lanes are occasionally curbside, outside the parking lane, or along a right turn lane at intersections.

- Arlington Avenue/Wilton Place, Wilshire Boulevard, and 8th Street west of St. Andrews Place are identified as part of the BEN – Tier 2 bike Lane Network (BLN).
- Pico Boulevard is identified as part of the BEN – Tier 3 (BLN).

Bicycle Route – A bicycle route is a designated route in a cycling system where the cyclist shares the lane with the vehicle. Cyclist would follow the route and share the right-of-way with the vehicle.

- No streets in the vicinity of the Project Site are designated bike routes per the network maps.

Neighborhood Enhanced Network (NEN) - NEN is comprised of local streets intended to benefit from pedestrian and bicycle related safety enhancements for more localized travel of slower means of travel while preserving the connectivity of local streets to other enhanced networks. These enhancements encourage lower vehicle speeds, providing added safety for pedestrians and bicyclists.

- St. Andrews Place, County Club Drive, 11th Street, and 9th Street are identified as part of the City's NEN.

Pedestrian Enhanced District (PEDs) - In addition to these street networks, many arterial streets that could benefit from additional pedestrian features to provide better walking connections are identified as Pedestrian Enhanced Districts. The PED segments provided in the mobility map identify streets where pedestrian improvements on arterial streets could be prioritized to provide better walking connections to and from the major destinations within communities.

- Olympic Boulevard, Western Avenue, Pico Boulevard, and portions of Arlington Avenue/Wilton Place have been identified as pedestrian enhanced street segments with the goal of providing a more attractive environment to promote walking for shorter trips.

PROJECT TRAFFIC GENERATION

As part of the non-CEQA assessment, an operational analysis of the peak hour traffic flow with the Project has been prepared. Project traffic has been estimated using traffic generation studies published by the Institute of Transportation Engineers (ITE Trip Generation, 11th Edition Handbook) and LADOT. LADOT has adopted traffic rates for affordable apartments based on local traffic surveys. Using these traffic rates, the Project

traffic has been estimated at 701 net daily trips (LADOT VMT Calculator Tool) with 11 morning and 56 afternoon peak hour trips, as shown in Tables 2 and 3.

The Project's peak hour traffic volume at each study intersection has been calculated as shown in Figure 4. This estimated assignment of the project traffic flow provides the information necessary to analyze the Project's traffic flow.

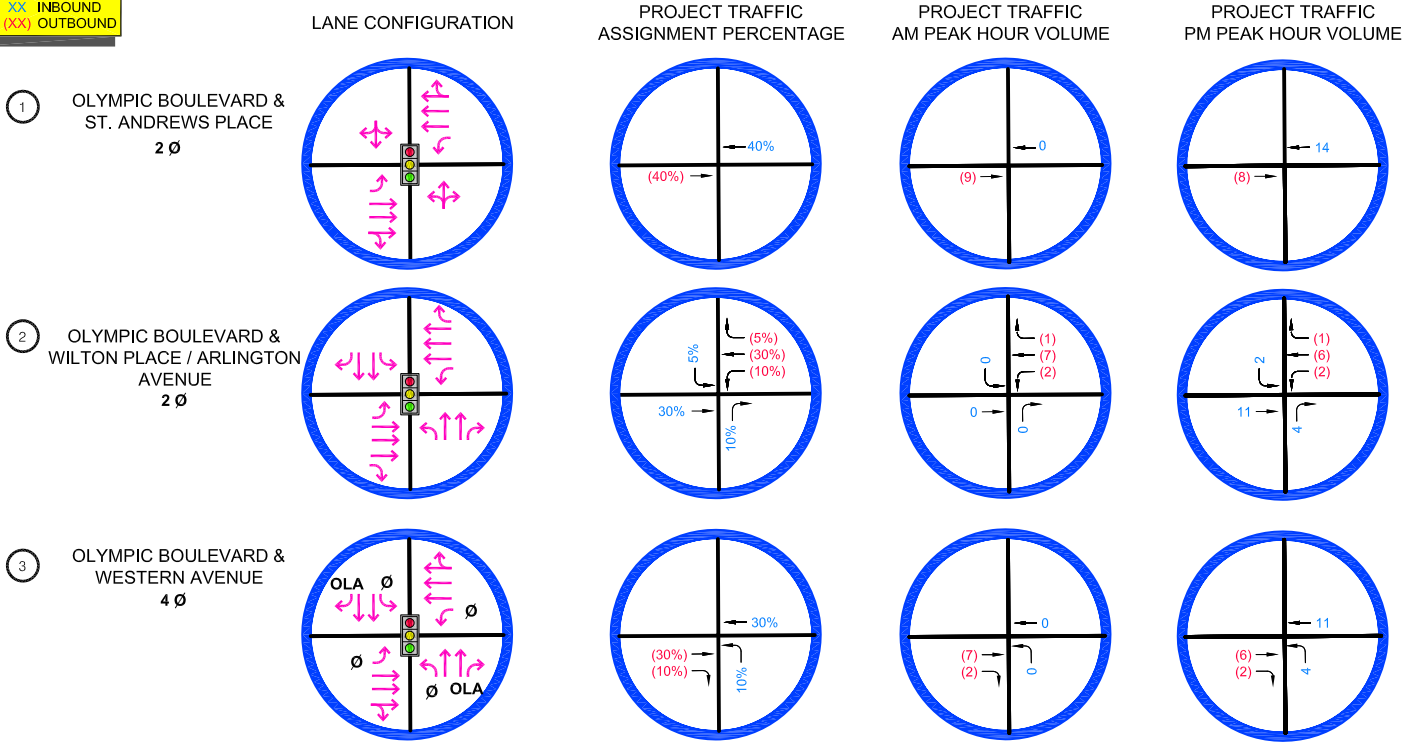

**Table 2
Project Trip Generation Rates**

ITE Code	Description	VMT Daily Traffic	ITE 11th Edition Daily Traffic	ITE 11TH Edition AM Peak Hour			ITE 11TH Edition PM Peak Hour

 (310) 930 - 3303, OTC@overlandtraffic.com

PEDESTRIAN, BICYCLE AND TRANSIT ACCESS ASSESSMENT

The pedestrian, bicycle and transit assessments are intended to determine a project’s potential effect on pedestrian, bicycle, and transit facilities in the vicinity of the Project Site. Any deficiencies could be physical (through removal, modification, or degradation of facilities) or demand-based (by adding pedestrian or bicycle demand to inadequate facilities).

Removal or Degradation of Facilities

The Project will not remove, modify, or degrade any pedestrian, bicycle, and transit facility in the vicinity of the Project Site. In fact, any damaged or off grade sidewalk, curb and gutter along the property frontage(s) will be repaired under Section 12.37 of the Los Angeles Municipal Code (LAMC). No bicycle facilities or transit stops are adjacent to the Project Site.

Project Intensification of Use

Governor’s Office of Planning and Research (OPR) December 2018 Technical Advisory on Evaluating Transportation Impacts in CEQA, identifies projects and areas presumed to have a less than significant transportation impact. Generally, projects that contribute to efficient land use patterns enabling higher levels of walking, cycling, and transit as well as lower than average trip length are considered to have a less than significant impact on transportation. Using the OPR guidelines listed below, the Project would have less than a significant impact on transportation.

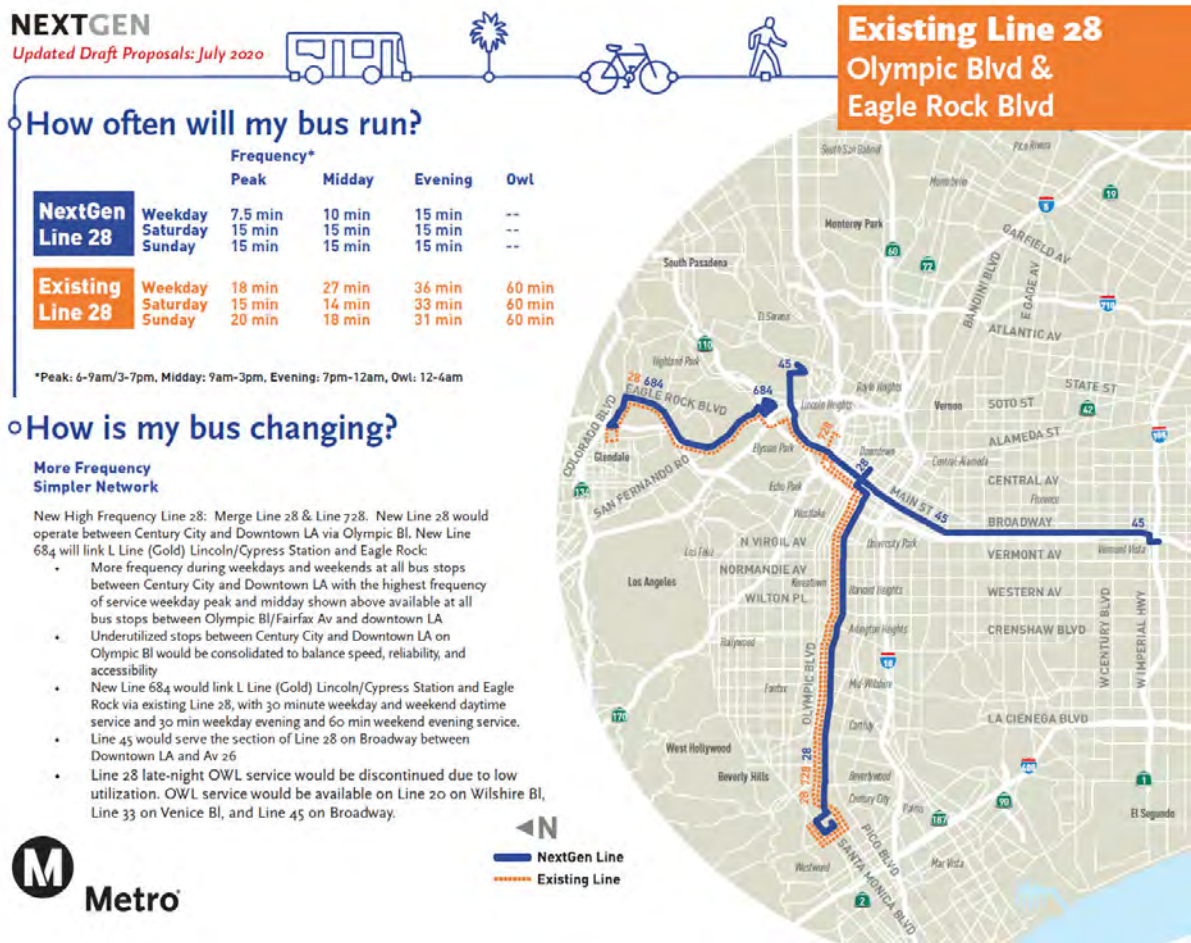

City of Los Angeles Transportation Assessment Guidelines

- An area pre-screened by an agency as having low residential or office VMT. The Project is in the Central Los Angeles CPA which has the lowest household VMT per capita and work VMT in the City of Los Angeles, as shown in the adjacent TAG table.

Table 2.2-1: VMT Impact Criteria (15% Below APC Average)

AREA PLANNING COMMISSION	DAILY HOUSEHOLD VMT PER CAPITA	DAILY WORK VMT PER EMPLOYEE
Central	6.0	7.6
East LA	7.2	12.7
Harbor	9.2	12.3
North Valley	9.2	15.0
South LA	6.0	11.6
South Valley	9.4	11.6
West LA	7.4	11.1

➤ **Transit Facilities** - A high-quality transit corridor is defined as a corridor with fixed route bus service with service intervals no longer than 15 minutes during peak commute hours (Pub. Resources 215 Code, § 21155). Several nearby transit services are available to the residents and employees of the Project with a LADOT neighborhood DASH line and Metro NexGen Route 28, shown below, providing a faster and more frequent bus service.

Existing service performance near the Project Site can be reviewed by exploring the Metro Next Generation Bus Plan portal using the link below. This shows nearby transit capacity to serve Project transit ridership.

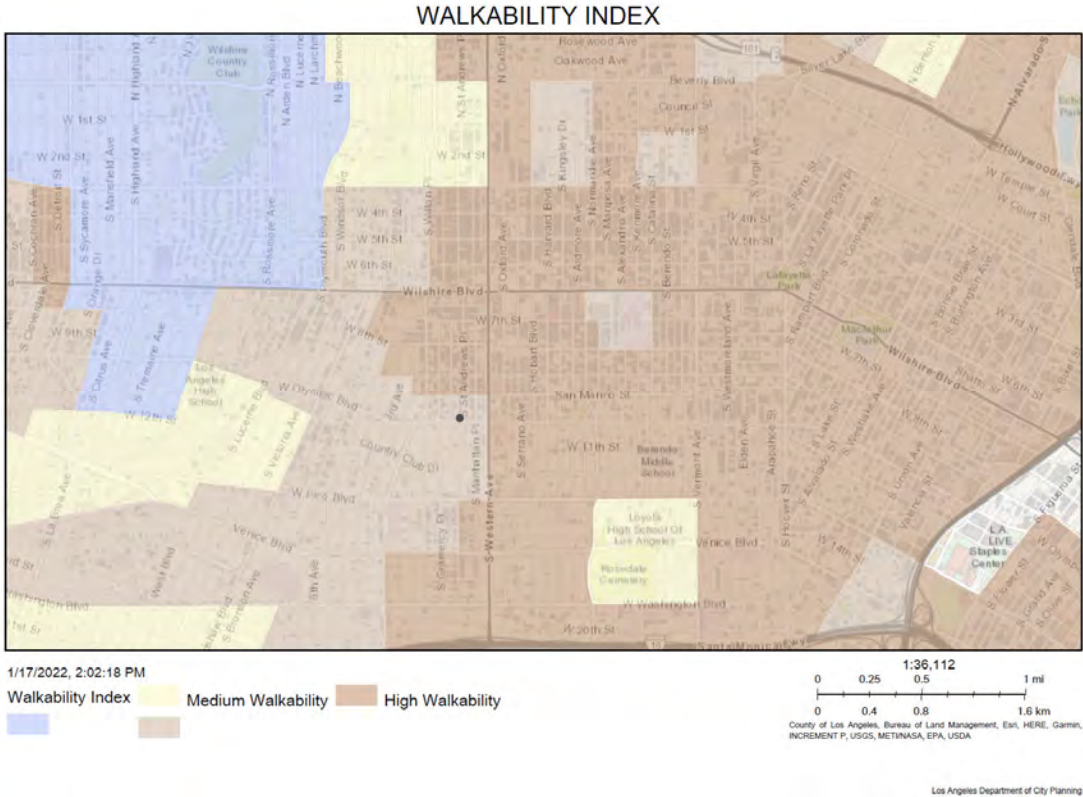

<https://la-metro.maps.arcgis.com/apps/MapSeries/index.html?appid=8decc337ba35474ba28d0b4e9ad71647>

Pedestrian Facilities - The Project will provide vehicle access from Gramercy Drive local street with access designed to LADOT standards which would not present significant safety hazards for bicycles or pedestrians. Furthermore, Project dedication along both Olympic Boulevard and St. Andrews Place frontages will allow for wider and upgraded sidewalks adjacent to the Project Site to facilitate increased pedestrian activity.

A Walk Score measures the walkability of any address based on the distance to nearby places and pedestrian friendliness. An evaluation of the Project Site's Walk Score indicates that the Project Site has a Walk score of 94 (defined as a walker's paradise) which indicates daily errands do not require a car. Pedestrian walkability in the area is supported by protected signalized crosswalks at St. Andrews Place and Olympic Boulevard and fully improved sidewalks.

<https://www.walkscore.com/score/3355-w-olympic-blvd-los-angeles-ca-90019>

A map illustrating the Walkability Index for the study area is shown below.

High Injury Network

Vision Zero Los Angeles identified a strategic plan to reduce traffic deaths to zero by focusing on engineering, enforcement, education, and evaluation. The priority identified in the report is safety with a goal to make the streets of the City of Los Angeles the safest in the nation. As part of an effort to achieve this goal, LADOT identified a High Injury Network (HIN) of city streets. The HIN identifies streets with a high number of traffic-related severe injuries and deaths across all modes of travel with emphasis on those involving pedestrians and cyclists. Olympic Boulevard is included in the High Injury Network, as indicated on the HIN map in Appendix C. Preventive measures by the Project include providing Project Site access from the adjacent local street which will improve the safety of Project-related traffic, pedestrians, bicycles, and passing motorists.

PROJECT ACCESS, SAFETY AND CIRCULATION EVALUATION

Project access and circulation is evaluated for safety, operational, and capacity constraints to identify circulation and access deficiencies that may require specific operational improvements. It should be noted that this analysis is not intended to be interpreted as a threshold of significance for the purposes of CEQA review and does not affect the CEQA VMT Impact analysis.

Operational Evaluation

An operational analysis of the Project's peak hour traffic flow has been prepared. This evaluation is based on the Synchro methodology which calculates the amount of delay per vehicle based upon the intersection traffic volumes, lane configurations, and signal timing.

Once the vehicle delay value has been calculated, operating characteristics are assigned a level of service grade (A through F) to estimate the level of congestion and stability of the traffic flow. The term "Level of Service" (LOS) is used by traffic engineers to describe the quality of traffic flow. Definitions of the intersection LOS grades in terms of vehicle delay are shown in Table 4.

Table 4
Signalized Intersection Level of Service Definitions

<u>LOS</u>	<u>HCM</u> <u>(delay in seconds)</u>	<u>Operating Conditions</u>
A	Less than 10	No loaded cycles and few are even close. No approach phase is fully utilized with no delay.
B	>10 to 20	A stable flow of traffic.
C	>20 to 35	Stable operation continues. Loading is intermittent. Occasionally drivers may have to wait more on red signal and backups may develop behind turning vehicles.
D	>35-55	Approaching instability. Delays may be lengthy during short time periods within the peak hour. Vehicles may be required to wait through more than one signal cycle.
E	>55 to 80	At or near capacity with possible long queues for left-turning vehicles. Full utilization of every signal cycle is seldom attained.
F	> 80	Gridlock conditions with stoppages of long duration.

Analysis of Existing and Future Traffic Conditions

Historic traffic data has been provided by LADOT because traffic data collection has been suspended due to the COV-19 pandemic, as directed by LADOT. Traffic counts from 2017 have been increased by 1 percent per year to reflect base 2022 and future year 2025 conditions which also includes other related development projects located within the study area either planned or recently constructed. Figures 5 and 6 shown the existing and future am and pm peak hour traffic volumes, respectively used in the analyses.

The intersections analyzed include:

1. Olympic Boulevard and St. Andrews Place;
2. Olympic Boulevard and Wilton Place/Arlington Avenue; and
3. Olympic Boulevard and Western Avenue

Results of the analysis are shown in Table 5 for Existing (2022) and Future (2025) traffic conditions without and with the Project’s traffic volume. As shown below, all study intersections are operating at Level of Service standard D or better which is considered an acceptable design level condition except Olympic Boulevard and Western Avenue during the morning peak hour. Synchro worksheets are provided in Appendix H.

Safety Evaluation

No deficiencies are apparent in the site access plans which would be considered significant. All emergency ingress/egress associated with the Project would be designed and constructed in conformance to all applicable City Building and Safety Department, LADOT, and LAFD standards and requirements for design and construction. This would also ensure pedestrian and vehicular safety.

Passenger Loading Evaluation

All required parking is located on – site in a parking garage. Passenger loading will occur from within the parking garage designated loading area or from the adjacent streets.

Guidance for Freeway Safety Analysis

On May 1, 2020, LADOT issued an Interim Guidance for Freeway Safety Analysis memorandum. The purpose of this memorandum is to provide interim guidance on the preparation of freeway safety analysis for land use proposals that are required by LADOT to prepare Transportation Assessments. The guidance was further updated in an LADOT Memo dated August 26, 2021. The following evaluation is consistent with the LADOT guidance.

Caltrans District 7 requested that environmental analyses for new land use development projects include freeway off-ramp safety considerations. Specifically, it

was requested that a development project study the effects on vehicle queuing on freeway off-ramps

In response, LADOT has developed the following criteria for a project freeway safety analysis to be included in Transportation Assessments for land development projects.

The initial step is to identify the number of Project trips expected to be added to nearby freeway off-ramps serving the Project Site. If the Project adds 25 or more trips to any off ramp in either the morning or afternoon peak hour, then that ramp should be studied for potential queuing impacts. If the Project is not expected to generate more than 25 or more peak hour trips at any freeway off-ramps, then a freeway ramp analysis is not required.

The Project generates a net reduction of inbound morning peak hour traffic and 35 pm inbound peak hour trips, therefore the Project will not add 25 peak hour trips to any freeway off ramp during any peak hour, as shown by the Project traffic assignment graphic in Figure 4. No further freeway safety analysis is necessary for the Project analysis using this guidance criteria.

Construction Overview

Project construction is evaluated to determine if activities substantially interfere with pedestrian, bicycle, transit, or vehicle mobility. Factors to be considered are the location of the Project Site, the functional classification of the adjacent street affected, temporary loss of bus stops or rerouting of transit lines, and the loss of vehicle, bicycle, or pedestrian access. LADOT's TAG considers three areas to be considered when evaluating project construction activities. The Project applicant may be required to submit formal Work Area Traffic Control Plans for review and approval by the City prior to the issuance of any construction permits.

1. Temporary Transportation Constraints

As part of the Project's construction, the City of Los Angeles may require a Construction Traffic Management Plan (Plan) to be implemented during the construction phase to minimize potential conflicts with vehicles, pedestrians, bicycle, and transit

facilities associated with the Project's construction. The Plan should include a construction schedule, the location of any traffic lane or sidewalk closures, any traffic detours, haul routes, hours of operation, access plans to abutting properties, and contact information.

Construction workers are typically expected to arrive at the Project Site before 7:00 AM and depart before or after the weekday peak hours of 4:00 to 6:00 PM. Deliveries of construction materials should be coordinated to non-peak travel periods, and to the extent possible should occur on-site or from the lower volume streets such as Gramercy Drive or St. Andrews Place.

For off-site activities, Worksite Traffic Control Plans would be prepared for any temporary traffic lane or sidewalk closures in accordance with City guidelines. These worksite plans will require a formal review and approval by the City prior to the issuance of any construction permits. In addition, the City of Los Angeles will require a Truck Haul Route plan including permitted hauling hours and a haul route to and from the landfill.

No detours around the construction site are expected; however, flaggers would be used to control traffic movement during the ingress and egress of construction trucks.

Since Project construction would not substantially interfere with pedestrian, bicycle, transit or vehicle mobility, the construction impacts would be less than significant.

2. Temporary Loss of Access

Vehicular access to the adjacent properties will be maintained. Safe pedestrian circulation paths adjacent to or around the work areas will be provided by covered pedestrian walkways if necessary and will be maintained as required by City-approved Work Area Traffic Control Plans.

Since Project construction would not result in complete loss of vehicular or pedestrian access, the construction impacts on loss of access would be less than significant.

3. Temporary Loss of Bus Stops or Rerouting of Bus Lines

No bus stops are located within the work zone adjacent to the Project Site that would need to be temporarily relocated. There will be no loss of pedestrian access to transit stops and no rerouting of bus lines are necessary.

Since Project construction would not require relocation of bus stops or bus lines, the construction impacts on transit operations would be less than significant.

APPENDIX A

LADOT Memorandum of Understanding (MOU

Transportation Assessment Memorandum of Understanding (MOU)

This MOU acknowledges that the Transportation Assessment for the following Project will be prepared in accordance with the latest version of LADOT’s Transportation Assessment Guidelines:

I. PROJECT INFORMATION

Project Name: Olympic Boulevard Mixed Use

Project Address: 3377, 3355 W. Olympic Boulevard

Project Description: Construct mixed use project with 137 market rate apartments, 16 affordable apartments, 1,500 sf restaurant & 3,400 sf retail. Remove existing auto repair 2,700 sf, private school 50 students & vacant restaurant.

LADOT Project Case Number: CEN22-52805 Project Site Plan attached? (Required) Yes No

II. TRANSPORTATION DEMAND MANAGEMENT (TDM) MEASURES

Select any of the following TDM measures, which may be eligible as a Project Design Feature¹, that are being considered for this project:

Reduced Parking Supply ²	x	Bicycle Parking and Amenities		Parking Cash Out
-------------------------------------	---	-------------------------------	--	------------------

List any other TDM measures (e.g. bike share kiosks, unbundled parking, microtransit service, etc.) below that are also being considered and would require LADOT staff’s determination of its eligibility as a TDM measure. LADOT staff will make the final determination of the TDM measure's eligibility for this project.

- | | |
|---------|---------|
| 1 _____ | 4 _____ |
| 2 _____ | 5 _____ |
| 3 _____ | 6 _____ |

III. TRIP GENERATION

Trip Generation Rate(s) Source: ITE 10th Edition / Other LADOT and ITE 11th Edition

Trip Generation Adjustment <i>(Exact amount of credit subject to approval by LADOT)</i>	Yes	No
Transit Usage	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Existing Active or Previous Land Use	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Internal Trip	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Pass-By Trip	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Transportation Demand Management (See above)	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Trip generation table including a description of the existing and proposed land uses, rates, estimated morning and afternoon peak hour volumes (ins/outs/totals), proposed trip credits, etc. attached? (Required) Yes No

	<u>IN</u>	<u>OUT</u>	<u>TOTAL</u>
AM Trips	<u>-11</u>	<u>22</u>	<u>11</u>
PM Trips	<u>35</u>	<u>20</u>	<u>56</u>

<u>611</u>	DVT (ITE <u>11</u> ed.)
<u>701</u>	DVT (VMT Calculator ver. <u>1.3</u>)

¹ At this time Project Design Features are only those measures that are also shown to be needed to comply with a local ordinance, affordable housing incentive program, or State law.

²Select if reduced parking supply is pursued as a result of a parking incentive as permitted by the City’s Bicycle Parking Ordinance, State Density Bonus Law, or the City’s Transit Oriented Community Guidelines.

IV. STUDY AREA AND ASSUMPTIONS

Project Buildout Year: 2025 Ambient Growth Rate: 1 % Per Yr.

Related Projects List, researched by the consultant and approved by LADOT, attached? (Required) Yes No

STUDY INTERSECTIONS and/or STREET SEGMENTS:
 (May be subject to LADOT revision after access, safety, and circulation evaluation.)

- 1 Olympic Boulevard and St. Andrews Place 4 _____
- 2 Olympic Boulevard and Wilton Place 5 _____
- 3 Olympic Boulevard and Western Avenue 6 _____

Provide a separate list if more than six study intersections and/or street segments.

Is this Project located on a street within the High Injury Network? Yes No

If a study intersection is located within a ¼-mile of an adjacent municipality’s jurisdiction, signature approval from said municipality is required prior to MOU approval.

V. ACCESS ASSESSMENT

- a. Does the project exceed 1,000 net DVT? Yes No
- b. Is the project’s frontage 250 linear feet or more along an Avenue or Boulevard as classified by the City’s General Plan? Yes No
- c. Is the project’s building frontage encompassing an entire block along an Avenue or Boulevard as classified by the City’s General Plan? Yes No

VI. ACCESS ASSESSMENT CRITERIA

If Yes to any of the above questions a., b., or c., complete **Attachment C.1: Access Assessment Criteria**.

VII. SITE PLAN AND MAP OF STUDY AREA

Please note that the site plan should also be submitted to the Department of City Planning for cursory review.

Does the attached site plan and/or map of study area show	Yes	No	Not Applicable
Each study intersection and/or street segment	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
*Project Vehicle Peak Hour trips at each study intersection	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
*Project Vehicle Peak Hour trips at each project access point	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
*Project trip distribution percentages at each study intersection	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Project driveways designed per LADOT MPP 321 (show widths and directions or lane assignment)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Pedestrian access points and any pedestrian paths	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Pedestrian loading zones	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Delivery loading zone or area	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Bicycle parking onsite	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Bicycle parking offsite (in public right-of-way)	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

*For mixed-use projects, also show the project trips and project trip distribution by land use category.

VIII. FREEWAY SAFETY ANALYSIS SCREENING

Will the project add 25 or more trips to any freeway off-ramp in either the AM or PM peak hour? YES NO

Provide a brief explanation or graphic identifying the number of project trips expected to be added to the nearby freeway off-ramps serving the project site. If Yes to the question above, a freeway ramp analysis is required.

Trip generation & distribution as shown on attached demonstrates freeway traffic will be less than 25 peak hour trips.

IX. CONTACT INFORMATION

CONSULTANT

DEVELOPER

Name: Jerry Overland, Overland Traffic Consultants

Address: 24325 Main St #202 Santa Clarita CA 91321

**MOUs are generally valid for two years after signing. If after two years a transportation assessment has not been submitted to LADOT, the developer's representative shall check with the appropriate LADOT office to determine if the terms of this MOU are still valid or if a new MOU is needed.

LADOT Access Assessment Criteria

This Criteria acknowledges that the Transportation Assessment for the following Project will be prepared in accordance with the latest version of LADOT's Transportation Assessment Guidelines:

I. PROJECT INFORMATION

Project Name:

Project Address: 3377, 3355 W. Olympic Boulevard

Project Description: Construct mixed use project with 137 market rate apartments, 16 affordable apartments, 1500 sf restaurant & 3,400 sf retail. Remove existing auto repair 2,700 sf, private school 50 students & vacant restaurant

LADOT Project Case Number: CEN22-52805

II. PEDESTRIAN/ PERSON TRIP GENERATION

Source of Pedestrian/Person Trip Generation Rate(s)? VMT Calculator ITE 10th Edition Other: CMP

Person trips equals VMT mxd daily trips 848 x 1.4 CMP person trip factor = 1,187 person trips

	Land Use	Size/Unit	Daily Person Trips
Proposed	Apartments	153 du	904 (646*1.4)
	Retail	3,400 sf	148 (106*1.4)
	Restaurant	1,500 sf	135 (96*1.4)
	Pedestrian trips= 297 (25% of person trips)		<i>Total new trips:</i>

Pedestrian/Person trip generation table including a description of the proposed land uses, trip credits, person trip assumptions, comparison studies used for reference, etc. attached? Yes No Daily person trips and pedestrian trips provided above

III. PEDESTRIAN ATTRACTORS INVENTORY

Attach Pedestrian Map for the area (1,320 foot radius from edge of the project site) depicting:

- site pedestrian entrance(s)
- Existing or proposed passenger loading zones
- pedestrian generation/distribution values
 - Geographic Distribution: N 0 % S 0 % E 60 % W 40 %
- transit boarding and alighting of transit stops (should include Metro rail stations; Metro, DASH, and other municipal bus stops)
- Key pedestrian destinations with hours of operation:
 - schools (school times)
 - government offices with a public counter or meeting room
 - senior citizen centers
 - recreation centers or playgrounds
 - public libraries
 - medical centers or clinics
 - child care facilities
 - post offices

- A-11** ATTACHMENT C.1: Access Assessment Criteria
- places of worship
 - grocery stores
 - other facilities that attract pedestrian trips
 - pedestrian walking routes to key destinations from project site

Note: Pedestrian Count Summary, Bicycle Count Summary, Manual Traffic Count Summary will need to be attached to the Transportation Assessment

IV. FACILITIES INVENTORY

Is a High Injury Network street located within 1,320 foot radius from the edge of the project site? Yes No

If yes, list streets and include distance from the project:

<u>Olympic Boulevard</u>	at <u>frontage</u> (feet)
<u>Western Avenue</u>	at <u>634</u> (feet)
<u>San Mario Avenue east of Western Avenue</u>	at <u>840</u> (feet)
<u>_____</u>	at _____ (feet)

Attach Radius Map for the area (1,320 foot radius from edge of the project site) depicting the following existing and proposed facilities:

- transit stops
- bike facilities
- traffic control devices for controlled crossings
- uncontrolled crosswalks
- location of any missing, damaged or substandard sidewalks

For a reference of planned facilities, see the [Transportation Assessment Support Map](#)

Crossing Distances

Does the project property have frontage along an arterial street (designated as either an Avenue or Boulevard?)

Yes No

If yes, provide the distance between the crossing control devices (e.g. signalized crosswalk, or controlled mid-block crossing) along any arterial within 1,320 feet of the property.

<u>0</u> (feet) at <u>Olympic Boulevard</u>	<u>_____</u> (feet) at _____
<u>550'</u> (feet) at <u>east along Olympic Boulevard</u>	<u>_____</u> (feet) at _____
<u>1,060'</u> (feet) at <u>west along Olympic Boulevard</u>	<u>_____</u> (feet) at _____
<u>580'</u> (feet) at <u>north along Western Avenue</u>	<u>_____</u> (feet) at _____
<u>_____</u> (feet) at _____	<u>_____</u> (feet) at _____
<u>_____</u> (feet) at _____	<u>_____</u> (feet) at _____

V. Project Construction

Will the project require any construction activity within the city right-of-way? Yes No

If yes, will the project require temporary closure of any of the following city facilities?

- sidewalk Temporary closure possible
- bike lane
- parking lane
- travel lane
- bus stop
- bicycle parking (racks or corrals)
- bike share or other micro-mobility station
- car share station
- parklet
- other: _____

Plans, Policies and Programs Consistency Worksheet

The worksheet provides a structured approach to evaluate the threshold T-1 question below, that asks whether a project conflicts with a program, plan, ordinance or policy addressing the circulation system. The intention of the worksheet is to streamline the project review by highlighting the most relevant plans, policies and programs when assessing potential impacts to the City's circulation system.

Threshold T-1: Would the project conflict with a program, plan, ordinance, or policy addressing the circulation system, including transit, roadways, bicycle, and pedestrian facilities?

This worksheet does not include an exhaustive list of City policies, and does not include community plans, specific plans, or any area-specific regulatory overlays. The Department of City Planning project planner will need to be consulted to determine if the project would obstruct the City from carrying out a policy or program in a community plan, specific plan, streetscape plan, or regulatory overlay that was adopted to support multimodal transportation options or public safety. LADOT staff should be consulted if a project would lead to a conflict with a mobility investment in the Public Right of Way (PROW) that is currently undergoing planning, design, or delivery. This worksheet must be completed for all projects that meet the Section I. Screening Criteria. For description of the relevant planning documents, **see Attachment D.1.**

For any response to the following questions that checks the box in **bold text** (i.e. **Yes** or **No**), further analysis is needed to demonstrate that the project does not conflict with a plan, policy, or program.

I. SCREENING CRITERIA FOR POLICY ANALYSIS

If the answer is 'yes' to any of the following questions, further analysis will be required:

Does the project require a discretionary action that requires the decision maker to find that the project would substantially conform to the purpose, intent and provisions of the General Plan?

Yes No

Is the project known to directly conflict with a transportation plan, policy, or program adopted to support multimodal transportation options or public safety?

Yes **No**

Is the project required to or proposing to make any voluntary modifications to the public right-of-way (i.e., dedications and/or improvements in the right-of-way, reconfigurations of curb line, etc.)?

Yes No

II. PLAN CONSISTENCY ANALYSIS

A. Mobility Plan 2035 PROW Classification Standards for Dedications and Improvements

These questions address potential conflict with:

Plan, Policy, and Program Consistency Worksheet

Mobility Plan 2035 Policy 2.1 – Adaptive Reuse of Streets. Design, plan, and operate streets to serve multiple purposes and provide flexibility in design to adapt to future demands.

Mobility Plan 2035 Policy 2.3 – Pedestrian Infrastructure. Recognize walking as a component of every trip, and ensure high quality pedestrian access in all site planning and public right-of-way modifications to provide a safe and comfortable walking environment.

Mobility Plan 2035 Policy 3.2 – People with Disabilities. Accommodate the needs of people with disabilities when modifying or installing infrastructure in the public right-of-way.

Mobility Plan 2035 Street Designations and Standard Roadway Dimensions

A.1 Does the project include additions or new construction along a street designated as a Boulevard I, and II, and/or Avenue I, II, or III on property zoned for R3 or less restrictive zone? Yes No

A.2 If **A.1 is yes**, is the project required to make additional dedications or improvements to the Public Right of Way as demonstrated by the street designation. Yes No N/A

A.3 If **A.2 is yes**, is the project making the dedications and improvements as necessary to meet the designated dimensions of the fronting street (Boulevard I, and II, or Avenue I, II, or III)?

Yes No N/A

If the answer is to **A.1 or A.2 is NO, or to A.1, A.2 and A.3. is YES**, then the project does not conflict with the dedication and improvement requirements that are needed to comply with the Mobility Plan 2035 Street Designations and Standard Roadway Dimensions.

A.4 If the answer to **A.3. is NO**, is the project applicant asking to waive from the dedication standards? Yes No N/A

Lists any streets subject to dedications or voluntary dedications and include existing roadway and sidewalk widths, required roadway and sidewalk widths, and proposed roadway and sidewalk width or waivers.

Olympic Boulevard

Frontage 1 Existing PROW'/Curb' : Existing
 100' / 74' Required 110' / 80' Proposed +5 / +3

St Andrews Pl.

Frontage 2 Existing PROW'/Curb' : Existing
 60' / 36' Required 66' / 40' Proposed +3' / +2

Gramercy Pl.

Frontage 3 Existing PROW'/Curb' : Existing
 60' / 36' Required 60' / 36' Proposed no change

Frontage 4 Existing PROW'/Curb' : Existing

Required Proposed

If the answer to **A.4 is NO**, the project is inconsistent with Mobility Plan 2035 street designations and must file for a waiver of street dedication and improvement.

Plan, Policy, and Program Consistency Worksheet

If the answer to **A.4** is **YES**, additional analysis is necessary to determine if the dedication and/or improvements are necessary to meet the City's mobility needs for the next 20 years. The following factors may contribute to determine if the dedication or improvement is necessary:

Is the project site along any of the following networks identified in the City's Mobility Plan?

- Transit Enhanced Network NO
- Bicycle Enhanced Network NO
- Bicycle Lane Network NO
- Pedestrian Enhanced District YES
- Neighborhood Enhanced Network YES

To see the location of the above networks, see **Transportation Assessment Support Map**.¹

Is the project within the service area of Metro Bike Share, or is there demonstrated demand for micro-mobility services? NO

If the project dedications and improvements asking to be waived are necessary to meet the City's mobility needs, the project may be found to conflict with a plan that is adopted to protect the environment.

B. Mobility Plan 2035 PROW Policy Alignment with Project-Initiated Changes

B.1 Project-Initiated Changes to the PROW Dimensions

These questions address potential conflict with:

Mobility Plan 2035 Policy 2.1 – Adaptive Reuse of Streets. Design, plan, and operate streets to serve multiple purposes and provide flexibility in design to adapt to future demands.

Mobility Plan 2035 Policy 2.3 – Pedestrian Infrastructure. Recognize walking as a component of every trip, and ensure high quality pedestrian access in all site planning and public right-of-way modifications to provide a safe and comfortable walking environment.

Mobility Plan 2035 Policy 3.2 – People with Disabilities. Accommodate the needs of people with disabilities when modifying or installing infrastructure in the public right-of-way.

Mobility Plan 2035 Policy 2.10 – Loading Areas. Facilitate the provision of adequate on and off-site street loading areas.

Mobility Plan 2035 Street Designations and Standard Roadway Dimensions

B.1 Does the project physically modify the curb placement or turning radius and/or physically alter the sidewalk and parkways space that changes how people access a property?

Examples of physical changes to the public right-of-way include:

¹ LADOT Transportation Assessment Support Map <https://arcgis.com/fubbd>

Plan, Policy, and Program Consistency Worksheet

- widening the roadway,
- narrowing the sidewalk,
- adding space for vehicle turn outs or loading areas,
- removing bicycle lanes, bike share stations, or bicycle parking
- modifying existing bus stop, transit shelter, or other street furniture
- paving, narrowing, shifting or removing an existing parkway or tree well

Yes No

B.2 Driveway Access

These questions address potential conflict with:

Mobility Plan 2035 Policy 2.10 – Loading Areas. Facilitate the provision of adequate on and off-site street loading areas.

Mobility Plan 2035 Program PL.1. Driveway Access. Require driveway access to buildings from non-arterial streets or alleys (where feasible) in order to minimize interference with pedestrian access and vehicular movement.

Citywide Design Guidelines - Guideline 2: Carefully incorporate vehicular access such that it does not degrade the pedestrian experience.

Site Planning Best Practices:

- *Prioritize pedestrian access first and automobile access second. Orient parking and driveways toward the rear or side of buildings and away from the public right-of-way. On corner lots, parking should be oriented as far from the corner as possible.*
- *Minimize both the number of driveway entrances and overall driveway widths.*
- *Do not locate drop-off/pick-up areas between principal building entrances and the adjoining sidewalks.*
- *Orient vehicular access as far from street intersections as possible.*
- *Place drive-thru elements away from intersections and avoid placing them so that they create a barrier between the sidewalk and building entrance(s).*
- *Ensure that loading areas do not interfere with on-site pedestrian and vehicular circulation by separating loading areas and larger commercial vehicles from areas that are used for public parking and public entrances.*

B.2 Does the project add new driveways along a street designated as an Avenue or a Boulevard that conflict with LADOT’s Driveway Design Guidelines (See Sec. 321 in the Manual of Policies and Procedures) by any of the following:

- locating new driveways for residential properties on an Avenue or Boulevard, and access is otherwise possible using an alley or a collector/local street, or
- locating new driveways for industrial or commercial properties on an Avenue or Boulevard and access is possible along a collector/local street, or
- the total number of new driveways exceeds 1 driveway per every 200 feet² along on the Avenue or Boulevard frontage, or

² for a project frontage that exceeds 400 feet along an Avenue or Boulevard, the incremental additional driveway above 2 is more than 1 driveway for every 400 additional feet.

- locating new driveways on an Avenue or Boulevard within 150 feet from the intersecting street, or
- locating new driveways on a collector or local street within 75 feet from the intersecting street, or
- locating new driveways near mid-block crosswalks, requiring relocation of the mid-block crosswalk

Yes No

If the answer to **B.1 and B.2 are both NO**, then the project would not conflict with a plan or policies that govern the PROW as a result of the project-initiated changes to the PROW.

Impact Analysis

If the answer to either **B.1 or B.2 are YES**, City plans and policies should be reviewed in light of the proposed physical changes to determine if the City would be obstructed from carrying out the plans and policies. The analysis should pay special consideration to substantial changes to the Public Right of Way that may either degrade existing facilities for people walking and bicycling (e.g., removing a bicycle lane), or preclude the City from completing complete street infrastructure as identified in the Mobility Plan 2035, especially if the physical changes are along streets that are on the High Injury Network (HIN). The analysis should also consider if the project is in a Transit Oriented Community (TOC) area, and would degrade or inhibit trips made by biking, walking and/ or transit ridership. The streets that need special consideration are those that are included on the following networks identified in the Mobility Plan 2035, or the HIN:

- Transit Enhanced Network
- Bicycle Enhanced Network
- Bicycle Lane Network
- Pedestrian Enhanced District
- Neighborhood Enhanced Network
- High Injury Network

To see the location of the above networks, see **Transportation Assessment Support Map**.³

Once the project is reviewed relevant to plans and policies, and existing facilities that may be impacted by the project, the analysis will need to answer the following two questions in concluding if there is an impact due to plan inconsistency.

B.2.1 Would the physical changes in the public right of way or new driveways that conflict with LADOT's Driveway Design Guidelines degrade the experience of vulnerable roadway users such as modify, remove, or otherwise negatively impact existing bicycle, transit, and/or pedestrian infrastructure?

Yes No N/A

B.2.2 Would the physical modifications or new driveways that conflict with LADOT's Driveway Design Guidelines preclude the City from advancing the safety of vulnerable roadway users?

Yes No N/A

³ LADOT Transportation Assessment Support Map <https://arcg.is/fubbd>

Plan, Policy, and Program Consistency Worksheet

If either of the answers to either **B.2.1 or B.2.2 are YES**, the project may conflict with the Mobility Plan 2035, and therefore conflict with a plan that is adopted to protect the environment. If either of the answers to both **B.2.1. or B.2.2. are NO**, then the project would not be shown to conflict with plans or policies that govern the Public Right-of-Way.

C. Network Access

C. 1 Alley, Street and Stairway Access

These questions address potential conflict with:

Mobility Plan Policy 3.9 Increased Network Access: Discourage the vacation of public rights-of-way.

C.1.1 Does the project propose to vacate or otherwise restrict public access to a street, alley, or public stairway?

Yes No

C.1.2 If the answer to C.1.1 is Yes, will the project provide or maintain public access to people walking and biking on the street, alley or stairway?

Yes No N/A

C.2 New Cul-de-sacs

These questions address potential conflict with:

Mobility Plan 2035 Policy 3.10 Cul-de-sacs: Discourage the use of cul-de-sacs that do not provide access for active transportation options.

C.2.1 Does the project create a cul-de-sac or is the project located adjacent to an existing cul-de-sac?

Yes No

C.2.2 If yes, will the cul-de-sac maintain convenient and direct public access to people walking and biking to the adjoining street network?

Yes No N/A

If the answers to either C.1.2 or C.2.2 are YES, then the project would not conflict with a plan or policies that ensures access for all modes of travel. If the answer to either **C.1.2 or C.2.2 are NO**, the project may conflict with a plan or policies that governs multimodal access to a property. Further analysis must assess to the degree that pedestrians and bicyclists have sufficient public access to the transportation network.

D. Parking Supply and Transportation Demand Management

These questions address potential conflict with:

Mobility Plan 2035 Policy 3.8 – Bicycle Parking, Provide bicyclists with convenient, secure and well maintained bicycle parking facilities.

Plan, Policy, and Program Consistency Worksheet

Mobility Plan 2035 Policy 4.8 – *Transportation Demand Management Strategies. Encourage greater utilization of Transportation Demand Management Strategies to reduce dependence on single-occupancy vehicles.*

Mobility Plan 2035 Policy 4.13 – *Parking and Land Use Management: Balance on-street and off-street parking supply with other transportation and land use objectives.*

D.1 Would the project propose a supply of onsite parking that exceeds the baseline amount⁴ as required in the Los Angeles Municipal Code or a Specific plan, whichever requirement prevails?

Yes No

D.2 If the answer to D.1. is YES, would the project propose to actively manage the demand of parking by independently pricing the supply to all users (e.g. parking cash-out), or for residential properties, unbundle the supply from the lease or sale of residential units?

Yes No N/A

If the answer to **D.2. is NO** the project may conflict with parking management policies. Further analysis is needed to demonstrate how the supply of parking above city requirements will not result in additional (induced) drive-alone trips as compared to an alternative that provided no more parking than the baseline required by the LAMC or Specific Plan. If there is potential for the supply of parking to result in induced demand for drive-alone trips, the project should further explore transportation demand management (TDM) measures to further off-set the induced demands of driving and vehicle miles travelled (VMT) that may result from higher amounts of on-site parking. The TDM measures should specifically focus on strategies that encourage dynamic and context-sensitive pricing solutions and ensure the parking is efficiently allocated, such as providing real time information. Research has demonstrated that charging a user cost for parking or providing a 'cash-out' option in return for not using it is the most effective strategy to reduce the instances of drive-alone trips and increase non-auto mode share to further reduce VMT. To ensure the parking is efficiently managed and reduce the need to build parking for future uses, further strategies should include sharing parking with other properties and/or the general public.

D.3. Would the project provide the minimum on and off-site bicycle parking spaces as required by Section 12.21 A.16 of the LAMC?

Yes No

D.4. Does the Project include more than 25,000 square feet of gross floor area construction of new non-residential gross floor?

Yes No

D.5 If the answer to D.4. is YES, does the project comply with the City's TDM Ordinance in Section 12.26 J of the LAMC?

Yes No N/A

⁴ The baseline parking is defined here as the default parking requirements in section 12.21 A.4 of the Los Angeles Municipal Code or any applicable Specific Plan, whichever prevails, for each applicable use not taking into consideration other parking incentives to reduce the amount of required parking.

Plan, Policy, and Program Consistency Worksheet

If the answer to **D.3. or D.5. is NO** the project conflicts with LAMC code requirements of bicycle parking and TDM measures. If the project includes uses that require bicycle parking (Section 12.21 A.16) or TDM (Section 12.26 J), and the project does not comply with those Sections of the LAMC, further analysis is required to ensure that the project supports the intent of the two LAMC sections. To meet the intent of bicycle parking requirements, the analysis should identify how the project commits to providing safe access to those traveling by bicycle and accommodates storing their bicycle in locations that demonstrates priority over vehicle access.

Similarly, to meet the intent of the TDM requirements of Section 12.26 J of the LAMC, the analysis should identify how the project commits to providing effective strategies in either physical facilities or programs that encourage non-drive alone trips to and from the project site and changes in work schedule that move trips out of the peak period or eliminate them altogether (as in the case in telecommuting or compressed work weeks).

E. Consistency with Regional Plans

This section addresses potential inconsistencies with greenhouse gas (GHG) reduction targets forecasted in the Southern California Association of Governments (SCAG) Regional Transportation Plan (RTP) / Sustainable Communities Strategy (SCS).

E.1 Does the Project or Plan apply one the City's efficiency-based impact thresholds (i.e. VMT per capita, VMT per employee, or VMT per service population) as discussed in **Section 2.2.3** of the TAG?

Yes No

E.2 If the Answer to **E.1 is YES**, does the Project or Plan result in a significant VMT impact?

Yes No N/A

E.3 If the Answer to **E.1 is NO**, does the Project result in a net increase in VMT?

Yes No N/A

If the Answer to **E.2 or E.3 is NO**, then the Project or Plan is shown to align with the long-term VMT and GHG reduction goals of SCAG's RTP/SCS.

E.4 If the Answer to **E.2 or E.3 is YES**, then further evaluation would be necessary to determine whether such a project or land use plan would be shown to be consistent with VMT and GHG reduction goals of the SCAG RTP/SCS. For the purpose of making a finding that a project is consistent with the GHG reduction targets forecasted in the SCAG RTP/SCS, the project analyst should consult **Section 2.2.4** of the Transportation Assessment Guidelines (TAG). **Section 2.2.4** provides the methodology for evaluating a land use project's cumulative impacts to VMT, and the appropriate reliance on SCAG's most recently adopted RTP/SCS in reaching that conclusion.

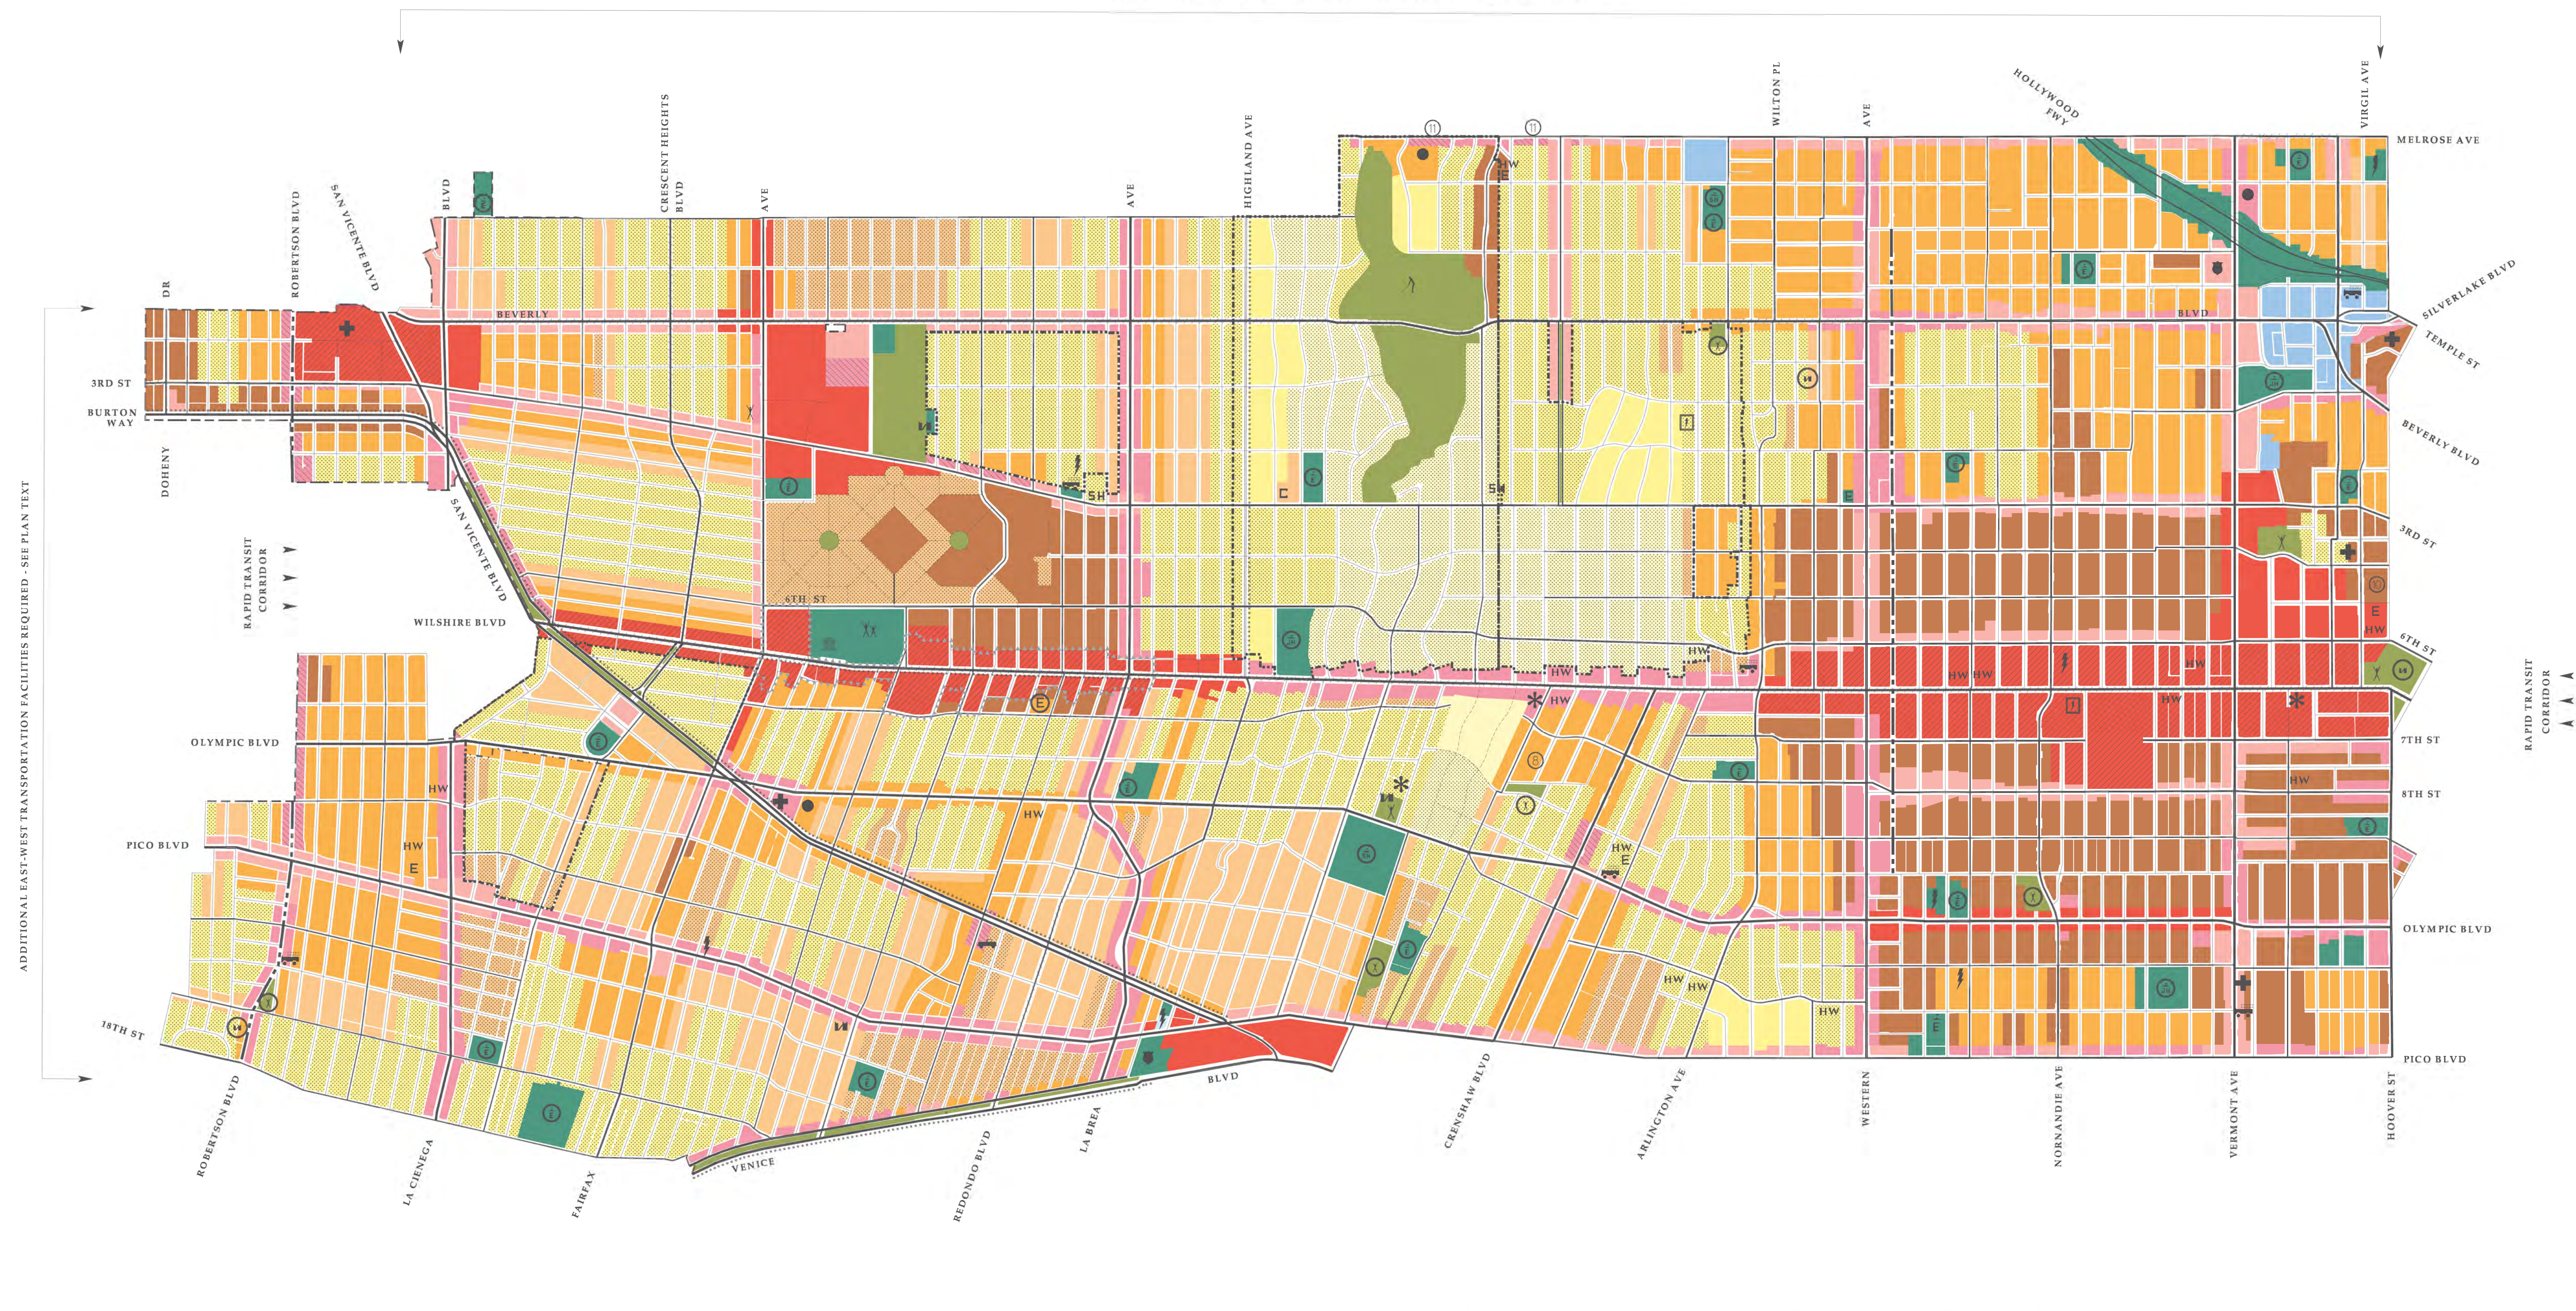

The analysis methods therein can further support findings that the project is consistent with the general use designation, density, building intensity, and applicable policies specified for the project area in either a sustainable communities strategy or an alternative planning strategy for which the State Air Resources Board, pursuant to Section 65080(b)(2)(H) of the Government Code, has accepted a metropolitan planning organization's determination that the sustainable communities strategy or the alternative planning strategy would, if implemented, achieve the greenhouse gas emission reduction targets.

APPENDIX B

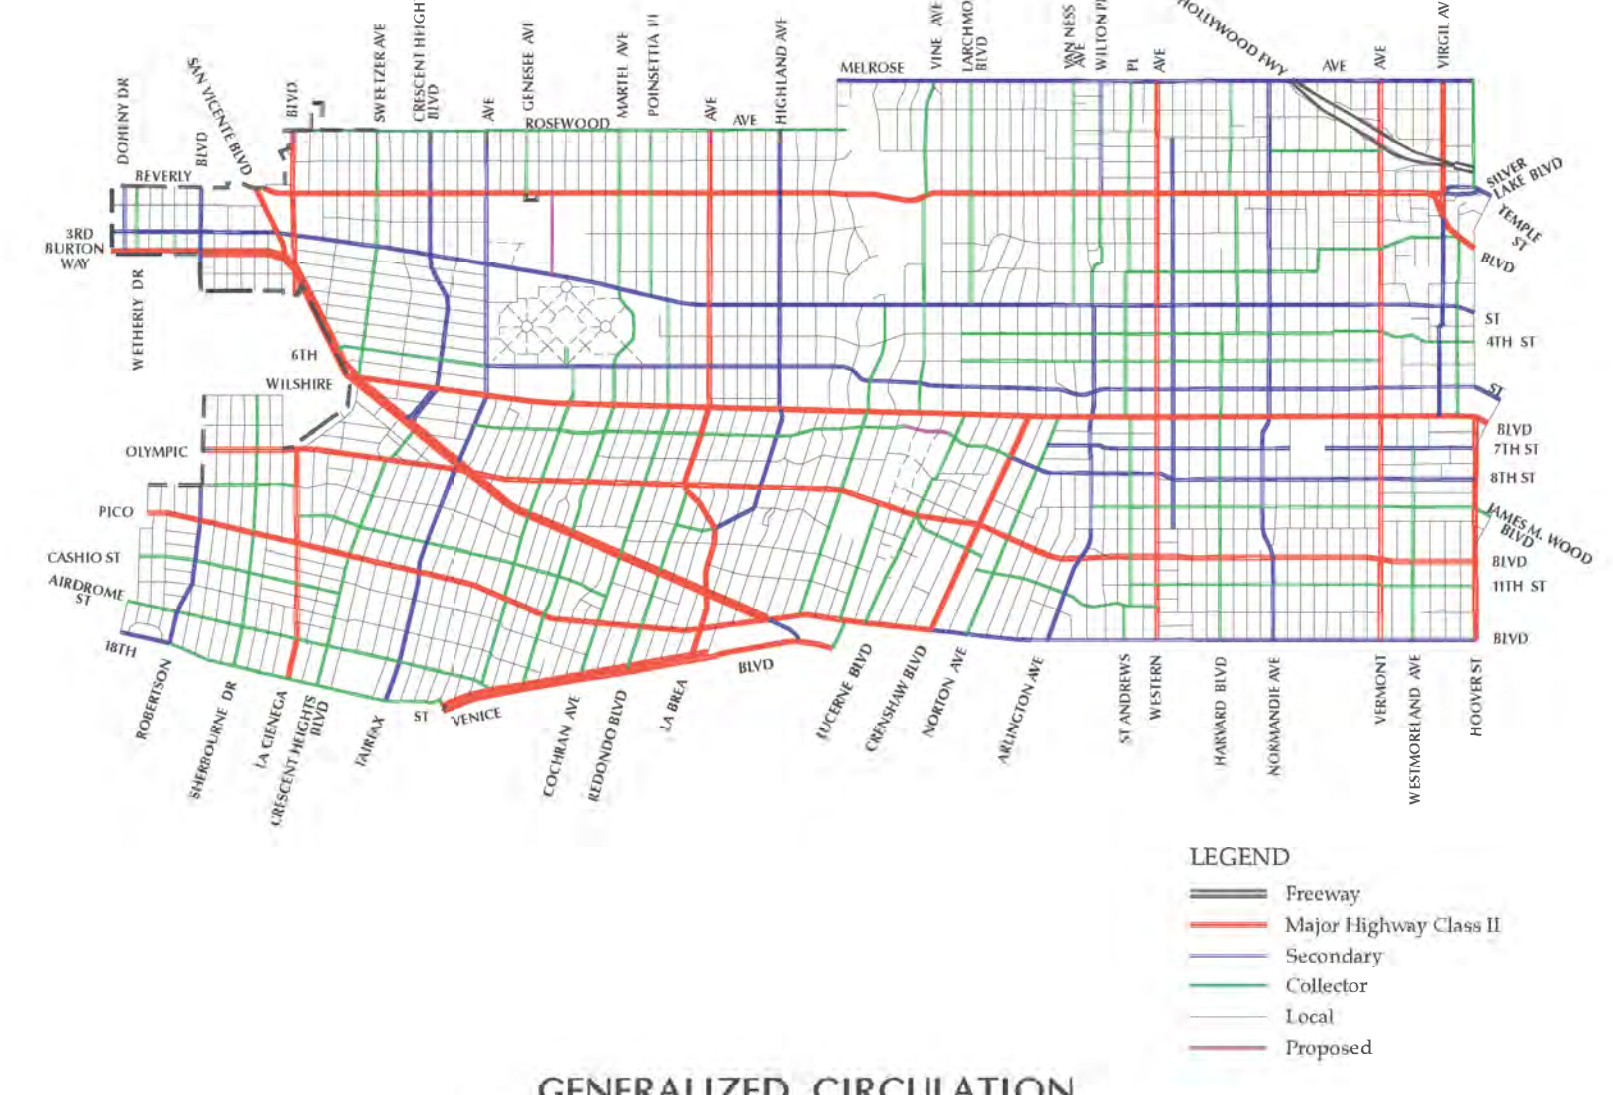

Community Plan Land Use Map

ADDITIONAL NORTH-SOUTH TRANSPORTATION FACILITIES REQUIRED - SEE PLAN TEXT

ADDITIONAL EAST-WEST TRANSPORTATION FACILITIES REQUIRED - SEE PLAN TEXT

RAPID TRANSIT CORRIDOR

GENERALIZED CIRCULATION (See Note 'D')

SPECIFIC PLAN AREA

LAND USE table with columns for Residential (Single Family, Multiple Family), Commercial, Industrial, Open Space, and Public Facilities, listing corresponding zones and codes.

CIRCULATION table listing various street types such as Freeway, Major Scenic Hwy, Major Highway, Modified Major Hwy, Divided Major Hwy, Divided Secondary Hwy, Scenic Divided Secondary Hwy, Modified Secondary Hwy, Minimum Secondary Hwy, Collector Street, Modified Collector Street, Local Street, and Private Street.

SERVICE SYSTEMS table listing School Sites (Public Elementary, Public Junior High, Public Senior High, Private Elementary, Private Senior High, Private College), Recreational Sites (Neighborhood Park, Community Park, Golf Course - Private), and Other Facilities (Police Station, Fire Station, Community Library, Power Distribution Station, Maintenance Yard, Cultural & Historical Monument, Health Center, Water Tank Reservoir, Museum, House Of Worship).

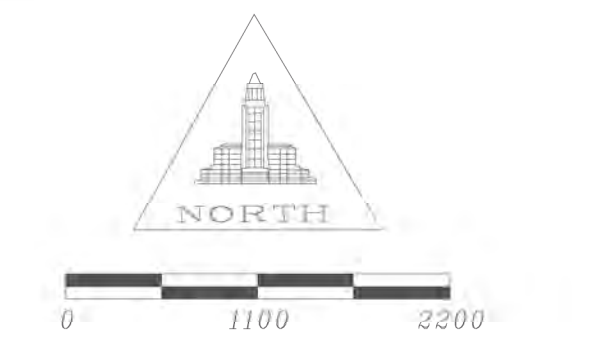

FOOTNOTES section containing 12 numbered notes providing details about zoning, property, and plan amendments.

Notes section with notes A through D regarding plan accessibility, special area maps, parcel level information, and circulation.

VMT Report

CITY OF LOS ANGELES VMT CALCULATOR Version 1.3

Project Screening Criteria: Is this project required to conduct a vehicle miles traveled analysis?

Project Information

Project:

Scenario:

Address:

Existing Land Use

Land Use Type	Value	Unit
School Private School (K-12)	50	Students
Retail Auto Repair	2.7	ksf
School Private School (K-12)	50	Students

Click here to add a single custom land use type (will be included in the above list)

Proposed Project Land Use

Land Use Type	Value	Unit
Retail High-Turnover Sit-Down Restaurant	1.5	ksf
Housing Multi-Family	137	DU
Housing Affordable Housing - Family	16	DU
Retail General Retail	3.4	ksf
Retail High-Turnover Sit-Down Restaurant	1.5	ksf

Click here to add a single custom land use type (will be included in the above list)

Project Screening Summary

Existing Land Use	Proposed Project
142 Daily Vehicle Trips	848 Daily Vehicle Trips
745 Daily VMT	5,014 Daily VMT

Tier 1 Screening Criteria

Project will have less residential units compared to existing residential units & is within one-half mile of a fixed-rail station.

Tier 2 Screening Criteria

The net increase in daily trips < 250 trips 706
Net Daily Trips

The net increase in daily VMT ≤ 0 4,269
Net Daily VMT

The proposed project consists of only retail land uses ≤ 50,000 square feet total. 4,900
ksf

The proposed project is required to perform VMT analysis.

Is the project replacing an existing number of residential units with a smaller number of residential units AND is located within one-half mile of a fixed-rail or fixed-guideway transit station?

Yes No

TDM Strategies

Select each section to show individual strategies
Use to denote if the TDM strategy is part of the proposed project or is a mitigation strategy

	Proposed Project	With Mitigation
Max Home Based TDM Achieved?	No	No
Max Work Based TDM Achieved?	No	No

- A** Parking
- B** Transit
- C** Education & Encouragement
- D** Commute Trip Reductions
- E** Shared Mobility
- F** Bicycle Infrastructure
 - Implement/Improve On-street Bicycle Facility Select Proposed Prj or Mitigation to include this strategy
 Proposed Prj Mitigation
 - Include Bike Parking Per LAMC Select Proposed Prj or Mitigation to include this strategy
 Proposed Prj Mitigation
 - Include Secure Bike Parking and Showers Select Proposed Prj or Mitigation to include this strategy
 Proposed Prj Mitigation
- G** Neighborhood Enhancement

Analysis Results

Proposed Project	With Mitigation
843 Daily Vehicle Trips	843 Daily Vehicle Trips
4,984 Daily VMT	4,984 Daily VMT
5.5 Household VMT per Capita	5.5 Household VMT per Capita
N/A Work VMT per Employee	N/A Work VMT per Employee

Proposed Project Land Use Type	Value	Unit
Housing Multi-Family	137	DU
Housing Affordable Housing - Family	16	DU
Retail General Retail	3.4	ksf
Retail High-Turnover Sit-Down Restaurant	1.5	ksf

Significant VMT Impact?

Household: No	Household: No
Threshold = 6.0 15% Below APC	Threshold = 6.0 15% Below APC
Work: N/A	Work: N/A
Threshold = 7.6 15% Below APC	Threshold = 7.6 15% Below APC

VMT Calculator User Agreement

The Los Angeles Department of Transportation (LADOT), in partnership with the Department of City Planning and Fehr & Peers, has developed the City of Los Angeles Vehicle Miles Traveled (VMT) Calculator to estimate project-specific daily household VMT per capita and daily work VMT per employee for land use development projects. This application, the VMT Calculator, has been provided to You, the User, to assess vehicle miles traveled (VMT) outcomes of land use projects within the City of Los Angeles. The term "City" as used below shall refer to the City of Los Angeles. The terms "City" and "Fehr & Peers" as used below shall include their respective affiliates, subconsultants, employees, and representatives.

The City is pleased to be able to provide this information to the public. The City believes that the public is most effectively served when they are provided access to the technical tools that inform the public review process of private and public land use investments. However, in using the VMT Calculator, You agree to be bound by this VMT Calculator User Agreement (this Agreement).

VMT Calculator Application for the City of Los Angeles. The City's consultant calibrated the VMT Calculator's parameters in 2018 to estimate travel patterns of locations in the City, and validated those outcomes against empirical data. However, this calibration process is limited to locations within the City, and practitioners applying the VMT Calculator outside of the City boundaries should not apply these estimates without further calibration and validation of travel patterns to verify the VMT Calculator's accuracy in estimating VMT in such other locations.

Limited License to Use. This Agreement gives You a limited, non-transferrable, non-assignable, and non-exclusive license to use and execute a copy of the VMT Calculator on a computer system owned, leased or otherwise controlled by You in Your own facilities, as set out below, provided You do not use the VMT Calculator in an unauthorized manner, and that You do not republish, copy, distribute, reverse-engineer, modify, decompile, disassemble, transfer, or sell any part of the VMT Calculator, and provided that You know and follow the terms of this Agreement. Your failure to follow the terms of this Agreement shall automatically terminate this license and Your right to use the VMT Calculator.

Ownership. You understand and acknowledge that the City owns the VMT Calculator, and shall continue to own it through Your use of it, and that no transfer of ownership of any kind is intended in allowing You to use the VMT Calculator.

Warranty Disclaimer. In spite of the efforts of the City and Fehr & Peers, some information on the VMT Calculator may not be accurate. The VMT Calculator, OUTPUTS AND ASSOCIATED DATA ARE PROVIDED "as is" WITHOUT WARRANTY OF ANY KIND, whether expressed, implied, statutory, or otherwise including but not limited to, the implied warranties of merchantability and fitness for a particular purpose.

Limitation of Liability. It is understood that the VMT Calculator is provided without charge. Neither the City nor Fehr & Peers can be responsible or liable for any information derived from its use, or for any delays, inaccuracies, incompleteness, errors or omissions arising out of your use of the VMT Calculator or with respect to the material contained in the VMT Calculator. You understand and agree that Your sole remedy against the City or Fehr & Peers for loss or damage caused by any defect or failure of the

VMT Calculator, regardless of the form of action, whether in contract, tort, including negligence, strict liability or otherwise, shall be the repair or replacement of the VMT Calculator to the extent feasible as determined solely by the City. In no event shall the City or Fehr & Peers be responsible to You or anyone else for, or have liability for any special, indirect, incidental or consequential damages (including, without limitation, damages for loss of business profits or changes to businesses costs) or lost data or downtime, however caused, and on any theory of liability from the use of, or the inability to use, the VMT Calculator, whether the data, and/or formulas contained in the VMT Calculator are provided by the City or Fehr & Peers, or another third party, even if the City or Fehr & Peers have been advised of the possibility of such damages.

This Agreement and License shall be governed by the laws of the State of California without regard to their conflicts of law provisions, and shall be effective as of the date set forth below and, unless terminated in accordance with the above or extended by written amendment to this Agreement, shall terminate on the earlier of the date that You are not making use of the VMT Calculator or one year after the beginning of Your use of the VMT Calculator.

By using the VMT Calculator, You hereby waive and release all claims, responsibilities, liabilities, actions, damages, costs, and losses, known and unknown, against the City and Fehr & Peers for Your use of the VMT Calculator.

Before making decisions using the information provided in this application, contact City LADOT staff to confirm the validity of the data provided.

Print and sign below, and submit to LADOT along with the transportation assessment Memorandum of Understanding (MOU).

EXECUTIVE SUMMARY

The 51,124 square foot (1.17 acre) Project site consists of four parcels and is located at 3355 - 3377 W. Olympic Boulevard within the Wilshire Community Plan area in the City of Los Angeles, as shown in **Figure 1: Project Site Location**. The Project site currently consists of an operational auto care facility and vacant (non-operational) restaurant and nursery facilities. The Project site is bounded by Olympic Boulevard to the south, St. Andrews Place to the east and Gramercy Drive to the west. The Proposed Project includes removal of the existing uses to construct a new 7-story 153-unit mixed use apartment building consisting of 5,000 square feet of commercial space with two levels of subterranean parking.

In accordance with requirements under the California Environmental Quality Act (CEQA), this Air Quality Study provides an estimate of emissions for the Project and the potential impacts from associated construction and operation activities. The report includes the categories and types of emission sources resulting from the Project, the calculation procedures used in the analysis, and any assumptions or limitations. This report summarizes the potential for the Project to conflict with an applicable air quality plan; violate an air quality standard or threshold; result in a cumulatively net increase of criteria pollutant emissions; expose sensitive receptors to substantial pollutant concentrations; or create objectionable odors affecting a substantial number of people.

The findings of the analyses are as follows:

- The Project would be consistent with air quality policies set forth by the South Coast Air Quality Management District (SCAQMD) and the Air Quality Management Plan.
- Construction and operational emissions would not contribute to short- or long-term emissions that would increase the carcinogenic effects on sensitive receptors. Emissions associated with operation would not exceed the SCAQMD-recommended thresholds. Thus, the Project would not result in a regional violation of applicable air quality standards or jeopardize the timely attainment of such standards in the South Coast Air Basin.
- Operation of the Project will not employ toxic air contaminant-emitting processes. No substantial pollutant concentration would be generated.
- Project construction and operations would not result in significant levels of odors.
- The Project would result in less than significant cumulative air quality impacts during construction and operation of the Project.

Based upon a worst-case assessment, the Project does not result in significant impacts to surrounding land uses from air quality.

SOURCE: Google Earth - 2022

FIGURE 1

REGULATORY SETTING

In California, jurisdiction over air quality management, enforcement, and planning is divided among 35 geographic regions. Within each region, a local air district is responsible for oversight of air quality monitoring, modeling, permitting, and enforcement to ensure that regulatory violations are avoided wherever possible.

South Coast Air Quality Management District

The South Coast Air Quality Management District (SCAQMD) shares responsibility with CARB for ensuring that all State and federal AAQS are achieved and maintained over an area of approximately 10,743 square miles. This area includes the South Coast and Salton Sea Air Basins, all of Orange County, and the nondesert portions of Los Angeles, Riverside, and San Bernardino Counties. It does not include the Antelope Valley or the nondesert portion of western San Bernardino County.

SCAQMD is responsible for controlling emissions, primarily from stationary sources. SCAQMD maintains air quality monitoring stations throughout the air basins. SCAQMD, in coordination with the Southern California Association of Governments (SCAG), is also responsible for developing, updating, and implementing the Air Quality Management Plan (AQMP) for the air basins. An AQMP is a plan prepared and implemented by an air pollution district for a county or region designated as being in nonattainment of the NAAQS or CAAQS. The term “nonattainment area” is used to refer to an air basin in which one or more AAQS are exceeded. SCAQMD also prepares the SIP for its jurisdiction and promulgates rules and regulations. The SIP includes strategies and tactics to be used to attain the federal ozone standards in the South Coast Air Basin. The SIP elements are taken from the most recent AQMP. SCAQMD adopted the 2022 AQMP on December 2, 2022.¹ The AQMP includes transportation control measures developed by SCAG from its 2020-2045 Regional Transportation Plan/Sustainable Communities Strategy, as well as the integrated strategies and measures needed to meet the NAAQS. The AQMP demonstrates attainment of the 1-hour and 8-hour ozone NAAQS, as well as the latest 24-hour and annual PM_{2.5} standards.

SCAQMD is responsible for limiting the number of emissions generated throughout the air basins by various stationary, area, and mobile sources. Specific rules and regulations have been adopted by the SCAQMD Governing Board that identify specific pollution-reduction measures that must be implemented in association with various uses and activities. These rules regulate not only the emissions of the federal and State criteria pollutants, but also toxic air contaminants (TACs) and acutely hazardous materials. The rules are also subject to ongoing refinement by SCAQMD. Among the SCAQMD rules applicable to the Project are Rule 403 (Fugitive Dust) and Rule 1113 (Architectural Coatings). Rule 403 requires the use of stringent best available control measures (BACMs) to minimize PM₁₀ emissions during grading and

¹ SCAQMD, Final 2022 Air Quality Management Plan, adopted December 2, 2022, <http://www.aqmd.gov/docs/default-source/clean-air-plans/air-quality-management-plans/2022-air-quality-management-plan/final-2022-aqmp/final-2022-aqmp.pdf?sfvrsn=10>. Accessed January 2023.

construction activities. Rule 1113 limits the VOC content of coatings, with a VOC content limit for flat coatings of 50 grams per liter (g/L).² Additional details regarding these rules and other potentially applicable rules are presented as follows.

Rule 402 (Nuisance). This rule states that a “person shall not discharge from any source whatsoever such quantities of air contaminants or other material which cause injury, detriment, nuisance, or annoyance to any considerable number of persons or to the public, or which endanger the comfort, repose, health or safety of any such persons or to the public, or which cause, or have a natural tendency to cause, injury or damage to business or property.”³

Rule 403 (Fugitive Dust). This rule requires fugitive dust sources to implement BACMs for all sources and prohibits all forms of visible particulate matter from crossing any property line. BACMs may include application of water or chemical stabilizers to disturbed soils covering haul vehicles; restricting vehicle speeds on unpaved roads to 15 miles per hour (mph); sweeping loose dirt from paved site-access roadways; cessation of construction activity when winds exceed 25 mph; and establishing a permanent ground cover on finished sites. SCAQMD Rule 403 is intended to reduce PM10 emissions from any transportation, handling, construction, or storage activity that has the potential to generate fugitive dust (see also Rule 1186).

Rule 1113 (Architectural Coatings). This rule requires manufacturers, distributors, and end users of architectural and industrial maintenance coatings to reduce VOC emissions from the use of these coatings, primarily by placing limits on the VOC content of various coating categories.

Rule 1146.2 (Emissions of Oxides of Nitrogen from Large Water Heaters and Small Boilers and Process Heaters). This rule requires manufacturers, distributors, retailers, refurbishers, installers, and operators of new and existing units to reduce NOx emissions from natural-gas-fired water heaters, boilers, and process heaters as defined in this rule.

Rule 1186 (PM10 Emissions from Paved and Unpaved Roads, and Livestock Operations). This rule applies to owners and operators of paved and unpaved roads and livestock operations. The rule is intended to reduce PM10 emissions by requiring the cleanup of material deposited onto paved roads, use of certified street sweeping equipment, and treatment of high-use unpaved roads (see also Rule 403). Stationary emissions sources subject to these rules are regulated through SCAQMD’s permitting process. Through this permitting process, SCAQMD also monitors the number of stationary emissions being generated and uses this information in developing AQMPs.

ENVIRONMENTAL SETTING

Regional Air Quality

USEPA is the federal agency responsible for overseeing the country's air quality and setting the NAAQS for the CAPs. The NAAQS were devised based on extensive modeling and monitoring of air pollution across the country; they are designed to protect public health and prevent the formation of atmospheric ozone. Air quality of a region is considered to be in attainment of the NAAQS if the measured ambient air pollutant levels do not exceed the applicable concentration threshold.

As noted previously, CARB is the State agency responsible for setting the CAAQS. Air quality of a region is considered to be in attainment of the CAAQS if the measured ambient air pollutant levels for O₃, CO, NO₂, SO₂, PM₁₀, PM_{2.5}, and Pb are not exceeded, and all other standards are not equaled or exceeded at any time in any consecutive 3-year period.

For evaluation purposes, the SCAQMD territory is divided into 38 source receptor areas (SRAs). These SRAs are designated to provide a general representation of the local meteorological, terrain, and air quality conditions within the particular geographical area. The Project site is within SRA 1, Central Los Angeles County.⁴ The nearest air monitoring station SCAQMD operates is located at 1610 North Main Street in Los Angeles. This station monitors O₃, NO₂, PM₁₀ and PM_{2.5}. **Table 1: Air Quality Monitoring Summary** summarizes published monitoring data from 2019 through 2021, the most recent 3-year period available. The data shows that during the past few years, the region has exceeded the O₃, PM₁₀ and PM_{2.5} standards.

4 SCAQMD, General Forecast Areas and Air Monitoring Areas, map, <http://www.aqmd.gov/docs/default-source/default-document-library/map-of-monitoring-areas.pdf>. Accessed January 2023.

**TABLE 1
AIR QUALITY MONITORING SUMMARY**

Air Pollutant	Average Time (Units)	2019	2020	2021
Ozone (O3)	State Max 1 hour (ppm)	0.093	0.185	0.099
	Days > CAAQS threshold (0.09 ppm)	0	14	1
	National Max 8 hour (ppm)	0.080	0.118	0.085
	Days > NAAQS threshold (0.075 ppm)	2	22	2
	State Max 8 hour (ppm)	0.080	0.118	0.086
	Days > CAAQS threshold (0.07 ppm)	2	22	2
Carbon monoxide (CO)		–	–	–
Nitrogen dioxide (NO2)	National Max 1 hour (ppm)	0.070	0.062	0.078
	Days > NAAQS threshold (0.100 ppm)	0	0	0
	State Max 1 hour (ppm)	0.069	0.061	0.077
	Days > CAAQS threshold (0.18 ppm)	0	0	0
Respirable particulate matter (PM10)	National Max (µg/m3)	62.4	83.7	64.0
	National Annual Average (µg/m3)	23.0	33.1	26.0
	Days > NAAQS threshold (35 µg/m3)	0	0	0
	State Max (µg/m3)	93.9	185.2	138.5
	State Annual Average (µg/m3)	--	33.9	30.9
Fine particulate matter (PM2.5)	National Max (µg/m3)	43.5	175.0	61.0
	National Annual Average (µg/m3)	10.8	13.7	12.8
	Days > NAAQS threshold (35 µg/m3)	1	12	13
	State Max (µg/m3)	43.5	175.0	61.1
	State Annual Average (µg/m3)	10.8	15.0	14.8

Source: CARB, iADAM: Air Quality Data Statistics.

Note: (–) = Data not available.

USEPA and the CARB designate air basins where AAQS are exceeded as “nonattainment” areas. If standards are met, the area is designated as an “attainment” area. If there is inadequate or inconclusive data to make a definitive attainment designation, they are considered “unclassified.” Federal nonattainment areas are further designated as marginal, moderate, serious, severe, or extreme as a function of deviation from standards. The current attainment designations for the Basin are shown in **Table 2: South Coast Air Basin Attainment Status**. The Basin is currently designated as being in nonattainment at the federal level for O3 and PM2.5; and at the State level for O3, PM10, and PM2.5.

**TABLE 2
SOUTH COAST AIR BASIN ATTAINMENT STATUS**

Pollutant	State Status	National Status
Ozone (O3)	Nonattainment	Nonattainment
Carbon monoxide (CO)	Attainment	Unclassified/Attainment
Nitrogen dioxide (NO2)	Attainment	Unclassified/Attainment
Sulfur dioxide (SO2)	Attainment	Unclassified/Attainment
Respirable particulate matter (PM10)	Nonattainment	Attainment
Fine particulate matter (PM2.5)	Nonattainment	Nonattainment

Existing Operational Emission

As mentioned previously, the Project site is currently developed with an auto care facility, restaurant and a nursery. However, the restaurant and nursery are currently vacant and non-operational. **Table 3: Existing Operational Emissions** identifies emissions from the permitted uses. The most current CARB-approved, SCAQMD-recommended air quality modeling software, the California Emissions Estimator Model (CalEEMod), was used to estimate the existing air quality operational emissions.

**TABLE 3
EXISTING OPERATIONAL EMISSIONS**

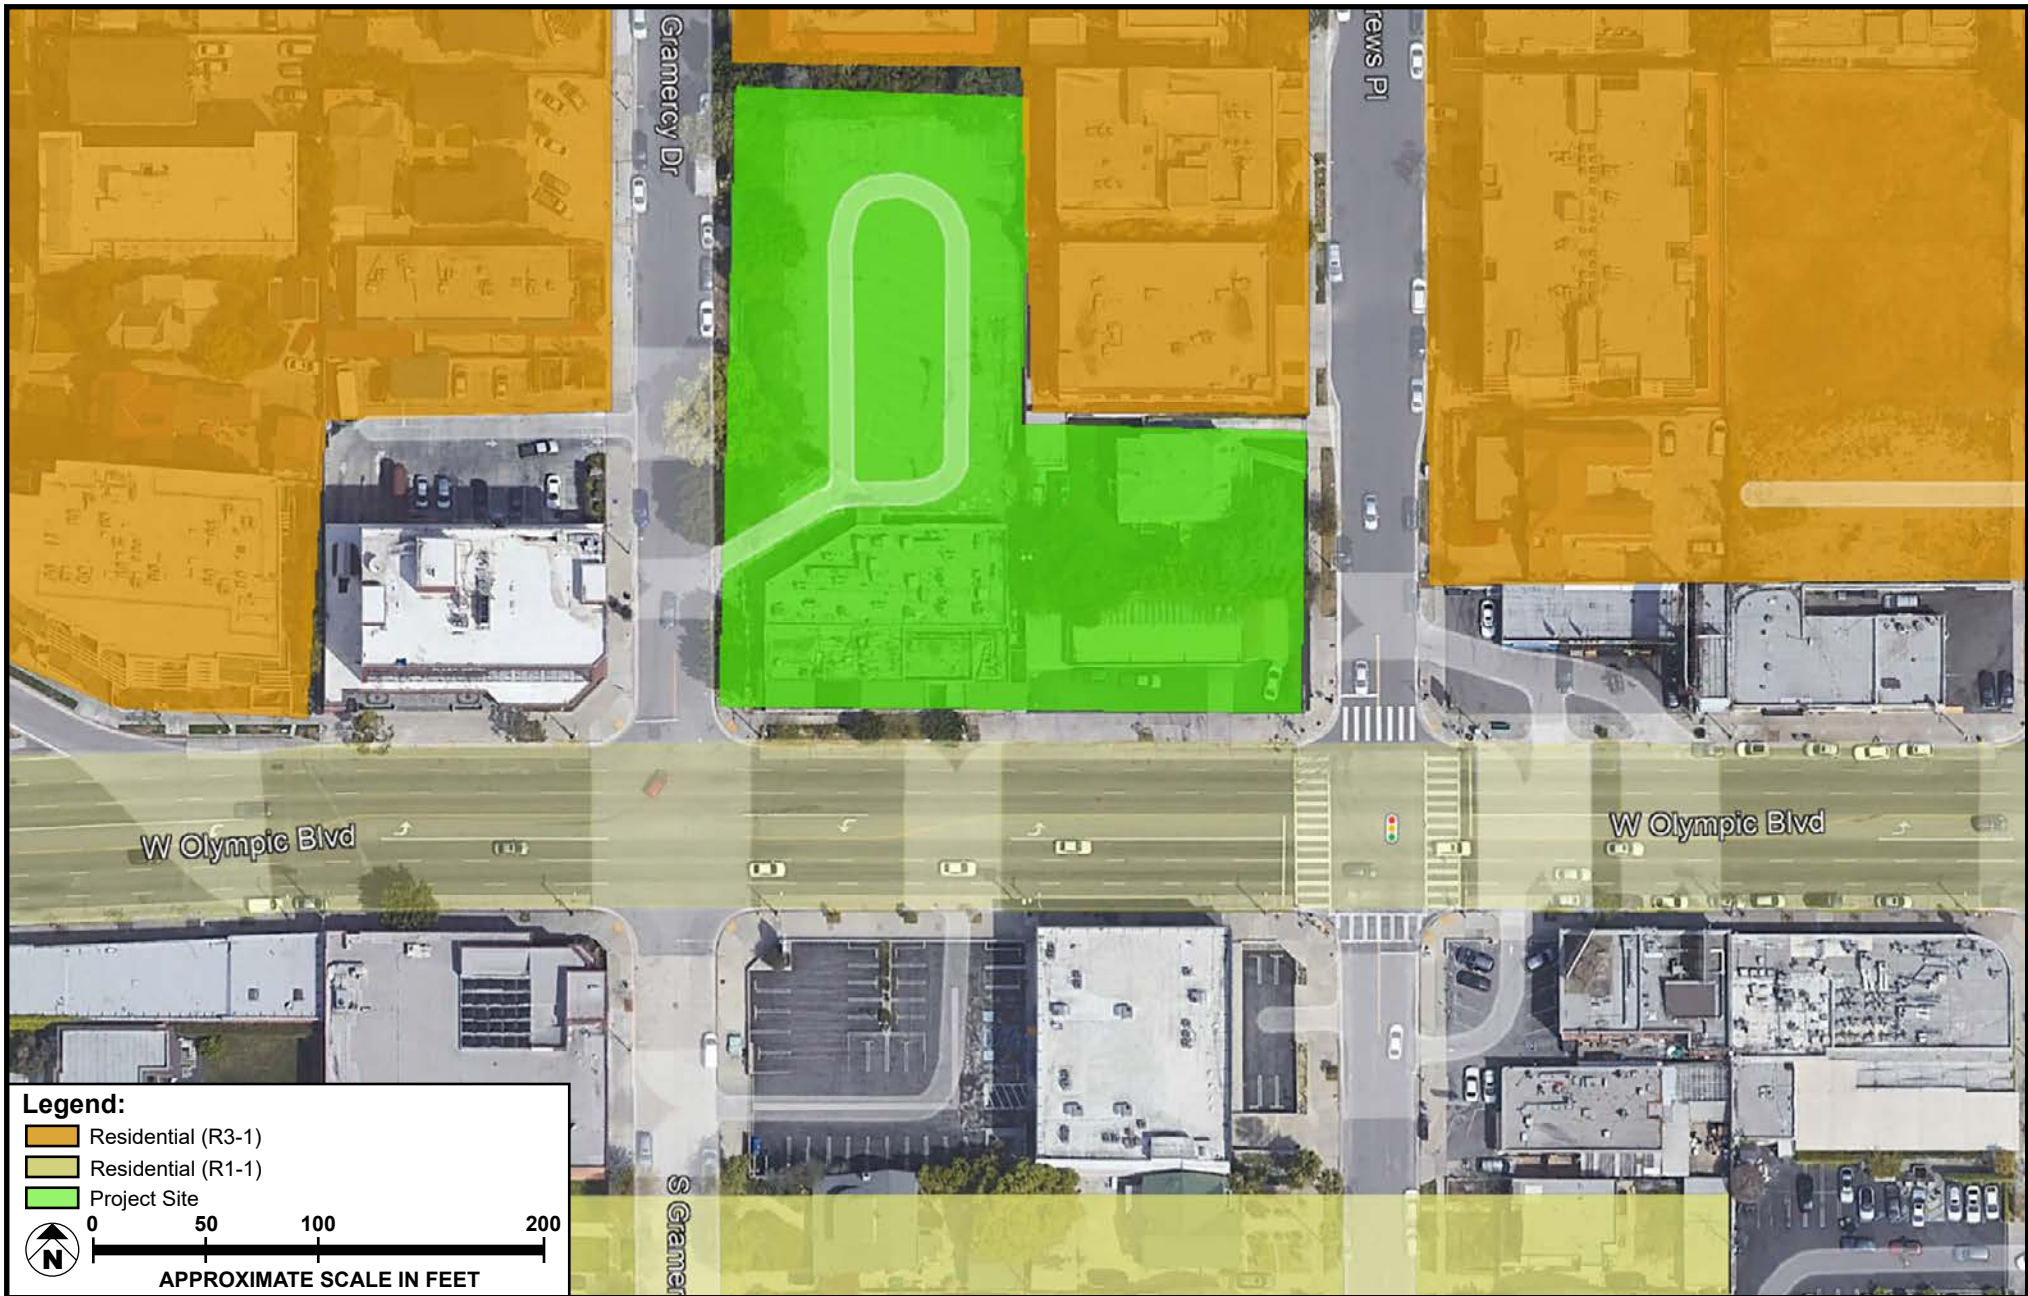

Source	VOC	NOx	CO	SOx	PM10	PM2.5
	pounds/day					
Mobile	0.9	0.7	7.5	<0.1	0.5	0.1
Area	0.2	<0.1	0.3	<0.1	<0.1	<0.1
Energy	<0.1	<0.1	<0.1	<0.1	<0.1	<0.1
Total	1.1	0.7	7.8	<0.1	0.5	0.1
SCAQMD Mass Daily Threshold	55	55	550	150	150	55
Threshold exceeded?	No	No	No	No	No	No

Notes: Totals in table may not appear to add exactly due to rounding in the computer model calculations. CO = carbon monoxide; NOx = nitrogen oxides; PM10 = particulate matter less than 10 microns; PM2.5 = particulate matter less than 2.5 microns; SOx = sulfur oxides; VOC = volatile organic compounds.

Refer to Attachment A.1: CalEEMod Air Quality Emission Output Files - Existing.

Sensitive Receptors

SCAQMD considers a sensitive receptor to be a person in the population who is particularly susceptible to health effects due to exposure to an air contaminant. Sensitive receptors are identified near sources of air pollution to determine the potential for health hazards. Locations evaluated for exposure to air pollution include but are not limited to residences, schools, hospitals, and convalescent facilities. The parcels to the north, east, and west are zoned R3-1 and consist of multi-family residential uses. The parcels to the south are zoned C2-1 and consist of commercial uses. The parcels to the south across Olympic Boulevard are zoned R1-1 and consist of residential uses.

FIGURE 2

Construction

Construction of the Project has the potential to generate temporary criteria pollutant emissions through the use of heavy-duty construction equipment and through vehicle trips generated from workers and haul trucks traveling to and from the Project site. Mobile-source emissions, primarily NO_x, would result from the use of construction equipment. Construction emissions can vary substantially from day to day, depending on the level of activity, the specific type of construction activity, and prevailing weather conditions. The assessment of construction air quality impacts considers each of these potential sources.

Daily regional emissions during construction are forecasted by assuming a conservative estimate of construction activities (i.e., all construction occurs at the earliest feasible date) and applying the mobile source and fugitive dust emissions factors. The Project would be required to comply with SCAQMD Rule 403, which identifies measures to reduce fugitive dust and is required to be implemented at all construction sites located within SCAB. Therefore, the following condition—required to reduce fugitive dust in compliance with SCAQMD Rule 403—was included in CalEEMod as a regulatory compliance measure:

- **Control Efficiency of PM₁₀.** During construction, methods and techniques should be applied to various operations or equipment when appropriate to reduce estimated emissions related to particulate matter. This includes replacing ground cover in disturbed areas as quickly as possible, yielding to emission reduction efficiency of 15 - 49 percent.⁵

In addition, SCAQMD Staff recommends that the Lead Agency require the use of Tier 4 construction equipment of 50 horsepower or greater during construction. Alternative, applicable strategies include equipment outfitted with Best Available Control Technology (BACT) devices and CARB certified Level 3 Diesel Particulate Filters (DPF). Level 3 DPFs are capable of achieving at least an 85 percent reduction in particulate matter emissions.⁶ Therefore, the following condition would be considered a regulatory compliance measure:

- **Construction Equipment Controls.** During construction, all off-road construction equipment greater than 50 horsepower shall meet USEPA Tier 3 emission standards with Level 3 DPF to minimize emissions of NO_x associated with diesel construction equipment.

5 SCAQMD, CEQA Handbook, Tables 11-4, p. 11-15 and A11-9-A, page A11-77, <http://www.aqmd.gov/docs/default-source/ceqa/handbook/localized-significance-thresholds/final-sample-construction-scenario-report.pdf>. Accessed January 2023.

6 California Air Resources Board, Verification Procedure: Stationary, <https://ww2.arb.ca.gov/our-work/programs/verification-procedure-warranty-and-use-compliance-requirements-use-strategies-4>. Accessed January 2023.

The emissions are estimated using the CalEEMod software, an emissions inventory software program recommended by SCAQMD. CalEEMod is based on outputs from the CARB off-road emissions model (OFFROAD) and the CARB on-road vehicle emissions model (EMFAC), which are emissions estimation models developed by CARB and used to calculate emissions from construction activities, including on- and off-road vehicles. The input values used in this analysis are based on conservative assumptions in CalEEMod, with appropriate, Project-specific adjustments based on equipment types and expected construction activities. These values were then applied to the construction phasing assumptions used in the criteria pollutant analysis to generate criteria pollutant emissions values for each construction activity. Detailed construction equipment lists, construction scheduling, and emissions calculations are provided in **Attachment A**.

Operation

Operation of the Project has the potential to generate criteria pollutant emissions through vehicle trips traveling to and from the Project site. In addition, emissions would result from area sources on site, such as natural gas combustion, landscaping equipment, and use of consumer products.

Operational emissions were estimated using the CalEEMod software, which was used to forecast the daily regional emissions from area sources that would occur during long-term Project operations. In calculating mobile-source emissions, trip-length values were based on the distances provided in CalEEMod.

Area-source emissions are based on natural gas (building heating and water heaters), landscaping equipment, and consumer product (including paint) usage rates provided in CalEEMod. Natural gas usage factors in CalEEMod are based on the California Energy Commission's California Commercial End Use Survey data set, which provides energy demand by building type and climate zone.

SCAQMD AIR QUALITY SIGNIFICANCE THRESHOLDS

Significance Criteria

The determination of a project's significance on air quality shall be made considering the factors provided in the SCAQMD *CEQA Air Quality Handbook* (Handbook). The City has not adopted specific Citywide significance thresholds for air quality impacts; rather, the thresholds and methodologies contained in the SCAQMD Handbook for both construction and operational emissions are utilized for evaluating projects in the City. These thresholds are described below.

Construction Emission Thresholds

The Project will have a significant impact if it exceeds the construction thresholds listed in **Table 4: Construction Thresholds**.

TABLE 4 CONSTRUCTION THRESHOLDS	
Pollutant	Construction Emissions (pounds/day)
Volatile organic compounds (VOCs)	75
Nitrogen dioxide (NO ₂)	100
Carbon monoxide (CO)	550
Sulfur dioxide (SO ₂)	150
Respirable particulate matter (PM ₁₀)	150
Fine particulate matter (PM _{2.5})	55

Construction and Operational Localized Significance Thresholds

The local significance thresholds are based on the SCAQMD's Final *Localized Significance Threshold (LST) Methodology* (LST Methodology)⁷ guidance document for short-duration construction activities. The SCAQMD recommends the evaluation of localized air quality impacts to sensitive receptors in the immediate vicinity of the Project site because of construction activities. The SCAQMD provides voluntary guidance on the evaluation of localized air quality impacts to public agencies conducting environmental review of projects located within its jurisdiction. Localized air quality impacts are evaluated by examining the on-site generation of pollutants and their resulting downwind concentrations. For construction, pollutant concentrations are compared to significance thresholds for particulates (PM₁₀ and PM_{2.5}), CO, and NO₂. The significance threshold for PM₁₀ represents compliance with SCAQMD Rule 403 (Fugitive Dust). The threshold for PM_{2.5} is designed to limit emissions and to allow progress toward

7 South Coast Air Quality Management District, Final Localized Significance Threshold (LST) Methodology, (June 2003, rev. July 2008).

attainment of the AAQS. Thresholds for CO and NO2 represent the allowable increase in concentrations above background levels that would not cause or contribute to an exceedance of their respective AAQS.

The LST Methodology provides lookup tables of emissions that are based on construction projects of up to 5 acres in size. These LST lookup tables were developed to assist lead agencies with a simple tool for evaluating the impacts from small typical projects. Ambient conditions for Central Los Angeles County, as recorded in SRA 1 by the SCAQMD, were used for ambient conditions in determining appropriate threshold levels. Thresholds for each criteria pollutant for construction activity and Project are listed in **Table 5: Localized Significance Thresholds**.

TABLE 5 LOCALIZED SIGNIFICANCE THRESHOLDS		
Pollutant	Construction	Operational
	pounds/day	
Nitrogen dioxide (NO2)	79	79
Carbon monoxide (CO)	742	742
Respirable particulate matter (PM10)	5	2
Fine particulate matter (PM2.5)	3	1

Notes:

Based on a distance to sensitive receptors of 25 meters. SCAQMD's Localized Significance Threshold (LST) Methodology for CEQA Evaluations guidance document provides that projects with boundaries located closer than 25 meters to the nearest receptor should use the LSTs for receptors located at 25 meters.

Based on the SCAQMD Handbook, thresholds for each criteria pollutant for the operations of the Project are provided in **Table 6: Operational Thresholds**.

TABLE 6 OPERATIONAL THRESHOLDS	
Pollutant	Operational Emissions (pounds/day)
Volatile organic compounds (VOCs)	55
Nitrogen dioxide (NO2)	55
Carbon monoxide (CO)	550
Sulfur dioxide (SO2)	150
Respirable particulate matter (PM10)	150
Fine particulate matter (PM2.5)	55

Toxic Air Contaminants

As set forth in the SCAQMD Handbook, the determination of significance of a project with respect TACs shall be made on a case-by-case basis, considering the following factors:

- Regulatory framework for toxic materials and process involved;
- Proximity of TACs to sensitive receptors;
- Quantity, volume, and toxicity of the contaminants expected to be emitted;
- Likelihood and potential level of exposure; and
- Degree to which project design will reduce risk of exposure.

Consistency with Applicable Air Quality Plans

Section 15125 of the State CEQA Guidelines requires an analysis of project consistency with applicable governmental plans and policies. In accordance with the SCAQMD Handbook, the following criteria were used to evaluate the Project's consistency with SCAQMD and SCAG regional plans and policies:

- Will the Project result in any of the following:
 - Increase the frequency or severity of existing air quality violations?
 - Cause or contribute to new air quality violations?
 - Delay the timely attainment of the air quality standards or the interim emission reductions specified in the AQMP?
- Will the Project exceed the assumptions utilized in preparing the AQMP?
 - Is the Project consistent with the population and employment growth projections upon which AQMP forecasted emission levels are based?
 - Does the Project include air quality mitigation measures?
 - To what extent is Project development consistent with the AQMP land use policies?

Cumulative Threshold

SCAQMD recommends that a project be considered to result in a cumulatively considerable impact to air quality if any construction-related emissions and operational emissions from individual development projects exceed the mass daily emissions thresholds for individual projects.⁸ The SCAQMD neither recommends quantified analyses of the emissions generated by a set of cumulative development projects nor provides thresholds of significance to be used to assess the impacts associated with these emissions. A project is also considered to result in a cumulatively considerable contribution to significant impacts if the population and employment projections for the project exceed the rate of growth defined in SCAQMD's AQMP.

⁸ SCAQMD, White Paper on Regulatory Options for Addressing Cumulative Impacts from Air Pollution Emissions, board meeting, Agenda No. 29 (September 5, 2003), Appendix D, p. D-3.

IMPACT ANALYSIS

Emissions of air pollutants were estimated for construction and operation of the Project. In California, the California Air Pollution Control Officer's Association recommends the use CalEEMod to calculate and organize emissions data for new development projects. CalEEMod is a program that relies on project-specific information pertaining to geographic setting, utility service provision, construction scheduling and equipment inventory, and operational design features to generate estimates of air pollutant and GHG emissions.

Table 7: Project Construction Schedule provides the dates and durations of each of the activities that will take place during construction, as well as a brief description of the scope of work. Future dates represent approximations based on the general Project timeline and are subject to change pending unpredictable circumstances that may arise.

TABLE 7 PROJECT CONSTRUCTION SCHEDULE				
Construction Activity	Approximate Start Date	Approximate End Date	Duration (Days)	Description
Demolition	6/1/2023	6/28/2023	20	Demolition of approximately 29,307 ¹ square feet of building
Grading	6/30/2023	9/1/2023	47	Grading of the Project site and export of 57,525 cubic yards of soil
Building Construction	8/2/2023	1/31/2025	370	Construction of Proposed Project
Paving	1/20/2025	1/31/2025	10	Paving of asphalt surfaces
Architectural Coating	12/20/2024	1/31/2025	31	Application of architectural coatings to building materials

Note: Refer to Attachment A.2: CalEEMod Air Quality Emission Output Files - Proposed.

¹ Based on square footage obtained from Zimas.

Construction

An assessment of air pollutant emissions was prepared utilizing the construction schedule in **Table 7**. **Table 8: Project Construction Diesel Equipment Inventory** displays the construction equipment required for each activity described in **Table 7**. Under regulatory compliance measures in CalEEMod, it was assumed that all construction activities would adhere to SCAQMD Rule 403 (Fugitive Dust) and Rule 1113 (Architectural Coatings). Additionally, regulatory compliance measures not modeled would require all heavy-duty diesel equipment engines meet minimum Tier 3 standards in accordance with CARB fleet requirements.

**TABLE 8
PROJECT CONSTRUCTION DIESEL EQUIPMENT INVENTORY**

Phase	Off-Road Equipment Type	Amount	Daily Hours	Horsepower [HP] (Load Factor)
Demolition	Concrete/Industrial Saws	1	8	33 (0.73)
	Rubber Tired Dozers	1	8	367 (0.40)
	Tractors/Loaders/Backhoes	3	8	84 (0.37)
Grading	Graders	1	8	148 (0.41)
	Rubber Tired Dozers	1	8	367 (0.40)
	Tractors/Loaders/Backhoes	2	7	84 (0.37)
Building Construction	Cranes	1	6	367 (0.29)
	Forklifts	1	6	82 (0.20)
	Generator Sets	1	8	14 (0.74)
	Tractors/Loaders/Backhoes	1	6	84 (0.37)
	Welders	3	8	46 (0.45)
Paving	Cement and Mortar Mixers	1	6	10 (0.56)
	Pavers	1	6	81 (0.42)
	Paving Equipment	1	8	89 (0.36)
	Rollers	1	7	36 (0.38)
	Tractors/Loaders/Backhoes	1	8	84 (0.37)
Architectural Coating	Air Compressors	1	6	37 (0.48)

Refer to Attachment A.2: CalEEMod Air Quality Emission Output Files - Proposed, for equipment inventory information.

Maximum daily emissions of air pollutants during construction of the Project were calculated using CalEEMod. **Table 9: Maximum Construction Emissions** identifies daily emissions that are estimated for peak construction days for each construction year. Based on the modeling, construction of the Project would not exceed regional VOC, NO_x, CO, SO_x, PM₁₀, and PM_{2.5} concentration thresholds. All criteria air pollutants would be below SCAQMD construction thresholds. As such, construction of the Project would not generate any significant environmental impacts associated with air quality compliance.

**TABLE 9
MAXIMUM CONSTRUCTION EMISSIONS**

Source	VOC	NO _x	CO	SO _x	PM ₁₀	PM _{2.5}
	pounds/day					
2023	2.0	31.7	23.7	0.1	5.9	2.6
2024	37.7	12.8	23.9	<0.1	3.2	1.0
2025	38.2	16.7	30.1	<0.1	3.5	1.2
Maximum	38.2	31.7	23.9	0.1	5.9	2.6
SCAQMD Mass Daily Threshold	75	100	550	150	150	55
Threshold exceeded?	No	No	No	No	No	No

Notes: CO = carbon monoxide; NO_x = nitrogen oxides; PM₁₀ = particulate matter less than 10 microns; PM_{2.5} = particulate matter less than 2.5 microns; SO_x = sulfur oxides; VOC = volatile organic compounds.

Refer to Attachment A.2: CalEEMod Air Quality Emission Output Files - Proposed.

Operation

Operational emissions would result primarily from passenger vehicles traveling to and from the Project site. As mentioned previously, the proposed development includes multi-family residential and commercial uses. The results presented in **Table 10: Maximum Operational Emissions** are compared to the SCAQMD-established operational significance thresholds. As shown in **Table 10**, the operational emissions would not exceed the regional VOC, NO_x, CO, SO_x, PM₁₀, and PM_{2.5} concentration thresholds. Additionally, the operational emissions provided below would be further reduced when taking into account trip reductions from these public transit options located within the Project vicinity. As such, operation of the Project would not generate any significant environmental impacts associated with air quality compliance.

Source	VOC	NO _x	CO	SO _x	PM ₁₀	PM _{2.5}
	pounds/day					
Mobile	3.5	2.6	27.3	<0.1	2.3	0.4
Area	5.6	0.1	13.5	<0.1	<0.1	<0.1
Energy	<0.1	0.4	0.2	<0.1	<0.1	<0.1
Total	9.1	3.1	41.1	<0.1	2.3	0.5
SCAQMD Mass Daily Threshold	55	55	550	150	150	55
Threshold exceeded?	No	No	No	No	No	No

Notes: Totals in table may not appear to add exactly due to rounding in the computer model calculations.

CO = carbon monoxide; NO_x = nitrogen oxides; PM₁₀ = particulate matter less than 10 microns; PM_{2.5} = particulate matter less than 2.5 microns; SO_x = sulfur oxides; VOC = volatile organic compounds.

Refer to Attachment A.2: CalEEMod Air Quality Emission Output Files - Proposed.

Localized Significance Thresholds

The results of the LST analysis are provided in **Table 11: Localized Construction and Operational Emissions**. These estimates assume the maximum area that would be disturbed during construction on any given day during Project buildout. It is important to note, emissions presented in **Table 11** include regulatory compliance measures such as control efficiency of PM10 (dust control measures). As shown in **Table 11**, emissions would not exceed the localized significance construction and operational thresholds.

TABLE 11 LOCALIZED CONSTRUCTION AND OPERATIONAL EMISSIONS				
Source	NO _x	CO	PM10	PM2.5
	On-Site Emissions (pounds/day)			
Construction				
Total maximum emissions	17.5	16.9	2.7	1.7
LST threshold	79	742	5	2
Threshold Exceeded?	No	No	No	No
Operational				
Project area/energy emissions	0.5	13.7	0.1	0.1
LST threshold	79	742	3	1
Threshold Exceeded?	No	No	No	No

Notes: Totals in table may not appear to add exactly due to rounding in the computer model calculations.

CO = carbon monoxide; NO_x = nitrogen oxide; PM10 = particulate matter less than 10 microns; PM2.5 = particulate matter less than 2.5 microns.

Refer to Attachment A.2: CalEEMod Air Quality Emission Output Files - Proposed.

Toxic Air Contaminants

Project construction would result in short-term emissions of diesel particulate matter, which is a TAC. Off-road heavy-duty diesel equipment would emit diesel particulate matter over the course of the construction period. As mentioned previously, commercial hotel and multi-family residential uses are located adjacent to the site. Localized diesel particulate emissions (strongly correlated with PM2.5 emissions) would be minimal and would be substantially below localized thresholds, as shown in **Table 11**. Project compliance with the CARB anti-idling measure, which limits idling to no more than 5 minutes at any location for diesel-fueled commercial vehicles, would further minimize diesel particulate matter emissions in the Project area.

Project operations would generate only minor amounts of diesel emissions from delivery trucks and incidental maintenance activities. Trucks would comply with the applicable provisions of the CARB Truck and Bus regulation to minimize and reduce emission from existing diesel trucks. In addition, Project operations would only result in minimal emissions of air toxics from maintenance or other ongoing activities, such as from the use of architectural coatings or household cleaning products. As a result, toxic or carcinogenic air pollutants are not expected to occur in any meaningful amounts in conjunction with operation of the proposed uses within the Project site. Based on the uses expected on the Project site, potential long-term operational impacts associated with the release of TACs would be minimal and would not be expected to exceed the SCAQMD thresholds of significance.

Odors

As shown in **Table 11**, the construction of the Project would result in emissions below the localized significance thresholds. Mandatory compliance with SCAQMD Rule 1113 would limit the number of VOCs in architectural coatings and solvents. According to SCAQMD, while almost any source may emit objectionable odors, some land uses are more likely to produce odors because of their operation. Land uses more likely to produce odors include agriculture, chemical plants, composting operations, dairies, fiberglass molding manufacturing, landfills, refineries, rendering plants, rail yards, and wastewater treatment plants. The Project does not contain any active manufacturing activities and would not convert current agricultural land to residential land uses. Therefore, objectionable odors would not be emitted by the proposed uses.

Any unforeseen odors generated by the Project will be controlled in accordance with SCAQMD Rule 402. As previously noted, Rule 402 prohibits the discharge of air contaminants that harm, endanger, or annoy individuals or the public; endanger the comfort, health or safety of individuals or the public; or cause injury or damage to business or property. Failure to comply with Rule 402 could subject the offending facility to possible fines and/or operational limitations in an approved odor control or odor abatement plan.

Consistency with AQMP

The Basin is designated nonattainment at the federal level for O₃ and PM_{2.5} and State level for O₃, PM₁₀, and PM_{2.5}. SCAQMD developed regional emissions thresholds, as shown in **Table 4** and **Table 6** to determine whether a project would contribute to air pollutant violations. If a project exceeds the regional air pollutant thresholds, then it would significantly contribute to air quality violations in the Basin.

As shown in **Table 9**, temporary emissions associated with construction of the Project would fall below SCAQMD thresholds for VOCs, NO_x, CO, SO_x, PM₁₀, and PM_{2.5}. As shown in **Table 10**, long-term emissions associated with operation of the Project would not exceed SCAQMD thresholds for VOCs, NO_x, CO, SO_x, PM₁₀, and PM_{2.5}. The Project's maximum potential NO_x, CO, PM₁₀, and PM_{2.5} daily emissions during construction and operation were analyzed to determine potential effects on localized concentrations and to determine if the potential exists for such emissions to cause or affect a violation of an applicable AAQS. As shown in **Table 11**, NO_x, CO, PM₁₀, and PM_{2.5} emissions would not exceed the SCAQMD localized significance thresholds.

The Project is also located in an urban area, which would reduce vehicle trips and vehicle miles traveled due to the Project's urban infill characteristic and proximity to public transit stops. These measures and features are consistent with existing recommendations to reduce air emissions.

Cumulative Impacts

Development of the Project in conjunction with the related projects near the Project site would result in an increase in construction and operational emissions in an already urbanized area of the City. However, cumulative air quality impacts from construction, based on SCAQMD guidelines, are not analyzed in a manner similar to project-specific air quality impacts. Instead, SCAQMD recommends that a project's potential contribution to cumulative impacts should be assessed utilizing the same significance criteria as those for project-specific impacts. According to SCAQMD, individual development projects that generate construction or operational emissions that exceed SCAQMD recommended daily regional or localized thresholds for project-specific impacts, would also cause a cumulatively considerable increase in emissions for those pollutants for which the Basin is in nonattainment.

With the implementation of regulatory compliance measures such as Rule 403 (Fugitive Dust) and Rule 1113 (Architectural Coating), the Project's construction and operational emissions are not expected to significantly contribute to cumulative emissions for CO, NO_x, PM₁₀, and PM_{2.5}. As such, the Project's contribution to cumulative air quality emissions in combination with the related projects would not be cumulatively considerable.

As discussed previously, the Project would not jeopardize the attainment of air quality standards in the AQMP for the South Coast Air Basin and the Los Angeles County portion of the South Coast Air Basin. As such, the Project would not have a cumulatively considerable contribution to a potential conflict with or obstruction of the implementation of the AQMP regional reduction plans.

CERTIFICATION

The contents of this Air Quality Study represent an accurate depiction of the air quality environment and impacts associated with The Bora 3355/3377 Olympic Boulevard Project. The information contained in this study is based on the best available information at the time of preparation. If you have any questions, please contact me directly at (818) 415-7274.

6. Climate Risk Detailed Report

6.1. Climate Risk Summary

Cal-Adapt midcentury 2040–2059 average projections for four hazards are reported below for your project location. These are under Representation Concentration Pathway (RCP) 8.5 which assumes GHG emissions will continue to rise strongly through 2050 and then plateau around 2100.

Climate Hazard	Result for Project Location	Unit
Temperature and Extreme Heat	7.60	annual days of extreme heat
Extreme Precipitation	5.70	annual days with precipitation above 20 mm
Sea Level Rise	0.00	meters of inundation depth
Wildfire	0.00	annual hectares burned

Temperature and Extreme Heat data are for grid cell in which your project are located. The projection is based on the 98th historical percentile of daily maximum/minimum temperatures from observed historical data (32 climate model ensemble from Cal-Adapt, 2040–2059 average under RCP 8.5). Each grid cell is 6 kilometers (km) by 6 km, or 3.7 miles (mi) by 3.7 mi.

Extreme Precipitation data are for the grid cell in which your project are located. The threshold of 20 mm is equivalent to about $\frac{3}{4}$ an inch of rain, which would be light to moderate rainfall if received over a full day or heavy rain if received over a period of 2 to 4 hours. Each grid cell is 6 kilometers (km) by 6 km, or 3.7 miles (mi) by 3.7 mi.

Sea Level Rise data are for the grid cell in which your project are located. The projections are from Radke et al. (2017), as reported in Cal-Adapt (2040–2059 average under RCP 8.5), and consider different increments of sea level rise coupled with extreme storm events. Users may select from four model simulations to view the range in potential inundation depth for the grid cell. The four simulations make different assumptions about expected rainfall and temperature are: Warmer/drier (HadGEM2-ES), Cooler/wetter (CNRM-CM5), Average conditions (CanESM2), Range of different rainfall and temperature possibilities (MIROC5). Each grid cell is 50 meters (m) by 50 m, or about 164 feet (ft) by 164 ft.

Wildfire data are for the grid cell in which your project are located. The projections are from UC Davis, as reported in Cal-Adapt (2040–2059 average under RCP 8.5), and consider historical data of climate, vegetation, population density, and large (> 400 ha) fire history. Users may select from four model simulations to view the range in potential wildfire probabilities for the grid cell. The four simulations make different assumptions about expected rainfall and temperature are: Warmer/drier (HadGEM2-ES), Cooler/wetter (CNRM-CM5), Average conditions (CanESM2), Range of different rainfall and temperature possibilities (MIROC5). Each grid cell is 6 kilometers (km) by 6 km, or 3.7 miles (mi) by 3.7 mi.

6.2. Initial Climate Risk Scores

Climate Hazard	Exposure Score	Sensitivity Score	Adaptive Capacity Score	Vulnerability Score
Temperature and Extreme Heat	1	0	0	N/A

Extreme Precipitation	N/A	N/A	N/A	N/A
Sea Level Rise	1	0	0	N/A
Wildfire	1	0	0	N/A
Flooding	N/A	N/A	N/A	N/A
Drought	N/A	N/A	N/A	N/A
Snowpack Reduction	N/A	N/A	N/A	N/A
Air Quality Degradation	0	0	0	N/A

The sensitivity score reflects the extent to which a project would be adversely affected by exposure to a climate hazard. Exposure is rated on a scale of 1 to 5, with a score of 5 representing the greatest exposure.

The adaptive capacity of a project refers to its ability to manage and reduce vulnerabilities from projected climate hazards. Adaptive capacity is rated on a scale of 1 to 5, with a score of 5 representing the greatest ability to adapt.

The overall vulnerability scores are calculated based on the potential impacts and adaptive capacity assessments for each hazard. Scores do not include implementation of climate risk reduction measures.

6.3. Adjusted Climate Risk Scores

Climate Hazard	Exposure Score	Sensitivity Score	Adaptive Capacity Score	Vulnerability Score
Temperature and Extreme Heat	1	1	1	2
Extreme Precipitation	N/A	N/A	N/A	N/A
Sea Level Rise	1	1	1	2
Wildfire	1	1	1	2
Flooding	N/A	N/A	N/A	N/A
Drought	N/A	N/A	N/A	N/A
Snowpack Reduction	N/A	N/A	N/A	N/A
Air Quality Degradation	1	1	1	2

The sensitivity score reflects the extent to which a project would be adversely affected by exposure to a climate hazard. Exposure is rated on a scale of 1 to 5, with a score of 5 representing the greatest exposure.

The adaptive capacity of a project refers to its ability to manage and reduce vulnerabilities from projected climate hazards. Adaptive capacity is rated on a scale of 1 to 5, with a score of 5 representing the greatest ability to adapt.

The overall vulnerability scores are calculated based on the potential impacts and adaptive capacity assessments for each hazard. Scores include implementation of climate risk reduction measures.

7. Health and Equity Details

7.1. CalEnviroScreen 4.0 Scores

The maximum CalEnviroScreen score is 100. A high score (i.e., greater than 50) reflects a higher pollution burden compared to other census tracts in the state.

Indicator	Result for Project Census Tract
Exposure Indicators	—
AQ-Ozone	48.5
AQ-PM	83.2
AQ-DPM	46.7
Drinking Water	92.5
Lead Risk Housing	83.0
Pesticides	0.00
Toxic Releases	78.2
Traffic	73.6
Effect Indicators	—
CleanUp Sites	4.29
Groundwater	41.6
Haz Waste Facilities/Generators	29.2
Impaired Water Bodies	0.00
Solid Waste	2.52
Sensitive Population	—
Asthma	55.9
Cardio-vascular	26.8
Low Birth Weights	70.4
Socioeconomic Factor Indicators	—
Education	70.1
Housing	92.2
Linguistic	98.2
Poverty	81.9

Unemployment	23.8
--------------	------

7.2. Healthy Places Index Scores

The maximum Health Places Index score is 100. A high score (i.e., greater than 50) reflects healthier community conditions compared to other census tracts in the state.

Indicator	Result for Project Census Tract
Economic	—
Above Poverty	30.98934942
Employed	46.86256897
Median HI	23.0334916
Education	—
Bachelor's or higher	64.96856153
High school enrollment	100
Preschool enrollment	95.7141024
Transportation	—
Auto Access	11.04837675
Active commuting	95.61144617

7.3. Overall Health & Equity Scores

Metric	Result for Project Census Tract
CalEnviroScreen 4.0 Score for Project Location (a)	71.0
Healthy Places Index Score for Project Location (b)	38.0
Project Located in a Designated Disadvantaged Community (Senate Bill 535)	Yes
Project Located in a Low-Income Community (Assembly Bill 1550)	Yes
Project Located in a Community Air Protection Program Community (Assembly Bill 617)	No

a: The maximum CalEnviroScreen score is 100. A high score (i.e., greater than 50) reflects a higher pollution burden compared to other census tracts in the state.

b: The maximum Health Places Index score is 100. A high score (i.e., greater than 50) reflects healthier community conditions compared to other census tracts in the state.

7.4. Health & Equity Measures

No Health & Equity Measures selected.

7.5. Evaluation Scorecard

Health & Equity Evaluation Scorecard not completed.

7.6. Health & Equity Custom Measures

No Health & Equity Custom Measures created.

8. User Changes to Default Data

Screen	Justification
Land Use	Based on existing uses from Traffic Study (dated February 2022)
Operations: Vehicle Data	According to Traffic Assessment (dated February 2022)
Operations: Water and Waste Water	Currently the nursery is non-operational

Attachment A.2

Architectural Coating	Onsite truck	—	—	HHDT

5.4. Vehicles

5.4.1. Construction Vehicle Control Strategies

Control Strategies Applied	PM10 Reduction	PM2.5 Reduction
Water unpaved roads twice daily	55%	55%
Limit vehicle speeds on unpaved roads to 25 mph	44%	44%
Sweep paved roads once per month	9%	9%

5.5. Architectural Coatings

Phase Name	Residential Interior Area Coated (sq ft)	Residential Exterior Area Coated (sq ft)	Non-Residential Interior Area Coated (sq ft)	Non-Residential Exterior Area Coated (sq ft)	Parking Area Coated (sq ft)
Architectural Coating	342,448	114,149	7,350	2,450	—

5.6. Dust Mitigation

5.6.1. Construction Earthmoving Activities

Phase Name	Material Imported (Cubic Yards)	Material Exported (Cubic Yards)	Acres Graded (acres)	Material Demolished (Building Square Footage)	Acres Paved (acres)
Demolition	0.00	0.00	0.00	29,307	—
Grading	—	57,525	21.0	0.00	—
Paving	0.00	0.00	0.00	0.00	0.00

5.6.2. Construction Earthmoving Control Strategies

Control Strategies Applied	Frequency (per day)	PM10 Reduction	PM2.5 Reduction
Water Exposed Area	3	74%	74%
Water Demolished Area	2	36%	36%

5.7. Construction Paving

Land Use	Area Paved (acres)	% Asphalt
Apartments Mid Rise	—	0%
Regional Shopping Center	0.00	0%
Enclosed Parking with Elevator	0.00	100%
High Turnover (Sit Down Restaurant)	0.00	0%

5.8. Construction Electricity Consumption and Emissions Factors

kWh per Year and Emission Factor (lb/MWh)

Year	kWh per Year	CO2	CH4	N2O
2023	0.00	690	0.05	0.01
2024	0.00	690	0.05	0.01
2025	0.00	690	0.05	0.01

5.9. Operational Mobile Sources

5.9.1. Unmitigated

Land Use Type	Trips/Weekday	Trips/Saturday	Trips/Sunday	Trips/Year	VMT/Weekday	VMT/Saturday	VMT/Sunday	VMT/Year
Apartments Mid Rise	832	751	626	288,798	6,471	5,840	4,865	2,245,159
Regional Shopping Center	113	138	63.3	40,041	395	539	247	143,939

6. Climate Risk Detailed Report

6.1. Climate Risk Summary

Cal-Adapt midcentury 2040–2059 average projections for four hazards are reported below for your project location. These are under Representation Concentration Pathway (RCP) 8.5 which assumes GHG emissions will continue to rise strongly through 2050 and then plateau around 2100.

Climate Hazard	Result for Project Location	Unit
Temperature and Extreme Heat	7.60	annual days of extreme heat
Extreme Precipitation	5.70	annual days with precipitation above 20 mm
Sea Level Rise	0.00	meters of inundation depth
Wildfire	0.00	annual hectares burned

Temperature and Extreme Heat data are for grid cell in which your project are located. The projection is based on the 98th historical percentile of daily maximum/minimum temperatures from observed historical data (32 climate model ensemble from Cal-Adapt, 2040–2059 average under RCP 8.5). Each grid cell is 6 kilometers (km) by 6 km, or 3.7 miles (mi) by 3.7 mi.

Extreme Precipitation data are for the grid cell in which your project are located. The threshold of 20 mm is equivalent to about ¾ an inch of rain, which would be light to moderate rainfall if received over a full day or heavy rain if received over a period of 2 to 4 hours. Each grid cell is 6 kilometers (km) by 6 km, or 3.7 miles (mi) by 3.7 mi.

Sea Level Rise data are for the grid cell in which your project are located. The projections are from Radke et al. (2017), as reported in Cal-Adapt (2040–2059 average under RCP 8.5), and consider different increments of sea level rise coupled with extreme storm events. Users may select from four model simulations to view the range in potential inundation depth for the grid cell. The four simulations make different assumptions about expected rainfall and temperature are: Warmer/drier (HadGEM2-ES), Cooler/wetter (CNRM-CM5), Average conditions (CanESM2), Range of different rainfall and temperature possibilities (MIROC5). Each grid cell is 50 meters (m) by 50 m, or about 164 feet (ft) by 164 ft.

Wildfire data are for the grid cell in which your project are located. The projections are from UC Davis, as reported in Cal-Adapt (2040–2059 average under RCP 8.5), and consider historical data of climate, vegetation, population density, and large (> 400 ha) fire history. Users may select from four model simulations to view the range in potential wildfire probabilities for the grid cell. The four simulations make different assumptions about expected rainfall and temperature are: Warmer/drier (HadGEM2-ES), Cooler/wetter (CNRM-CM5), Average conditions (CanESM2), Range of different rainfall and temperature possibilities (MIROC5). Each grid cell is 6 kilometers (km) by 6 km, or 3.7 miles (mi) by 3.7 mi.

6.2. Initial Climate Risk Scores

Climate Hazard	Exposure Score	Sensitivity Score	Adaptive Capacity Score	Vulnerability Score
Temperature and Extreme Heat	1	0	0	N/A
Extreme Precipitation	N/A	N/A	N/A	N/A
Sea Level Rise	1	0	0	N/A
Wildfire	1	0	0	N/A
Flooding	N/A	N/A	N/A	N/A
Drought	N/A	N/A	N/A	N/A
Snowpack Reduction	N/A	N/A	N/A	N/A
Air Quality Degradation	0	0	0	N/A

The sensitivity score reflects the extent to which a project would be adversely affected by exposure to a climate hazard. Exposure is rated on a scale of 1 to 5, with a score of 5 representing the greatest exposure.

The adaptive capacity of a project refers to its ability to manage and reduce vulnerabilities from projected climate hazards. Adaptive capacity is rated on a scale of 1 to 5, with a score of 5 representing the greatest ability to adapt.

The overall vulnerability scores are calculated based on the potential impacts and adaptive capacity assessments for each hazard. Scores do not include implementation of climate risk reduction measures.

6.3. Adjusted Climate Risk Scores

Climate Hazard	Exposure Score	Sensitivity Score	Adaptive Capacity Score	Vulnerability Score
Temperature and Extreme Heat	1	1	1	2
Extreme Precipitation	N/A	N/A	N/A	N/A
Sea Level Rise	1	1	1	2
Wildfire	1	1	1	2
Flooding	N/A	N/A	N/A	N/A
Drought	N/A	N/A	N/A	N/A
Snowpack Reduction	N/A	N/A	N/A	N/A

Air Quality Degradation	1	1	1	2
-------------------------	---	---	---	---

The sensitivity score reflects the extent to which a project would be adversely affected by exposure to a climate hazard. Exposure is rated on a scale of 1 to 5, with a score of 5 representing the greatest exposure.

The adaptive capacity of a project refers to its ability to manage and reduce vulnerabilities from projected climate hazards. Adaptive capacity is rated on a scale of 1 to 5, with a score of 5 representing the greatest ability to adapt.

The overall vulnerability scores are calculated based on the potential impacts and adaptive capacity assessments for each hazard. Scores include implementation of climate risk reduction measures.

7. Health and Equity Details

7.1. CalEnviroScreen 4.0 Scores

The maximum CalEnviroScreen score is 100. A high score (i.e., greater than 50) reflects a higher pollution burden compared to other census tracts in the state.

Indicator	Result for Project Census Tract
Exposure Indicators	—
AQ-Ozone	48.5
AQ-PM	83.2
AQ-DPM	46.7
Drinking Water	92.5
Lead Risk Housing	83.0
Pesticides	0.00
Toxic Releases	78.2
Traffic	73.6
Effect Indicators	—
CleanUp Sites	4.29
Groundwater	41.6
Haz Waste Facilities/Generators	29.2
Impaired Water Bodies	0.00
Solid Waste	2.52
Sensitive Population	—
Asthma	55.9

Cardio-vascular	26.8
Low Birth Weights	70.4
Socioeconomic Factor Indicators	—
Education	70.1
Housing	92.2
Linguistic	98.2
Poverty	81.9
Unemployment	23.8

7.2. Healthy Places Index Scores

The maximum Health Places Index score is 100. A high score (i.e., greater than 50) reflects healthier community conditions compared to other census tracts in the state.

Indicator	Result for Project Census Tract
Economic	—
Above Poverty	30.98934942
Employed	46.86256897
Median HI	23.0334916
Education	—
Bachelor's or higher	64.96856153
High school enrollment	100
Preschool enrollment	95.7141024
Transportation	—
Auto Access	11.04837675

Tree canopy	13.02450917
Housing	—
Homeownership	16.70730142
Housing habitability	8.109842166
Low-inc homeowner severe housing cost burden	6.531502631
Low-inc renter severe housing cost burden	39.90760939
Uncrowded housing	3.041190812
Health Outcomes	—
Insured adults	3.734120364
Arthritis	43.8
Asthma ER Admissions	33.5
High Blood Pressure	12.4
Cancer (excluding skin)	60.5
Asthma	72.9
Coronary Heart Disease	40.3
Chronic Obstructive Pulmonary Disease	45.1
Diagnosed Diabetes	12.5
Life Expectancy at Birth	15.2
Cognitively Disabled	92.5
Physically Disabled	92.6
Heart Attack ER Admissions	56.3
Mental Health Not Good	50.5
Chronic Kidney Disease	35.4

Obesity	64.2
Pedestrian Injuries	99.9
Physical Health Not Good	34.4
Stroke	17.3
Health Risk Behaviors	—
Binge Drinking	98.2
Current Smoker	51.8
No Leisure Time for Physical Activity	24.4
Climate Change Exposures	—
Wildfire Risk	0.0
SLR Inundation Area	0.0
Children	47.4
Elderly	58.6
English Speaking	2.9
Foreign-born	97.2
Outdoor Workers	64.6
Climate Change Adaptive Capacity	—
Impervious Surface Cover	9.9
Traffic Density	78.1
Traffic Access	87.4
Other Indices	—
Hardship	77.2
Other Decision Support	—
2016 Voting	9.6

7.3. Overall Health & Equity Scores

Metric	Result for Project Census Tract
--------	---------------------------------

CalEnviroScreen 4.0 Score for Project Location (a)	71.0
Healthy Places Index Score for Project Location (b)	38.0
Project Located in a Designated Disadvantaged Community (Senate Bill 535)	Yes
Project Located in a Low-Income Community (Assembly Bill 1550)	Yes
Project Located in a Community Air Protection Program Community (Assembly Bill 617)	No

a: The maximum CalEnviroScreen score is 100. A high score (i.e., greater than 50) reflects a higher pollution burden compared to other census tracts in the state.

b: The maximum Health Places Index score is 100. A high score (i.e., greater than 50) reflects healthier community conditions compared to other census tracts in the state.

7.4. Health & Equity Measures

No Health & Equity Measures selected.

7.5. Evaluation Scorecard

Health & Equity Evaluation Scorecard not completed.

7.6. Health & Equity Custom Measures

No Health & Equity Custom Measures created.

8. User Changes to Default Data

Screen	Justification
Land Use	According to Site Plan. Commercial uses located on the ground floor with subterranean parking garage. Retail/restaurant assumption from Traffic Memo dated March 23, 2022.
Construction: Construction Phases	Construction anticipated to start June 2023 and complete by January 2025
Construction: Dust From Material Movement	Soil cut amount expected to be 57,525 cy based on Applicant.
Operations: Hearths	No wood stoves, no wood fireplaces

Subject: Phase I, Environmental Site Assessment
Address: 3377 Wilshire Boulevard
974-998 South Gramercy Drive
Los Angeles, CA 90019

Dear **Mr. Amy Lee**,

On behalf of **Bandus Holdings** (the client), Environ Phase Consulting Company (EPC) is pleased to submit this "Environmental Site Assessment (Phase I)" at the described subject site. I declare that, to the best of our professional knowledge and belief, I meet the definition of Environmental Professional as defined in ASTM 1527-13 and 312.10 of this part (40 CFR Part 312). I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. I have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

EPC initiated visual site inspection for this report in accordance with the Phase I service agreement dated on July 6, 2021. To the best of our professional ability, EPC warrants that users of the report may rely upon it as on accurate reflection of the environmental condition of the property at the time it was evaluated. This report is the property of the client for whom it was prepared. Its distribution to others is at client's discretion. If you have any questions, please feel free to contact Jeff Lee at (213) 250-0411.

Best Regards,

Jeff Lee
Environmental Assessor

EXECUTIVE SUMMARY

A staff consultant of Environ Phase Consulting Company visited the subject site on July 8, 2021 to inspect the current site conditions. **EPC recommends a supplemental environmental site investigation based on the below conclusions of this assessment:**

Subject Site:	The subject site is addressed as 3377 West Olympic Boulevard and 974-998 South Gramercy Drive in the City of Los Angeles, California. Additional addresses include 972 South Gramercy Drive and 974-986 Gramercy Place. Prior to 1913, South Gramercy Drive was known as Gramercy Place. The subject site is located at the northeast corner of the intersection of West Olympic Boulevard and South Gramercy Drive. The subject site consists of three rectangular-shaped parcel lots (APNs: 5081-033-011, -014, & -022) totaling approximately 34,967 square-feet and is developed with a vacant commercial building and parking lot. The 6,625 square-foot commercial building is developed at the southern portion of the subject site. The interior of the commercial building appears to have been a former restaurant which appears to have been abandoned with significant damages including fire damage. The remaining portions of the subject site lot consists of an asphalt-paved parking lot and landscaping. See Figure 1 in Appendix 2 for site configuration.
Historical Usage:	According to historical sources (e.g., building permit records, historical aerial photographs, historical fire insurance maps, historical tenant search, and etc.), from as early as 1907, the subject site was undeveloped. From 1909 to 1997, the northern portion of the subject site, addressed as 972 & 974 S. Gramercy Drive, was developed with a residential dwelling. Thereafter, the northern portion of the subject site was utilized as a parking lot. From 1908 to 1963, the central portion of the subject site, addressed as 980-986 S. Gramercy Drive, was developed with two residential dwellings. Thereafter, the central portion of the subject site was utilized as a parking lot. From 1921 to 1940, the southern portion of the subject site, addressed as 994-998 S. Gramercy Drive & 3377 W. Olympic Boulevard, was developed with a residential dwelling. Thereafter, from 1942 to 1966, the southern portion of the subject site was redeveloped with a service station. In 1967, the present-day commercial building was developed at the subject site and mostly occupied by various restaurants. Currently, the commercial building is unoccupied and vacant.
Subject Site Reconnaissance:	EPC did not reveal significant evidences of UST, AST, PCB, distressed vegetation, stockpile soils, solid waste disposals, visual indications of chemical pits, ponds, lagoons, biological hazardous wastes, and other chemicals at the subject site based on our visual site inspection.
Recognized Environmental Condition (REC) Search:	<p>Historical RECs Study:</p> <p>A past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted residential use criteria established by a regulatory authority, without subjecting the property to any required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls).</p> <ul style="list-style-type: none"> ○ Historical REC was not found at the subject site.

RECs Study:

The presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: 1) due to any release to the environment, 2) under conditions indicative of a release to the environment; or 3) under conditions that pose a material threat of a future release to the environment.

- On July 22, 2014, a *Phase I Environmental Site Assessment* was prepared by Xarax Environmental & Engineering Solutions, Inc. (Appendix 7). At that time, the subject site's commercial building was occupied by a restaurant under the name U2 Korean BBQ. The remaining portions of the subject site was improved with concrete-paved walkways and an asphalt-paved parking lot.

One historical recognized environmental condition (HREC) was identified for the subject property as follows: The subject property was utilized as a gas station from approximately 1948 to 1966. Xarax reviewed a *Preliminary Site Characterization Report* prepared by Western Environmental Engineers Company (WEECO) dated December 24, 1996. Based on the report, six (6) soil borings were advanced in the area of the former gas station and eighteen (18) soil samples were collected and analyzed for Total Petroleum Hydrocarbons (TPH), Volatile Organic Compounds (VOCs), Benzene, Toluene, Ethylbenzene, Xylenes (BTEX), and Methyl Tertiary Butyl Ether (MTBE). Based on analytical results of the soil samples, all soil samples were determined to be none detected (ND) for any of the constituents tested. Based on the analytical results, the site was considered clean, in accordance with the California Water Resources Control Board "Maximum Soil Screening Levels for TPH and BTEX above Drinking Water Aquifers." The report concluded "based on these analytical results, no further subsurface investigation is necessary for the site."

No Recognized Environmental Condition (REC), de minimis environmental conditions, Business Environmental Risks (BERs), or Vapor Intrusion Conditions (VICs) were found.

Based on investigation of the property for evidence of recognized environmental conditions and other environmental issues, Xarax recommended no further environmental investigations at that time.

EPC's Analysis of Xarax's Phase I Environmental Site Assessment:

Based on the report and attached documents, the full *Preliminary Site Characterization Report* prepared by WEECO on December 24, 1996 was not able to be found within the appendices of the Xarax's Phase I Environmental Site Assessment report. Therefore, EPC could not accurately assess the previous subsurface investigation conducted at the subject site. Information regarding the soil sampling location and depths are unknown. Therefore, EPC considers the former gasoline station at the subject site a recognized environmental condition (REC). Additionally, the east neighboring property, addressed as 3355 West Olympic Boulevard, was a former gasoline station from approximately 1942 to 1966 (~24 years) and an auto repair shop from 1970 to present-day (~51 years). Based on the close proximity to the subject site, a potential vapor encroachment

	<p>condition (pVEC) exists at the subject site due to the former gasoline station and auto repair shop activities from the east neighboring property.</p> <p>EPC recommends a supplemental subsurface investigation be conducted at the subject site to verify the analytical results of the previous <i>Preliminary Site Characterization Report</i> prepared by WEECO in 1996 and to assess any subsurface impacts to the subject site from the former gasoline station and auto repair shop activities from the east neighboring property.</p> <p>Controlled RECs Study: A recognized environmental condition which involves a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority and that is subject to activity and use limitations.</p> <ul style="list-style-type: none"> ○ Controlled REC was not found at the subject site.
Other Recommendations regarding Non-CERCLA:	<ul style="list-style-type: none"> ○ According to the Los Angeles City Department of City Planning's property information online website (ZIMAS), the subject site, addressed as 3377 West Olympic Boulevard, is located within the <i>Methane Buffer Zone</i>. EPC recommends a methane survey at the subject site prior to any construction. ○ Based on the building built year in 1967, asbestos survey and lead based paint assessment reports are recommended prior to the subject building demolition. ○ Based on our visual site inspection, mold was found at the subject building. A safety and health plan should be prepared to protect construction workers during construction activities.
Lien Search:	No environmental lien was found in the Preliminary Title Report.
Immediate Adjacent Neighboring Properties:	EPC <i>did</i> reveal evidences of human harmful activity or <i>significant</i> pollutant emission to pose immediate environmental concern into the subject site from the neighboring properties during this environmental assessment. See REC section above.
Environmental Database Research Result:	<p>Environmental effects from the neighboring sites are evaluated at minimal risk level in accordance with the reported remedial actions, distance between the subject site and reference sites, and limited contamination of the reference sites. Thus, government agencies' listings of the subject site vicinity area are not expected to represent a significant environmental concern on the subject site.</p> <ul style="list-style-type: none"> ○ Based on the information found in the regulatory database report (EDR Radius Map Report), the subject site was, addressed as 3377 West Olympic Boulevard, was listed in the UST database. See REC section above for more information. ○ According to the EDR Radius Map Report, twenty-one (21) other listings were found within a specified radius of the subject site. Due to findings of USTs and auto repair activities at the east neighboring site, EPC recommends a supplemental environmental site investigation (Phase II)

	(Section 6-2).
Data Gaps:	No significant data gaps of historical tenant records, local environmental agency records, weather, and on-site reconnaissance were indicated during this assessment.
Deviations & Deletions:	<p>This Phase I report was conducted to meet or exceed the practices as All Appropriate Inquiries Rule (ASTM 1527-13 and 312.10 of this part [40 CFR Part 312]). No significant deviations, deletions, or client imposed constraints were made from this Phase I practice.).</p> <ul style="list-style-type: none"> • EPC is an independent consulting firm with no interest in the subject site at the subject site. • EPC has no special contractual conditions.
Report Preparation:	<p>Environ Phase Consulting Co. (EPC) Jeff Lee, REA I Allen Shim, Registered Civil Engineer (PE)</p>

EPC Summary Table since 1993

REC: Recognized Environmental Condition

1. INTRODUCTION

1-1. Purpose

This site assessment report was conducted to evaluate environmental risk for current lending requirements. This report was performed to identify recognized environmental concerns associated with the property due to its location and former and current property use.

1-2. Scope of Work & Involved Parties

This Environmental Site Assessment (Phase I) was performed to meet the AAI Rule (40 CFR Section 312.21-Results of Inquiry by an Environmental Professional and 312.31-Standards and Practices) following due diligences.

- On site visual inspection;
- Visual inspection surrounding the subject site;
- Review local environmental agencies' records;
- Review previous environmental report;
- Review available historical tenant records;
- Research hydrogeology;
- Review historical usages using building dept record and Sanborn Map;
- Interview with the property Owner/User;
- Review environmental government records using database; and
- Recommendation/Conclusion

This report also addressed potential environmental risk under a 1-mile radius of the subject site. The information adduced in this Phase I report was furnished in good faith. An environmental data research report with reliable environmental site auditing was provided from the database supporting company, Environmental Record Search (i.e., an environmental information and computer data retrieval company).

Environmental check list was summarized including involved parties for Phase I Preparation (Table 1):

Table (1) Phase I, Environmental Check List

Content	Check List	
Site Reconnaissance:	Site Photos	Yes
	On-Site inspection	Yes
	Immediate neighboring properties inspection	Yes
Review of Historical Uses & Sources of Information:	Building Dept Record	Yes
	Historical Tenant Search	Yes
	Sanborn Fire Insurance Maps Review	Yes
	Historical Aerial Photographs	Yes
Hydrogeology Information	USGS Topography Map	Yes

	Contour Data Search	Yes
Previous Environmental Assessment provided by the owner:	Environmental site assessment previously conducted by others was provided by the property owner.	No
	Environmental site assessment previously conducted by others was provided by other agency.	Yes
Review of Federal and State Records	Standard Environmental Regulatory Records NPL, Delisted NPL, CERCLIS, CERCLIS NFRAP, RCRA CORRACTS, RCRA non-CORRACTS TSD, RCRA Generators, Institutional Controls/engineering controls, ERNS, landfill and/or solid waste disposal sites, LUST, UST, VCP, Brownfield, and etc.	Yes
Review of Local Government Agencies' Records:	Environmental related local agencies: City of Los Angeles Fire Department	Yes
	SCAQMD	Yes
	LUST/UST file search using SWRCB web site	Yes
Owner's Information: Environmental Questionnaire	Property Profile	Yes
	Preliminary Title Report & Deed for Lien Search	Yes
	County Tax Assessor record review	Yes
	Interview	No
Data Gaps:	Weather	No
	A lack of or inability to obtain information.	No
	Unknown site usage during certain time periods.	No
	Inability to interview the current owner	Yes
Report Preparation	Qualification and Signature of the Environmental Professional: 40 CFR Part 312 Jeff Lee, REA I Allen Shim, Registered Civil Engineer (PE)	Yes
Executive Summary	It generally consists of the reconnaissance summary, site information, decision regarding environmental concerns.	

2. SUBJECT PROPERTY INFORMATION

2-1. Geographic Setting

The subject site is located at 3377 West Olympic Boulevard and 974-998 South Gramercy Drive, Los Angeles, California. Plot plan is presented in Appendix 2. The subject site's physical location is found employing a United States Geological Survey (USGS) 7.5 Minute Topographic Quadrangle (Quad) Map relevant to the subject property. The USGS 7.5 Minute Quad Map has an approximate scale of 1 inch to 2,000 feet, and shows physical features with environmental significances such as wetlands, water bodies, roadways, mines, and buildings. The subject site is located within 34° 3' 11.27" north latitude and 118° 18' 42.76" west longitude. The site is located within the Coastal Plain of Los Angeles Groundwater Basin, Central Subbasin at an elevation of approximately 201 feet above mean sea level (MSL). According to information obtained from the SWRCB's GeoTracker online database for a nearby Leaking Underground Storage Tank (LUST) site (Mobil #18-LLR (Global ID# T0603700620) at 989 West Western Avenue, depth to groundwater is approximately 53 to 66 feet below ground surface and groundwater flow direction was to the southeast (URS, 2021).

2-2. Subject Site Description

A staff consultant of Environ Phase Consulting Company (EPC) visited the subject site on July 8, 2021 to observe the current site conditions (See Section 3 in this report and Site Photos as shown in Appendix 2): The subject site is addressed as 3377 West Olympic Boulevard and 974-998 South Gramercy Drive in the City of Los Angeles, California. Additional addresses include 972 South Gramercy Drive and 974-986 Gramercy Place. Prior to 1913, South Gramercy Drive was known as Gramercy Place. The subject site is located at the northeast corner of the intersection of West Olympic Boulevard and South Gramercy Drive. The subject site consists of three rectangular-shaped parcel lots (APNs: 5081-033-011, -014, & -022) totaling approximately 34,967 square-feet and is developed with a vacant commercial building and parking lot. The 6,625 square-foot commercial building is developed at the southern portion of the subject site. The interior of the commercial building appears to have been a former restaurant which appears to be have been abandoned with significant damages including fire damage. The remaining portions of the subject site lot consists of an asphalt-paved parking lot and landscaping. See Figure 1 in Appendix 2 for site configuration.

2-3. Historical Property Use Search

According to historical sources (e.g., building permit records, historical aerial photographs, historical fire insurance maps, historical tenant search, and etc.), from as early as 1907, the subject site was undeveloped. From 1909 to 1997, the northern portion of the subject site, addressed as 972 & 974 S. Gramercy Drive, was developed with a residential dwelling. Thereafter, the northern portion of the subject site was utilized as a parking lot. From 1908 to 1963, the central portion of the subject site, addressed as 980-986 S. Gramercy Drive, was developed with two residential dwellings. Thereafter, the central portion of the subject site was utilized as a parking lot. From 1921 to 1940, the southern portion of the subject site, addressed as 994-998 S. Gramercy Drive & 3377 W. Olympic Boulevard, was developed with a residential

dwelling. Thereafter, from 1942 to 1966, the southern portion of the subject site was redeveloped with a service station. In 1967, the present-day commercial building was developed at the subject site and mostly occupied by various restaurants. Currently, the commercial building is unoccupied and vacant.

2-3-1. Property Profile

Table (2) Summary of Property Profile

Representative Address:	3377 West Olympic Boulevard 975-998 South Gramercy Drive Los Angeles, CA 90019
Additional Addresses:	972 South Gramercy Drive 974-986 Gramercy Place (Prior to 1913)
APN:	5081-033-011: 3377 W. Olympic Blvd. & 996-998 S. Gramercy Dr. 5081-033-014: 974 S. Gramercy Dr. 5081-033-022: 980-986 S. Gramercy Dr.
Jurisdiction:	City of Los Angeles
Primary Owner:	David A Macleod (Co-Tr) Urban Commons Gramercy LLC
Property Type:	Commercial
Property Size:	5081-033-011: 6,803.5 square-feet 5081-033-014: 9,382.3 square-feet 5081-033-022: 18,781.6 square-feet
No. of Building:	One
Building Size:	6,625 square-feet
Built Year:	1967
Natural Hazard:	Methane Buffer Zone (LA City ZIMAS)

EPC Table Form 020 since 1993

Chicago Property Profile, Los Angeles Parcel Profile Report, & LA City Building Permits

2-3-2. Fire Insurance Map Review (Sanborn Map)

EPC requested Sanborn maps to Environmental Data Resources (an environmental information and computer data retrieval company for EPC). Sanborn Library, LLC collection have been searched based on client supplied target property information, and fire insurance maps covering the target property were found as follows (Appendix 3):

Table (3) Summary of Fire Insurance Maps

Year	Subject Site Description	Neighboring Property Description
1907	The subject site is undeveloped.	<p>North: Undeveloped.</p> <p>South: Roadway followed by undeveloped lots.</p> <p>East: Undeveloped lots and residential dwelling.</p> <p>West: Roadway followed by undeveloped lots.</p> <p>Southwest: Intersection followed by undeveloped lots.</p>
1921	The subject site is addressed as 3381 West 10 th Street & 974, 980, & 986 Gramercy Drive. The subject site is developed with three residential dwellings with detached garages at the northern and central portion of the subject site. The southern portion of the subject site is undeveloped.	<p>North: Residential dwellings with detached garage.</p> <p>South: Roadway followed by undeveloped lots.</p> <p>East: Undeveloped lots and residential dwellings.</p> <p>West: Roadway followed by residential dwellings and undeveloped lot.</p> <p>Southwest: Intersection followed by residential dwellings.</p>
1950	The subject site is addressed as 3377 West Olympic Boulevard & 974, 980, & 986 Gramercy Drive. The three residential dwellings with detached garages remain at the northern and central portion of the subject site. The southern portion of the subject site is developed with a gasoline station and auto repair shop building.	<p>North: Residential dwellings with detached garage.</p> <p>South: Roadway followed by residential dwellings.</p> <p>Southeast: Roadway followed by gasoline station.</p> <p>East: Residential dwellings and gasoline station.</p> <p>West: Roadway followed by residential dwellings.</p> <p>Southwest: Intersection followed by store building and residential dwellings.</p>
1954	No significant change from the previous fire insurance map.	<p>No significant changes from the previous fire insurance map except for southeast neighboring property.</p> <p>Southeast: Roadway followed by parking lot.</p>
1960 1961 1962	No significant change from the previous fire insurance map.	<p>North: Residential dwellings with detached garage.</p> <p>South: Roadway followed by residential dwellings.</p>

		<p>Southeast: Roadway followed by store building.</p> <p>East: Residential dwellings and gasoline station.</p> <p>West: Roadway followed by residential dwellings and gasoline station.</p> <p>Southwest: Intersection followed by store building and residential dwellings.</p>
1966	The subject site is addressed as 3377 West Olympic Boulevard and 974 & 980 Gramercy Drive. One residential dwelling and gasoline station with auto repair shop remain at the northern and southern portions of the subject site, respectively. The central portion of the subject site appears to have removed the former two residential dwellings and is undeveloped.	No significant changes from the previous fire insurance map.
1968 1970	The subject site is addressed as 3377 West Olympic Boulevard and 974 & 980 Gramercy Drive. The residential dwelling at the northern portion of the subject site remains. The central portion of the subject site remains as undeveloped. The southern portion of the subject site has been redeveloped with present-day store building.	<p>North: Residential dwellings with detached garage.</p> <p>South: Roadway followed by residential dwellings.</p> <p>Southeast: Roadway followed by store building.</p> <p>East: Residential dwellings and undeveloped lot.</p> <p>West: Roadway followed by residential dwellings and gasoline station.</p> <p>Southwest: Intersection followed by store building and residential dwellings.</p>
1970	No significant change from the previous fire insurance map.	<p>No significant changes from the previous fire insurance map except for east neighboring property.</p> <p>Southeast: Residential dwellings and commercial building.</p>

EPC Table Form 030 since 1993

- Based on the fire insurance map review, RECs were identified at the subject site and neighboring properties. See Section 4-3 for more information.

Fire insurance maps are large-scale maps that depict the commercial, industrial and residential sections of some twelve thousand cities and towns in the United States. These specialized maps were first prepared for the exclusive use of fire insurance companies and underwriters to provide accurate, current and detailed information about the buildings they were insuring. Information relied upon in place of personal examinations of property. Fire insurance maps show the size, shape and construction of dwellings, commercial buildings and factories, as well as indicate widths and names of streets, property boundaries, and house and block numbers. The primary benefit of reviewing fire insurance maps is to

analyze historical land use of a subject property and its immediate area. In this review, special emphasis is given to the existence and location of fuel storage tanks, flammable or other potentially hazardous substances, as well as the nature of businesses located on site.

2-3-3. Aerial Photograph

EPC requested historical aerial photographs to Environmental Data Resources (an environmental information and computer data retrieval company for EPC) to examine the building location at the subject site as shown in Appendix 3. The summary of the aerial photos is shown in Table (4).

Table (4) Summary of Aerial Photographs

Year	Subject Site Description	Neighboring Property Description
1928 1938	The subject site is developed with four residential dwellings with detached garages.	North: Residential dwellings. South: Roadway followed by residential dwelling. Southeast: Roadway followed by undeveloped lot. East: Residential dwellings. West: Roadway followed by residential dwellings. Southwest: Intersection followed by residential dwellings.
1948	Three residential dwellings with detached garages remain at the northern and central portion of the subject site. The southern portion of the subject site is developed with a service station and auto repair shop building as seen in the 1950 fire insurance map (Section 2-3-2).	North: Residential dwellings. South: Roadway followed by residential dwelling. Southeast: Roadway followed by service station. East: Residential dwellings and service station. West: Roadway followed by residential dwellings. Southwest: Intersection followed by commercial building and residential dwellings.
1952 1954	No significant changes from the previous aerial photograph.	No significant changes from previous aerial photograph except southeast neighboring property. Southeast: Roadway followed by undeveloped lot.
1964	The northern and southern portion of the subject site remains with a residential dwelling and service station with auto repair shop, respectively. The two residential dwellings at the central portion of the subject site are no longer present. The central portion of the subject site is undeveloped and vacant.	North: Residential dwellings. South: Roadway followed by residential dwelling. Southeast: Roadway followed by commercial building. East: Residential dwellings and service station. West: Roadway followed by residential

		<p>dwellings and service station.</p> <p>Southwest: Intersection followed by commercial building and residential dwellings.</p>
1977 1979 1983	<p>The northern portion of the subject site remains with a residential dwelling. The central portion of the subject site is a parking lot. The southern portion of the subject site has been redeveloped with portion of present-day commercial building.</p>	<p>No significant changes from the previous aerial photograph except east neighboring property.</p> <p>East: Residential dwellings and present-day commercial/auto repair shop building.</p>
1989 1994 2002 2005 2009	<p>No significant changes from the previous aerial photograph.</p>	<p>North: Residential dwellings.</p> <p>South: Roadway followed by parking lot.</p> <p>Southeast: Roadway followed by commercial building.</p> <p>East: Residential dwellings and commercial/auto repair shop building.</p> <p>West: Roadway followed by residential dwellings and commercial building/hotel.</p> <p>Southwest: Intersection followed by commercial building and residential dwellings.</p>
2002 2005 2009 2012 2016	<p>The residential dwelling at the northern portion of the subject site no longer appears and has been redeveloped with present-day parking lot. The central portion of the subject site remains as a parking lot. The southern portion of the subject site is developed with present-day commercial building.</p>	<p>No significant changes to the site from previous aerial photograph except western neighboring property.</p>

EPC Table Form 040 since 1993

- Based on the aerial photographs, RECs were identified at the subject site and neighboring properties. See Section 4-3 for more information.

2-3-4. Historical Tenants Search

EPC requested city directory records to EDR (an environmental information and computer data retrieval company for EPC). Based on the target property address, the following historical tenants were found (Appendix 4):

Table (5) Summary of Historical Tenants Search

Northern Portion of Subject Site		
Year	Address	Tenants
1924	974 S. Gramercy	Various residential tenants

EPC Table Form 050 since 1993

- o Based on the city directory records, RECs were identified at the subject site. See Section 4-3 for more information.

2-3-5. Building Department Records

The records provided limited information about building construction date, past owner, and building use. The City of Los Angeles Department of Building & Safety permit record is able to use directly or indirectly to determine historical occupancies, property usages, and construction records of the subject site as summarized as follows (Appendix 5):

Table (6) Summary of Building Permit Records

Northern Portion of Subject Site			
Year	Address	Owner	Description
1909	974 Gramercy Pl.	Illegible	New 10 room residence.
1914	974 Gramercy Dr.	L.E. Lay	Plumbing permit for construction of sewer for residence.
1953	972-974 Gramercy Dr.	Wayne M. Harris & Anne D. Harris	Alteration to one-family dwelling to convert to four family dwelling.
1956	972-974 Gramercy Dr.	Wayne M. Harris & Anne D. Harris	Certificate of Occupancy for 2-story alterations to convert existing dwelling to an apartment house.
1997	974 Gramercy Dr.	Chong Jin Lee	Demolish 2-story dwelling and detached garage.
Central Portion of Subject Site			
1908	986 Gramercy Pl.	Mary H. McCoy	New 10 room residence.
1909	980 Gramercy Pl.	N. Siegal	New 10 room residence.
1913	986 Gramercy Dr.	Mrs. McCoy	New garage.
1919	986 Gramercy Dr.	Mrs. Emily Naber	Alteration to dwelling.
1938	980 Gramercy Dr.	Mrs. M. Russell	Alteration to residence.
1944	986 Gramercy Dr.	Matbelle Kessler	Alteration to residence.
1963	980-984 Gramercy Dr.	Irene C. Salter	Demolish one-family dwelling.
1963	986 Gramercy Dr.	Irene C. Salter	Demolish one-family dwelling.
Southern Portion of Subject Site			
Year	Address	Owner	Description
1921	994 - 996 Gramercy	Mrs. Abbye Walker	New 12 room two-family residence.
1921	994 - 996 Gramercy	Mrs. Abbye Walker	New private garage.

1940	996 Gramercy	J. H. Wolfrom	Relocate double garage from 996 Gramercy Drive to 1179 Fairfax Avenue.
1940	994 - 996 Gramercy	J. H. Wolfrom	Relocate residence from 994-996 Gramercy Drive to 932 Carondelet Street.
1942	3377 W. Olympic	McCoy Oil Co.	Relocate service station from 1040 Figueroa Street to 3377 W. Olympic Boulevard.
1945	3377 W. Olympic	J W McCoy	New 34'x40' automotive repair building.
1947	3377 W. Olympic	Pacific Outdoor Advertising	Erect double poster.
1961	3377 W. Olympic	Foster & Kleiser	Roof sign.
1966	3377 W. Olympic	McCoy Oil Co.	Demolish service station.
1967	3377 W. Olympic	Earl Hardage	New 2,200 sq. ft. restaurant/coffee shop building and parking lot.
1967	3377 W. Olympic	Earl Hardage	Move building back to 11 feet from Olympic (south) property line.
1970	3377 W. Olympic	Earl Hardage	Certificate of Occupancy for coffee shop and parking.
1972	3377 W. Olympic	S. Skiktrenic S. Hardage	Addition of storage room at rear of restaurant.
1974	3377 W. Olympic	S. Shik	Certificate of Occupancy for one story 16' x 25' storage room addition to an existing 92' x 25' restaurant.
1992	3377 W. Olympic	Richard Kim	Convert restaurant to recording music rooms.
1993	3377 W. Olympic	Richard Kim	Certificate of Occupancy for change of use from restaurant to retail and private music room.
1996	3377 W. Olympic	Richard Kim	Convert to existing music rooms into commercial kitchen and add shaft for commercial hood.
1997	3377 W. Olympic	Chong Chin Lee	Install a non-bearing partition in existing restaurant.
1997	3377 W. Olympic	Jung Wan Kim	Add interior partitions to remodel existing handicap bathrooms and add partition between dining areas.
1997	3377 W. Olympic	Jung Wan Kim	Install 3-openings in exterior.
1998	3377 W. Olympic	Richard Kim	Certificate of Occupancy to convert two existing music rooms to commercial kitchen.
1998	3377 W. Olympic	Choung Chin Lee	Certificate of Occupancy to reduce the occupant load of an existing restaurant dining rooms from 99 occupants to 88 occupants.
1998	3377 W. Olympic	Chong C Lee	No work to be done. To permit outside dining seating 44 seats.
1999	3377 W. Olympic	Chong C Lee	Permit for new trellis.
2003	3377 W. Olympic	Lee, Jong K and Chong C	Remodel kitchen, dining area, and restroom. Add new non-bearing partitions. Create storage area and dining room.

2004	3377 W. Olympic	Lee, Jong K and Chong C	6' fence wall along south property line.
2004	3377 W. Olympic	Lee, Jong K and Chong C	Convert existing dining area into prep area and walk-in cooler.
2005	3377 W. Olympic	Lee, Chong C	Provide additional seating under patio.
2006	3377 W. Olympic	Lee, Chong C	Add 11' x 115' trellis at front for outdoor dining.
2006	3377 W. Olympic	Lee, Chong C	Certificate of Occupancy to add 11' x 115' trellis at front.
2006	3377 W. Olympic	Lee, Chong C	Certificate of Occupancy to provide additional seating under patio.
2012	3377 W. Olympic	Lee, Jong K and Chong C	New dining enclosure, addition for existing restaurant, BBQ hood addition at dining area, and handicap ramp addition.
2012	3377 W. Olympic	Lee, Jong K and Chong C	Revise location of DAS path of travel and create new entry door. Revise front entrance back to original stairs, and relocate trash enclosure on plot plan.
2012	3377 W. Olympic	Lee, Jong K and Chong C	Capture existing trellis area on approved plans and correct floor area.
2014	3377 W. Olympic	Lee, Jong K and Chong C	Certificate of Occupancy for dining enclosure, addition for exiting restaurant, and BBQ hood addition at dining area.

EPC Table Form 060 since 1993

- Based on the building permit records, RECs were identified at the subject site. See Section 4-3 for more information.

2-4. Records Review for Hazardous Substance Usages

EPC field engineer visited or contacted the following public agencies to find any records of operation permits, licenses, and registration of underground fuel storage tank (UST) or any other hazardous substances on the subject site.

2-4-1. State Water Resources Control Board

A review of the Geo Tracker UST record using website (<http://geotracker.waterboards.ca.gov/>) dated on July 6, 2021. **The subject site did not appear as an Underground Storage Tank (UST)/Leaking Underground Storage Tank (LUST) site** (Appendix 6).

2-4-2. LAFD-UGT Unit and Hazardous Material Unit

On July 6, 2021, EPC reviewed the LAFD's listings of Active Hazardous Materials, Inactive Hazardous Materials, Active Underground Storage Tanks, Inactive Underground Storage Tanks, and Historical Underground Storage Tanks for the subject site. Based on the review of the aforementioned listings, the subject site did appear in the LAFD's Historical Underground Storage Tanks listing under the address of 3377 West Olympic Boulevard. Therefore, EPC requested the records to the LAFD. On July 23, 2021, the following records were provided to EPC (Appendix 6):

- Based on records reviewed, in 1942, an original permit was issued for the subject site, addressed as 3377 West Olympic Boulevard, for an auto filling station. The auto filling station contained two 2,000-gal and two 1,000-gal gasoline underground storage tanks (USTs) and four fuel dispensing units. The owner was listed as Mc Coy Oil Co. The auto service station was originally located at 1050 North Figueroa Street and moved to the subject site.
- In 1944 and 1945, a fire permit was issued for an automobile filling station with four USTs which totaled 6,000-gallons. The fire permit was issued to A. L. Kugelman.
- In 1961, a fire permit was issued to Vielman's Auto Body Shop for an auto fueling station. The owner was listed as Roberto Salazar.
- In 1962, a fire permit was issued to Seaside Service Station for an auto fueling station. The owner was listed as Adolfo Santiago.
- In 1966, a permit was issued to Rocket Service Station to abandon four gasoline USTs.

2-4-3. South Coast Air Quality Management District (SCAQMD)

Based on the SCAQMD information using the agency' databases (<https://xappprod.aqmd.gov/find>) on July 6, 2021, the subject site did not appear in the SCAQMD database during this assessment (Appendix 6).

2-4-4. Cal/EPA DTSC

Hazardous generator record of the subject site did not appear in California State EPA Dept. of Toxic Substances Control's (DTSCs) Hazardous Waste Tracking System (HWTS) online database (https://hwts.dtsc.ca.gov/report_search.cfm?id=5) (Appendix 6).

3. SUBJECT SITE RECONNAISSANCE

EPC performed the field inspection survey of the subject site and adjacent properties on July 8, 2021 including visual inspection of ACMs, PCB chemical, UST, AST, fuel island, hydraulic hoist unit, hazardous material, well, lagoons, and visual indication of spill using an **Environmental Questionnaire** Form of the ASTM E1528-13 (Appendix 7). The field inspection was summarized in Table (7): EPC **did** reveal evidences of human harmful activity or *significant* pollutant emission enough to pose immediate environmental concern in the subject site.

Table (7) Subject Site Reconnaissance Summary

No	Inspection Categories	Risk Evaluation				Records / Description
		High	Med	Low	Unk	
3-1	Vapor Intrusion/Encroachment	x				Yes
3-2	Asbestos-Containing Material				x	Built Year: 1967
3-3	Lead Based Paint				x	Built Year: 1967
3-4	Methane				x	Methane Buffer Zone
3-5	Polychlorinated Biphenyl			x		No
3-6	Underground Storage Tank, Piping, and/or Dispenser			x		No
3-7	Aboveground Storage Tank (AST)			x		No fuel AST
3-8	Hydraulic Hoist Unit			x		No
3-9	RCRA Hazardous Materials			x		No
3-10	Non-RCRA Wastes, Other Chemicals Containers			x		No
3-11	Hazardous Waste TSD			x		No
3-12	Distressed Vegetation			x		No
3-13	Stockpile, Soil Staining			x		No
3-14	Waste Treatment Unit			x		No
3-15	Solid Waste Disposals			x		No
3-16	Wells			x		No
3-17	Utilities			x		LADWP
3-18	Visual Indications of Spills, Leakage			x		No
3-19	Pits, Ponds, & Lagoons			x		No
3-20	Urea Formaldehyde			x		No
3-21	Herbicide & Pesticides			x		No
3-22	Biological Hazardous Wastes			x		No
3-23	Radon			x		LA County area 2-4 pCi/L

EPC Table Form 070 since 1993

Radon Estimate: The area radon concentrations were reported by U.S. Radon Map

3-1. Vapor Intrusion/Vapor Encroachment Condition

The subject building is a possible Vapor Intrusion Condition (pVIC) and possible Vapor Encroachment Condition (pVEC) due to former fueling station operations at the subject site and former fueling station and auto repair shop activities at the east adjacent neighboring property. **EPC recommends a supplemental environmental site investigation (Phase II).** See Section 4-3 for more information.

3-2. Asbestos-Containing Building Materials (ACMs)

Result of Visual Inspection: Based on such historical information of the subject site, the building was constructed **before** the year when Federal Government banned asbestos for commercial use in 1978. If renovation or demolition of the subject building is planned, asbestos containing material survey should be performed due to erected the building year. Actual sampling and analysis (polarized light microscopy with dispersion staining method and/or count point) is beyond the contracted scope of this assessment work, thus not included in this report.

Information: U.S Federal Government banned asbestos for commercial use in 1978. Based on above historic information of the site, the on-site building at the site appears to be of the age and construction that suggests the possibility the construction material may contain asbestos fibers. Potential locations for the presence of asbestos containing materials (ACMs) in the on-site building are floor tiles, wall insulation, pipe insulation, roof sealant, and etc.

3-3. Lead-Based Paint

Actual sampling and analysis is beyond the contracted scope of this assessment work, thus not included in this report. If renovation or demolition of the subject building is planned, lead based paint inspection can be tested on interior and exterior walls using non-destructive analysis device (e.g., Nitron XLp 300A or others). The lead based paint inspection should be performed to meet the inspection protocol in Chapter 7 of HUD Guidelines (United State Department of Housing and Urban Development 2012 Edition).

General Information: Title X of the Housing and Community Development Act of 1992 referred to as the "Residential Lead Based Paint Hazard Reduction Act" was signed on October 28, 1992. And the interim final rule 29 CFR 1926.62 for the occupational Safety and Health Administration (OSHA) regulated lead exposure standard in construction in June 3, 1993 requires disclosure of the presence of lead-based paint hazards before the sale or lease of pre-1978 housing or commercial building. This rule (lead exposure standard) will become effective in October 1995. This provision of the OSHA lead in construction standard-29 CFR 1926.62 applies to all construction work in which lead is present. The employer must ensure that no employee is exposed to concentration of lead in excess of the permissible exposure level (PEL) for lead, which is an eight-hour time weighted average (TWA) exposure of 50-ug/cubic meter. Testing and monitoring must be continually conducted as the project unfolds. Dust wipe clearance testing must be done at the completion of the project to demonstrate that the project activities did not leave any lead hazard on site at the end of the project.

SBA SOP 50 106, Subpart B- Section H: Special Use Facilities Prudent lending practices dictate that specific additional environmental assessments be performed for certain special use facilities. For example, Property constructed prior to 1980 that will be used for daycare or child care centers or nursery schools or residential care facilities occupied by children must undergo a lead risk assessment (for lead based paint) and testing for lead in drinking water, and the results of these assessments must be submitted to the SBA. Disbursement will not be authorized unless the risk of lead exposure to infants and small children has been sufficiently minimized".

3-4. Methane

According to the Los Angeles City Department of City Planning's property information online website (ZIMAS), the subject site, addressed as 3377 West Olympic Boulevard, is located within the Methane Buffer Zone. EPC recommends methane testing at the subject site prior to any construction.

3-5. Polychlorinated Biphenyl (PCB's)

- No PCB-containing hydraulic fluid trash compactor or PCB-containing transformer was discovered at the site.
- PCB chemical was not observed at the subject site during our inspection.

General Information: Prior to 1978, PCBs was commonly used in dielectric fluids in transformers, capacitors, and light ballast's due to their desirable thermal characteristics and hydraulic fluid compactor. Due to their demonstrated toxicity and persistence in the environment, PCB manufacturing in the United State was discontinued. No PCB-containing light ballasts were inspected, which operate fluorescent light fixtures. Separate survey of PCB's on existing light ballasts can only determine the content, unless such ballasts contained in the fluorescent light fixtures are labeled with "no PCB". Prior to construction or any disturbances to the existing light fixtures, PCB-ballasts survey has to be performed, and identified PCB-ballasts shall properly be disposed of by incineration or recycled within authorized facilities.

3-6. Underground Fuel Storage Tank (UST), Associated Piping, & Fuel Island

No USTs and features (e.g., vent pipe, island form, service canopy, tank manhole, and etc.) were observed at the subject site.

3-7. Aboveground Fuel Storage Tank (AST)

No fuel ASTs were observed on the property.

3-8. Hydraulic Hoist Unit

No hydraulic hoist unit was observed at the subject site.

3-9. RCRA-Hazardous Substances

No RCRA hazardous substances were observed at the subject site during our site inspection.

Definition

RCRA is the Resource Conservation and Recovery Act, which was enacted by Congress in 1976. RCRA's primary goals are to protect human health and the environment from the potential hazards of waste disposal, to conserve energy and natural resources, to reduce the amount of waste generated, and to ensure that wastes are managed in an environmentally sound manner. RCRA regulates the management of solid waste (e.g., garbage), hazardous waste, and underground storage tanks holding petroleum products or certain chemicals.

3-10. Other Chemical Containers

No other chemical containers were observed at the subject site during our site inspection.

3-11. Hazardous Waste Treatments, Storage, and Disposal (TSD)

No TSD of hazardous waste, other than described in the preceding sections, was found during the site investigation.

3-12. Distressed Vegetation

No evidence of distressed vegetation at the subject site.

3-13. Stockpile & Soil Staining

No stockpile and soil staining were observed at the subject site.

3-14. Wastewater Treatment Unit/Clarifier

No wastewater treatment unit/clarifier was observed at the subject site.

3-15. Solid Waste Disposals

No improper activities of treatment or disposal of hazardous, medical, or toxic wastes were performed on the subject site.

3-16. Wells

No monitoring well covers were observed at the subject site.

3-17. Utilities

Utility	Utility Company	Observation
Any industrial boiler used of petroleum fuel oil	Individual Co.	No oil boiler, might be contained asbestos insulator, was observed at the subject site.
Water	LADWP	Active
Electricity	LADWP	Active
Septic Tank	Individual Co.	None
Sewer	City	Active
Telephone	AT & T	Active
Municipal gas	SoCal Gas	Active

EPC Utility Table since 1993

3-18. Visual Indications of Spills or Leaks

No evidences of oils spill or chemicals leak were observed at the site.

3-19. Pits, Ponds, and Lagoons

No visible evidence of wetlands such as pits, ponds, lagoons, or any other water bodies were observed within the property's boundary line.

3-20. Urea Formaldehyde

No evidence of UF foam insulation was observed during the subject site reconnaissance. The potential for UF on the site presumed low. EPC is not contracted to perform the testing of formaldehyde level on the building. Thus, the delineation of its level is beyond the scope of the service included in this report: Formaldehyde, by itself, or in combination with other chemicals, serves a number of purposes in manufactured products. It had been widely used to add permanent press qualities to clothing and draperies, as a component of glues and adhesives, and as a preservative in some paints and coating products. In commercial buildings, the most significant sources of formaldehyde are pressed wood products made using adhesive that contain urea-formaldehyde (UF) resins, such as particleboard, hardwood plywood paneling, and medium density fiberboard. As a colorless, pungent-smelling gas, formaldehyde can cause sensations in the mucous membrane and difficulty in breathing which could lead to asthmatic attack. Newly installed UF foam insulation often releases the gas-phase UF for six to twelve months. Such volatilized gases can concentrate in the internal air of a building.

3-21. Herbicides & Pesticides

No evidence of herbicides or pesticides use on the site was observed during the inspection.

3-22. Biological Hazardous Wastes

No biological hazardous wastes were observed during the inspection.

General Information: Any Substance of a human or animal origin, other than food waste, which is to be disposed of and could harbor to transmit pathogenic organisms including but not limited to pathological specimens such as tissues, blood elements, excreta, secretion, bandages, and related substances. Increasing interest in the hazards from pathogens in bio-solid waste or sludge has required more intensive interest in determining their levels in bio-solid waste and in the effect of processing techniques on them. Methods, which are merely extensions of methods used for wastewater, are well developed for the usual indicators of bacterial pollution (e.g., coliform, fecal coliform) and common pathogens such as Salmonella species. Very little is known about the levels of parasites such as protozoa and helminthes in solid wastes in the United States. Determination of virus concentrations in solid wastes is complicated by the fact that viruses are strongly adsorbed by the various solids types. The recovery from such solids is highly variable, which makes it difficult to establish levels and effects of processing. The National Science Foundation, ERDA, and EPA have been supporting work related to transport of viruses from solid wastes to the environment and to destruction of viruses in solid wastes by ionizing radiation or incineration.

3-23. Radioactivity (Radon)

The subject site was *not likely* to be exposed by harmful level of radon with following reasons:

- Radon concentrations in the Los Angeles County were assessed using information supplied by the EPA Map of Radon Zones. Los Angeles County is located in Zone 2. Average indoor radon levels may be between 2-4 picocuries of radon per liter of air

(pCi/L). The USEPA action level for radon is 4.0 pCi/L. Therefore, the levels of radon at the subject site did not appear to present an environmental concern.

General Information: The purpose of the EPA map is to assist National, State, and local organizations to target their resources and to implement radon-resistant building codes. This map is not intended to be used to determine if a home in a given zone should be tested for radon.

4. OWNER/USER PROVIDED INFORMATION

4-1. Interview with the Current Property User

- Owner's questionnaire was not provided to EPC at the time of this assessment. However, the lack of the questionnaire is not likely to affect the conclusion of this assessment.
- David A Macleod (Co-Tr); Urban Commons Gramercy LLC appeared as the listing owners for the property (Chicago Title Company).

4-2. User Provided Information

The United States Environmental Protection Agency (USEPA) All Appropriate Inquiry (AAI) and ASTM 1527-13 Phase I Standards require that the Report User conduct independent research and consider certain information before purchasing a property.

4-2-1. Lien Search

The property user/owner is required to obtain a recent (less than 180 days old) title report prepared for the subject property. The report should be reviewed to obtain information regarding environmental clean-up liens or activity and use limitations with regard to the subject property. If environmental cleanup liens or activity and use limitations encumbering the subject property or in connection with the subject property are identified, the User should provide that information to the Environmental Professional (Environ Phase Consulting Company). If the User has actual knowledge of environmental cleanup liens or activity and use limitations encumbering the subject property or in connection with the subject property, the User should provide that information to the Environmental Professional (i.e., Environ Phase Consulting Company).

- No environmental lien was found in Preliminary Title Report provided by lender.

4-2-2. Specialized Knowledge

The property user/owner should provide the Environmental Professional (Environ Phase Consulting Company) with any specialized knowledge the User has with regard to recognized environmental conditions in connection with the property.

- The Owner/User is not aware of any specialized knowledge about the subject property with respect to recognized environmental conditions.

4-2-3. Commonly Known or Reasonably Ascertainable Information

If the property user/owner is aware of any commonly known information in the community about the subject property with respect to recognized environmental conditions, the property user/owner should provide the information to the Environmental Professional (Environ Phase Consulting Company).

- The Owner/User is not aware of any commonly known information in the community about the subject property with respect to recognized environmental conditions.

4-2-4. Property Valuation

If this Phase I was prepared as due diligence for a property transaction, it is the responsibility of the User to consider the relationship of the purchase price to the fair market value of the property. If the purchase price is significantly lower than the fair market value, the User should identify the alternate reason for the low purchase price if the lower purchase price is not related to the property being affected by hazardous substances or petroleum products.

- o No significant evidences of valuation reduction were found for the subject site regarding environmental issues during this assessment.

4-3. Previous Reports

- o On July 22, 2014, a *Phase I Environmental Site Assessment* was prepared by Xarax Environmental & Engineering Solutions, Inc. (Appendix 7). At that time, the subject site's commercial building was occupied by a restaurant under the name U2 Korean BBQ. The remaining portions of the subject site was improved with concrete-paved walkways and an asphalt-paved parking lot.

Historically, from as early as 1921, the subject property was partially occupied by three (3) residential dwellings and three (3) detached garages at the northern and central portion of the subject property (974, 980, and 986 South Gramercy Drive). The subject property at 3377 West Olympic Boulevard dated back to 1948, when it was occupied by a gas station. In 1966, the gas station was demolished and four (4) underground storage tanks (USTs) were removed. The current improvements on the subject property were constructed in 1967. Since then, the subject property has been occupied for retail/restaurant purposes.

One historical recognized environmental condition (HREC) was identified for the subject property as follows: The subject property was utilized as a gas station from approximately 1948 to 1966. Xarax reviewed a *Preliminary Site Characterization Report* prepared by Western Environmental Engineers Company (WEECO) dated December 24, 1996. Based on the report, six (6) soil borings were advanced in the area of the former gas station and eighteen (18) soil samples were collected and analyzed for Total Petroleum Hydrocarbons (TPH), Volatile Organic Compounds (VOCs), Benzene, Toluene, Ethylbenzene, Xylenes (BTEX), and Methyl Tertiary Butyl Ether (MTBE). Based on analytical results of the soil samples, all soil samples were determined to be none detected (ND) for any of the constituents tested. Based on the analytical results, the site was considered clean, in accordance with the California Water Resources Control Board "Maximum Soil Screening Levels for TPH and BTEX above Drinking Water Aquifers." The report concluded "based on these analytical results, no further subsurface investigation is necessary for the site."

No Recognized Environmental Condition (REC), de minimis environmental conditions, Business Environmental Risks (BERs), or Vapor Intrusion Conditions (VICs) were found.

Based on investigation of the property for evidence of recognized environmental conditions and other environmental issues, Xarax recommended no further environmental investigations at that time.

EPC's Analysis of Xarax's Phase I Environmental Site Assessment:

Based on the report and attached documents, the full *Preliminary Site Characterization Report* prepared by WEECO on December 24, 1996 was not able to be found within the appendices of the Xarax's Phase I Environmental Site Assessment report. Therefore, EPC could not accurately assess the previous subsurface investigation conducted at the subject site. Information regarding the soil sampling location and depths are unknown. Therefore, EPC considers the former gasoline station at the subject site a recognized environmental condition (REC). Additionally, the east neighboring property, addressed as 3355 West Olympic Boulevard, was a former gasoline station from approximately 1942 to 1966 (~24 years) and an auto repair shop from 1970 to present-day (~51 years). Based on the close proximity to the subject site, a potential vapor encroachment condition (pVEC) exists at the subject site due to the former gasoline station and auto repair shop activities from the east neighboring property.

EPC recommends a Phase II subsurface investigation be conducted at the subject site to verify the analytical results of the previous *Preliminary Site Characterization Report* prepared by WEECO in 1996 and to assess any subsurface impacts to the subject site from the former gasoline station and auto repair shop activities from the east neighboring property.

5. VISUAL INSPECTION OF NEIGHBORING PROPERTIES

Result of Visual Inspection: Our site inspection did reveal evidences of human harmful activity or significant pollutant emission enough to pose immediate environmental concern into the subject site. Neighboring properties were summarized as shown in Table (8).

Table (8) Summary of Adjacent Properties

Site	Address	Visual Inspection/Notes
North	Residential Apartments	No signs of hazardous materials and wastes were observed.
South	Immediate: West Olympic Boulevard Across Roadway: Commercial Office/Bank Building and Parking Lot 3371 West Olympic Boulevard	No signs of hazardous materials and wastes were observed.
East	Residential Apartments Preschool 989 South St. Andrews Place Joy Auto Center 3355 West Olympic Boulevard	Based on historical records, the site located at 3355 West Olympic Boulevard was a former service station from at least 1942 to 1966 (~24 years) and an auto repair shop from 1970 to present-day (~51 years). Based on the close proximity to the subject site, a potential vapor encroachment condition (pVEC) exists at the subject site due to the former gasoline station and auto repair shop activities from the east neighboring property.
West	Immediate: South Gramercy Drive Across Roadway: Residential Dwellings The Rotex Hotel & Condo 3411 West Olympic Boulevard	The site located at 3411 West Olympic Boulevard was a former service station. According to the SWRCB's GeoTracker online database, the site is listed as <i>Completed-Case Closed</i> as of May 22, 1996. Based on the regulatory status of the site, the site is not of significant environmental concern to the subject site.
Southwest	Immediate: W. Olympic Bl. & S. Gramercy Dr. Across Intersection: Multi-Tenant Commercial/Office Building 3400 West Olympic Boulevard	No signs of hazardous materials and wastes were observed.

Photos: See Appendix 2
EPC Table Form 080 sine 1993

6. ENVIRONMENTAL GOVERNMENT RECORD SEARCH

In order to determine reported areas of possible environmental impairment on or within a 1-mile radius of the site, an environmental database research report was obtained from the database company, EDR. The conducted government record search was performed to aid. In compliance with AAI, the environmental agencies' records are summarized as follows: Identification of facilities, location within a one-mile or half mile radius of the subject site, which might pose a potential threat to the subsurface environment at the subject site; and identification of any environmental violation notices associated with activities conducted at the subject site itself. The following lists were reviewed for sites within a one-mile of the site (Appendix 8).

Environmental effects from the neighboring sites are evaluated at *minimal risk level* in accordance with the reported remedial actions, distance between the subject site and reference sites, and limited contamination of the reference sites.

Standard Federal, State, and Tribal Environmental Record Sources		
Database Searched	Distance Searched (Miles)	Sites Found
Federal NPL	1	0
Federal Delisted NPL	0.5	0

6-1 Subject Site Listings in the Regulatory Database Search

Based on the information found in the regulatory database report (EDR Radius Map Report), the subject site was found in the following databases:

UST: The Underground Storage Tank database contains registered USTs. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data come from the State Water Resources Control Board's Hazardous Substance Storage Container Database.

The subject site was listed in the UST database under the address of 3377 West Olympic Boulevard. Therefore, EPC requested UST records to the Los Angeles Fire Department (LAFD). Based on records from the LAFD, the subject site was developed with a service station from 1942 to 1966 (Section 2-4-2). USTs at the subject site included two (2) 2,000-gal and two (2) 1,000-gal gasoline USTs. The four (4) USTs were abandoned in 1966.

According to a previous *Phase I Environmental Site Assessment* prepared by Xarax in 2014, a previous subsurface investigation was conducted at the site in 1996 by WEECO due to the former gas station operations and USTs. Based on the analytical results, non-detectable levels of contaminants were found including TPH, VOCs, BTEX, and MTBE (See Section 4-3). However, based on the report and attached documents, the full *Preliminary Site Characterization Report* prepared by WEECO on December 24, 1996 was not able to be found within the appendices of the Xarax's *Phase I Environmental Site Assessment* report. Therefore, EPC could not accurately assess the previous subsurface investigation conducted at the subject site. Information regarding the soil sampling location and depths are unknown.

EPC recommends a Phase II subsurface investigation be conducted at the subject site to verify the analytical results of the previous *Preliminary Site Characterization Report* prepared by WEECO in 1996.

6-2 Neighboring Site Listings in the Regulatory Database Search

State and Tribal CERCLIS

ENVIROSTOR

Description: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

- Eight (8) ENVIROSTOR listings appeared within a 0.5-mile radius of the subject site. However, based on the regulatory status, horizontal distance, and/or groundwater flow direction in the area, the sites are not of significant environmental concern to the subject site.

State and Tribal Leaking Storage Tank

LUST: Leaking Underground Storage Tank

Description: Leaking Underground Storage Tank (LUST) Sites included in GeoTracker. GeoTracker is the Water Boards data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

- Nine (9) LUST listings appeared within a 0.5-mile radius of the subject site. All nine (9) sites were listed as *Completed-Case Closed* in the SWRCB's GeoTracker online database. Based on the regulatory status of the sites, the sites are not of significant environmental concern to the subject site.

State and Tribal Registered Underground Storage Tank

UST: Underground Storage Tank

Description: The Underground Storage Tank database contains registered USTs. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data come from the State Water Resources Control Board's Hazardous Substance Storage Container Database.

- Three (3) UST listings appeared within the adjacent neighboring properties. A facility was located at 3411 West Olympic Boulevard, adjacent to west of the subject site across South Gramercy Drive. Currently, the site is occupied as a hotel. Based on historical sources reviewed, the site was a former service station from approximately the 1960s to 1980s. However, based on the SWRCB's GeoTracker online database, the site is listed as *Completed-Case Closed* as of May 22, 1996. Based on the regulatory status of the site, the site is not of significant environmental concern to the subject site.
- A facility was located at 3360 West Olympic Boulevard, adjacent to southeast of the subject site across West Olympic Boulevard. Based on historical sources reviewed, the site was a former service station from approximately the 1940s to 1950s. The site appears to have been redeveloped with present-day commercial office building with a subterranean parking lot. Contamination and USTs, if any, were most likely removed from the site during the construction of the subterranean parking lot. Additionally, groundwater flow in the area is to the south-southeast. Based on the aforementioned, the site is not of significant environmental concern to the subject site.
- A facility was located at 3400 West Olympic Boulevard, adjacent to southwest of the subject site across the intersection of West Olympic Boulevard and South Gramercy Drive. No records of a service station or industrial facility was found for the site. Additionally, the site is developed with a commercial building with a subterranean parking lot. Contamination and USTs, if any, were most likely removed from the site during the construction of the subterranean parking lot. Additionally, groundwater flow in the area is to the south-southeast. Based on the aforementioned, the site is not of significant environmental concern to the subject site.

EDR Hist Auto

Description: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

- Three (3) EDR Hist Auto listing appeared within the adjacent neighboring properties. A facility was located at 3355 West Olympic Boulevard, adjacent to east of the subject site. The facility was listed as a gasoline and oil service station in 1942. From 1971 to 2008, the facility was listed as an automotive transmission repair shop and general automotive repair shop. Based on the site reconnaissance, the site remains as an auto repair shop. Based on historical sources reviewed, the site was a former gasoline station from approximately 1942 to 1966 (~24 years) and an auto repair shop from 1970 to present-day (~51 years). Based on the close proximity to the subject site, a potential vapor encroachment condition (pVEC) exists at the subject site due to the former gasoline station and auto repair shop activities from the east neighboring property.

EPC recommends a Phase II subsurface investigation be conducted at the subject site to assess any subsurface impacts to the subject site from the former gasoline station and auto repair shop activities from the east neighboring property.

- A facility was located at 3411 West Olympic Boulevard, adjacent to west of the subject site across South Gramercy Drive. The facility was listed as a gasoline service station in 1969 and 1970 and an automotive repair shop in 1987. However, based on the SWRCB's GeoTracker online database, the site is listed as *Completed-Case Closed* as of May 22, 1996. Based on the regulatory status of the site, the site is not of significant environmental concern to the subject site.
- A facility was located at 3360 West Olympic Boulevard, adjacent to southeast of the subject site across West Olympic Boulevard. The facility was listed as a gasoline and oil service station in 1942. The site appears to have been redeveloped with present-day commercial office building with a subterranean parking lot. Contamination and USTs, if any, were most likely removed from the site during the construction of the subterranean parking lot. Additionally, groundwater flow in the area is to the south-southeast. Based on the aforementioned, the site is not of significant environmental concern to the subject site.

7. CONCLUSION

A staff consultant of Environ Phase Consulting Company visited the subject site on July 8, 2021 to inspect the current site conditions. **EPC recommends a supplemental environmental site investigation based on the below conclusions of this assessment:**

Subject Site

The subject site is addressed as 3377 West Olympic Boulevard and 974-998 South Gramercy Drive in the City of Los Angeles, California. Additional addresses include 972 South Gramercy Drive and 974-986 Gramercy Place. Prior to 1913, South Gramercy Drive was known as Gramercy Place. The subject site is located at the northeast corner of the intersection of West Olympic Boulevard and South Gramercy Drive. The subject site consists of three rectangular-shaped parcel lots (APNs: 5081-033-011, -014, & -022) totaling approximately 34,967 square-feet and is developed with a vacant commercial building and parking lot. The 6,625 square-foot commercial building is developed at the southern portion of the subject site. The interior of the commercial building appears to have been a former restaurant which appears to have been abandoned with significant damages including fire damage. The remaining portions of the subject site lot consists of an asphalt-paved parking lot and landscaping. See Figure 1 in Appendix 2 for site configuration.

Historical Usage

According to historical sources (e.g., building permit records, historical aerial photographs, historical fire insurance maps, historical tenant search, and etc.), from as early as 1907, the subject site was undeveloped. From 1909 to 1997, the northern portion of the subject site, addressed as 972 & 974 S. Gramercy Drive, was developed with a residential dwelling. Thereafter, the northern portion of the subject site was utilized as a parking lot. From 1908 to 1963, the central portion of the subject site, addressed as 980-986 S. Gramercy Drive, was developed with two residential dwellings. Thereafter, the central portion of the subject site was utilized as a parking lot. From 1921 to 1940, the southern portion of the subject site, addressed as 994-998 S. Gramercy Drive & 3377 W. Olympic Boulevard, was developed with a residential dwelling. Thereafter, from 1942 to 1966, the southern portion of the subject site was redeveloped with a service station. In 1967, the present-day commercial building was developed at the subject site and mostly occupied by various restaurants. Currently, the commercial building is unoccupied and vacant.

REC Search:

Historical RECs Study:

A past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted residential use criteria established by a regulatory authority, without subjecting the property to any required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls).

- Historical REC was not found at the subject site.

RECs Study:

The presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: 1) due to any release to the environment, 2) under conditions indicative of a release to the environment; or 3) under conditions that pose a material threat of a future release to the environment.

- On July 22, 2014, a *Phase I Environmental Site Assessment* was prepared by Xarax Environmental & Engineering Solutions, Inc. (Appendix 7). At that time, the subject site's commercial building was occupied by a restaurant under the name U2 Korean BBQ. The remaining portions of the subject site was improved with concrete-paved walkways and an asphalt-paved parking lot.

One historical recognized environmental condition (HREC) was identified for the subject property as follows: The subject property was utilized as a gas station from approximately 1948 to 1966. Xarax reviewed a *Preliminary Site Characterization Report* prepared by Western Environmental Engineers Company (WEECO) dated December 24, 1996. Based on the report, six (6) soil borings were advanced in the area of the former gas station and eighteen (18) soil samples were collected and analyzed for Total Petroleum Hydrocarbons (TPH), Volatile Organic Compounds (VOCs), Benzene, Toluene, Ethylbenzene, Xylenes (BTEX), and Methyl Tertiary Butyl Ether (MTBE). Based on analytical results of the soil samples, all soil samples were determined to be none detected (ND) for any of the constituents tested. Based on the analytical results, the site was considered clean, in accordance with the California Water Resources Control Board "Maximum Soil Screening Levels for TPH and BTEX above Drinking Water Aquifers." The report concluded "based on these analytical results, no further subsurface investigation is necessary for the site."

No Recognized Environmental Condition (REC), de minimis environmental conditions, Business Environmental Risks (BERs), or Vapor Intrusion Conditions (VICs) were found.

Based on investigation of the property for evidence of recognized environmental conditions and other environmental issues, Xarax recommended no further environmental investigations at that time.

EPC's Analysis of Xarax's Phase I Environmental Site Assessment:

Based on the report and attached documents, the full *Preliminary Site Characterization Report* prepared by WEECO on December 24, 1996 was not able to be found within the appendices of the Xarax's Phase I Environmental Site Assessment report. Therefore, EPC could not accurately assess the previous subsurface investigation conducted at the subject site. Information regarding the soil sampling location and depths are unknown. Therefore, EPC considers the former gasoline station at the subject site a recognized environmental condition (REC). Additionally, the east neighboring property, addressed as 3355 West Olympic Boulevard, was a former gasoline station from approximately 1942

to 1966 (~24 years) and an auto repair shop from 1970 to present-day (~51 years). Based on the close proximity to the subject site, a potential vapor encroachment condition (pVEC) exists at the subject site due to the former gasoline station and auto repair shop activities from the east neighboring property.

EPC recommends a supplemental subsurface investigation be conducted at the subject site to verify the analytical results of the previous *Preliminary Site Characterization Report* prepared by WEECO in 1996 and to assess any subsurface impacts to the subject site from the former gasoline station and auto repair shop activities from the east neighboring property.

Controlled RECs Study:

A recognized environmental condition which involves a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority and that is subject to activity and use limitations.

- Controlled REC was not found at the subject site.

Other Recommendations Regarding Non-CERCLA:

- According to the Los Angeles City Department of City Planning's property information online website (ZIMAS), the subject site, addressed as 3377 West Olympic Boulevard, is located within the *Methane Buffer Zone*. EPC recommends a methane survey at the subject site prior to any construction.
- Based on the building built year in 1967, asbestos survey and lead based paint assessment reports are recommended prior to the subject building demolition.
- Based on our visual site inspection, mold was found at the subject building. A safety and health plan should be prepared to protect construction workers during construction activities.

Lien Search:

No environmental liens were found in the Preliminary Title Report.

Immediate Adjacent Neighboring Properties

EPC *did* reveal evidences of human harmful activity or *significant* pollutant emission to pose immediate environmental concern into the subject site from the **neighboring properties** during this environmental assessment. See REC section above.

Environmental Data Research Results

In order to determine reported areas of possible environmental impairment on or within a 1-mile radius of the site, an environmental disclosure report was obtained from database.

Environmental effects from the neighboring sites are evaluated at minimal risk level in accordance with the reported remedial actions, distance between the subject site and reference sites, and limited contamination of the reference sites. Thus, government agencies' listings of the subject site vicinity area are not expected to represent a significant environmental concern on the subject site.

- Based on the information found in the regulatory database report (EDR Radius Map Report), the subject site was, addressed as 3377 West Olympic Boulevard, was listed in the UST database. See REC section above for more information.
- According to the EDR Radius Map Report, twenty-one (21) other listings were found within a specified radius of the subject site. Due to findings of USTs and auto repair activities at the east neighboring site, **EPC recommends a supplemental environmental site investigation (*Phase II*)** (Section 6-2).

Data Gaps

No significant data gaps of historical tenant records, local environmental agency records, weather, and on-site reconnaissance were indicated during this assessment.

8. LIMITATION & EXCEPTION

The report is the property of the Client for whom it was prepared. Its distribution to others is at client's discretion. To the best of our professional ability, EPC warrants that users of the report may rely upon it as on accurate reflection of the environmental condition of the property at the time it was evaluated: The results rendered are options based upon information obtained within records of Environmental Regulatory Agencies (ERS's database), owner/user interview, and visual inspection.

This Phase I report should not be regarded as a guarantee that further hazardous waste/material contamination and spill, leaking of those material. In the future, if suspected some hazardous wastes/materials contamination is encountered during any construction activities, Environmental Site Investigation may be required.

No part of this report may be reproduced, stored in a retrieval system, or transmitted, in any form or by any means, electronic, mechanical, photocopying, or otherwise, without the prior written permission of the EPC.

- **Non-CERCLA considerations are beyond the contracted scope of this assessment:** Non-CERCLA considerations may include the following: asbestos-containing materials (ACMs), PCB-containing materials, lead-based paint, lead in drinking water, urea formaldehyde, wetlands identification, mold inspections, air quality inspections, or flood zone applicability.
- Special Contractual Conditions between users (i.e., the client, the current or previous tenant, the property buyer, and the property seller) and environmental professional (EPC): EPC is an independent consulting firm with no interest in the subject site at the subject site. EPC has no special contractual conditions.

MCL	the Maximum Contaminant Level or enforceable drinking water standard
RP	Responsible Party
RPHL	the Recommended Public Health Level
VOC	<p>Volatile Organic Compounds</p> <p>BTEX: benzene, toluene, Ethylbenzene, & Xylene</p> <p>MTBE: methyl tertiary-butyl ether DIPE: di-isopropyl ether</p> <p>TAME: tertiary-amyl methyl ether ETBE: ethyl-tertiary butyl ether</p>

	TBA: tertiary-butyl alcohol
HVOC	Halogenated Volatile Organic Compounds (Dichlorodifluoromethane, Chloromethane, Vinyl Chloride, Bromomethane, Chlorobenzene, 1,1,2-Trichloroethane, and etc.)
Material Threat	ASTM guidance defines “ material threat ” as “a physically observable or obvious threat, which is reasonably likely to lead to a release that, in the opinion of the environmental professional, is threatening and might result in impact to public health or the environment.” It is not sufficient to establish a site feature as a “recognized environmental condition” just because it exists. In order to establish a site feature as a “recognized environmental condition,” there “must be compelling evidence that either 1) the hazardous substance or petroleum product was released from its container or operation onto (or into) the surface or 2) by virtue of the condition of the container or state of the operation that stores or handles such products, there is reasonable concern in the foreseeable future that such materials will be released to the surface of the property” (New and Improved Site Assessment Standard, Revisions to the ASTM Phase I Standards Represent Significant Interpretive Changes for Both Users and Environmental Professionals, ASTM Standardization News Insight, March 2001

Company Information

Name: *Jeff Lee*

Title: President of EPC

Education:

* M.S. 1988 Environmental Engineering Kon-Kuk University of Korea

* B.S. 1986 Environmental Engineering Kon-Kuk University of Korea

* Hazardous Material Management Certificate UC Irvine

Affiliation:

- Lab Technologist Grade-II California Water Pollution Control Association Certificate Number 263
- Hazardous Substance Removal License (Haz 776425)
- General Engineering License (A 776425)
- Electrical Contractor License (C-10 776425)
- Registered Environmental Property Assessor (REPA 403790)

Professional Experiences:

While majoring in Environmental Engineering for his Bachelor's and Master's degrees, Mr. Lee has studied great deal in Environmental Site Assessment (ESA), Transaction Screen Assessment (TSA), Site Investigation (Phase II), and soil/groundwater treatment (Phase III) to meet ASTM and environmental government agencies' requirements. Also familiarizes with hazardous material and toxic chemical rules and regulations required by U.S Federal and California State governments. Mr. Jeff Lee has provided environmental site assessments and consulting services to banks and individual clients since 1986.

- Rapid Transit District (RTD) Vernon facility, Vernon, California: Worked for Modification of Existing Underground storage tank (UST).
- Film Recycle Facility, Los Angeles, California: Engaged in Site Assessment and Groundwater Monitoring Well Installations.
- Former Station, Pasadena, 8620 S. Normandie Ave., LA, California; Engaged in Site Assessment and Vapor Extraction Well Installations with Volatile Organic Compound (VOC) Control Thermal Unit.

- Western Environmental Engineering Co, Santa Ana, California: Designed and installed Vapor control/Degassing Engine Unit and Air Monitoring Mobile Laboratory.
- Huge Air Craft, Sherman Oaks, California: Worked for research and laboratory Q/A, Q/C; engaged in groundwater monitoring and estimated radioactivity project.
- Familiar with various types of rotary kilns, fluidized-bed combustors, and moving-grate boilers that can burn organic wastes and contaminated soils.
- Worked for research and laboratory organizations; Engaged in setting up wastewater and air pollutant analyzers and instruments and in preparing necessary protocol procedures for sampling and testing.
- Performed a great deal of lab tests for air pollution and waste water treatments and accumulated a large number of experiences in soil and groundwater sampling, EPA testing, site cleanup and remediation products, contaminated soil excavation and disposal.
- Crenshaw Transmission Shop - Los Angeles California: Prepared a plan to close report on the site assessment and contaminated soil remediation by elevated concentrations of PCB and Semi volatile Organic Compounds.
- National Institute of Environmental Research-Seoul Korea; As a Research engineer for the Air Pollution Engineering Division responsibilities included sampling and analyzing stationary sources, and designed incinerator and air pollution control system.

RESEARCH PAPERS

- 1988 - "The Technical Development of Waste Derived Fuel and Air Pollution Control for Combustible Industrial Waste" for The National (KOREA) Institute of Environmental Research's project.
- 1987 -"A Study on The Formation Mechanism of Particulate and Gaseous Nitrate in Seoul Atmosphere" for Master of Science Degree.
- May 1995 ~ August 1997 - Environmental Column in Journal of Gas Station

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Environ Phase Consulting were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1920 through 2014. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 332 feet of the target property.

A summary of the information obtained is provided in the text of this report.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

OWNER-BUILDER DECLARATION

I hereby affirm, under penalty of perjury, that I am exempt from the Contractors License Law for the following reason (Sec. 7031.5, Business & Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he or she is licensed pursuant to the provisions of the Contractors License Law (Chap. 9 commencing with Sec. 70000 of Div. 3 of the Business & Professions Code) or that he or she is exempt therefrom & the basis for the alleged exemption. Any violation of Sec. 7031.5 by any applicant for a permit, subjects the applicant to a civil penalty of not more than five hundred dollars (\$500):

- I, as the owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business & Professions Code: The Contractors License Law does not apply to the owner of property who builds or improves thereon, and who does such work himself or herself or through his or her own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he or she did not intend to improve for the purposes of sale).
I, as the owner of the property, an exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business & Professions Code: The Contractors License Law does not apply to the owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractors License Law).

I am exempt under Sec. Bus. & Prof. Code for the following reason:

Print: Sign: Date: 4/19/94 Owner Authorized Agent

FINAL DECLARATION

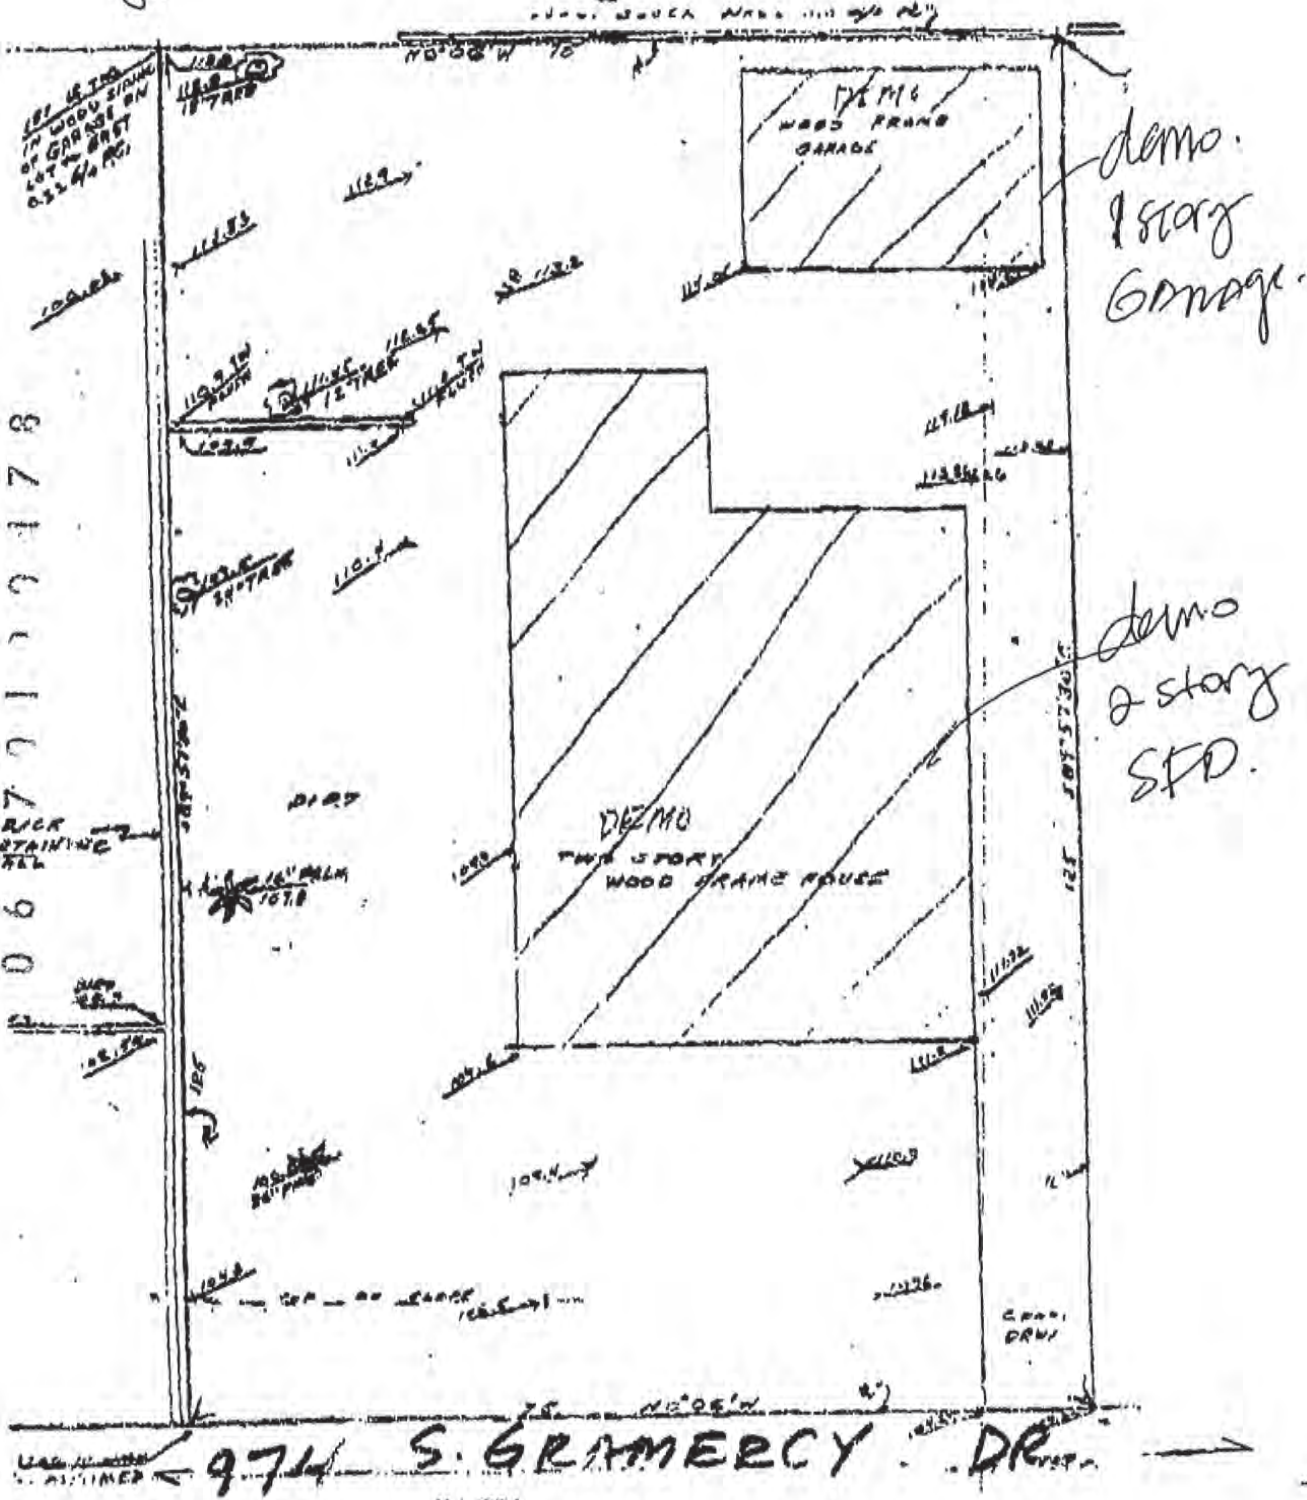

I certify that I have read this application and state that the above information is correct. I agree to comply with all city and county ordinances and state laws relating to building construction, and hereby authorize representatives of this city to enter upon the above-mentioned property for inspection purposes. I realize that this permit is an application for inspection and that it does not approve or authorize the work specified herein. Also, that it does not authorize or permit any violation or failure to comply with any applicable law. Furthermore, that neither the City of Los Angeles nor any board, department officer, or employee thereof, make any warranty, nor shall be responsible for the performance or results of any work described herein, nor the condition of the property nor the soil upon which such work is performed.

Application for the Erection of Frame Building

CLASS "D"

To the Board of Public Works of the City of Los Angeles:

Application is hereby made to the Board of Public Works of the City of Los Angeles, through the office of the Chief Inspector of Buildings, for a building permit in accordance with the description and for the purpose hereinafter set forth. This application is made subject to the following conditions, which are hereby agreed to by the undersigned applicant and which shall be deemed conditions entering into the exercise of the permit:

First: That the permit does not grant any right or privilege to erect any building or other structure therein described, or any portion thereof, upon any street, alley, or other public place or portion thereof.

Second: That the permit does not grant any right or privilege to use any building or other structure therein described, or any portion thereof, for any purpose that is, or may hereafter be, prohibited by ordinance of the City of Los Angeles.

Third: That the granting of the permit does not affect or prejudice any claim of title to, or right of possession in, the property described in such permit.

Application to Alter, Repair, Move or Demolish

To the Board of Building and Safety Commissioners of the City of Los Angeles:
Application is hereby made to the Board of Building and Safety Commissioners of the City of Los Angeles, through the office of the Superintendent of Building, for a building permit in accordance with the description and for the purpose hereinafter set forth. This application is made subject to the following conditions, which are hereby agreed to by the undersigned applicant and which shall be deemed conditions entering into the exercise of the permit:
First: That the permit does not grant any right or privilege to erect any building or other structure therein described, or any portion thereof, upon any street, alley or other public place or portion thereof.
Second: That the permit does not grant any right or privilege to use any building or other structure therein described, or any portion thereof, for any purpose that is, or may hereafter be prohibited by ordinance of the City of Los Angeles.
Third: That the granting of the permit does not affect or prejudice any claim of title to, or right of possession in, the property described in such permit.

DECLARATIONS AND CERTIFICATIONS

16. I hereby affirm that I am licensed under the provisions of Chapter 9 (commencing with Section 7000) of Division 5 of the Business and Professions Code, and my license is in full force and effect.

Date _____ Lic. Class _____ Lic. Number _____ Contractor (Signature) _____

17. I hereby affirm that I am exempt from the Contractor's License Law for the following reason (Sec. 7031.5, Business and Professions Code): Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he is licensed pursuant to the provisions of the Contractor's License Law (Chapter 9 (commencing with Section 7000) of Division 5 of the Business and Professions Code) or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars (\$500.):

I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or through his own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale.)

I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractor's License Law.)

I am exempt under Sec. _____ B. & P. C. for this reason _____

Date 10/14/92 Owner's Signature _____

18. I hereby affirm that I have a certificate of consent to self-insure, or a certificate of Worker's Compensation Insurance, or a certified copy thereof (Sec. 3800, Lab. C.).

Policy No. _____ Insurance Company _____

Certified copy is hereby furnished.

Certified copy is filed with the Los Angeles City Dept. of Bldg. & Safety.

Date _____ Applicant's Signature _____

19. I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the Workers' Compensation Laws of California.

Date 10/14/92 Applicant's Signature _____

NOTICE TO APPLICANT: If, after making this Certificate of Exemption, you should become subject to the Workers' Compensation provisions of the Labor Code, you must forthwith comply with such provisions or this permit shall be deemed revoked.

20. I hereby affirm that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civ. C.).

Lender's Name _____ Lender's Address _____

21. I certify that I have read this application and state that the above information is correct. I agree to comply with all city and county ordinances and state laws relating to building construction, and hereby authorize representatives of this city to enter upon the above-mentioned property for inspection purposes.

I realize that this permit is an application for inspection, that it does not approve or authorize the work specified herein, that it does not authorize or permit any violation or failure to comply with any applicable law, that neither the city of Los Angeles nor any board, department, officer or employee thereof make any warranty or shall be responsible for the performance or results of any work described herein or the condition of the property or soil upon which such work is performed. (See Sec. 91.002, Lab. C.)

DECLARATIONS AND CERTIFICATIONS

16. I hereby affirm that I am licensed under the provisions of Chapter 9 (commencing with Section 7000) of Division 5 of the Business and Professions Code, and my license is in full force and effect.

Date _____ Lic. Class _____ Lic. Number _____ Contractor (Signature) _____

17. I hereby affirm that I am exempt from the Contractor's License Law for the following reason (Sec. 7031.5, Business and Professions Code): Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he is licensed pursuant to the provisions of the Contractor's License Law (Chapter 9 (commencing with Section 7000) of Division 5 of the Business and Professions Code) or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars (\$500.):

I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code). The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or through his own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale.

I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code). The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractor's License Law.

I am exempt under Sec. _____ B. & P. C. for this reason: _____

Date 10/14/92 Owner's Signature _____

18. I hereby affirm that I have a certificate of consent to self-insure, or a certificate of Worker's Compensation Insurance, or a certified copy thereof (Sec. 3800, Lab. C.).

Policy No. _____ Insurance Company _____

Certified copy is hereby furnished.

Certified copy is filed with the Los Angeles City Dept. of Bldg. & Safety.

Date _____ Applicant's Signature _____

19. I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the Workers' Compensation Laws of California.

Date 10/14/92 Applicant's Signature _____

NOTICE TO APPLICANT: If, after making this Certificate of Exemption, you should become subject to the Workers' Compensation provisions of the Labor Code, you must forthwith comply with such provisions or this permit shall be deemed revoked.

20. I hereby affirm that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civ. C.).

Lender's Name _____ Lender's Address _____

21. I certify that I have read this application and state that the above information is correct. I agree to comply with all city and county ordinances and state laws relating to building construction, and hereby authorize representatives of this city to enter upon the above-mentioned property for inspection purposes.

I realize that this permit is an application for inspection, that it does not approve or authorize the work specified herein, that it does not authorize or permit any violation or failure to comply with any applicable law, that neither the city of Los Angeles nor any board, department, officer or employee thereof make any warranty or shall be responsible for the performance or results of any work described herein or the condition of the property or soil upon which such work is performed. (See Sec. 91.002, Lab. C.)

DECLARATIONS AND CERTIFICATIONS LICENSED CONTRACTORS CERTIFICATION

16. I hereby affirm that I am licensed under the provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect.

OWNER-BUILDER DECLARATION 17. I hereby affirm that I am exempt from the Contractor's License Law for the following reason (Sec. 7031.5, Business and Professions Code): Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he is licensed pursuant to the provisions of the Contractor's License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars (\$500.).

WORKERS' COMPENSATION DECLARATION 18. I hereby affirm that I have a certificate of consent to self-insure, or a certificate of Worker's Compensation Insurance, or a certified copy thereof (Sec. 3800, Lab. C.).

CERTIFICATE OF EXEMPTION FROM WORKERS' COMPENSATION INSURANCE 19. I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the Workers' Compensation Laws of California.

CONSTRUCTION LENDING AGENCY 20. I hereby affirm that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civ. C.).

21. I certify that I have read this application and state that the above information is correct. I agree to comply with all city and county ordinances and state laws relating to building construction, and hereby authorize representatives of this city to enter upon the above-mentioned property for inspection purposes.

I realize that this permit is an application for inspection, that it does not approve or authorize the work specified herein, that it does not authorize or permit any violation or failure to comply with any applicable law, that neither the city of Los Angeles nor any board, department, officer or employee thereof make any warranty or shall be responsible for the performance or results of any work described herein or the condition of the property or soil upon which such work is performed. (See Sec. 91.0202 LAMC)

Environmental Questionnaire

1. EXECUTIVE SUMMARY

Xarax Environmental & Engineering Solutions, Inc. (“Xarax”) has completed a Phase I Environmental Site Assessment (ESA) of the commercial property located at 3377 West Olympic Boulevard (also known as 974, 980, and 986 South Gramercy Drive), Los Angeles, California 90019. The Assessment was performed in general accordance with the scope and limitations of the American Society for Testing and Materials (ASTM) Standard E1527-13 and United States Small Business Administration (SBA), to comply with the contract between Xarax and Mr. Ara Kourouyan of CTBC Bank Corp. (USA) (“Client”) dated July 8, 2014. Any exceptions to, or deletions from, the ASTM E1527-13 standard of practice are described in Section 2.4 of this report.

The subject property consists of three (3) contiguous parcels of land approximately 0.803 acres in combined area and improved with one (1) commercial building. The building is a single-story concrete masonry unit (CMU) structure with a composition roof. Concrete-paved walkways line the perimeter of the building and asphalt-paved parking lot occupy the remaining portions of the property. Currently, the subject property is occupied by U2 Korean BBQ restaurant.

According to Xarax’s historical review, the obvious first developed use of the subject property dates back to 1921, when it was partially occupied by three (3) dwellings and three (3) detached garages (974, 980, and 986 South Gramercy Drive). The obvious first developed use of the 3377 West Olympic Boulevard parcel dates back to 1948, when it was occupied by a gas station. In 1966, the gas station was demolished and four (4) underground storage tanks (USTs) were removed. The current improvements on the subject property were constructed in 1967. The subject property has been utilized for retail/restaurant purposes from 1967 to present.

The vicinity of the subject property can be described as a mixture of residential and commercial/retail developments. Current use of adjoining property includes residential development to the north; commercial development (auto repair shop) followed by St. Andrews Place to the east; Olympic Boulevard followed by commercial development (a bank and parking lot) to the south; and Gramercy Drive followed by commercial development (hotel) to the west.

1.1 PHASE I ESA

In accordance with ASTM Standard E1527-13, this Phase I Environmental Site Assessment included reconnaissance of the subject property and adjoining properties, interviews, and review of historical records and regulatory databases in an effort to identify evidence of recognized environmental conditions that may impact the property. This assessment has revealed no evidence of recognized environmental conditions in connection with the property, except for the following:

ON-SITE CONDITIONS

Recognized Environmental Conditions

- None

Historical Recognized Environmental Conditions

- The subject property was utilized as a gas station from at least 1948 to 1966. According to a Preliminary Site Characterization Report issued by Western Environmental Engineers Company (WEECO) and dated December 24, 1996, six (6) soil borings were advanced in the area of the former gas station and eighteen (18) soil samples were collected and analyzed for Total Petroleum Hydrocarbons (TPH), Volatile Organic Compounds (VOC) (BTEX), and Methyl Tertiary Butyl Ether (MTBE). The reasoning for this investigation was due to the former gas station operations and the four (4) USTs that were removed from the subject property in June of 1966. Upon laboratory analysis of the soil samples, all soil samples were determined to be ND (none detected) for any of the constituents tested. Based on those results, the site was considered clean, in accordance with the California Water Resources Control Board "Maximum Soil Screening Levels for TPH and BTEX above Drinking Water Aquifers." The report concluded "based on these analytical results, no further subsurface investigation is necessary for the site." Based on information reviewed during this assessment, this does not appear to constitute a historical recognized environmental condition (HREC) with reference to onsite activities on the subject property.

OFF-SITE CONDITIONS

Recognized Environmental Conditions

- None

Historical Recognized Environmental Conditions

- None

DE MINIMIS ENVIRONMENTAL CONDITIONS

- None

BUSINESS ENVIRONMENTAL RISKS (BERs)

- None

VAPOR INTRUSION CONDITIONS / POTENTIAL VAPOR INTRUSION CONDITIONS (VIC / pVIC)

- Xarax has performed a search distance test for Vapor Intrusion analysis in conformance with the scope and limitations of the Standard Practice E 2600-10 on

property located at 3377 West Olympic Boulevard, Los Angeles, California 90019. The search distance test involves a review of the regulatory database report and available historical records to make a determination if any *known or suspect potentially contaminated* properties exist within the Area of Concern (AOC). High risk sites are typically current and former gas stations, former and current dry cleaners, manufactured gas plants, and industrial sites (Brownfields). The AOC is defined as any up gradient sites within the ASTM 1527-13 standard search distances and any cross or down gradient sites within 1/3 mile for solvents and petroleum products. In the professional opinion of Xarax, an appropriate level of assessment has been conducted consistent with good commercial and customary practice in an effort to minimize liability, and no evidence or indication of potential vapor intrusion conditions (pVIC) or vapor intrusion conditions (VIC) has been revealed and vapor intrusion is unlikely to be an issue of concern in connection with existing or planned structures on the subject property.

1.2 RECOMMENDATIONS

Based on investigation of the property for evidence of recognized environmental conditions and other environmental issues, Xarax offers the following recommendations.

- No further environmental investigations appear warranted at this time.

1.3 CONFLICT CERTIFICATION

Xarax has no present or contemplated future ownership interest or financial interest in the real estate that is the subject of this Environmental Assessment Report; and Xarax has no personal interest with respect to the subject matter of the Environmental Assessment Report or the parties involved and Xarax has no relationship with the property or the owners thereof which would prevent an independent analysis of the environmental or other conditions of the property.

This summary does not contain all the information that is found in the full report. The report should be read in its entirety to obtain a more complete understanding of the information provided, and to aid in any decisions made or actions taken based on this information.

2. INTRODUCTION

2.1 PURPOSE AND SCOPE

This Phase I Environmental Site Assessment (ESA) was performed to search for evidence of recognized environmental conditions that may have an adverse environmental impact upon the property. The assessment included records review, interviews, and reconnaissance to evaluate whether such conditions exist in connection with the property. The protocol utilized for this Phase I ESA was in general accordance with the requirements of ASTM Standard E 1527-13 as specified in the assessment contract. This report includes documentation to support the analysis, opinions and conclusions as presented.

2.2 SPECIAL TERMS AND CONDITIONS

AUTHORIZATION

Authorization to perform this assessment was given on July 8, 2014, by Mr. Ara Kourouyan of CTBC Bank Corp. (USA).

PROPERTY ACCESS

Mr. In Chun Lee of U2 Korean BBQ provided site access and relevant property information. Xarax inspected all readily accessible and observable areas of the property.

USE BY THIRD PARTIES

This report was prepared pursuant to the contract between Xarax and CTBC Bank Corp. (USA). That contractual relationship included an exchange of information about the property that was unique and between Xarax and its client and serves as the basis upon which this report was prepared. Because of the importance of the communication between Xarax and its client, reliance or any use of this report by anyone other than CTBC Bank Corp. (USA) and United States Small Business Administration (SBA), for whom it was prepared, is prohibited and therefore not foreseeable to Xarax.

Reliance or use by any such third party without explicit authorization in the report does not make said third party a third party beneficiary to Xarax's contract with CTBC Bank Corp. (USA). Any such unauthorized reliance on or use of this report, including any of its information or conclusions, will be at the third party's risk. For the same reasons, no warranties or representations, expressed or implied in this report, are made to any such third party.

Third party reliance letters may be issued on request and upon payment of the, then current fee for such letters. All third parties relying on Xarax's reports, by such reliance, agree to be bound by the proposal and Xarax's General Conditions. No reliance by any party is permitted without such agreement, regardless of the content of the reliance letter itself.

2.3 METHODOLOGY AND RESOURCES

RECONNAISSANCE

Xarax conducted a ground reconnaissance of the subject property on July 11, 2014. The ground reconnaissance consisted of observing the periphery of the property and viewing the site from accessible adjacent public thoroughfares. Interior portions of the property were systematically traversed to provide an overlapping field of view, wherever possible. The periphery of structures, where present on the property, were observed along with interior accessible common areas and a representative number of units in each building. Visual reconnaissance of adjoining properties was limited to areas and facilities that were readily observable from the subject property or from public access areas. Photographs were taken to document the features observed during the reconnaissance and environmental conditions of concern, where possible. Site photographs are included in Appendix D.

INTERVIEWS

Interviews were conducted with persons as noted in the following table. Pertinent information reported by the interviewed parties is discussed in appropriate sections of the report.

Name	Function	Employer	Date	Contact
Mr. Ara Kourouyan	Client	CTBC Bank Corp. (USA)	7/8/14	Email
Mr. In Chun Lee	Subject Property Occupant	U2 Korean BBQ	7/8/14- 7/11/14	Telephone & In Person
Name Not Provided	File Clerk	City of Los Angeles Building & Safety Dept.	7/11/14	In Person
Name Not Provided	File Clerk	City of Los Angeles Planning / Zoning Dept.	7/11/14	In Person
Name Not Provided	File Clerk	City of Los Angeles Fire Department (UST/CUPA Division)	7/8/14 & 7/22/14	Facsimile & Telephone
Name Not Provided	File Clerk	City of Los Angeles Fire Department (HazMat Division)	7/8/14 & 7/18/14	Facsimile
Name Not Provided	Periodicals File Clerk	Los Angeles Public Library	7/14/14	In Person

Ms. Laura Gallardo	File Review Unit	Los Angeles Regional Water Quality Control Board (RWQCB)	7/8/14 & 7/21/14	Email & Telephone
Name Not Provided	File Clerk	State of California Dept. of Conservation Division of Oil & Gas	7/14/14	In Person

ENVIRONMENTAL REGULATORY DATABASE INFORMATION

Information for the standard federal and state environmental record sources specified in ASTM Standard E 1527-13 § 7.2.1.1 was obtained through BBL Environmental Information (“BBL”). The database information was reviewed to help identify evidence of recognized environmental conditions in connection with the property. Unmappable (orphan) sites listed in the database with insufficient address or geocoding information to be mapped were evaluated for potential location within the approximate minimum search distance (AMSD). Copies of the BBL research data and a description of the databases are included in Appendix A of this report.

HISTORICAL USE INFORMATION

A history of the previous uses of the property, and properties in the surrounding area to the extent that this information was revealed in the course of researching the subject property, was developed consistent with practices specified in ASTM Standard E 1527-13 § 7.3. From the standard historical sources specified in the ASTM practice Xarax reviewed those sources listed below. Copies of representative historical source information are provided in applicable Appendices.

- Aerial photographs dated 1948, 1952, 1964, 1968, 1980, 1985, and 1994 obtained from BBL.
- Xarax performed a search for Sanborn (Fire Insurance) maps for the years 1867 to 1994 at the Los Angeles Central Public Library (Library of Congress Collection); map coverage for years 1921, 1950, and 1955 was available for the subject property area.
- Historical United States Geological Survey (USGS) 7.5 minute topographic maps titled Hollywood, California Quadrangle, dated 1994.
- Historic local street directories for years 1949, 1956, 1961, 1965, 1972, 1975, 1980, 1985, 1991, 1994, 1998, 2000, 2002, 2004, 2006, 2008, 2010, 2012, and 2013 published by Haine’s & Digital Directory Assistance obtained from BBL.

Based on the historical sources reviewed, the obvious first developed use of the subject property dates back to 1921, when it was partially occupied by three (3) dwellings and three (3) detached garages (974, 980, and 986 South Gramercy Drive). The obvious first developed use of the 3377 West Olympic Boulevard parcel dates back to 1948, when it was occupied by a gas station. In 1966, the gas station was demolished and four (4) underground storage tanks (USTs) were removed. The current improvements on the subject property were constructed in 1967. The subject property has been utilized for retail/restaurant purposes from 1967 to present. Historical information sources researched in this assessment allowed uses of the property to be traced from the present back to 1921. This meets the 1940-minimum, and/or obvious first developed use, research limit per ASTM Standard E 1527-13 § 7.3.2.

INFORMATION REPORTED BY USER

Pursuant to ASTM Standard E 1527-13 § 5.2 and § 5.3 Xarax requested that the client provide information on any environmental liens recorded against the property, communicate any specialized knowledge or experience that is material to recognized environmental conditions in connection with the property, and identify key site managers for interview purposes. Information that was reported has been incorporated into and is discussed in appropriate sections of the report. Documents provided by the client for our use in preparation of this report, if any, are presented in applicable Appendices.

ASTM NON-SCOPE AND OTHER RESOURCES

Methodology and protocols used for evaluation of conditions and issues beyond the scope of ASTM Standard E 1527-13, if any, are described in Section 7 of this report. Other resources and information accessed for purposes of this site assessment are discussed in appropriate sections of the report.

2.4 LIMITATIONS AND EXCEPTIONS OF ASSESSMENT

Along with all of the limitations set forth in various sections of the ASTM Standard E 1527-13 protocol, the accuracy and completeness of this report is necessarily limited by the following:

- Access Limitations – None
- Physical Obstructions to Observations – None
- Outstanding Information Requests – On July 8, 2014, Xarax requested records from the Los Angeles City Fire Department Underground Storage Tanks Unit (LAFD) for the subject property. These records may contain evidence indicating current and/or historical hazardous materials usage, storage or releases, as well as the presence of USTs. To date, Xarax has not received a response to its written request for information relating to the subject property.
- Historical Data Source Failure – None
- Other – None

3. PROPERTY DESCRIPTION AND PHYSICAL SETTING

3.1 LOCATION

The subject property is located at 3377 West Olympic Boulevard, Los Angeles County, Los Angeles, California 90019. Historically, the subject property address has also included 974, 980, and 986 South Gramercy Drive. The Los Angeles County Tax Assessor's Parcel Number (APN) for the subject property is 5081-033-011, 5081-033-014, and 5081-033-022.

The subject site's location is identified on the site vicinity map provided in Appendix C.

3.2 PROPERTY VICINITY CHARACTERISTICS

The vicinity of the subject property can be described as a mixture of residential and commercial/retail developments. Current use of adjoining property includes residential development to the north; commercial development (auto repair shop) followed by St. Andrews Place to the east; Olympic Boulevard followed by commercial development (a bank and parking lot) to the south; and Gramercy Drive followed by commercial development (hotel) to the west.

A site vicinity sketch is included in Appendix C.

3.3 DESCRIPTION OF PROPERTY AND IMPROVEMENTS

The subject property consists of three (3) contiguous parcels of land approximately 0.803 acres in combined area and improved with one (1) commercial building. The building is a single-story concrete masonry unit (CMU) structure with a composition roof. Concrete-paved walkways line the perimeter of the building and asphalt-paved parking lot occupy the remaining portions of the property. Currently, the subject property is occupied by U2 Korean BBQ restaurant.

Photographs showing prominent features of the site are provided in Appendix D.

UTILITIES

Utility systems identified at the property, as specified in ASTM Standard E 1527-13 § 8.4.1 and § 8.4.3 are as follows:

- The heating ventilating and air conditioning (HVAC) system on the subject property consist of roof-mounted units.
- Local municipal sources provide potable water & sewage disposal service to the property.
- Local utility companies provide electric & natural gas service to the property.

3.4 PHYSICAL SETTING

TOPOGRAPHIC MAP REVIEW

A current United States Geological Survey (USGS) 7.5 minute topographic map (or equivalent) showing the area where the property is located was obtained and reviewed as specified in ASTM Standard E 1527-13 § 7.2.3. The 1994 USGS Hollywood, California Quadrangle map was reviewed. According to the contour lines on the topographic map, the property is located approximately 220 feet above mean sea level. The contour lines in the area of the property indicate the area slopes towards the west. No water bodies are evident on or adjacent to the property. The property does not appear on the map as developed.

SUPPLEMENTAL PHYSICAL SETTING INFORMATION

The following discretionary physical setting sources pursuant to ASTM Standard E 1527-13 § 7.2.3, were obtained and reviewed to provide supplemental information regarding geology, soils, and hydrogeology in the vicinity of the property.

SOILS

Surficial soil at the subject property consists of unconsolidated and semi-consolidated deposits of sand and gravel. Site-specific soils reports were not encountered during Xarax's investigation.

GEOLOGY

The subject property is located in a region that is primarily alluvium, lake, playa, and terrace deposits; unconsolidated and semi-consolidated. Mostly nonmarine, but includes marine deposits near the coast. Thickness of the Quaternary alluvium (0 to 1.6 million years old) in the general site vicinity is approximately 2,300 feet. The base of the alluvium lies on non-water bearing, undifferentiated Tertiary rocks (1.6 million to 66.4 million years old).

HYDROGEOLOGY

Information obtained from the Los Angeles County Public Works Department, Hydraulics Section, indicates that the first-encountered semi-perched groundwater may exist in the subject property vicinity at shallow depths of approximately 13-20 feet below ground surface. Local flow directions and water levels are influenced by changes in pumping and recharge.

Groundwater beneath the subject property is likely to mirror surface topography and flow towards the west.

4. PROPERTY USAGE

4.1 CURRENT USE OF THE PROPERTY

Current use of the property as determined through observation, interviews and records review is described below.

The subject property consists of three (3) contiguous parcels of land approximately 0.803 acres in combined area and improved with one (1) commercial building. The building is a single-story concrete masonry unit (CMU) structure with a composition roof. Concrete-paved walkways line the perimeter of the building and asphalt-paved parking lot occupy the remaining portions of the property. Currently, the subject property is occupied by U2 Korean BBQ restaurant.

The User should refer to Section 6 of this report for additional site reconnaissance details.

4.2 PAST USES OF THE PROPERTY

To the extent that indications of past uses of the property were identified through historical records review, reconnaissance observation, interviews, or through client provided information, they are identified below.

Year	Property Use	Source
<i>Subject Property</i>		
1921	The subject property is depicted as vacant land at 3377 W. Olympic Blvd. and occupied by 3 dwellings and detached garages at 974, 980, and 986 S. Gramercy Drive.	Sanborn Map
1948	The subject property appears to consist of 3 dwelling-type structures fronting Gramercy Drive and 1 gas station-type structure fronting Olympic Boulevard.	Aerial Photograph
1949	The subject property is listed as "Trojan Service."	City Directory
1950	The subject property is depicted as a gas station at 3377 W. Olympic Blvd. and occupied by 3 dwellings and detached garages at 974, 980, and 986 S. Gramercy Drive.	Sanborn Map
1952	The subject property appears to consist of 3 dwelling-type structures fronting Gramercy Drive and 1 gas station-type structure fronting Olympic Boulevard.	Aerial Photograph
1955	The subject property is depicted as a gas station at 3377 W. Olympic Blvd. and 3 dwellings and detached garages at 974, 980, and 986 S. Gramercy Drive.	Sanborn Map

Year	Property Use	Source
Subject Property		
1956	No listings.	City Directory
1961	The subject property is listed as "Vielman's Bodyshop."	City Directory
1961	Building permit for a roof sign for existing gas station on the subject property (3377 W. Olympic Blvd.).	Building/Agency Records
1964	The subject property appears to consist of 3 dwelling-type structures fronting Gramercy Drive and 1 gas station-type structure fronting Olympic Boulevard.	Aerial Photograph
1965	The subject property is listed as "Ray's Auto Repair."	City Directory
1967	Building permit for construction of a new 92'x25' restaurant building on the subject property (3377 W. Olympic).	Building/Agency Records
1968	The subject property appears to consist of 3 dwelling-type structures fronting Gramercy Drive and the current restaurant structure fronting Olympic Boulevard.	Aerial Photograph
1969	Building permit for a roof sign for existing restaurant on the subject property (3377 W. Olympic).	Building/Agency Records
1970	Certificate of Occupancy for a 92'x25' coffee shop and parking (3377 W. Olympic).	Building/Agency Records
1972	No listings.	City Directory
1975	The subject property is listed as "Dragon Palace."	City Directory
1980	The subject property is listed as "Dragon Palace."	City Directory
1980	The subject property appears to consist of 3 dwelling-type structures fronting Gramercy Drive and the current restaurant structure fronting Olympic Boulevard.	Aerial Photograph
1985	The subject property is listed as "RC Satellite Electronics."	City Directory
1985	The subject property appears to consist of 3 dwelling-type structures fronting Gramercy Drive and the current restaurant structure fronting Olympic Boulevard.	Aerial Photograph
1991	No listings.	City Directory
1993	Certificate of Occupancy to change use from restaurant to retail (3377 W. Olympic).	Building/Agency Records
1994	No listings.	City Directory
1994	The subject property appears as it does today.	Aerial Photograph
1998	No listings.	City Directory
2000	No listings.	City Directory
2002	No listings.	City Directory

Year	Property Use	Source
Subject Property		
2004	The subject property is listed as "Manna Korean BBQ."	City Directory
2006	The subject property is listed as "Manna Korean BBQ."	City Directory
2008	The subject property is listed as "Manna Korean BBQ."	City Directory
2010	The subject property is listed as "Manna Korean BBQ."	City Directory
2012	The subject property is listed as "Manna Korean BBQ Meat."	City Directory
2013	The subject property is listed as "Manna Korean BBQ Meat."	City Directory
2014	The subject property consists of three (3) contiguous parcels of land approximately 0.803 acres in combined area and improved with one (1) commercial building. The building is a single-story concrete masonry unit (CMU) structure with a composition roof. Concrete-paved walkways line the perimeter of the building and asphalt-paved parking lot occupy the remaining portions of the property. Currently, the subject property is occupied by U2 Korean BBQ restaurant.	Site Reconnaissance

The historical information developed and reviewed for the subject property revealed potential evidence of recognized environmental conditions in connection with the subject property. Please see Section 6.0.

4.3 ENVIRONMENTAL LIENS

No knowledge of environmental liens recorded against the property was reported to Xarax.

4.4 CURRENT AND PAST USES OF ADJOINING PROPERTIES

To the extent that indications of current and past uses of adjoining properties were identified through reconnaissance observation, interviews, records review or through client provided information, they are described below. Locations of adjoining properties discussed can be found on the site vicinity sketch in Appendix C.

Year	Property Use	Source
Adjacent Properties		
1921	The adjacent properties include residential to the north, Olympic Blvd. followed by vacant lot to the south, residences to the east, and Gramercy Dr. followed by residences to the west.	Sanborn Map
1948-1952	The adjacent properties appear to be residential to the north, Olympic Blvd. followed by residential to the south, retail to the east, and Gramercy Dr. followed by residences to the west.	Aerial Photographs
1950	The adjacent properties include residential to the north, Olympic Blvd. followed by residential to the south, retail to the east, and Gramercy Dr. followed by retail to the west.	Sanborn Map
1955	The adjacent properties include residential to the north, Olympic Blvd. followed by residential to the south, retail to the east, and Gramercy Dr. followed by retail to the west.	Sanborn Map
1964-1968	The adjacent properties appear to be residential to the north, Olympic Blvd. followed by retail to the south, retail to the east, and Gramercy Dr. followed by residences to the west.	Aerial Photographs
1980-1994	The adjacent properties appear to be residential to the north, Olympic Blvd. followed by retail to the south, retail to the east, and Gramercy Dr. followed by retail to the west.	Aerial Photographs
2014	The vicinity of the subject property can be described as a mixture of residential and commercial/retail developments. Current use of adjoining property includes residential development to the north; commercial development (auto repair shop) followed by St. Andrews Place to the east; Olympic Boulevard followed by commercial development (a bank and parking lot) to the south; and Gramercy Drive followed by commercial development (hotel) to the west.	Site Reconnaissance

The historical information developed and reviewed for adjoining properties revealed no evidence of recognized environmental conditions in connection with the subject property vicinity.

The User should refer to Section 6 of this report for additional site reconnaissance information on the current use of adjoining property.

5. ENVIRONMENTAL REGULATORY RECORDS REVIEW

Xarax contracted BBL Environmental Information (“BBL”) to perform a regulatory database review for the subject property as well as surrounding properties located up to one mile away from the subject property. The number of listed sites identified within the approximate minimum Search distance (AMSD) from the Federal and state environmental records database listings specified in ASTM Standard E 1527-13 § 7.2.1.1 are summarized in the following tables.

Copies of the BBL research data are included in Appendix A of this report.

NPL Sites

The National Priorities List (NPL), also known as the Superfund List, is an EPA listing of uncontrolled or abandoned hazardous waste sites. These sites are targeted for possible long-term remedial action under the Superfund Act.

**TABLE 1
NPL Sites**

Facility Name / Address	Proximity	Description / Status
None	N/A	N/A

There are no NPL sites listed within a **1.0-mile radius** of the subject property. The subject property itself is not on this list.

CERCLIS Sites:

The Comprehensive Environmental Response, Compensation, and Liability Information System (CERCLIS) Database is a comprehensive listing of known or suspected uncontrolled or abandoned hazardous waste sites. These sites have either been investigated, or are currently under investigation by the federal EPA for the release or threatened release of hazardous substances. Once a site is placed in CERCLIS, it may be subjected to several levels of review and evaluation and ultimately placed on the National Priorities List (NPL).

**TABLE 2
CERCLIS Sites**

Facility Name / Address	Proximity	Description / Status
None	N/A	N/A

There are no CERCLIS sites listed within a **0.5-mile radius** of the subject property. The subject property itself is not on this list.

TSDF / SWIS (SWF) / SWAT Sites:

The Treatment, Storage, and Disposal Facility (TSDF) database contains information pertaining to facilities which either treat, store, or dispose of hazardous waste. The Solid Waste Information System (SWIS) database contains information pertaining to all permitted active and inactive solid waste landfills and processing facilities located within the State of California. The Solid Waste Assessment Test (SWAT) database contains information pertaining to solid waste landfills from which there is a known migration of hazardous waste.

**TABLE 3
TSDF / SWIS (SWF) / SWAT Sites**

Facility Name / Address	Proximity	Description / Status
None	N/A	N/A

There are no TSDF, SWAT, and/or SWIS/SWF sites listed within a **1.0-mile radius** of the subject property. The subject property itself is not on any of these lists.

CALSITES (HWS) Sites (Active):

The California Calsites List contains information pertaining to State Hazardous Waste Sites (HWS). Sites formerly listed in the Annual Workplan (AWP), the Abandoned Sites Project Information System (ASPIS), and the Bond Expenditure Plan (BEP) are now included in the CALSITES database.

**TABLE 4
CALSITES (HWS) Sites**

Facility Name / Address	Proximity	Description / Status
None	N/A	N/A

There are no active CALSITES facilities listed within a **1.0-mile radius** of the subject property. The subject property itself is not on this list.

LUST Sites:

The California Leaking Underground Storage Tank (LUST) List contains information pertaining to reported leaking underground storage tanks within the State of California. BBL has obtained the LUST information from the State EPA and the Regional Water Quality Control Board (RWQCB).

**TABLE 5
LUST Sites**

Facility Name / Address	Proximity	Description / Status
ROTEX DEV./TRANSAM CONS 3411 W OLYMPIC BLVD. LOS ANGELES	0.01 miles Southwest (down-gradient)	Status: CLSD – Case Closed Only the soil is impacted.

There are nine (9) LUST sites listed within a **0.5-mile radius** of the subject property. The LUST site closest to the subject property is discussed above. These sites are not expected to present a recognized environmental condition in connection with the subject property at this time due to distance, status (responsible parties identified, case closed, etc.) and/or hydrologic setting with respect to the subject property. The subject property itself is not on this list.

UST/RST & HISTORICAL UST/RST Sites:

The California Underground Storage Tank (UST) List is a comprehensive listing of all registered underground storage tanks within the State of California.

**TABLE 6
UST/RST Sites**

Facility Name / Address	Proximity	Description / Status
C & P AUTO REPAIR 3411 W OLYMPIC BLVD. LOS ANGELES	0.01 miles Southwest (down-gradient)	No other info provided

There are thirteen (13) UST (RST) sites listed within a **0.25-mile radius** of the subject property. These sites are not expected to present a recognized environmental condition in connection with the subject property at this time due to distance, status (responsible parties identified, registered sites, etc.) and/or hydrologic setting with respect to the subject property. The subject property itself is not on this list.

WDS Sites:

The California Waste Discharge System (WDS) report contains information pertaining to all active and regulated facilities that have been issued waste discharge permits for the release of waste water or hazardous waste into either an injection well or surface water.

**TABLE 7
WDS Sites**

Facility Name / Address	Proximity	Description / Status
None	N/A	N/A

The subject property and/or adjoining properties are not on this list.

CORTESE Sites:

The California Cortese List, also known as the Hazardous Waste and Substances Sites List, contains summary information pertaining to contaminated sites in the State of California. Contaminated wells, leaking underground storage tanks, and sanitary landfills are among the facilities contained on the Cortese List.

**TABLE 8
CORTESE Sites**

Facility Name / Address	Proximity	Description / Status
None	N/A	N/A

There are no CORTESE sites listed within a **0.5-mile radius** of the subject property. The subject property itself is not on this list.

ERNS Sites

The Emergency Response Notification System (ERNS) is a national computer database system that is used to store information on the sudden and/or accidental release of hazardous substances, including petroleum, into the environment. The ERNS reporting system contains preliminary information on specific releases, including the spill location, the substance released, and the responsible party. Please note that information in the ERNS report pertains only to past releases.

**TABLE 9
ERNS Sites**

Discharger Name / Address	Proximity	Description / Status
None	N/A	N/A

The subject property and/or adjoining properties are not on this list.

SARA (TRI) Sites:

The Toxic Release Inventory (TRI) report contains information on the industrial release and/or transfer of toxic chemicals as reportable under Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA Title III).

**TABLE 10
TRI Sites**

Facility Name / Address	Proximity	Description / Status
None	N/A	N/A

The subject property and/or adjoining properties are not on this list.

HWIS (HAZNET) Sites:

The California Hazardous Waste Information System (HWIS) contains summary information pertaining to facilities that are required to report their hazardous waste activities with the California EPA under the Resource Conservation and Recovery Act (RCRA).

**TABLE 11
HWIS (HAZNET) Sites**

Facility Name / Address	Proximity	Description / Status
None	N/A	N/A

The subject property and/or adjoining properties are not on this list.

RCRA / RCRIS Sites:

The RCRIS databases contain information pertaining to facilities which either generate between 100 kg and 1000 kg of hazardous waste per month (Small Quantity Generators), or more than 1000 kg of hazardous waste per month (Large Quantity Generators), or meet other applicable requirements of the Resource Conservation and Recovery Act (RCRA).

**TABLE 12
RCRA / RCRIS Sites**

Facility Name / Address	Proximity	Description / Status
None	N/A	N/A

The subject property and/or adjoining properties are not on this list.

TOXIC PITS:

TOXIC PITS identifies sites suspected of containing hazardous substances where cleanup has not yet been completed. The source of this database is the State Water Resources Control Board.

**TABLE 13
TOXIC PITS**

Facility Name / Address	Proximity	Description / Status
None	N/A	N/A

There are no Toxic Pits listed within a **1.0-mile radius** of the subject property. The subject property itself is not on this list.

6. RECONNAISSANCE FINDINGS

6.1 PROPERTY RECONNAISSANCE FINDINGS

A summary of uses and conditions consistent with ASTM Standard E 1527-13 § 8.4 indicating the likelihood of recognized environmental conditions in connection with the property is provided below. For each of the uses or conditions identified on the property, detailed information is discussed following the summary along with an opinion about the significance of the listing to the analysis of recognized environmental conditions in connection with the subject property.

- The subject property was utilized as a gas station from at least 1948 to 1966. According to a Preliminary Site Characterization Report issued by Western Environmental Engineers Company (WEECO) and dated December 24, 1996, six (6) soil borings were advanced in the area of the former gas station and eighteen (18) soil samples were collected and analyzed for Total Petroleum Hydrocarbons (TPH), Volatile Organic Compounds (VOC) (BTEX), and Methyl Tertiary Butyl Ether (MTBE). The reasoning for this investigation was due to the former gas station operations and the four (4) USTs that were removed from the subject property in June of 1966. Upon laboratory analysis of the soil samples, all soil samples were determined to be ND (none detected) for any of the constituents tested. Based on those results, the site was considered clean, in accordance with the California Water Resources Control Board "Maximum Soil Screening Levels for TPH and BTEX above Drinking Water Aquifers." The report concluded "based

on these analytical results, no further subsurface investigation is necessary for the site.” Based on information reviewed during this assessment, this does not appear to constitute a historical recognized environmental condition (HREC) with reference to onsite activities on the subject property.

6.2 ADJOINING PROPERTY RECONNAISSANCE FINDINGS

A summary of uses and conditions identified on adjoining properties consistent with ASTM Standard E 1527-13 § 8.4 indicating the likelihood of recognized environmental conditions in connection with the subject property is provided below. For each of the uses or conditions identified on adjoining properties, detailed information is discussed following the summary along with an opinion about the significance of the listing to the analysis of recognized environmental conditions in connection with the subject property.

- No visual and/or documented evidence of recognized environmental conditions associated with off-site activities were encountered during this assessment.

7. ADDITIONAL SERVICES

Additional assessment activities, beyond the scope of ASTM E 1527-13, were not performed in connection with this Phase I ESA.

8. SUMMARY AND CONCLUSIONS

8.1 PHASE I ENVIRONMENTAL SITE ASSESSMENT

Xarax has performed a Phase I Environmental Site Assessment in general conformance with the scope and limitations of the ASTM Standard E 1527-13 protocol of the commercial property located at 3377 West Olympic Boulevard, Los Angeles, California 90019. Exceptions to or deletions from this protocol are discussed earlier in this report. This assessment has revealed no evidence of recognized environmental conditions in connection with the property, except for the following:

ON-SITE CONDITIONS

Recognized Environmental Conditions

- None

Historical Recognized Environmental Conditions

- The subject property was utilized as a gas station from at least 1948 to 1966. According to a Preliminary Site Characterization Report issued by Western Environmental Engineers Company (WEECO) and dated December 24, 1996, six (6) soil borings were advanced in the area of the former gas station and eighteen (18) soil samples were collected and analyzed for Total Petroleum Hydrocarbons (TPH), Volatile Organic Compounds (VOC) (BTEX), and Methyl Tertiary Butyl Ether (MTBE). The reasoning for this investigation was due to the former gas station operations and the four (4) USTs that were removed from the subject property in June of 1966. Upon laboratory analysis of the soil samples, all soil samples were determined to be ND (none detected) for any of the constituents tested. Based on those results, the site was considered clean, in accordance with the California Water Resources Control Board "Maximum Soil Screening Levels for TPH and BTEX above Drinking Water Aquifers." The report concluded "based on these analytical results, no further subsurface investigation is necessary for the site." Based on information reviewed during this assessment, this does not appear to constitute a historical recognized environmental condition (HREC) with reference to onsite activities on the subject property.

OFF-SITE CONDITIONS

Recognized Environmental Conditions

- None

Historical Recognized Environmental Conditions

- None

DE MINIMIS ENVIRONMENTAL CONDITIONS

- None

BUSINESS ENVIRONMENTAL RISKS (BERs)

- None

VAPOR INTRUSION CONDITIONS / POTENTIAL VAPOR INTRUSION CONDITIONS (VIC / pVIC)

- Xarax has performed a search distance test for Vapor Intrusion analysis in conformance with the scope and limitations of the Standard Practice E 2600-10 on property located at 3377 West Olympic Boulevard, Los Angeles, California 90019. The search distance test involves a review of the regulatory database report and available historical records to make a determination if any *known or suspect potentially contaminated* properties exist within the Area of Concern (AOC). High risk sites are typically current and former gas stations, former and current dry cleaners, manufactured gas plants, and industrial sites (Brownfields). The AOC is defined as any up gradient sites within the ASTM 1527-13 standard search distances and any cross or down gradient sites within 1/3 mile for solvents and petroleum products. In the professional opinion of Xarax, an appropriate level of assessment has been conducted consistent with good commercial and customary practice in an effort to minimize liability, and no evidence or indication of potential vapor intrusion conditions (pVIC) or vapor intrusion conditions (VIC) has been revealed and vapor intrusion is unlikely to be an issue of concern in connection with existing or planned structures on the subject property.

9. RECOMMENDATION

Based on investigation of the property for evidence of recognized environmental conditions and other environmental issues, Xarax offers the following recommendations.

- No further environmental investigations appear warranted at this time.

9.1 CONFLICT CERTIFICATION

Xarax has no present or contemplated future ownership interest or financial interest in the real estate that is the subject of this Environmental Assessment Report; and Xarax has no personal interest with respect to the subject matter of the Environmental Assessment Report or the parties involved and Xarax has no relationship with the property or the owners thereof which would prevent an independent analysis of the environmental or other conditions of the property.

Respectfully submitted,
Xarax Environmental & Engineering Solutions, Inc.

Frederick F. Mesbah, CAC, CHMM, REA
Principal

10. WARRANTY

PHASE I ENVIRONMENTAL SITE ASSESSMENT

Xarax warrants that the findings and conclusions contained herein were accomplished in accordance with the methodologies set forth in the USEPA's AAI and ASTM Standard E 1527-13 protocol. These methodologies are described by the standard as representing good commercial and customary practice for conducting an environmental Site Assessment of a parcel of property for the purpose of identifying recognized environmental conditions. However, these findings and conclusions contain all of the limitations inherent in these methodologies which are referred to in the protocol and some of which are more specifically set forth below.

UNIDENTIFIABLE CONDITIONS

There is a possibility that even with proper application of these methodologies, conditions may exist on the property that could not be identified within the scope of the assessment or that were not reasonable identifiable from the available information. Xarax believes that the information obtained from the records review and the interviews concerning the property is reliable. However, Xarax cannot and does not warrant or guarantee that the information provided by these other sources is accurate or complete. The methodologies of this assessment are not intended to produce all inclusive or comprehensive results, but rather to provide the client with information regarding apparent suspicions of existing and potential adverse environmental conditions relating to the subject property.

No other warranties are implied or expressed.

07-08-2014

INTRODUCTION

This document, prepared in accordance with ASTM Standard E-1527-13 and 40 CFR 312.26; Reviews of Federal, State, Tribal, and local government records on 07-08-2014 at the request of XARAX ENVIRONMENTAL & ENGINEER, reports the findings of BBL's investigation of environmental concerns in the vicinity of 3377 W Olympic Blvd; 974 S. Gramercy Dr., Los Angeles CA.

A total of 109 records were identified, representing 75 separate sites. None of these records relates to the subject site itself.

The identified sites are grouped into two separate categories - sites with known environmental concerns (23) and sites which have just operating permits (52).

The report is divided into the following segments:

- **Historical Occupant Table** - An overview of occupants at the subject site and adjacent.
- **Overview Table** - An overview of all the identified records of concern summarized by distance and source.
- **Topographic Map** - of the surrounding area of the subject site.
- **Contour Map** - of the surrounding area of the subject site.
- **Present Aerial Photograph** - of the surrounding area of the subject site.
- **Summary** - listing of the sources investigated and identified records in order of distance to the subject property for each of the categories **Known Environmental Concerns** and **Operating Permits Only**.
- **Detailed Report** - listing of the sites with detailed status information.
- **Fire Insurance Map** review - describing the area of the subject site.

INTRODUCTION

BBL has used its best effort but makes no claims as to the completeness or accuracy of the referenced government sources or the completeness of the search. Our records are frequently updated but only as current as their publishing date and may not represent the entire field of known or potential hazardous waste or contaminated sites. To ensure complete coverage of the subject property and surrounding area, sites may be included in the list if there is any doubt as to the location because of discrepancies in map location, zip code, address, or other information in our sources. For additional information call 858 793-0641.

In accordance with ASTM E-1527-05, the following government sources have been searched for sites at the street address, within the distances of the subject location as listed below.

FEDERAL SOURCES

NPL National Priority List

EPA has prioritized sites with significant risk to human health and the environment. These sites receive remedial funding under the Comprehensive Environmental Response Conservation and Liability Act (CERCLA).

No listings within 1 mile radius of the subject site.

CERCLIS Comprehensive Environmental Response, Compensation, and Liability Information System

CERCLIS is a database used by the EPA to track activities conducted under the Comprehensive Environmental Response and Liability Act CERCLA (1980) and the amendment the Superfund Amendments and Reauthorization Act SARA (1986).

Sites to be included are identified primarily by the reporting requirements of hazardous substances Treatment, Storage and Disposal (TSD) facilities and releases larger than specific Reportable Quantities (RQ), established by EPA.

Using the National Oil and hazardous Substance Pollution Contingency Plan (National Contingency Plan) the EPA set priorities for cleanup.

The EPA rates National Contingency Plan sites according to a quantitative Hazard Ranking System (HRS) based on the potential health risk via any one or more pathways: groundwater, surface water, air, direct contact, and fire/explosion.

The EPA and state agencies seek to identify potentially responsible parties (PRP) and ultimately Responsible Parties (RP) who can be required to finance cleanup activities, either directly or through reimbursement of federal Superfund expenditures.

Any Institutional/Engineering controls issued under CERCLA are described in the status detail for each site. Sites delisted from the NPL list are included here.

No listings within half of a mile radius of the subject site.

NFRAP No Further Remedial Action Planned sites (CERCLIS)

COMMERCIAL PROPERTY

3377 W OLYMPIC BLVD; 974 S. GRAMERCY DR.
, LOS ANGELES

Page: 2

Date: 07-08-2014

Job: XARA3757-S

As of February 1995, CERCLIS sites designated 'No Further Remedial Action Planned' NFRAP have been removed from CERCLIS. NFRAP sites may be sites where, following an initial investigation, no contamination was found, contamination was removed quickly without the site being placed on the NPL, or the contamination was not serious enough to require Federal Superfund action or NPL consideration.

EPA has removed these NFRAP sites from CERCLIS to lift unintended barriers to the redevelopment of these properties. This policy change is part of EPA's Brownfields Redevelopment Program to help cities, states, private investors and affected citizens promote economic redevelopment of unproductive urban sites.

No listings within half of a mile radius of the subject site.

FEDFAC Federal Facilities

As part of the CERCLA program, federal facilities with known or suspected environmental problems, the Federal Facilities Hazardous Waste Compliance Docket is tracked separately to comply with a Federal Court order.

No listings within half of a mile radius of the subject site.

ERNS Emergency Response Notification System

The ERNS is a national computer database used to store information on unauthorized releases of oil and hazardous substances. The program is a cooperative effort of the Environmental Protection Agency, the Department of Transportation Research and Special Program Administration's John Volpe National Transportation System Center and the National Response Center.

There are primarily five Federal statutes that require release reporting the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) section 103; the Superfund Amendments and Reauthorization Act (SARA) Title III Section 304; the Clean Water Act of 1972(CWA) section 311(b)(3); and the Hazardous Material Transportation Act of 1974(HMTA section 1808(b).

This list has been researched within a quarter of a mile radius of the subject site.

APARTMENT BUILDING	817 S ST ANDREWS PL	.3 mile N	# 52 page 29
.	12TH ST & WESTERN AVE	.3 mile SE	# 64 page 30

HMIRS Hazardous Material Incident Report System

The Hazardous Material Report Incident Report Subsystem HMIRS of the Research and Special Programs Administration (RSPA) Hazardous Material Information System was established in 1971 to fulfill the requirements of the Federal hazardous material transportation law. Part 171 of Title 49, Code of Federal Regulations (49 CFR) contains the incident reporting requirements of carriers of hazardous materials. An unintentional release of hazardous materials meeting the criteria set forth in Section 171.16, 49 CFR, must be reported on DOT Form 5800.1. The data from the reports received are subsequently entered in the HAZMAT database.

No listings within the street address of the subject site.

TBA Targeted Brownfields Assessments

EPA's Targeted Brownfields Assessment (TBA) program is designed to help states, tribes, and municipalities—especially those without EPA Brownfields Assessment Pilots/Grants—minimize the uncertainties of contamination often associated with brownfields. Targeted Brownfields Assessments supplement and work with other efforts under EPA's Brownfields Program to promote the cleanup and redevelopment of brownfields. EPA's TBA assistance is available through two sources: directly from EPA through EPA Regional Brownfields offices under Subtitle A of the law, and from state or tribal voluntary response program offices receiving funding under Subtitle C of the law

No listings within half of a mile radius of the subject site.

SETS Site Enforcement Tracking System (SETS)

When expanding Superfund monies at a CERCLA (Comprehensive Environmental Response, Compensation and Liability Act) Site, EPA must conduct a search to identify parties with potential financial responsibility for remediation of uncontrolled hazardous waste sites. EPA regional Superfund Waste Management Staff issue a notice letter to the potentially responsible party (PRP). The status field contains the EPA ID number and name of the site where the actual pollution occurred.

No listings within half of a mile radius of the subject site.

DO Enforcement Docket System (DOCKET)/Consent Decree Tracking System (CDETS)

DOCKET tracks civil judicial cases against environmental polluters, while CDETS processes court settlements, called consent decrees.

No listings within a quarter of a mile radius of the subject site.

CD Criminal Docket System (C-DOCKET)

The Criminal Docket System is a comprehensive automated system for tracking criminal enforcement actions. C-Docket handles data for all environmental statutes and tracks enforcement actions from the initial stages of investigations through conclusion.

No listings within a quarter of a mile radius of the subject site.

ICIS Integrated Compliance Information System (ICIS)

ICIS is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and its Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

No listings within half of a mile radius of the subject site.

RCRA RCRA Violators List (CORRACTS)

COMMERCIAL PROPERTY

3377 W OLYMPIC BLVD; 974 S. GRAMERCY DR.
, LOS ANGELES

Page: 4
Date: 07-08-2014
Job: XARA3757-S

The Resource Conservation and Recovery Act of 1976 provides for "cradle to grave" regulation of hazardous wastes. RCRA requires regulation of hazardous waste generators, transporters, and storage/treatment/disposal sites. Evaluation to potential violations, ranging from manifest requirements to hazardous waste discharges, is typically conducted by the US EPA. This database is also known as Corrective Action Report (CORRACTS)

If enforcement is required, it is typically delegated to a state agency.

Any Institutional/Engineering controls issued under CORRACTS are described in the status detail for each site

No listings within 1 mile radius of the subject site.

RCRA-D Resource Conservation and Recovery Information System - Treatment, Storage & Disposal

The Environmental Protection Agency regulates the treatment, storage and disposal of hazardous material through the Resource Conservation and Recovery Act (RCRA). All hazardous waste TSD facilities are required to notify EPA of their existence by submitting the Federal Notification of Regulated Waste Activity Form (EPA Form 8700-12) or a state equivalent form as well as part A (EPA form 8700-23) and Part B of their Hazardous Waste Permit Application.

Status Codes:	I	Incinerator
	T	Storage/Treatment facility other than Incinerator
	D	Land Disposal Facility

No listings within half of a mile radius of the subject site.

CDL Clandestine Drug Laboratories

No listings within half of a mile radius of the subject site.

The U.S. Department of Justice ("the Department") provides this information as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy.

INDN Indian REservation LUST/VCP/UST

This database includes all environmental records from Indian Reservations such as Leaking Underground Tanks (LUST), Voluntary Cleanup Program (VCP) and Underground Storage Tanks (UST)

No listings within half of a mile radius of the subject site.

FD Federal Enforcement Dockets

The US EPA, Office of Enforcement, maintains a list of sites under enforcement by the US EPA.

No listings within a quarter of a mile radius of the subject site.

CALIFORNIA STATE SOURCES

FL State Response Sites - Federal Lead

The Site Mitigation and Brownfields Reuse Database (SMBRD) identifies certain high priority hazardous waste sites where the U.S. EPA is the lead agency. These sites are typically proposed, on or delisted from the National Priority List.

No listings within 1 mile radius of the subject site.

SR State Response Sites

The Site Mitigation and Brownfields Reuse Database (SMBRD) identifies certain potential hazardous waste sites. These are confirmed release sites where DTSC is involved in remediation, either in a lead or oversight capacity and deemed generally high-priority and high potential risk.

The information has been compiled into this database by the California Environmental Protection Agency, Department of Toxic Substance Control (DTSC) in accordance with Section 25359.6 of the California Health and Safety Code.

No listings within half of a mile radius of the subject site.

VCP Voluntary Cleanup Program

This category contains low threat level properties with either confirmed or unconfirmed releases and the project proponents have requested that DTSC oversee investigation and/or cleanup activities and have agreed to provide coverage for DTSC's costs.

No listings within half of a mile radius of the subject site.

FE Properties Needing Further Evaluation

This category of Envirostor, formerly The Site Mitigation and Brownfields Reuse Program Database SMBRPD, contains properties that are suspected, but unconfirmed, contaminated sites that need or have gone through an investigation and assessment process. If a site is found to have confirmed contamination, it will change from Evaluation to either a State Response or Voluntary Cleanup site type. Sites found to have no contamination at the completion of the investigation and assessment process result in a No Action Required (for Phase 1 assessments) or No Further Action (for Phase 2 assessments) determination.

No listings within half of a mile radius of the subject site.

ME Military Evaluation Sites

This category the Site Mitigation and Brownfields Reuse Program Database SMBRPD, contains Formerly Used Defense Sites (FUDS) and Open or Closed military facilities with confirmed or unconfirmed releases and where DTSC is involved in investigation and/or remediation, either in a lead or support capacity. Sites with confirmed releases are generally considered high-priority and high potential risk.

, LOS ANGELES

Page: 6

Date: 07-08-2014

Job: XARA3757-S

No listings within half of a mile radius of the subject site.

EP Expedited Remedial Action Program

The Expedited Remedial Action Program is a pilot program limited to 30 sites. These are confirmed release sites worked on by Responsible Parties with oversight of the cleanup by DTSC. These confirmed sites are generally high-priority and high potential risk.

No listings within half of a mile radius of the subject site.

BZ Border Zone Properties

These sites went through the Hazardous Waste Property or Border Zone Property evaluation and formal determination process. (Chapter 6.5, Health and Safety Code section 25221.)

No listings within half of a mile radius of the subject site.

SCH School Property Evaluation Program Properties

This category the Site Mitigation and Brownfields Reuse Program Database (SMBRPD), contains proposed and existing school sites that are being evaluated by DTSC for possible hazardous materials contamination. School sites are further defined as Cleanup (remedial actions occurred) or Evaluation (no remedial action occurred) based on completed activities. All proposed school sites that will receive State funding for acquisition or construction are required to go through a rigorous environmental review and cleanup process under DTSC's oversight.

This list has been researched within a quarter of a mile radius of the subject site.

LUR Brownfields Reuse Program Facility Sites with Land Use Restrictions

The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents land use restrictions that are active. Some sites have multiple land use restrictions.

No listings within half of a mile radius of the subject site.

DR Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction

The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The

The Well Investigation Program (AB1803) identifies groundwater that is already contaminated and empowers the California Department of Health Services and local health officers to order ongoing monitoring programs. The focus of this program is to monitor and protect drinking water.

No listings within 1 mile radius of the subject site.

WQ Drinking Water Program

The California Health and Safety Code section 116275-116300 stipulates that it is the intent of the Legislature to improve laws governing drinking water quality to improve upon the minimum requirements of the federal Safe Drinking Water Act Amendments of 1986, to establish primary drinking water standards that are at least as stringent as those established under the federal Safe Drinking Water Act, and to establish a program under this chapter that is more protective of public health than the minimum federal requirements.

In order to provide for the orderly and efficient delivery of safe drinking water the State Department of Health Services collect information on the quality of public drinking water wells under the California Drinking Program.

Below, the latest and maximum analysis of contaminants are reported (only positive reading are included). MCL is the Maximum Contaminant Level or enforceable drinking water standard. RPHL is the Recommended Public Health Level. Additional information is available upon request.

No listings within half of a mile radius of the subject site.

REGIONAL SOURCES

NT Toxic Releases

The California Regional Water Quality Control Boards or local Department of Health Services keeps track of toxic releases to the environment. These lists are known as Unauthorized Releases, Spill, Leaks, Investigations and Cleanups (SLIC), Non-Tank Releases, Toxics List or similar, depending on the local agency.

This list has been researched within half of a mile radius of the subject site.

SIDNEY REVOCABLE TRUST OLYMPIC	4001 W OLYMPIC BLVD	.4 mile W	# 72 page 46

LD Land Disposal Sites

The Land Disposal program managed by the State Water Control Board, regulates the waste discharge to land for treatment, storage and disposal in waste management units. Waste management units include waste piles, surface impoundments, and landfills. California Code of Regulations (CCR) Title 23, (Chapter 15) contains the regulatory requirements for hazardous waste. CCR Title 27, contains the regulatory requirements for wastes other than hazardous waste.

No listings within half of a mile radius of the subject site.

TPC Toxic Pits

The Toxic Pits Clean-Up Act (Katz Bill) places strict limitations on the discharge of liquid hazardous wastes into surface impoundment, toxic ponds, pits and lagoons. Regional Water Quality Control Boards are required to inspect all surface impoundment annually, in addition, every facility was required to file a Hydrogeological Assessment Report. Recent legislation allows the Department of Health Services to exempt facilities that closed on or before December 31, 1985, if a showing is made that no significant environmental risk remains (AB1046).

Special exemption provisions have been created for surface impoundment that receive mining wastes.

No listings within 1 mile radius of the subject site.

SWAT Solid Waste Assessment Test - Regional

This program, provided for under the Calderon legislation (Section 13273 of the Water Code), requires that disposal sites with more than 50,000 cubic yards of waste provide sufficient information to the regional water quality control board to determine whether or not the site has discharged hazardous substances which will impact the environment.

Site operators are required to file Solid Waste Assessment Test reports on a staggered basis. Operators of the 150 highest ranking (Rank 1) sites were required to submit Solid Waste Assessment Tests by July 1, 1987, Rank 2 in 1988 and so on.

Operators submit water quality tests to the Regional Water Quality Control Board, describing surface and groundwater quality and supply; and the geology within 1 mile of the site. Air quality tests are submitted to the local Air Quality Management District or Air Pollution Control District.

This program is currently not funded and thus not updated.

Status Codes: Facilities or sites are ranked within each region on a scale 1-15 according to priority.

This list has been researched within 1 mile radius of the subject site.

OPERATING PERMITS

Various agencies issue operating permits or regulate the handling, movements, storage and disposal of hazardous materials and require mandatory reporting. The inclusion in this section does not imply that an environmental problem exists presently or has in the past.

RCRA-G Resource Conservation and Recovery Information System - Generators

The Environmental Protection Agency regulates generators of hazardous material through the Resource Conservation and Recovery Act (RCRA). All hazardous waste generators are required to notify EPA of their existence by submitting the Federal Notification of Regulated Waste Activity Form (EPA Form 8700-12) or a

state equivalent form. The notification form provides basic identification information and specific waste activities.

Status Codes: L - Generators who generate at least 1000 kg/mo of non-acutely hazardous waste (or 1 kg/mo of acutely hazardous waste).
S - Generators who generate 100 kg/mo but less than 1000 kg/mo of non-acutely haz waste.
T - Transporter.

SARA SARA Title III,section 313 (TRIS)

Title III of the Superfund Amendments and Reauthorization Act,Section 313, also known as Emergency Planning and Community Right-to-Know Act of 1986 requires owners or operators of facilities with more than 10 employees and are listed under Standard Industrial Classification(SIC) Codes 20 through 39 to report the manufacturing, processing or use of more than a threshold of certain chemical or chemical categories listed under section 313. This database is also known as Toxic Release Information System (TRIS).

Below summary information for the last five year period is reported grouping the releases into air, water, underground injection, land, public offsite treatment (potw) and transportation offsite.

No listings within a quarter of a mile radius of the subject site.

NC Nuclear Regulatory Commission Licensees

The Nuclear Regulatory Commission, Office of Nuclear Material Safety and Safeguards has been mandated (10 CFR Ch 1.42) to protect the public health and safety, the common defense and security, and the environment by licensing, inspection, and environmental impact assessment for all nuclear facilities and activities, and for the import and export of special nuclear material.

No listings within a quarter of a mile radius of the subject site.

PCB PCB Waste Handlers Database

The U.S. Environmental Protection Agency tracks generators, transporters, commercial stores and/or brokers and disposers of PCB's in accordance with the Toxic Substance Control Act. x

PCS Permit Compliance System

PCS is a database that contains data on National Pollutant Discharge Elimination System (NPDES) permit holding facilities. PCS was developed by The U.S. Environmental Protection Agency to meet the information needs of the NPDES program under the Clean Water Act. PCS tracks permit, compliance, and enforcement states of NPDES facilities.

No listings within a quarter of a mile radius of the subject site.

AFS AIRS Facility System

AFS contains emissions and compliance data on air pollution point sources tracked by the U.S. EPA and state and local environmental regulatory agencies. There are seven "criteria pollutants" for which data must be reported to EPA and stored in AIRS: PM10 (particulate matters less than 10 microns in size), carbon monoxide, sulfur dioxide, nitrogen dioxide, lead, reactive volatile organic compounds (VOC), and ozone.

AFS replaces the former Compliance Data System (CDS), the National Emission Data System (NEDS), and the Storage and Retrieval of Aeromatic Data (SAROAD).

No listings within a quarter of a mile radius of the subject site.

PE Section Seven Tracking System (SSTS)

SSTS evolved from the FIFRA and TSCA Enforcement System (FATES). SSTS tracks the registration of all pesticide producing establishments and tracks annually the types and amounts of pesticides, active ingredients, and devices that are produced, sold or distributed each year.

No listings within a quarter of a mile radius of the subject site.

FIFRA FIFRA/TSCA Tracking System/ National Compliance Database (FTTS/NCDB)

NCDB supports implementation of the Federal Insecticide, Fungicide and Rodenticide Control Act (FIFRA) and the Toxic Substance Control Act (TSCA).

No listings within a quarter of a mile radius of the subject site.

FFIS Federal Facilities Information System (FFIS)

Federal Facilities Information System (FFIS) contains a list of all Treatment Storage and Disposal Facilities (TSDs) owned and operated by federal agencies.

No listings within a quarter of a mile radius of the subject site.

CICIS Chemicals in Commerce Information System (CICIS)

Chemicals in Commerce Information System contains an inventory of chemicals manufactured in commerce or imported for Toxic Substances Control Act regulated commercial purposes. CICIS allows EPA to maintain a

comprehensive listing of over 70,000 chemical substances that are manufactured or imported and are regulated under TSCA.

No listings within a quarter of a mile radius of the subject site.

FINDS FINDS EPA Facility Index System

The U.S. Environmental Protection Agency maintains an index system of all facilities which are regulated or have been assigned an identification number for other purposes.

Facilities that have been reported elsewhere in this report will not be listed under this category.

No listings within a quarter of a mile radius of the subject site.

HWIS Hazardous Waste Information System

The Department of Toxic Substance Control, California Environmental Protection Agency, maintains a data base keeping track of the movement and disposal of hazardous waste. The data is used to support the Tanner legislation, AB 2948.

- Status Codes: EPA Facility Permit Number
- CAL - State permanent number
 - CAC - State provisional or emergency number
 - CAH - State prov or perm number for household hazardous waste collections
 - CAI - State permanent number for exotic pest detection
 - CAS - State permanent number issued by county for emergency response
 - CAE - State prov number for hazardous waste removal caused by natural disasters
 - CAX - State permanent or provisional number issued prior to 1987. No longer used.
 - CLU - State permanent number issued by county for clandestine lab cleanup
 - CAR - Federal permanent number
 - CA - Federal permanent number
 - CAD - Federal permanent or provisional number. State provisional before 1988.
 - CAT - Federal permanent number
 - CAP - Federal provisional or emergency number

UST Permitted Underground Storage Tanks - State Water Quality Control Board

The Corteses Bill (AB2013), enacted in 1983, required registration of all underground storage tanks (UST) with the State Water Quality Control Board by July 1, 1984. About 176,000 tanks and surface impounds were registered between 1984 and 1987. An amendment (AB 1413) was passed in 1987, effectively removing the State Board from the registration process starting January 1, 1988. The data reflects the information collected by the state between 1984 and 1987 as well as recent time and includes all tanks and surface impounds in use or closed after 1974.

Home and farm heating fuel tanks with capacities of 1,100 gallons or less and "structures such as sumps, separators, storm drains, catch basins, oil field gathering lines, refinery pipelines, lagoons, evaporation ponds, well cellars, separation sumps, lined and unlined pits, sumps and lagoons" except those defined as UST under HSWA or may be regulated to protect water quality under the Porter-Cologne Water Quality Control Act are excluded.

This list has been researched within a quarter of a mile radius of the subject site.

HOBART/WILTON PRIMARY SCHOOL SC	SAN MARINO ST & ST ANDREWS P LOS ANGELES	13 Map Id .1 mile NE
---------------------------------	---	----------------------------

School Property Evaluation Program

Site: HOBART/WILTON PRIMARY SCHOOL #
Address: SAN MARINO ST & ST ANDREWS PL,/GRAMERCY
City: LOS ANGELES
Status: id: 19880072 021100 PRIVATE HOUSEHOLDS

Actions:

PHASE 1 - CALMORTGAGE AND SCHOOL SITE PROPERTIES (PSCHL)- completed on 02/11/00.
The site has contained residential structures since at least the 1920s. The age of the structures indicates they are or have been a potential source of lead-based paint and asbestos containing material.

(02/10/00) LAUSD MASTER OVERSIGHT AGREEMENT (DOCKET NO. HSA-A 99/00-051) EXECUTED ON 2/10/00.
As part of the Master Oversight Agreement between DTSC and the Los Angeles Unified School District (LAUSD), DTSC will provide oversight for a Preliminary Endangerment Assessment (PEA) for the proposed Hobart/Wilton Primary School #2 site.

(02/11/00) Phase I - Pursuant to an agreement between the Department of Toxic Substances Control (DTSC) and the California Department of Education, DTSC's Site Mitigation Program completed review of a Phase I Environmental Assessment and has determined that a Preliminary Endangerment Assessment (PEA) is required. The PEA will be conducted under DTSC's oversight pursuant to an agreement between DTSC and the Los Angeles Unified School District (LAUSD). Any subsequent cleanup activities (if needed) after the PEA would be conducted pursuant to an agreement with DTSC and LAUSD.

(03/07/03) PROJECT DROPPED BY LAUSD AFTER THE PHASE I DETERMINATION.

School Property Evaluation Program

Site: HOBART/WILTON PRIMARY SCHOOL #
Address: 9TH ST & SAINT ANDREWS PL, /MANHATTAN PL
City: LOS ANGELES
Status:

id: 19880071 020400 PRIVATE HOUSEHOLDS

Actions:

PHASE 1 - CALMORTGAGE AND SCHOOL SITE PROPERTIES (PSCHL)- completed on 02/04/00.

The site has contained residential structures since at least the 1920s. The age of the structures indicates they are or have been a potential source of lead-based paint and asbestos containing materials.

(02/04/00) Phase I - Pursuant to an agreement between the Department of Toxic Substances Control (DTSC) and the California Department of Education, DTSC's Site Mitigation Program completed review of a Phase I Environmental Assessment and has determined that a Preliminary Endangerment Assessment (PEA) is required. The PEA will be conducted under DTSC's oversight pursuant to an agreement between DTSC and the Los Angeles Unified School District (LAUSD). Any subsequent cleanup activities (if needed) after the PEA would be conducted pursuant to an agreement with DTSC and LAUSD.

(02/10/00) LAUSD MASTER OVERSIGHT AGREEMENT (DOCKET NO. HSA-A 99/00-051) EXECUTED ON 2/10/00. As part of the Master Oversight Agreement between DTSC and the Los Angeles Unified School District (LAUSD),

DTSC will provide oversight for a Preliminary Endangerment Assessment (PEA) for the proposed Hobart/Wilton Primary School #1 site.

(03/07/03) PROJECT DROPPED BY LAUSD AFTER THE PHASE I DETERMINATION.

HOBART/WILTON PRIMARY SCHOOL SC	800 ST ANDREWS PL, EIGHT S LOS ANGELES	59 Map Id .3 mile N
---------------------------------	---	----------------------------------

School Property Evaluation Program

Site: HOBART/WILTON PRIMARY SCHOOL N
Address: 800 ST ANDREWS PL, EIGHT ST M,
City: LOS ANGELES
Status: id: 19880073 021100 PRIVATE HOUSEHOLDS

Actions:

PHASE 1 - CALMORTGAGE AND SCHOOL SITE PROPERTIES (PSCHL)- completed on 02/11/00.

The site has contained residential structures since at least the 1920s. The age of the structures indicates they are or have been a potential source of lead-based paint and asbestos containing material.

(02/10/00) LAUSD MASTER OVERSIGHT AGREEMENT (DOCKET NO. HSA-A 99/00-051) EXECUTED ON 2/10/00. As part of the Master Oversight Agreement between DTSC and the Los Angeles Unified School District (LAUSD), DTSC will provide oversight for a Preliminary Endangerment Assessment (PEA) for the proposed Hobart/Wilton Primary School #3 site.

(02/11/00) Phase I - Pursuant to an agreement between the Department of Toxic Substances Control (DTSC) and the California Department of Education, DTSC's Site Mitigation Program completed review of a Phase I Environmental Assessment and has determined that a Preliminary Endangerment Assessment (PEA) is required. The PEA will be conducted under DTSC's oversight pursuant to an agreement between DTSC and the Los Angeles Unified School District (LAUSD). Any subsequent cleanup activities (if needed) after the PEA would be conducted pursuant to an agreement with DTSC and LAUSD.

(03/07/03) PROJECT DROPPED BY LAUSD AFTER THE PHASE I DETERMINATION.

id: SL204FT2485 , substance: VOC

00060 REA1THE FORMER DRY CLEANER SITE, OPERATED DURING THE PERIOD FROM 1937 TO 1942, CAUSED PCE CONTAMINATION IN SOIL 2AND GROUNDWATER. NO FURTHER ACTION LETTER RELATED TO SOIL CLEANUP WAS ISSUED ON JUNE 8, 2001. ONE OF THREE3 DOWNGRADIENT GROUNDWATER MONITORING POINTS SHOWED PCE CONCENTRATION 6.7 PPB. NON-DETECTS FROM THE OTHER T4WO. DUE TO ITS LOW RISK PER GROUNDWATER CONCENTRATION, THE SITE HAS BEEN RANKED 'LOW'. RESPONSIBLE PARTY I5S SEEKING TO PERFORM THE REQUIRED GROUNDWATER MONITORING ONCE ACCESS ISSUE IS RESOLVED.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E 2247-16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E 1528-14) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Federal RCRA generators list

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 03/22/2021 has revealed that there are 8 RCRA-SQG sites within approximately 0.25 miles of the target property.

EXECUTIVE SUMMARY

State- and tribal - equivalent CERCLIS

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 01/25/2021 has revealed that there are 20 ENVIROSTOR sites within approximately 1 mile of the target property.

State and tribal leaking storage tank lists

LUST: Leaking Underground Storage Tank (LUST) Sites included in GeoTracker. GeoTracker is the Water Boards data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

A review of the LUST list, as provided by EDR, has revealed that there are 9 LUST sites within approximately 0.5 miles of the target property.

State and tribal registered storage tank lists

UST: The Underground Storage Tank database contains registered USTs. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data come from the State Water Resources Control Board's Hazardous Substance Storage Container Database.

A review of the UST list, as provided by EDR, has revealed that there are 16 UST sites within approximately 0.25 miles of the target property.

EXECUTIVE SUMMARY

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 03/22/2021 has revealed that there are 14 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there are 7 EDR Hist Auto sites within approximately 0.125 miles of the target property.

EDR Hist Cleaner: EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Cleaner list, as provided by EDR, has revealed that there are 4 EDR Hist

EXECUTIVE SUMMARY

Cleaner sites within approximately 0.125 miles of the target property.

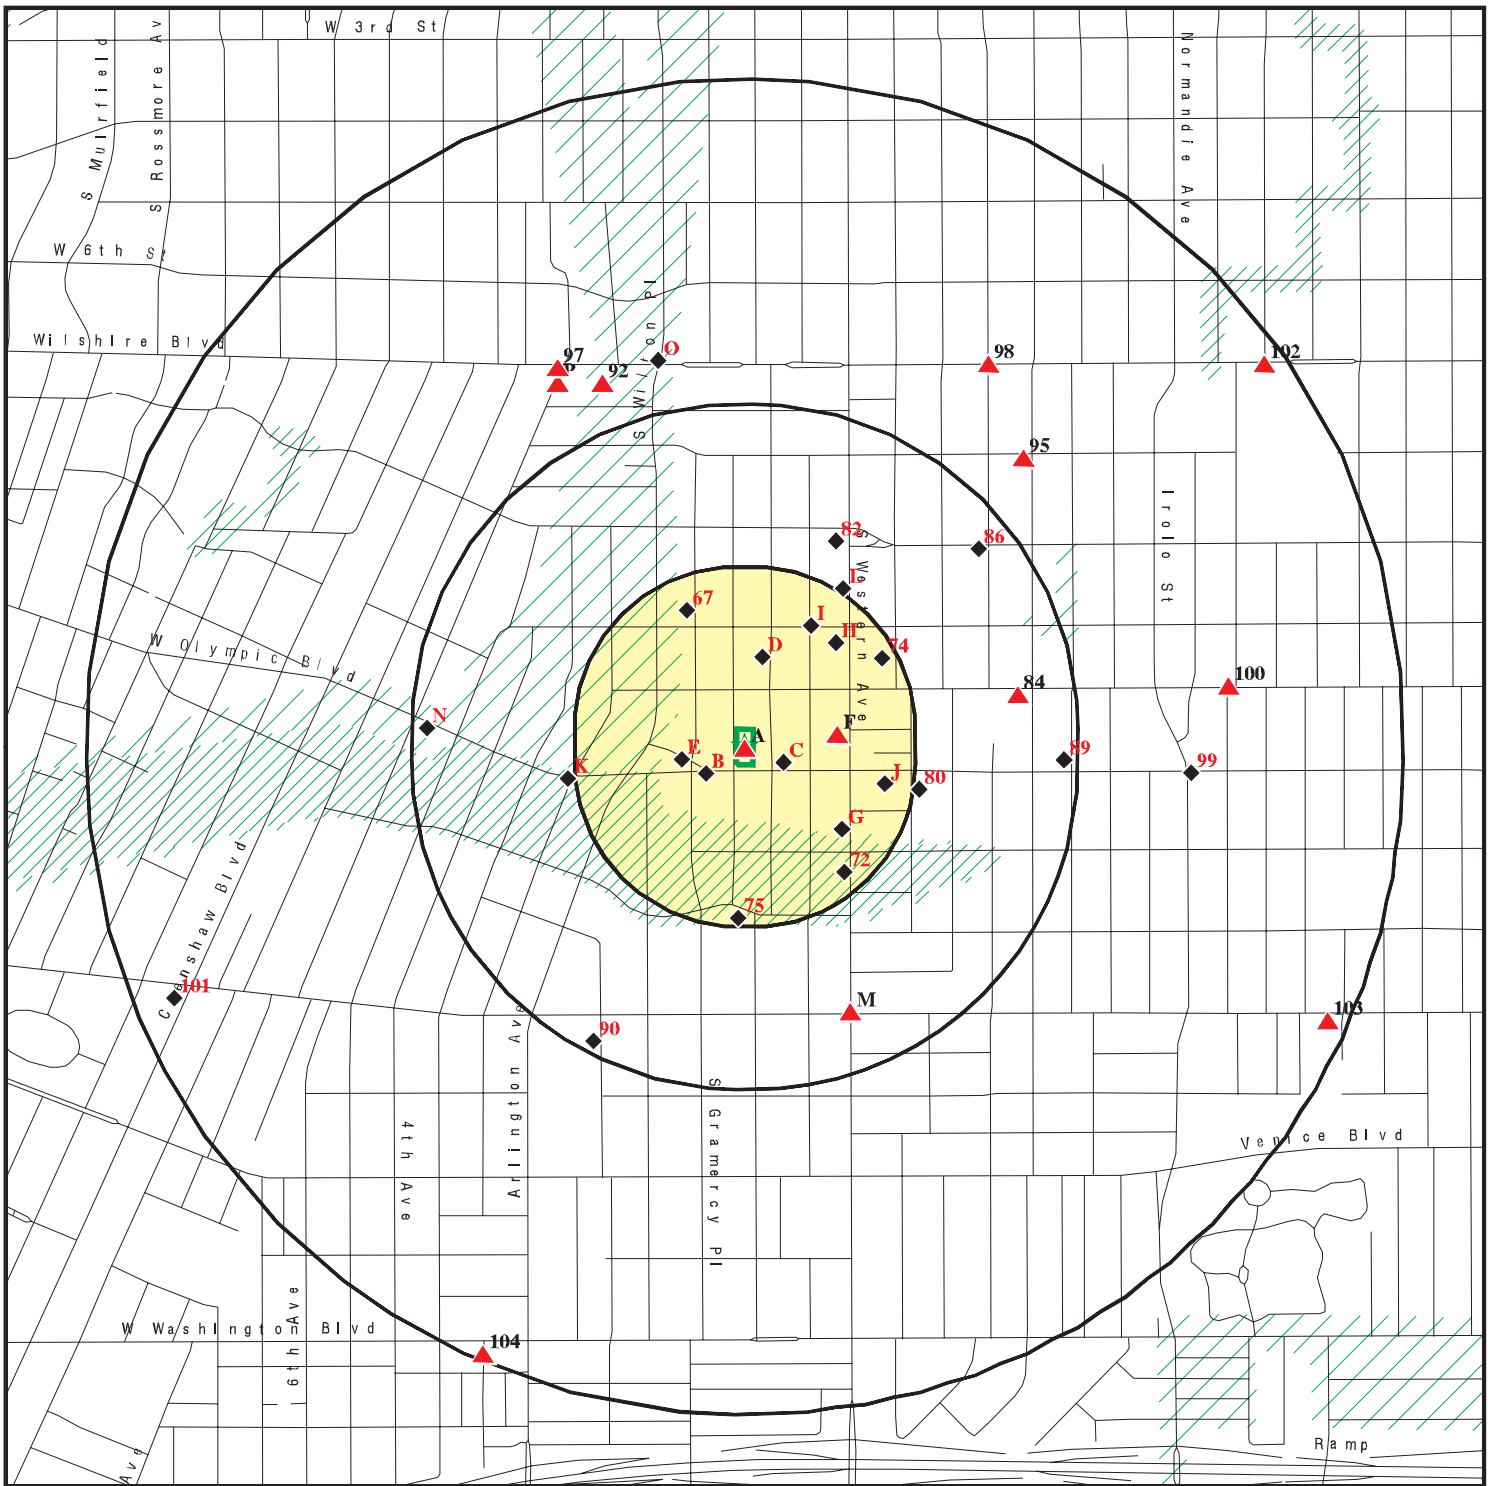

<u>Lower Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>

Eval Notes: On site for routine hazardous materials and business emergency plan inspection. Consent to enter and inspect was given by MAN KIM - OWNER. Observed the facility and inspected hazardous materials storage. Annual employee safety training records were not maintained. Facility has also not electronically disclosed the onsite hazardous materials inventory or submitted a business emergency plan in California Environmental Reporting System (CERS). Please go to <https://cersbusiness2.calepa.ca.gov> to complete a chemical inventory disclosure and business emergency plan. The facility is responsible for identifying all hazardous materials, to include hazardous wastes, which are above disclosure thresholds. If there is a change in the type or amount of chemicals that are maintained on site, please submit revised documents (electronically) within 30 days of the change.

Address: 3355 W OLYMPIC BLVD UN B
City,State,Zip: LOS ANGELES, CA 90019
Site ID: 145027
CERS ID: 10261570
CERS Description: Hazardous Waste Generator

Violations:

Site ID: 145027
Site Name: PRO DENT AWAY INC
Violation Date: 07-15-2014
Citation: 22 CCR 31 67100.8 - California Code of Regulations, Title 22, Chapter 31, Section(s) 67100.8

Violation Description:

Failure of the generator to prepare a hazardous waste management performance report every four years. The report shall contain sufficient detail to convey an understanding of the hazardous waste management approaches used at the site, using narratives, photographs, illustrations, figures or data as necessary, which includes, at a minimum, all of the following: 1) Name and location of the site 2) Four digit SIC code(s) for the site 3) All of the following information for each waste stream identified: A) An estimate, in pounds, of the quantity of hazardous waste generated and the quantity of hazardous waste managed, both onsite and offsite, during the current reporting year and the baseline year; B) A description of current hazardous waste management approaches and identification of all approaches implemented since the baseline year; C) An assessment of the effect, since the baseline year, of each implemented hazardous waste management approach on the weight of hazardous waste generated, the properties which cause it to be classified as a hazardous waste and/or the onsite and offsite management of hazardous waste. The report shall consider, but shall not be limited to all of the following approaches: 1. Source reduction; 2. Onsite or offsite recycling; 3. Onsite or offsite treatment; and D) A description of factors during the current reporting year that have affected hazardous waste generation and onsite and offsite hazardous waste management since the baseline year, including, but not limited to, any of the following: 1. Changes in business activity; 2. Changes in waste classification; 3. Natural phenomena and; 4. Other factors that have affected either the quantity of hazardous waste generated or onsite and offsite hazardous waste management requirements.

Violation Notes:

Returned to compliance on 12/02/2016. OBSERVATION: Observed 1 X 55 G DM of waste paint thinner unlabeled. All hazardous waste containers shall be marked with the following information: 1) the words G Hazardous WasteG ; 2) name and address of generator; 3) hazardous properties; 4) physical state; 5) composition (contents); 6) accumulation start date. CORRECTIVE ACTION: Immediately label these

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Evaluation:
Eval General Type: Compliance Evaluation Inspection
Eval Date: 03-22-2019
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: Consent to enter, inspect and take photographs was given by: Kevin Kim
The Business Activities, Owner/Operator Identification, Hazardous
Materials Inventory, Site Map, Emergency Response/Contingency Plan and
Employee Training Plan sections were reviewed in CERS and field
verified. Review and correct any violations indicated previously in
this report, on or before the COMPLY BY date associated with each
violation. NOTE: The LAMC, Sections (L.A.M.C. SECTION 57.105.1.4;
57.120.3; 57.121.2 and 57.121.2.1.) requires businesses that store,
use or handle hazardous materials in the City of Los Angeles to obtain
a Consolidated Permit from the Los Angeles Fire Department CUPA ****
Annual submission of a Hazardous Materials Business Plan into CERS is
required between January 1 and March 1 of every year. Please remember
that any change in inventory of greater than 100 percent will require
new submission within 30 days of that change. As a reminder, you must
complete all the [Truncated]

Eval Type: Other, not routine, done by local agency
Eval Notes: "Second Notice of Violation Inspection Report Documents uploaded to
CERS were reviewed. Indicated previously in this report are
violations, originally issued on 3.22/19 that have not been resolved
by the original COMPLY BY date. These violations have been re-issued
and the violation class upgraded. Review and correct all violations
indicated in this report, on or before the new COMPLY BY date
associated with each violation. Failure to resolve these violations
will result in this facility being subject to formal enforcement.
NOTE: The LAMC, Sections (L.A.M.C. SECTIONS 57.105.1.4; 57.120.3;
57.121.2 and 57.121.2.1.) requires businesses that store, use or
handle hazardous materials in the City of Los Angeles to obtain a
Consolidated Permit from the Los Angeles Fire Department CUPA ****
Annual submission of a Hazardous Materials Business Plan into CERS is

Eval Date: 07-05-2016
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: On site for routine hazardous materials and business emergency plan inspection. Consent to enter and inspect was given by KEVIN HO KIM - OWNER. Observed the facility and inspected hazardous materials storage. Annual employee safety training records were not maintained. Facility has also not electronically disclosed the onsite hazardous materials inventory or submitted a business emergency plan in California Environmental Reporting System (CERS). Please go to <https://cersbusiness2.calepa.ca.gov> to complete a chemical inventory disclosure and business emergency plan. The facility is responsible for identifying all hazardous materials, to include hazardous wastes, which are above disclosure thresholds. If there is a change in the type or amount of chemicals that are maintained on site, please submit revised documents (electronically) within 30 days of the change.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Violation Description: Failure to submit a complete and accurate application for a permit to operate a UST, or for renewal of the permit.
Violation Notes: OBSERVATION: UST facility operating permit information and UST tank information are not current in CERS. Accepted the 8/8/19 submittal for the following UST Closure/removal information: tank 10241611-001, 10241611-002 & 10241611-003 with removal date of 5/16/19. However, a new UST CERS submittal will need to be made for the following reasons: 1) To discard the USTs that have been removed, including the waste oil tank on 9/1/15. 2) To update the 3 new tanks information accurately. Please update Tanks 5, 6 & 7: Tank Manufacturer - XERXES(shows XEREX), Riser/Fill Pipe Piping Construction Section, 2 Containment Construction - FIBERGLASS(shows Steel), ELLD Performs 3 GPH Leak Test Section, ELLD Triggers Auto Pump Shutdown - NO(shows BLANK), & ELLD Failure/Disconnect Triggers Auto Shutdown - NO (shows BLANK). Any change of information must be updated in CERS within 30 days of the change. CORRECTIVE ACTION: Immediately update the required information in CERS and submit for review [Truncated]

product due to overfilling. Install/retrofit overfill prevention equipment that does not use flow restrictors on vent piping to meet overfill prevention equipment requirements when the overfill prevention equipment is installed, repaired, or replaced on and after October 1,- 2018. For USTs installed before October 1, 2018, perform an inspection by October 13, 2018 and every 36 months thereafter. For USTs installed on and after October- 1,- 2018, perform an inspection at installation and every 36 months thereafter. Inspected within 30 days after a repair to the overfill prevention equipment. Inspected using an applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer. Inspected by a certified UST service technician. Maintain records of overfill prevention equipment inspection for 36 months.

Violation Notes: OBSERVATION: Owner/Operator failed to meet one or more of the requirements applicable to overfill prevention equipment. Failure to test overfill by 10/13/18. CORRECTIVE ACTION: Maintain overfill prevention system to comply with the deficiencies noted above. Submit verification.

Site Name: MOBIL SERVICE STATION #00LLR
Violation Date: 05-20-2019
Citation: 23 CCR 16 2716(f) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2716(f)
Violation Description: "Failure to maintain on-site, or off-site at a readily available location if approved by the UPA, copies of Designated Operator inspection records as follows: Designated operator monthly inspection records for inspections performed before October 1, 2018 must be kept for 12 months from the month of inspection. For inspections performed on or after October 1, 2018, copies of the ""Designated Underground Storage Tank Operator Visual Inspection Report"" must be kept for 36 months from the month of inspection. "
Violation Notes: Returned to compliance on 05/29/2019. OBSERVATION: Facility did not maintain copies of DO inspections completed before 10/1/18 for 12 months, or copies of those completed after 9/30/18 for 36 months. CORRECTIVE ACTION: Maintain copies of DO inspections for required time frames. *** Mr. Mehrdad, while on site 5-20-2019, Inspector Yoshihashi was unable to locate the Designated Operator Monthly Inspections for February 2019 and January 2019. Can you please explain this situation or submit proof that you completed these inspections. ***

Citation: 23 CCR 16 2712(b)(1)(G) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2712(b)(1)(G)
Violation Description: Failure to comply with one or more of the following overfill prevention equipment requirements: Alert the transfer operator when the tank is 90 percent full by restricting the flow into the tank or triggering an audible and visual alarm; or Restrict delivery of flow to the tank at least 30 minutes before the tank overfills, provided the restriction occurs when the tank is filled to no more than 95 percent of capacity; and activate an audible alarm at least five minutes before the tank overfills; or Provide positive shut-off of flow to the tank when the tank is filled to no more than 95 percent of capacity; or Provide positive shut-off of flow to the tank so that none of the fittings located on the top of the tank are exposed to product due to overfilling. Install/retrofit overfill prevention equipment that does not use flow restrictors on vent piping to meet overfill prevention equipment requirements when the overfill prevention equipment is installed, repaired, or replaced on and after October 1, - 2018. For USTs installed before October 1, 2018, perform an inspection by October 13, 2018 and every 36 months thereafter. For USTs installed on and after October- 1,- 2018, perform an inspection at installation and every 36 months thereafter. Inspected within 30 days after a repair to the overfill prevention equipment. Inspected using an applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer. Inspected by a certified UST service technician. Maintain records of overfill prevention equipment inspection for 36 months.
Violation Notes: Returned to compliance on 05/20/2019. OBSERVATION: Owner/Operator failed to meet one or more of the requirements applicable to overfill prevention equipment. CORRECTIVE ACTION: Maintain overfill prevention system to comply with the deficiencies noted above. Submit verification. *** Mr. Mehrdad, your Overfill Testing was due as of 10-13-2018. Please have your primary means of overfill tested and submit the test results to the LAFD CUPA. CORRECTED BY SERVICE TECHNICIAN PEYMAN NASIBI OF PACIFIC NOZZLE 3-18-2019. ***

Citation: HSC 6.7 25290.1(c),25290.2(c),25291(a)(2),2529.1(e) - California Health and Safety Code, Chapter 6.7, Section(s) 25290.1(c),25290.2(c),25291(a)(2),2529.1(e)

Violation Description: Failure to maintain secondary containment (e.g., failure of secondary containment testing).

Violation Notes: Returned to compliance on 05/21/2019. OBSERVATION: The 9/14/16 secondary containment test results indicate a failure at the Diesel Turbine Sump. All secondary containment for the UST system must be tight. CORRECTIVE ACTION: Immediately have a properly licensed, trained, and certified contractor repair or replace the failed component(s) under permit and inspection of the CUPA.

Violation Date: 03-19-2018
Citation: 23 CCR 16 2665 - California Code of Regulations, Title 23, Chapter 16, Section(s) 2665

Violation Description: Failure to comply with one or more of the following: Failure to install or maintain a liquid-tight spill bucket. Have a minimum capacity of five gallons. Have a functional drain valve or other method for the removal of liquid from the spill bucket/spill container. Be resistant to galvanic corrosion.

Violation Notes: Returned to compliance on 03/19/2018. OBSERVATION: Owner/Operator did not install or maintain Diesel spill bucket which is liquid-tight, has a minimum capacity of five gallons, has a functional drain valve or other method for the removal of liquid from the spill bucket/spill container, or is resistant to galvanic corrosion. Diesel spill bucket drain valve cleaned during inspection. CORRECTIVE ACTION: No further action necessary.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Eval General Type: Other/Unknown
Eval Date: 01-24-2019
Violations Found: Yes
Eval Type: Other, not routine, done by local agency
Eval Notes: "Second Notice of Violation Inspection Report Documents uploaded to CERS were reviewed. Indicated previously in this report are violations, originally issued on 12/19/19 that have not been resolved by the original COMPLY BY date. These violations have been re-issued and the violation class upgraded. Review and correct all violations indicated in this report, on or before the new COMPLY BY date associated with each violation. Failure to resolve these violations will result in this facility being subject to formal enforcement. New user instructions are provided below. The LAMC, Sections (L.A.M.C. SECTIONS 57.105.1.4; 57.120.3; 57.121.2 and 57.121.2.1.) requires businesses that store, use or handle hazardous materials in the City of Los Angeles to obtain a Consolidated Permit from the Los Angeles Fire Department CUPA. To receive a Consolidated Permit you must satisfy the following requirement: **** Annual submission of a Hazardous Materials Business Plan into CERS is [Truncated]

Eval Notes: On site for routine hazardous materials and business emergency plan inspection. Consent to enter and inspect was given by owner Michael Lee. Observed the facility and inspected hazardous materials storage. Annual employee safety training records were not maintained. Facility has also not electronically disclosed the onsite hazardous materials inventory or submitted a business emergency plan in California Environmental Reporting System (CERS). Please go to <https://cersbusiness2.calepa.ca.gov> to complete a chemical inventory disclosure and business emergency plan. The facility is responsible for identifying all hazardous materials, to include hazardous wastes, which are above disclosure thresholds. If there is a change in the type or amount of chemicals that are maintained on site, please submit revised documents (electronically) within 30 days of the change.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

 Geo Track: http://geotracker.waterboards.ca.gov/profile_report.asp?global_id=T10000006007
 Global Id: T10000006007
 Latitude: 34.0566036860416
 Longitude: -118.309339562566
 Status: Completed - Case Closed
 Status Date: 02/18/2021
 Case Worker: DMB
 RB Case Number: 900050090
 Local Agency: Not reported
 File Location: Not reported
 Local Case Number: Not reported
 Potential Media Affect: Aquifer used for drinking water supply
 Potential Contaminants of Concern: Gasoline
 Site History: Not reported
