APPENDIX 1.A:
Citywide Housing Incentive Program Ordinance Revisions

CPC-2023-7068-CA, CPC-2024-387-CA, CPC-2024-388-CA

For consideration by the City Planning Commission

September 26, 2024

INTRODUCTION

This document is the third draft of the proposed Citywide Housing Incentive Program Ordinance to amend Chapter 1 and Chapter 1A of the Los Angeles Municipal Code. The proposed Citywide Housing Incentive Program Ordinance aims to Affirmatively Further Fair Housing by promoting housing development citywide and, in particular, increasing affordable housing in Higher Opportunity Areas¹, where access to affordable housing is limited today. The draft Citywide Housing Incentive Program Ordinance proposes to do this through three distinct programs seen in Contents below. Note that this is a Strike-Out version of the most recently revised draft. To review a clean version of this draft or the drafts released in March or June 2024, please visit:

ORDINANCE NO. _____

An ordinance amending Sections 12.03, 12.21, 12.22, and 12.24 of Article 2, Sections 13.09, and 13.15 of Article 3, Section 14.00 of Article 4, Section 14.5.4 of Article 4.5, Section 16.05 of Article 6, Section 19.01, 19.14, and 19.18 of Article 9 of Chapter 1; adding Section 11.5.15 to Article 1 of Chapter 1; amending Part 2B and Part 2C of Article 2, 8.1.1., 8.2.2., 8.2.3., 8.2.5., 8.2.6., 8.2.7., and 8.2.8 of Article 8, Sections 9.2.1., 9.3.1., 9.3.2., 9.3.3., and 9.4.1. of Article 9, Sections 13A.2.7., 13B.2.1., 13B.2.2., 13B.2.3., 13B.2.5., and 13B.3. of Article 13 of Chapter 1A; and amending 151.28 of Article 1 of Chapter 15 of the Los Angeles Municipal Code for the purpose of implementing the Citywide Housing Incentive Program.

**THE PEOPLE OF THE CITY OF LOS ANGELES
DO ORDAIN AS FOLLOWS:**

Section 1. Section 11.5.15 is added to Chapter I of the Los Angeles Municipal Code to read:

- A. **Intent.** This Section is intended to:
1. Ensure that development in the city does not result in detrimental impacts to those residing or working in and around construction activities, and to abutting properties, and the public right-of-way, including the habitat, cultural resources, and historic or fragile buildings.
 2. Provide a mechanism for mitigation measures adopted pursuant to CEQA for city plans, policies, or regulations to be made enforceable on future development projects consistent with *CEQA Guidelines, Section 15162.4*.
 3. Provide a flexible mechanism to adopt and amend uniformly applicable development standards to allow streamlined environmental review, including pursuant to *CEQA Guidelines Section 15183.3*.
- B. **Applicability.** No building permit shall be issued by the Department of Building and Safety without the applicant demonstrating compliance with any regulations adopted by the Director of Planning under this Section to implement environmental protection measures.
- C. **Adoption and Maintenance of the Environmental Protection Measures Handbook.** The Director of Planning, as deemed necessary and appropriate, is authorized to prepare, maintain, amend, and adopt environmental protection measures to meet the intent of this Division, and to prepare, maintain, amend and adopt regulations to implement the environmental protection measures. The Director of Planning may, as deemed appropriate, use technical consultants or a consultant advisory panel to make recommendations on new environmental protection measures or updates to existing environmental protection measures.
- D. **Noncompliance.** Failure to comply with the environmental protection measures, regulations adopted pursuant to this Section, any condition or commitments made in compliance with the environmental protection measures or their

implementing regulations, or any provision of this Section, is a violation of the code, subject to all available administrative, criminal and civil remedies for a violation of this Code. Additionally, upon verification of non-compliance, the City of Los Angeles may require as deemed necessary and appropriate the applicant or property owner to retain at its own expense an independent consultant, subject to the City of Los Angeles' approval, to ensure compliance with the environmental protection measures or regulations, and any conditions or commitments made in compliance with the environmental protection measures or regulations.

Section 2 4. Section 12.03 of Article 2 of Chapter 1 of the Los Angeles Municipal Code is amended to include the following definitions:

Acutely Low Income. Income level as defined in Section 50063.5 of the California Health and Safety Code as amended from time to time

Area Median Income (AMI). The median income in Los Angeles County as determined annually by the California Department of Housing and Community Development (HCD) or any successor agency, adjusted for household size.

Coastal Zone. The Coastal Zone, as defined in California Public Resources Code, Division 20 (commencing with Section 30000).

Density Bonus. A density increase over the otherwise Maximum Allowable Residential Density, as of the date of application by the applicant to the City.

Designated Historic Resource. A building, structure, object, landscaping element, or natural feature listed or designated as a historical resource, either individually, or as a contributor to a district, at the local, state, or national level. Including but not limited to a listing in the National Register of Historic Places or California Register of Historical Resources, or designation as a Historic-Cultural Monument or Historic Preservation Overlay Zone.

Development Standard. A site or construction condition as defined in California Government Code Section 65915(o)(2), or as amended.

Extremely Low Income. Income Level as defined in Section 50106 of the California Health and Safety Code.

General Commercial Neighborhood Retail and Service Uses. Uses that involve business activity serving the general public, pursuant to LAMC Section 13.07 C, definitions of Neighborhood Retail and Neighborhood Services, including, but not limited to, retail, professional and personal services, hospitality, restaurants, and entertainment.

High Quality Transit Service. A transit route with 15 minutes or less service frequency during peak commute hours in both one directions. For the purpose of determining service interval frequency, a bus route may include a combination of overlapping bus lines when part of a “colinear” or “family” line as determined in coordination with SCAG and local transit agencies, may be considered as one service route for service interval frequency.

Higher Opportunity Areas. High and Highest Resource Areas as defined and identified by the California Tax Credit Allocation Committee (TCAC).

Housing Development. The construction pursuant to a building permit of, or the proposed conversion to condominium ownership pursuant to a final subdivision tract map submitted for approval of any apartment house, apartment hotel, multiple dwelling or group dwelling, residential condominium development or cooperative apartment home having five or more dwelling units. As defined in subdivision (i) of Government Code Section 65915, or as amended, a development project with five or more Residential Units including mixed-use developments; and subdivisions or common interest developments as defined in Section 4100 of the Civil Code or as amended.

Incentive. A reduction in site development standards or a modification to zoning code requirements or architectural design requirements that results in identifiable and actual cost reductions to provide for affordable housing costs as defined in subdivision (k) of California Government Code Section 65915, or as amended.

Lower Income. Income level as defined in California Health and Safety Code Section 50079.5.

Moderate and Lower Opportunity Areas. Moderate Resource, Low Resource, and High-Poverty & Segregation Areas as defined and identified by the California Tax Credit Allocation Committee (TCAC).

Major Transit Stop. In addition to California Public Resources Code Section 21064.3, a site containing a rail or bus rapid transit station or the intersection of two or more bus routes with a service interval of 15 minutes or less during the morning and afternoon peak commute periods in either direction. The stations or bus routes may be existing, under construction or included in the most recent Southern California Association of Governments (SCAG) Regional Transportation Plan (RTP). A bus route may include a combination of overlapping buses and may be considered as one service route for service interval frequency, when part of a “colinear”, “family”, or augmented line as determined in coordination with SCAG and transit agencies).

Maximum Allowable Residential Density. The greatest number of units allowed on a project site as defined in California Government Code Section 65915(o)(6), or as amended.

Moderate Income. Income level as defined in California Health and Safety Code Section 50093.

One Hundred Percent Affordable Housing Project. A Housing Development Project, as defined in California Government Code Section ~~(§)~~ 65589.5, that involves the construction of, addition to, or remodeling of any building or buildings which results in the creation of five or more additional residential dwelling units or guest rooms, where all new dwelling units or guest rooms, exclusive of any manager's units, are restricted affordable for a term of at least 55 years for rental projects or at least 45 years for for-sale projects. With the exception of a manager's unit or units, [or staff units for Projects utilizing California Government Code Section 65913.16](#), all units shall be affordable to lower income households earning up to 80 percent of the area median income, and rents or housing costs to the occupying residents do not exceed 30 percent of the maximum gross income, as those income ranges are defined by the United States Department of Housing and Urban Development (HUD), or any successor agency, except that up to 20 percent of the units may be affordable to Moderate Income households earning up to 120 percent of the area median income, with rents or housing costs consistent with the rents and income ranges as defined by California Health and Safety Code Section 50052.5 or California Health and Safety Code Section 50053.

Privately Owned Public Spaces (POPS). An open space located on private property accessible to the public, such as a plaza, arcades, paseos, through block pedestrian connections, or open air concourses located in or around buildings. To ensure that such open spaces are available to the public, each space must meet the following criteria:

1. Open to the general public free of charge between sunrise and sunset, or during regular business hours, whichever is longer.
2. The publicly accessible open space shall be at a minimum, equal to, or greater than the common outdoor amenity space required by LAMC Section 12.21 G.2(a) and shall have at least one clear minimum dimension of 15 feet in any direction width. [Planters used for trees and landscaping may be located within the required 15 foot dimension provided that planters do not exceed a height of 42 inches.](#)
3. Shall provide at least one tree (non-palm species) for every 1,000 square feet of POPS space.
4. At least one Privately Owned Public Space (POPS) sign shall be posted at every public entrance to the amenity space in accordance with the Public Amenity Space Sign Standards as established by the Director of Planning, and in accordance with LAMC Ch1A, Div. 4C.11. (Signs).

5. Provides at least three (3) ground floor pedestrian amenities as [listed defined in the list](#) below:
 - a. Movable seating/furniture
 - ~~b. Pedestrian-oriented lighting~~
 - c. At grade planting area
 - d. Hydration station [inclusive of a water fountain or bottle refill station](#)
 - e. Urban garden [for community use](#)
 - f. Play and/or exercise equipment
 - g. Running water elements
 - h. [Shade structures](#)

Residential Unit. A dwelling unit or joint living and work quarters; a mobilehome, as defined in California Health and Safety Code Section 18008, or as amended; a mobile home lot in a mobilehome park, as defined in California Health and Safety Code Section 18214, or as amended; or a Guest Room or Efficiency Dwelling Unit provided that the unit is not located in a Transient Residential Use.

Restricted Affordable Unit. A Residential Unit for which rental or mortgage amounts are restricted so as to be affordable to and occupied by Acutely Low Income, Extremely Low, Very Low, Lower or Moderate Income households, as defined by the California Department of Housing and Community Development (HCD) or any successor agency. Affordable means that rents or housing expenses should not exceed requirements set forth in California Health and Safety Code Section 50052.5 for for-sale Residential Units, California Health and Safety Code Section 50053 for for-lease Residential Units, or by the California Tax Credit Allocation Committee.

Sea Level Rise Area. An area of the coast that is vulnerable to five feet of sea level rise, as determined by the National Oceanic and Atmospheric Administration, the Ocean Protection Council, the United States Geological Survey, the University of California, or as determined by a local coastal hazards vulnerability assessment.

Specific Adverse Impact. Per California Government Code Section 65589.5(d)(2), or as amended, a significant, quantifiable, direct, and unavoidable impact, based on objective, identified written public health or safety standards, policies, or conditions as they existed on the date the application was deemed complete.

Surveyed Historic Resource. Any building, structure, object, site, landscape, or natural feature identified through an Historic Resources Survey as eligible for listing as either an individual resource or as a contributor to an historic district under a local, state or federal designation program, including but not limited to listing in the National Register of Historic Places or California Register of Historical Resources, or designation as a Historic-Cultural Monument or as an Historic Preservation Overlay Zone. This term does not include a non-contributor to an eligible historic district.

Very High Fire Hazard Severity Zones. Refer to LAMC Section [57.4911.1.1](#) [57.4908.1](#).

Very Low Income. Income level as defined in California Health and Safety Code Section 50105.

Section [3 2](#). Subdivision 4 of Subsection A of Section 12.21 of the Los Angeles Municipal Code is modified to read as follows:

4. Off-Street Automobile Parking Requirements. (Amended by Ord. No. 185,480, Eff. 5/9/18.) A garage or an off-street automobile parking area shall be provided in connection with and at the time of the erection of each of the buildings or structures hereinafter specified, or at the time such buildings or structures are altered, enlarged, converted or increased in capacity by the addition of dwelling units, guest rooms, beds for institutions, floor area or seating capacity. The parking space capacity required in said garage or parking area shall be determined by the amount of dwelling units, guest rooms, beds for institutions, floor area or seats so provided, and said garage or parking area shall be maintained thereafter in connection with such buildings or structures.

New or existing automobile parking spaces required by the Code for all uses may be replaced by bicycle parking at a ratio of one standard or compact automobile parking space for every four required or non-required bicycle parking spaces provided, so long as the number of compact stalls complies with Section 12.21 A.5.(c) of this Code. In cases where additional bicycle parking spaces are required as a result of an addition to an existing building, the maximum number of bicycle parking spaces eligible to be applied toward the required number of automobile parking spaces shall be calculated based on the total number of bicycle parking spaces provided for the existing building plus the number of bicycle parking spaces provided for the addition. Notwithstanding the foregoing, no more than 20 percent of the required automobile parking spaces for nonresidential uses shall be replaced at a site. Automobile parking spaces for nonresidential projects or buildings located within 1,500 feet of a major transit stop, as defined in Subdivision (b) of Section 21155 of the California Public Resources Code as that section may be amended from time to time, may replace up to 30 percent of the required automobile parking spaces with bicycle parking. For buildings with less than 20 required automobile parking spaces, those spaces may be replaced subject to the limits described in this Subdivision, not exceeding a total of four parking spaces replaced.

Residential buildings, including hotels, motels and apartment hotels, may replace 10 percent of the required automobile parking with bicycle parking. Automobile parking spaces for residential projects or buildings located within 1,500 feet of a major transit stop, as defined in Subdivision (b) of Section 21155 of the California Public Resources Code, may replace up to 15 percent of the required automobile parking spaces with bicycle parking. If a residential building includes at least the minimum number of restricted affordable units to receive a density bonus ~~under Section 12.22 A.25,~~ pursuant to California Government Code Section 65915 (b) then up to 30 percent of the required automobile parking may be replaced. In such cases, the replacement of automobile parking with bicycle parking shall be implemented in lieu of the parking options in California Government Code Section 65915(p) ~~Section 12.22 A.25(d)~~.

Section ~~4 3~~. Paragraph e Subdivision 31 of Subsection E of Section 12.22 of the Los Angeles Municipal Code is modified to read as follows:

31. Procedures. Application for the TOC Incentives shall be made on a form provided by the Department of City Planning, and shall follow the procedures outlined in Los Angeles Municipal Code Section 13B.2.5 (Director Determination) of Chapter 1A of this Code ~~12.22 A.25(g)~~.

Section ~~5 4~~. Subdivision 25 of Subsection A of Section 12.22 of Los Angeles Municipal Code is hereby amended to read as follows:-

See LAMC Section 12.22 A.37 (State Density Bonus Program).

~~25. Affordable Housing Incentives - Density Bonus. (Amended by Ord. No. 179,681, Eff. 4/15/08.)~~

- (a) ~~Purpose.~~ The purpose of this subdivision is to establish procedures for implementing State Density Bonus requirements, as set forth in California Government Code Sections 65915-65918, and to increase the production of affordable housing, consistent with City policies.
- (b) ~~Definitions.~~ Notwithstanding any provision of this Code to the contrary, the following definitions shall apply to this subdivision:

~~Affordable Housing Incentives Guidelines~~ — the guidelines approved by the City Planning Commission under which Housing Development Projects for which a Density Bonus has been requested are evaluated for compliance with the requirements of this subdivision.

~~**Area Median Income (AMI)**—the median income in Los Angeles County as determined annually by the California Department of Housing and Community Development (HCD) or any successor agency, adjusted for household size.~~

~~**Density Bonus**—a density increase over the otherwise maximum allowable residential density under the applicable zoning ordinance and/or specific plan granted pursuant to this subdivision.~~

~~**Density Bonus Procedures**—procedures to implement the City's Density Bonus program developed by the Departments of Building and Safety, City Planning and Housing.~~

~~**Disabled Person**—a person who has a physical or mental impairment that limits one or more major life activities, anyone who is regarded as having that type of an impairment or, anyone who has a record of having that type of an impairment.~~

~~**Floor Area Ratio**—the multiplier applied to the total buildable area of the lot to determine the total floor area of all buildings on a lot.~~

~~**Housing Development Project**—the construction of five or more new residential dwelling units, the addition of five or more residential dwelling units to an existing building or buildings, the remodeling of a building or buildings containing five or more residential dwelling units, or a mixed use development in which the residential floor area occupies at least fifty percent of the total floor area of the building or buildings. For the purpose of establishing the minimum number of five dwelling units, Restricted Affordable Units shall be included and density bonus units shall be excluded.~~

~~**Incentive**—a modification to a City development standard or requirement of Chapter I of this Code (zoning).~~

~~**Income, Very Low, Low or Moderate**—annual income of a household that does not exceed the amounts designated for each income category as determined by HCD or any successor agency.~~

~~**Residential Hotel**—any building containing six or more Guest Rooms or Efficiency Dwelling Units, which are intended or designed to be used, or are used, rented, or hired out to be occupied, or are occupied for sleeping purposes by guests, so long as the Guest Rooms or Efficiency Dwelling Units are also the primary residence of those guests, but not including any building containing six or more Guest Rooms or Efficiency Dwelling Units, which is primarily used by transient guests who do not occupy that building as their primary residence.~~

~~**Residential Unit**—a dwelling unit or joint living and work quarters; a mobilehome, as defined in California Health and Safety Code Section 18008; a mobile home lot in a~~

~~mobilehome park, as defined in California Health and Safety Code Section 18214; or a Guest Room or Efficiency Dwelling Unit in a Residential Hotel.~~

~~**Restricted Affordable Unit**—a residential unit for which rental or mortgage amounts are restricted so as to be affordable to and occupied by Very Low, Low or Moderate Income households, as determined by the Los Angeles Housing Department. (Amended by Ord. No. 187,122, Eff. 8/8/21.)~~

~~**Senior Citizens**—individuals who are at least 62 years of age, except that for projects of at least 35 units that are subject to this subdivision, a threshold of 55 years of age may be used, provided all applicable City, state and federal regulations are met.~~

~~**Senior Citizen Housing Development**—a Housing Development Project for senior citizens that has at least 35 units.~~

~~**Specific Adverse Impact**—a significant, quantifiable, direct, and unavoidable impact, based on objective, identified written public health or safety standards, policies, or conditions as they existed on the date the application was deemed complete.~~

~~**Transit Stop/Major Employment Center**—any one of the following:~~

- ~~(1) A station stop for a fixed transit guideway or a fixed rail system that is currently in use or whose location is proposed and for which a full funding contract has been signed by all funding partners, or one for which a resolution to fund a preferred alignment has been adopted by the Los Angeles County Metropolitan Transportation Authority or its successor agency; or~~
- ~~(2) A Metro Rapid Bus stop located along a Metro Rapid Bus route; or, for a Housing Development Project consisting entirely of Restricted Affordable Units, any bus stop located along a Metro Rapid Bus route; or~~
- ~~(3) The boundaries of the following three major economic activity areas, identified in the General Plan Framework Element: Downtown, LAX and the Port of Los Angeles; or~~
- ~~(4) The boundaries of a college or university campus with an enrollment exceeding 10,000 students.~~

~~(c) **Density Bonus.** Notwithstanding any provision of this Code to the contrary, the following provisions shall apply to the grant of a Density Bonus for a Housing Development Project:~~

- ~~(1) **For Sale or Rental Housing with Low or Very Low Income Restricted Affordable Units.** A Housing Development Project that includes 10% of the total units of the project for Low Income households or 5% of the total units of the project for Very Low Income households, either in rental units or for sale units, shall be granted a minimum Density Bonus of 20%, which may be applied to any~~

~~part of the Housing Development Project. The bonus may be increased according to the percentage of affordable housing units provided, as follows, but shall not exceed 35%:~~

Percentage Low Income Units	Percentage Density Bonus
40	20
44	21.5
42	23
43	24.5
44	26
45	27.5
46	29
47	30.5
48	32
49	33.5
20	35

Percentage Very Low Income Units	Percentage Density Bonus
5	20
6	22.5
7	25
8	27.5
9	30
40	32.5
44	35

~~(2) For Sale or Rental Senior Citizen Housing (Market Rate). A Senior Citizen Housing Development or a mobile-home park that limits residency based on age requirements for housing for older persons pursuant to California Civil Code Sections 798.76 or 799.5 shall be granted a minimum Density Bonus of 20%.~~

~~(3) (Deleted by Ord. No. 181,142, Eff. 6/1/10.)~~

~~(4) A Common Interest Development That Includes Moderate Income Restricted Affordable Units. (Amended by Ord. No. 181,142, Eff. 6/1/10.) A common interest development as defined in Section 1351 of the Civil Code that includes at least 10% of its units for Moderate Income households shall be granted a minimum Density Bonus of 5%. The bonus may be increased according to the percentage of affordable housing units provided, as follows, but shall not exceed 35%:~~

30	25
31	26

32	27
33	28
34	29
35	30
36	31
37	32
38	33
39	34
40	35

- ~~(5) **Land Donation.** An applicant for a subdivision, parcel map or other residential development approval that donates land for housing to the City of Los Angeles satisfying the criteria of California Government Code Section 65915(h)(2), as verified by the Department of City Planning, shall be granted a minimum Density Bonus of 15%.~~
- ~~(6) **Child Care.** A Housing Development Project that conforms to the requirements of Subparagraphs (1), (2), (3), (4) or (5) of this paragraph and includes a child care facility located on the premises of, as part of, or adjacent to, the project, shall be granted either of the following:~~
- ~~(i) an additional Density Bonus that is, for purposes of calculating residential density, an increase in the floor area of the project equal to the floor area of the child care facility included in the project.~~
 - ~~(ii) An additional Incentive that contributes significantly to the economic feasibility of the construction of the child care facility.~~
- ~~(7) **Fractional Units.** In calculating Density Bonus and Restricted Affordable units, any number resulting in a fraction shall be rounded up to the next whole number.~~
- ~~(8) **Other Discretionary Approval.** Approval of Density Bonus units shall not, in and of itself, trigger other discretionary approvals required by the Code.~~
- ~~(9) **Other Affordable Housing Subsidies.** Approval of Density Bonus units does not, in and of itself, preclude projects from receipt of other government subsidies for affordable housing.~~

- ~~(10) **Additional Option for Restricted Affordable Units located near Transit Stop/Major Employment Center.** In lieu of providing the requisite number of Restricted Affordable Units in a Housing Development Project located in or within 1,500 feet of a Transit Stop/Major Employment Center that would otherwise be required under this subdivision, an applicant may opt to provide a greater number of smaller units, provided that:~~
- ~~(i) the total number of units in the Housing Development Project including Density Bonus units does not exceed the maximum permitted by this subdivision;~~
 - ~~(ii) the square footage of the aggregate smaller Restricted Affordable units is equal to or greater than the square footage of the aggregate Restricted Affordable Units that would otherwise be required under this subdivision;~~
 - ~~(iii) the smaller Restricted Affordable units are distributed throughout the building and have proportionally the same number of bedrooms as the market rate units; and~~
 - ~~(iv) the smaller Restricted Affordable Units meet the minimum unit size requirements established by the Low Income Housing Tax Credit Program as administered by the California Tax Credit Allocation Committee (TCAC).~~
- ~~(11) **Common Interest Development with Low or Very Low Income restricted Affordable Units for Rent.** In a common interest development as defined in California Government Code Section 1351, such as a condominium, Restricted Affordable Units may be for sale or for rent.~~
- ~~(12) **Condominium Conversion.** A Housing Development Project that involves the conversion of apartments into condominiums and that includes 33 percent of its units restricted to households of Low or Moderate income or 15 percent of its units restricted to households of Very Low Income shall be granted a Density Bonus of 25 percent or up to three incentives as provided in Paragraph (e) of this subdivision.~~
- ~~(d) **Parking in a Housing Development Project.** Required parking spaces for a Housing Development Project that is for sale or for rent and qualifies for a Density Bonus and complies with this subdivision may be provided by complying with whichever of the following options requires the least amount of parking: applicable parking provisions of Section 12.21 A.4. of this Code, or Parking Option 1 or Parking Option 2, below. Required parking in a Housing Development Project that qualifies for a Density Bonus may be sold or rented separately from the dwelling units, so that buyers and tenants have the option of purchasing or renting a unit without a parking space. The separate~~

~~sale or rental of a dwelling unit and a parking space shall not cause the rent or purchase price of a Restricted Affordable Unit (or the parking space) to be greater than it would otherwise have been.~~

~~(1) **Parking Option 1.** Required parking for all residential units in the Housing Development Project (not just the restricted units), inclusive of handicapped and guest parking, shall be reduced to the following requirements:~~

- ~~(i) For each Residential Unit of 0-1 bedroom: 1 on-site parking space.~~
- ~~(ii) For each Residential Unit of 2-3 bedrooms: 2 on-site parking spaces.~~
- ~~(iii) For each Residential Unit of 4 or more bedrooms: 2 1/2 on-site parking spaces.~~

~~(2) **Parking Option 2.** Required parking for the Restricted Affordable Units only shall be reduced as set forth in Subparagraphs (i) and (ii) below. Required parking for all other non-restricted units in the Housing Development Project shall comply with applicable provisions of Section 12.21 of this Code:~~

- ~~(i) One parking space per Restricted Affordable Unit, except:

 - ~~a. 0.5 parking space for each dwelling unit restricted to Low or Very Low Income Senior Citizens or Disabled Persons; and/or~~
 - ~~b. 0.25 parking space for each Restricted Affordable Unit in a Residential Hotel.~~~~
- ~~(ii) Up to 40% of the required parking for the Restricted Affordable Units may be provided by compact stalls.~~

~~(c) **Incentives:**~~

~~(1) In addition to the Density Bonus and parking options identified in Paragraphs (c) and (d) of this subdivision, a Housing Development Project that qualifies for a Density Bonus shall be granted the number of Incentives set forth in the table below:~~

Number of Incentives	Required Percentage* of Units Restricted for Very Low Income Households	Required Percentage* of Units Restricted for Low Income Households	Required Percentage* of Units Restricted for Moderate Income Households (For Sale Only)
One Incentive	5% or	10% or	10%
Two Incentives	10% or	20% or	20%
Three Incentives	15% or	30%	30%

~~*Excluding Density Bonus Units~~

~~(2) To be eligible for any on-menu incentives, a Housing Development Project (other than an Adaptive Reuse project) shall comply with the following:~~

~~(i) The facade of any portion of a building that abuts a street shall be articulated with a change of material or with a break in plane, so that the facade is not a flat surface.~~

~~(ii) All buildings must be oriented to the street by providing entrances, windows, architectural features and/or balconies on the front and along any street-facing elevations.~~

~~(iii) The Housing Development Project shall not be a contributing structure in a designated Historic Preservation Overlay Zone and shall not be on the City of Los Angeles list of Historical Cultural Monuments.~~

~~(iv) The Housing Development Project shall not be located on a substandard street in a Hillside Area or in a Very High Fire Hazard Severity Zone as established in Section 57.4908 of this Code.~~

~~(f) **Menu of Incentives.** Housing Development Projects that meet the qualifications of Paragraph (e) of this subdivision may request one or more of the following Incentives, as applicable:~~

~~(1) **Yard/Setback.** Up to 20% decrease in the required width or depth of any individual yard or setback except along any property line that abuts an R1 or more restrictively zoned property provided that the landscaping for the Housing Development Project is sufficient to qualify for the number of landscape points equivalent to 10% more than otherwise required by Section 12.40 of this Code and Landscape Ordinance Guidelines "O."~~

~~(2) **Lot Coverage.** Up to 20% increase in lot coverage limits, provided that the landscaping for the Housing Development Project is sufficient to qualify for the number of landscape points equivalent to 10% more than otherwise required by Section 12.40 of this Code and Landscape Ordinance Guidelines "O".~~

~~(3) **Lot Width.** Up to 20% decrease from a lot width requirement, provided that the landscaping for the Housing Development Project is sufficient to qualify for the number of landscape points equivalent to 10% more than otherwise required by Section 12.40 of this Code and Landscape Ordinance Guidelines "O".~~

~~(4) **Floor Area Ratio:**~~

- ~~(i) A percentage increase in the allowable Floor Area Ratio equal to the percentage of Density Bonus for which the Housing Development Project is eligible, not to exceed 35%; or~~
- ~~(ii) In lieu of the otherwise applicable Floor Area Ratio, a Floor Area Ratio not to exceed 3:1, provided the parcel is in a commercial zone in Height District 1 (including 1VL, 1L and 1XL), and fronts on a Major Highway as identified in the City's General Plan, and

 - ~~a. the Housing Development Project includes the number of Restricted Affordable Units sufficient to qualify for a 35% Density Bonus, and~~
 - ~~b. 50% or more of the commercially zoned parcel is located in or within 1,500 feet of a Transit Stop/Major Employment Center.~~~~

~~A Housing Development Project in which at least 80% of the units in a rental project are Restricted Affordable Units or in which 45% of the units in a for-sale project are Restricted Affordable Units shall be exempt from the requirement to front on a Major Highway.~~

- ~~(5) **Height.** A percentage increase in the height requirement in feet equal to the percentage of Density Bonus for which the Housing Development Project is eligible. This percentage increase in height shall be applicable over the entire parcel regardless of the number of underlying height limits. For purposes of this subparagraph, Section 12.21.1 A.10. of this Code shall not apply.~~

- ~~(i) In any zone in which the height or number of stories is limited, this height increase shall permit a maximum of eleven additional feet or one additional story, whichever is lower, to provide the Restricted Affordable Units.

 - ~~a. No additional height shall be permitted for that portion of a of a building in a Housing Development Project that is located within fifteen feet of a lot classified in the R2 Zone.~~
 - ~~b. For each foot of additional height the building shall be set back one horizontal foot.~~~~
- ~~(ii) No additional height shall be permitted for that portion of a building in a Housing Development Project that is located within 50 feet of a lot classified in an R1 or more restrictive residential zone.~~

~~(iii) No additional height shall be permitted for any portion of a building in a Housing Development Project located on a lot sharing a common lot line with or across an alley from a lot classified in an R1 or more restrictive zone. This prohibition shall not apply if the lot on which the Housing Development Project is located is within 1,500 feet of a Transit Stop but no additional height shall be permitted for that portion of a building in the Housing Development Project that is located within 50 feet of a lot classified in an R1 or more restrictive residential zone.~~

~~(6) **Open Space.** Up to 20% decrease from an open space requirement, provided that the landscaping for the Housing Development Project is sufficient to qualify for the number of landscape points equivalent to 10% more than otherwise required by Section 12.40 of this Code and Landscape Ordinance Guidelines "O".~~

~~(7) **Density Calculation.** The area of any land required to be dedicated for street or alley purposes may be included as lot area for purposes of calculating the maximum density permitted by the underlying zone in which the project is located.~~

~~(8) **Averaging of Floor Area Ratio, Density, Parking or Open Space, and permitting Vehicular Access.** A Housing Development Project that is located on two or more contiguous parcels may average the floor area, density, open space and parking over the project site, and permit vehicular access from a less restrictive zone to a more restrictive zone, provided that:~~

~~(i) the Housing Development Project includes 11% or more of the units as Restricted Affordable Units for Very Low Income households, or 20% of the units for Low Income households, or 30% of the units for Moderate Income households; and~~

~~(ii) the proposed use is permitted by the underlying zone(s) of each parcel; and~~

~~(iii) no further lot line adjustment or any other action that may cause the Housing Development Project site to be subdivided subsequent to this grant shall be permitted.~~

~~(g) **Procedures:**~~

~~(1) **Density Bonus and Parking.** Housing Development Projects requesting a Density Bonus without any Incentives (which includes a Density Bonus with only parking requirements in accordance with Paragraphs (c) and (d) of this subdivision) shall be considered ministerial and follow the Affordable Housing~~

~~Incentives Guidelines and the Density Bonus Procedures. No application for these projects need be filed with the City Planning Department.~~

~~(2) Requests for Incentives on the Menu:~~

~~(i) The applicant for Housing Development Projects that qualify for a Density Bonus and that request up to three Incentives on the Menu of Incentives in Paragraph (f) of this subdivision, and which require no other discretionary actions, the following procedures shall apply:~~

~~a. **Application.** The request shall be made on a form provided by the Department of City Planning, as set forth in Section 11.5.7 B.2.(a) of this Code, accompanied by applicable fees.~~

~~b. **Authority. (Amended by Ord. No. 182,106, Eff. 5/20/12.)** The Director shall be the initial decision maker for applications seeking on-Menu incentives:~~

~~**EXCEPTION:** When the application is filed as part of a project requiring multiple approvals, the initial decision maker shall be as set forth in Section 12.36 of this Code; and when the application is filed in conjunction with a subdivision and no other approval, the Advisory Agency shall be the initial decision maker.~~

~~c. **Action.** The Director shall approve a Density Bonus and requested Incentive(s) unless the Director finds that:~~

~~i. The Incentive is not required in order to provide for affordable housing costs as defined in California Health and Safety Code Section 50052.5, or Section 50053 for rents for the affordable units; or~~

~~ii. The Incentive will have a Specific Adverse Impact upon public health and safety or the physical environment or on any real property that is listed in the California Register of Historical Resources and for which there is no feasible method to satisfactorily mitigate or avoid the Specific Adverse Impact without rendering the development unaffordable to Very Low, Low and Moderate Income households. Inconsistency with the zoning ordinance or general plan land use designation shall not constitute a specific, adverse impact upon the public health or safety.~~

~~d. **Transmittal of Written Decision.** Within three business days of making a decision, the Director shall transmit a copy by First Class Mail to the applicant and to all owners of properties abutting, across the street or alley from, or having a common corner with the subject property, and to the local Certified Neighborhood Council.~~

~~e. **Effective Date of Initial Decision.** The Director's decision shall become effective after an elapsed period of 15 calendar days from the date of the mailing of the written decision unless an appeal is filed to the City Planning Commission.~~

~~f. **Appeals. (Amended by Ord. No. 182,106, Eff. 5/20/12.)** An applicant or any owner or tenant of a property abutting, across the street or alley from, or having a common corner with the subject property aggrieved by the Director's decision may appeal the decision to the City Planning Commission pursuant to applicable procedures set forth in Section 11.5.7 C.6. of this Code that are not in conflict with the provisions of this paragraph (g)(2)(i). The appeal shall include a filing fee pursuant to Section 19.01 B. of this Code. Before acting on any appeal, the City Planning Commission shall set the matter for hearing, with written notice of the hearing sent by First Class Mail at least ten days prior to the meeting date to: the applicant; the owner(s) of the property involved; and the interested parties who have requested notice in writing. The appeal shall be placed on the agenda for the first available meeting date of the City Planning Commission and acted upon within 60 days from the last day of the appeal period. The City Planning Commission may reverse or modify, in whole or in part, a decision of the Director. The City Planning Commission shall make the same findings required to be made by the Director, supported by facts in the record, and indicate why the Director erred making the determination.~~

~~**EXCEPTION:** When the application is filed as part of a project requiring multiple approvals, the appeals procedures set forth in Section 12.36 of this Code shall govern. When the application is filed in conjunction with a Parcel Map and no other approval, the appeals procedures set forth in Section 17.54 of this Code shall govern. When the application is filed in conjunction with a tentative map and no other approval, the appeals procedures set forth in Section 17.06 A.3. of this Code shall govern, provided that such applications shall only be appealable to the Appeal Board, as~~

~~defined in Section 17.02 of this Code, and shall not be subject to further appeal to the City's legislative body.~~

~~(ii) For Housing Development Projects that qualify for a Density Bonus and for which the applicant requests up to three Incentives listed in Paragraph (f), above, and that require other discretionary actions, the applicable procedures set forth in Section 12.36 of this Code shall apply:~~

~~a. The decision must include a separate section clearly labeled "Density Bonus/ Affordable Housing Incentives Program Determination":~~

~~b. The decision maker shall approve a Density Bonus and requested Incentive(s) unless the decision maker, based upon substantial evidence, makes either of the two findings set forth in Subparagraph (2)(i)(c), above:~~

~~(3) **Requests for Waiver or Modification of any Development Standard(s) Not on the Menu:**~~

~~(i) For Housing Development Projects that qualify for a Density Bonus and for which the applicant request a waiver or modification of any development standard(s) that is not included on the Menu of Incentives in Paragraph (f), above, and that are not subject to other discretionary applications, the following shall apply:~~

~~a. The request shall be made on a form provided by the Department of City Planning, accompanied by applicable fees, and shall include a pro forma or other documentation to show that the waiver or modification of any development standard(s) are needed in order to make the Restricted Affordable Units economically feasible:~~

~~b. **Notice and Hearing.** The application shall follow the procedures for conditional uses set forth in Section 12.24 D. of this Code. A public hearing shall be held by the City Planning Commission or its designee. The decision of the City Planning Commission shall be final:~~

~~c. The City Planning Commission shall approve a Density Bonus and requested waiver or modification of any development standard(s) unless the Commission, based upon substantial evidence, makes either of the two findings set forth in Subparagraph (g)(2)(i)c., above:~~

~~(ii) For Housing Development Projects requesting waiver or modification of any development standard(s) not included on the Menu of Incentives in Paragraph (f) above, and which include other discretionary applications, the following shall apply:~~

~~a. The applicable procedures set forth in Section 12.36 of this Code shall apply.~~

~~b. The decision must include a separate section clearly labeled "Density Bonus/ Affordable Housing Incentives Program Determination".~~

~~c. The decision maker shall approve a Density Bonus and requested waiver or modification of any development standard(s) unless the decision maker, based upon substantial evidence, makes either of the two findings set forth in Subparagraph (g)(2)(i)c., above.~~

~~(h) **Covenant.** Prior to issuance of a Building Permit, the following shall apply:~~

~~(1) For any Housing Development Project qualifying for a Density Bonus and that contains housing for Senior Citizens, a covenant acceptable to the Los Angeles Housing Department shall be recorded with the Los Angeles County Recorder, guaranteeing that the occupancy restriction to Senior Citizens shall be observed for at least 30 years from the issuance of the Certificate of Occupancy or a longer period of time if required by the construction or mortgage financing assistance program, mortgage assistance program, or rental subsidy program. **(Amended by Ord. No. 187,122, Eff. 8/8/21.)**~~

~~(2) For any Housing Development Project qualifying for a Density Bonus and that contains housing for Low or Very Low Income households, a covenant acceptable to the Los Angeles Housing Department shall be recorded with the Los Angeles County Recorder, guaranteeing that the affordability criteria will be observed for at least 30 years from the issuance of the Certificate of Occupancy or a longer period of time if required by the construction or mortgage financing assistance program, mortgage assistance program, or rental subsidy program. **(Amended by Ord. No. 187,122, Eff. 8/8/21.)**~~

~~(3) For any Housing Development Project qualifying for a Density Bonus and that contains housing for Moderate Income households for sale, a covenant acceptable to the Los Angeles Housing Department and consistent with the for sale requirements of California Government Code Section 65915(c)(2) shall be recorded with the Los Angeles County Recorder guaranteeing that the~~

~~affordability criteria will be observed for at least ten years from the issuance of the Certificate of Occupancy. (Amended by Ord. No. 187,122, Eff. 8/8/21.)~~

~~(4) If the duration of affordability covenants provided for in this subdivision conflicts with the duration for any other government requirement, the longest duration shall control.~~

~~(5) Any covenant described in this paragraph must provide for a private right of enforcement by the City, any tenant, or owner of any building to which a covenant and agreement applies.~~

~~(i) **Fee Deferral.** At the option of the applicant, payment of fees may be deferred pursuant to Sections 19.01 O. and 19.05 A.1. of this Code.~~

~~(j) **Applicability.** To the extent permitted under applicable State law, if a conflict arises between the terms of this subdivision and the terms of the City's Mello Act Settlement Agreement, Interim Administrative Procedures for Complying with the Mello Act or any subsequent permanent Mello Ordinance, Procedures or Regulations (collectively "Mello Terms"), the Mello Terms preempt this subdivision.~~

Section 6 5. Subdivision 37 of Subsection A of Section 12.22 of the Los Angeles Municipal Code is added to read as follows:

12.22 A.37 STATE DENSITY BONUS PROGRAM

(a) **Purpose.** The purpose of this Subdivision is to establish procedures for the implementation of State Density Bonus requirements, as set forth in California Government Code Sections 65915-65918, and to increase the production of affordable housing, consistent with City policies.

(b) **Definitions.** The following definitions shall apply to this Subdivision:

Disabled Veteran. Disabled Veteran shall be as defined in Section 18541 of the California Government Code.

Environmental Consideration Area. Project sites that were previously used as a gas station, ~~automotive maintenance or repair~~, gas or oil well, or dry-cleaning facility, or Project sites located on or within 500 feet of a Hazardous Materials site (as listed on any of the following databases: State Water Resources Control Board Geotracker, DTSC EnviroStor or listed pursuant to Government Code Section 65962.5, DTSC Hazardous Waste Tracking System, LAFD Certified Unified Program Agency, Los Angeles County Fire Department Health Hazardous Materials Division, SCAQMD Facility Information Detail), or Project sites located on or within 500 feet of a Hazardous Materials site designated as a Resource Conservation and Recovery Act (RCRA) Small Quantity Generator or Large Quantity Generator (refer to US EPA Envirofacts database), or Project sites located in an Oil Drilling District (O), or Project sites located within the following buffers-of a property identified as having an oil well or an oil field by the California Geologic Energy Management Division: on or within 1,000 500 feet from an active oil well or field, on or within 200 feet from an idle oil well or field, and on or within 100 feet from a plugged oil well or field.

Homeless Person. Homeless Person as defined in the federal McKinney-Vento Homeless Assistance Act (42 U.S.C. Sec. 11301 et seq.).

Lower Income Student. A student who has a household income and asset level that does not exceed the level for Cal Grant A or Cal Grant B award recipients as set forth in paragraph (1) of subdivision (k) of Section 69432.7 of the Education Code, or as amended. The eligibility of a student to occupy a unit for lower income students under this section shall be verified by an affidavit, award letter, or letter of eligibility provided by the institution of higher education in which the student is enrolled or by the California Student Aid Commission that the student receives or is eligible for financial aid, including an institutional grant or fee waiver from the college or university, the California Student Aid Commission, or the federal government.

Senior Citizens. Individuals who are at least 62 years of age, except that for projects of at least 35 units that are subject to this subdivision, a threshold of 55 years of age may be used, provided all applicable City, state and federal regulations are met.

Senior Citizen Housing Development. A Housing Development that has at least 35 dwelling units or guest rooms, as defined in Sections 51.3 and 51.12 of the Civil Code, or a mobilehome park that limits residency based on age requirements for housing for older persons pursuant to Section 798.76 or 799.5 of the Civil Code.

Shared Housing Building. A residential or mixed-use structure, with five or more shared housing units and one or more common kitchens and dining areas designed for permanent residence of more than 30 days by its tenants as defined in California Government Code Section 65915(o)(7)(A), or as amended.

Shared Housing Unit. A Residential Unit with one or more habitable rooms, not within another dwelling unit as defined in Government Code Section 65915(o)(7)(B) or as amended. Shared Housing Units shall be considered “Guest Rooms” for purposes of zoning and allowable density.

Student Housing Development. Student Housing Development shall be as defined in California Government Code Section 65915(b)(1)(F).

Transitional Foster Youth. Transitional Foster Youth shall be as defined in Section 66025.9 of the Education Code.

Very Low Vehicle Travel Area. Refer to California Government Code Section 65915 (o)(9).

(c) **Eligibility.** To qualify for the provisions of this Subdivision, a Housing Development must satisfy all of the following:

- (1) Meet the definition of a Housing Development or Shared Housing Building, with five or more Residential Units or Shared Housing Units including mixed-use developments. For the purpose of establishing the minimum number of five Residential Units or Shared Housing Units, ~~Restricted Affordable Units shall be included, while~~ Density Bonus units shall be excluded.

(2) Reserve a percentage of the Residential Units (excluding Residential Units added by a Density Bonus) provided in a Housing Development's Maximum Allowable Residential Density for:

- (i) Restricted Affordable Units for at least one of the following income levels in Table 12.22 A.37(c)(2)(iii) below, or
- (ii) Restricted Affordable Units for one of the Target Populations listed in Table 12.22 A.37(c)(2)(iii) below.

TABLE 12.22 A.37(c)(2)(iii) Required Percentage of Restricted Affordable Units	
Income Level	Minimum % of Residential Units Provided (Excluding Residential Units Added by a Density Bonus) Maximum Allowable Residential Density
Very Low Income (For Rental or For Sale)	5
Low Income (For Rental or For Sale)	10
Moderate Income (For Sale)	10
Target Population	Minimum % of Residential Units Provided (Excluding Residential Units Added by a Density Bonus) Maximum Allowable Residential Density
Senior Citizen	100 ¹
Transitional Foster Youth, Disabled Veteran, or Homeless Persons ²	10
Lower Income Students ³	20

Footnotes

1 Senior Citizen Housing Development must comply with Sections 51.2 and 51.3 of the California Civil Code- and all units provided in the resulting Senior Citizen Housing Development should be reserved for Senior Citizens regardless of the specifications stated in Table 12.22 A.37(c)(2)(iii).

2 Residential Units provided for Transitional Foster Youth, Disabled Veterans, or Homeless Persons in Table 12.22 A.37(c)(2)(iii) shall be provided as Very Low Income Restricted Affordable Units.

3 Residential Units provided for Lower Income Students shall be provided at an affordability level as specified in California Government Code Section 65915(b)(1)(F).

- (3) The Housing Development does not require the demolition of a Designated Historic Resource, as demolition is defined in LAMC Section 13B.8.1.C of Chapter 1A of this Code, and any proposed alteration to a Designated Historic Resource shall not be approved until a review has been completed by the Office of Historic Resources.
- (4) Housing Developments located on project sites that meet the definition of an Environmental Consideration Area shall comply with all applicable standards contained in the Environmental Protection Measures adopted pursuant to LAMC Section 11.5.15.
- (d) **Procedures.** A Housing Development that meets the provisions of this Subdivision shall be reviewed pursuant to Procedures ~~described in this Paragraph, as set forth below.~~ ~~Though an Approval~~ of a Density Bonus or Incentive pursuant to this Subdivision shall not, in and of itself, trigger a General Plan Amendment, ~~z~~Zone ~~e~~Change, Project Review or other discretionary review actions required by this Zoning Code~~., the applicable procedures set forth in LAMC Section 13A.2.10 (Multiple Approvals) of Chapter 1A of this Code shall apply for Housing Developments seeking other discretionary approvals in conjunction with an application requested pursuant to the procedures in Paragraph (d).~~
- (1) **Los Angeles Department of Building and Safety Review.** Housing Developments seeking Base Incentives described in Paragraph (e) and/or Incentives listed on the Menu of Incentives described in [LAMC Section 12.22 A.37\(f\)\(2\) Paragraph \(f\)](#) shall be considered ministerial and processed by the Department of Building and Safety.
- (i) Exception. Housing Developments requesting Incentives from the Menu of Incentives that cannot comply with the criteria established in LAMC Section 12.22 A.37(f)(1)(iii) shall comply with procedures set forth in LAMC Section 12.22 A.37(d)(2).

(2) **Expanded Administrative Review.** The following Housing Developments shall be ministerially reviewed by the Department of City Planning approved pursuant to Expanded Administrative Review, as set forth by the provisions of LAMC Section 13B.3.2 (Expanded Administrative Review) of Chapter 1A of this Code. As defined in this section, ministerial approval means an administrative process to approve a “use by right” as this term is defined in California Government Code Section 65583.2 (i). Housing Developments requesting waivers or modifications reductions of Development Standards in addition to Incentives shall be subject to the Procedures described in LAMC Section 12.22 A.37(d)(3).

(i) Housing Developments that request the Public Benefit Options described in Paragraph (g). Housing Developments that request only Public Benefit Options in addition to Incentives listed on the Menu of Incentives shall not be subject to any hearing procedures regardless of the provisions contained in LAMC Section 13B.3.2.D.

(ii) Housing Developments that request Incentives, ~~allowed by Table 12.22 A.37(f)(1)(i)~~, not listed on the Menu of Incentives described in LAMC Section 12.22 A.37(f)(2). Housing Developments that request Incentives not listed on the Menu of Incentives may be subject to a public hearing as described in LAMC Section 13B.3.2.D.

~~a. **Exception.** In addition to the general procedures described in LAMC Section 13B.3.2 (Expanded Administrative Review) of Chapter 1A of this Code, Housing Developments that request an Incentive for not on or in excess the following of the Menu of Incentives for relief from Floor Area Ratio (FAR), Height, Open Space requirements, tree planting requirements, ground story requirements, and/or yards/setback requirements shall be subject to the Public Hearing and Appeals procedures described in LAMC Section 13B.3.2.D (Expanded Administrative Review).~~

~~(ii) Housing Developments requesting Incentives from the Menu of Incentives that cannot comply with the criteria established in LAMC Section 12.22 A.37(f)(1)(iii) shall be subject to the Public Hearing and Appeals procedures described in LAMC Section 13B.3.2.D in addition to the general procedures described in LAMC Section 13B.3.2 (Expanded Administrative Review).~~

~~(iii) Housing Developments that request the Public Benefit Options described in Paragraph (g).~~

(3) **City Planning Commission Review.** The following Housing Developments must file an application pursuant to the procedures set forth in LAMC Section 13B.2.3 (Class 3 Conditional Use Permit) of Chapter 1A of this Code. Notwithstanding the provisions set forth in Sec. 13B.2.3. of Chapter 1A, the decision of the City Planning Commission shall be final.

- (i) Housing Developments that request waivers or ~~modifications~~ reductions of any Development Standards not listed on the Menu of Incentives described in LAMC Section 12.22 A.37(f)(2) Paragraph (f). Waivers or ~~modifications~~ reductions of Development Standards shall be approved by the applicable decision-making authority unless that decision making authority finds that:
- a. The Development Standard associated with a request for waiver(s) or reduction(s) in Development Standards will not have the effect of physically precluding the construction of a development meeting the Eligibility criteria described in Paragraph (c) at the densities or with the concessions or incentives permitted under Paragraph (e); or
 - b. The waivers or reductions of Development Standards would have a Specific Adverse Impact as defined in paragraph (2) of subdivision (d) of Section 65589.5, upon public health and safety or on a California Register of Historical Resources and for which there is no feasible method to satisfactorily mitigate or avoid the specific, adverse impact without rendering the development unaffordable to low-income and moderate-income households; or
 - c. The waivers or reductions of Development Standards are contrary to state or federal law.

(ii) In addition to the procedures set forth in LAMC Section 13B.2.3 of Chapter 1A of this Code, Housing Developments requesting Density Bonuses that exceed 50% or ~~88.75%~~, ~~or 100%~~ dependent on the percentage of Restricted Affordable Units provided shall be subject to the requirements and findings set forth in LAMC 12.24 U.26.

(4) **One Hundred Percent Affordable Housing Projects.** One Hundred Percent Affordable Housing Projects shall be reviewed pursuant to LAMC Section 12.22 A.39.

- (5) **Other Discretionary Approvals.** Applicable procedures set forth in LAMC Section 13A.2.10 (Multiple Approvals) of Chapter 1A of this Code apply for Housing Developments seeking other discretionary approvals in conjunction with an application requested pursuant to the Procedures in Paragraph (d). Regardless of any other findings that may be applicable, the decision-maker must approve the requested Base Incentives and Additional Incentives, either on or off the Menu of Incentives described in [LAMC Section 12.22 A.37\(f\)\(2\) Paragraph \(f\)](#), requested under this Subdivision unless the decision-maker, based upon substantial evidence, [determines that the Housing Development meets one or more of the criteria described in LAMC Section 12.22 A.37\(f\)\(1\)\(ii\)](#). ~~makes either of the findings in Subsection (2) of Paragraph (f) of this subdivision.~~

DRAFT

(e) **Base Incentives.** A Housing Development shall be granted any of the Base Incentives established in this Paragraph Subsection in exchange for the required minimum percentage of Restricted Affordable Units established in Paragraph (c) of this Subdivision. Projects that qualify for Base Incentives established in this Paragraph shall also be eligible for Additional Incentives pursuant to Paragraph (f) and Public Benefit Options pursuant to Paragraph (g) of this Subdivision **unless otherwise stated.**

(1) **Density.**

(i) **For Sale or Rental Housing with Very Low or Low Income Restricted Affordable Units and For Sale Housing with Moderate Income Units.**

For Sale or Rental Housing with Very Low or Low Income Restricted Affordable Units and For Sale Housing with Moderate Income units shall receive a Density Bonus as follows in Table 12.22 A.37(e)(1)(i)a but shall not exceed 50% unless seeking an Additional Density Bonus pursuant to Table 12.22 A.37(e)(1)(ii). Residential Units constructed as a result of a Density Bonus may be permitted in geographic areas of the Housing Development other than the areas where Restricted Affordable Units or units for a Target Population are located.

(ii) **Additional Density Bonus.** A Housing Development that provides Restricted Affordable Units sufficient to qualify for a 50% Density Bonus may seek an additional Density Bonus pursuant to Table 12.22 A.37(e)(1)(ii)a provided that the resulting Housing Development does not restrict more than 50% of a Housing Development's overall Residential Units ~~the Maximum Allowable Residential Density~~ to Restricted Affordable Units. The Additional Density Bonus shall be calculated excluding any Density Bonus allowed by Table 12.22 A.37(e)(1)(i). The Additional Density Bonus shall also be calculated separately from the Density Bonus allowed by Table 12.22 A.37(e)(1)(i)a to account for the rounding of fractional numbers for both the Density Bonus and Additional Density Bonus pursuant to LAMC Section 12.22 A.37(h)(5).

TABLE 12.22 A.37(e)(1)(ii)a Required Percentage of Restricted Affordable Unit Set Asides - Additional Density Bonuses		
Percentage of Density Bonus	Percentage of Very Low Income	Percentage of Moderate-Income
20	5	5
22.5	-	6
23.75	6	-
25	-	7
27.5	7	8
30	-	9
31.25	8	-
32.5	-	10
35	9	11
38.75	10	12
42.5	-	13
46.25	-	14
50	-	15

(iii) **Housing for Target Populations.** Housing Developments that provide Residential Units for a target population listed in Table 12.22 A.37(c)(2)(iii) shall receive a Density Bonus as follows in Table 12.22 A.37(e)(1)(iii)a. These Density Bonuses may be combined with a Density Bonus for Residential Units units set aside as Restricted Affordable Units based on Table 12.22 A.37(3)(e)(1)(i)a so long as the Restricted Affordable Units are set aside for the applicable Target Population.

TABLE 12.22 A.37(e)(1)(iii)a Housing for Target Populations - Density Bonuses		
Target Population	Minimum Required % of Maximum Allowable Residential Density for Target Population (excluding Density Bonus units)	Percentage of Density Bonus
Senior Citizen	400% ¹	20%
Transitional Foster Youth/Disabled Veterans/Homeless Persons	40%	20%
Lower Income Student Development	20%	35%

Footnotes

1 Senior Citizen Housing Development must comply with Sections 51.2 and 51.3 of the California Civil Code.

(iv) **Land Donation.** An applicant for a subdivision, parcel map or other residential development approval that donates land for housing to the City of Los Angeles satisfying the criteria of California Government Code Section 65915(g)(2), as verified by the Department of City Planning, shall be granted a minimum Density Bonus of 15% in addition to the Density Bonus sought pursuant to LAMC Section 12.22 A.37(e)(1), up to a combined maximum density increase of 35%. The Department of City Planning may create an Implementation Memorandum for the purpose of clarifying procedures associated with the implementation of Land Donations pursuant to California Government Code Section 65915(g).

(2) **Parking.** Housing Developments may reduce the number of required parking spaces set forth in Section 12.21 A.4 of this code as follows, pursuant to California Government Code Section 65915 (p):

(i) Parking shall not be required for Housing Developments located within one-half mile of a Major Transit Stop pursuant to California Government Code Section 65863.2.

(ii) Unless eligible for parking reductions pursuant to California Government Code Section 65863.2, a Housing Development may utilize the vehicular parking ratio described in Table 12.22 A.37(e)(2)(ii)a.

TABLE 12.22 A.37(e)(2)(ii)a Vehicular Parking Ratio for Eligible Housing Developments	
Number of Bedrooms	Parking Spaces per Residential Unit Type
Zero to one bedroom	1
Two to three bedrooms	1.5
Four and more bedrooms	2.5

(iii) Pursuant to California Civil Code Section 1947.1, provided parking shall be sold or rented separately from the **Residential Units in Housing Developments properties** with 16 or more units, as verified by the Los Angeles Housing Department.

(iv) Required automobile parking applies for all Residential Units in a Housing Development (not just the **Restricted Affordable Units**), inclusive of disabled and required guest parking, where applicable. All parking spaces provided shall comply with Subdivision 12.21 A.5 of the **LAMC Code**. Except that, **consistent with California Government Code Section 65915(p)(4)**, any combination of standard, compact or tandem spaces may be provided. Tandem parking spaces that do not comply with Subparagraph 12.21 A.5(h)(2) of the **LAMC Code** may be provided in any configuration as long as a parking attendant or an automated parking system is provided **at all times**.

(v) **Consistent with California Government Code Section 65915(p)(4)**, required parking spaces provided may be uncovered.

(f) **Additional Incentives.** A Housing Development shall be granted a number of Additional Incentives pursuant to the provisions of this Paragraph described below in addition to the Base Incentives established in LAMC Section 12.22 A.37(e).

(1) A Housing Development shall be eligible for Additional Incentives based on Table 12.22 A.37(f)(1)(i) below. A Housing Development may request Incentives listed in Paragraph (f)(2) or use an Incentive to seek a deviation from a Development Standard elsewhere in the LAMC Code or a Housing Development site's applicable zoning ordinance, specific plan, or overlay. Refer to Paragraph (d) for the approval Procedure that is consistent with the Housing Development's Incentive request.

TABLE 12.22 A.37(f)(1)(i) Allowed Number of Additional Incentives				
Level of Affordability	Required Percentage of Residential Units Provided (Excluding Units Added by a Density Bonus) Maximum Allowable Residential Density for Restricted Affordable Units (excluding Density Bonus units)			
	1 Incentive	2 Incentives	3 Incentives	4 Incentives¹
Very Low Income (for rental or for sale)	5%	10%	15%	16%
Low Income (for rental or for sale)	10%	17%	24%	N/A*
Moderate Income (for sale)	10%	20%	30%	45%
Lower Income Student Housing	20%	N/A-20%	N/A	N/A

Footnotes

¹ One Hundred Affordable Housing Projects shall be processed pursuant to LAMC Section 12.22 A.39.

- (ii) Incentives allowed per Table 12.22 A.37(f)(1)(i) and requested pursuant to the applicable procedure in Paragraph (d) of this Subdivision shall be granted unless it is found, based upon substantial evidence, that:
- a. The Incentive does not result in identifiable and actual cost reductions, consistent with California Government Code Section 65915(k), to provide for affordable housing costs as defined in California Health and Safety Code Section 50052.5, or for rents for the targeted units to be set as specified in California Government Code Section 65915(c); or
 - b. The Incentive will have a Specific Adverse Impact upon public health and safety or the physical environment or on any real property that is listed in the California Register of Historical Resources and for which there is no feasible method to satisfactorily mitigate or avoid the Specific Adverse Impact without rendering the development unaffordable to low-income and moderate-income households. Inconsistency with the zoning ordinance or general plan land use designation shall not constitute a Specific Adverse Impact upon the public health or safety; or
 - c. The Incentive would be contrary to state or federal law.
- (iii) To be eligible for the Menu of Incentives described in LAMC Section 12.22 A.37(f)(2) a Housing Development shall comply with the following:
- a. The Housing Development shall not be located in a Very High Fire Hazard Severity Zone, a Sea Level Rise Area, or the Coastal Zone. ~~as established in Section 57.4008 of this Code; and~~
 - b. ~~Project sites that meet the definition of an Environmental Consideration Area shall not be deemed eligible for the Menu of Incentives until a Phase I Environmental Site Assessment, as defined in Section 25319.1 of the Health and Safety Code, and/or a Phase II Environmental Site Assessment, as defined in subdivision (e) of Section 25403 of the Health and Safety Code, if warranted, is completed. A "No Further Action" letter, or some other comparable documentation issued by the appropriate regulatory agency shall be required in order to utilize the Menu of Incentives.~~

(iv) Commercial Off-Site. Pursuant to California Government Code Section 65915.7, a commercial development may request one Incentive set forth in California Government Code Section 65915.7 (b) if the commercial developer directly contributes affordable housing, or enters into a contract for partnered housing described in 65915.7(c) with a housing developer to construct affordable housing. If a commercial developer partners with a housing developer, an agreement, subject to approval by the Department of City Planning, shall identify exactly how the commercial developer will contribute affordable housing. Housing constructed pursuant to this Subparagraph shall be constructed on the site of the commercial development or on a site that meets all of the following requirements:

- a. Located within the boundaries of the City of Los Angeles; and
- b. In close proximity to public amenities including schools and employment centers; and
- c. Located within one-half mile of a Major Transit Stop.

(2) **Menu of Incentives.** A Housing Development may elect to request one of the following incentives not to exceed the allowed number of incentives pursuant to Table 12.22 A.37(f)(1)(i): [Each request from the Menu of Incentives shall constitute one Incentive request unless otherwise stated.](#)

(i) **Yards.** Housing Developments ~~eligible for the Base Incentives contained in this Subdivision~~ may request a reduction of otherwise required yards as follows:

Yards/Setbacks	C Zones	R Zones (yard reductions for requests from the Menu of Incentives in R zones may be combined and require the use of only one incentive)
	In any Commercial zone, Housing Developments may utilize any or all of the yard requirements for the RAS3 zone per LAMC Section 12.10.5. Housing Developments on commercially zoned sites adjacent to properties zoned RD or more restrictive may provide a rear yard of not less than five feet.	Front Yards. Front yard reductions are limited to no more than the average of the front yards, regardless of a required Building Line, of adjoining buildings along the same street frontage. Or, if located on a corner lot or adjacent to a vacant lot, the front yard setback may align with the façade of the adjoining building along the same front lot line. If there are no adjoining buildings, no reduction is permitted.
		Side and Rear Yards. Up to 30% decrease in the required width or depth of any individual yard or setback.

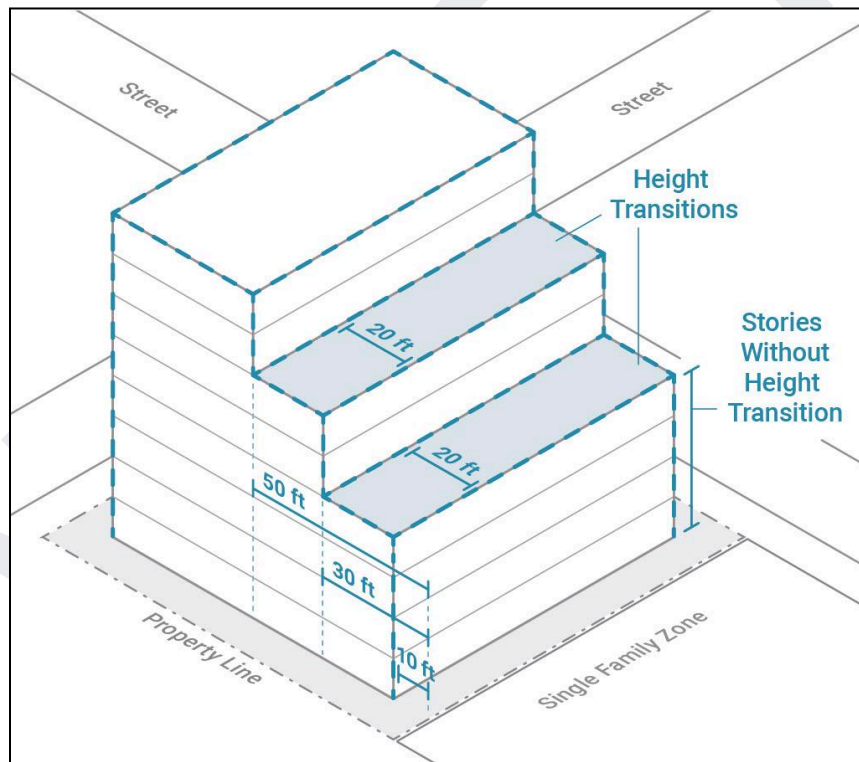

- (ii) **Floor Area Ratio.** Housing Developments ~~eligible for the Base Incentives contained in this Subdivision~~ may request an increase in the otherwise allowed Floor Area Ratio (FAR) ~~as follows equal to the percentage of Density Bonus for which the Housing Development is eligible, not to exceed 35% or a maximum FAR of 3.0:1, whichever is greater, if located within a one-half mile radius (2,640 feet) of a Major Transit Stop.~~ In a mixed-use development, the FAR bonus will apply only to the residential portion of the development and the nonresidential portion shall be limited to the FAR associated with a site’s underlying zoning prior to the application of any Incentive. ~~Vehicle parking created above grade will be counted as floor area and included in the calculation of Floor Area Ratio for Housing Developments using this incentive.~~
- a. **Exception.** Projects on lots zoned “RD” Restricted Density or more restrictive; or on lots with Designated Historic Resources, or Non-Contributing Elements as defined in LAMC Section 13B.8.1.C of Chapter 1A of this Code, shall not be eligible for an on-menu FAR incentive.

Floor Area Ratio	G-Zones	R-Zones
	<p>A percentage increase in the allowable FAR equal to the percentage of Density Bonus for which the Housing Development is eligible, not to exceed 35% or 2.5:1 whichever is greater, provided the Housing Development includes the number of Restricted Affordable Units sufficient to qualify for a 35% Density Bonus.</p> <p>Exception. Projects on sites with Designated Historic Resources, or Non-Contributing Elements as defined in LAMC Section 13B.8.1.C, shall not be eligible for an FAR incentive.</p>	<p>Not applicable.</p>

(iii) **Height.** A **Housing Development may request a** height increase to permit a maximum of eleven additional feet or one additional story, whichever is **lower greater**. This increase in height shall be applicable over the entire **lot parcel** regardless of the number of underlying height limits, including Transitional Height or stepback requirements, except when the Transitional Height Incentive below is also requested. The height increase may be applied to the maximum allowable height in feet or stories permitted by the zone, including for mixed-use Housing Developments.

- a. Notwithstanding Section 12.21.1, for Housing Developments where a rooftop deck is provided, roof structures for the housing of elevators and stairways may exceed the building height limit by up to seventeen feet in height on sites where the applicable Height District limits height to thirty feet or forty-five feet **provided the proposed roof structure(s) is set back from the roof perimeter by five feet.**

(iv) **Transitional Height.** Housing Developments may select the following transitional height requirements in lieu of those found in Section 12.21.1.A.10 of this Code or any applicable transitional height limits in a Housing Development site’s applicable zoning ordinance, Specific Plan, or overlay including any requirements for reduced building heights or stepbacks when a building is adjoining a RW1 or more restrictive zone. ~~A Height Incentive is not required in order to request this Incentive to modify transitional height.~~ Furthermore, Housing Developments adjoining an OS zone may utilize this incentive to be exempt from the transitional height requirements found in Section 12.21.1.A.10 of this Code or any applicable Specific Plan or Overlay for the portion of the Housing Development abutting the OS zone.

	Setback/Step Back Distance*
Side or Rear Setback	10-feet
4 Story Step-Back	30-feet
6 Story Step-Back	50-feet

*Setback and Step-back is measured from the property line.

- (v) **Space Between Buildings and Passageways.** Housing Developments ~~eligible for the Base Incentives contained in this Subdivision and~~ subject to the provisions set forth in LAMC Section 12.21 C.2 may request a reduction in space between buildings and passageways requirements as follows:
- a. Up to a 30% reduction in the space between buildings required pursuant to LAMC Section 12.21 C.2(a); and
 - b. Up to 50% reduction in the width of the passageway required pursuant to LAMC Section 12.21 C.2(b) or the space provided to meet a subject site's required side yard requirement, whichever provides a greater reduction. Passageways provided may extend from any public street adjacent to the Housing Developments site.
- (vi) **Lot Coverage.** ~~Housing Developments may request Up to a~~ 20% increase in lot coverage limits, provided that the landscaping for the Housing Development meets a minimum of 30 points under the Landscape and Site Design Ordinance, ~~equivalent to 10% more than otherwise required by~~ Section 12.40 of this Code, and the Landscape and Site Design Point System.
- (vii) **Lot Width.** ~~Housing Developments may request Up to a~~ 25% decrease from a lot width requirement, provided that the landscaping for the Housing Development meets a minimum of 30 points under the Landscape and Site Design Ordinance, ~~equivalent to 10% more than otherwise required by~~ Section 12.40 of this Code, and the Landscape and Site Design Point System.
- (viii) **Open Space.** In lieu of the open space calculations set forth in LAMC Section 12.21 G.2, Housing Developments requesting this incentive may calculate their usable open space requirement as 15% of the total lot area or 10% of the total floor area confined within the perimeter walls of the provided Residential Units, whichever is greater, provided that the overall design of the Housing Development meets a minimum of 30 points under the Landscape and Site Design Ordinance, ~~equivalent to 10% more than otherwise required by~~ Section 12.40 of this Code, and the Landscape and Site Design Point System. Common Open Space shall constitute at least 50% of the usable open space calculated under this incentive and shall be provided as outdoor space and comply with applicable provisions of Section 12.21 G.2(a)(1-4). Usable open space provided as Private Open Space shall comply with Section 12.21 G.2(b).

(ix) **Density Calculation.** The area of any land required to be dedicated for street or alley purposes may be included as lot area for purposes of calculating the maximum density permitted by the underlying zone in which the Housing Development is located.

(x) **Averaging of Floor Area Ratio, Density, Parking, or Open Space, and permitting Vehicular Access.** A Housing Development that is located on ~~one~~ ~~two~~ or more contiguous ~~lots~~, ~~not separated by a street or alley~~, ~~parcels~~ may average and permit the floor area, density, open space, and residential and commercial parking over the Housing Development site, and permit vehicular use and access ~~from~~ ~~between~~ a less restrictive zone ~~and to~~ a more restrictive zone, provided that:

- a. The proposed Housing Development includes the number of Restricted Affordable Units sufficient to qualify for a 35% Density Bonus; and
- b. No further lot line adjustment or any other action that may cause the Housing Development site to be subdivided subsequent to this grant shall be permitted-; ~~and~~
- c. ~~The proposed use is permitted by the underlying zone(s) of each lot.~~

(xi) **Supplementary Parking Reductions.** An applicant may request the following reductions as a single incentive:

- a. **Commercial ~~p~~Parking.** Housing Developments ~~eligible for Base Incentives contained in this Subdivision~~ may request to waive any requirement to provide new or maintain existing automobile parking spaces required by Chapter 1 of this Code associated with a commercial use that is proposed in conjunction with the Housing Developments.
- b. **General Parking Reduction.** Housing Developments located within one-half mile radius of a High Quality Transit Service may receive up to 50% reduction in required parking spaces pursuant to California Government Code Section ~~GCS~~ 65915 (p)(5).

(xii) **P Zone.** In lieu of the limitations described in LAMC Section 12.12.1 and LAMC Section 12.12.1.5, in a P or PB zone a Project may include the uses and area standards permitted in the least restrictive adjoining zone. The phrase “adjoining zone” refers to the zones of properties abutting, across the street or alley from, or having a common corner with, the subject property.

(xiii) **Modification of Relief from a Development Standard.** A Housing Development may request up to a 20% relief from a numerical based Development Standard or a deviation from a non-numerical based Development Standard contained in Chapter 1 of this Code, an Overlay, a Specific Plan, a Q Condition, or a D Condition. Housing Developments requesting this incentive must provide landscaping for the Housing Development that meets a minimum of 30 points under the Landscape and Site Design Ordinance, equivalent to 10% more than otherwise required by Section 12.40 of this Code, and the Landscape and Site Design Point System. This incentive may be requested more than once, but shall require the use of an Incentive for each request.

a. **Exception.** This incentive shall not apply to standards that regulate FAR, Height, yards/setbacks, ground story requirements, signs, parking in front of buildings, or usable open space. This incentive shall not apply to a Designated Historic Resource(s), or a Non-Contributing Element(s) as defined in LAMC Section 13B.8.1.C of Chapter 1A of this Code.

(xiv) **Senior Independent Housing.** In lieu of otherwise applicable limitations, a Housing Development or Senior Citizen Housing Development that also meets the definition of Senior Independent Housing may be permitted in any zone that would otherwise allow a Housing Development. In addition, a Senior Independent Housing development that qualifies as a Shared Housing Building shall be treated the same as a Shared Housing Building.

(g) **Public Benefit Options.** A Housing Development shall be granted any number of Public Benefit Options pursuant to the provisions described below in addition to the Base Incentives established in LAMC Section 12.22 A.37(e) and the Additional Incentives described in LAMC Section 12.22 A.37(f). Housing Developments located in Sea Level Rise Areas, Very High Fire Hazard Severity Zones, or the Coastal Zone shall not be eligible for the Public Benefit Option described in LAMC Section 12.22 A.37(g)(3) or LAMC Section 12.22 A.37(g)(4).

(1) **Child Care Facility.** A Housing Development that includes a Child Care Facility located on the premises of, as part of, or adjacent to, the Housing Development, and that complies with the requirements set forth in Government Code Section 65915(h)(2) shall be granted either of the following:

(i) An additional Density Bonus that is, for purposes of calculating residential density, an increase in the floor area of the Housing Development equal to the floor area of the Child Care Facility included in the Housing Development; or

- (ii) An additional Incentive ~~on or off from the Additional~~ Menu of Incentives or not listed on the Menu of Incentives that contributes significantly to the economic feasibility of the construction of the Child Care Facility; or
- (iii) Notwithstanding the Public Benefit available under this Subparagraph section, pursuant to California Government Code Section 65915(h)(3), a Density Bonus or Incentive for a Child Care Facility shall not be provided if it is found, based on substantial evidence, that the community has adequate Child Care Facilities.

~~(2) **Commercial Off-Site.** Pursuant to California Government Code Section 65915.7, a commercial development may request a development bonus set forth in California Government Code Section 65915.7 (b) if the commercial developer directly contributes affordable housing, or enters into a contract for partnered housing described in 65915.7(c) with a housing developer to construct affordable housing. If a commercial developer partners with a housing developer, an agreement, subject to approval by the Department of City Planning, shall identify exactly how the commercial developer will contribute affordable housing.~~

(3) (2) Multi-Bedroom Units. A Housing Development providing multi-bedroom units shall be granted one of the following so long as an affidavit declaring the qualifying multi-bedroom units will maintain the same bedroom count and will not be converted to additional Residential Units ~~dwelling units~~ in the future is executed and recorded with the Department of City Planning:

- (i) A ~~Project~~ Housing Development that includes a minimum of 210% of Residential Units, including Residential Units added by a Density Bonus, as Residential Units with three bedrooms or more shall be granted additional Floor Area and Height in addition to what is available on the Menu of Incentives in LAMC Section 12.22 A.37(f)(2) as follows in Table 12.22 A.37(g)(3)(i)a; ~~up to 0.5 FAR, and an additional story or 11 feet in height, whichever is greater, beyond what is available in the applicable height incentive as listed for Additional Incentives in Paragraph (f); or~~

TABLE 12.22 A.37(g)(3)(i)a Additional FAR and Height for Multi-Bedroom Units		
Overall Residential Units (including Density Bonus Units)	Additional FAR	Additional Height (Stories)
0-30	0.5:1	1
31-50	1.0:1	1
51-75	1.5:1	2
75+	2.0:1	2

- (iii) A ~~Project~~ Housing Development shall be granted the following Floor Area and Height Incentives, as described in (a) and (b) below:
 - a. An exemption of the square footage of all Residential Units with three or more bedrooms from the floor area calculations of multi-bedroom units, and/or
 - b. An additional story of height beyond what is available in the applicable height incentive as listed for Additional Incentives in Paragraph (f), provided, the square footage of this additional story is limited to the square footage exempted as a result of applying 12.22 A.37(g)(4)(ii)(a) above.

(3) Surveyed Historic Resource Facade Rehabilitation. Projects incorporating a Surveyed Historic Resource(s) into the Project design shall be granted additional Floor Area up to 1.0 FAR and 22 feet in height beyond what is available on the

Menu of Incentives in LAMC Section 12.22 A.37(f)(2), provided all of the following standards are met:

(i) The Project retains all street Fronting facades to a depth of 10-feet,

(ii) New Floor Area shall be setback behind the 10-foot retention area, except that open space, balconies, and non-habitable architectural projections may encroach on the 10-foot retention area. In instances where a lot contains dual-frontages, the setback shall be applied from both frontages, and

(iii) Rehabilitation of the facades is completed pursuant to the Secretary of the Interior's Standards for Rehabilitation to the satisfaction of the Office of Historic Resources.

(h) **Program Standards.** The following program standards shall be applicable to any Housing Development that meets the eligibility criteria established in Paragraph (c) of this Subdivision.

(1) **Other Density Bonus Programs.** Housing Developments seeking a Density Bonus pursuant to this Subdivision ~~may not pursue~~ ~~must not be pursuing~~ a Density Bonus pursuant to the procedures of any other housing incentive program contained in this eCode or in an Overlay or Specific Plan.

(2) **Calculating Maximum Allowable Residential Density.** Per Government Code Section 65915 (o)(6), a Housing Development shall calculate its Maximum Allowable Residential Density, before the application of a Density Bonus, using the maximum number of units allowed under a Housing Development site's applicable zoning ordinance, specific plan, overlay, or general plan land use designation, whichever is greater. If a range is permitted, the maximum number of units allowed by the specific zoning range, Specific Plan, or General Plan Land Use designation shall be applicable when determining a Housing Development's density prior to the application of a Density Bonus. Residential Units added using an incentive program contained in a ~~S~~specific ~~P~~plan or ~~O~~overlay shall not count toward a Housing Development's Maximum Allowable Residential Density.

(3) **Calculating Restricted Affordable Units.** The required number of Restricted Affordable Units shall be calculated based ~~on the Residential Units (excluding Residential Units added by a Density Bonus) provided in~~ ~~on~~ a Housing Development's ~~Maximum Allowable Residential Density and shall exclude any unit added by a Density Bonus awarded pursuant to this Subdivision.~~

(4) **Calculating a Density Bonus.** In addition to the provisions set forth in Section 12.22 A.37(h)(2), for the purposes of calculating a Density Bonus, the following shall apply:

- (i) Residential Units that comprise a Housing Development shall be on contiguous ~~sites~~ lots, not separated by a street or alley, that are the subject of a single development application, but do not need to be based on individual subdivision maps or ~~lots~~ parcels.
- (ii) A Shared Housing Unit and its ~~pre-rata~~ proportional share of associated common area facilities shall be considered a Guest Room pursuant to California Government Code Section 65915(o)(8)(B).
- (iii) An applicant for a Housing Development may ~~always~~ have the ability to apply a lesser percentage of Density Bonus, including but not limited to, no Density Bonus.

(5) **Fractional Numbers.**

(i) **Units.** For the purposes of this Subdivision, calculations for the following resulting in fractional numbers shall be rounded up to the next whole number:

- a. Maximum Allowable Residential Density
- b. Density Bonus units
- c. Number of Restricted Affordable Units
- d. Number of Replacement Housing Units
- e. Vehicular Parking

~~f. Bicycle Parking~~ Number of Multi-Bedroom Units provided pursuant to LAMC Section 12.22 A.37(g)(3)

(6) **Replacement Housing Units and Demolition Protections.** A Housing Development must meet any applicable housing replacement requirements and demolition protections of California Government Code Section 65915(c)(3) and LAMC Section 16.60, as verified by the Los Angeles Housing Department (LAHD) prior to the issuance of a building permit. Replacement Housing Units required pursuant to this ~~Subdivision~~ section may ~~shall~~ count towards any Restricted Affordable Unit requirements.

- (7) **Standards for Restricted Affordable Units.** A Housing Development must meet the applicable requirements regarding the size, location, amenities and allocation of Restricted Affordable Units in LAMC Sections 16.61 B and 16.61 C and in any Implementation Memorandum, Technical Bulletin or User Guide prepared and adopted by the Los Angeles Housing Department or Department of City Planning.
- (8) **Rent Schedules.** Restricted Affordable Units **required provided** as part of a Housing Development shall be rented at rates not to exceed those specified in California Health and Safety Code 50052.5 for for-sale units or California Health and Safety Code Section 50053 for for-lease units.
- (9) **Implementation Memorandums, FAQs, Forms/Applications Technical Bulletins and User Guides.** The Director may prepare Implementation Memorandums, Technical Bulletins and/or User Guides for State Density Bonus requirements, as set forth in California Government Code Sections 65915-65918, for the purpose of providing additional information pertaining to this Subdivision and maintaining consistency with State Density Bonus **Law**.
- (10) **Covenants.** Prior to the issuance of a **Bbuilding Ppermit** for any Housing Development qualifying for a Density Bonus pursuant to the provisions of this **SubdivisionSection**, covenants acceptable to the Los Angeles Housing Department and consistent with the requirements in this **SubdivisionSection** and set forth in LAMC Section 16.61 **A** shall be recorded with the Los Angeles County Recorder.
- (14) **Story.** A story shall be defined as 11-feet in height.

(i) **Relationship to Other Sections of the Los Angeles Municipal Code.** The following provisions shall govern the relationship to other sections of the Los Angeles Municipal Code for any Housing Development that meets the eligibility criteria established in Paragraph (c) of this Subdivision.

(1) A Housing Development that meets the eligibility criteria established in Paragraph (c) and complies with the Procedures established in Paragraph (d) may exceed the use limitations that may apply to a Housing Development site.

(2) If any of the Procedures described in Paragraph (d), Base Incentives described in Paragraph (e), Additional Incentives described in Paragraph (f), Public Benefit Options described in Paragraph (g), or waivers requested pursuant to LAMC Section 12.22 A.37(d)(3)(i) conflict with those of any otherwise applicable specific plan, overlay, supplemental use district, “Q” condition, “D” limitation, or citywide regulation established in Chapter 1 of this Code, including but not limited to the Ordinance Nos. listed below, this Subdivision shall prevail.

- (i) Alameda District Specific Plan (171,139)
- (ii) Avenue 57 Transit Oriented District (174,663)
- (iii) Bunker Hill Specific Plan (182,576)
- (iv) Century City North Specific Plan (156,122)
- (v) Century City West Specific Plan (186,370)
- (vi) Century City South Specific Plan (168,862)
- (vii) Coastal Bluffs Specific Plan (170,046)
- (viii) Coliseum District Specific Plan (185,042)
- (ix) Colorado Boulevard Specific Plan (178,098)
- (x) Cornfield Arroyo Seco Specific Plan (182,617)
- (xi) Crenshaw Corridor Specific Plan (184,795)
- (xii) Devonshire/Topanga Corridor Specific Plan (168,937)
- (xiii) Exposition Corridor Transit Neighborhood Plan (186,402)

- (j) **Interpretation Consistent with State Density Bonus Law.** This Subdivision is intended to be interpreted as consistent with State Density Bonus Law contained in California Government Code Sections 65915-65918. If at any time, this Subdivision becomes inconsistent with California Government Code Sections 65915-65918, the provisions of State Density Bonus Law shall apply.

Section 7 6. Subdivision 38 of Subsection A of Section 12.22 of the Los Angeles Municipal Code is added to read as follows:

12.22 A.38 MIXED INCOME INCENTIVE PROGRAM

(a) **Purpose.** The purpose of this subdivision is to establish specific incentives and procedures for the implementation of State Density Bonus requirements, as set forth in California Government Code Sections 65915-65918, and to increase the production of affordable housing near transit, in Higher Opportunity Areas, and on major corridors. In conjunction with the incentives granted by state law, this subdivision shall offer incentives and waivers or reductions of Development Standards for the purposes of increasing the feasibility of housing construction.

(b) **Definitions.** The following definitions shall apply to this Subdivision:

Consolidated Development. A residential or mixed use development that consists of multiple lots with the same owner or developer.

Corridor. A major street with Street Designations, as designated in the Mobility Element of the General Plan, including Avenue I, Avenue II, Avenue III, Boulevard I, and Boulevard II.

Direct Pedestrian Access. A means of approaching or entering a lot from the public right-of-way as a pedestrian.

Environmental Consideration Area. As defined in LAMC Section 12.22 A.37 (b).

Finished Floor Elevation. The finished floor height associated with the ground story.

Frequent Bus Service. A bus route with 30 minute or less service frequency during Peak Commute Hours in at least one direction.

~~**General Commercial Uses.** Uses that involve business activity serving the general public, pursuant to LAMC Section 13.07 C, definitions of Neighborhood Retail and Neighborhood Services, including, but not limited to, retail, professional and personal services, hospitality, restaurants, and entertainment.~~

Ground Floor Frontage. The lowest story within a building which is accessible to the street, the floor level of which is within three feet above or below curb level, is parallel to or primarily facing any public street, and which is at least 15 feet in depth of the total depth of the structure, ~~whichever is less.~~

~~**Lower Opportunity Areas.** High Poverty & Segregated, Low Income, and Moderate Income resource areas as defined and identified by the California Tax Credit Allocation Committee (TCAC).~~

Market Tier. Categories of residential market areas adopted by City Council resolution, as described in the Affordable Housing Linkage Fee Ordinance in LAMC Section 19.18 C.1, for the purposes of informing the amount of the Linkage Fee to be assessed for a given **Development** Project.

Mixed Income Incentive Project. A **Project Housing Development** that involves the construction of, addition to, or remodeling of any building or buildings which results in the creation of five or more total residential units, including a mixed use development containing **two-thirds of the square footage designated for Residential Units**, and meets the eligibility criteria described in Paragraph (c) of LAMC Section 12.22 A.38.

Opportunity Corridor Transition Area Incentive Project. A **housing p**Project, located within 750 feet of an Opportunity Corridor Incentive Area, that involves the construction of, addition to, or remodeling of any building or buildings which result in the creation of four or more total residential dwelling units.

Peak Commute Hour. Peak periods are considered to be between 6:00 to 9:00 AM and 3:00 to 7:00 PM.

Rapid Bus. A higher quality bus service that may include several key attributes, including full-time dedicated bus lanes, branded vehicles and defined stations, high frequency, limited stops at major intersections, intelligent transportation systems, and possible off-board fare collection and/or all door boarding. It includes, but is not limited to, Metro Bus Rapid Transit lines, Metro Rapid 700 lines, Metro NextGen Tier 1 lines that replaced Metro Rapid 700 lines, Metro **G (Orange)** and **J (Silver Lines)**, Big Blue Rapid lines and the Rapid 6 Culver City bus. Rapid Bus lines do not need to meet the 15 minute average **Ppeak Commute Hour** headways if intersecting at a qualified Major Transit Stop.

~~**Sea Level Rise Area.** An area of the coastal zone that is vulnerable to five feet of sea level rise, as determined by the National Oceanic and Atmospheric Administration, the Ocean Protection Council, the United States Geological Survey, the University of California, or as determined by a local coastal hazards vulnerability assessment.~~

Total Units. The total units in a project after a Density Bonus is awarded pursuant to this Subdivision.

(c) **Eligibility.** To qualify for the provisions of this subdivision, a [Project approved under the Mixed Income Incentive Program Project \(Project\)](#) must satisfy all of the following eligibility requirements:

(1) Meet the definition of [one of the following Project Types described in Table 12.22 A.38\(c\)\(1\)\(i\)one of the following](#):

~~(i) Mixed Income Incentive Project with a five or more Total Units, or~~

~~(ii) Opportunity Corridor Transition Area Incentive Project with four or more Total Units.~~

TABLE 12.22 A.38(c)(1)(i) Eligible Project Types and Total Units Required	
Project Type	Total Units Required
Mixed Income Incentive Project	Five or more
Opportunity Corridor Transition Area Incentive Project	Four or more
Type I Unified Adaptive Reuse Project ¹	Five or more

Footnote

¹ See LAMC 12.22 A.26(h)(1) for additional requirements associated with a Type I Unified Adaptive Reuse Project.

(2) Be located in and meet the requirements of a Transit Oriented Incentive Area, Opportunity Corridor Incentive Area, or an Opportunity Corridor Transition Incentive Area as described in Paragraphs (e), (f), and (g) below, except that properties ~~are~~ abutting, across the street or alley, or having a common corner with a site eligible for Opportunity Corridor Incentives shall also be eligible for the Opportunity Corridor Incentives as described in paragraph (f) below,

(3) Reserve a percentage of the Project's Total Units for:

(i) [On Site](#) Restricted Affordable Units in a Project for at least one of the following income levels, as defined on Table 12.22 A.38(c)(3)(iii)-~~4~~ or by providing the combination of income levels as defined on 12.22 A.38(c)(3)(iv)-~~2~~ Table, or

(ii) Restricted Affordable Units in a Opportunity Corridor Transition Area Incentive Project for at least one of the following income levels, as defined on Table 12.22 A.38(c)(3)(v)-~~3~~ below.

TABLE 12.22 A.38(c)(3)(iii)-4¹ Single Affordability Options for Meeting Restricted Affordable Units					
Market Tier	Incentive Program		Minimum Percent of Total Units Provided as Restricted Affordable Units		
	Transit Oriented Incentive Area	Opportunity Corridors Incentive Area	Income Level		
			Extremely Low Income (For Rental or For Sale)	Very Low Income (For Rental or For Sale)	Low Income (For Rental or For Sale)
Low and Medium Market Tiers	T1	—	9%	12.5%	21%
	T2 T1	OC-1	10%	13%	21%
	T3 T2	OC-2	10%	14%	23%
	T4 T3	OC-3	11%	15%	25%
High Medium and High Market Tiers	T1	—	11%	14%	22%
	T2 T1	OC-1	11%	14%	23%
	T3 T2	OC-2	12%	16%	25%
	T4 T3	OC-3	13%	17%	27%

Footnote

1 A Type I Unified Adaptive Reuse Project shall provide Restricted Affordable Units in accordance with the project site's Market Tier location and Base Incentives used. Type I Unified Adaptive Reuse Projects that utilize Base Incentives contingent on a site's location in a Transit Oriented Incentive Area shall provide Restricted Affordable Units in conjunction with a site's applicable Transit Oriented Incentive Area Tier. Type I Unified Adaptive Reuse Projects that utilize Base Incentives contingent on a site's location in an Opportunity Corridor Incentive Area shall provide Restricted Affordable Units in conjunction with a site's applicable Opportunity Corridor. Restricted Affordable Units shall be provided and distributed throughout the entire Type I Unified Adaptive Reuse Project in compliance with LAMC 16.61 B.

TABLE 12.22 A.38(c)(3)(iv)-2 Mixed Affordability Options for Meeting Restricted Affordable Units				
Market Tier Opportunity Area	Minimum Percent of Total Units Provided as Restricted Affordable Units ¹			
	Income Level			
	Acutely Low Income (For Rental or For Sale)	Extremely Low Income (For Rental or For Sale)	Very Low Income (For Rental or For Sale)	Moderate Income (For Rental or For Sale)
Moderate and Lower Opportunity Areas	-	4% ²	8%	-
Low and Medium Market Tiers	-	4% ²	8%	-
High Medium and High Market Tier	-	5% ²	9%	-
Higher Opportunity Areas	4% ²	4%	-	12%
Low and Medium Market Tiers	1% ²	4%	-	18%
High Medium and High Market Tier	1% ²	5%	-	20%

Footnote:

1 Provided at least one affordability income category is consistent with the minimum affordability requirements pursuant to [California Government Code Sections 65915 LAMC Section 12.22.A.37](#).

2 Projects utilizing the combinations of mixed affordability described in Table 12.22 A.38(c)(3)(iv)(2) to meet the required restricted affordable units must provide one 3-bedroom covenanted unit per Project.

TABLE 12.22 A.38(c)(3)(v)-3			
Incentive Program	Minimum Percent of Total Units Provided as Restricted Affordable Units ^{1,2}		
Corridor Transition Incentive Area	Income Level		
	Very Low Income (For Rental or For Sale)	Low Income (For Rental or For Sale)	Moderate Income (For Rental or For Sale)
CT-1A	–	–	1 unit
CT-1B, and CT-2	1 unit	1 unit	2 unit
CT-3	2 units	2 units	3 units

Footnote:

1 For consolidated lots, the pProject shall provide the same affordability as required per individual lot. For example, if a project consolidated two lots parcels into one project using CT-2 incentives, the project would be required to provide either 2 Very Low Income or Low Income units, or 4 Moderate Income units.

² Provided at least one affordability income category is consistent with the minimum affordability requirements pursuant to California Government Code Sections 65915.

- (4) The Project site does not include ~~any buildings located on lots parcels~~ located in a single family or more restrictive zone (RW and more restrictive zone), or any ~~lots parcels~~ located in a manufacturing zone that does not allow multi-family residential uses (M1, M2, and M3), including sites zoned ~~CM, MR1, and MR2 with no residential uses permitted~~ restrictions from an applicable planning overlay (~~CM, MR1, MR2, M1, M2, and M3~~).
- (5) ~~Projects located on sites that meet the definition of an Environmental Consideration Area shall comply with all applicable standards contained in the Environmental Protection Measures adopted pursuant to LAMC Section 11.5.15. Project sites that meet the definition of an Environmental Consideration Areas as defined in LAMC Section 12.22 A.37 shall not be deemed eligible until a Phase I Environmental Site Assessment, as defined in Section 25319.1 of the Health and Safety Code, and/or a Phase II Environmental Site Assessment, as defined in subdivision (c) of Section 25403 of the Health and Safety Code, if warranted, is completed. A “No Further Action” letter, or some other comparable documentation issued by the appropriate regulatory agency shall be required in order to participate in the Mixed Income Incentive Program.~~
- (5) The Pproject site does not include any ~~lots parcels~~ located within a Very High Fire Hazard Severity Zone (VHFHSZ), within the Coastal Zone, or within a Sea Level Rise Area. Except that a project site that is located within a VHFHSZ or Coastal Zone shall be eligible for Opportunity Corridor Incentives as defined in Paragraph (f), if properties are abutting, across the street or alley, or having a common

corner with the subject property are not in a VHFHSZ or Coastal Zone, and is eligible for the Opportunity Corridor Incentives as described in paragraph (f) below.

(6) The ~~Housing Development~~ Project would not require the demolition of any of the following, as demolition is defined in LAMC Section 13B.8.1.C of Chapter 1A of this Code.

(i) A Designated Historic Resource, or

(ii) Any ~~S~~urveyed ~~Historic Resource~~, eligible or architectural historic resource identified for any ~~historic~~ protection or special consideration or review by an applicable Overlay or Specific Plan including sites located in the South Los Angeles Community Plan Implementation Overlay (CPIO) Section 1-6.C.5.b, the Southeast Los Angeles CPIO Section 1-6.C.5.b, the West Adams CPIO Section 6.C.5.b, or the San Pedro CPIO Section 7.C.5.b, Westwood Village Specific Plan, Echo Park CDO District, or the North University Park Specific Plan.

(7) ~~A Project-Housing Development Projects~~ involving Designated Historic Resources shall be consistent with the Secretary of the Interior's Standards for Rehabilitation.

(8) ~~A Project shall not be located in the Boyle Heights Community Plan, the Harbor Gateway Community Plan, the Wilmington-Harbor City Community Plan, the Central City North Community Plan, the Central City Community Plan Areas, and the Cornfield Arroyo Seco Specific Plan.~~

(d) **Procedures.** A Project that meets the provisions of this Subdivision shall be reviewed pursuant to the Procedures, as set forth below. ~~Though an A~~approval of a Density Bonus or Incentive pursuant to this Subdivision shall not, in and of itself, trigger a General Plan Amendment, ~~z~~Zone Change, Project Review, ~~or other discretionary review actions required by this Zoning Code.~~, the applicable procedures set forth in LAMC Section 13A.2.10 (Multiple Approvals) of Chapter 1A of this Code shall apply for Projects seeking other discretionary approvals in conjunction with an application requested pursuant to the Procedures in Paragraph (d).

(1) **Los Angeles Department of Building and Safety Review.** Projects seeking Base Incentives described in Paragraphs (e)(#2), (f)(#2) or (g)(#2), and/or Incentives listed on the Menu of Incentives in Paragraph (h) shall be considered ministerial and processed by the Department of Building and Safety.

(2) **Expanded Administrative Review.** The following Projects shall be ministerially approved pursuant to Expanded Administrative Review, as set forth by the provisions of LAMC Section 13B.3.2 (Expanded Administrative Review) of Chapter 1A of this Code. As defined in this ~~Subdivision~~section, ministerial

approval means an administrative process to approve a “use by right” as this term is defined in California Government Code Section 65583.2 (i):

- (i) Projects that request the Public Benefit Options described in Paragraph (i). [Housing Developments that request only Public Benefit Options in addition to Incentives listed on the Menu of Incentives shall not be subject to any hearing procedures regardless of the provisions contained in LAMC Section 13B.3.2.D.](#)
 - (ii) Projects that request Incentives not listed on the Menu of Incentives described in LAMC Section 12.22 A.38(h)(2). [Housing Developments that request Incentives not listed on the Menu of Incentives may be subject to a public hearing as described in LAMC Section 13B.3.2.D](#)
 - a. Projects requesting Incentives not listed in Paragraph (h) shall be required to meet a minimum of 35 points under the Landscape and Site Design Ordinance.
 - b. **Exception.** Projects that request an Incentive not on or in excess of the Menu of Incentives for relief from Floor Area Ratio (FAR), Height, Open Space requirements, tree planting requirements, ground story requirements, and/or yards/setback requirements shall seek approval pursuant to the Procedures described in [LAMC 12.22 A.37](#) ~~Section 3 of Paragraph (d).~~
- (3) **Director’s Determination.** The Director of Planning shall review the following Projects pursuant to LAMC Section 13B.2.5 [of Chapter 1A of this Code.](#)
- ~~(i) Projects requesting Incentives not listed on the Menu of Incentives for an Increase in Floor Area Ratio (FAR), and Height reduction in Open Space requirements, tree planting requirements, ground story requirements, and/or yards/setback requirements.~~
 - (ii) Projects requesting up to one ~~Waiver or Modification~~ [reduction](#) of any Development Standard not on the Menu of Incentives described in Paragraph (h). ~~Waivers or modifications~~ [reductions](#) of any Development Standards shall be reviewed pursuant to the Findings described in LAMC Section 12.22 A.38(d) ~~(53).~~
- (4) **City Planning Commission Review.** The following Projects must file an application pursuant to LAMC Section 13B.2.3 [\(Class 3 Conditional Use Permit\) of Chapter 1A of this Code.](#) ~~Notwithstanding the provisions set forth in Sec. 13B.2.3. of Chapter 1A ,~~ the decision of the City Planning Commission shall be final.

- (i) Projects that request more than one waiver or ~~modification~~ reduction of any Development Standards not on the Menu of Incentives described in Paragraph (h). Waivers or ~~modifications~~ reduction of any Development Standards shall be reviewed pursuant to the Findings described in LAMC Section 12.22 A.38(d)(5).

(5) Findings for Waivers or ~~Modifications~~ Reductions of Development

Standards. Waivers requested pursuant to the procedures described in this Paragraph shall be approved by the applicable decision-making authority unless that decision-making authority finds that:

- (i) The Development Standard associated with a request for waiver(s) or reduction(s) in Development Standards will not have the effect of physically precluding the construction of a development meeting the Eligibility criteria described in Paragraph (c) at the densities or with the concessions or incentives permitted under Paragraphs (e), (f), or (g); or

- (ii) The waivers or reductions of ~~De~~velopment ~~S~~standards would have a Specific Adverse Impact, as defined in paragraph (2) of subdivision (d) of Section 65589.5, upon public health and safety or on a California Register of Historical Resources and for which there is no feasible method to satisfactorily mitigate or avoid the specific, adverse impact without rendering the development unaffordable to low-income and moderate-income households; or

- (iii) The waivers or reductions of ~~De~~velopment ~~S~~standards are contrary to state or federal law.

- (6) Other Discretionary Approvals.** Applicable procedures set forth in LAMC Section 13A.2.10 (Multiple Approvals) of Chapter 1A of this Code apply for Projects seeking other discretionary approvals in conjunction with an application requested pursuant to the Procedures in Paragraph (d). Regardless of any other findings that may be applicable, the decision-maker must approve the requested Base Incentives and Additional Incentives, either on or off the Menu of Incentives described in Paragraph (h), requested under this Subdivision unless the decision-maker, based upon substantial evidence, ~~determines that the Project meets one or more of the criteria described in LAMC Section 12.22 A.38(h)(1). makes either of the findings in subsection (5) of Paragraph (d) of this subdivision.~~

(e) Transit Oriented Incentive Area.

- (1) **Eligibility.** Projects may seek Base Incentives according to the eligibility criteria for Transit Oriented Incentive Areas described below.
- (i) Each one-half mile radius (2,640 feet) around a Major Transit Stop, shall constitute a unique Transit Oriented Incentive Area.
 - (ii) Each lot within a Transit Oriented Incentive Area shall be determined to be in a specific subarea based on the shortest distance between any point on the lot and a qualified Major Transit Stop as delineated in Table 12.22 A.38(e)(1)(iv) below.
 - (iii) Each lot in a Transit Oriented Incentive Area shall be determined to be in a specific Transit Oriented Incentive Area (T-1 to T-43) based on the shortest distance between any point on the lot and a qualified Major Transit Stop.

Table 12.22 A.38(e)(1)(iv)

Eligibility Subarea	Distance to Major Transit Stop				
Description	Two Regular Buses (intersection of two non-Rapid Bus Lines each with at least 15 minute average peak headways)	Regular plus Rapid Bus (intersection of a regular bus and a Rapid Bus line)	Two Rapid Buses (intersection of two Rapid Bus lines)	Metrolink Rail Stations	Metro Rail Stations and Rapid Bus Transit Stations
T-1	750-2640 feet	1500-2640 feet	-	1500-2640 feet	-
T-2 T-1	<750 feet - 2640 feet	750 - <1500 2640 feet	1500-2640 feet	750 - <1500 2640 feet	-
T-3 T-2	-	<750 feet	<1500 feet	<750 feet	≤ 2640 feet
T-4 T-3	-	-	-	-	<750 feet from intersection with another rail line or a Rapid Bus

Table 12.22 A.38(e)(1)(iv)

Distance to Major Transit Stop	Eligibility Subarea		
Description	T-1	T-2	T-3
Two Regular Buses (intersection of two non Rapid Bus Lines each with at least 15 minute average peak headways)	<2640 feet	-	-
Regular plus Rapid Bus (intersection of a regular bus and a Rapid Bus line)	750 - < 2640 feet	<750 feet	-
Two Rapid Buses (intersection of two Rapid Bus lines)	1500-2640 feet	<1500 feet	-

Table 12.22 A.38(e)(1)(iv)			
Distance to Major Transit Stop	Eligibility Subarea		
Metrolink Rail Stations	750 - <2640 feet	<750 feet	-
Metro Rail Stations and Rapid Bus Transit Stations	-	≤ 2640 feet	<750 feet from intersection with another rail line or a Rapid Bus

(2) **Base Incentives.** Projects shall be granted Base Incentives established in Table 12.22 A.38(e)(2)(i), in exchange for the required minimum percentage of Restricted Affordable Units established in Paragraph (c) of this Subdivision. Projects that qualify for Base Incentives established in the table below shall also be eligible for Public Benefit Options listed in Paragraph (i) of this subdivision. **For Type I Unified Adaptive Reuse Projects that meet the eligibility criteria established in LAMC 12.22 A.38(c), notwithstanding the Density Bonuses described in Table 12.22 A.38(e)(2)(i), the density shall be limited by floor area and Base Incentives for Parking, FAR, and Height shall only apply to the project's new construction.**

Table 12.22 A.38(e)(2)(i)

Eligibility Subarea	Density Bonus	Parking	Floor Area Ratio (FAR)	Height
	In each subarea, the maximum increase in the otherwise Maximum Allowable Residential Density shall be as follows:	In each subarea, the required parking ratio shall be as follows: ^{1 2 5 6}	In each subarea, the maximum increase in the allowable FAR shall be as follows: ^{3 4}	In each subarea, the maximum increase in the allowable height permitted shall be equal to the following: ^{4 5}
T-1	Lower Opportunity Area: 90% Higher Opportunity Area: 100% Sites with a Maximum Allowable Residential Density of less than 5 units: 50%	No parking minimum required. If parking is provided, up to 40% of spaces may be provided as compact vehicular spaces. Tandem parking may also be permitted so long as a 24-hour attendant is present on-site.	R-zones: 35%	One additional story, up to 11 additional feet.
T-2 T-1	Moderate and Lower Opportunity Areas: 100% Higher Opportunity Area: 120% Sites with a Maximum Allowable Residential Density of less than 5 units: 60%		C-zones: 3.0, or 40% increase, whichever is greater.	
	Higher Opportunity Areas: 120%		R - zones: 35-40% increase.	
			C - zones: 3.25:1, or 40% increase, whichever is greater.	
T-3 T-2	Moderate and Lower Opportunity Areas: 110% Higher Opportunity Area: Limited by Floor Area Sites with a Maximum Allowable Residential Density of less than 5 units: 70%		R - zones: 40% increase.	Two additional stories, up to 22 additional feet.
		C - zones: 4.23-75: 1, or 50% increase, whichever is greater.		
	Higher Opportunity Areas: Limited by Floor Area	R - zones: 45% increase.		
		C - zones: 4.5:1, or 50% increase, whichever is greater.		

T-4 T-3	Moderate and Lower Opportunity Areas: 120%		R - zones: 45% increase.	Three additional stories up to 33 additional feet.
	Higher Opportunity Area: Limited by Floor Area		C - zones: 4.25:1, or 50% increase, whichever is greater.	
	Sites with a Maximum Allowable Residential Density of less than 5 units: 80%			
	Higher Opportunity Areas: Limited by Floor Area		R - zones: 50% increase.	
			C - zones: 4.65:1, or 55% increase, whichever is greater.	

Footnotes:

1 Required automobile parking applies for all Residential Units in an Eligible Project (not just the restricted affordable units), inclusive of disabled and required guest parking, where applicable. All parking spaces provided shall comply with Subdivision 12.21 A.5 of the Code. Except that any combination of standard, compact or tandem spaces may be provided. Tandem parking spaces that do not comply with Subparagraph 12.21 A.5(h)(2) of the Code may be provided in any configuration as long as a parking attendant or an automated parking system is provided at all times.

2 Pursuant to California Civil Code Section 1947.1, provided parking shall be sold or rented separately from the units in properties with 16 or more units, as verified by the Los Angeles Housing Department.

3 The maximum increase in the allowable FAR permitted shall be equal to the table above, provided that any additional floor area provided through this Paragraph section is utilized only by residential uses. Any nonresidential uses shall be limited to the FAR associated with a site's underlying zoning prior to the application of any Incentive. Flexible parking structure designs that would facilitate possible future conversion of parking areas to active uses and create zoning flexibility to allow by-right conversion would not count as floor area and not be included in the calculation of Floor Area Ratio. Vehicle parking areas above ground will be counted as floor area and included in the calculation of Floor Area Ratio for projects using this incentive.

4 For the purpose of applying this incentive, commercial zones include Hybrid Industrial zones, Commercial Manufacturing zones and any defined area in a Specific Plan or overlay district that allows for both commercial uses and residential uses.

54 The increase in height shall be applicable to an Eligible Project over the entire project site parcel regardless of the number of underlying height limits. The height increase may be applied to the maximum allowable height in feet or stories permitted by the zone, including for mixed-use Projects. Housing Developments.

65 Consistent with California Government Code Section 65915(p)(4), required parking spaces provided allowable may be uncovered.

(i) **Exceptions.**

a. Sites with a Maximum Allowable Residential Density of less than 5 units shall be eligible for the following Density Bonuses:

- i. T-1: 60%
- ii. T-2: 70%
- iii. T-3: 80%

b. Sites with a Maximum Allowable Residential Density of less than 5 units, Designated Historic Resource(s), or Non-Contributing Element(s) as defined in LAMC Section 13B.8.1.C of Chapter 1A of this Code shall not be eligible for an incentive to increase allowable FAR or height above one additional story, up to 11 additional feet.

c. In a Specific Plan or overlay district that has a FAR available through a development bonus or incentive program to provide affordable housing, a Project may utilize the Bonus FAR of the Specific Plan or overlay district in lieu of the FAR maximum described above in Table 12.22 A.38(e)(2)(i).

(f) Opportunity Corridor Incentive Area.

(1) **Eligibility.** Projects may seek Base Incentives according to the eligibility criteria for Mixed Income Incentive Projects as described in Paragraph (c) and Opportunity Corridor Incentive Areas, described in Table 12.22 A.38(f)(1)(i), below.

Table 12.22 A.38(f)(1)(i)		
Eligibility Subarea	Corridor Requirements	Geographic Criteria
OC-1	Corridors with Frequent Bus Service	Higher Opportunity Areas
OC-2	Corridors with High Quality Transit Service	
OC-3	Corridors within one - half mile from Metro Rail Station or Portal and Rapid Bus Stop	

(ii) **Corridor Access.** A Project must provide Direct Pedestrian Access to the eligible Opportunity Corridor.

(iii) **Frontage.** Each eligible lot parcel must provide a minimum 25-foot frontage along the eligible corridor, or be part of a Consolidated Development with a 25-foot frontage along the eligible corridor.

(2) **Base Incentives.** A Project shall be granted Base Incentives established in this Paragraph as defined in Table 12.22 A.38(f)(2)(i) below, in exchange for the required minimum percentage of Restricted Affordable Units established in Paragraph 12.22 A.38(c)(3) of this Subdivision. Projects that qualify for Base Incentives established in the table below shall also be eligible for Public Benefit Options listed in Paragraph (i) of this subdivision. [For Type I Unified Adaptive Reuse Projects that meet the eligibility criteria established in LAMC 12.22 A.38\(c\), the Base Incentives shall only apply to the project’s new construction.](#)

<p align="center">Table 12.22 A.38(f)(2)(i) Opportunity Corridor Incentive Area Base Incentives</p>				
Eligibility Subarea	Density Bonus	Parking	Floor Area Ratio	Height
Description	In each subarea, the maximum increase in the otherwise Maximum Allowable Residential Density shall be as follows:	In each subarea, the required parking ratio shall be as follows: ^{1 2 5}	In each subarea, the maximum increase in the allowable FAR permitted shall be as follows ³ :	In each subarea, the maximum increase in the allowable height permitted shall be equal to the following: ⁴
OC-1	Limited by Floor Area	No Parking required.	R - zones: 3.0:1 or 45% increase.	R-zones: Up to 45 feet. G-zones: One additional story, up to 11 additional feet; or up to a maximum of 5 total stories, whichever is greater.
OC-2			C - zones: 4.5:1, or 40 50% increase, whichever is greater.	R-zones: Up to 56 feet. G-zones: Two additional stories, up to 22 additional feet; or up to a maximum of 6 total stories, whichever is greater.
OC-3			4.5:1, or 50-60% increase, whichever is greater.	Three additional stories, up to 33 additional feet; or up to a maximum of 7 total stories, whichever is greater.

Footnotes:

1 Required automobile parking applies for all Residential Units in an Eligible Project (not just the restricted affordable units), inclusive of disabled and required guest parking, where applicable. All parking spaces provided shall comply with Subdivision 12.21 A.5 of the Code. Except that any combination of standard, compact or tandem spaces may be provided. Tandem parking spaces that do not comply with Subparagraph 12.21 A.5(h)(2) of the Code may be provided in any configuration as long as a parking attendant or an automated parking system is provided **at all times**.

2 Pursuant to California Civil Code Section 1947.1, provided parking shall be sold or rented separately from the units in properties with 16 or more units, as verified by the Los Angeles Housing Department.

3 The maximum increase in the allowable FAR permitted shall be equal to the table above, provided that any additional floor area provided through this [Subdivisionsection](#) is utilized only by residential uses. Any nonresidential uses shall be limited to the FAR associated with a site's underlying zoning prior to the application of any Incentive. ~~Flexible parking structure designs that would facilitate possible future conversion of parking areas to active uses and create zoning flexibility to allow by-right conversion would not count as floor area and not be included in the calculation of Floor Area Ratio. Vehicle parking areas above ground will be counted as floor area and included in the calculation of Floor Area Ratio for projects using this incentive.~~

4 The increase in height shall be applicable to an [Eligible](#) Project over the entire [project site parcel](#) regardless of the number of underlying height limits. The height increase may be applied to the maximum allowable height in feet or stories permitted by the zone, including for mixed-use [Projects Housing Developments](#).

5 Consistent with California Government Code Section 65915(p)(4), required parking spaces provided may be uncovered.

(ii) Exceptions.

- a. Sites with Designated Historic Resource(s) or Non-Contributing Element(s) as defined in LAMC Section 13B.8.1.C [of Chapter 1A of this Code](#) shall not be eligible for an incentive to increase allowable FAR or height above one additional story, up to 11 additional feet.
- b. In a Specific Plan or overlay district that has a FAR available through a development bonus or incentive program to provide affordable housing, a Project may choose to utilize the Bonus FAR and affordability requirement of the Specific Plan or overlay district in lieu of the FAR maximum described above in Table 12.22 A.38(e)(2)(i).

(g) Opportunity Corridor Transition Incentive Area.

(1) **Eligibility.** Projects may seek Base Incentives according to the eligibility criteria for Opportunity Corridor Transition Incentive Areas, described in Table 12.22 A.38(g)(1)(i), below.

Table 12.22 A.38(g)(1)(i)			
Eligibility Subarea	Site Requirements	Eligible Underlying Zones	Geographic Criteria
CT-1	Sites within 750 feet of the rear furthest property line of a lot from the corridor located within an Opportunity Corridor Incentive Area.	RD zones and R2 zones	Higher Opportunity Areas
CT-2	Sites within 500 feet of the rear furthest property line of a lot from the corridor located within an Opportunity Corridor Incentive Area.		
CT-3	Sites within 250 feet of the rear furthest property line of a lot from the corridor located within an Opportunity Corridor Incentive Area.		

(i) **Property Line Measurement.** Distance measured from the Opportunity Corridor Incentive Area shall be measured from the rear property line of the eligible lot located within the Opportunity Corridor Incentive Area. Where a lot parcel is a Reverse Corner Lot in an Opportunity Corridor Incentive Area, distance shall be measured from the property line parallel to the Opportunity Corridor. In the case that Opportunity Corridor sites are abutting contiguous or are consolidated, the buffer measurement will not be adjusted to accommodate the new rear property line of the consolidated site.

(ii) **Exceptions.**

a. Sites with Designated Historic Resource(s), or Non-Contributing Element(s) as defined in LAMC Section 13B.8.1.C of Chapter 1A of this Code shall not be eligible for CT-3 incentives.

(2) Projects utilizing the Opportunity Corridor Transition Incentive Area Base Incentives as defined in Paragraph (g)(3)(ii) are not eligible to request waivers or modifications reductions of any Development Standard. Opportunity Corridor

Transition Incentive Area Projects are not eligible to request Incentives on or off the Menu of Incentives.

(3) **Base Incentives.** A Project shall be granted Base Incentives established in this Paragraph as defined in Table 12.22 A.38(g)(3)(i)(2) below, in exchange for the required minimum percentage of Restricted Affordable Units established in Paragraph 12.22 A.38(c)(3) of this Subdivision.

Table 12.22 A.38(g)(3)(i) Opportunity Corridor Transition Base Incentives					
Eligibility Subarea	Density Bonus	Floor Ratio (maximum permitted)	Area	Parking	Height (maximum permitted)
Description	In each subarea, the maximum increase in the otherwise Maximum Allowable Residential Density shall be as follows:	For each subarea, the maximum FAR shall be equal to the following:		Required automobile parking for all Residential Units in an Eligible Project (not just the restricted affordable units), inclusive of disabled and required guest parking, where applicable, shall be as follows: ¹³	In each subarea, the maximum allowable height permitted shall be as follows:
CT-1A ²	4 units	1.15:1		No parking required.	2 stories
CT-1B ²	5 units	1.30:1			
	6 units	1.45:1			
CT-2	7 units	1.60:1			
	8 units	1.75:1			
	9 units	1.90:1			
	10 units	2.0:1			
CT-3	11 units	2.15:1			3 stories
	12 units	2.30:1			
	13 units	2.45:1			
	14 units	2.60:1			
	15 units	2.75:1			
	16 units	2.90:1			

Footnotes:

1 Pursuant to California Civil Code Section 1947.1, provided parking shall be sold or rented separately from the units in properties with 16 or more units, as verified by the Los Angeles Housing Department.

2 Sites are eligible for CT-1 site requirements from Table 12.22 A.38(g)(1)(i).

3 Consistent with California Government Code Section 65915(p)(4), required parking spaces provided may be uncovered.

- (i) **Lot Requirements.** Projects are eligible for a reduction of otherwise required Lot standards, as part of a subdivision as follows:
- a. Minimum Lot Area: 600 square feet
 - b. Minimum Lot Width: 15 feet
 - c. Minimum Lot Access: A 3-foot pedestrian access easement may be provided in lieu of vehicular access requirements.
- (ii) ~~Required Yards.~~ Projects are eligible for the ~~a reduction of otherwise required Yard standards, up to the following minimums, following required yards:~~
- a. Front yard setback of 10 feet.
 - b. Side yard setback of 4 feet, or 3 feet for a two-story structure.
 - c. No interior side yard setback shall be required for buildings that are part of the same development.
 - d. Rear yard setbacks of 4 feet, provided structures maintain a height of less than 26 feet within 15 feet of the rear property line.
 - e. Alley setbacks of zero feet for structures that maintain a height of less than 26 feet in height for at least the first 15 feet from the alley.
- (iii) **Multi-Bedroom Units.** A Project that includes a minimum of 40% of total Residential Units as 3-bedrooms or larger, shall be granted either additional Floor Area up to 0.5 FAR and an additional 11 feet in height.
- (iv) **Spaces Between Buildings and Passageways.** Projects do not need to meet zoning requirements related to spaces between buildings or passageways pursuant to section 12.21 C.2.
- (v) **Consolidated Development.** In the case that a Opportunity Corridor Transition Project consolidates multiple ~~lots~~ ~~parcels~~, the Density Bonuses established in Table 12.22 A.38(g)(3)(i) shall be available to each lot

~~parcel~~, however, FAR and height bonuses shall not exceed the maximum permitted Incentive Area in Table 12.22 A.38(g)(3)(i)~~2~~.

- a. For example, if two CT-1 ~~lots parcels~~ are consolidated in one project, the project is eligible for up to 12 units, with 1.45:1 FAR maximum and a height maximum of 2 stories; or if two CT-2 ~~lots parcels~~ are consolidated in one project, the project is eligible for up to 20 units, with a 2.0:1 FAR maximum and a height maximum of 3 stories.
- b. If a project consolidates ~~two 2 lots parcels~~ of differing incentive areas, for example CT-2 and CT-3, the incentives of the more intense incentive area shall be permitted.

(4) **Performance Standards.** Projects approved pursuant to this Subdivision shall meet the following performance standards, and no deviations from these standards shall be granted, except that any project resulting from the conversion of or an addition up to a maximum of 1,200 square feet to an existing structure need not comply with these standards.

(i) **Common Outdoor Open Space Standards.** Projects shall provide at-grade Common Outdoor Open Space that is accessible to all the residential tenants of a project. The Common Outdoor Open Space shall be open to the sky and have no structures ~~that~~ project into the area, except for Outdoor Amenity Space areas as provided in Sec. 12.21 B and except for Projections into Yards, as provided in Section 12.22 C.20(b). This common open space requirement shall supersede the per ~~Residential Unit dwelling unit~~ calculation of common open space in LAMC Section 12.21 G.2. In lieu of the provisions of LAMC Section 12.21 G.2, a project must meet at least one Common Outdoor Open Space typology from the menu listed in Table 12.22 A.38(g)(4)(ii), below.

- a. **Minimum Planting Area.** The Common Outdoor Open Space provided shall comply with the provisions of LAMC 12.21 G.2.(a).(3) regarding minimum planting area.

<p align="center">Table 12.22 A.38(g)(4)(ii) Common Outdoor Open Space Types Menu</p>		
<p>Common Outdoor Open Space Typologies:</p>	<p>Dimension Requirements (minimum)</p>	<p>Standards</p>
<p>Courtyard</p>	<p>Courtyard width (minimum): 30% of lot width or 15 feet, whichever is greater</p> <p>Courtyard depth (minimum): 40% of lot depth (minimum)</p>	<p>Placement of courtyard shall comply with at least one of the following standards:</p> <ol style="list-style-type: none"> 1. The courtyard shall be oriented so that it and an existing open space courtyard on an adjacent lot work together to create the effect of one large open space. 2. The courtyard shall be contiguous with the minimum front yard setback creating a deep combined courtyard or wide connection between two spaces. 3. The courtyard shall be an internal courtyard, entirely contained onsite.
<p>Paseo</p>	<p>Paseo width (minimum): 10% of lot width or 10 feet wide, whichever is greater</p> <p>Paseo depth (minimum): 60% of the lot depth</p>	<p>A Paseo shall be located between residential structures, at the perpendicular to the primary lot line. center of a site A Paseo shall have with a minimum 4 foot wide pedestrian pathway accessible from the ground floor frontage line. A Paseo may be covered by architectural projections, but no structures or habitable space shall encroach on the Paseo.</p>
<p>Rear Yard</p>	<p>Rear Yard width (minimum): 50% of lot width</p> <p>Rear Yard depth (minimum): 10% of lot depth, or 15 feet, whichever is greater</p>	<p>Located adjacent to the rear property line</p>

(iii) Entrances.

a. **Street-Facing Entrance.** Each unit fronting a public street (provided there is no structure located between the lot line and unit) shall have an entrance facing the public street and one of the following entry features:

1. **Porch.** A wide, raised platform, projecting in front of a street-facing entrance, that is entirely covered but not enclosed. A porch shall have a minimum depth of four and one half feet, a minimum of 30% of the building width, and a finished floor elevation between two to five feet.
2. **Forecourt.** A yard screened with a short wall, fence or hedge that provides significant privacy for tenants located on the ground story, near sidewalk grade. A forecourt shall have a minimum depth of eight feet, a minimum width of 10 feet, required covered entrance, and a fence or wall height between two and one half to three feet and 6 inches.
3. **Recessed entry.** A space set behind the building face plane providing sheltered access to a street-facing entrance. A recessed entry shall have a depth between three to 15 feet minimum, and a maximum width of five feet, and a required covered entrance.

(ivii) **Ground Floor External Entrances.** Ground floor external entrances to units not located on a street-fronting lot line, shall have an entrance oriented towards the open space when adjacent to the open space.

(iv) Parking Areas, Garages, and Carports

a. Location.

1. No above-ground parking areas including parking structures and parking stalls, shall be allowed between a Ground Floor Frontage Line and public right-of-way.
2. New detached garages and carports shall be located behind the main building(s) facade, furthest from the Ground Floor Frontage Line.
3. Attached parking areas shall be located either underground (subterranean or semi-subterranean) or behind any main building(s).
4. Access driveways shall be provided from alleys when present and determined feasible by LADOT.

(h) **Additional Incentives.** In addition to the Base Incentives established in Paragraphs (e) and (f), ~~p~~Projects that satisfy eligibility criteria set forth in Paragraph (c) shall have the ability to select up to four Incentives from the Menu of Incentives provided in LAMC Section 12.22 A.38(h)(2) below or use an Incentive to seek a deviation from a Development Standard elsewhere in ~~the LAMC this Code~~. Refer to Paragraph (d) for the approval Procedure that is consistent with the Project's Incentive request. Projects utilizing the Opportunity Corridor Transition Incentive Area are not eligible for Incentives on or off the Menu of Incentives. ~~For Type I Unified Adaptive Reuse Projects, Additional Incentives shall only apply to the project's new construction.~~

(1) ~~Housing Development A Project~~ shall be eligible for up to four Additional Incentives. A ~~Project Housing Development~~ may request Incentives listed in Paragraph (f)(2) or use an Incentive to seek a deviation from a Development Standard elsewhere in ~~the LAMC this Code~~ or a ~~Housing Development p~~Project site's applicable zoning ordinance, Specific Plan, or overlay. Refer to Paragraph (d) for the approval Procedure that is consistent with the ~~Project's Housing Development's~~ Incentive request.

(i) Incentives requested pursuant to the applicable procedure in Paragraph (d) of this Subdivision shall be granted unless it is found, based upon substantial evidence, that:

- a. The Incentive does not result in identifiable and actual cost reductions, consistent with California Government Code Section 65915(k), to provide for affordable housing costs as defined in California Health and Safety Code Section 50052.5, or for rents for

the targeted units to be set as specified in California Government Code Section 65915(c); or

- b. The Incentive will have a Specific Adverse Impact upon public health and safety or the physical environment or on any real property that is listed in the California Register of Historical Resources and for which there is no feasible method to satisfactorily mitigate or avoid the Specific Adverse Impact without rendering the development unaffordable to low-income and moderate-income households. Inconsistency with the zoning ordinance or general plan land use designation shall not constitute a Specific Adverse Impact upon the public health or safety; or
- c. The Incentive would be contrary to state or federal law.

DRAFT

(2) Menu of Incentives. A Project may elect to request one of the following incentives not to exceed the allowed number of incentives pursuant to Paragraph ~~subsection~~ (h)(1) above. Each request from the Menu of Incentives shall constitute one Incentive request unless otherwise stated.

(i) **Yards.** Projects ~~eligible for the Base Incentives contained in this subdivision~~ may request a reduction of otherwise required yards as follows:

Yards/Setbacks	C Zones	R Zones (yard reductions for requests from the Menu of Incentives in R zones may be combined and require the use of only one incentive)
	In any Commercial zone, Eligible Projects may utilize any or all of the yard requirements for the RAS3 zone per LAMC Section 12.10.5. Projects Housing Developments on commercially zoned sites adjacent to properties zoned RD or more restrictive may provide a rear yard of not less than five feet.	Front Yards. Front yard reductions are limited to no more than the average of the front yards, regardless of a required Building Line , of adjoining buildings along the same street frontage. If located on a corner lot or adjacent to a vacant lot, the front yard setback may align with the façade of the adjoining building along the same front lot line. If there are no adjoining buildings, no reduction is permitted. If a Project occupies all the lots on an entire street frontage, a reduction to the front yard is permitted so long as it is to the same dimension as a corresponding increase to the rear yard.
		Side and Rear Yards. Up to 30% decrease in the required width or depth of any individual yard or setback.

(ii) **Ground Floor Height.** Projects involving the construction of a new building or additions may receive up to a 20% reduction in any Ground Floor Height restrictions contained in an **eOverlay**, Specific Plan, Q condition or D condition.

(iii) **Transitional Height.** Projects may select the following transitional height requirements in lieu of those found in Section 12.21.1.A.10 of this Code or any applicable transitional height limits in a Project site’s applicable zoning ordinance, Specific Plan, or overlay including any requirements for reduced building heights or stepbacks when a building is adjoining a RW1 or more restrictive zone. ~~A Height Incentive is not required in order to request this Incentive to modify transitional height.~~ Furthermore, Projects adjoining an OS zone may utilize this incentive to be exempt from the transitional height requirements found in Section 12.21.1.A.10 of this Code or any applicable Specific Plan or Overlay for the portion of the Project abutting the OS zone.

	Setback/Step Back Distance*
Side or Rear Setback	10-feet
4 Story Step-Back	30-feet
6 Story Step-Back	50-feet

*Setback and Step-back is measured from the property line.

- (iv) **Space Between Buildings and Passageways.** Projects ~~eligible for the Base Incentives contained in this subdivision and~~ subject to the provisions set forth in LAMC Section 12.21 C.2 may request a reduction in space between buildings and passageways requirements as follows:
- a. Up to a 30% reduction in the space between buildings required pursuant to LAMC Section 12.21 C.2(a); and
 - b. Up to 50% reduction in the width of the passageway required pursuant to LAMC Section 12.21 C.2(b) or the space provided to meet a subject site's required side yard requirement, whichever provides a greater reduction. Passageways provided may extend from any public street adjacent to the project site.
- (v) **Lot Coverage.** ~~Projects may request Up to a~~ 20% increase in lot coverage limits, provided that the landscaping for the Project meets a minimum of 30 points under the Landscape and Site Design Ordinance ~~of, equivalent to 10% more than otherwise required by~~ Section 12.40 of this Code, and the Landscape and Site Design Point System.
- (vi) **Lot Width.** ~~Projects may request Up to a~~ 25% decrease from a lot width requirement, provided that the landscaping for the Project meets a minimum of 30 points under the Landscape and Site Design Ordinance ~~of, equivalent to 10% more than otherwise required by~~ Section 12.40 of this Code, and the Landscape and Site Design Point System.
- (vii) **Open Space.** In lieu of the open space calculations set forth in LAMC Section 12.21 G.2, ~~Housing Developments Projects~~ may calculate their usable open space requirement as 15% of the total lot area or 10% of the total floor area confined within the perimeter walls of the provided Residential Units, whichever is greater, provided that the overall design of the ~~Housing Development Project~~ meets a minimum of 30 points under the Landscape and Site Design Ordinance ~~pursuant to, equivalent to 10% more than otherwise required by~~ Section 12.40 of this Code, and the Landscape and Site Design Point System. Common Open Space shall constitute at least 50% of the usable open space calculated under this incentive and shall be provided as outdoor space and comply with applicable provisions of Section 12.21 G.2(a)(1-4). Usable open space provided as Private Open Space shall comply with Section 12.21 G.2(b).
- (viii) **Density Calculation.** The area of any land required to be dedicated for street or alley purposes may be included as lot area for purposes of calculating the maximum density permitted by the underlying zone in which the ~~p~~Project is located.

- (ix) **Averaging of Floor Area Ratio, Density, Parking or Open Space, and permitting Vehicular Access.** A ~~Project Housing Development~~ that is located on ~~two~~ or more contiguous lots, ~~not separated by a street or alley, parcels~~ may average and permit the floor area, density, open space and residential and commercial parking over the project site, and permit vehicular use and access ~~from between~~ a less restrictive zone ~~and to~~ a more restrictive zone, provided that:
- a. No further lot line adjustment or any other action that may cause the ~~Project Housing Development~~ site to be subdivided subsequent to this grant shall be permitted; ~~and~~
 - b. The proposed use is permitted by the underlying zone(s) of each lot.
- (x) **P Zone.** In lieu of the limitations described in LAMC Section 12.12.1 and LAMC Section 12.12.1.5, in a P or PB zone, a Project may include the uses and area standards permitted in the least restrictive adjoining zone. The phrase “adjoining zone” refers to the zones of properties abutting, across the street or alley from, or having a common corner with, the subject property.
- (xi) **~~Modification of Relief from a Development Standard.~~** A Project may request up to ~~a~~ 20% relief from a ~~numerical~~ Development Standard ~~or a deviation from a non-numerical based Development Standard~~ contained in Chapter 1 of this Code, an Overlay, a Specific Plan, a Q Condition, or a D Condition. Projects requesting this incentive must provide landscaping for the Project that meets a minimum of 30 points under the Landscape and Site Design Ordinance ~~of, equivalent to 10% more than otherwise required by~~ Section 12.40 of this Code, and the Landscape and Site Design Point System. This incentive may be requested more than once ~~but shall require the use of an Incentive for each request.~~
- a. **Exception.** This incentive shall not apply to standards that regulate FAR, Height, yards/setbacks, ground story requirements, signs, parking in front of buildings, or usable open space. This incentive shall not apply to a Designated Historic Resource(s), or Non-Contributing Element(s) as defined in LAMC Section 13B.8.1.C ~~of Chapter 1A of this Code.~~

(i) **Public Benefit Options.** Per Paragraphs (e)(#2) or (f)(#2), all Projects that qualify for the Base Incentives contained in this subdivision shall be eligible for one or more of the following Public Benefit Options. Projects utilizing the Opportunity Corridor Transition Incentive Area are not eligible for Public Benefit Options. **Projects may utilize more than one Public Benefit Option if eligible, and development incentives granted in exchange for Public Benefits may be stacked. These Public Benefit Options may be combined with the Additional Incentives pursuant to Paragraph (h).** If a Project includes five of the following Public Benefit Options, they shall receive an additional 11 feet in height.

(1) **Child Care Facility.** A Project that includes a Child Care Facility located on the premises of, as part of, or adjacent to, the project, shall be granted either of the following:

- (i) An additional Density Bonus that is, for purposes of calculating residential density, an increase in the floor area of the project equal to the floor area of the Child Care Facility included in the project; or
- (ii) An additional Incentive from ~~on or off~~ the Menu of Incentives **or not listed on the Menu of Incentives** that contributes significantly to the economic feasibility of the construction of the Child Care Facility. Projects that utilize this incentive may request an additional 11 feet in height.

(2) **Multi-Bedroom Units.** A Project providing multi-bedroom units shall be granted one of the following so long as an affidavit declaring the qualifying multi-bedroom units will maintain the same bedroom count and will not be converted to additional **Residential Units dwelling units** in the future is executed and recorded with the Department of City Planning:

- (i) A Project that includes a minimum of **210%** of **Total Units Residential Units** as Residential Units with three bedrooms or more shall be granted additional Floor Area and Height as follows in **Table 12.22 A.38(i)(2)(i)a** in addition to ~~up to 0.5 FAR and an additional story and 11 feet in height, whichever is greater, beyond~~ what is available in the applicable FAR and Hheight incentive as listed for Base Incentives in **Table 12.22 A.38(e)(2)(i)** or **Table 12.22 A.38(f)(2)(i)**; or

TABLE 12.22 A.38(i)(2)(i)a Additional FAR and Height for Multi-Bedroom Units		
Overall Residential Units (including Density Bonus Units)	Additional FAR	Additional Height (Stories)
0-30	0.5:1	1
31-50	1.0:1	1
51-75	1.5:1	2
75+	2.0:1	2

- (ii) A Project shall be granted the following:
 - a. An exemption of the square footage of all Residential Units with three or more bedrooms from the floor area calculations of family size units.
 - b. An additional story of height beyond what is available in the applicable height incentive as listed for Base Incentives in **Table 12.22 A.38(e)(2)(i)** or **Table 12.22 A.38(f)(2)(i)**. The square footage of this additional story shall be limited to the square footage exempted as a result of applying **12.22 A.38(g)(2)(ii)(a) above**.

(3) **Preservation of Trees.** An additional 11 feet of height may be awarded for projects that maintain existing mature, Significant Trees (any tree that measures 12 inches or more in diameter at four and one-half feet above the average natural grade at the base of the tree and/or is more than 35 feet in height), as verified by

a focused Tree Report prepared by a certified arborist. A covenant shall be filed with [Los Angeles Department of Building and Safety](#) that requires the tree to be maintained for at least 15 years unless a certified arborist certifies that the tree is dead, dying, or dangerous to public health.

(4) **Land Donation.** An applicant for a subdivision, parcel map or other residential development approval that donates land for housing to the City of Los Angeles satisfying the criteria of California Government Code Section 65915(g), as verified by the Department of City Planning, shall be granted a Density Bonus of 15%. Provided developments are otherwise consistent with (insert small lot design standards). The Department of City Planning may adopt administrative guidelines for the purpose of clarifying procedures associated with the implementation of Land Donations pursuant to California Government Code Section 65915(g).

(5) **Active Ground Floor Exemption from Calculation of Floor Area.** Active uses, up to 1,500 square feet, located on the ground story shall be exempt from the calculation of floor area.

(i) For the purposes of exempting active uses on the ground story from calculating floor area, active space shall be designed and intended for [General Commercial-Neighborhood Retail and Service Uses, such as restaurants, counter service, general retail, personal services, and food & beverage uses](#). Areas for circulation, storage, mechanical equipment, [parking, lobbies, mailrooms, laundry rooms](#), utilities, and waste collection shall not account for more than 15% of an area designated as an active use.

(ii) Projects utilizing this option shall provide a ground story transparency of a minimum of 60% along the [primary street building frontage](#).

(iii) Projects utilizing this option shall provide a ground floor entrance at minimum every 50 feet along the front property line that provides both ingress and egress pedestrian access to the ground story of the building.

(6) **Privately Owned Public Space.** [Projects that provide For every additional 4% of buildable lot area that a Project provides](#) that is dedicated as Privately Owned Public Space above the Project site's required Common Outdoor Open Space, [the Project](#) shall be eligible for zero rear yard setback and shall be eligible to utilize the Modification of Development Standard for site landscaping as described in [LAMC Section 12.22 A.38 \(h\)\(2\)\(xi\)\(44\)](#).

(7) **Surveyed Historic Resource Facade Rehabilitation.** [Projects incorporating a Surveyed Historic Resource\(s\) into the Project design shall be granted additional](#)

Floor Area up to 1.0 FAR and 22 feet in height beyond what is available in the applicable height incentive as listed for Base Incentives in Table 12.22 A.38(e)(2)(i) or Table 12.22 A.38(f)(2)(i), provided all of the following standards are met:

- (i) The Project retains all street Fronting facades to a depth of 10-feet,
- (ii) New Floor Area shall be setback behind the 10-foot retention area, except that open space, balconies, and non-habitable architectural projections may encroach on the 10-foot retention area. In instances where a lot contains dual-frontages, the setback shall be applied from both frontages, and
- (iii) Rehabilitation of the facades is completed pursuant to the Secretary of the Interior's Standards for Rehabilitation to the satisfaction of the Office of Historic Resources.

~~**Unified Adaptive Reuse Projects.** Mixed Income Incentive Projects proposed as part of a Type I Unified Adaptive Reuse Project shall be eligible for the following incentives and subject to the Procedures described in 12.22 A.26.~~

~~(i) Any new construction proposed as part of a Type I Unified Adaptive Reuse Project utilizing this Public Benefit Option shall be eligible for the Base Incentives described in Paragraph (e) or (f) of LAMC Section 12.22 A.38 and Additional Incentives described in Paragraph (h) of LAMC Section 12.22 A.38, unless otherwise specified in Paragraph (h) of LAMC Section 12.22 A.26, so long as the required percentage of Restricted Affordable Units is provided.~~

~~(ii) The existing building portion of a Type I Unified Adaptive Reuse Project shall be eligible for the Incentives described in LAMC Section 12.22 A.26(g).~~

(j) **Program Standards.** The following program standards shall be applicable to any Project that meets the eligibility criteria established in Paragraphs (e), (f), and (g) of this subdivision.

(1) **Other Density Bonus Programs.** Projects seeking a Density Bonus pursuant to this Subdivision ~~may not pursue~~ ~~must not be pursuing~~ a Density Bonus pursuant to the procedures of any other housing incentive program contained in ~~the LAMC this Code~~ or in an Overlay or Specific Plan.

(2) **Calculating Maximum Allowable Residential Density.** ~~Per Government Code Section 65915(o)(6);~~ The Maximum Allowable Residential Density of a Project site shall be calculated pursuant to Government Code Section 65915(o)(6), before the application of a Density Bonus, using the maximum number of units allowed under a Pproject site's applicable zoning ordinance, specific plan, overlay, or general plan land use designation, whichever is greater. If a range is

permitted, the maximum number of units allowed by the specific zoning range, specific plan, or general plan land use designation shall be applicable when determining a ~~Project's~~ ~~site's~~ density prior to the application of a Density Bonus.

- (3) **Calculating Restricted Affordable Units.** The required number of Restricted Affordable Units shall be calculated based on a Project's Total Units and shall include any unit added by a Density Bonus awarded pursuant to this subdivision.
- (4) **Calculating a Density Bonus.** For the purposes of calculating a Density Bonus, the following shall apply:

- (i) Residential Units that comprise a Project shall be on ~~contiguous lots~~ ~~sites~~, ~~not separated by a street or alley~~, that are the subject of a single development application, but do not need to be based on ~~an~~ individual subdivision maps or ~~lots~~ ~~parcels~~.
- (ii) An applicant for a Project may ~~always~~ have the ability to apply a lesser percentage of Density Bonus, including but not limited to, no Density Bonus.

(5) **Fractional Numbers.**

- (i) **Units.** For the purposes of this Subdivision, calculations for the following resulting in fractional numbers shall be rounded up to the next whole number:

- a. Maximum Allowable Residential Density
- b. Density Bonus units
- c. Number of Restricted Affordable Units
- d. Number of Replacement Housing Units
- e. Vehicular Parking

f. ~~Bicycle Parking~~ Number of Multi-Bedroom Units provided pursuant to LAMC Section 12.22 A.38(i)(2)

- (6) **Multiple Lots.** A building that crosses one or more lots is eligible for the Transit Oriented Incentive Area or Opportunity Corridor Incentive Area that corresponds to the lot with the highest incentive area permitted in Table 12.22 A.38(e)(1)(iv) or Table 12.22 A.38(f)(1)(i).

- (7) **Update Frequency.** The Director shall have the authority to issue updated eligibility maps on an annual basis in order to align with updated zoning and geographic data updates, including updates to Resource Areas as defined and identified by the California Tax Credit Allocation Committee (TCAC) and updates to the locations of major transit stops. ~~Geographic eligibility associated with the Transit Oriented Incentive Areas and the Opportunity Corridors Incentive Areas, and Opportunity Corridors Transition Incentive Areas shall be updated on an annual basis.~~
- (8) **Updates to Community Plans, Specific Plans, Transit Neighborhood Plans and Overlays.** Community Plans, Specific Plans, Transit Neighborhood Plans and Overlays ~~utilizing the zoning standards of Ch 1A of the Zoning Code after January 1, 2025, with sites eligible for this Subdivision~~ shall meet at minimum the Base Incentives and percentage of set-aside affordable units for every lot eligible in the Mixed Income Incentive Programs. In the case that a Community Plan Update, Specific Plan, Transit Neighborhood Plan, or Overlay proposes to exceed the development incentives or set-aside percentages as set forth in the Mixed Income Incentive Program, the Community Plan, Specific Plan, Transit Neighborhood Plan, or Overlay may supercede ~~the Transit-Oriented Incentive Area this program. If a site is eligible for more than one incentive area in the Mixed Income Incentive Program, the incentive area with the highest development potential shall be selected.~~ If these provisions are met, Community Plans and Overlay Plans shall not be subject to the Update Frequency provisions of ~~Subparagraph~~ ~~Section~~ 7 of Paragraph (j) above.
- (i) **Exception.** In the case that a Community Plan, Specific Plan, Transit Neighborhood Plan, or Overlay assigns a site a ~~Chapter 1A~~ zone that does not match the minimum Base Incentives for every lot eligible for the Transit-Oriented Incentive Area ~~or Opportunity Corridor Transition Incentive Area~~ programs, the Plan shall be required to demonstrate that the zoning action does not result in the net loss of residential capacity.
- (9) **Request for a Lower Eligibility Subarea.** Even though ~~a project site an applicant~~ may be eligible for a certain Transit Oriented Incentive Area or Opportunity Corridor Incentive Area, an ~~applicant they~~ may chose to select a lower Transit Oriented Incentive Area or Opportunity Corridor Incentive Area within the applicable market tier by providing the percentage of Restricted Affordable Housing Units required for any lower Transit Oriented Incentive Area or Opportunity Corridor Incentive Area and be limited to the incentives available for the lower Transit Oriented Incentive Area or Opportunity Corridor Incentive Area.
- (10) **Replacement Housing Units.** A Project approved under this subdivision must meet any applicable housing replacement requirements and demolition

protections of California Government Code Section 65915(c)(3) and LAMC Section 16.60, as verified by the Los Angeles Housing Department (LAHD) prior to the issuance of a building permit. Replacement Housing Units required pursuant to this [Subparagraph section](#) may count towards any Restricted Affordable Unit requirements.

- (11) **Standards for Restricted Affordable Units.** Projects must meet the applicable requirements regarding the size, location, amenities and allocation of Restricted Affordable Units in LAMC Section 16.61 B and C and in any Implementation Memorandum, Technical Bulletin or User Guide prepared and adopted by the Los Angeles Housing Department or Department of City Planning.
- (12) **Rent Schedules.** Restricted Affordable Units [required provided](#) as part of a [Project Housing Development](#) shall be rented at rates not to exceed those specified in California Health and Safety Code 50052.5 for for-sale units or California Health and Safety Code Section 50053 for for-lease units. Restricted Affordable Units associated with One Hundred Percent Affordable Housing Projects shall comply with the definition set forth in LAMC Section 12.03.
- (13) **Implementation Memorandums, FAQs, Forms/Applications Technical Bulletins and User Guides.** The Director may prepare Implementation Memorandums, [FAQs, Forms/Applications Technical Bulletins](#) and/or User Guides for State Density Bonus requirements, as set forth in California Government Code Sections 65915-65918, for the purpose of providing additional information pertaining to this Subdivision and maintaining consistency with State Density Bonus [Law](#).
- (14) **Covenants.** Prior to the issuance of a [Bbuilding Ppermit](#) for any [Project Housing Development](#) qualifying for a Density Bonus pursuant to the provisions of this [SubdivisionSection](#), covenants acceptable to the Los Angeles Housing Department and consistent with the requirements in this [SubdivisionSection](#) and set forth in LAMC Section 16.61 shall be recorded with the Los Angeles County Recorder.
- (15) **Story.** A story shall be defined as 11-feet in height.
- (k) **Relationship to Other Sections of the Los Angeles Municipal Code.** The following provisions shall govern the relationship to other sections of the Los Angeles Municipal Code for any [Project Housing Development](#) that meets the eligibility criteria established in Paragraph (c) of this Subdivision.
- (1) A [Project Housing Development](#) that meets the eligibility criteria established in Paragraph (c) and complies with the Procedures established in Paragraph (d) may exceed the use limitations that may apply to a [Project Housing Development](#) site.

(2) If any of the Procedures described in Paragraph (d), Base Incentives described in Paragraphs (e), (f), and (g), Additional Incentives described in Paragraph (h), Public Benefit options described in Paragraph (i), or waivers requested pursuant to LAMC Section 12.22 A.38(d)(4) conflict with those of any otherwise applicable specific plan, overlay, supplemental use district, “Q” condition, “D” limitation, or citywide regulation established in Chapter 1 of this Code, including but not limited to the Ordinance Nos. listed below, this Subdivision shall prevail.

- (i) Alameda District Specific Plan (171,139)
- (ii) Avenue 57 Transit Oriented District (174,663)
- (iii) Bunker Hill Specific Plan (182,576)
- (iv) Century City North Specific Plan (156,122)
- (v) Century City West Specific Plan (186,370)
- (vi) Century City South Specific Plan (168,862)
- (vii) Coastal Bluffs Specific Plan (170,046)
- (viii) Coliseum District Specific Plan (185,042)
- (ix) Colorado Boulevard Specific Plan (178,098)
- (x) Cornfield Arroyo Seco Specific Plan (182,617)
- (xi) Crenshaw Corridor Specific Plan (184,795)
- (xii) Devonshire/Topanga Corridor Specific Plan (168,937)
- (xiii) Exposition Corridor Transit Neighborhood Plan (186,402)
- (xiv) Foothill Boulevard Corridor Specific Plan (170,694)
- (xv) Girard Tract Specific Plan (170,774)
- (xvi) Glencoe/Maxella Specific Plan (171,946)
- (xvii) Granada Hills Specific Plan (184,296)
- (xviii) Hollywoodland Specific Plan (168,121)
- (xix) Jordan Downs Urban Village Specific Plan (184,346)
- (xx) Los Angeles Airport/El Segundo Dunes Specific Plan (167,940)

- (xxii) Los Angeles Sports and Entertainment District Specific Plan (181,334)
- (xxiii) Loyola Marymount University Specific Plan (181,605)
- (xxiv) Mt. Washington/Glassell Park Specific Plan (168,707)
- (xxv) Mulholland Scenic Parkway Specific Plan (167,943)
- (xxvi) North Westwood Village Specific Plan (163,202)
- (xxvii) Oxford Triangle Specific Plan (170,155)
- (xxviii) Pacific Palisades Commercial Village and Neighborhood Specific Plan (184,371)
- (xxix) Paramount Pictures Specific Plan (184,539)
- (xxx) Park Mile Specific Plan (162,530)
- (xxxi) Playa Vista Area D Specific Plan (176,235)
- (xxxii) Ponte Vista at San Pedro Specific Plan (182,937 and 182,939)
- (xxxiii) Porter Ranch Land Use/Transportation Specific Plan (180,083)

- (xxxiv) Redevelopment Plans (186,325)
- (xxxv) San Vicente Scenic Corridor Specific Plan (173,381)
- (xxxvi) University of Southern California University Park Campus Specific Plan (182,343)
- (xxxvii) Valley Village Specific Plan (168,613)
- (xxxviii) Venice Coastal Zone Specific Plan (175,693)
- (xxxix) Ventura-Cahuenga Boulevard Corridor Specific Plan (174,052)
- (xl) Vermont/Western Transit Oriented District Specific Plan (Station Neighborhood Area Plan) (173,749)
- (xli) Warner Center 2035 Plan (182,766)
- (xlii) Westwood Community Multi-Family Specific Plan (163,203 and 163,186)
- (xlili) Westwood Village Specific Plan, Westwood Community Design Review Board Specific Plan (187,644)
- (xliv) Wilshire - Westwood Scenic Corridor Specific Plan (155,044)

(l) **Interpretations Consistent with State Density Bonus Law.** This Subdivision is intended to be interpreted as consistent with State Density Bonus Law contained in California Government Code Sections 65915-65918. If at any time, this Subdivision becomes inconsistent with California Government Code Sections 65915-65918, the provisions of State Density Bonus Law shall apply.

Section 8 7. Subdivision 39 of Subsection A of Section 12.22 of the Los Angeles Municipal Code is added to read as follows:

12.22 A.39 AFFORDABLE HOUSING INCENTIVE PROGRAM

(a) **Purpose.** The purpose of this Subdivision is to establish procedures for implementing State Density Bonus requirements, as set forth in California Government Code Sections 65915-65918; for affordable housing projects, including Priority Housing Projects, and to increase the production of affordable housing citywide with tailored application for sites on parking (P) zones, public facility (PF) zones, and sites owned by Public Agencies, Faith-Based Organizations and nonprofit Community Land Trusts and Cooperatives. In conjunction with the incentives granted by state law, this subdivision shall offer incentives and waivers or reductions of Development Standards for the purposes of increasing the feasibility of affordable housing construction.

(b) **Definitions.** The following definitions shall apply to this Subdivision:

Environmental Consideration Area. As defined in LAMC Section 12.22 A.37.

Faith-Based Organization Project. A housing project Housing Development located on land owned entirely, whether directly or through a wholly owned company or corporation, by a Religious Institution at the time of project filing, developed by or in partnership with a Qualified Developer. This includes ownership through an affiliated or associated nonprofit public benefit corporation organized pursuant to the Nonprofit Corporation Law (Part 2 [commencing with Section 5110] of Division 2 of Title 1 of the Corporations Code). ~~At least 80 percent of the development p housing pProject's Total Units, exclusive of a manager's unit or units, shall be covenanted for at Lower Income limits households, as defined by Section 50079.5 of the Health and Safety Code, except that up to 20 percent of the 80 percent may be covenanted for at mModerate Income limits households, as defined in Section 50053 of the Health and Safety Code. Units in the development shall be offered at an affordable rent as set in an amount consistent with the rent limits established by the California Tax Credit Allocation Committee, or if for sale, an affordable housing cost as defined in Section 50052.5 of the Health and Safety Code.~~

General Commercial Uses. Uses that involve business activity serving the general public, including retail, professional and personal services, hospitality, and entertainment.

Moderate Opportunity Areas. Moderate Resource Areas and areas experiencing moderate rates of rapid change as defined and identified by the California Tax Credit Allocation Committee (TCAC).

Public Agency. Refer to California Government Code Section 20056.

Public Land Project. A ~~housing project~~ ~~Housing Development~~ located in a Public Facility (PF) Zone and/or located on ~~lots~~ ~~parcels~~ owned by a Public Agency.

Qualified Developer. ~~Refer to~~ The same meaning as California Government Code Section 65913.16.(b)(9) exclusive of (D). For purposes of this Subdivision, a Qualified Developer shall also include a Community Development Financial Institution (CDFI) identified on the United States Department of the Treasury's list of Certified CDFIs at the time of project filing, provided the CDFI maintains a non-profit status pursuant to Section 501(c)(3) of the United States Internal Revenue Code.

Religious Institution. Refer to California Government Code Section 65913.16.(b)(10).

Sea Level Rise Area As defined in LAMC Section 12.22 A.38 (b).

Shared Equity Project. A housing project located on land owned by a Community Land Trust as defined in the California Revenue and Taxation Code Section 402.1(a)(11)(C)(ii), or a Limited-equity Housing Cooperative or Workforce Housing Cooperative Trust as defined in Section 817 of The California Civil Code, except that Residential Units, in addition to being sold or rented to income qualified persons, may also be held by the non-profit corporation for the purpose of making Lower Income units financially stable. The land must be owned by the Community Land Trust, Limited-equity Housing Cooperative or Workforce Housing Cooperative Trust at the time of project filing through the issuance of a Certificate of Occupancy.

Total Units. The total units in a project after a Density Bonus is awarded pursuant to this subdivision.

Very Low Vehicle Travel Area. Refer to California Government Code Section 65915 (o)(9).

(c) **Eligibility Criteria.** To qualify for the provisions of this Subdivision, an Affordable Housing Incentive Project (Project) must satisfy the following eligibility requirements:

- (1) A Project meeting the definition of a One Hundred Percent Affordable Housing Project, Public Land Project, **Shared Equity Project**, or a Faith Based Organization Project with five or more Total Units.
- (2) Reserve a percentage of the Project's Total Units for at least one of the following income levels or target populations, as defined on Table 12.22 A.39(c)(2).

TABLE 12.22 A.39(c)(2)(i) Required Percentage of Restricted Affordable Units	
Project Type	Minimum % of Total Units that are Restricted Affordable Units ¹
One Hundred Percent Affordable Housing Project	100% ¹
Public Land Project	100% ²
Faith-Based Organization Project	80% ³
Shared Equity Project	80% ⁴

Footnotes:

1 Per GCS 65915(b)(1)(G), a One Hundred Percent Affordable Housing Project must reserve all units (including units provided as a result of a Density Bonus), excluding a manager’s unit or units, for lower income households earning up to 80 percent of the area median income, and rents or housing costs to the occupying residents do not exceed 30 percent of the maximum gross income, as those income ranges are defined by the United States Department of Housing and Urban Development (HUD), or any successor agency except that 20 percent of the units may be affordable to Moderate Income households, as defined in California Health and Safety Code Section 50053, or as amended.

2 Provided at least one affordability income category is consistent with the minimum affordability requirements pursuant to California Government Code Section 65915.

~~2~~ 3 ~~Per definition of~~ A Faith Based Organization Project must reserve up to 20 percent of Total Units (including units provided as a result of a Density Bonus), ~~the 80 percent may be for moderate income households~~ excluding a manager’s unit or units, for households earning up to 120 percent of the area median income, as defined in Section 50053 of the California Health and Safety Code Section, or as amended. Remaining Restricted Affordable Units may use rents or housing costs so the occupying residents do not exceed 30 percent of the maximum gross income, as those income ranges are defined by the United States Department of Housing and Urban Development (HUD). 20 percent of Total Units may be unrestricted.

4 A Shared Equity Project must reserve 20 percent of Total Units (including units provided as a result of a Density Bonus), excluding a manager’s unit or units, for households earning up to 120 percent of the area median income, as defined in California Health and Safety Code Section 50053, or as amended. Remaining Restricted Affordable Units may use rents or housing costs so the occupying residents do not exceed 30 percent of the maximum gross income, as those income ranges are defined by the United States Department of Housing and Urban Development (HUD). 20 percent of Total Units may be unrestricted.

- (3) The One Hundred Percent Affordable Housing Project site shall not include any lots located in a single family or more restrictive residential zone (RW and more restrictive zone), if a Project’s Maximum Allowable Residential Density is less than 5 units. A Shared Equity Project site shall not include lots located in a single family or more restrictive residential zone (RW and more restrictive).
- (4) Faith-Based Organization Projects utilizing land purchased by a Religious Institution after January 1st, 2024, shall not include any lots located in a single family or more restrictive residential zone (RW and more restrictive) unless the

filing Religious Institution owns a lot with an existing Church or House of Worship located within 528 feet of the Project site.

- (5) The Faith-Based Organization Project, Shared Equity Project, or a One Hundred Percent Affordable Project with Maximum Allowable Residential Density of less than 5 units, site shall not include any lots ~~parcels~~ located in a manufacturing zone that does not allow multi-family residential uses (M1, M2, M3), including sites ~~with restrictions~~ zoned CM, MR1, and MR2 with no residential uses permitted from an applicable planning overlay (~~CM, MR1, MR2, M1, M2, and M3~~).
- (6) The Faith-Based Organization Project, Shared Equity Project, or a One Hundred Percent Affordable Project with a Maximum Allowable Residential Density of less than 5 units, shall not include any lots ~~parcels~~ located ~~with~~ in a Very High Fire Hazard Severity Zone (VHFHSZ), the Coastal Zone, or ~~within~~ a Sea Level Rise Area.
- (7) A Faith-Based Organization Project or Shared Equity Project may be located on a ~~parcel~~ lot with a Surveyed Historic Resource, that is classified as a historical resource, as defined by Public Resources Code Section 21084.1 as determined by the Office of Historic Resources. Provided that:
- (i) If proposed alterations to a Surveyed Historic Resource do not meet the Secretary of the Interior's Standards for Rehabilitation to the satisfaction of the Office of Historic Resources, the Discretionary Procedure pursuant to Section 12.22.A.39(d)(3) shall be followed; and
 - (ii) The Faith-Based Organization Project or Shared Equity Project does not require Demolition as defined in LAMC Section 13B.8.1.C of Chapter 1A of this Code a Surveyed Historic Resource.
- (8) The Project does not require the demolition of a Designated Historic Resource, as demolition is defined in LAMC Section 13B.8.1.C of Chapter 1A of this Code, and any proposed alteration to a Designated Historic Resource shall not be approved until a review has been completed by the Office of Historic Resources.
- (9) The following shall apply to a Type I Unified Adaptive Reuse Project, as defined in LAMC 12.22 A.26(h)(1), that meets the definition of a One Hundred Percent Affordable Housing Project, Public Land Project, Faith-Based Organization Project, or a Shared Equity Project, and that complies with the criteria for Eligibility associated with the corresponding project type:
- (i) The portion of the Type I Unified Adaptive Reuse Project consisting of new construction may be eligible for Base Incentives, Additional Incentives, and Public Benefits Options in LAMC 12.22 A.39 for the respective project type definition unless otherwise stated; and

- (ii) The Type I Unified Adaptive Reuse Project shall comply with the Procedures set forth in LAMC 12.22 A.39(d) based on the corresponding project type definition and associated project request.

- (10) Projects located on project sites that meet the definition of an Environmental Consideration Area shall comply with all applicable standards contained in the Environmental Protection Measures adopted pursuant to LAMC Section 11.5.15.

(d) **Procedures.** A Project that meets the provisions of this Subdivision shall be reviewed pursuant to Procedures, as set forth below. ~~Though an Approval of a Density Bonus or Incentive pursuant to this Subdivision shall not, in and of itself, trigger a General Plan Amendment, zZone eChange, Project Review or other discretionary review actions required by this Zoning Code-, the applicable procedures set forth in LAMC Section 13A.2.10 (Multiple Approvals) of Chapter 1A of this Code shall apply for Projects~~ **Housing Developments** seeking other discretionary approvals in conjunction with an application requested pursuant to the procedures in Paragraph (d).

- (1) **Los Angeles Department of Building and Safety Review.** A Project seeking Base Incentives described in Paragraph (e) ~~and/or Incentives listed on the Menu of Incentives in Paragraph (f)~~ shall be considered ministerial and processed by the Department of Building and Safety.

(i) **Exceptions.**

- a. Faith-Based Organization Projects ~~and Shared Equity Projects~~ with Surveyed Historic Resources shall seek approval pursuant to ~~SubparagraphSection~~ (2) of Paragraph (d).
- ~~b. Housing Developments A Project requesting Incentives from the Menu of Incentives that cannot comply with the criteria established in LAMC Section 12.22 A.39(f)(1)(ii) shall comply with procedures set forth in LAMC Section 12.22 A.39(d)(2).~~

- (2) **Expanded Administrative Review.** The following Projects shall be ministerially approved pursuant to Expanded Administrative Review, as set forth by the provisions of LAMC Section 13B.3.2 (Expanded Administrative Review) of Chapter 1A of this Code. As defined in this ~~Subdivisionsection~~, ministerial approval means an administrative process to approve a “use by right” as this term is defined in California Government Code Section 65583.2 (i).

- (i) Projects that request the Public Benefit Options described in Paragraph (g). ~~Projects that request only Public Benefit Options in addition to Incentives listed on the Menu of Incentives shall not be subject to any hearing procedures regardless of the provisions contained in LAMC Section 13B.3.2.D.~~

- (ii) Projects seeking Incentives not listed on the Menu of Incentives described in Paragraph (f) ~~and/or up to one waiver or modification reduction of any Development Standards~~ pursuant to California Government Code Section ~~CCS~~ 65915(e), ~~and/or Public Benefit Options described in Paragraph (g). Waivers or modifications reduction of any Development Standards shall be reviewed pursuant to the Findings described in LAMC Section 12.22 A.39(d)(5).~~
- a. ~~Exception. In addition to the general procedures described in LAMC Section 13B.3.2 (Expanded Administrative Review), Projects that request an Incentive not on or in excess of the Menu of Incentives for relief from Floor Area Ratio (FAR), Height, Open Space requirements, tree planting requirements, ground story requirements, and/or yards/setback requirements shall be subject to the Public Hearing and Appeals procedures described in LAMC Section 13B.3.2.D (Expanded Administrative Review).~~
- (iii) Projects that request waivers or reductions of any Development Standards not listed on the Menu of Incentives described in LAMC Section 12.22 A.39(f)(2). Waivers or reductions of any Development Standard shall be reviewed pursuant to the Findings described in LAMC Section 12.22 A.39(d)(5).
- (iv) Faith Based Organization Projects and Shared Equity Projects with Surveyed Historic Resources.
- (v) Projects requesting Incentives from the Menu of Incentives that cannot comply with the criteria established in LAMC Section 12.22 A.39(f)(1)(ii) shall be subject to the Public Hearing ~~and Appeals~~ procedures described in LAMC Section 13B.3.2.D of Chapter 1A of this Code in addition to the general procedures described in LAMC Section 13B.3.2 (Expanded Administrative Review) of Chapter 1A of this Code.
- (3) **Director's Determination.** The Director of Planning shall review the following Projects pursuant to LAMC Section 13B.2.5 of Chapter 1A of this Code:
- (i) Projects requesting up to three waivers or ~~modifications reduction~~ of any Development Standards, pursuant to California Government Code Section ~~CCS~~ 65915. Waivers or ~~modifications reductions~~ of any Development Standards shall be reviewed pursuant to the Findings described in LAMC Section 12.22 A.39(d)(5).
- (4) **City Planning Commission Review.** The following Projects must file an application pursuant to LAMC Section 13B.2.3 of Chapter 1A of this Code. ~~Notwithstanding the provisions set forth in Sec. 13B.2.3 (Class 3 Conditional Use~~

Permit) of Chapter 1A , the decision of the City Planning Commission shall be final.

- (i) A Project that requests more than three waivers or **modifications reductions of Development Standards** pursuant to California Government Code Section **GCS** 65915. Waivers or **modifications-reductions** of any Development Standards shall be reviewed pursuant to the Findings described in LAMC Section 12.22 A.39(d)(5).

(5) Findings for Waivers or **Modifications Reductions of Development Standards.** Waivers requested pursuant to the Procedures described in this Paragraph shall be approved by the applicable decision-making authority unless that decision-making authority finds that:

- (i) The Development Standard associated with a request for waiver(s) or reduction(s) in Development Standards will not have the effect of physically precluding the construction of a development meeting the Eligibility criteria described in Paragraph (c) at the densities or with the concessions or incentives permitted under Paragraph (e) or Paragraph (f); or
- (ii) The waivers or reductions of **D**evelopment **S**tandards would have a Specific Adverse Impact, as defined in paragraph (2) of subdivision (d) of Section 65589.5, upon public health and safety or on a California Register of Historical Resources and for which there is no feasible method to satisfactorily mitigate or avoid the **S**pecific, ~~a~~ **A**dverse **I**mpact without rendering the development unaffordable to low-income and moderate-income households; or
- (iii) The waivers or reductions of **D**evelopment **S**tandards are contrary to state or federal law.

(6) Other Discretionary Approvals. Applicable procedures set forth in LAMC Section 13A.2.10 (Multiple Approvals) of Chapter 1A of this Code apply for a Project seeking other discretionary approvals in conjunction with an application requested pursuant to the Procedures in Paragraph (d). Regardless of any other findings that may be applicable, the decision-maker must approve the requested Base Incentives and Additional Incentives, either on or off the Menu of Incentives described in **Paragraph (f) LAMC Section 12.22 A.39(f)(2)**, requested under this Subdivision unless the decision-maker, based upon substantial evidence; **determines that the Project meets one or more of the criteria described in LAMC Section 12.22 A.37(f)(1)(i). makes either any of the findings in subsection (5) of Paragraph (d) of this subdivision.**

- (e) **Base Incentives.** A Project that meets the eligibility criteria established in Paragraph (c) may utilize Base Incentives described in this [Paragraph subdivision](#), in exchange for the required minimum percentage of Restricted Affordable Units established in Paragraph (c) of this Subdivision. A Project that qualifies for Base Incentives established in the table below shall also be eligible for Public Benefit Options listed in subparagraph (g).

DRAFT

TABLE 12.22 A.39(e)(i) Base Incentives				
Eligibility Subarea	Density Bonus	Parking	Floor Area Ratio (FAR)	Height
Description	In each Subarea, the maximum increase in the otherwise Maximum Allowable Residential Density shall be as follows:	In each Subarea, the required shall be as follows: ^{1,2}	In each Subarea, the maximum increase in the allowable FAR permitted shall be as follows ³ :	In each Subarea, the maximum increase in the allowable height permitted shall be equal to the following: ⁴
Citywide	Any Density Bonus provided by California Government Code Section 65915. ⁵	0.5 Parking Spaces per Unit. ^{5,7}	Sites with a Maximum Allowable Residential Density of less than 5 units: The maximum FAR shall be equal to 1.5:1 FAR. Otherwise: 3.0:1, or a 35% increase, whichever is greater.	Sites with a Maximum Allowable Residential Density of less than 5 units: Bonus of up to 11' or 1 story, whichever is greater. Otherwise: Bonus of 22' or 2 stories, whichever is greater.
Parcels-Lots located within a half mile of a Major Transit Stop or Very Low Vehicle Travel Area ⁶	Limited by Floor Area	No minimum parking required. ⁷	Sites with a Maximum Allowable Residential Density of less than 5 units: The maximum FAR shall be equal to 2.0:1 FAR. Otherwise: 4.5:1 , or a 50% increase, whichever is greater.	Sites with a Maximum Allowable Residential Density of less than 5 units: Bonus of up to 11' or 1 story, whichever is greater. Otherwise: bonus of 33' or 3 stories, whichever is greater.
Higher Opportunity or Moderate Opportunity Area	Limited by Floor Area	No minimum parking required. Required parking for current or proposed nonresidential uses may be reduced by 25% percent.	Sites with a Maximum Allowable Residential Density of less than 5 units: The maximum FAR shall be equal to 2.5:1 FAR. Otherwise: R-Zones: 3.5:1, or a 50% increase, whichever is greater. C-Zones: 4.65:1, or a 55% increase, whichever is greater.	Sites with a Maximum Allowable Residential Density of less than 5 units: Bonus of up to 11' or 1 story, whichever is greater. Otherwise: bonus of 33' or 3 stories, whichever is greater.

Footnotes:

1 Required automobile parking applies for all Residential Units in an ~~Eligible~~ Project (not just the restricted affordable units), inclusive of disabled and required guest parking, where applicable. All parking spaces provided shall comply with ~~Subdivision LAMC Section 12.21 A.5 of the Code~~. Except that any combination of standard, compact or tandem spaces may be provided. Tandem parking spaces that do not comply with ~~Subparagraph LAMC Section 12.21 A.5(h)(2) of the Code~~ may be provided in any configuration as long as a parking attendant or an automated parking system is provided at all times. Consistent with California Government Code Section 65915(p)(4), required parking spaces provided may be uncovered.

2 ~~As part of a Faith-Based Organization Project, the required parking for current or proposed religious uses shall be reduced by 50 and be counted towards the housing project pursuant to California Government Code Sec. 65913.6. For consistency with and implementation of California Government Code Section: 65913.6, parking that was previously required under a Class 2 Conditional Use Permit in pursuant to LAMC Section 12.24.W or under a Class 3 Conditional Use Permit in LAMC Section 12.24.U for an existing "church" or "house of worship" use, or that would be required as part of a Conditional Use Permit for a proposed "church" or "house of worship" use, shall may therefore be reduced by 50%. and counted towards the Project to meet this requirement. California Government Code Section 65913.6 does not apply to Projects within half a mile of a Major Transit Stop or to Projects located on a lot within one block of a car share vehicle.~~

3 Provided that any additional floor area provided through this ~~Subdivision section~~ is utilized only by residential uses. Any nonresidential uses shall be limited to the FAR associated with a site's underlying zoning prior to the application of any Incentive. ~~Flexible parking structure designs that would facilitate possible future conversion of parking areas to active uses and create zoning flexibility to allow by right conversion would not count as floor area and not be included in the calculation of Floor Area Ratio. Vehicle parking areas above ground will be counted as floor area and included in the calculation of Floor Area Ratio for projects using this incentive.~~

4 The increase in height shall be applicable to a Project over the entire ~~project site parcel~~ regardless of the number of underlying height limits. The height increase may be applied to the maximum allowable height in feet or stories permitted by the zone, including for mixed-use ~~Projects. Housing Developments.~~

~~5 See LAMC Section 12.22 A.39 (c)(1).~~

~~6 No parking shall be required for a Project meeting the criteria of California Government Code Section 65915(p)(3). Except if the development has paratransit service or unobstructed access, within one-half mile, to fixed bus route service that operates at least eight times per day, then no minimum parking required. No minimum parking is required for Faith-Based Organization Project if there is a car share vehicle within one block of the lot parcel.~~

~~7 No minimum parking is required for Faith-Based Organization Project if there is a car share vehicle within one block of the parcel~~

- (2) **Automobile Parking Zones.** In lieu of the limitations described in LAMC Section 12.12.1 and LAMC Section 12.12.1.5, in a P or PB zone, a Project may establish Maximum Allowable Residential Density, uses and area standards permitted in the least restrictive adjoining zone.
- (i) **Lots with Dual Zoning.** In cases where a lot contains split zoning with a P or PB Zone, the entire ~~lot parcel~~ may utilize the least restrictive adjoining zone.
- (3) **Public Land Project.** In lieu of the requirements in LAMC Section 12.24 U.21 and 12.04.09 B.9, a Public Land Project may either:
- (i) Establish Maximum Allowable Residential Density, uses, and area standards as permitted in the least restrictive adjoining zone. Regardless of adjacent zoning, all Public Land Projects shall be granted a base Floor Area Ratio of 3.0:1 and a base height of three stories or 33 feet whichever is greater; or
- (ii) Where specifically authorized through a resolution of City Council, a Public Land Project, shall be permitted to have multi-family residential uses and shall not be limited to the use and zoning requirements of the underlying zoning, Specific Plan or General Plan.
- (4) **Exceptions.**
- (i) A One Hundred Percent Affordable Housing Project ~~with five or more units prior to the issuance of a Density Bonus pursuant to section (i) of California Government Code Sections 65915-65918 shall not be eligible for the FAR and Parking Incentives available indicated in Table 12.22.A.39(e)(1) and shall be limited to the Density Bonus, Parking, and Height incentives for projects meeting the eligibility criteria of 65915(b)(1)(G) set forth in California Government Code Section 65915(p) if any of the following is applicable:~~
- a. The Project is located in a Very High Fire Hazard Severity Zone, ~~the Coastal Zone, or a Sea Level Rise Area;~~ or
 - b. The Project is located in a manufacturing zone that does not allow multi-family residential uses (M1, M2, M3) ~~or is located in a hybrid industrial zone (CM, MR1, MR2) with residential use restrictions from an applicable planning overlay; or including sites with restrictions from an applicable planning overlay (CM, MR1, MR2, M1, M2, and M3).~~
 - c. The Project is located in a single-family or more restrictive residential zone (RW or more restrictive).

~~(ii) A Project located in an Environmental Consideration Area as defined in LAMC Section 12.22 A.37 shall not be eligible for the FAR and Parking incentives available in Table 12.22.A.39(e)(1) until a Phase I Environmental Site Assessment, as defined in Section 25319.1 of the Health and Safety Code, and/or a Phase II Environmental Site Assessment, as defined in subdivision (o) of Section 25403 of the Health and Safety Code, if warranted, is completed. A "No Further Action" letter, or some other comparable documentation issued by the appropriate regulatory agency shall be required. If warranted and not completed, Projects shall be limited to the Parking incentives set forth in California Government Code Section 65915(p).~~

(ii)(iii) In a Specific Plan or overlay district that has a FAR available through a development bonus or incentive program to provide affordable housing, a Project may utilize the Bonus FAR of the Specific Plan or overlay district in lieu of the FAR maximum described in table 12.22 A.39(e)(1).

(iii) A Shared Equity Project shall be limited to the low density base incentives indicated in Table 22.A.39(e)(1) for a site with a Maximum Allowable Residential Density less than 5 units, regardless of the underlying Maximum Allowable Residential Density or zoning of the Project site.

a. **Measure ULA Exception.** A Shared Equity Project receiving funding from a program established under Ordinance 187692 (Measure ULA) shall be eligible for incentives as determined by the Project site's Maximum Allowable Residential Density.

(f) **Additional Incentives.** A Project shall be granted a number of Additional Incentives pursuant to the provisions described below in addition to the Base Incentives established in Paragraph (e).

(1) A Project shall be eligible for up to five Additional Incentives. A Project may request Incentives listed in Paragraph (f)(2) or use an Incentive to seek a deviation from a Development Standard elsewhere in ~~the LAMC this Code~~ or a Project site's applicable zoning ordinance, specific plan, or overlay. Refer to Paragraph (d) for the approval Procedure that is consistent with the ~~Project's Housing Development's~~ Incentive request.

(i) Incentives requested pursuant to the applicable procedure in Paragraph (d) of this Subdivision shall be granted unless it is found, based upon substantial evidence, that:

- a. The Incentive does not result in identifiable and actual cost reductions, consistent with California Government Code Section 65915(k), to provide for affordable housing costs as defined in California Health and Safety Code Section 50052.5, or for rents for the targeted units to be set as specified in California Government Code Section 65915(c); or
- b. The Incentive will have a Specific Adverse Impact upon public health and safety or the physical environment or on any real property that is listed in the California Register of Historical Resources and for which there is no feasible method to satisfactorily mitigate or avoid the Specific Adverse Impact without rendering the development unaffordable to low-income and moderate-income households. Inconsistency with the zoning ordinance or general plan land use designation shall not constitute a Specific Adverse Impact upon the public health or safety; or
- c. The Incentive would be contrary to state or federal law.

(ii) To be eligible for the Menu of Incentives described in LAMC Section 12.22 A.39(f)(2) a Project shall comply with all of the following:

a. The Project shall not be located in a Very High Fire Hazard Severity Zone, Sea Level Rise Area ~~or the Coastal Zone~~.

~~b. Project sites that meet the definition of an Environmental Consideration Area as defined in LAMC Section 12.22 A.37 shall not be deemed eligible for Menu of Incentives until a Phase I Environmental Site Assessment, as defined in Section 25319.1 of the Health and Safety Code, and/or a Phase II Environmental Site Assessment, as defined in subdivision (e) of Section 25403 of the Health and Safety Code, if warranted, is completed. A "No Further~~

~~Action” letter, or some other comparable documentation issued by the appropriate regulatory agency shall be required in order to utilize the Menu of Incentives.~~

- b. The Project would not require the Demolition, as Demolition is defined in LAMC Section 13B.8.1.C of Chapter 1A of this Code, of a Designated Historic Resource, or any ~~S~~urveyed Historic Resource, eligible or architectural historic resource identified for any historic protection or special consideration or review by an applicable Overlay or Specific Plan including sites located in the South Los Angeles Community Plan Implementation Overlay (CPIO) Section 1-6.C.5.b, the Southeast Los Angeles CPIO Section 1-6.C.5.b, the West Adams CPIO Section 6.C.5.b, or the San Pedro CPIO Section 7.C.5.b, Westwood Village Specific Plan, Echo Park CDO District, or the North University Park Specific Plan.

~~e. The Project involving Designated Historic Resources shall be consistent with the Secretary of the Interior's Standards for Rehabilitation.~~

- d. The Project shall not include any lots located in a manufacturing zone that does not allow multi-family residential uses (M1, M2, M3) or lots located in a hybrid industrial zone (CM, MR1, MR2) with residential use restrictions from an applicable planning overlay including sites with restrictions from an applicable planning overlay (CM, MR1, MR2, M1, M2, and M3), except for Public Land Projects.

(2) **Menu of Incentives.** A Project may elect to request ~~any one~~ of the following incentives not to exceed the allowed number of incentives pursuant to ~~Subparagraph~~~~subsection~~ (f)(1) above. ~~Each request from the Menu of Incentives shall constitute one Incentive request unless otherwise stated.~~

(i) **Yards.** Projects contained in this subdivision may request a reduction of otherwise required yards as follows:

Yards/ Setbacks	C Zones	R Zones (yard reductions in R zones may be combined and require the use of only one incentive)
	<p>In any Commercial zone, an an Eligible Project may utilize any or all of the yard requirements for the RAS3 zone per LAMC Section 12.10.5. Projects Housing Developments on commercially zoned sites adjacent to properties zoned RD or more restrictive may provide a rear yard of not less than five feet.</p>	<p>Front Yards. Front yard reductions are limited to no more than the average of the front yards, regardless of a required Building Line, of adjoining buildings along the same street frontage. Or, if located on a corner lot or adjacent to a vacant lot, the front yard setback may align with the façade of the adjoining building along the same front lot line. If there are no adjoining buildings, no reduction is permitted. If a Project occupies all the lots on an entire street frontage, a reduction to the front yard is permitted so long as it is to the same dimension as a corresponding increase to the rear yard.</p>
		<p>Side and Rear Yards. Up to 30% decrease in the required width or depth of any individual yard or setback.</p>

(ii) **Transitional Height.** No otherwise applicable requirement for transitional height including Section 12.21.1 A.10., or any applicable transitional height limits in a ~~Project site's applicable zoning~~, Specific Plan, ~~or overlay~~, including any requirements for reduced building heights when a building is

adjoining a more restrictive zone, shall need to be met for projects eligible for the Base Incentives contained in this subdivision.

- (iii) **Ground Floor Activation.** Where nonresidential Floor Area is required by a zoning ordinance, Specific Plan, Community Plan Implementation Overlay, Pedestrian Overlay Zone, or other set of ~~Development~~ ~~Standards~~, including to meet the definition of a Mixed Use Project in LAMC Section 13.09 B.3, that requirement may be reduced by 50 percent and be satisfied by residential lobbies, community rooms, resident amenities spaces, child care centers, supportive services areas, common open space or use whose primary purpose is to provide services and assistance to residents of the building or the general public.
- (iv) **Ground Floor Height.** Projects eligible for the base incentives contained in this subdivision may request a 30% reduction in any ground floor height requirement.
- (v) **Commercial Parking.** Projects ~~eligible for the Base Incentives contained in this subdivision~~ may request to waive any requirement to provide new or maintain existing automobile parking spaces associated with a commercial use that is proposed in conjunction with the Project.
- (vi) **Space Between Buildings and Passageways.** Projects ~~eligible for the Base Incentives contained in this subdivision and~~ subject to the provisions set forth in LAMC Section 12.21 C.2 may request a reduction in space between buildings and passageways requirements as follows:
 - a. Up to a 30% reduction in the space between buildings required pursuant to LAMC Section 12.21 C.2(a).
 - b. Up to 50% reduction in the width of the passageway required pursuant to LAMC Section 12.21 C.2(b) or the space provided to meet a subject site's ~~required~~-side yard requirement, whichever provides a greater reduction. Passageways provided may extend from any public street adjacent to the project site.
- (vii) **Lot Coverage.** Up to 20% increase in lot coverage limits, provided that the landscaping for the Project meets a minimum of 30 points under the Landscape and Site Design Ordinance, ~~equivalent to 10% more than~~ ~~otherwise required by~~ Section 12.40 of this Code, and the Landscape and Site Design Point System.
- (viii) **Lot Width.** Up to 25% decrease from a lot width requirement, provided that the landscaping for the Project meets a minimum of 30 points under the Landscape and Site Design Ordinance, ~~equivalent to 10% more than~~

~~otherwise required by~~ Section 12.40 of this Code, and the Landscape and Site Design Point System.

- (ix) **Open Space.** In lieu of the open space calculations set forth in LAMC Section 12.21 G.2, A ~~Project Housing Developments~~ requesting this incentive may calculate ~~their its~~ usable open space requirement as ~~1540%~~ of the total lot area or ~~1045%~~ of the total floor area confined within the perimeter walls of the provided Residential Units, whichever is greater, provided that the overall design of the ~~Project Housing Development~~ meets a minimum of 30 points under the Landscape and Site Design Ordinance, ~~equivalent to 10% more than otherwise required by~~ Section 12.40 of this Code, and the Landscape and Site Design Point System. Common Open Space shall constitute at least 50% of the usable open space calculated under this incentive and shall be provided as outdoor space and comply with applicable provisions of Section 12.21 G.2(a)(1-4). Usable open space provided as Private Open Space shall comply with Section 12.21 G.2(b).
- (x) **Density Calculation.** The area of any land required to be dedicated for street or alley purposes may be included as lot area for purposes of calculating the maximum density permitted by the underlying zone in which the ~~P~~project is located.
- (xi) **Averaging of Floor Area Ratio, Density, Parking or Open Space, and permitting Vehicular Access.** A ~~Project Housing Development~~ that is located on two or more contiguous ~~lots, not separated by a street or alley, parcels~~ may average and permit the floor area, density, open space, and residential and commercial parking over the project site, and permit vehicular use and access ~~from between~~ a less restrictive zone ~~and to~~ a more restrictive zone, provided that:
- a. No further lot line adjustment or any other action that may cause the ~~Project Housing Development~~ to be subdivided subsequent to this grant shall be permitted; and
 - b. The proposed use is permitted by the underlying zone(s) of each lot.

(xii) **Modification of Relief from a Development Standard.** A ~~Project Housing Development~~ may request up to ~~a 20%~~ relief from a ~~numerical based~~ Development Standard ~~or a deviation from a non-numerical based Development Standard~~ contained in Chapter 1 of this Code, an Overlay, a Specific Plan, a Q Condition, or a D Condition. ~~ProjectsHousing Developments~~ requesting this incentive must provide landscaping for the ~~ProjectsHousing Developments~~ that meets a minimum of 30 points under the Landscape and Site Design Ordinance, ~~equivalent to 10% more than otherwise required by~~ Section 12.40 of this Code, and the Landscape and Site Design Point System. This incentive may be requested more than once, ~~but shall require the use of an Incentive for each request.~~

a. **Exception.** This incentive shall not apply to standards that regulate FAR, Height, yards/setbacks, ~~ground story requirements~~, signs, parking in front of buildings, or usable open space. This incentive shall not apply to a Designated Historic Resource(s), or a Non-Contributing Element(s) as defined in LAMC Section 13B.8.1.C ~~of Chapter 1A of this Code.~~

(xiii) **Lot Requirements.** Faith Based Organization Projects and Shared Equity Projects on sites with a Maximum Allowable Residential Density of less than 5 units are eligible for a reduction of otherwise required Lot standards, as part of a subdivision as follows:

a. Minimum Lot Area: 600 square feet

b. Minimum Lot Width: 15 feet

c. Minimum Lot Access: A 3-foot pedestrian access easement may be provided in lieu of vehicular access requirements.

(xiv) **Yards.** Faith Based Projects and Shared Equity Projects on sites with a Maximum Allowable Residential Density of less than 5 units are eligible for the reduction of otherwise required Yard standards, up to the following minimums:

- a. Front yard reductions are limited to no more than the average of the front yards, regardless of a required Building Line, of adjoining buildings along the same street frontage. Or, if located on a corner lot or adjacent to a vacant lot, the front yard setback may align with the façade of the adjoining building along the same front lot line. If there are no adjoining buildings, no reduction is permitted. If a Project occupies all the lots on an entire street frontage, a reduction to the front yard is permitted so long as it is to the same dimension as a corresponding increase to the rear yard.
- b. Side yard setback of 4 feet, or 3 feet for a two-story structure.
- c. No interior side yard setback shall be required for buildings that are part of the same development.
- d. Rear yard setbacks of 4 feet, provided structures maintain a height of less than 26 feet within 15 feet of the rear property line.
- e. Alley setbacks of zero feet for structures that maintain a height of less than 26 feet in height for at least the first 15 feet from the alley.

(xv) **Spaces Between Buildings and Passageways.** A Faith Based Organization Project or Shared Equity Project on sites with a Maximum Allowable Residential Density of less than 5 units does not need to meet zoning requirements related to spaces between buildings or passageways pursuant to section 12.21 C.2.

- (g) **Public Benefits Options.** A Project that qualifies for the Base Incentives contained in this Ssubdivision shall be eligible for one or more of the following Public Benefit Options. Projects may utilize more than one Public Benefit Option if eligible, and bonuses granted in exchange for Public Benefits may be stacked. These Public Benefit Options may be combined with the Additional Incentives granted pursuant to Paragraph (h). If a Project includes 5 of the following Public Benefit Options, they shall receive an additional 11 feet in height. Projects located in Very High Fire Hazard Severity Zones, Coastal Zones or Sea Level Rise Areas shall only be eligible for Public Benefit Options listed in 12.22 A.39(g)(1) or 12.22 A.39(g)(4).

(1) **Child Care Facility.** A ~~Project Housing Development~~ that includes a Child Care Facility located on the premises of, as part of, or adjacent to, the Project, shall be granted either of the following:

- (i) An additional Density Bonus that is, for purposes of calculating residential density, an increase in the Floor Area of the project equal to the Floor Area of the Child Care Facility included in the Project.
- (ii) An additional ~~on or off menu of additional~~ Incentive ~~from the Menu of Incentives or not listed on the Menu of Incentives~~ that contributes significantly to the economic feasibility of the construction of the Child Care Facility. A Project that utilizes this incentive may request an additional 11 feet in height.

DRAFT

(2) **Multi-Bedroom Units.** A ~~Project~~~~Housing Development~~ providing multi-bedroom units shall be granted one of the following so long as an affidavit declaring the qualifying multi-bedroom units will maintain the same bedroom count and will not be converted to additional ~~Residential Units~~ ~~dwelling units~~ in the future is executed and recorded with the Department of City Planning:

- (i) A Project that includes a minimum of ~~210%~~ of ~~Residential the Total~~ Units, as Residential Units with three bedrooms or more shall be granted additional Floor Area and Height in addition to what is available on the Base Incentives in LAMC Section 12.22 A.39(e) as follows in Table 12.22 A.39(g)(2)(i)a; or ~~up to 0.5 FAR, and an additional story or 11 feet in height, whichever is greater, beyond what is available in the applicable height incentive as listed for Additional Incentives in Paragraph (f); or~~

TABLE 12.22 A.39(g)(2)(i)a Additional FAR and Height for Multi-Bedroom Units		
Overall Residential Units (including Density Bonus Units)	Additional FAR	Additional Height (Stories)
0-30	0.5:1	1
31-50	1.0:1	1
51-75	1.5:1	2
75+	2.0:1	2

- (ii) A Project shall be granted the following:
 - a. An exemption of the square footage of all Residential Units with three or more bedrooms from the floor area calculations of family size units.
 - b. An additional story of height beyond what is available in the applicable height incentive as listed for Base Incentives in Paragraph (e) ~~or for Additional Incentives in Paragraph (f)~~. The square footage of this additional story shall be limited to the square footage exempted as a result of applying 12.22 A.39(g)(2)(ii)(a) ~~above~~.

- (3) **Preservation of Trees.** Additional 11 feet of height may be awarded for ~~Pp~~ projects that maintain existing mature, Significant Trees (any tree that measures 12 inches or more in diameter at four and one-half feet above the average natural grade at the base of the tree and/or is more than 35 feet in height), as verified by a focused Tree Report prepared by a certified arborist. A covenant shall be filed with Los Angeles Department of Building and Safety that requires the tree to be maintained for at least 15 years unless a certified arborist certifies that the tree is dead, dying or dangerous to public health.
- (4) **Land Donation.** An applicant for a subdivision, parcel map or other residential development approval that donates land for housing to the City of Los Angeles satisfying the criteria of California Government Code Section 65915(g), as verified by the Department of City Planning, shall be granted a minimum Density Bonus of 15%. The Department of City Planning may adopt administrative guidelines for the purpose of clarifying procedures associated with the implementation of Land Donations pursuant to California Government Code Section 65915(g).
- (5) **Active Ground Floor Exemption from Calculation of Floor Area.** Active uses, up to 1,500 square feet, located on the ground story shall be exempt from the calculation of floor area.
- (i) For the purposes of exempting active uses on the ground story from calculating floor area, active space shall be designed and intended for ~~General Commercial-Neighborhood Retail and Service Uses, such as restaurants, counter service, general retail, personal services, and food & beverage uses.~~ Areas for circulation, storage, mechanical equipment, parking, lobbies, mailrooms, laundry rooms, utilities, and waste collection shall not account for more than 15% of an area designated as an active use.
 - (ii) Projects utilizing this option shall provide a ground story transparency of a minimum of 60% along the ~~primary street building f~~Frontage.
 - (iii) ~~Street-Facing Entrance and Spacing.~~ Projects utilizing this option shall provide a ground floor entrance at minimum every 50 feet along the front property line that provides both ingress and egress pedestrian access to the ground story of the building.
- (6) **Privately Owned Public Space.** Projects that provide ~~For every additional~~ 4% of buildable lot area ~~that a Project provides~~ that is dedicated as Privately Owned Public Space above the Project site's required Common Outdoor Open Space, the Project shall be eligible for zero rear yard setback and shall be eligible to utilize the Modification of Development Standard for site landscaping as described in Paragraph (f)(2)(xii).

- (7) **Surveyed Historic Resource Facade Rehabilitation.** Projects incorporating a Surveyed Historic Resource(s) into the Project design shall be granted additional Floor Area up to 1.0 FAR and 22 feet in height beyond what is available in the applicable height incentive as listed for Base Incentives in Table 12.22 A.39(e)(2)(i), provided all of the following standards are met:

- (i) The Project retains all street Fronting facades to a depth of 10-feet,
- (ii) New Floor Area shall be setback behind the 10-foot retention area, except that open space, balconies, and non-habitable architectural projections may encroach on the 10-foot retention area. In instances where a lot contains dual-frontages, the setback shall be applied from both frontages, and
- (iii) Rehabilitation of the facades is completed pursuant to the Secretary of the Interior's Standards for Rehabilitation to the satisfaction of the Office of Historic Resources.

~~**Unified Adaptive Reuse Projects.** A Project proposed as part of a Type I Unified Adaptive Reuse Project shall be eligible for the following incentives and subject to the procedures described 12.22 A.26.~~

- ~~(i) Any new construction proposed as part of Type I Unified Adaptive Reuse Project utilizing this Public Benefit Option shall be eligible for the Base Incentives described in Paragraph (e) of this Subdivision and Additional Incentives described in Paragraph (f) of 12.22 A.39, as specified in Paragraph (h) of 12.22 A.26, so long as the required percentage of Restricted Affordable Units is provided.~~
- ~~(ii) The existing building portion of a Type I Unified Adaptive Reuse Project shall be eligible for the Incentives described in LAMC Section 12.22 A.26(g).~~

- (h) **Program Standards.** The following program standards shall be applicable to any Project that meets the eligibility criteria established in Paragraph (c) of this subdivision.

- (1) **Other Density Bonus Programs.** Projects seeking a Density Bonus pursuant to this Subdivision ~~may not pursue~~ ~~must not be pursuing~~ a Density Bonus pursuant to the procedures of any other housing incentive program contained in ~~the LAMC this Code~~ or in an Overlay or Specific Plan.
- (2) **Calculating Maximum Allowable Residential Density.** ~~Per Government Code Section 65915 (o)(6), a~~ The Maximum Allowable Residential Density of a Project site shall be calculated ~~pursuant to Government Code Section 65915(o)(6),~~ before the application of a density bonus, using the maximum number of units allowed under a project site's applicable zoning ordinance, specific plan, or general plan land use designation, whichever is greater. If a range is permitted, the maximum number of units allowed by the specific zoning range, specific plan,

or general plan land use designation shall be applicable when determining a Project site's density prior to the application of a density bonus. A Project in a P or PB zone shall calculate Maximum Allowable Residential Density using additional provisions pursuant to Subparagraph subsection (2) of LAMC 12.22.A.39(e), and a Public Land Project shall calculate Maximum Allowable Residential Density using additional provisions pursuant to Subparagraph subsection (3) of LAMC 12.22.A.39(e).

- (3) **Calculating Restricted Affordable Units.** The required number of Restricted Affordable Units shall be calculated based on the Total Units of a Project.
- (4) **Calculating a Density Bonus.** For the purposes of calculating a Density Bonus, the following shall apply:
- (i) Residential Units that comprise a Project shall be on contiguous lots, not separated by a street or alley, sites that are the subject of a single development application, but do not need to be based on an individual subdivision maps or lots.
 - (ii) An applicant for a Project may always have the ability to apply a lesser percentage of Density Bonus, including but not limited to, no Density Bonus.
- (5) **Fractional Numbers.**
- (i) Units. For the purposes of this Subdivision, calculations for the following resulting in fractional numbers shall be rounded up to the next whole number:
 - a. Maximum Allowable Residential Density
 - b. Density Bonus Units
 - c. Number of Restricted Affordable Units
 - d. Number of Replacement Housing Units
 - e. Vehicular Parking
 - ~~f. Bicycle Parking~~ Number of Multi-Bedroom Units provided pursuant to LAMC Section 12.22 A.39(g)(2)
- (6) **Replacement Housing Units and Demolition Protections.** A Project approved under this subdivision must meet any applicable housing replacement requirements and demolition protections of California Government Code Section 65915(c)(3) and LAMC Section 16.60, as verified by the Los Angeles Housing

Department (LAHD) prior to the issuance of a building permit. Replacement Housing Units required pursuant to this [SubdivisionSection](#) may count towards any ~~On-Site~~ Restricted Affordable Unit requirements.

- (7) **Standards for Restricted Affordable Units.** A Project must meet the applicable requirements regarding the size, location, amenities and allocation of Restricted Affordable Units in LAMC Section 16.61 B and C and in any Implementation Memorandum, Technical Bulletin or User Guide prepared and adopted by the Los Angeles Housing Department or Department of City Planning.
- (8) **Implementation Memorandums, FAQs, Forms/Applications Technical Bulletins and User Guides.** The Director may prepare Implementation Memorandums, [FAQs, Forms/Applications Technical Bulletins](#) and/or User Guides for State Density Bonus requirements, as set forth in California Government Code Sections 65915-65918, for the purpose of providing additional information pertaining to this Subdivision and maintaining consistency with State Density Bonus [Law](#).
- (9) **Covenants.** Prior to the issuance of a ~~B~~building ~~P~~permit for any Project qualifying for a Density Bonus pursuant to the provisions of this [SubdivisionSection](#), covenants acceptable to the Los Angeles Housing Department and consistent with the requirements in this [SubdivisionSection](#) and set forth in LAMC Section 16.61 shall be recorded with the Los Angeles County Recorder. [For Shared Equity Projects covenants shall restrict the resale of the property to Community Land Trusts, Limited Equity Housing Cooperatives, Workforce Housing Cooperative Trusts, or nonprofit affordable housing corporations pursuant to Section 501\(c\)\(3\) of the United States Internal Revenue Code.](#)
- (10) **Interpretation Consistent with State Density Bonus Law.** This Subdivision is intended to be interpreted as consistent with State Density Bonus Law contained in California Government Code Sections 65915-65918. If at any time, this Subdivision becomes inconsistent with California Government Code Sections 65915-65918, the provisions of State Density Bonus Law shall apply.
- (11) **Update Frequency.** [The Director shall have the authority to issue updated eligibility maps on an annual basis in order to align with updated zoning and geographic data updates, including updates to Resource Areas as defined and identified by the California Tax Credit Allocation Committee \(TCAC\) and updates to the locations of Very Low Vehicle Travel Areas and Major Transit Stops. Geographic eligibility associated with Major Transit Stops or Very Low Vehicle Travel Areas and Opportunity Areas shall be updated on an annual basis in accordance with Subdivision 7 of Subsection J of Section 12.22 A.38.](#)
- (12) **Adjoining Zone.** Refers to the zones of properties abutting, across the street or alley from, or having a common corner with, the subject property.

(13) **Income Limits, For-sale Costs, and Rent Schedules.** Restricted Affordable Units required ~~provided~~ as part of a One Hundred Percent Affordable Housing Project, Public Land Project, Faith-Based Organization Project, or Shared Equity Project shall meet the income limit, for-sale cost and rent schedule requirements specified for these Projects in footnotes (1) (2) (3) and (4) of Table A.39(c)(2)(i).

(14) **Story.** A story shall be defined as 11-feet in height.

(i) **Relationship to Other Sections of the Los Angeles Municipal Code.** The following provisions shall govern the relationship to other sections of the Los Angeles Municipal Code for any Project that meets the eligibility criteria established in Paragraph (c) of this Subdivision.

(1) A Project that meets the eligibility criteria established in Paragraph (c) and complies with the Procedures established in Paragraph (d) may exceed the use limitations that may apply to a ~~Project Housing Development~~ site.

(2) If any of the Procedures described in Paragraph (d), Base Incentives described in Paragraph (e), Additional Incentives described in Paragraph (f), Public Benefit Options described in Paragraph (g), or waivers requested pursuant to LAMC Section 12.22 A.39(d)(2) or LAMC Section 12.22 A.39(d)(4) conflict with those of any otherwise applicable specific plan, overlay, supplemental use district, “Q” condition, “D” limitation, or citywide regulation established in Chapter 1 of this Code, including but not limited to the Ordinance Nos. listed below, this Subdivision shall prevail.

- (i) Alameda District Specific Plan (171,139)
- (ii) Avenue 57 Transit Oriented District (174,663)
- (iii) Bunker Hill Specific Plan (182,576)
- (iv) Century City North Specific Plan (156,122)
- (v) Century City West Specific Plan (186,370)
- (vi) Century City South Specific Plan (168,862)
- (vii) Coastal Bluffs Specific Plan (170,046)
- (viii) Coliseum District Specific Plan (185,042)
- (ix) Colorado Boulevard Specific Plan (178,098)
- (x) Cornfield Arroyo Seco Specific Plan (182,617)
- (xi) Crenshaw Corridor Specific Plan (184,795)
- (xii) Devonshire/Topanga Corridor Specific Plan (168,937)
- (xiii) Exposition Corridor Transit Neighborhood Plan (186,402)
- (xiv) Foothill Boulevard Corridor Specific Plan (170,694)
- (xv) Girard Tract Specific Plan (170,774)
- (xvi) Glencoe/Maxella Specific Plan (171,946)
- (xvii) Granada Hills Specific Plan (184,296)
- (xviii) Hollywoodland Specific Plan (168,121)
- (xix) Jordan Downs Urban Village Specific Plan (184,346)
- (xx) Los Angeles Airport/El Segundo Dunes Specific Plan (167,940)

- (xxi) Los Angeles International (LAX) Specific Plan (185,164)
- (xxii) Los Angeles Sports and Entertainment District Specific Plan (181,334)
- (xxiii) Loyola Marymount University Specific Plan (181,605)
- (xxiv) Mt. Washington/Glassell Park Specific Plan (168,707)
- (xxv) Mulholland Scenic Parkway Specific Plan (167,943)
- (xxvi) North Westwood Village Specific Plan (163,202)
- (xxvii) Oxford Triangle Specific Plan (170,155)
- (xxviii) Pacific Palisades Commercial Village and Neighborhood Specific Plan (184,371)
- (xxix) Paramount Pictures Specific Plan (184,539)
- (xxx) Park Mile Specific Plan (162,530)
- (xxxi) Playa Vista Area D Specific Plan (176,235)
- (xxxii) Ponte Vista at San Pedro Specific Plan (182,937 and 182,939)
- (xxxiii) Porter Ranch Land Use/Transportation Specific Plan (180,083)
- (xxxiv) Redevelopment Plans (186,325)
- (xxxv) San Vicente Scenic Corridor Specific Plan (173,381)
- (xxxvi) University of Southern California University Park Campus Specific Plan (182,343)
- (xxxvii) Valley Village Specific Plan (168,613)
- (xxxviii) Venice Coastal Zone Specific Plan (175,693)
- (xxxix) Ventura-Cahuenga Boulevard Corridor Specific Plan (174,052)
- (xl) Vermont/Western Transit Oriented District Specific Plan (Station Neighborhood Area Plan) (173,749)
- (xli) Warner Center 2035 Plan (182,766)
- (xlii) Westwood Community Multi-Family Specific Plan (163,203 and 163,186)
- (xliii) Westwood Village Specific Plan, Westwood Community Design Review Board Specific Plan (187,644)
- (xliv) Wilshire - Westwood Scenic Corridor Specific Plan (155,044)

(j) **Interpretations Consistent with State Density Bonus Law.** This Subdivision is intended to be interpreted as consistent with State Density Bonus Law contained in California Government Code Sections 65915-65918. If at any time, this Subdivision becomes inconsistent with California Government Code Sections 65915-65918, the provisions of State Density Bonus Law shall apply.

Section 9 8. Subdivision 26 of Subsection U of Section 12.24 of the Los Angeles Municipal Code is amended as follows:

Density Bonus for a Housing Development in Which the Density Increase Is Greater than the Maximum Permitted in Section ~~12.22 A.25~~ 12.22 A.37. (Amended by Ord. No. 185,373, Eff. 2/26/18.)

(a) In addition to the findings set forth in LAMC Section 13B.2.3. (Class 3 Conditional Use Permit) of Chapter 1A of this Code, the City Planning Commission shall find that:

(1) the project is consistent with and implements the affordable housing provisions of the Housing Element of the General Plan;

(2) the project contains the requisite number of Restricted Affordable Units ~~sufficient to qualify for a 88.75% or 100% Density Bonus pursuant to 12.22.A.37~~, based on the number of Residential Units units permitted by the maximum allowable density provided, excluding Residential Units added by a Density Bonus, on the date of application, as follows:

(i) ~~a. 25 44%~~ Very Low Income Units for a 88.75 35% density increase; or

(ii) ~~b. 24 20%~~ Low Income Units for a 50 35% density increase; or

(iii) ~~e. 44 40%~~ Moderate Income Units for a 50 35% density increase in for-sale projects.

The project may then be granted an additional Density Bonus ~~density increases~~ beyond 50 100 35% or 88.75% by providing additional affordable housing units in the following manner:

~~a. d.~~ (iv) For every additional 1% set aside of Very Low Income Units, the project is granted an additional 2.5% density increase; or

~~b. e.~~ (v) For every additional 1% set aside of Low Income Units, the project is granted an additional 1.5% density increase; or

~~e. f.~~ (vi) For every additional 1% set aside of Moderate Income Units in for-sale projects, the project is granted an additional 1% density increase; or

~~d. g.~~ (vii) In calculating the density increase and Restricted Affordable Units, each component of any density calculation, including the calculation of Maximum Allowable Residential Density, base density and bonus density, resulting in fractional units shall be separately rounded up to the next whole number.

(3) the project meets any applicable dwelling unit replacement requirements and demolition protections of California Government Code Section 65915(c)(3) and LAMC Section 16.60 as verified by the Los Angeles Housing Department (LAHD). Replacement housing units required pursuant to these sections may count towards any On-Site Restricted Affordable Unit requirement;

(4) the project meets the requirements for projects including affordable housing in LAMC Section 16.61 B and C.

(5) ~~(4)~~ the project's Restricted Affordable Units are subject to a recorded affordability restriction of 55 years or 99 years longer pursuant to LAMC Section 16.61 A from the issuance of the Certificate of Occupancy, recorded in a covenant acceptable to the Los Angeles Housing Department, and subject to fees as set forth in Section 19.14 of the Los Angeles Municipal Code; and **(Amended by Ord. No. 187,122, Eff. 8/8/21.)**

~~(5) the project addresses the policies and standards contained in the City Planning Commission's Affordable Housing Incentives Guidelines.~~

Section ~~10~~ **9**. Paragraph e of Subdivision 3 of Subsection E of Section 13.09 of the Los Angeles Municipal Code is modified to read as follows:

e. Affordable Housing. The transit facility and Central Parking Structure incentives set forth above shall not be combined with the parking reduction provided for affordable housing as set forth in Section ~~12.22 A.25(d)(2)~~ 12.22 A.37, 12.22 A.38, or 12.22 A.39.

Section ~~11~~ **40**. Subdivision 1 of Subsection E of Section 13.15 of the Los Angeles Municipal Code is modified to read as follows:

1. An MPR District shall not authorize any of the strategies listed above, except for the strategies described in subsections D.5. and D.6., for any lot that contained a residential use subject to the Rent Stabilization Ordinance, or that contained any Restricted Affordable units, ~~as defined in Section 12.22 A.25.(b) of the Code~~, within the five years preceding the adoption of the MPR District. Required parking on such properties,

however, may be reduced pursuant to Section ~~12.22 A.25~~, 12.22 A.37, 12.22 A.38, or 12.22 A.39, of the Code, or pursuant to any other applicable affordable housing incentive program.

Section ~~12 44~~. Subdivision 2 of Subsection E of Section 13.15 of the Los Angeles Municipal Code is modified to read as follows:

2. Minimum parking requirements for multi-residential uses in an MPR district shall be less restrictive for projects that qualify for a density bonus under Section ~~12.22 A.25~~, 12.22 A.37, 12.22 A.38, or 12.22 A.39, of the Code.

Section ~~13 42~~. Subdivision 2 of Subsection A of Section 14.00 of the Los Angeles Municipal Code is modified to read as follows:

2. Density increase for a Housing Development to provide for additional density in excess of that permitted in Section ~~12.22 A.25~~12.22 A.37, 12.22 A.38, or 12.22 A.39. (Subdivision Title Amended by Ord. No. 179,681, Eff. 4/15/08.)

Section ~~14 43~~. Sub-subparagraph i of Subparagraph 4 of Paragraph d of Subdivision 10 of Subsection A of Section 14.00 of the Los Angeles Municipal Code is modified to read as follows:

i. Parking may be recalculated for all units in the project (not just the restricted units) using ~~Parking Option 1 in LAMC Section 12.22 A.25(d)~~ Table 12.22 A.37(e)(2)(iii) in Section 12.22 A.37.

Section ~~15~~ **44**. Sub-subparagraph ii of Subparagraph 4 of Paragraph d of Subdivision 10 of Subsection A of Section 14.00 of the Los Angeles Municipal Code is modified to read as follows:

- ii. Parking may be calculated by maintaining all existing parking and providing additional parking just for the newly legalized unit(s) in accordance with ~~Parking Option 2 in LAMC Section 12.22 A.25(d), Table 12.22 A.37(e)(2)(iii) in Section 12.22 A.37~~ as long as one Restricted Affordable Unit or dwelling unit for Low Income individuals who are 62 years of age or more, or who has a physical or mental impairment that limits one or more major life activities is provided for each legalized unit; or

Section ~~16~~ **45**. Subparagraph 1 of Paragraph b of Subdivision 13 of Subsection A of Section 14.00 of the Los Angeles Municipal Code is modified to read as follows:

- 1. Other Affordable Housing Incentive Programs. Except as described in Paragraph (f), applicants for other affordable housing incentive programs, including, but not limited to, the Floor Area Bonus for the Greater Downtown Housing Incentive Area in Section 12.22 A.29.; the Density Bonus provisions in Section ~~12.22 A.25~~ 12.22 A.37, 12.22 A.38, 12.22 A.39.; the Transit Oriented Communities Affordable Housing Incentive Program in Section 12.22 A.31.; or affordable housing incentive provisions in Community Plan Implementation Overlays (CPIOs) ~~community plan implementation overlays (CPIOs)~~, shall not also be eligible for a Qualified Permanent Supportive Housing Project approval at the same location.

Section ~~17~~ **46**. Sub-subparagraph ii of Subparagraph 2 of Paragraph d of Subdivision 13 of Subsection A of Section 14.00 of the Los Angeles Municipal Code is modified to read as follows:

- ii. For Qualified Permanent Supportive Housing Projects located within one-half (1/2) mile of ~~a Transit Stop~~ a Rapid Bus, as defined in Section 12.22 A.38(b) ~~Section 12.22 A.25(b)~~, High Quality Transit Service, or of a Major Transit Stop as defined in Section 21155(b) of the Public Resources Code, no more than one-half (1/2) parking space shall be required for each income-restricted Dwelling Unit or Guest Room not occupied by the Target Population. Otherwise, no more than one (1) parking space shall be required for each income-restricted Dwelling Unit or Guest Room not occupied by the Target Population.

Section ~~18~~ **47**. Paragraph f of Subdivision 13 of Subsection A of Section 14.00 of the Los Angeles Municipal Code modified to read as follows:

- f. Request for Additional Waivers. The City may not apply a development standard that will physically preclude the construction of the Qualified Permanent Supportive Housing Project. Applicants may request additional waivers pursuant to the discretionary review

procedures described in Section ~~12.22 A.25(g)(3)~~ 12.22 A.37(d)(3) of this Code. The applicant shall not be required to provide a pro forma or other documentation to show that the waiver or modification of any development standard(s) is needed in order to make the Qualified Permanent Supportive Housing Project economically feasible, but must provide reasonable documentation of its eligibility for the requested waiver. Additional waivers shall not be used to exempt compliance with the performance standards described in Paragraph (g).

Section ~~19 48~~. Subdivision 5 of Subsection A of Section 14.5.4 of the Los Angeles Municipal Code is modified to read as follows:

5. Residential Projects that exceed the number of dwelling units or Floor Area permitted by the zoning or the Community Plan as a result of a density or Floor Area bonus received pursuant to Sections ~~12.22 A.25, 12.22 A.37, 12.22 A.38, 12.22 A.39, 12.22 A.29., 12.24 U.26. or 12.24 U.27.~~ of this Code.

Section ~~20 49~~. Subdivision 4 of Subsection B of Section 14.5.4 of the Los Angeles Municipal Code is modified to read as follows:

4. Residential Projects that exceed the number of dwelling units or Floor Area permitted by the zoning or the Community Plan as a result of a density or Floor Area bonus received pursuant to Sections ~~12.22 A.25, 12.22 A.37, 12.22 A.38, 12.22 A.39, 12.22 A.29., 12.24 U.26. or 12.24 U.27.~~ of this Code.

Section ~~21 20~~. Subdivision 11 of Subsection D of Section 16.05 of the Los Angeles Municipal Code is added to read as follows:

11. A Housing Development that provides Restricted Affordable Units consistent with the affordability requirements set forth in LAMC Section 19.18 B.2(b) in lieu of the Linkage Fee that may otherwise be required pursuant to LAMC Section 19.18.

Section ~~22~~ 24. Subsection M of Section 19.01 of the Los Angeles Municipal code is modified to read as follows:

[Language and Revised Table in Development. Intent: Replace 12.22 A.25 references with 12.22 A.37, 12.22 A.38, and 12.22 A.39 and update fee schedule.]

Type of Application	Base Fee*
Application for a Density Bonus in conjunction with: <u>Up to one waiver of a development standard under the Mixed Income Incentive Program; or</u> <u>Up to three waivers of a development standard under the Affordable Housing Incentive Program including a request for one or more Incentives Included in the Menu of Incentives</u> (Section 12.22 A.25.(g)(2) Section 12.22 A.38(d)(3); Section 12.22 A.39(d)(3); Section 13B.2.5.)	\$9,459
Application for a Density Bonus in conjunction with: <u>Waivers under the State Density Bonus Program;</u> <u>More than one waiver under the Mixed Income Incentive Program; or</u> <u>More than three waivers under the Affordable Housing Incentive Program including a request for one or more Incentives not included in the Menu of Incentives</u> (Section 12.22 A.25.(g)(3) Section 12.22 A.37(d)(3); Section 12.22 A.38(d)(4); Section 12.22 A.39(d)(4); Section 13B.2.3.)	\$24,349
Application for a Density Bonus in excess of that permitted by Section 12.22 A.37 25 . (Section 12.24 U.26.; Section 13B.2.3)	\$24,359

Section ~~23~~ 22. Subsection A of Section 19.14 of the Los Angeles Municipal Code is modified to read as follows:

A. Unless a fee Exemption pursuant to Section 19.14(b) applies, the following fees shall be charged and collected by the Los Angeles Housing Department (Department) for the preparation, enforcement, monitoring, and associated work relating to the affordable housing covenants ~~described in Sections 12.22 A.25(h)(1) through (3), required by~~ Sections 12.22 A.37, 12.22 A.38, 12.22 A.39, 12.22 A.29.(d)(1) through (2), and 14.00 A.10.(c)(2) of this Code. (Amended by Ord. No. 187,122, Eff. 8/8/21.)

Section ~~24~~ 23. Paragraph b of Subdivision 2 of Subsection C of Section 19.18 of the Los Angeles Municipal Code is modified to read as follows:

b. Any for-sale or rental housing development containing restricted affordable units where at least 40% of the total units or guest rooms are dedicated for moderate income

households, or at least 20% of the total units or guest rooms are dedicated for low income households, or at least 11% of the total units or guest rooms are dedicated for very low income households, or at least 8% of the total units or guest rooms are dedicated for extremely low income households, for at least 55 years, where a covenant has been made with the Los Angeles Housing Department and required covenant and monitoring fees have been paid, or any Mixed Income Incentive Project consistent with LAMC Section 12.22 A.38. Such a covenant shall also subject projects using this exemption to the replacement policies in Government Code Section 65915(c)(3), as that section may be amended from time to time, and to LAHD fees related to housing replacement determinations pursuant to state law, as set forth in this Code. For the purposes of this section, total units includes any units added by a density bonus or other land use incentive, consistent with the affordability levels defined in Government Code Section 65915, as that section may be amended from time to time.

Section ~~25~~ **24**. Paragraph b of Subdivision 4 of Subsection C of Section 19.18 of the Los Angeles Municipal Code is modified to read as follows:

b. Affordable Housing Units. Any Restricted Affordable Units ~~as defined in Section 12.22 A.25 of this Code~~ may be subtracted from the total number of dwelling units or guest rooms in a building in determining the required Linkage Fee.

Section ~~26~~ **25**. Part 2B and Part 2C of Article 2 (Form) of Chapter 1A of the Los Angeles Municipal Code are amended as follows:

[Language in Development. Intent: Provide revisions to Part 2B and Part 2C of Article 2 (Form)]

Section ~~27~~ **26**. Sections 8.1.1, 8.2.2, 8.2.3, 8.2.5, 8.2.6, 8.2.7, and 8.2.8 of Article 8 (Specific Plans, Supplemental and Special Districts) of Chapter 1A of the Los Angeles Municipal Code are amended as follows:

[Language in Development. Intent: Provide revisions to 8.1.1, 8.2.2, 8.2.3, 8.2.5, 8.2.6, 8.2.7, and 8.2.8 of Article 8 (Specific Plans, Supplemental and Special Districts)]

Section ~~28~~ **27**. Sections 9.2.1, 9.3.1, 9.3.2, 9.3.3, and 9.4.1 of Article 9 (Public Benefit Programs) of Chapter 1A of the Los Angeles Municipal Code are amended to read as follows:

[Language in Development. Intent: Provide revisions to Sections 9.2.1, 9.3.1, 9.3.2, 9.3.3, and 9.4.1 of Article 9 (Public Benefit Programs)]

Section 29. Section 13B.3.2. Expanded Administrative Review within Division 13B.3. of Part B. of the Table of Contents of Article 13 of Chapter 1A of the Los Angeles Municipal Code is added as follows:

Section 33 28. Paragraph (C) of Section 13A.2.7. (Scope of Decision) of Article 13 (Administration) of Chapter 1A of the Los Angeles Municipal Code is amended as follows:

C. Utilizing the Grant

1. A discretionary project approval is considered utilized after it has been effectuated by the Department of City Planning and a building permit has been issued by the Department of Building and Safety. Utilization of a grant must occur no later than 3 years from the last date an action can be effectuated. An approval not requiring building permits from the Department of Building and Safety is considered utilized when compliance with all conditions of approval have been demonstrated, appropriate fees paid, plans stamped and authorization has been obtained from the Department of City Planning.
2. Exceptions
 - a. Religious and Institutional Uses
Where a lot or lots have been approved for use as a governmental enterprise, religious use, hospital, educational institution or private school,

including elementary and high schools, no time limit to utilize the privileges shall apply provided that all of the following conditions are met:

- i. The property involved is acquired or legal proceedings for its acquisition are commenced within one year of the effective date of the decision approving the conditional use.
 - ii. A sign is immediately placed on the property indicating its ownership and the purpose to which it is to be developed, as soon as legally possible after the effective date of the decision approving the conditional use. This sign shall have a surface area of at least 20 square feet.
 - iii. The sign is maintained on the property and in good condition until the conditional use privileges are utilized.
- b. Affordable Housing Projects
A six-year time limit to utilize the privileges shall apply where a lot or lots have been approved for housing that includes 100% restricted Affordable Units, exclusive of a manager's unit or units, as defined in ~~Sec. 12.22 A.25(b) (Exceptions: Affordable Housing Incentives – Density Bonus; Definitions)~~ *Sec. 12.03 (Definitions) of Chapter 1 (General Provisions and Zoning)* of this Code.

Section ~~34~~ **29**. Paragraph (D) of Section 13B.2.1 (Class 1 Conditional Use Permit) of Article 13 (Administration) of Chapter 1A of the Los Angeles Municipal Code is amended as follows:

D6. Decision

1. General Procedures
See *Sec. 13A.2.5. (Decisions)*.
2. Decision Maker
The Zoning Administrator is the initial decision maker.
3. Public Hearing
 - a. The Zoning Administrator shall set the matter for public hearing, giving notice in the manner specified in Subsection C. (Notice) of this Section.
 - b. The Zoning Administrator may conduct the hearing or designate a Hearing Officer to conduct the hearing.
4. Decision
 - a. The Zoning Administrator shall render the initial decision within 75 days of the date the application is deemed complete.

- b. If the Zoning Administrator fails to make a timely decision, the applicant may file a request for transfer of jurisdiction to the Area Planning Commission pursuant to *Sec. 13A.2.6. (Transfer of Jurisdiction)*.
5. Conditions of Approval and inspections
- a. In approving a project, the decision maker may impose conditions related to the interests addressed in the findings set forth in Subsection E. (Standards for Review and Required Findings) of this Section.
 - b. The decision may state that the height and area regulations required by other provisions of this Chapter and *Chapter 1 (General Provisions and Zoning)* shall not apply to the conditional use approved. ~~If the Density Bonus is increased beyond the maximum allowed as defined in *Sec. 12.22 A.37 (State Density Bonus Program)*, the development project must also contain the requisite number of Restricted Affordable Units as set forth in *Sec. 12.24 U.26. (a)(1) – (5) (Density Bonus for a Housing Development in Which the Density increase is Greater than the Maximum Permitted in Sec. 12.22 A.3725)* of this Code.~~
 - c. The Department shall have the authority to conduct inspections to verify compliance with any and all conditions imposed on any conditional use or other similar Quasi-judicial approval granted pursuant to this Section. Clearance, monitoring and inspection fees shall be paid by the business operator or property owner to the Department in accordance with the fee schedule in *Article 9 (Fees) of Chapter 1 (General Provisions and Zoning)*.
 - d. If, upon inspection, the Department finds that the applicant has failed to comply with conditions of any conditional use or other similar Quasi-judicial approval granted pursuant to this Section, the Department shall give notice to the business operator or property owner to correct the specific deficiencies and the time in which to complete the correction. Evidence of compliance shall be submitted to the Department within the specified correction period. If the deficiencies are not corrected within the time prescribed by the Department, revocation proceedings pursuant to *Sec. 13B.6.1. (Evaluation of Non-Compliance)* or *Sec. 13B.6.2. (Nuisance Abatement/Revocation)* may commence.

Section ~~35 30~~. Paragraph (D) of Section 13B.2.2 (Class 2 Conditional Use Permit) of Article 13 (Administration) of Chapter 1A of the Los Angeles Municipal Code is amended as follows:

D. Decision

1. General Procedures
See *Sec. 13A.2.5. (Decisions)*.
2. Decision Maker
The Zoning Administrator is the initial decision maker.
3. Public Hearing
 - a. Upon receipt of a complete application, the Zoning Administrator shall set the matter for public hearing, giving notice in the manner specified in Subsection C. (Notice) of this Section.
 - b. The Zoning Administrator may conduct the hearing or designate a Hearing Officer to conduct the hearing.
4. Decision
 - a. The Zoning Administrator shall render the initial decision within 75 days of the date the application is deemed complete.
 - b. If the Zoning Administrator fails to make a timely decision, the applicant may file a request for transfer of jurisdiction to the Area Planning Commission pursuant to *Sec. 13A.2.6. (Transfer of Jurisdiction)*.
5. Conditions of Approval and inspections
 - a. In approving a project, the decision maker may impose conditions related to the interests addressed in the findings set forth in Subsection E. (Standards for Review and Required Findings) of this Section.
 - b. The decision may state that the height and area regulations required by other provisions of this Chapter and *Chapter 1 (General Provisions and Zoning)* shall not apply to the conditional use approved. ~~If the Density Bonus is increased beyond the maximum allowed as defined in *Sec. 12.22 A.37 (Affordable Housing incentives - Density Bonus)*, the development project must also contain the requisite number of Restricted Affordable Units as set forth in *Sec. 12.24 U.26. (a)(1) - (5) (Density Bonus for a Housing Development in Which the Density increase is Greater than the Maximum Permitted in Sec. 12.22 A.3725)* of this Code.~~
 - c. The Department shall have the authority to conduct inspections to verify compliance with any and all conditions imposed on any conditional use or

other similar Quasi-judicial approval granted pursuant to this Section. Clearance, monitoring and inspection fees shall be paid by the business operator or property owner to the Department in accordance with the fee schedule in *Article 9 (Fees) of Chapter 1 (General Provisions and Zoning)*.

- d. If, upon inspection, the Department finds that the applicant has failed to comply with conditions of any conditional use or other similar Quasi-judicial approval granted pursuant to this Section, the Department shall give notice to the business operator or property owner to correct the specific deficiencies and the time in which to complete the correction. Evidence of compliance shall be submitted to the Department within the specified correction period. If the deficiencies are not corrected within the time prescribed by the Department, revocation proceedings pursuant to *Sec. 13B.6.1. (Evaluation of Non-Compliance)* or *Sec. 13B.6.2. (Nuisance Abatement/Revocation)* may commence.

6. Transmittal

The Zoning Administrator shall transmit a copy of the written findings and decision to the applicant, to all owners of properties abutting, across the street or alley from, or having a common corner with, the subject property and all persons who filed a written request for the notice with the Zoning Administrator.

Section ~~36~~ ~~34~~. Paragraph (D) of Section 13B.2.3 (Class 3 Conditional Use Permit) of Article 13 (Administration) of Chapter 1A of the Los Angeles Municipal Code is amended as follows:

D. Decision

1. General Procedures
See *Sec. 13A.2.5. (Decisions)*.
2. Decision Maker
The City Planning Commission is the initial decision maker.
3. Public Hearing
 - a. Upon receipt of a complete application, the City Planning Commission shall set the matter for public hearing, giving notice in the manner specified in Subsection C. (Notice) of this Section.
 - b. The City Planning Commission may conduct the hearing itself or designate the Director to conduct the hearing.

4. Decision

- a. If the Director conducts the public hearing, the Director shall transmit its findings and recommendation to the City Planning Commission.
- b. After the Director or City Planning Commission's hearing is closed, the City Planning Commission shall render the initial decision at a public meeting.
- c. The City Planning Commission shall render the initial decision within 75 days of the date the application is deemed complete.
- d. If the City Planning Commission fails to make a timely decision, the applicant may file a request for transfer of jurisdiction to the City Council pursuant to *Sec. 13A.2.6. (Multiple Approvals)*.

5. Conditions of Approval and inspections

- a. In approving a project, the decision maker may impose conditions related to the interests addressed in the findings set forth in Subsection E. (Standards for Review and Required Findings) of this Section.
- b. The decision may state that the height and area regulations required by other provisions of this Chapter and *Chapter 1 (General Provisions and Zoning)* shall not apply to the conditional use approved. If the Density Bonus is increased beyond the maximum allowed as defined in ~~Sec. 12.22 A. 25 (Affordable Housing Incentives—Density Bonus)~~; Sec. 12.22 A.37 (State Density Bonus Program), the development project must also contain the requisite number of Restricted Affordable Units as set forth in *Sec. 12.24 U.26. (a)(1) - (5) (Density Bonus for a Housing Development in Which the Density Increase is Greater than the Maximum Permitted in Sec. 12.22 A.2537)* of this Code.
- c. The Department shall have the authority to conduct inspections to verify compliance with any and all conditions imposed on any conditional use or other similar Quasi-judicial approval granted pursuant to this Section. Clearance, monitoring, and inspection fees shall be paid by the business operator or property owner to the Department in accordance with the fee schedule in *Article 9 (Fees) of Chapter 1 (General Provisions and Zoning)*.
- d. If, upon inspection, the Department finds that the applicant has failed to comply with conditions of any conditional use or other similar Quasi-judicial approval granted pursuant to this Section, the Department shall give notice to the business operator or property owner to correct the specific deficiencies and the time in which to complete the correction. Evidence of compliance shall be submitted to the Department within the

specified correction period. If the deficiencies are not corrected within the time prescribed by the Department, revocation proceedings pursuant to *Sec. 13B.6.1. (Evaluation of Non-Compliance)* or *Sec. 13B.6.2. (Nuisance Abatement/Revocation)* may commence.

6. Transmittal

The City Planning Commission shall transmit a copy of the written findings and decision to the applicant, to all owners of properties abutting, across the street or alley from, or having a common corner with the subject property and all persons who filed a written request for the notice.

Section ~~37~~ ~~32~~. Paragraph (G) of Section 13B.2.5 of Chapter 1A of the Los Angeles Municipal Code is amended as follows:

G. Appeals

1. General Procedures

See Sec. 13A.2.8. (Appeals).

2. Decision Maker

a. The Area Planning Commission is the appellate decision maker.

b. ~~On-Menu Density Bonus~~ Density Bonus

The City Planning Commission is the appellate decision maker for projects seeking approval pursuant to Sec. 12.22 A.37(d)(5)(ii) (State Density Bonus Program), Sec. 12.22 A.38(d)(3) (Mixed Income Incentive Program), or Sec. 12.22 A.39(d)(3) (Affordable Housing Incentive Program) ~~(Sec. 12.22 A.25. (Affordable Housing Incentives — Density Bonus))~~ of Chapter 1 (General Provisions and Zoning).

3. Filing

a. An applicant or any other person aggrieved by the Director's decision may file an appeal.

b. ~~On-Menu Density Bonus~~ Density Bonus

An applicant or any owner or tenant of a property abutting, across the street or alley from, or having a common corner with the subject property aggrieved by the Director's decision may file an appeal on projects seeking approval pursuant to Sec. 12.22 A.37(d)(5)(ii) (State Density Bonus Program), Sec. 12.22 A.38(d)(3) (Mixed Income Incentive Program), or Sec. 12.22 A.39.d.3 (Affordable Housing Incentive Program) ~~Sec. 12.22 A.25. (Affordable Housing Incentives — Density Bonus)~~ of Chapter 1 (General Provisions and Zoning).

4. Appellate Decision

- a. Before acting on any appeal, the Area Planning Commission shall set the matter for hearing, giving notice in the manner specified in Subsection C. (Notice) of this Section.
- b. The Area Planning Commission shall act within 75 days after the expiration of the appeal period.

5. Exception

- a. When the application is filed as part of a project requiring multiple approvals, the appeals procedures set forth in LAMC Section 13A.2.10. (Multiple Approvals) of this Code shall govern.
- b. When the application is filed in conjunction with a Parcel Map and no other approval, the appeals procedures set forth in LAMC Section 13B.7.8. (Subdivision Appeal) of this Code shall govern.
- c. When the application is filed in conjunction with a Tentative Map and no other approval, the appeals procedures set forth in LAMC Section 13B.7.3.G. (Tentative Tract Map; Appeals) of this Code shall govern, provided that such applications shall only be appealable to the Appeal Board, as defined in Div. 13C.1. (Administration Definitions) of this Code, and shall not be subject to further appeal to the City's legislative body.

Section ~~38 33~~. A new Section 2. is added to Division 13B.3. of Article 13 (Administration) of Chapter 1A of the Los Angeles Municipal Code as follows:

~~[Figure in development. Intent: provide illustrative graphic communicating general process for Expanded Administrative Review]~~

A. Applicability

1. This Section applies where any provision of this Code requires an Expanded Administrative Review.

B. Initiation

1. An application for an Expanded Administrative Review is filed with the Department.
2. An Expanded Administrative Review is initiated as required in order to obtain a building permit.

C. Notice

1. Notice of Public Hearing

~~If required pursuant to Subsection D (Review), the following notice is required for the public informational hearing on the initial decision, if held.~~

Type of Notice	When	Where/To Whom/Additional Requirements
Mail	24 days	<ul style="list-style-type: none"> • The applicant; • The owner(s) of the property involved; • The owners and tenants of all property within 300 feet of the boundary of the subject site; • The Certified Neighborhood Council representing the area in which the property is located; and • Interested parties who have requested in writing to be notified
Posting	10 days	<ul style="list-style-type: none"> • The applicant will post notice in a conspicuous place on the property

~~2. Notice of Public Hearing on Appeal~~

~~The following notice is required for the public hearing on the appellate decision, if held.~~

Type of Notice	When	Where/To Whom/Additional Requirements
Mail	24 days	<ul style="list-style-type: none"> • The applicant; • The owner(s) of the property involved; • The owners and tenants of all property within 300 feet of the boundary of the subject site; • The Certified Neighborhood Council representing the area in which the property is located; and • Interested parties who have requested in writing to be notified
Posting	10 days	<ul style="list-style-type: none"> • The applicant will post notice in a conspicuous place on the property

D. Review

1. The Department shall determine compliance with the applicable regulations and standards for projects requiring an Administrative Review.

2. Clearance

Clearance shall be issued as required pursuant to the applicable ordinance or building permit requirement.

3. Public Hearing

~~If a public hearing is required, notice shall be given in the manner specified in Subsection C (Notice) of this Section. A public hearing may be required where any provision of this Code requires an Expanded Administrative Review and a public hearing. If the matter has a significant effect on neighboring properties, or if required where any provision of this Code requires an Expanded Administrative Review and a public hearing, the Department may require a public hearing in the manner specified in Subsection C.~~

E. Criteria for Compliance Review/~~Standards for Review and Required Findings~~

The Department shall review the application for compliance with the applicable regulations and standards of this Code or the applicable specific plan or overlay, including the zoning standards, established development standards, and any supplemental use regulations.

~~In approving an Expanded Administrative Review, the Director or City Planning Commission (on appeal) shall find that the project substantially complies with any applicable regulations, guidelines, findings, standards and provisions of this Chapter and Chapter 1 (General Provisions and Zoning), including any other ordinances.~~

F. Scope of Action

After the Expanded Administrative Review determines that the application is in compliance with the applicable regulations and standards, the following actions must comply with the approved plans:

1. The erection, enlargement or maintenance of buildings;
2. Any development or construction work; or
3. Issuance of a grading, building, demolition, or change of use permit.

G. Appeals

~~There is no appeal.~~

~~Appeals may be filed on decisions associated with housing developments subject to the Public Hearing procedures as described in Subsection D (Review). The following appeal procedures shall apply for these types of requests.~~

- ~~1. General Procedures.~~

~~See Sec. 13A.2.8. (Appeals) of Chapter 1A of this Code.~~

~~2. Decision Maker~~~~The City Planning Commission is the appellate decision maker.~~~~3. Filing~~~~An applicant or any owners or tenants of all properties within 300 feet of the boundary of the subject site aggrieved by the decision may file an appeal.~~~~4. Appellate Decision~~~~a. Before acting on any appeal the City Planning Commission shall set the matter for hearing, giving notice in the manner specified in Subsection C. (Notice) of this Section.~~~~b. The City Planning Commission shall act within 75 days after the expiration of the appeal period.~~~~5. Exception~~~~a. When the application is filed as part of a project requiring multiple approvals, the appeals procedures set forth in Sec. 13A.2.10. (Multiple Approvals) of this Code shall govern.~~~~a. When the application is filed in conjunction with a Parcel Map and no other approval, the appeals procedures set forth in Sec. 13B.7.8. (Subdivision Appeal) of this Code shall govern.~~~~b. When the application is filed in conjunction with a Tentative Map and no other approval, the appeals procedures set forth in Sec. 13B.7.3.G. (Tentative Tract Map; Appeals) of this Code shall govern, provided that such applications shall only be appealable to the Appeal Board, and shall not be subject to further appeal to the City's legislative body.~~

H. Modification Procedures

1. Modifications Equal to or Less than 10%

a. Projects approved pursuant to this Section may seek a modification to modify conditions of approval for the original action prior to the issuance of the Certificate of Occupancy.

b. For purposes of this Section, a "modification" means any changes or ~~change~~ in the proposed physical development or related conditions of approval that were approved in the original action ~~if the modification increases a project floor area, height, or number of residential units~~ by no more than 10%.

c. A modification does not include the granting of any new rights or increased or additional incentives, nor does it include the granting of any new deviation from zoning regulations in this Chapter or Chapter 1 (General Provisions and Zoning).

~~d. This Modification Procedure shall not apply to projects seeking a reduction in project scope. An applicant may seek approval of this modification with City Planning at the public counter.~~

- d. An application for a Modification pursuant to this Section shall be filed with the Department before the original action expires and include development plans showing the requested modifications.
 - e. In approving a modification pursuant to this section, the Department shall review the application for compliance with the applicable regulations and standards of this Code or the applicable specific plan or overlay, including the zoning standards, established development standards, and any supplemental use regulations
2. Modifications Greater than 10%
Any request for a modification that exceeds the 10% limitation will not be processed as a modification of the original action under this Subdivision and shall instead require a filing of a new Expanded Administrative Review Application pursuant to this Section.

Section ~~39~~ 34. Subsection B of Section 151.28 of Chapter 15 of the Los Angeles Municipal Code is modified to read as follows:

Units that are used to qualify for a density bonus pursuant to the provisions of either California Government Code Section 65915 or Los Angeles Municipal Code Section ~~42.22 A.25~~, 12.22 A.37, 12.22 A.38, or 12.22 A.39, or are used to satisfy any inclusionary zoning or replacement affordable housing requirement, or are used to qualify for any other public benefit or incentive, may be used to qualify as replacement affordable housing units pursuant to the provisions of this subsection.

Section 40. **SEVERABILITY.** If any portion, subsection, sentence, clause or phrase of this ordinance is for any reason held by a court of competent jurisdiction to be invalid such a decision shall not affect the validity of the remaining portions of this ordinance. The City Council hereby declares that it would have passed this ordinance and each portion or subsection, sentence, clause and phrase herein, irrespective of the fact that any one or more portions, subsections, sentences, clauses or phrases be declared invalid.

APPENDIX 1.B:
Resident Protections Ordinance Revisions

CPC-2023-7068-CA, CPC-2024-387-CA, CPC-2024-388-CA

For consideration by the City Planning Commission

September 26, 2024

ORDINANCE NO. _____

An ordinance amending Sections 12.03, 12.22, 12.24 of Article 2, Section 14.00 of Article 4, Sections 16.60 and 16.61 of Article 6.1, and Section 19.18 of Article 9 of Chapter 1 and Sections 51.31, 51.32, 51.33, 51.34 and 51.35 of Article 19 of Chapter 4 of the Los Angeles Municipal Code (LAMC), ~~including adding Section(s) 16.60 and 16.61 to Chapter 1, as well as amending Sections 12.22 and 12.24 of Chapter 1,~~ for the purpose of codifying housing replacement requirements, strengthening occupant protections, complying with state housing law and establishing reasonable regulations regarding affordable housing development for the protection of residents.

**THE PEOPLE OF THE CITY OF LOS ANGELES
DO ORDAIN AS FOLLOWS:**

Sec. 1. The following definitions are added to Section 12.03 of Article 2 of Chapter 1 of the LAMC in alphabetical order to read as follows:

Development Project includes any project involving the issuance of a City Planning application or building permit to allow the alteration of the size of or construction or demolition of any structure, or a change in the density or intensity of use of land consistent with how the term is used in Section 66300.6 of the California Government Code.

Housing Development Project has the same meaning as defined in paragraph (2) of subdivision (h) of California Government Code Section 65589.5, as amended from time to time, except that it also includes projects that involve no discretionary approvals and projects that include a proposal to construct a single dwelling unit

Protected Units means any of the following:

- (a) Residential dwelling units that are or were subject to a recorded covenant, ordinance, or law that restricts rents to levels affordable to persons and families of lower or very low income within the past five years.
- (b) Residential dwelling units that are or were subject to the Rent Stabilization Ordinance pursuant to Chapter XV of the LAMC, or any other form of rent or price control through a public entity's valid exercise of its police power within the past five years.
- (c) Residential dwelling units that are or were rented by lower or very low income households within the past five years.

(d) Residential dwelling units that were withdrawn from rent or lease in accordance with the Ellis Act (Chapter 12.75 (commencing with Section 7060) of Division 7 of Title 1 of the California Government Code) within the past 10 years.

Replace has the same meaning as provided in subparagraphs (B) and (C) of paragraph (3) of subdivision (c) of Section 65915 of the California Government Code, as amended from time to time.

Sec. 23. ~~SubParagraph (1) of Paragraph~~Subsection (d) of Subdivision 29. of Subsection A. of Section 12.22 A.29 of Article 2 of Chapter 1 of the LAMCes Angeles Municipal Code is amended to read as follows:

(1) For any project qualifying for a Floor Area Bonus that contains rental housing for Low, Very Low, Moderate or Workforce Income households, a covenant acceptable to the Los Angeles Housing Department shall be recorded with the Los Angeles County Recorder, guaranteeing that the affordability criteria will be observed for at least ~~55 or 99~~ 30-years or longer pursuant to ~~LAMC 16.61 A~~ from the issuance of the Certificate of Occupancy or a longer period of time if required by the construction or mortgage financing assistance program, mortgage assistance program, or rental subsidy program. (Amended by Ord. No. 187,122, Eff. 8/8/21.)

~~Sec.2 Paragraphs 1 and 2 of Subsection (h) of Section 12.22 A.25 of Chapter 1 of the the Los Angeles Municipal Code is amended to read as follows:~~

~~(h) Covenant. Prior to issuance of a Building Permit, the following shall apply:~~

~~(1) For any Housing Development Project qualifying for a Density Bonus and that contains housing for Senior Citizens, a covenant acceptable to the Los Angeles Housing Department shall be recorded with the Los Angeles County Recorder, guaranteeing that the occupancy restriction to Senior Citizens shall be observed for at least 5530 years or longer pursuant to LAMC 16.61 A from the issuance of the Certificate of Occupancy or a longer period of time if required by the construction or mortgage financing assistance program, mortgage assistance program, or rental subsidy program.~~

~~(2) For any Housing Development Project qualifying for a Density Bonus and that contains housing for Low or Very Low Income households, a covenant acceptable to the Los Angeles Housing Department shall be recorded with the Los Angeles County Recorder, guaranteeing that the affordability criteria will be observed for at least 5530 years or longer pursuant to LAMC 16.61 A from the issuance of the Certificate of~~

~~Occupancy or a longer period of time if required by the construction or mortgage financing assistance program, mortgage assistance program, or rental subsidy program.~~

~~(3) For any Housing Development Project qualifying for a Density Bonus and that contains housing for Moderate Income households for sale, a covenant acceptable to the Los Angeles Housing Department and consistent with the for sale requirements of California Government Code Section 65915(e)(2) shall be recorded with the Los Angeles County Recorder, guaranteeing that the affordability criteria will be observed for at least ten years from the issuance of the Certificate of Occupancy.~~

Sec. 3. Subparagraph (1) of Paragraph (b) of Subdivision 31. of Subsection A. of Section 12.22 of Article 2 of Chapter 1 of the the LAMC is amended to read as follows:

(1) A Housing Development located within a TOC Affordable Housing Incentive Area shall be eligible for TOC Incentives if it provides minimum required percentages of On-Site Restricted Affordable Units, meets any applicable replacement requirements of California Government Code Section 65915(e)(3) LAMC 16.60, and is...

Sec. 4. ~~Subp~~Paragraph (1) of Paragraph ~~Subsection~~ (f) of Subdivision 31. of Subsection A. of Section 12.22 ~~A.34~~ of Article 2 of Chapter 1 of the the LAMC ~~Los Angeles Municipal Code~~ is amended to read as follows:

(1) For any Housing Development qualifying for a TOC Incentive that contains rental housing for Extremely Low, Very Low, or Lower Income households, a covenant acceptable to the Los Angeles Housing Department shall be recorded with the Los Angeles County Recorder, guaranteeing that the affordability criteria will be observed for 55 or 99 years or longer pursuant to LAMC 16.61 A.

Sec. 5. Subparagraph (3) and (4) of Paragraph (a) of Subdivision 26. of Subsection U. of Section 12.24 of Article 2 of Chapter 1 of the the LAMC is amended to read as follows:

(3) ...the project meets any applicable dwelling unit replacement requirements of California Government Code Section 65915(e)(3) LAMC Section 16.60;

~~Sec. 5. Subparagraph (4) of Paragraph (a) of Subdivision 26 Subsection U of Section 12.24 of Chapter 1 of the the Los Angeles Municipal Code is amended to read as follows:~~

(4) the project's Restricted Affordable Units are subject to a recorded affordability restriction of 55 or 99 years or longer pursuant to LAMC 16.61 A from the issuance of the Certificate of Occupancy, recorded in a covenant acceptable to the Los Angeles Housing Department, and subject to fees as set forth in Section 19.14 of the Los Angeles Municipal Code; and (Amended by Ord. No. 187,122, Eff. 8/8/21.)

Sec. 6. Subparagraph (4) of Paragraph (a) of Subdivision 30. of Subsection U. of Section 12.24 of Article 2 of Chapter 1 of the the ~~LAMCes Angeles Municipal Code~~ is amended to read as follows:

(d) the affordability of all reserved lower income dwelling units will continue for a minimum of 55 or 99 years ~~or longer~~ pursuant to LAMC 16.61 A;

Sec. 7. Subparagraph (3) of Paragraph (c) of Subdivision 13. of Subsection A.. of Section 14.00 of Article 4 of Chapter 1 of the the LAMC is amended to read as follows:

(3) Projects shall meet any applicable dwelling unit replacement requirements of ~~California Government Code Section 65915(c)(3)~~ LAMC Section 16.60, or as thereafter amended, as verified by ~~LAHDHGIDLA~~ and all applicable covenant and monitoring fees in Section 19.14 of this Code shall be paid by the applicant prior to the issuance of any building permit.

Sec. 87. Subparagraph (2) of Paragraph (c) of Subdivision 10. of Subsection A. of Section 14.00 of Article 4 of Chapter 1 of the the ~~LAMCes Angeles Municipal Code~~ is amended to read as follows:

(2) ... guaranteeing that each required Restricted Affordable Unit shall be reserved and maintained for at least 55 or 99 years ~~from the issuance of the Certificate of Occupancy~~ pursuant to LAMC 16.61 A.

Sec. 94. A new Section 16.60 is added to Article 6.1 of Chapter 1 of the the ~~LAMCes Angeles Municipal Code~~ is added to read as follows:

SEC. 16.60. DEMOLITION OF HOUSING UNITS

A. Development Projects that Result in the Demolition of Housing Units

1. **Purpose.** The purpose of this subdivision is to comply with state law and offer protections related to the demolition of housing units as part of Development Projects and to extend these requirements past their expiration date of January 1, 2030 for Housing Development Projects.

2. **Definitions.**

“Affordable Housing Cost” has the same meaning as defined in Section 50052.5 of the California Health and Safety Code as amended from time to time.

“Affordable Rent” has the same meaning as defined in Section 50053 of the California Health and Safety Code as amended from time to time.

“Comparable Unit” contains the same or greater number of existing bedrooms and bathrooms.

~~“Development Project” includes any project involving the issuance of a City Planning application or building permit to allow the construction, demolition of any structure, and a change in the density or intensity of use of land consistent with how the term is used in Section 66300.6 of the California Health and Safety Code.~~

~~“Equivalent Size” means that the replacement units contain at least the same total number of bedrooms as the units being replaced.~~

~~“Housing Development Project” has the same meaning as defined in paragraph (2) of subdivision (h) of California Government Code Section 65589.5, as amended from time to time, except that it also includes projects that involve no discretionary approvals and projects that include a proposal to construct a single dwelling unit.~~

~~“Persons and Families of Low or Moderate Income” has the same meaning as defined in Section 50093 of the California Health and Safety Code, as amended from time to time.~~

~~“Protected Units” means any of the following:~~

- ~~(a) Residential dwelling units that are or were subject to a recorded covenant, ordinance, or law that restricts rents to levels affordable to persons and families of lower or very low income within the past five years.~~
- ~~(b) Residential dwelling units that are or were subject to the Rent Stabilization Ordinance pursuant to Chapter XV of the LAMC, or any other form of rent or price control through the City’s valid exercise of its police power within the past five years.~~
- ~~(c) Residential dwelling units that are or were rented by lower or very low income households within the past five years.~~
- ~~(d) Residential dwelling units that were withdrawn from rent or lease in accordance with the Ellis Act (Chapter 12.75 (commencing with Section 7060) of Division 7 of Title 1 of the California Government Code) within the past 10 years.~~

~~“Replace” has the same meaning as provided in subparagraphs (B) and (C) of paragraph (3) of subdivision (c) of Section 65915 of the California Government Code, as amended from time to time.~~

3. **Approval of Housing Development Projects that Result in the Demolition of Housing Units.** Notwithstanding any law the City shall not approve any Housing Development Project that will require the demolition of occupied or vacant Protected Units, or that is located on a site where Protected Units were demolished in the previous five years, unless all of the following requirements are satisfied.

(a) **Replacement of Existing or Demolished Protected Units.** The Housing Development Project shall Replace all existing Protected Units and Protected Units demolished on or after January 1, 2020 pursuant to the replacement requirements of California Government Code Section 65915(c)(3); consistent with the following requirements included in this section. This is in addition to any requirements included in Section 151.28 (Ellis Act Provisions) of Article 1 of Chapter XV of the LAMC.

(1) **Income Requirements.** Units occupied on the date of application shall be replaced with units ~~of Equivalent Size and~~ at an Affordable Rent or Affordable Housing Cost ~~to, and occupied by, persons and families in the same or lower income category as those households in occupancy based upon the units and incomes of as~~ those households in occupancy pursuant to California Government Code Section 65915(c)(3)(B)(i) inclusive of the following income categories: Low Income, Very Low Income, ~~and~~ Extremely Low Income ~~and Acutely Low Income~~. Units that have been demolished or vacated on the date of application shall be replaced ~~with units at an Affordable Rent or Affordable Housing Cost~~ based upon the highpoint in occupancy during the previous five years pursuant to California Government Code Section 65915(c)(3)(B)(ii).

(i) **Replacement When Incomes Are Not Known.** If the incomes of the individuals and households are not known ~~and unless otherwise demonstrated~~, the ~~rebuttable~~ presumption in California Government Code Section 65915(c)(3)(B)(i) regarding Lower Income Households shall be inclusive of the percentage of Extremely Low Income, Very Low Income and Low Income Households in the same proportion as their share of all renter households within the City of Los Angeles, as determined by the General Manager of the ~~Los Angeles City~~ Housing Department utilizing the most recently available data from the United States Department of Housing and Urban Development's Comprehensive Housing Affordability

Strategy database or equivalent census data disaggregated by tenure and income category.

- (ii) **Replacement of Rent or Price Controlled Units.** Notwithstanding LAMC 16.60 A.3(a)(1)(i) above, ~~u~~Units subject to a form of rent or price control through a local government's valid exercise of its police power ~~the Rent Stabilization Ordinance and Section 65915(e)(3)(G)~~ deemed or presumed to be occupied by persons or families above the lower income category shall be replaced as as follows:

- (i) **In Higher Opportunity Areas and Moderate Opportunity Areas**, units deemed or presumed to be occupied by persons or families above the lower income category shall be replaced with low income units.
- (ii) **In Lower Opportunity Areas**, with the units proportionate to the share of all lower income renter households within the City of Los Angeles described in LAMC 16.60 A.3(a)(1)(i) above. ~~pursuant to Section 65915(e)(3)(G)(i), as determined by the Los Angeles Housing Department.~~

- (2) **Equivalent Size.** All replacement units must be Equivalent Size, and Development Projects shall contain at least the same total number of units and total aggregate number of bedrooms as the Protected Units being replaced. New units do not have to match bedroom configurations of demolished units, except when a tenant is exercising the right to return as defined in LAMC 16.60 A.3(b)(4).

- (3) **Relationship to Other Affordability Requirements.** Any Protected Units replaced pursuant to this subparagraph shall be considered in determining whether the Housing Development Project satisfies the requirements of ~~Section 65915~~ or any state, local or federal ~~locally adopted~~ requirement that requires, as a condition of the development of residential rental units, that the project provide a certain percentage of residential rental units affordable to, and occupied by, households with incomes that do not exceed the limits for moderate-income, lower income, very low income, ~~or extremely low income, or acutely low income~~

households, as specified in Sections 50063.5, 50079.5, 50093, 50105, and 50106 of the California Health and Safety Code.

- (4) **Exceptions.** Notwithstanding the requirements above, the replacement requirements of this section shall not apply to the following:
- (i) A Housing Development Project that consists of a single residential unit on a site with a single Protected Unit.
 - (ii) A Housing Development Project that complies with the requirements of LAMC Section 16.60 A.5(a).
- (5) **Procedures.** Owners of a Housing Development Project subject to the above requirements must complete an application for a Replacement Unit Determination with the Los Angeles Housing Department (LAHD). Information provided by the owner and existing tenant(s), as well as information gathered by LAHD will be used to determine whether any Protected Units exist.

(eb) Existing Occupant Protections

- (1) **Right to Remain.** Any existing occupants shall be allowed to occupy their units until six months before the start of construction activities with proper notice, subject to Chapter 16 (commencing with Section 7260) of Division 7 of Title 1 of the California Government Code. ~~The project proponent shall provide existing occupants with written notice of the planned demolition, the date they must vacate, and their rights under this section. Notice shall be provided at least six months in advance of the date that existing occupants must vacate plus additional extensions under state or local law that may require an additional notification period. A housing developer shall provide written notice to existing occupants of the planned demolition, the date they must vacate, and their rights under this section. Notice shall be provided at least six months in advance of the date that existing occupants must vacate. Housing developers must comply with the requirement to the right to remain and complete a form provided by the Los Angeles Housing Department.~~
- (2) **Right to Return if Demolition Does Not Proceed.** Any existing occupants that are required to leave their units shall be allowed to return to the same rental unit, or a Comparable Unit at their prior rental rate if the demolition does not proceed and the property is

returned to the rental market. This right to return is in addition to any applicable requirement in Los Angeles Municipal Code Section 151.27 (Ellis Act Provisions - Re-Rental Rights of Displaced Tenants) of Article 1 of Chapter XV. ~~A housing developer shall agree to this requirement on a form provided by the Los Angeles Housing Department.~~

(3) **Right to Relocation.** ~~Relocation benefits shall be pursuant to Los Angeles Municipal Code Section 165.06.A, 151.09.G or 47.08 and 47.09. For lower income occupants, if greater than the local provisions, relocation shall be equivalent to those required to be paid to public entities pursuant to Chapter 16 (commencing with Section 7260) of Division 7 of Title 1 of the California Government Code, as determined by the Los Angeles Housing Department.~~ Occupants of Lower Income Households including Very Low Income and Extremely Low Income, shall be entitled to, and the owner shall pay, relocation benefits under this provision in the amounts set forth below when the occupant is displaced by the owner from their residence by a development project. The owner shall pay the relocation benefits required pursuant to this provision prior to the issuance of any demolition permit for the site.

- (i) For purposes of determining whether a tenant is displaced by a Development Project, the following actions shall constitute evidence of development:
 - a. Owner files for an entitlement or building permit for a Development Project requiring the demolition of an existing rental unit and the tenancy is or will be terminated as result; or
 - b. Owner applies for a Replacement Unit Determination and the tenancy is or will be terminated as a result; or
 - c. Owner serves a notice or otherwise seeks to terminate a tenancy or recover possession of a rental unit based upon one of the grounds under LAMC Sections 165.03 I(1) or (3) (Just Cause Evictions) of Article 5 of Chapter XVI, 151.09 A.10 (Evictions) of Article 1 of Chapter XV, 47.08 (Tenant Relocation Assistance Where Mobilehome Parks Are Changed to a Different Use) or 47.09 (Mobilehome Park Closure Impact Report) of Article 7 of Chapter IV requiring payment of relocation assistance that

includes evidence of intent to develop the property.

- (ii) For occupants that are Lower Income Households including Very Low Income and Extremely Low Income households, who are displaced from their residence by a Development Project under the criteria set forth above, the relocation benefit shall be:
- a. Equal to the difference between the Section 8 Department Voucher Payment Standard and the rent affordable to that occupant's income level per Section 50053 of the California Health and Safety Code, multiplied by 42 months, plus estimated incidental moving costs. The amount for the Section 8 Department Voucher Payment Standard, the determination of the affordable rent per Section 50053 of the California Health and Safety Code, and the estimated incidental moving costs shall be determined upon the adoption of this ordinance, and then adjusted annually according to the Consumer Price Index – All Urban Consumers. For efficient implementation, the City will use a 2-bedroom standard since 2-bedrooms are the most common unit type in the City. For the year beginning July 1, 2025, and all subsequent years, the fee amounts shall be adjusted on an annual basis pursuant to the formula set forth in LAMC Section 151.06 D (Automatic Adjustments) of Article 1 of Chapter XV. The adjusted amount shall be rounded to the nearest \$50 increment.
 - b. If the occupant is entitled to a relocation benefit due to a termination of tenancy under the Los Angeles Municipal Code Sections 165.03 I(1) or (3) (Just Cause Evictions) of Article 5 of Chapter XVI, 151.09 A.10 (Evictions) of Article 1 of Chapter XV, 47.08 (Tenant Relocation Assistance Where Mobilehome Parks Are Changed to a Different Use) or 47.09 (Mobilehome Park Closure Impact Report) of Article 7 of Chapter IV, the payment shall be made in accordance with Los Angeles Municipal Code Section 151.09 G.1-2 (Evictions) of Article 1 of Chapter XV.

- c. For mobile home park closures, at least the amount required by Government Code Section 65863.7.
- (iii) For occupants who are not Lower Income Households, relocation benefits shall be the amounts as applicable pursuant to Los Angeles Municipal Code Section 165.06 A (Just Cause Ordinance), 151.09 G (Rent Stabilization Ordinance), Government Code 65863.7 (Mobile Home Closures) or for publicly funded projects the greater amount under either local city laws or under Chapter 16 (commencing with Section 7260) of Division 7 of Title 1 of the California Government Code.
- (iv) Under no circumstances shall a demolition permit be issued unless the Los Angeles Housing Department provides a written clearance to the Department of Building and Safety stating that the landlord has complied with the relocation assistance requirements of this section. The landlord shall provide proof of compliance with the relocation assistance requirements of this section to the Los Angeles Housing Department on a form provided by the Los Angeles Housing Department. The form shall be accompanied by a fee of \$45 per unit.
- (v) If an owner of residential real property has exercised its rights under Chapter 12.75 (commencing with Section 7060) of Division 7 of Title 1 of the California Government Code to withdraw the property from residential rent or lease or LAMC 165.03 I (1) or (3) (Just Cause Evictions) of Article 5 of Chapter XVI, and the owner did not state an intent to redevelop the property in its Notice of Intent to Withdraw; and the owner did not pay occupants of the property relocation payments consistent with LAMC 16.60 A.3(b)(3)(ii), above, and then within five years of submitting this Notice of Intent to Withdraw, the owner seeks to develop the property as demonstrated by actions described in LAMC 16.60 A.3(b)(3)(i), above, the following shall apply:
 - a. As a condition of the clearance of demolition or new construction permits, the applicant or the applicant's successor-in-interest shall be required to pay to the LAHD a fine equal to three times the relocation benefit amount that would have been paid under

LAMC 16.60 A.3(b)(3)(ii), above where the income of the former occupants are known; where incomes of the former occupants are not known, the applicant shall be required to pay \$250,000 per displaced occupant household. The LAHD shall not clear a demolition or new construction permit until the applicant complies with this section. The withholding of permits shall not apply to demolition permits or approvals that are necessary to comply with a Department of Building and Safety, LAHD, or other government order.

- i. **Notice Process.** When an owner seeks a demolition or new construction permit clearance from LAHD at a property where the owner may have misrepresented its intention to develop the property in its Notice of Intent to Withdraw, and it has not paid relocation benefits to tenants consistent with having displaced them for development, LAHD will provide written notice to the owner that the LAHD's clearance of the permits is conditioned on payment of the fine. The notice shall include the address of the property at issue, a copy of the owners Notice of Intent to Withdraw, the amount of the potential fine, and the process to appeal the imposition of the fine.
- ii. **Appeal Process.** The notice shall include a right to file an appeal within 30 calendar days of the notice of the condition to pay the fine which shall include the right to an administrative hearing.

Owners who file an appeal will be subject to an administrative fee to pay for the costs of the appeal. The amount will be the same amount as for appeals under LAMC Section 165.06.C (Relocation Assistance) of Article 5 of Chapter XVI.

After the hearing officer issues a decision in the administrative hearing, the owner will have a right to seek judicial review of the determination

governed by California Code of Civil Procedure Section 1094.5. Under that provision, a petitioner may seek judicial review of any decision of the City pursuant to California Code of Civil Procedure Section 1094.5 only if the petition for writ of mandate pursuant to that section is filed no later than the 90th day following the date on which the City's decision became final.

- b. Any Lower Income Household who is displaced as a result of a tenancy termination for the purpose of property development under Los Angeles Municipal Code Sections 165.03 I.(1) or (3) (Just Cause Evictions) of Article 5 of Chapter XVI, 151.09 A.10 (Evictions) of Article 1 of Chapter XV, 47.08 (Tenant Relocation Assistance Where Mobilehome Parks Are Changed to a Different Use) or 47.09 (Mobilehome Park Closure Impact Report) of Article 7 of Chapter IV, shall be entitled to relocation benefits under Section LAMC 16.60 A.3(b)(3)(ii)(a), above. The payment shall be made in accordance with Los Angeles Municipal Code Section 151.09.G.1-2 (Evictions) of Article 1 of Chapter XV.
- c. For the occupant who was in possession of their unit at the time the owner filed the Notice of Intent to Withdraw who seeks to pursue a private right action under LAMC Section 16.60 A.7, below, for causes of action arising out of 16.60 A.3(b)(3)(v) above, the cause of action shall accrue when the owner files for an entitlement, building permit, or Replacement Unit Determination to construct a Development Project.

(4) **Right to Return.** The developer shall provide the following to the existing occupants of any Protected Units that are ~~persons and families of~~ lower income households and agree to this requirement on a form provided by the Los Angeles Housing Department:

- (i) A right of first refusal for a ~~e~~Comparable ~~u~~Unit available in the new housing development affordable to the household at ~~their prior rental rate~~ or an Affordable ~~r~~Rent or an Affordable ~~h~~Housing ~~e~~Cost, ~~whichever is lower.~~ In cases where the prior rental rate is used to establish the initial

rent, subsequent rent increases for such tenants shall not exceed the allowable rent increase for rent stabilized units under LAMC Chapter XV (Rent Stabilization Ordinance), and this limitation shall be included in the covenant recorded for the affordable replacement unit. In cases where one or more single family homes with four or more bedrooms are being replaced by a project that consists of two or more units, a Comparable Unit may have three bedrooms. ~~comparable unit contains the same number of bedrooms but is not required to have the same or similar square footage or the same number of total rooms. In cases when a single family home with four or more bedrooms is being replaced, a comparable unit may have three bedrooms.~~ This requirement shall not apply to any of the following:

- a. A Development Project that consists of a single residential unit located on a site where a single Protected Unit is being demolished.
- b. Units in a housing development in which 100 percent of the units, exclusive of a manager's unit or units, are reserved for Lower Income Households, except when Protected Units occupied by an occupant who qualifies for residence in the new development and for whom providing a Comparable Unit would not be precluded due to unit size limitations or other requirements of any funding source of the housing development, as determined by the Los Angeles Housing Department.
- c. A Development Project that meets all of the criteria in 16.60 A.4(a)(1).

(5) Additional Tenant Notification Obligations.

- (i) Project applicants shall notify existing tenants in writing of all their legal rights under LAMC Section 16.60 A.3(b). Information regarding the tenant's eligibility for these rights, rent guidelines for the new unit, and any procedures the tenant will need to follow to exercise these rights shall be provided in writing to the tenant in accordance with any and all requirements and procedures of LAHD's

Replacement Unit Determination (RUD). The applicant shall provide and maintain accurate contact information to tenants for purposes of communicating throughout the construction and lease up of the Development Project.

- (ii) Project applicants or their predecessor-in-interest shall provide written notice to any tenant who is exercising their right to return of major milestones in the development process, including but not limited to: (1) the start of construction, (2) on at least a bi-annual basis provide updates on the anticipated date of when occupancy would be opened, (3) at least 180, 90, 30 and 15 days in advance of the anticipated availability of the unit pursuant to the issuance of the Temporary or Final Certificate of Occupancy, (4) when the Temporary Certificate of Occupancy is issued, and (5) when the Final Certificate of Occupancy is issued. Failure to inform tenants of the project's major milestones may result in additional time provided to the tenant to return to the replacement unit. This shall not preclude tenants from contacting the applicant or their predecessor-in-interest to inquire about progress throughout construction and lease up of the Development Project.
- (iii) Where a tenant household has a right of return pursuant to LAMC Section 16.60 A.3(b), the project applicant or their predecessor-in-interest shall notify the tenant household. The notice must comply with the applicable standards set forth by LAHD and include the rent guidelines for the project and any procedures the tenant will need to follow in order to claim a new unit. Where LAHD has created a standard notice, the project applicant must provide that standard notice to tenant households.
- (iv) Within thirty (30) days of receipt of the notice that the Final Certificate of Occupancy has been issued and the replacement unit is available, a tenant household must notify the owner if it wishes to reoccupy the replacement unit or room. The owner must hold the unit or room vacant at no cost to the tenant for sixty (60) days from the date the tenant household's written notice of its intent to reoccupy the rental unit is received.

- (v) Where a tenant household has a right to remain pursuant to LAMC Section 16.60 A.3(b) the project applicant or their predecessor-in-interest shall provide written notice to existing occupants of the planned demolition, the date they must vacate, and their rights under this section.
- (vi) Project applicants who experience unforeseen delays in issuance of a Temporary Certificate of Occupancy or Certificate of Occupancy impacting the timeline of their construction milestone updates shall not be subject to the Private Right of Action described in LAMC Section 16.60 A.7, so long as they can demonstrate compliance with the tenant notification obligations in LAMC Section 16.60 A.3(b)(5).

4. Approval of Non-Housing Development Projects that Result in the Demolition of Housing Units until January 1, 2030. Notwithstanding any law, the City shall not approve any Development Project that is not a Housing Development Project that will require the demolition of occupied or vacant Protected Units, or that is located on a site where Protected Units were demolished in the previous five years, until January 1, 2030, unless all of the following requirements are satisfied.

- (a) **Replacement of Existing or Demolished Protected Units.** The project shall Replace all existing Protected Units and Protected Units demolished on or after January 1, 2020 pursuant to the replacement requirements of California Government Code Section 65915(c)(3) and Section 16.60 A.3(a) of this Code, consistent with the following requirements:
 - (1) The Development Project may not include an industrial use ~~nor~~ be located on a site that is entirely within a zone, ~~adopted prior to January 1, 2022, that does not allow residential uses; where the zoning applicable to the project site that does not allow residential uses was adopted prior to January 1, 2022~~ and the Protected Units that are or were on the project site are or were nonconforming uses.
 - (2) At the time of permit issuance, a Development Project proponent must sign an affidavit for the Los Angeles Department of Building and Safety to ensure the replacement housing will be developed prior to or concurrently to the Development Project. Developed prior means a Certificate of Occupancy or Temporary Certificate of Occupancy for the replacement housing must be obtained prior to

issuance of a Certificate of Occupancy or Temporary Certificate of Occupancy for the nonresidential Development Project.

- (3) The required replacement housing may be located on a site other than the project site but shall be located within the City of Los Angeles, with a preference for sites within close proximity.
 - (4) The project proponent may contract with another entity to develop the required replacement housing units, except that the replacement housing units shall not fulfill the affordability requirements of any other development pursuant to another law.
 - (5) A commercial developer seeking a commercial density bonus may propose providing restricted affordable units through an agreement with a housing developer for partnered housing. The agreement must be approved by the City pursuant to California Government Code Section 65915.7.
 - (6) Notwithstanding the requirement that an Accessory Dwelling Unit be located on a lot with an existing or proposed primary residence, the replacement housing may be established through creation of an Accessory Dwelling Unit with the primary nonresidential use on the parcel being able to be used in place of a primary residence.
- (b) **Existing Occupant Protections.** The Development Project meets the occupant protections described in [LAMC](#) Section 16.60 A.3(b).
- (c) **Sunset Provisions.** The requirements of this subparagraph shall not apply to projects approved after January 1, 2030, except for those Development Projects that submitted a preliminary application pursuant to Section 65941.1 of the California Government Code before January 1, 2030. This subsection shall remain in effect only until January 1, 2034, and as of that date is repealed.
5. ~~(b)~~ **No Net Loss of Dwelling Units.** Notwithstanding any other law and notwithstanding density limitations on a site, no permit shall be issued for a Housing Development Project that will require the demolition of one or more residential dwelling units irrespective of Protected Unit status, unless the project will create at least as many residential dwelling units as will be demolished. In addition, the Housing Development Project shall include at least as many residential dwelling units as the greatest number of residential dwelling units that existed on the project site within the last five years, except for the following:

(a) ~~(1)~~ LAHD may approve an off-site replacement plan for buildings with covenanted affordable housing units that request approval to build a smaller number of units on the site in the following circumstances:

- (1) ~~(i)~~ The proposed construction of the new affordable units cannot Replace all units on site due to physical changes in unit type, such as replacing Single Room Occupancy or Residential Hotel guest rooms with studio dwelling units.
- (2) ~~(ii)~~ The proposed construction of the new affordable housing units cannot Replace all units on site and meet the City's required Accessible Housing Program standards.
- (3) Off-site replacements units approved pursuant to this subparagraph shall be subject to the following requirements, subject to LAHD approval:
 - i) ~~(iii)~~ The off-site replacement housing units will be of Equivalent Size or larger and have equivalent amenities as the on-site replacement housing units, and will be covenanted at the same affordability levels and for at least the same length of time ~~number of years~~ as the on-site replacement housing.
 - ii) ~~(iv)~~ The off-site replacement housing units will be constructed within a three mile radius of the on-site replacement housing units.

6. Withholding or Revoking of Demolition Permit Approval for Illegal Tenant Harassment or Eviction

(a) **Thresholds to Place individual or entity on LAHD's Anti-Harassment Violators Database.** LAHD shall place a beneficial owner onto the LAHD Anti-Harassment Violators Database when:

- (1) A final judgment has been issued against the beneficial owner within the last five years for unlawful tenant harassment under the City's Tenant Anti-Harassment Ordinance, known as "TAHO," as set forth under Article 5.3 in Chapter IV of the Los Angeles Municipal Code, or similar actions within City limits under California Civil Code Section 1940.2, 1942.4, or 1942.5; or
- (2) The City has either (A) issued three final citations for TAHO violations at properties in the City against the beneficial owner within the last

ten years for which all appellate remedies have expired or (B) in zones where there is a heightened risk of displacement of lower income tenants as determined by the City's Displacement Assessment Risk Tool, issued one final citation for TAHO violations at a property against the beneficial owner within the last five years for which all appellate remedies have expired; or

(3) A final judgment has been issued against the beneficial owner within the last five years for wrongfully or illegally evicting a tenant within City limits, or causing a tenant to involuntarily quit within City limits in violation of local or State law.

(4) Definition. For purposes of LAMC Section 16.60 A.6, a "beneficial owner" includes any of the following:

- (i) A natural person with a recorded ownership interest in the real property where the tenant harassment takes place.
- (ii) An ownership entity, including a corporation, limited liability company, limited partnership, partnership, or trust with a recorded interest in the real property where the tenant harassment takes place
- (iii) An entity or natural person that meets any of the following criteria:
 - a. has an ownership interest, as the term is defined in Section 1010.380(d)(2)(i)-(ii) (Reports of Beneficial Ownership Information) of Title 31 of the Code of Federal Regulations, in an entity described in Sub-subparagraph (4)(i) or (4)(ii) above; or
 - b. exercises "substantial control", as the term is defined in Section 1010.380(d)(1) (Reports of Beneficial Ownership Information) of Title 31 of the Code of Federal Regulations, over an entity described in Sub-subparagraph (4)(i) or (4)(ii) above; or
 - c. receives "substantial economic benefits" from the assets of an entity described in Sub-subparagraph (4)(i) or (4)(ii) above.

- (iv) An owner for purposes of the above does not mean any of the following:
- a. A minor child;
 - b. A person acting solely as an employee of an ownership entity and whose control over or economic benefits from that ownership entity derives solely from the employment status of the person;
 - c. A person whose only interest in an ownership entity is a future interest through a right of inheritance; or
 - d. A creditor of an ownership entity, unless the creditor meets the requirements specified in Sub-subparagraph (4)(i) above.

- (b) **Notice of Determination and Right to Staff Review.** Upon placement in the LAHD Anti-Harassment Violators Database, LAHD shall send a Notice of Determination to the known beneficial owner(s) placed into the database. A copy of the Notice of Determination shall also be mailed to the beneficial owner(s) of the property, if different from the applicant or permittee, as shown on the last equalized assessment roll, and to any person holding a deed of trust, mortgage, or other security interest in the property as revealed by a title search with respect to the property.

The Notice of Determination shall state that the LAHD General Manager, or designee, has determined that the beneficial owner should be placed in the LAHD Anti-Harassment Violators Database because the criteria in LAMC Section 16.60 A.6(a) have been satisfied, the basis for that determination, and the potential consequences under this ordinance. This section does not create any new appeal rights under the Administrative Citation Enforcement Program, known as the ACE program. Within 14 days of the date of this notice, the beneficial owner(s), subject to being placed in the database, shall have a right to request an LAHD staff level review of this determination. At the review, the beneficial owner may submit any evidence relevant to this determination.

- (c) **Review of Determination.** The LAHD staff review shall be set on a date no earlier than 20 days after the date of the Notice of Determination, and the review shall be conducted no later than 60 days after the date of the Notice of Determination. At the review, the beneficial owner may submit any evidence relevant to this determination regarding the correct identity of the violator and the correct number of violations. The review shall be

limited to whether the beneficial owner meets one of the stated criteria set forth in LAMC Section 16.60 A.6(a) above.

Within thirty (30) days of the review, LAHD shall provide a written LAHD Notice of Outcome notifying the beneficial owner of the outcome of the review. If the determination is upheld in review, the beneficial owner may seek judicial review by writ of mandamus.

- (d) **Consequences of Placement on LAHD's Anti-Harassment Violators Database.** When there has been a final determination to place a beneficial owner on the LAHD Anti-Harassment Violators Database, LAHD shall notify in writing the Superintendent of Building and Safety and the Director of Planning.

If any applicant or permittee seeking a demolition permit or approval pursuant to LAMC Section 16.60 for a Development Project involving new construction, major renovations, or additions, that is within a property with Protected Units and the applicant or permittee is on the LAHD Anti-Harassment Violators Database, the Superintendent of Building and Safety shall withhold or revoke the issuance of any demolition permits for five years and the Director of Planning shall withhold the issuance of any approval for five years. Where the City has denied or revoked a demolition permit or approval to any applicant under this paragraph (iv), the denial or revocation for a five year term for the subject property shall transfer ("run with the land") at sale to any new owner, unless the new owner is developing a publicly-financed affordable housing project on the same site where more than 50 percent of the units are affordable, except for manager's unit(s).

The withholding or revoking of permits shall not apply for demolition permits or approvals that are necessary to comply with a Department of Building and Safety, LAHD, or other government order.

The five-year hold period shall commence on the date that the court's final judgment or the City's citation is final and no further judicial remedies are available.

If at the end of the five-year hold period, no new citations have been issued to and no court findings have been made against the beneficial owner(s), the beneficial owner(s) shall be removed from the LAHD Anti-Harassment Violators database. However, if during the five-year period, there is a new citation or court finding against the same beneficial owner, the five-year ban shall be extended from the date that the most recent citation or court finding becomes final and no further appeals

available. No citation used to place a beneficial owner into the database may be used against the beneficial owner more than once.

Any action by the Department of Building and Safety or the Department of City Planning resulting from any of the provisions of this section, including demolition permit revocation and withholding of an approval shall not be further appealable.

- (e) **Operative Date and Subsequent Ordinance.** This LAMC Section 16.60 A.6 shall become operative upon the effective date that LAHD establishes a determination and review process and publishes a notice of its effective date on the LAHD website and at least once in a newspaper circulated in the City of Los Angeles.

If the City adopts a subsequent ordinance in conflict with the procedures in this LAMC Section 16.60 A.6 relating to the withholding or revoking of a demolition permit, this Subparagraph shall be of no further force and effect.

7. Private Right of Action; Civil Penalties.

- (a) An aggrieved tenant under LAMC Section 16.60, or any person, organization, or entity who will daily and adequately represent the interests of an aggrieved tenant(s) under this LAMC Section 16.60, may institute civil proceedings as provided by law, against any applicant, or their successor-in-interest, violating any of the provisions of this LAMC Section 16.60 and any person who aids, facilitates, or incites another to violate the provisions of this article, including but not limited to submitting false information in response to the requirements of this section, regardless of whether the rental unit remains occupied or has been vacated due to harassment.
- (b) A tenant prevailing in court under this LAMC Section 16.60 shall be awarded reasonable attorney's fees and costs. A tenant prevailing in court under this LAMC Section 16.60 may be awarded compensatory or punitive damages, and imposition of civil penalties up to \$10,000 per violation of this LAMC Section 16.60 depending upon the severity of that violation, tenant relocation, or other appropriate relief, as adjudged by the court. Treble damages may also be awarded for willful violations. If a tenant prevailing under this article is older than 65 years or disabled, the court may impose additional civil penalties up to \$5,000 per violation depending upon the severity of the violation of this LAMC Section 16.60.

- (c) Any landlord or their agents violating any of the provisions of LAMC Section 16.60, may be enjoined therefrom by a court of competent jurisdiction.
- (d) The remedies to bring a civil action under LAMC Section 16.60 shall extend to current tenants at a property, to former tenants at a property who were displaced by violations of LAMC Section 16.60 at a property, and to the City. The remedies in this paragraph are not exclusive nor do they preclude any tenant from seeking any other remedies, penalties and punitive damages, as provided by law.
- (e) The remedies provided by this LAMC Section 16.60 are in addition to any other legal or equitable remedies and are not intended to be exclusive.
- (f) Any agreement, whether written or oral, waiving any of the provisions contained in this LAMC Section 16.60 shall be void as contrary to public policy.

8. Relationship to Other Zoning Provisions. The Demolition of Housing Units Standards in LAMC Section 16.60 A shall apply citywide except for Historic Preservation Overlay Zones (HPOZs). Specific Plans, Supplemental Use Districts, or other overlays may establish additional replacement requirements and/or additional occupant protections greater than those provided in LAMC 16.60 A, in which case, the greater replacement requirements and occupant protections shall be used.

Sec. 102. A new Section 16.61 of the Los Angeles Municipal Code is added to Article 6.1 of Chapter 1 of the LAMC as follows:

SEC. 16.61. RESTRICTED AFFORDABLE HOUSING UNITS

A. Length of Affordability.

1. Unless covenant terms are otherwise specified due to a requirement contained in Chapter 1 of this Code or as a condition of approval, a Development Project that is subject to this section, ~~either due to a requirement contained in Chapter 1 of this Code or to a condition of approval that specifies 99 years or is silent to length of covenant terms,~~ and must be restricted by ~~a~~ prepare a covenant acceptable to the Los Angeles Housing Department ~~to be~~ recorded with the Los Angeles County Recorder, guaranteeing that the occupancy restriction will be observed for at least 99 years from the issuance of the Certificate of Occupancy except for:
 - (a) A Development Project in which public subsidies are tied to a specified covenant period, as determined by the Los Angeles Housing Department, unless voluntarily agreed to by the project applicant.

- (b) For sale units, which must be consistent with the for-sale requirements of California Government Code Section 65915(c)(2).
- (c) Residential Units for Lower Income Students, Transitional Foster Youth, Disabled Veterans, and/or Homeless Persons, shall be provided at affordability levels as determined in Los Angeles Municipal Code Section 12.22 A.37 for at least 55 years from the issuance of the Certificate of Occupancy or a longer period of time if required by the construction or mortgage financing assistance program, mortgage assistance program, or rental subsidy program.

~~2. Any covenant described here must provide for a private right of enforcement by the City, any tenant, or owner of any building to which a covenant and agreement applies.~~

B. Requirements Regarding Unit Design, Unit Mix, Unit Size, Quality and Amenities, Access to, and Distribution of Affordable Units in Mixed-Income Development Projects. The Los Angeles Housing Department shall have the authority to establish and administer requirements ~~applicable to all Restricted Affordable Units in mixed-income developments~~ regarding the unit mix, unit size, quality and amenities, access to and distribution of affordable housing units in mixed-income Development Projects, in order to ensure compliance with fair housing law and any other applicable requirements, including but not limited to requirements from funding sources. The requirements shall be enforced through an approval prior to permit issuance. The requirements ~~shall should be established/modified~~ in a ~~set of Fair Housing Requirements for Affordable Housing set of guidelines or user handbook that is adopted~~ created by the Los Angeles Housing Department and the Department of City Planning, ~~and adopted by Resolution at the City Planning Commission~~. LAHD shall have the authority to interpret these requirements to best implement their goals ~~of the guidelines~~.

1. Amendments to the Fair Housing Requirements for Affordable Housing shall be approved by the City Planning Commission, pursuant to the procedures in Sec. 13B.1.5 (Guidelines or Standards Adoption/Amendment) of Chapter 1A of this Code.
2. The Director of Planning and General Manager of LAHD may prepare Implementation Memorandums, Technical Bulletins and/or User Guides for the purpose of providing additional information pertaining to this Subsection and maintaining consistency with State Housing Crisis Act.

C. Allocation of Restricted Affordable Units. Restricted Affordable Units ~~located in mixed-income housing development projects~~ shall be subject to the following:

1. **Affirmative Marketing and Fair Housing Outreach.** Sale or lease of the Restricted Affordable Units shall follow the affirmative marketing and outreach

requirements of the Los Angeles Housing Department (LAHD), as outlined in a deed restriction drafted by LAHD and filed with the County of Los Angeles.

2. **Affordable and Accessible Housing Registry.** All Restricted Affordable Units shall be registered to the extent feasible on the Affordable and Accessible Housing Registry managed by the LAHD, or any existing equivalent listing, when available for rent.
3. **Priority Populations.** To the extent practical and in alignment with local, state and federal law, and pursuant to any locally adopted guidelines, the ~~an~~Affirmative ~~Marketing and Fair Housing Outreach registry~~ provisions in ~~Subdivisionsubparagraphs~~ 1 and ~~Affordable and Accessible Housing Registry in Subdivision 2 of Subsection C of Section 16.61~~, as well as any other City Planning or LAHD administrative procedure, should attempt to prioritize those with the greatest housing needs that have been ~~impacted~~displaced by government actions. This may include, but not be limited to:
 - (a) Any person or household who has been displaced through a withdrawal of units pursuant to the Ellis Act and ~~LAMCSections~~ 151.22 to 151.28 (~~Ellis Act Provisions~~) of Article 1 of Chapter XV of the LAMC;
 - (b) A lower income person or household subject to a rent increase related to conversion to market-rate housing due to termination of a public funding subsidy contract, mortgage prepayment, or expiring use restrictions based on land use entitlement concessions.
 - (c) A person or household who was displaced due to a code enforcement order, including those affected ~~byas~~ a natural disaster that resulted in their residential unit being rendered uninhabitable.

D. Private Right of Action; Civil Penalties

1. A covenant acceptable to the Department of City Planning and the Los Angeles Housing Department shall be recorded guaranteeing the requirements in this LAMC Section 16.61 and providing for a private right of enforcement by the City, any tenant of any building to which a covenant and agreement applies.
2. An aggrieved tenant under LAMC Section 16.61, or collection of tenants as part of a representative class, may institute civil proceedings as provided by law, against any applicant, or their successor-in-interest, violating any of the provisions of the covenant as described in this LAMC Section 16.61 and any person who aids, facilitates, or incites another to violate the provisions of this article, including but not limited to submitting false information in response to the requirements of this section, regardless of whether the rental unit remains

occupied or has been vacated due to harassment.

3. A tenant prevailing in court to enforce any provisions of this LAMC Section 16.61 shall be awarded reasonable attorney's fees and costs. A tenant prevailing in court to enforce any provisions of the covenant as described in this LAMC Section 16.61 may be awarded compensatory or punitive damages, and imposition of civil penalties up to \$10,000 per violation of provisions of the covenant described in this LAMC Section 16.61 depending upon the severity of that violation, tenant relocation, or other appropriate relief, as adjudged by the court. Treble damages may also be awarded for willful violations. If a tenant prevailing under this article is older than 65 years or disabled, the court may impose additional civil penalties up to \$5,000 per violation depending upon the severity of the violation of the covenants as described in this LAMC Section 16.61.
4. Any landlord or their agents violating any of the provisions of the covenant as described in this LAMC Section 16.61, may be enjoined therefrom by a court of competent jurisdiction.
5. The remedies to a successful civil action brought under LAMC Section 16.61 shall extend to current tenants at a property, to former tenants at a property who were displaced by violations of the covenants as described in LAMC Section 16.61 at a property, and to the City. The remedies in this subsection are not exclusive nor do they preclude any tenant from seeking any other remedies, penalties and punitive damages, as provided by law. The remedies provided by this LAMC Section 16.61 are in addition to any other legal or equitable remedies and are not intended to be exclusive.
6. Any agreement, whether written or oral, waiving any of the provisions contained in this LAMC Section 16.61 shall be void as contrary to public policy.

E. Relationship to Other Zoning Provisions. The Restricted Affordable Units Standards in LAMC Section 16.61 shall apply citywide except HPOZs. Specific Plans, Supplemental Use Districts, or other overlays may establish longer covenant lengths, requirements for unit design, mix, etc. and/or additional allocation requirements greater than those provided in LAMC 16.61, in which case the greater covenant length, requirements for unit design, mix, etc. and allocation requirements shall be used.

Sec. 11. Paragraph (b) and (h) of Subdivision (2) of Subsection B. of Section 19.18 of Article 9 of Chapter 1 of the the LAMC is amended to read as follows:

(b) ... Such a covenant shall also subject projects using this exemption to the replacement policies in ~~Government Code Section 65915(e)(3)~~ LAMC Section 16.60, as that section may be amended from time to time, and...

(h) Any project located within the boundaries of the Central City West Specific Plan Area, as defined in Ordinance No. 163,094, if the Applicant agrees by covenant and agreement with the City or by development agreement to abide by the linkage fee and replacement housing obligations set forth in ~~the Specific Plan for the Central City West Area~~ LAMC Section 16.60.

Sec. 12. Article 19 of Chapter 4 of the the LAMC is amended to read as follows:

See LAMC Section 16.60 (Demolition of Housing Units) of Article 2 of Chapter 1 of this code.

~~SEC. 51.31. DEFINITIONS.~~

~~—The following words and phrases, whenever used in this article, shall be construed as defined in this section.~~

~~—“Complete application” refers to a complete application pursuant to Section 65943 of the California Government Code.~~

~~—“Housing development project” shall have the same meaning as defined in paragraph (3) of subdivision (b) of Section 65905.5 of the California Government Code; however, shall not include a housing development project located within a very high fire hazard severity zone.~~

~~—“Protected units” has the same meaning as set forth in California Government Code Section 66300(d)(2).~~

~~—“Very high fire severity zone” has the same meaning as provided in California Government Code Section 51177.~~

~~SEC. 51.32. APPLICABILITY.~~

~~—This article shall apply only to housing development projects that: (1) on or after January 1, 2022, but before January 1, 2030, submit a complete application to the Department of City Planning or a complete set of building plans for plan check and permit to the Department of Building and Safety, along with any associated submittal fee; or (2) on or after the effective date of this article, receive an approval of a complete application that was submitted to the Department of City Planning on or after January 1, 2020, but before January 1, 2022. This article does not apply to a housing development project that submitted a complete application to the Department of City Planning before January 1, 2020.~~

~~SEC. 51.33. REPLACEMENT OBLIGATIONS AND OCCUPANT PROTECTIONS REQUIRED FOR NEW HOUSING DEVELOPMENT PROJECTS.~~

~~—A. The City shall not approve or issue a building permit for a housing development project that will require the demolition of one or more residential dwelling units unless the project will create at least as many residential dwelling units as will be demolished.~~

~~—B.— The City shall not approve or issue a building permit for a housing development project that will require the demolition of occupied or vacant protected units, unless the housing development project meets all of the requirements of California Government Code Section 66300(d)(2).~~

~~SEC. 51.34. SEVERABILITY:~~

~~—If any provision of this article is found to be unconstitutional or otherwise invalid by any court of competent jurisdiction, that invalidity shall not affect the remaining provisions of this article which can be implemented without the invalid provisions, and to this end, the provisions of this article are declared to be severable. The City Council hereby declares that it would have adopted this article and each provision thereof irrespective of whether any one or more provisions are found invalid, unconstitutional or otherwise unenforceable.~~

~~SEC. 51.35. SUNSET PROVISION:~~

~~—A.— This article shall remain in effect only until January 1, 2034, and as of that date is repealed.~~

~~—B.— A housing development project that submits a preliminary application pursuant to Section 65941.1 of the California Government Code before January 1, 2030, remains subject to this article after January 1, 2030.~~

DRAFT

APPENDIX 1.C:
Housing Element Sites and Minimum Density Revisions

CPC-2023-7068-CA, CPC-2024-387-CA, CPC-2024-388-CA

For consideration by the City Planning Commission

September 26, 2024

ORDINANCE NO. _____

An ordinance adding Section 16.70 and 12.22.C.28 and amending Sections 12.09.1, 12.10, 12.10.5, 12.11, 12.11.5, 12.12, 12.12.2, 12.13, 12.13.5, 12.14, 12.16, 12.17, 12.17.1 of Chapter 1 of the Los Angeles Municipal Code (LAMC) for the purpose of establishing reasonable regulations regarding affordable housing development, codifying housing replacement requirements, establishing minimum density requirements and to comply with state housing law.

**THE PEOPLE OF THE CITY OF LOS ANGELES
DO ORDAIN AS FOLLOWS:**

Sec. 1. Section 16.70 of Chapter 1 of the the Los Angeles Municipal Code is added to read as follows:

SEC. 16.70. HOUSING ELEMENT SITES AND MINIMUM DENSITY ORDINANCE

- A. **Purpose.** This section is intended to create procedures to implement state housing element law related to sites identified by the most recent Housing Element of the General Plan and its associated rezoning program. These regulations shall apply to the Inventory of Housing Element Sites, Prior Housing Element Sites and Lower Income Rezoning Housing Element Sites and where so stated herein shall supersede the regulations applying on the sites pursuant to state law.
- B. **Definitions.** For purposes of this [Section Subdivision](#) the following words and phrases are defined as follows:

“Development Project” ~~A Development Project includes any project requiring a City Planning application or building permit to allow the construction, reconstruction or addition/alteration of the size of a structure.~~ has the same meaning as defined in Section 12.03 of Article 2 of Chapter 1 of the LAMC.

“Housing Development Project” ~~has the same meaning as defined paragraph (2) of subdivision (h) of Section 65589.5, except that it also includes projects that involve no discretionary approvals and projects that include a proposal to construct a single dwelling unit.~~ has the same meaning as defined in Section 12.03 of Article 2 of Chapter 1 of the LAMC.

“Housing Element Sites” means sites listed on the inventory of land suitable for residential development developed pursuant to paragraph (3) of subdivision (a) of California Government Code Section 65583 that exists in the most recently adopted Housing Element, including Appendices 4.1, 4.2, and 4.3 of the 2021-2029 Housing Element.

“Lower Income Households” has the same meaning as defined in Section 50079.5 of the Health and Safety Code.

“Lower Income Rezoning Housing Element Sites” means sites that were rezoned as part of a rezoning program to meet the Housing Element need for very low and low-income households allocated pursuant to Government Code Section 65584. The inventory of these sites shall be established by City Council Resolution, submitted to the state each year as part of the Housing Element Annual Progress Report and identified in a public mapping system including the Zoning Information Mapping and Access System (ZIMAS). ~~Sites shall comply with Government Code Section 65583.2(h)~~

“Ministerial Approval” means an administrative review process to approve a “use by right” as this term is defined in California Government Code Section 65583.2(i). ~~No City agency shall require a discretionary permit, but objective standards may be applied pursuant to subdivision (f) of Section 65589.5. The City shall not exercise any subjective judgment in deciding whether and how to carry out or approve the project. The ministerial review shall not apply to any subdivision procedures described in Article 7 of Chapter 1 of the LAMC or Division 13.B.7 in Chapter 1A of the LAMC, nor to Coastal Development Permits. The project will not be subject to review or approval that would constitute a “project” for purposes of Division 13 (commencing with Section 21000) of the Public Resources Code. The project shall not be subject to a public hearing or notice requirement, and there shall be no right of appeal.~~

“Prior Housing Element Sites” means Housing Element Sites identified as meeting the criteria for a prior housing element site in the most recently adopted Housing Element, including non vacant sites that were identified in the prior Housing Element and vacant sites that were identified in the prior two Housing Elements, including sites identified in Column O P of Appendix 4.1 of the current 2021-2029 Housing Element.

“Protected units” ~~means any of the following:~~ has the same meaning as defined in Section 12.03 of Article 2 of Chapter 1 of the LAMC.

- ~~1. Residential dwelling units that are or were subject to a recorded covenant, ordinance, or law that restricts rents to levels affordable to persons and families of lower or very low income within the past five years.~~
- ~~2. Residential dwelling units that are or were subject to the Rent Stabilization Ordinance pursuant to Chapter XV of the LAMC, or any other form of rent or price control through the City’s valid exercise of its police power within the past five years.~~

~~3. Residential dwelling units that are or were rented by lower or very low income households within the past five years.~~

~~4. Residential dwelling units that were withdrawn from rent or lease in accordance with Chapter 12.75 (commencing with Section 7060) of Division 7 of Title 1 within the past 10 years.~~

~~“Replace.” Replace shall have the same meaning as provided in subparagraphs (B) and (C) of paragraph (3) of subdivision (c) of Section 65915.~~

C. Requirements for Development Projects on Housing Element Sites.

Notwithstanding any law including any density limits, the City shall not approve a development project on a Housing Element Site that will require the demolition of occupied or vacant protected units, or that is located on a site where protected units were demolished in the previous five years, unless all of the following requirements are satisfied.

1. Replacement of Existing or Demolished Protected Units.

(a) **Housing Development Projects.** A Housing Development Project will replace all existing Protected Units and Protected Units demolished on or after January 1, 2020 pursuant to the replacement requirements of California Government Code Section 65915(c)(3) and Section 16.60 A.3(a) of this Code.

(b) **Non Housing Development Projects.** A Development Project that is not a Housing Development Project must satisfy the replacement requirements in California Government Code Section 65915(c)(3) and Section 16.60 A.4(a), except ~~that the provisions that the sunset date in Section 16.60 A.4(c) of January 1, 2030~~ shall not apply.

D. Maintenance of Adequate Housing Element Sites Throughout the Housing Element Period.

1. The Departments of City Planning and Building and Safety shall not, through any administrative, quasi-judicial, legislative or other actions, reduce the density of a Housing Element Site, or approve any development project on a Housing Element Sites parcel(s) with fewer units **in aggregate**, by income category, than shown as realistic capacity in the most recent list of Housing Element Sites for the remaining housing element planning period pursuant to California Government Code Section 65584, including from columns P, Q, R and S of Appendix 4.1 and Appendix 4.2, and columns E, F, G and H of Appendix 4.3 of the current 2021-2029 Housing Element, unless it either:

- (a) Makes a finding pursuant to Government Code Section 65863(b)(2) that, while the proposed project would result in fewer units by income category than those identified in the Housing Element Sites inventory prepared for the 2021-2029 Housing Element, the remaining sites identified in the Housing Element of the General Plan are adequate to meet the requirements of GC Section 65583.2 and to accommodate the jurisdiction's share of the regional housing need pursuant to GC Section 65584. A written finding with substantial evidence shall be included as part of approval of the project on the number of sites by income category and their adequacy to meet the requirements.
- (b) If a finding can not be made, the Department of City Planning shall, within 180 days, identify and make available additional adequate sites through a rezoning to accommodate the jurisdiction's share of the regional housing need by income level.
2. A housing development project may not be denied on the basis that approval of the housing project would require compliance with this Subsection.

E. Approval Requirements for Housing Element Sites

1. Ministerial Approval for Prior Housing Element Sites

If a Housing Development Project is proposed on a Prior Housing Element Site and at least twenty percent of the project's units will be made affordable and available to Lower Income Households, the project shall be subject to Ministerial Approval pursuant to California Government Code section 65583.2(i). If an eligible project would have otherwise required a ~~discretionary~~ entitlement from the Department of City Planning it shall be processed through an [Expanded Administrative Review process, as set forth by the provisions of Sec. 13B.3.2. of Chapter 1A of this Code.](#)

2. Ministerial Approval for Lower Income Rezoning Housing Element Sites.

If a Housing Development Project is proposed on a Lower Income Rezoning Housing Element Site, and at least twenty percent of the project's units will be made affordable and available to Lower Income Households, the project shall be subject to Ministerial Approval pursuant to California Government Code section 65583.2(i). If an eligible project would have otherwise required a [discretionary](#) entitlement from the Department of City Planning it shall be processed through an Expanded Administrative Review process, as set forth by the provisions of Sec. 13B.3.2. of Chapter 1A of this Code.

3. Densities for Lower Income Rezoning Sites.

If a Housing Development Project is proposed on a Lower Income Rezoning Housing Element-Site, it shall not be approved unless it meets a minimum density requirement of 20 units per acre, inclusive of Accessory Dwelling Units.

Section 2. A new Subdivision 5 of Subsection B of Section 12.09.1 of Chapter 1 of the Los Angeles Municipal Code shall be added as follows:

5. Minimum Density. In the RD1.5 and RD2 zones located within a High or Medium High Residential Market Area pursuant to the Affordable Housing Linkage Fee established by LAMC 19.18 C, a minimum density of one Dwelling Unit or Guest Room for every 2,000 square feet of lot area, inclusive of Accessory Dwelling Units, is required for every **Housing Development Project residential development project** on lots, prior to any subdivision, meeting the minimum width on lots, prior to any subdivision, meeting the minimum width and lot area requirements for the zone, except when the requirements of Section 12.22.C.28 are met. The minimum density calculation shall be rounded up to ensure the standard is met. If the minimum lot area per dwelling or guest room for the zone does not allow for the construction of the required minimum density, the minimum density shall not apply.

Section 3. A new Subdivision 5 of Subsection C of Section 12.10 of Chapter 1 of the LAMC shall be added as follows:

5. Minimum Density. A minimum density of one Dwelling Unit, inclusive of Accessory Dwelling Units, or Guest Room for every 2,000 square feet of lot area is required for every **Housing Development Project residential development project** on lots, prior to any subdivision, meeting the minimum width and lot area requirements for the zone, except when the requirements of Section 12.22.C.28 are met. The minimum density calculation shall be rounded up to ensure the standard is met. If the minimum lot area per dwelling or guest room for the zone does not allow for the construction of the required minimum density, the minimum density shall not apply.

Section 4. A new Subdivision 6 of Subsection C of Section 12.10.5 of Chapter 1 of the Los Angeles Municipal Code shall be added as follows:

6. Minimum Density. A minimum density of one Dwelling Unit, inclusive of Accessory Dwelling Units, or Guest Room for every 2,000 square feet of lot area, inclusive of Accessory Dwelling Units, is required for every **Housing Development Project residential development project** development project on lots, prior to any subdivision, meeting the minimum width and lot area requirements for the zone, except when the requirements of Section 12.22.C.28 are met. The minimum density calculation shall be rounded up to ensure the standard is met. If the minimum lot area per dwelling or guest room for the zone does not allow for the construction of the required minimum density, the minimum density shall not apply.

Section 5. A new Subdivision 6 of Subsection C of Section 12.11 of Chapter 1 of the Los Angeles Municipal Code shall be added as follows:

6. Minimum Density. A minimum density of one Dwelling Unit, inclusive of Accessory Dwelling Units, or Guest Room for every 2,000 square feet of lot area, inclusive of Accessory Dwelling Units, is required for every ~~residential development project~~ **Housing Development Project** residential development project on lots, prior to any subdivision, meeting the minimum width and lot area requirements for the zone, except when the requirements of Section 12.22.C.28 are met. The minimum density calculation shall be rounded up to ensure the standard is met. If the minimum lot area per dwelling or guest room for the zone does not allow for the construction of the required minimum density, the minimum density shall not apply.

Section 6. A new Subdivision 6 of Subsection C of Section 12.11.5 of Chapter 1 of the Los Angeles Municipal Code shall be added as follows:

6. Minimum Density. A minimum density of one Dwelling Unit, inclusive of Accessory Dwelling Units, or Guest Room for every 2,000 square feet of lot area, inclusive of Accessory Dwelling Units, is required for every ~~residential development project~~ **Housing Development Project** on lots, prior to any subdivision, meeting the minimum width and lot area requirements for the zone, except when the requirements of Section 12.22.C.28 are met. The minimum density calculation shall be rounded up to ensure the standard is met. If the minimum lot area per dwelling or guest room for the zone does not allow for the construction of the required minimum density, the minimum density shall not apply.

Section 7. A new Subdivision 6 of Subsection C of Section 12.12 of Chapter 1 of the Los Angeles Municipal Code shall be added as follows:

6. Minimum Density. A minimum density of one Dwelling Unit, inclusive of Accessory Dwelling Units, or Guest Room for every 2,000 square feet of lot area, inclusive of Accessory Dwelling Units, is required for every ~~residential development project~~ **Housing Development Project** on lots, prior to any subdivision, meeting the minimum width and lot area requirements for the zone, except when the requirements of Section 12.22.C.28 are met. The minimum density calculation shall be rounded up to ensure the standard is met. If the minimum lot area per dwelling or guest room for the zone does not allow for the construction of the required minimum density, the minimum density shall not apply.

Section 8. A new Subdivision 6 of Subsection C of Section 12.12.2 of Chapter 1 of the Los Angeles Municipal Code shall be added as follows:

6. Minimum Density. A minimum density of one Dwelling Unit, inclusive of Accessory Dwelling Units, or Guest Room for every 2,000 square feet of lot area, inclusive of Accessory Dwelling Units, is required for ~~residential development project~~ **Housing Development Project** on lots, prior to any subdivision, meeting the minimum width and lot area requirements for the zone, except when the requirements of Section 12.22.C.28 are met. The minimum density calculation shall be rounded up to ensure the standard is met. If the minimum lot area per dwelling or guest room

for the zone does not allow for the construction of the required minimum density, the minimum density shall not apply.

Section 9. A new Subdivision 6 of Subsection C of Section 12.13 of Chapter 1 of the Los Angeles Municipal Code shall be added as follows:

6. Minimum Density. A minimum density of one Dwelling Unit, inclusive of Accessory Dwelling Units, or Guest Room for every 2,000 square feet of lot area, inclusive of Accessory Dwelling Units, is required for [Housing Development Project residential development project](#) on lots, prior to any subdivision, meeting the minimum width and lot area requirements for the zone, except when the requirements of Section 12.22.C.28 are met. The minimum density calculation shall be rounded up to ensure the standard is met. If the minimum lot area per dwelling or guest room for the zone does not allow for the construction of the required minimum density, the minimum density shall not apply.

Section 10. A new Subdivision 5 of Subsection B of Section 12.13.5 of Chapter 1 of the Los Angeles Municipal Code shall be added as follows:

5. Minimum Density. A minimum density of one Dwelling Unit, inclusive of Accessory Dwelling Units, or Guest Room for every 2,000 square feet of lot area, inclusive of Accessory Dwelling Units, is required for [Housing Development Project residential development project](#) on lots, prior to any subdivision, meeting the minimum width and lot area requirements for the zone, except when the requirements of Section 12.22.C.28 are met. The minimum density calculation shall be rounded up to ensure the standard is met. If the minimum lot area per dwelling or guest room for the zone does not allow for the construction of the required minimum density, the minimum density shall not apply.

Section 11. A new Subdivision 5 of Subsection C of Section 12.14 of Chapter 1 of the Los Angeles Municipal Code as follows:

5. Minimum Density. A minimum density of one Dwelling Unit, inclusive of Accessory Dwelling Units, or Guest Room for every 2,000 square feet of lot area, inclusive of Accessory Dwelling Units, is required for [Housing Development Project residential development project](#) on lots, prior to any subdivision, meeting the minimum width and lot area requirements for the zone, except when the requirements of Section 12.22.C.28 are met. The minimum density calculation shall be rounded up to ensure the standard is met. If the minimum lot area per dwelling or guest room for the zone does not allow for the construction of the required minimum density, the minimum density shall not apply.

Section 12. A new Subdivision 5 of Subsection C of Section 12.16 of Chapter 1 of the Los Angeles Municipal Code shall be added as follows:

5. Minimum Density. A minimum density of one Dwelling Unit, inclusive of Accessory Dwelling Units, or Guest Room for every 2,000 square feet of lot area, inclusive of Accessory Dwelling

Units, is required for [Housing Development Project residential development project](#) on lots, prior to any subdivision, meeting the minimum width and lot area requirements for the zone, with the exception of lots meeting the requirements of Section 12.22 C.28 of this code. The minimum density calculation shall be rounded up to ensure the standard is met. If the minimum lot area per dwelling or guest room for the zone does not allow for the construction of the required minimum density, the minimum density shall not apply.

Section 13. A new Subdivision 4 of Subsection C of Section 12.17 of Chapter 1 of the Los Angeles Municipal Code shall be added as follows:

4. Minimum Density. A minimum density of one Dwelling Unit, inclusive of Accessory Dwelling Units, or Guest Room for every 2,000 square feet of lot area, inclusive of Accessory Dwelling Units, is required for [Housing Development Project residential development project](#) on lots, prior to any subdivision, meeting the minimum width and lot area requirements for the zone, with the exception of lots meeting the requirements of Section 12.22 C.28 of this code. The minimum density calculation shall be rounded up to ensure the standard is met. If the minimum lot area per dwelling or guest room for the zone does not allow for the construction of the required minimum density, the minimum density shall not apply.

Section 13. A new Subdivision 4 of Subsection C of Section 12.17.1 of Chapter 1 of the Los Angeles Municipal Code shall be added as follows:

4. Minimum Density. A minimum density of one Dwelling Unit, inclusive of Accessory Dwelling Units, or Guest Room for every 2,000 square feet of lot area, inclusive of Accessory Dwelling Units, is required for [Housing Development Project residential development project](#) on lots, prior to any subdivision, meeting the minimum width and lot area requirements for the zone, with the exception of lots meeting the requirements of Section 12.22 C.28 of this code. The minimum density calculation shall be rounded up to ensure the standard is met. If the minimum lot area per dwelling or guest room for the zone does not allow for the construction of the required minimum density, the minimum density shall not apply.

Section 14. Add Subdivision 28 to Subsection C of Section 12.22 of Chapter 1 of the the Los Angeles Municipal Code is added to read as follows:

28. Minimum Density in the RD2, RD1.5, R3, RAS3, R4, RAS4, R5, C1, C1.5, C2, C4, C5 and CM Zones. In the RD2, RD1.5, R3, RAS3, R4, RAS4, R5, C1, C1.5, C2, C4, C5 and CM Zones, the minimum density requirements shall not apply to the following types of development projects [unless they are designated Lower Income Rezoning Housing Element Sites pursuant to LAMC 16.70 E3](#):

- a) Additions, remodeling or rehabilitations that do not result in more than 1,500 square feet in net new Floor Area [and that do not result in the demolition of an existing dwelling unit\(s\)](#).
- b) The only new dwelling unit(s) being added to the parcel is an Accessory Dwelling Unit(s).

- c) Existing dwelling units or guest rooms **that** have been damaged by a disaster or are deemed unsafe by LADBS and are being reconstructed with no increase to the amount Floor Area in the prior building or buildings.
- d) The development is located on an environmentally sensitive area specified in subparagraphs-(B) to (K) of Government Code Section 65913.4(a)(6), including a Very High Fire Hazard Severity Zone, regardless of any mitigations.
- e) ~~On Hillside Area~~ Lots where at least 60% of the Lot is composed of Slopes which are 30% or greater, as determined by a Slope Analysis Map prepared in accordance with LAMC ~~12.21 C.1(b)(1)~~ 12.21 C.10(b)(1).
- f) Lots that are designated as parks or open space in any plan or zoning designation.
- g) Lots that contain a Designated Historic Resource.
- h) Lots that can not achieve the minimum density requirement due to any **objective** provision ~~provision of the Los Angeles Municipal Code, as determined by Los Angeles Department of Building and Safety~~ that physically precludes the construction of a development per the Los Angeles Municipal Code or due to any provision of Specific Plans, or Q, T, D Conditions, or a Community Plan Implementation Overlay.

APPENDIX 2:
Listen and Share Phase Outreach Summaries

For consideration by the City Planning Commission

September 26, 2024

Housing Element Rezoning Program: Citywide Housing Incentive Program 2023 Outreach Summary

Introduction

Following the certification of the [2021-2029 Housing Element Update](#) in 2022, City Planning staff began to develop policy strategies focused on addressing the significant need for affordable housing in Los Angeles. The [Housing Element Rezoning Program](#), encompassing **Community Plan Updates** and the **Citywide Housing Incentive Program (CHIP)**, seeks to address this need and fulfill the City's state housing obligations. While Community Plan Updates revise underlying zoning regulations, the CHIP aims to increase affordable housing production through incentive-based tools, particularly in areas with access to jobs, infrastructure, and neighborhood amenities. Furthermore, the CHIP aims for an equitable distribution of new affordable housing development while also minimizing displacement.

City Staff at Central Avenue Jazz Festival (9/2023)

In March 2023, City Planning launched CHIP's [six core strategies](#) commencing the Listen Phase of outreach. In this phase, City Planning staff engaged with Angelenos across the City so that feedback on the CHIP concepts could be incorporated into the development of the Citywide Housing Incentive Program Ordinance ([CHIP Ordinance](#)). In particular, staff engaged with interested parties through the Concept Explorer Survey available online; live webinars; virtual office hours; partnerships with neighborhood groups and organizations; and community events. This report provides a summary of the outreach and community engagement conducted with Angelenos during the Listen Phase of the CHIP outreach.

Outreach and Engagement

Below is a summary of outreach activities conducted by City Planning in preparation for the development and release of the CHIP Ordinance.

Bilingual Kick-Off Webinars

To launch the CHIP and its associated core concepts, the City hosted interactive webinar events on the 28th, 29th,

City Staff at P-22 Day (10/2023)

and 30th of March 2023, including one designed for monolingual Spanish speakers. The webinars were live-casted on the Department’s Facebook page for those not able to attend via the webinar platform. During the webinars, City Planning Staff provided background on the housing crisis in Los Angeles and introduced the six core concepts and implementation strategies that comprise the CHIP. Additionally, Mentimeter, an interactive presentation-based digital tool, was utilized to obtain feedback and responses during the presentation.

Community Events

The City participated in various community events to interact with diverse communities across Los Angeles to raise awareness about the CHIP Strategies. Community events included CicLAvia, LA River Fest, Central Ave Jazz Fest, and the Sherman Oaks Street Fair. City Planning staff participation at these events focused on informing Angelenos about the strategies and also soliciting feedback. By actively engaging various neighborhoods and groups, the City aimed to develop strategies that resonated with and addressed the needs of its diverse population. Through attendance at the events listed in Appendix 1.2, City staff estimates it was able to reach just over 1,000 Angelenos.

Meetings with Interested Parties

City Staff at 626 Golden Streets Arroyo Fest (10/2023)

The City fostered collaboration with interested parties and community groups to inform Angelenos about the CHIP Strategies and gather valuable input. This effort involved City Staff providing visual and verbal presentations on the City’s housing obligations under State law as well as the details of the proposed CHIP core strategies. Simultaneously, City Planning provided a platform for stakeholders and community representatives to contribute their insights and perspectives on the CHIP strategies themselves. Listed in Appendix 1.3 are the key groups and organizations City Planning Staff engaged with during this phase. Throughout this phase of outreach, staff also fielded inquiries from constituents through email and scheduled calls with members of the public as needed to answer questions and discuss concerns about the Housing Element Rezoning Program.

Community Based Organization (CBO) Partnerships

In an effort to work with groups that have historically not been actively included in the planning process, City Planning made an intentional effort to engage with CBOs. On October 19, 2023, the City presented a session on CHIP strategies for The People’s Planning School at Strategic Actions for a Just Economy (SAJE). The session began with an introductory presentation and was followed by breakout groups

City Staff with SAJE (10/23)

participating in activities that focused on key CHIP concepts including affirmatively furthering fair housing, transit-oriented development, and adaptive reuse. The session had 20 attendees, most of whom were monolingual Spanish speakers from South LA.

On November 2, 2023, the City presented a session on the CHIP strategies for The People's Collaborative Academy at Pacoima Beautiful. The class began with an hour-long overview of the history and context of Los Angeles' housing crisis before delving into the details of CHIP strategies. The presentation concluded with a small-group activity in which participants placed different types of housing (single-family, affordable housing, missing middle housing, etc.) where they thought it was needed across the San Fernando Valley. The session had 14 attendees, a mix of English and Spanish speakers from Pacoima and Arleta.

Office Hours

From the 10th to the 31st of July 2023, the City held over 50 virtual Office Hours to offer the public an opportunity to provide feedback on the CHIP in small group conversations with City Planning staff. The conversations centered around specific questions about how CHIP would impact their neighborhoods. The most supported strategies from attendees were Adaptive Reuse, Missing Middle, and Opportunity Corridors. Participants advocated for growth around corridors, transit, and jobs; transitions off-corridors; and more moderate and for-sale housing opportunities. They also expressed concerns about the program's potential impacts on the neighborhood character of single-family and sensitive multi-family residential areas.

City Staff at CicLAvia
Pico Union (04/23)

What We Heard - Summary of Input and Themes

During the Listen Phase, City Planning solicited feedback on the CHIP concepts to incorporate into the development of the CHIP Ordinance. Below is a summary of what City Planning has heard thus far throughout the initial Listen Phase for the CHIP. Within the comments and feedback, the following common topics emerged.

- **Increase Production of Affordable Housing**
- **Facilitate Construction of Affordable Housing Near Infrastructure and Amenities**
- **Protect Renters and Those Vulnerable to Displacement**
- **Support Inclusive Communities**
- **Uplift Livable and Sustainable Communities**

In Appendix 1.1, comments are grouped by the themes expressed by outreach participants. Some of the comments touch on multiple themes and are included more than once. This valuable input has and will continue to help to guide the development of the CHIP Ordinance.

Increase Production of Affordable Housing

Angelenos have consistently expressed the need to prioritize the streamlining of housing, especially affordable housing. Additionally, Angelenos made clear the need to prioritize new affordable housing units for low-income tenants. This need is being addressed, in part, through the adoption of the Affordable Housing Streamlining Ordinance (Council File [CF 23-0623](#)) into the Los Angeles Municipal Code (LAMC), which would codify the streamlining provisions first introduced by [Executive Directive 1 \(ED 1\)](#) for one hundred percent affordable housing projects. Throughout its adoption process, however, demands have been expressed to expand streamlining provisions to single-family zones and remove added limitations on incentives. In addition to streamlining measures such as the proposed Affordable Housing Streamlining Ordinance, suggestions were made by Angelenos to enable development opportunities for a diverse range of housing options, including Accessory Dwelling Units (ADUs), missing middle housing typologies, and mixed-use development.

Facilitate Construction of Affordable Housing Near Infrastructure and Amenities

Outreach thus far revealed Angelenos' support for encouraging housing along existing, major commercial corridors. The consensus supports increasing density in underutilized zones, especially emphasizing the potential for growth along commercial areas. This strategy aligns with calls for mixed-use developments to provide easy access to amenities and employment opportunities. If development were to occur beyond the dense corridor, residents emphasized the need for a comfortable transition down to low-scale development.

Protect Renters and Those Vulnerable to Displacement

Angelenos expressed support for preserving affordable housing and preventing displacement. They encouraged the City to prioritize the rental of affordable units to low-income tenants and to provide safeguards to protect existing affordable housing stock. Furthermore, they emphasized the need to expand tenant protection strategies to minimize displacement and to allow current residents to continue residing in higher opportunity areas. Many attendees frequently suggested ensuring one-to-one replacement as well as increasing covenanted affordable and Rent Stabilization Ordinance (RSO) units, and expanding the Housing Choice Voucher Program. Additionally, there were concerns about ensuring vulnerable residents had access to affordable housing units constructed as a result of any program proposed as part of the CHIP.

Support Inclusive Communities

Outreach participants expressed a desire to strengthen inclusive, vibrant, and walkable communities with access to important neighborhood amenities. They continued to recommend providing diverse housing options near corridors and transit that would be accessible to all.

Moreover, some attendees supported the idea of undoing current down-zoning practices to enable the construction of multi-family housing in higher opportunity areas.

Uplift Livable and Sustainable Neighborhoods

Angelenos supported increased housing opportunities in high opportunity areas around the City and near transit to promote walkable neighborhoods near essential amenities. However, members of the public strongly expressed the need to balance density to preserve neighborhood character and mitigate issues such as overcrowding, traffic, and lack of on-street parking as a result of parking requirement reductions. Participants in a [poll](#), released in October 2023, on whether the CHIP Ordinance should apply to single-family zones expressed that they would prefer not to see additional capacity added to single-family zones and instead see more capacity added to major corridors. Furthermore, Angelenos suggested ensuring that the design and scale of developments fit the existing neighborhood character should additional capacity for housing units be added to lower density neighborhoods. Additionally, participants expressed their support for preserving open space requirements in proposed multi-family developments.

Concept Explorer Survey

The interactive Concept Explorer and Survey helped City Planning gather feedback from Angelenos on the CHIP strategies. The Survey was shared online and through community events. After closing the Concept Explorer Survey in November 2023, City Planning was able to gather data from over 1,000 respondents. It is important to acknowledge that some survey questions have fewer responses due to participants not completing the full survey. In the survey responses, Angelenos shared that they believe the most pressing issue facing Los Angeles is housing affordability (Chart 1.1). The majority of survey respondents identified as homeowners, and of the respondents who are renters, nearly 70% reported that they are rent burdened. Survey respondents reside across the city, representing just over 80 different zip codes.

Below are highlights gathered from the feedback associated with the survey on each specific CHIP core strategy.

Adaptive Reuse

Nearly 85% of respondents expressed support for the Citywide Adaptive Reuse Ordinance, which allows converting underutilized or vacant buildings into housing.

Update to Affordable Housing Incentive Programs

When seeking feedback regarding updating Transit Oriented Communities (TOC) and Density Bonus Programs, City Planning Staff encountered a range of responses. Numerous participants recommended expanding the program by incentivizing deeper affordability, increasing the number of affordable units, and allowing greater density and height. Additionally, there was a call to include multi-family housing options in single-family zones. Conversely, a separate set of respondents suggested excluding

single-family zones and concentrating the programs on commercial corridors with a gradual transition between building scales.

Opportunity Corridors

Over 80% of respondents favor focusing on new housing in higher opportunity areas. Half of the respondents were in favor of new housing in higher opportunity areas but emphasized avoiding environmentally sensitive areas. A total of 28% preferred expanding housing opportunities in areas where multi-family and commercial uses are already allowed (Chart 1.2).

Affordable Housing Overlay

Respondents believed expedited approvals were the most important incentive for one hundred percent affordable housing projects followed by more units, and reduced or eliminated parking requirements. (Chart 1.3).

Missing Middle:

Over 70% of survey respondents were in favor of allowing low-scale, missing middle housing options in existing residential neighborhoods. Specifically, bungalow court and townhome typologies received the most support.

Process Streamlining:

The majority of respondents supported process streamlining in exchange for more community benefits.

Next Steps

Based on feedback received during the Listen Phase of outreach as well as state regulatory requirements, staff have prepared and released a draft of the CHIP Ordinance. Outreach will continue through the adoption process and members of the public are encouraged to review the draft and provide written comments to housingelement@lacity.org. More information on the CHIP Ordinance and the next phase of outreach can be found [here](#).

Appendix

1.1 Public Comment

Increase Production of Affordable Housing

- Streamline housing processes, increase transparency, and involve neighborhoods in decision-making.
- Streamline housing, especially affordable.
- Increase and diversify multi-family housing on commercial corridors.
- Develop different types of partnerships to build housing.
- Facilitate utilization of Senate Bill 9 and state ADU law to create more housing units in lower density neighborhoods.
- Prioritize the development and protection of affordable units.
- Protect and expand upon existing affordable and missing middle housing.

Facilitate Construction of Affordable Housing Near Infrastructure and Amenities

- Increase housing in underutilized zones.
- More housing should be added to commercial corridors as part of mixed-use developments with access to grocery stores, shops, amenities, and jobs within the development.
- Explore upzoning of R2 for smaller scale, transitional zoning adjacent to R1.
- Build dense development near corridors, and underutilized publicly owned land to prevent housing that does not fit the context of the neighborhood it is proposed in.
- Manage increased density by building near transit to prevent overparking, overcrowding, and traffic problems.

Protect Renters and Those Vulnerable to Displacement

- Prioritize deep affordability and ensure access for low-income residents to diverse housing options while reducing costs and restrictions for development.
- Expand on anti-displacement measures.
- Ensure the program incorporates anti-displacement strategies.
- Replace RSO units after removal and possibly increase units.
- Protect older affordable housing.
- Ensure affordable units are utilized by low-income tenants.
- Ensure one-to-one affordable housing replacement.
- Ensure current residents can stay in high opportunity zones.
- Prioritize safety and accessibility to housing for vulnerable populations.

Support Inclusive Communities

- Retain a walkable and community scale for new development.
- Build dense development near corridors, and underutilized publicly owned land to prevent housing that does not fit the context of the neighborhood it is proposed in.
- Consider mixed-use zoning, design standards, and building heights in alignment with community character.
- Concerns about increased density making more housing unaffordable.
- Increase opportunities for multi-family housing in High Resource Areas.

Uplift Livable and Sustainable Neighborhoods

- Focus on upzoning and mixed-use zoning for walkable living options.
- Cautious planning in areas adjacent to R1 through smaller scale development.
- Manage increased density by building near transit to prevent overparking, overcrowding, and traffic problems.
- Concerns about density overcrowding infrastructure (schools, streets, schools, parking).
- Concerns about large developments in single-family neighborhoods.
- Prioritize environmentally conscious development near key services that all incomes have access to.
- Ensure ample open space in projects and preserve existing tree canopy.

1.2 Community events attended by City Planning Staff

Event Name	Date
CicLAvia Pico Union	4/16/23
CicLAvia Watts	5/21/23
LA River Fest	7/23/23
Central Avenue Jazz Festival	9/23/23

Housing Element Rezoning Program: Citywide Housing Incentive Program 2024 Share Phase Outreach Summary

Introduction

In March 2024, City Planning released several draft ordinances supporting the [Housing Element Rezoning Program](#) to commence the Share Phase of the adoption process. The proposed ordinances were informed by conversations with Angelenos throughout the Listen Phase of outreach. To learn more about the public engagement conducted during the Listen Phase, click [here](#) for the Listen Phase Outreach Summary. The ordinances include the Citywide Housing Incentive Program (CHIP) Ordinance, the Resident Protections Ordinance (RPO), the Housing Element Sites and Minimum Density Ordinance (HESMDO), and the Citywide Adaptive Reuse Ordinance (ARO). To learn more about the draft ordinances, visit our [webpage](#).

City Staff at Korean Immigrant Workers Alliance (KIWA) (5/2024)

In the Share Phase, City Planning released the draft ordinances and continued to receive feedback from Angelenos across the City. Specifically, staff engaged with interested parties by hosting live webinars, attending community events, distributing specialized LACP merchandise, launching a digital marketing campaign, and furthering partnerships with neighborhood groups and organizations. Additionally, City Planning met with local Community Based Organizations (CBOs) to amplify the voices of and gather feedback from those traditionally underrepresented in the planning process. This report provides a summary of the outreach and community engagement conducted with Angelenos during this Share Phase.

Outreach and Engagement

Below is a summary of outreach activities conducted by City Planning to raise awareness of the three draft ordinances supporting the Housing Element Rezoning Program.

Part 1 video of a four part partnership between LACP and LA in a Minute (Posted on 3/18/24)

Bilingual Webinars

After releasing the draft CHIP, Resident Protections, and Housing Element Sites and Minimum Density Ordinances, the City hosted interactive webinar events on the 2nd, 3rd, and 9th of April 2024 with just over 180 attendees. City Planning hosted one webinar designed for monolingual Spanish speakers and one webinar including live Korean translation. The webinars were conducted live on Zoom and the recordings were posted on the Department's [website](#) with the corresponding presentation slides for those unable to attend.

City Staff at Esperanza Community Housing Corporation (4/2024)

During the webinars, City Planning staff gave three presentations for each of the three draft ordinances. In the CHIP Ordinance presentation, City Staff provided background on the Housing Element Rezoning Program, a summary of the Listen Phase, and an overview of the CHIP programs. During the Resident Protections and Housing Element Sites and Minimum Density Ordinance presentations, attendees were provided with background information and an overview of the ordinances. A live Q&A session followed each presentation.

Community-Based Organization (CBO) Partnerships

In Fall 2023, City Planning used [Regional Early Action Planning \(REAP\) Grant](#) funds from the Southern California Association of Governments to partner with CBOs for outreach efforts. The funding enabled City Planning to directly reimburse partners for providing translation services,

City Staff at Esperanza Community Housing Corporation (4/2024)

transportation, childcare, and meals at outreach events where City Staff and CBO partners led attendees in interactive feedback sessions on the concepts associated with the CHIP. Due to the program's success, the City continued working with selected CBOs following the release of the draft Rezoning Program ordinances in Spring 2024.

Public engagement through CBO partnerships in Spring 2024 was geared towards gathering input on details of the draft ordinances. City Planning partnered with CBOs that advocate for communities historically underrepresented

in the planning process. A list of CBOs we partnered with to coordinate events and associated event descriptions can be found in Appendix 1.1. At each event, attendees received a tote bag filled with specialized LACP merchandise including bandanas, postcards, magnets, water

bottles, and fact sheets. Across the five organizations the City met with, over 340 Angelenos were engaged through these collaborative CBO events. The American Planning Association Los Angeles Chapter recognized City Planning with an award of excellence in Public Outreach for this initiative.

Meetings with Interested Parties

City Planning met with interested parties, including Neighborhood Councils and professional associations, upon request to answer questions on the ordinance through visual and verbal presentations followed by focused Q+A feedback sessions. Appendix 1.2 lists key groups and organizations that the City met with to present the ordinance and discuss feedback.

City Staff at AHLA Eastside membership meeting (4/2024)

Community Events

City Planning additionally conducted outreach at CicLAvia Melrose and CicLAvia Venice during this period, offering resources on the ordinance, answering questions, and engaging an approximate total of 300 Angelenos. For each event, specialized LACP merchandise was distributed to participating members. The list of community events we attended during the Share Phase can be found in Appendix 1.3.

Merchandise Bags Offered at Community Events

Digital Marketing Campaign

To get the word out on the draft CHIP Ordinance, City Planning launched a comprehensive digital outreach campaign including social media partnerships, boosted advertisements, and targeted social media posts. In particular, in a first for City Planning engagement, the Department partnered with a social media account, LA in a Minute, to make four videos breaking down the key concepts of the CHIP ordinance. LA in a Minute focuses on providing short and informative videos ranging from the history of Los Angeles to current events and notable places within the City. This partnership aimed to reach an audience that might otherwise be missed through traditional outreach channels, such as subscriber newsletters and neighborhood council meetings. As of this report's release, four videos have received just over 166k views. See Appendix 1.4 for a description and watchable link for each video. Moreover, the City released its *Let's Talk About the Citywide Housing Incentive Program* series. This series informed Angelenos on the CHIP strategies through informational slideshows. The slideshows were published in English and Spanish on the Department's social media accounts and can be viewed in Appendix 1.5. As of this report's release, three posts from the *Let's Talk About the*

Citywide Housing Incentive Program series have garnered over 330 interactions. Overall, by extending the Department's online reach, City Planning welcomed greater engagement and encouraged feedback from groups that have not previously participated in traditional outreach activities.

What We Heard - Summary of Input and Themes

Below is a summary of what City Planning has heard thus far throughout the initial Share Phase for the CHIP, RPO and HESMDO. This summary was compiled based on feedback gathered from the previously described outreach activities as well as from just over 200 comments gathered via email and an open Google form on the City Planning website's Concept Explorer. Throughout this phase of outreach, staff also fielded inquiries from constituents through email and scheduled calls with members of the public as needed to answer questions and discuss concerns about the ordinances. Within the comments and feedback, the following common themes emerged.

- **Advance Equity in Housing**
- **Protect Vulnerable Populations and Neighborhoods**
- **Expand Affordability**
- **Environmental Considerations**
- **Location and Typology of Development**
- **Technical Revisions**
- **Enhance Design**

In Appendix 1.6, comments are grouped by the themes expressed by outreach participants. Some of the comments touch on multiple themes and are included more than once. This valuable input has and will continue to help to guide the draft of the Rezoning Program Ordinances.

Advance Equity in Housing

Throughout the Share Phase, City Planning received feedback that Angelenos wanted to ensure the CHIP would advance equity in housing, advocating for maximizing affordable housing in higher opportunity areas with access to jobs, transit, and quality amenities. Additionally, comments suggested offering rent-to-own opportunities to facilitate equity and economic mobility. To further advance equity in housing, Angelenos supported prioritizing Affirmatively Furthering Fair Housing (AFFH) objectives and undoing patterns of segregation. Comments called for expanding the eligibility of CHIP incentives in Higher Resource Areas, including in single family zones and Historic Areas, to create equitable citywide access to covenanted affordable housing.

Protect Vulnerable Populations and Neighborhoods

Feedback raised concern that development could lead to increased rents and the displacement of low-income residents and other vulnerable populations. To combat this, comments suggested strengthening the Resident Protections Ordinance by requiring increased affordability, raising replacement requirements for Rent Stabilized units, strengthening a tenant's right to return, and giving displaced tenants choice when finding replacement housing. Participants emphasized the need to further engage with neighborhoods to discuss their unique input to ensure the Rezoning Program is effective and achieves its intended goals. Through increased engagement in this phase, the City heard specific suggestions that could aid seniors and individuals experiencing displacement pressures through the creation of specific incentives, design standards, or public benefit options that protect these populations. Additionally, comments were raised about the need to require community input during the development review process to ensure a project meets the community's needs. The City also heard concerns regarding access to Affordable Units in mixed-income projects, and application processes for Affordable Units. Feedback focused on the need for stronger marketing and outreach for these units, including working with CBOs and providing multilingual resources. Overall, Angelenos believe that increased outreach and public engagement can lead to desirable outcomes that actively reflect the needs of the community.

Expand Affordability

City Planning heard a range of comments regarding the level of affordability for new housing developments. Angelenos advocated for increased affordability requirements for housing developments and deeper affordability levels in new affordable housing stock by including Acutely Low Income (ALI) as an income category when applying affordability and replacement requirements. Some feedback also recommended defaulting to Extremely Low Income (ELI) in certain replacement requirement scenarios. There was interest in expanding the City's affordable housing stock by counting replacement units in addition to affordable set aside requirements. There was also an interest in increasing middle income affordability for Moderate Income and Above Moderate Income Households. In particular, many advocated to further increase affordability requirements in areas experiencing gentrification and displacement pressures. While there was strong support for 99-year affordability covenants and even some interest in extending this affordability term longer, some concern was also expressed regarding the potential impact of longer covenant terms on the financial feasibility of new housing developments. Many also expressed a desire to see more mixed affordability in projects compared to seeing a single affordability category. However, some outreach participants believed the overall increase in housing, such as market-rate housing, should be prioritized over affordable housing. These participants believe that increasing the overall supply of housing will bring down rent prices as opposed to increasing affordable housing which is challenging to build. Lastly, some individuals were concerned that current market conditions, such as rising interest rates and building costs, would hinder the overall development of restricted affordable housing.

Environmental Considerations

As the CHIP aims to increase affordable housing development and streamline development, many Angelenos and CBOs stressed that new development prioritizes health, safety, and environmental justice. This includes both protecting current environmental assets, especially open space in underserved communities, and preventing development from occurring on irremediable contaminated sites that pose hazards to human health. Groups like Esperanza Community Housing and Communities for a Community Better Environment (CBE) advocated for increased outreach with community members as they are most knowledgeable in identifying sites with previously hazardous use. These groups, like many other Angelenos, advocated to require public participation in the identification of environmentally hazardous sites. Additionally, these groups, alongside many other Angelenos, suggested excluding projects that are within a certain distance of an oil well from eligibility in the incentive programs, and ensuring the soil is tested for contamination and remediation for potential sites. Overall, comments received expressed the need to balance streamlining and strong environmental protections.

Location and Typology of Development

Angelenos generally supported the increased development of affordable housing in Los Angeles, but there were varying ideas on where it should be developed. Many wanted to increase housing near transit and supported the Transit-Oriented Incentive Areas which codifies key elements of the Transit Oriented Communities (TOC) Affordable Housing Incentive Guidelines. Additionally, feedback received supported multi-family, mixed-use projects in Opportunity Corridor Incentive Areas and low-scale, missing middle typologies in Opportunity Corridor Transition Areas. Participants wanted to see multi-family projects on corridors and low-scale projects behind the corridors to provide a transition in terms of building scale, massing, and density. Commenters asked that the Corridor transition buffer be expanded, intensified, and applicable to single-family homes to permit more housing near transit corridors. However, some opposed development beyond the corridors and in single-family zones and only wanted increased housing capacity on identified Opportunity Corridors. Those who opposed development beyond the corridors and in single-family zones believed increased density would negatively impact key infrastructure such as open space, parking, roads, utilities, and schools.

Technical Revisions

City Planning received recommendations for technical revisions to incentives from leading professionals and organizations in housing development. Some provided specific suggested revisions such as revising Site Plan Review thresholds and adopting a more permissive "Modification of Development Standard" incentive. Comments raised concerns regarding the prioritization of one to two-bedroom units in current developments and wished to see more incentives for multi-bedroom and family-sized units. Additionally, there were suggestions to tailor incentives to be better suited to smaller developers or mom-and-pop owners, smaller site development, and expand public benefit options to include Elder Care Sites and Affordable

Retail Spaces. Due to overall support in expedited and process-streamlined projects, participants expressed a desire for fewer waivers to undergo discretionary review and elimination of appeal procedures. Numerous Neighborhood Councils requested that time of ownership requirements be introduced into FBO incentives.

Enhance Design

Generally, comments showed support for streamlined procedures and waivers; however, many Angelenos wanted to balance procedural changes with desirable design features. Many emphasized the need for ample parking, more open space, green space, and appealing housing developments that fit the context of the neighborhood. Including a desire for the protection and preservation of historical homes and buildings. A common theme heard both in this phase was the demand for designing for vulnerable populations through ADA accessibility and family-sized, multi-bedroom units. Generally, feedback received supported the increased density of projects but wanted to ensure these desirable design features were not lost, but other comments expressed concern that design could be used to limit development and access to opportunity. Commenters desired the removal of design limitations to make building housing more permissive in high opportunity areas.

Next Steps

City Staff has released revised drafts of the CHIP, Resident Protections and Housing Element Sites and Minimum Density Ordinances based on feedback heard throughout the Share phase. The city is committed to continuing the engagement throughout the adoption process and members of the public are encouraged to review and provide written comments to housingelement@lacity.org. As a reminder, the Public Comment Period for this effort will close on Thursday, August 1, 2024. For more information on the Rezoning Program and the next phase of outreach, please click [here](#).

1.6 Public Comment

ADVANCE EQUITY IN HOUSING

- Include single family zones in all strategies, but particularly in AHIP and Corridor Transition Areas
- Support for affordable housing in high opportunity areas
- Concern that the plan falls short of affirmatively furthering fair housing and undoing patterns of segregation
- Desire for rent to own properties and more typologies designed for ownership
- Concern that there will be inequitable access to affordable housing due to discrimination and racism
- Support for maintaining compliance with the state to prevent fines and builder's remedy
- Concern that Historic Areas are inaccessible

PROTECT VULNERABLE POPULATIONS & NEIGHBORHOODS

- Support for higher replacement requirements (2:1 for demolished RSO units),
- Desire to strengthen a tenant's right to return to a comparable unit, meaning equivalent in size, bedroom count, and bathroom count. Goal of preventing the loss of family sized units
- Interest in giving displaced tenants a choice to find replacement housing within their community or a neighborhood of their choosing
- Desire to protect the housing status of elderly residents through the creation of specific incentives, design standards, and public benefit options
- Concern that more development will lead to displacement and increased rents for current low-income residents
- Desire for further engagement with neighborhoods be conducted to ensure the Ordinance is effective and achieves the intended goals
- Interest in requiring community input in the development process to ensure a project meets the community's needs
- Concern regarding access to newly created Affordable units in the Affordable and Accessible Housing Registry and desire for streamlined and low-barrier application processes for Affordable units
- Desire for stronger marketing and outreach requirements for Affordable Units in mixed-income projects, including working with CBOs and providing multilingual resources

EXPAND AFFORDABILITY

- Support for creating deeper affordability in new affordable housing stock by including Acutely Low Income as a category in affordability requirements, assuming Extremely Low Income in certain replacement scenarios, and expanding incentives for lower income levels

- Support for expanding affordable housing stock by increasing replacement requirements and counting replacement units in addition to affordable set aside requirements
- Interest in more Moderate and Above Moderate middle income affordability
- Desire for more mixed affordability in projects
- General support for increasing the supply of affordable housing and maximizing incentives for affordable housing
- Requests for increased affordability requirements in areas experiencing gentrification and displacement pressure
- Desire for better advertising and local preference for affordable housing units
- Desire to prioritize the development of market rate units over affordable housing
- Concern that current market conditions will hinder development
- Support for 99-year affordability covenants, including some support for extending covenant affordability even further to 'in perpetuity'
- Some concern regarding the financial feasibility of longer affordability covenants

ENVIRONMENTAL CONSIDERATIONS

- Support of site exclusions from incentive eligibility due to environmental hazards
- Desire to exclude projects within 3200 feet of oil wells
- Desire to require public participation in the identification of environmentally hazardous sites
- Support for robust environmental study and public participation before approving projects on sites with heightened environmental justice concerns
- Recommendations for Phase I and Phase II assessments of environmentally sensitive sites
- Desire to protect current environmental assets, especially in environmentally sensitive areas
- Desire to prevent development on irremediable contaminated sites
- Interest in balancing streamlining with strong environmental protections

LOCATION & TYPOLOGY OF DEVELOPMENT

- Desire to expand and intensify the Opportunity Corridor Transition Area buffer zone
- Support for Opportunity Corridor and Transit-Oriented Incentive Areas
- Opposition and support for development in single family zones
- General support of more development and increasing housing stock
- Concerns of increased density in residential neighborhoods and resulting impact on infrastructure
- Support for missing middle typologies
- Desire to expand Opportunity Corridor requirements so that more corridors are eligible

TECHNICAL REVISIONS

- Desire for more streamlining including through a Site Plan Review Amendment
- Support for a more permissive "Modification of Development Standard" incentive

- Interest in providing more family units or multi-bedroom units through incentives
- Desire to expand public benefit options to include Elder Care Sites and Affordable Retail Spaces
- Support for incentives better suited to smaller developers
- Interest in facilitating small site development and subdivision
- Desire for fewer waivers required to undergo discretionary review
- Requests to introduce time of ownership requirements in FBO incentives
- Concern about the definition of transit lines and frequency of transit on identified Corridors

ENHANCE DESIGN

- Desire for more open space/ green space requirements
- Concern for mature tree canopy preservation
- Support of mixed-use developments on commercial corridors with access to grocery stores, shops, amenities, and jobs within the development
- Support for the building of more accessible housing
- Support for ensuring well-designed and appealing housing developments that fit the context of the neighborhood
- Support for the protection of historical districts
- Concern that design limitations can be exclusionary and limit development
- Interest in more parking requirements

HABLEMOS DEL

PROGRAMA DE INCENTIVOS DE VIVIENDA PARA TODA LA CIUDAD

¿Qué es el Programa de Incentivos de Vivienda Asequible?

LOS ANGELES CITY PLANNING Planning4LA.org/CHIP

La Ciudad publicó recientemente la Ordenanza **del Programa de Incentivos de Vivienda para Toda la Ciudad (CHIP)**, que aborda las importantes necesidades de vivienda de Los Ángeles identificadas en **el Elemento de Vivienda**.

LOS ANGELES CITY PLANNING Planning4LA.org/CHIP

El Programa **de Incentivos de Vivienda Asequible (AHIP)** tiene como objetivo aumentar el acceso a la vivienda mediante la eliminación de barreras al desarrollo de proyectos que proporcionan el 80% de unidades asequibles y promoverá la vivienda asequible en las áreas que históricamente han producido un menor número de viviendas.

LOS ANGELES CITY PLANNING Planning4LA.org/CHIP

El AHIP simplificará los procedimientos y ofrecerá **incentivos de uso del suelo para proyectos de viviendas asequibles al 100% a través** de toda la ciudad, ofreciendo más incentivos en las áreas situadas a menos de ½ milla de una Parada de Tránsito Principal, en áreas de bajo VMT, y en áreas de oportunidad moderada y alta.

LOS ANGELES CITY PLANNING Planning4LA.org/CHIP

Appendix 2- LISTEN AND SHARE OUTREACH SUMMARIES

El AHIP amplía la elegibilidad a los proyectos **de viviendas de organizaciones religiosas (FBO por sus siglas en inglés)** en donde al menos el 80% de las unidades son de ingresos restringidos, para proporcionar más flexibilidad a estos grupos comunitarios que construyen en terrenos de los cuales son propietarios.

CHIP - [Affordable Housing Incentive Program](#)

English - *NOTE: The same content was developed in Spanish*

LET'S TALK ABOUT THE

CITYWIDE HOUSING INCENTIVE PROGRAM

What is the Affordable Housing Incentive Program?

LOS ANGELES
CITY PLANNING

Planning4LA.org/CHIP

The City recently released the

Citywide Housing Incentive Program (CHIP) Ordinance

, which addresses LA's significant housing needs as identified in the **Housing Element**.

LOS ANGELES
CITY PLANNING

Planning4LA.org/CHIP

The **Affordable Housing Incentive Program (AHIP)** aims to increase housing access by removing the barriers to the development of 80 - 100% Affordable Housing Projects and promoting affordable housing in areas that have historically produced less housing.

LOS ANGELES
CITY PLANNING

Planning4LA.org/CHIP

AHIP will streamline procedures and offer **land use incentives for 100% Affordable Housing Projects** citywide, offering higher incentives in areas within ½ a mile of a Major Transit Stop, in Low Vehicle Miles Traveled (VMT) areas, and in moderate and higher opportunity areas.

LOS ANGELES
CITY PLANNING

Planning4LA.org/CHIP

AHIP extends eligibility to **Faith Based Organization (FBO) Housing Projects** where at least 80% of units are income restricted, to provide more flexibility for these community serving groups building on land they own.

6 Core Strategies -Concept Explorer Survey - Spanish

6

ESTRATEGIAS QUE SE CENTRALIZAN

PROGRAMA DE INCENTIVOS DE VIVIENDA PARA TODA LA CIUDAD

¿Cómo la Ciudad aborda las necesidades de vivienda de manera equitativa?

La Ciudad está desarrollando **6 estrategias que se centralizan** en tratar las necesidades importantes de vivienda en Los Ángeles que han sido identificadas en el Elemento de **Vivienda a través del Programa de Incentivos de Vivienda para toda la Ciudad (CHIP)** por sus siglas en inglés).

1

La **Reutilización Adaptativa** busca ampliar el programa existente en toda la Ciudad y agilizar la conversión de edificios que han sido construidos recientemente, oficinas vacías, hoteles y la conversión de propiedades comerciales en vivienda.

2

Corredores de Oportunidad visualiza comunidades habitables y sostenibles al aumentar la capacidad de vivienda en las calles principales para brindar un mayor acceso a servicios diarios, tales como empleos y transporte.

3

La estrategia para la **Falta de Vivienda de Escala Mediana** facilita oportunidades para vivienda de baja escala, comúnmente construidas antes de la década de 1950, incluidos jardines y casas adosadas, a escala con el contexto del vecindario.

4

La **Superposición de Vivienda Asequible** busca crear más oportunidades para la construcción del desarrollo de vivienda asequible, incluyendo sitios de propiedad religiosa y terrenos de propiedad pública.

Appendix 2- LISTEN AND SHARE OUTREACH SUMMARIES

5

Actualizar los **Programas de Incentivos de Vivienda Asequible** existentes para mejorar las estrategias que ya están funcionando en la producción de vivienda asequible.

LOS ANGELES
CITY PLANNING

Planning4LA.org/CHIP-Survey

6

Mejorar **el proceso de racionalización** en todas las estrategias antes mencionadas para identificar y eliminar barreras procesales y ofrecer un proceso de revisión más transparente y acelerado.

LOS ANGELES
CITY PLANNING

Planning4LA.org/CHIP-Survey

La **Encuesta Exploradora de Conceptos** o Concept Explorer como es conocida en Inglés, está actualmente abierta para que el público comparta sus opiniones sobre estas 6 estrategias, y agradecemos los comentarios y opiniones sobre dónde desearían ver oportunidades de vivienda en Los Ángeles.

🌱 How can we revolutionize housing in LA? The City recently released the draft Citywide Housing Incentive Program (CHIP) Ordinance, which is committed to Affirmatively Furthering Fair Housing by increasing Angelenos' "access to opportunity." Learn about the current housing situation, and how the City plans on increasing affordable housing in LA!

🏠 Los Angeles City Planning recently released the draft Citywide Housing Incentive Program (CHIP) Ordinance, which addresses LA's housing needs and expands access to affordable housing opportunities close to jobs, transit, and destinations. 🏠

🏠 Los Angeles is experiencing the highest rates of homelessness, overcrowding, and cost of living per person in the nation. The lack of housing development and historic legacy of racism, segregation, and redlining has contributed to the housing crisis, excluding communities from Higher Opportunity Areas. 🏠

🌱 Through CHIP, the City aims to increase the "access of opportunity" for Angelenos to live in areas with good schools, healthy environments, jobs, and economic mobility. 🌱

📄 For more information, check out the Concept Explorer, Planning4LA.org/CHIP, or email us at housingelement@lacity.org. Like and follow for more details on the CHIP Ordinance!

¿Cómo podemos revolucionar la vivienda en Los Ángeles? La Ciudad publicó recientemente un borrador con la Ordenanza para el Programa de Incentivos de Vivienda de la Ciudad (CHIP por sus siglas en inglés), el cual se compromete a Afirmativamente Avanzar la Vivienda Justa aumentando el "acceso a oportunidades" para los angelinos. ¡lo invitamos a conocer la situación actual de la vivienda y cómo la ciudad planea aumentar la vivienda asequible en Los Ángeles!

El Departamento de Planeación de la Ciudad de Los Ángeles publicó recientemente el borrador de la Ordenanza para el Programa de Incentivos de Vivienda de la ciudad (CHIP por sus siglas en inglés), que trata las necesidades de vivienda en Los Ángeles y amplía el acceso a oportunidades de vivienda asequible cerca de empleos, el transporte público y los lugares de encuentro.

Los Ángeles está experimentando las tasas más altas de falta de vivienda, hacinamiento y costo de vida por persona en toda la nación. La falta de desarrollo en la vivienda y el legado histórico de racismo, segregación y línea roja han contribuido a la crisis de vivienda, excluyendo a comunidades de áreas con mayores oportunidades.

A través de CHIP, la ciudad pretende aumentar el "acceso a oportunidades" para que los angelinos vivan en áreas con buenas escuelas, entornos saludables, empleos y movilidad económica.

Para obtener más información, consulte el Explorador de Conceptos Planning4LA.org/CHIP, o envíenos un correo electrónico a housingelement@lacity.org. ¡Haga clic en me gusta y síganos para obtener más detalles sobre la Ordenanza CHIP!

How can we revolutionize housing in LA? Maybe we need to look at past housing choices to inform the future. Learn about how the City is proposing to bring back beloved historic Los Angeles housing types, like bungalow courts, garden courts, and townhouses through the Citywide Housing Incentive Program Ordinance!

Los Angeles City Planning recently released the draft Citywide Housing Incentive Program (CHIP) Ordinance to address LA's housing needs and expands access to affordable housing opportunities close to jobs, transit, and destinations.

Prior to the 1950s, many neighborhoods in LA were made up of house-scale buildings with multiple units, which fostered opportunities for community building and increased walkability to neighborhood destinations. Many of these homes were called bungalow courts or courtyard apartments, where housing units were built around a common shared open space. Recognizing the value of this type of housing, the CHIP Ordinance includes the Opportunity Corridor Transition Area program, which proposes updated regulations that would encourage the new construction of bungalow courts or courtyard apartments in LA. These programs would be designed to integrate in size and scale with existing neighborhoods and increase rental and homeownership opportunities for Angelenos.

For more information, check out the Concept Explorer, Planning4LA.org/CHIP, or email us at housingelement@lacity.org. Like and follow for more details on the CHIP Ordinance!

¿Cómo podemos revolucionar la vivienda en Los Ángeles? Tal vez necesitemos analizar las opciones de vivienda del pasado para informar el futuro. ¡Conozca cómo la Ciudad propone recuperar los tipos de viviendas históricas que continúan de encantarnos en Los Ángeles, como patios de bungalows, patios con jardín y casas adosadas a través de la Ordenanza del Programa de Incentivos de Vivienda para toda la Ciudad! 🏡

El Departamento de Planeación de Los Ángeles recientemente publicó el borrador de la Ordenanza del Programa de Incentivos para la Vivienda en toda la Ciudad (CHIP) para abordar las necesidades de vivienda de Los Ángeles y ampliar el acceso a oportunidades de vivienda asequible cerca de empleos, transporte público y destinos. 🏡

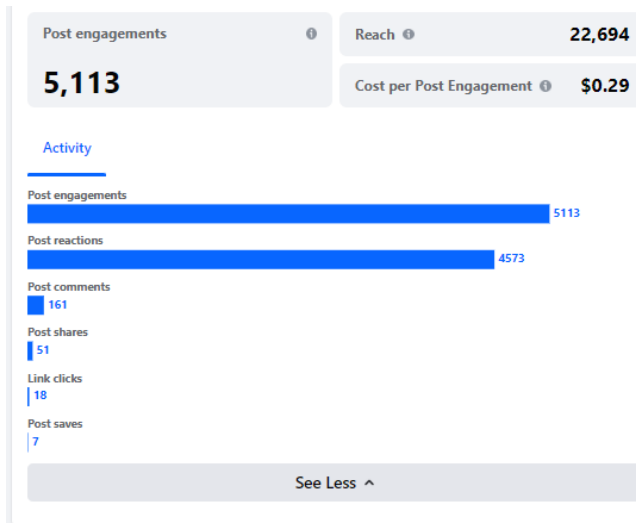

Antes de la década de 1950, muchos vecindarios en Los Ángeles estaban formados por edificios a escala de casas con unidades múltiples, lo que fomentaba oportunidades para la construcción de comunidades y aumentaba la accesibilidad para peatones a los destinos dentro de los vecindarios. Muchas de estas casas se les nombraban patios de bungalows o apartamentos con patio, donde las unidades de vivienda se construían alrededor de un espacio abierto común y compartido. En reconocimiento del valor de este tipo de vivienda, La Ordenanza CHIP incluye el programa Área de Transición para los Corredores de Oportunidad, que propone oportunidades para actualizar regulaciones para que se permita la nueva construcción de patios de bungalows o apartamentos con patio en Los Ángeles. Estos programas estarían diseñados para integrarse en tamaño y escala con los vecindarios existentes y aumentar las oportunidades de alquiler y propiedad de vivienda para los angelinos. 🏡

How can we revolutionize housing in LA? Learn about the Affordable Housing Incentive Program, part of the Citywide Housing Incentive Program Ordinance!

Los Angeles City Planning recently released the draft Citywide Housing Incentive Program (CHIP) Ordinance to address LA's housing needs and expand access to housing opportunities close to jobs and transit.

The Affordable Housing Incentive Program (AHIP) aims to increase housing access by removing barriers to the development of projects providing 80 to 100% affordable units and promote affordable housing in areas that have historically produced less housing.

AHIP will streamline procedures and offer land use incentives for Affordable Housing Projects citywide. Parcels eligible for AHIP include those areas zoned for multifamily housing as well as those owned by public agencies, Faith Based Organizations and Parking and Public Facility zones.

AHIP builds on state law (SB 4) to extend eligibility to additional properties owned by Faith Based Organizations (FBOs) and would make additional changes to make more projects built on land owned by Faith Based institutions economically feasible.

For more information, check out the Concept Explorer, Planning4LA.org/CHIP, or email us at housingelement@lacity.org. Like and follow for more details on the CHIP Ordinance!

¿Cómo podemos revolucionar la vivienda en Los Ángeles? ¡Infórmate sobre el Programa de Incentivos de Vivienda Asequible, parte de la Ordenanza del Programa de Incentivos de Vivienda Asequible de toda la ciudad!

El Departamento de Planeación de la Ciudad de Los Ángeles recientemente publicó el borrado de la Ordenanza del Programa de Incentivos de Vivienda para Toda la Ciudad (CHIP por sus siglas en inglés) que tiene como objeto responder a las necesidades de vivienda de Los Ángeles y aumentar el acceso a las oportunidades de vivienda cerca de los centros de trabajo y del transporte público.

El Programa de Incentivos de Vivienda Asequible (AHIP por sus siglas en inglés) tiene como objetivo aumentar el acceso a la vivienda mediante la eliminación de barreras al desarrollo de proyectos que proporcionan el 80% de unidades asequibles y promover la vivienda asequible en las áreas que históricamente han producido un menor número de viviendas.

El AHIP simplificará los procedimientos y ofrecerá incentivos de uso del suelo para proyectos de viviendas asequibles al 100% en de toda la ciudad. Las parcelas elegibles para el AHIP incluyen las áreas con zonificación para vivienda multifamiliar así como las propiedades de las agencias públicas, propiedades de Organizaciones Religiosas (FBO por sus siglas en inglés), y en zonas para estacionamiento e instalaciones públicas.

AHIP se basa en la ley estatal (SB 4) para ampliar la elegibilidad de las propiedades de Organizaciones Religiosas (FBO por sus siglas en inglés) y haría cambios adicionales para hacer que más de los proyectos en terrenos de las instituciones religiosas sean viables económicamente.

APPENDIX 3: Economic Analysis and Market Study

CPC-2023-7068-CA, CPC-2024-387-CA, CPC-2024-388-CA

For consideration by the City Planning Commission

September 26, 2024

Task 3: Market Analysis

Market & Economic Study for the Density Bonus Ordinance Update and RHNA Rezoning Program.

FINAL REPORT

June 28, 2024

Assumptions & Limitations

Deliverables and portions thereof shall be subject to the following assumptions and limitations:

The Deliverables are based on estimates, assumptions, information developed by AECOM from its independent research effort, general knowledge of the industry, and information provided by and consultations with Client and Client's representatives. No responsibility is assumed for inaccuracies in data provided by the Client, the Client's representatives, or any third-party data source used in preparing or presenting the Deliverables. AECOM assumes no duty to update the information contained in the Deliverables unless such additional services are separately retained pursuant to a written agreement signed by AECOM and Client.

AECOM's findings represent its professional judgment. Aside from the applicable standard of care required under the Contract, neither AECOM nor its parent corporations, nor their respective affiliates or subsidiaries ("AECOM Entities") make any warranty or guarantee, expressed or implied, with respect to any information or methods contained in or used to produce the Deliverables.

AECOM has served solely in the capacity of consultant and has not rendered any expert opinions in connection with the subject matter hereof. Any changes made to the Deliverables, or any use of the Deliverables not specifically identified in the Agreement between the Client and AECOM or otherwise expressly approved in writing by AECOM, shall be at the sole risk of the party making such changes or use.

The Deliverables were prepared solely for the use by the Client. No third party may rely on the Deliverables unless expressly authorized by AECOM in writing (including, without limitation, in the form of a formal reliance letter). Any third party expressly authorized by AECOM in writing to rely on the Deliverables may do so only on the Deliverable in its entirety and not on any abstract, excerpt or summary. Entitlement to rely upon the Deliverables is conditioned upon the entitled party accepting full responsibility for such use, strict compliance with the Contract and not holding AECOM liable in any way for any impacts on the forecasts or the earnings resulting from changes in "external" factors such as changes in government policy, in the pricing of commodities and materials, changes in market conditions, price levels generally, competitive alternatives to the project, the behavior of consumers or competitors and changes in the Client's policies affecting the operation of their projects.

The Deliverables may include "forward-looking statements". These statements relate to AECOM's expectations, beliefs, intentions or strategies regarding the future. These statements may be identified by the use of words like "anticipate," "believe," "estimate," "expect," "intend," "may," "plan," "project," "will," "should," "seek," and similar expressions. The forward-looking statements reflect AECOM's views and assumptions with respect to future events as of the date of the Deliverables and are subject to future economic conditions, and other risks and uncertainties. Actual and future results and trends could differ materially from those set forth in such statements due to various factors, including, without limitation, those discussed in the Deliverables. These factors are beyond AECOM's ability to control or predict. Accordingly, AECOM makes no warranty or representation that any of the projected values or results contained in the Deliverables will actually occur or be achieved. The Deliverables are qualified in their entirety by, and should be considered in light of, these assumptions, limitations, conditions and considerations.

1. Introduction

Background

Overview

The City of Los Angeles Department of City Planning (LACP) engaged **AECOM** to prepare economic analysis to inform policy development for the City's RHNA Rezoning Program.

The analysis contained in this document **represents fulfillment of Task 3: Market Analysis in AECOM's scope of work**. The purpose of Task 3 was to:

1. Define four market tiers that will form the basis for further analysis and policy recommendations.
2. Assess the market characteristics of each market tier.
3. Define a set of residential typologies that represent future residential growth potential in each market tier.

The market tiers and residential typologies informed subsequent AECOM analysis of the City's RHNA Rezoning Program.

Market Tier Definitions

The analysis contained herein defines and analyzes the following four market tiers, which range from low to high and are intended to represent the relative strength of the residential market in different geographies across the City. As described in this report, the market tiers are based on an index that accounts for rents and for-sale prices of recently build housing, as well as the relative production of rental and for-sale housing over the past 10 years.

- Market Tier 1 (Low)
- Market Tier 2 (Medium/Low)
- Market Tier 3 (Medium/High)
- Market Tier 4 (High)

Citywide RHNA Rezoning Program

The city's RHNA Rezoning Program is a response to the shortfall between the city's inventory of residential development sites and the 2021-2029 RHNA allocation.

The City's 2021-2029 Housing Element, adopted in November 2021, includes an inventory of residential development sites for development that **anticipates realistic development potential of 230,947 units** over the 8-year RHNA planning period.

State law requires local jurisdictions to demonstrate through the Housing Element process that they maintain sufficient zoned capacity to accommodate their Regional Housing Needs Assessment (RHNA) allocation for the eight-year Housing Element period.

The 2021-2029 RHNA allocation for the Southern California Association of Governments (SCAG) region allocates to the City of Los Angeles a target production of 456,643 units. Adding the required buffer of 10% for low-income units and 15% for moderate-income units increases **target capacity to 486,379**. The variance between the site inventory and RHNA allocation is a **shortfall of 255,432 units**.

The City's proposed RHNA Rezoning Program, introduced in Program 121 of the Housing Element, is intended to help fill the expected housing production gap by creating additional housing capacity.

The Rezoning Program is being implemented through a number of work efforts including updates to up to 16 Community Plans, expansion of existing city incentive programs (including the Density Bonus Ordinance, Transit Oriented Communities program, and Adaptive Reuse Ordinance), consideration of more flexible zoning and incentives to create opportunities for a variety of "missing middle" low-scale housing typologies, process streamlining, and consideration of dedicated zoning overlays for opportunity corridors and affordable housing.

Executive Summary

Recommended Market Tiers by Neighborhood

The map on the right presents the recommended market tier classifications for each neighborhood. The legend below shows the name of each neighborhood that corresponds to the number labels used in the map, as well as the CPA that each neighborhood falls primarily within.

Executive Summary

Recommended Residential Typologies by Market Tier

The table on the right summarizes the housing typologies recommended for evaluation within each market tier. These selections are based on AECOM's analysis contained herein and input from LACP.

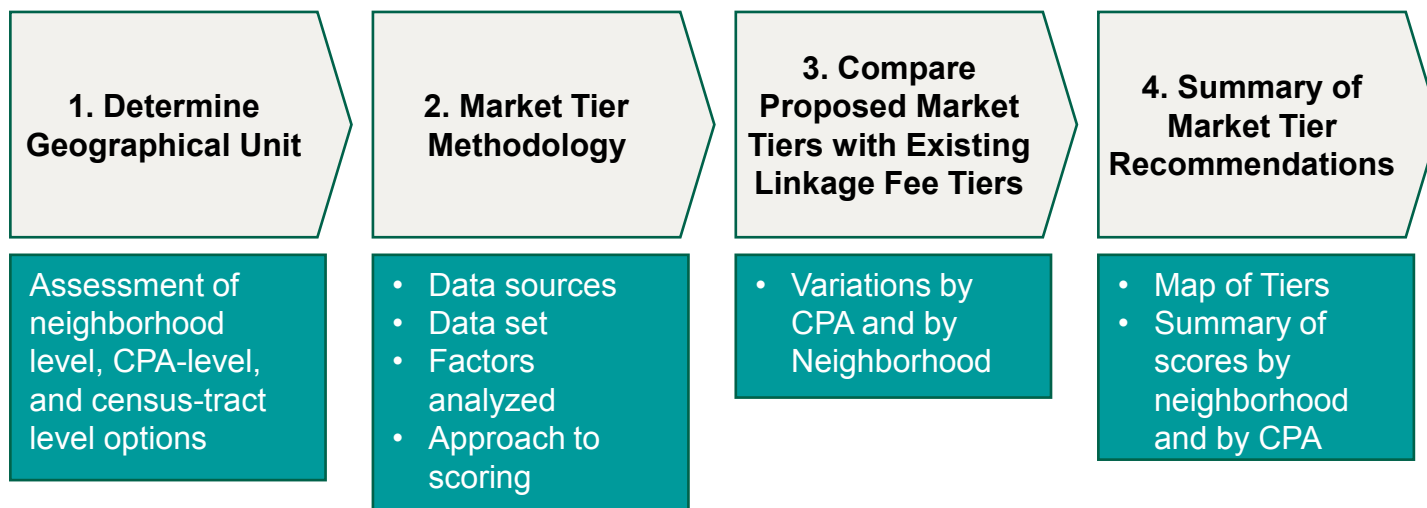

Note that in AECOM's subsequent tasks related to analysis of the City's RHNA Rezoning Program, prototypes were further tailored so that they could be used to test specific policy questions.

Prototype Concepts to be Evaluated per Housing Incentive Market Tier						
Market Tier 1 Low	 4D Plex Style 10 – 17 DUAC	 CY3 33' Courtyard Multiplex 30 – 43 DUAC	 CY4 45' Courtyard Apartment 50 – 55 DUAC	 P5 5-story Podium Res + Mixed 90 – 109 DUAC	 P7 7-Story Podium 110 – 150 DUAC	
Market Tier 2 Medium-Low	 4D Plex Style 10 – 17 DUAC	 CY3 33' Courtyard Multiplex 30 – 43 DUAC	 CY4 45' Courtyard Apartment 50 – 55 DUAC	 P5 5-story Podium Res + Mixed 90 – 109 DUAC	 P7 7-Story Podium 110 – 150 DUAC	
Market Tier 3 Medium-High	 4D Plex Style 10 – 17 DUAC	 CY4 45' Courtyard Apartment 50 – 55 DUAC	 P5 5-story Podium Res + Mixed 90 – 109 DUAC	 P7 7-Story Podium 110 – 150 DUAC	 TW Mixed-Use Tower 140 – 217 DUAC	
Market Tier 4 High	 4D Plex Style 10 – 17 DUAC	 CY4 45' Courtyard Apartment 50 – 55 DUAC	 P5 5-story Podium Res + Mixed 90 – 109 DUAC	 P7 7-Story Podium 110 – 150 DUAC	 TW Mixed-Use Tower 140 – 217 DUAC	

2. Market Tiers

Market Tier Analysis

Section Overview

This chapter describes the analysis used to establish a city-wide market tier framework. The purpose of this analysis is to assess housing market strength across different sub-geographies within the City of Los Angeles and to classify these geographies into four market area categories.

The framework provided a basis for analyzing market factors (in Chapter 3 of this document) and conducting feasibility analysis (in later project tasks) to support RHNA Rezoning Program policy recommendations.

The market tier analysis was conducted in four stages as shown in the image on the left:

1. Determine the geographical unit
2. Develop methodology to define market tiers
3. Compare tiers resulting from the analysis with those previously developed and adopted as part of the citywide affordable housing linkage fee
4. Summarize section findings and recommendations

The remainder of this chapter describes how the market tiers were developed in more detail. Note that the market tiers were developed to inform subsequent economic analysis of the City's RHNA Rezoning Program. Because the RHNA Rezoning Program is focused on creating capacity for new development, the market tiers are intended to represent market conditions for new development.

Market Tier Analysis

Geographical Unit

LATimes Neighborhoods

(See Appendix A for expanded map with neighborhood names labeled)

CPA Units

(shading reflects Residential Market Tiers from the City's current adopted Affordable Housing Linkage Fee)

The market tier analysis employs the City's **114 Neighborhoods** as its primary geographic unit of analysis.

The neighborhood map was originally created by the *Los Angeles Times* in its Mapping LA project, a well-regarded and frequently referenced project that since 2009 has sought to reflect geographical, historic, and socioeconomic associations that define communities.

Two other geographical sub-area concepts were considered to provide the geographic unit of analysis including: Community Planning Areas (CPAs), and Census Tract Areas. The neighborhood-level map has advantages and some disadvantages compared with CPA and Census Tract Area maps, as follows:

Advantages:

- Neighborhood areas reflect geographical, historic, and socioeconomic associations that define communities.
- Neighborhood areas are small enough to indicate meaningful socio-economic distinctions that inform development potential but large enough to have a sufficient data points on which to base the analysis.

Disadvantages

- Neighborhood areas do not reflect political boundaries such as those defined by the City's 35 Community Plan Areas and 15 City Council Districts. Most existing city policy—such as the affordable housing linkage fee—is implemented within these larger geographies.

Note: The neighborhood geographies do not completely align with US Census Bureau data (unlike CPAs and Census Tract areas). AECOM aggregating census tract-level data up to neighborhood-level throughout this analysis using a geographic weighted average approach.

Market Tier Analysis

Methodology to Define Market Tiers

The table below describes the methodology that was used to gather, aggregate, and adjust housing market data for both renter-occupied and owner-occupied housing, as well as the methodology used to translate that data into the market tier classifications for each neighborhood. This methodology was an iterative process developed by AECOM in consultation with LACP. Neighborhood market strength was first scored separately for rental and for-sale projects, and then a single, composite neighborhood score was calculated using a weighting system that reflects the relative proportion of rental and for-sale units built in the last 10 years.

	Rent Projects	Sale Projects
Data Source	CoStar	Redfin
Geographical Unit	Neighborhood (per Mapping LA)	
Measure	Median rent/sq.ft./month per neighborhood	Median sale price/sq.ft. per neighborhood
Housing Type	All existing market-rate multifamily properties (e.g., multi-unit buildings, duplexes, etc.)	All types (e.g., single family, condominiums, townhomes), all construction years (i.e., both new and old homes)
Data Time Period	Current asking rents for all properties constructed since 2000	Transactions occurring over the most recent 12 Months (October 2021-September 2022)
# Samples in Set	793 rental properties	160 zip codes
Additional Adjustments to Data set	For 67 of the 114 neighborhoods with insufficient data (defined as less than 5 data points per neighborhood), median rent is scaled by the relationship of the neighborhood's for-sale median value to citywide median value. (For example, if a neighborhood's home value is 20% higher than the citywide median, neighborhood rent is set at 20% higher than the citywide rent median.)	Because zip codes do not perfectly align with neighborhood boundaries, neighborhood median sales price is calculated using a geographic weighted average. (For example, if a neighborhood overlaps 60% of its area with one zip code and 40% with another, the 60% zip code's median sales price is weighted more heavily than that of the 40% zip code.)
Scoring into Tiers	Neighborhood median rents and median sales prices are classified into four tiers based on standard deviations from the citywide mean: Market Tier 1 (Low, <-0.5 SD from citywide mean), Market Tier 2 (Medium/Low, -0.5 – 0 SD from citywide mean), Market Tier 3 (Medium/High, 0 – 0.5 SD from citywide mean), Market Tier 4 (High, >0.5 SD from citywide mean).	
Calculating a Composite Neighborhood Score	<p>The final neighborhood tier score is a composite of for-rent and for-sale scores. Composite weighting is determined by the change in housing units by tenure in the neighborhood based on data from the American Community Survey, as follows:</p> <ul style="list-style-type: none"> • If neighborhood inventory of for-rent and for-sale units increases, the weighting reflects the proportion of each • If inventory change for either for-rent or for-sale units is negative (meaning the number of units in that category declined), the positive change category is assigned a 95% weight and the negative category a 5% weight. • If inventory change for both for-rent and for-sale units is negative, both categories are weighted 50%/50%. <p>Note: Inventory change may reflect factors such as new construction or demolition, previously vacant units becoming occupied, or occupied units switching between owner and renter-occupancy.</p>	

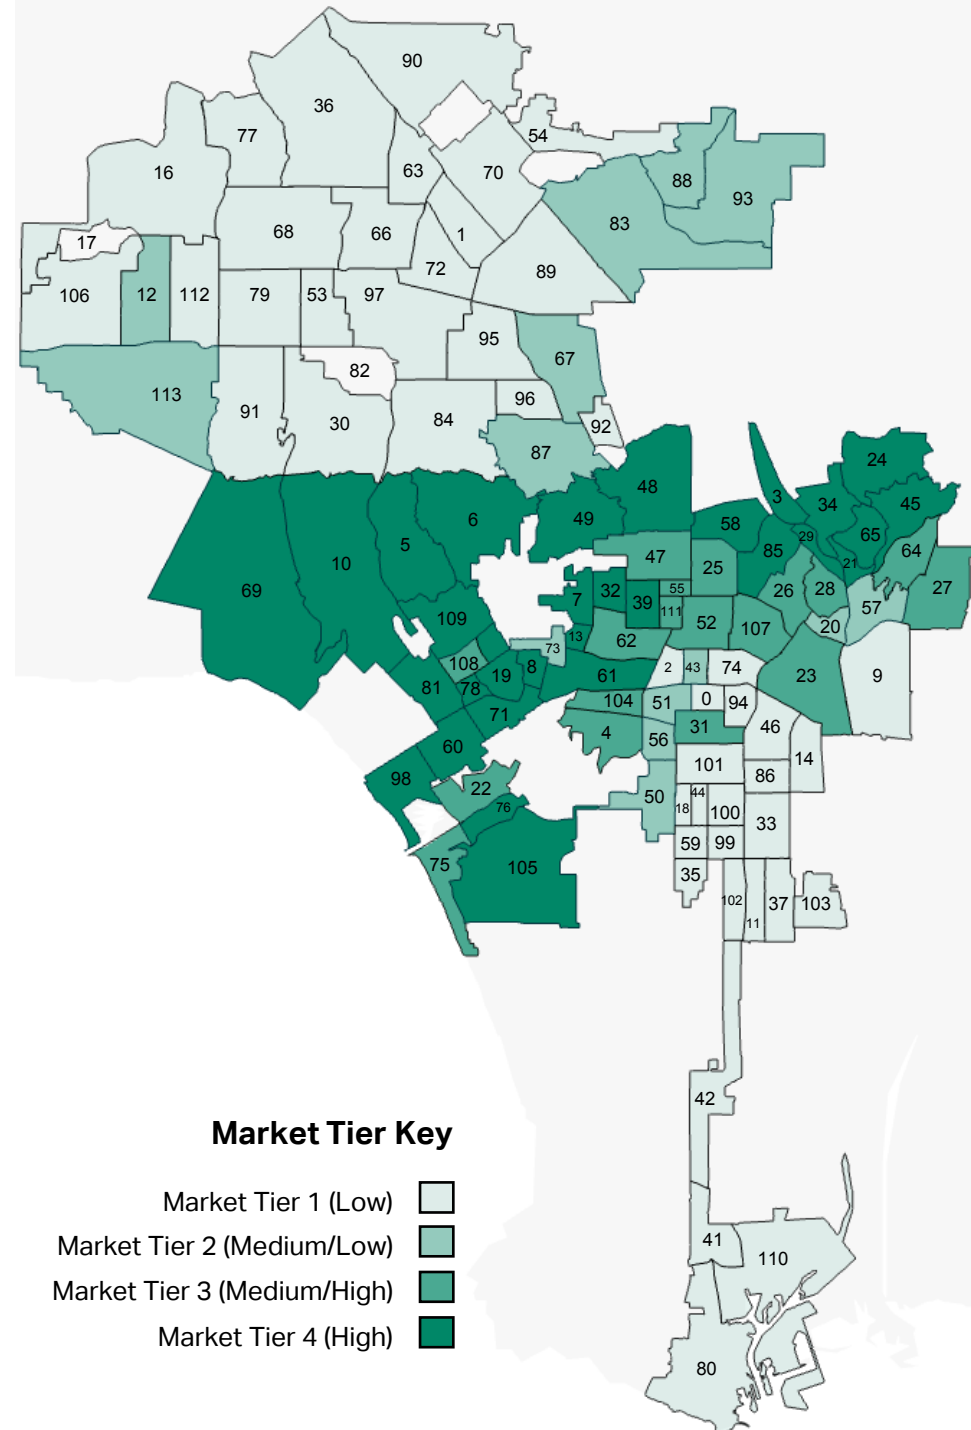

Market Tiers by Neighborhood

Proposed

The map on the right presents the resulting market tier classifications for each neighborhood. The legend below shows the name of each neighborhood that corresponds to the number labels used in the map, as well as the CPA that each neighborhood falls primarily within.

#	Neighborhood	Primary CPA
0	Adams-Normandie	South Los Angeles
1	Arlleta	Arlleta - Pacoima
2	Arlington Heights	West Adams - Baldwin Hills - Leimert
3	Atwater Village	Northeast Los Angeles
4	Baldwin Hills/Crenshaw	West Adams - Baldwin Hills - Leimert
5	Bel-Air	Bel Air - Beverly Crest
6	Beverly Crest	Bel Air - Beverly Crest
7	Beverly Grove	Wilshire
8	Beverlywood	West Los Angeles
9	Boyle Heights	Boyle Heights
10	Brentwood	Brentwood - Pacific Palisades
11	Broadway-Manchester	Southeast Los Angeles
12	Canoga Park	Canoga Park - Winnetka - Woodland Hills - West Hills
13	Carthay	Wilshire
14	Central-Alameda	Southeast Los Angeles
15	Century City	West Los Angeles
16	Chatsworth	Chatsworth - Porter Ranch
17	Chatsworth Reservoir	Chatsworth - Porter Ranch
18	Chesterfield Square	South Los Angeles
19	Cheviot Hills	West Los Angeles
20	Chinatown	Central City North
21	Cypress Park	Northeast Los Angeles
22	Del Rey	Palms - Mar Vista - Del Rey
23	Downtown	Central City

- Market Tier 2 (Medium/Low)
- Market Tier 3 (Medium/High)
- Market Tier 4 (High)

Market Tiers by Neighborhood

Proposed, Sorted by CPA (1 of 2)

Market Tier Key

- Market Tier 1 (Low)
- Market Tier 2 (Medium/Low)
- Market Tier 3 (Medium/High)
- Market Tier 4 (High)

Notes:

1. Median Sale Price based on 12 months of home transactions (all residential types) between 11/2021 and 10/2022
2. The number of CoStar datapoints for rental projects constructed since 2000. Values <5 are **boldfaced**, indicating insufficient data on which to base rent estimates.
3. Median Rent based on asking rents for properties constructed since 2000. **Boldface** indicates where the number of data points is insufficient (<5) and where rents are instead estimated by scaling median rent by the relationship of the neighborhood's for-sale median value to citywide median value. (For example, if a neighborhood's home value is 20% higher than the citywide median, neighborhood rent is set at 20% higher than the citywide rent median.)
4. Composite value based on weighting for-rent and for-sale values by proportion of recent (10-year) production. If one of two categories declined over the last 10 years, it is assigned a 5% weight. Where both categories declined, each is assigned a 50% weight.
5. The Linkage Fee study classified neighborhoods into 3 tiers (Low, Medium, High). For comparison with the proposed current 4-tier ranking, the linkage fee study Low tier is labeled 1, Medium tier is 2.5, and High tier is 4.
6. Because the adopted Linkage Fee is organized by CPA, all neighborhoods here reflect the CPA tier

Market Tiers by Neighborhood

Proposed, sorted by Tier (1 of 2)

Market Tier Key

- Market Tier 1 (Low)
- Market Tier 2 (Medium/Low)
- Market Tier 3 (Medium/High)
- Market Tier 4 (High)

Notes:

1. Median Sale Price based on 12 months of home transactions (all residential types) between 11/2021 and 10/2022
2. The number of CoStar datapoints for rental projects constructed since 2000. Values <5 are **boldfaced**, indicating insufficient data on which to base rent estimates.
3. Median Rent based on asking rents for properties constructed since 2000. **Boldface** indicates where the number of data points is insufficient (<5) and where rents are instead estimated by scaling median rent by the relationship of the neighborhood's for-sale median value to citywide median value. (For example, if a neighborhood's home value is 20% higher than the citywide median, neighborhood rent is set at 20% higher than the citywide rent median.)
4. Composite value based on weighting for-rent and for-sale values by proportion of recent (10-year) production. If one of two categories declined over the last 10 years, it is assigned a 5% weight. Where both categories declined, each is assigned a 50% weight.
5. The Linkage Fee study classified neighborhoods into 3 tiers (Low, Medium, High). For comparison with the proposed current 4-tier ranking, the linkage fee study Low tier is labeled 1, Medium tier is 2.5, and High tier is 4.
6. Because the adopted Linkage Fee is organized by CPA, all neighborhoods here reflect the CPA tier

CPA	Neighborhood	For-Sale Inventory		For-Rent Inventory			Composite	
		Median Value/Sq.Ft. ¹	Sale Tier	Data Points ²	Median Rent \$/Sq.Ft./mo. ³	Rent Tier	For-Rent Weighting ⁴	Composite Tier

3. Market Profiles of Housing Incentive Market Tiers

Market Profiles of Market Tiers

Section Overview

In this section, key socio-economic indicators for each market tier are compiled. The indicators include both demographic and real estate market data.

Each market tier includes non-contiguous neighborhoods. Consequently, market tier profiles reflect data that has been aggregated from neighborhoods that in some cases differ widely.

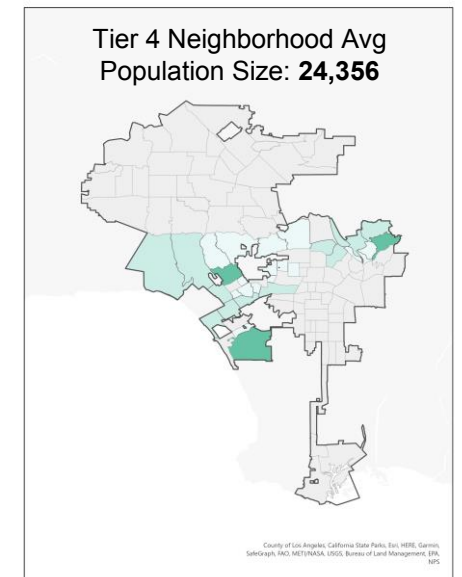

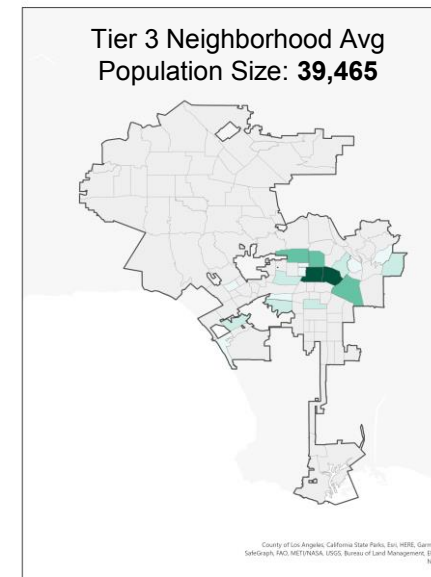

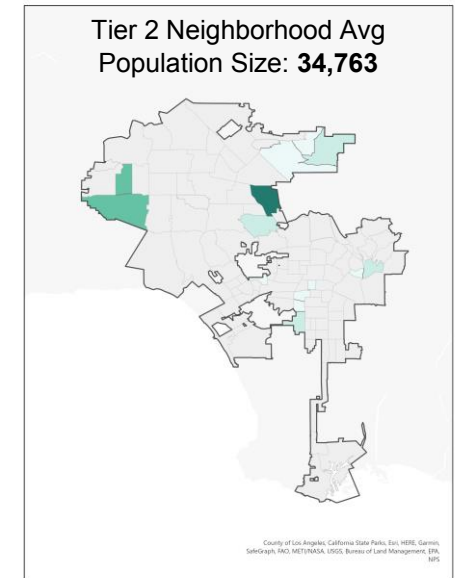

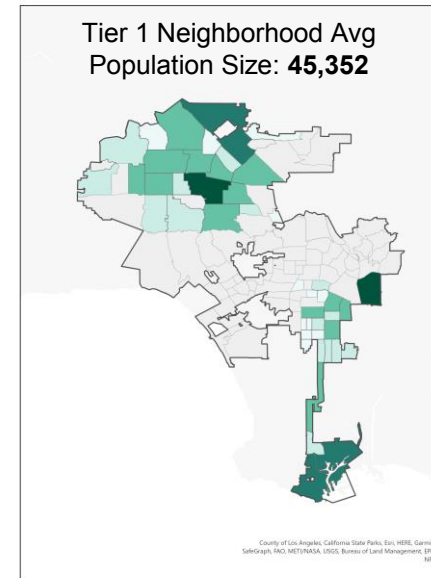

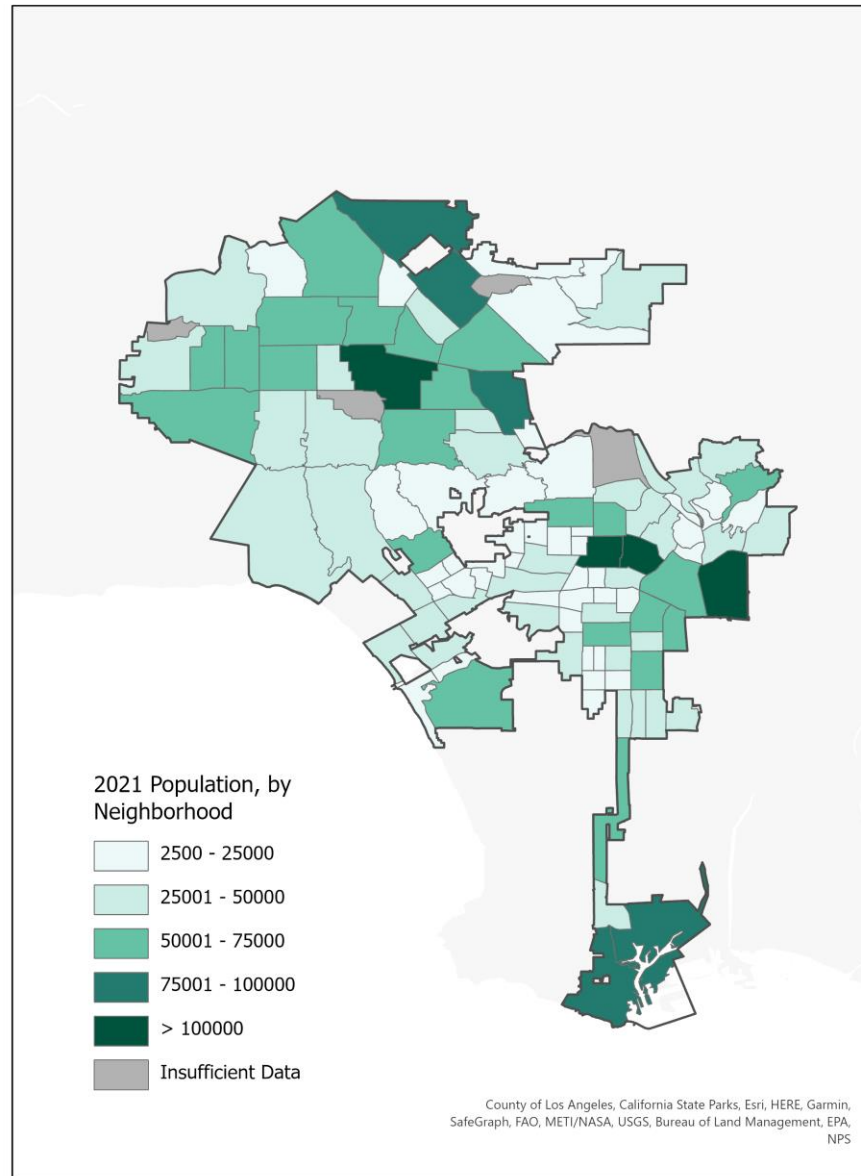

The underlying data for the characteristics and indicators illustrated in this section is provided in **Appendix C**.

Population

- Citywide, the average population per neighborhood is 37,124.
- More than half (52%) of Los Angelenos live within a Tier 1 (low market tier) neighborhood.

Population by Market Tier

Market Tier	Population	% of Citywide Total
Market Tier 1 (Low)	2,131,544	52%
Market Tier 2 (Medium/Low)	486,685	12%
Market Tier 3 (Medium/High)	710,375	17%
Market Tier 4 (High)	755,040	18%

Population Change

- From 2010 to 2021, the citywide population of Los Angeles grew by 4.3%.
- The fastest growth occurred in Tier 1 neighborhoods at 6.1%, followed by Tier 2 at 5.4%. Slower growth occurred in Tier 3 (3.2%) and Tier 4 (1.7%) neighborhoods.
- Many neighborhoods decreased in population during the period, with population decline most prominent in Tier 4 neighborhoods.
- Downtown, Playa Vista, and Atwater Village populations grew the most, posting increases over 60%. El Sereno had the biggest decline in population, with a decrease of about 22%.

For full backing data, see **Appendix C.1**

Households

- Citywide, the average number of households per neighborhood is 13,171.
- Nearly half (45%) of Los Angeles households live within a Tier 1 neighborhood, 22% live in a Tier 4 neighborhood, 21% live in a Tier 3 neighborhood, and 13% live in a Tier 2 neighborhood.

Households by Market Tier

Market Tier	Number of Households	% of Citywide Total
Market Tier 1 (Low)	647,946	45%
Market Tier 2 (Medium/Low)	181,115	13%
Market Tier 3 (Medium/High)	298,490	21%
Market Tier 4 (High)	321,284	22%

Change in Total Households

- From 2010 to 2021, the number of households citywide grew by 5.7%.
- The fastest growth occurred in Tier 3 neighborhoods (9.3%), followed by Tier 1 neighborhoods (5.8%). Slower growth occurred in Tier 4 neighborhoods (2.4%) and negative growth occurred in Tier 2 neighborhoods (-7.5%).
- The household growth followed population growth with the largest increases between 2010 and 2021 in the neighborhoods of Downtown, Playa Vista, and Atwater Village.

For full backing data, see Appendix C.2

Household Size

- Citywide, the average household size is 2.76 persons per household.
- Tier 1 neighborhoods have the greatest household sizes averaging 3.29 people per household while Tier 4 neighborhoods have the smallest, averaging 2.28.

Market Tier

Market Tier 1 (Low)

Market Tier 2 (Medium/Low)

Market Tier 3 (Medium/High)

Market Tier 4 (High)

Change in Household Size

- From 2010 to 2021, average household size in the city declined by 0.02 persons per household.
- During that time, Tier 1 average household size grew by 0.03 persons per household. In all other tiers, average household size decreased.
- Growth in average household size in Tier 1 neighborhoods may reflect the pressure of high housing costs that lead to more people living under one roof.
- Several neighborhoods in every market tier saw decreases in average household size. This may reflect a number of factors, including shrinking household size trends nationwide as families tend to have fewer children.

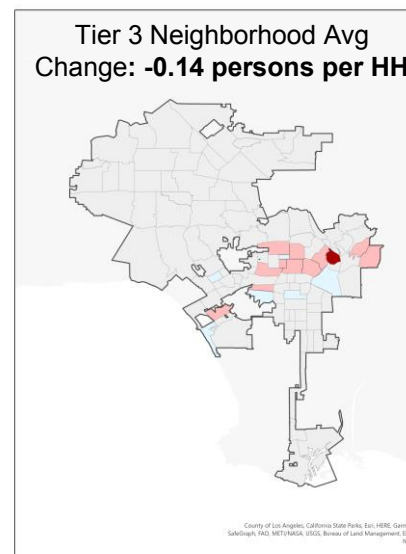

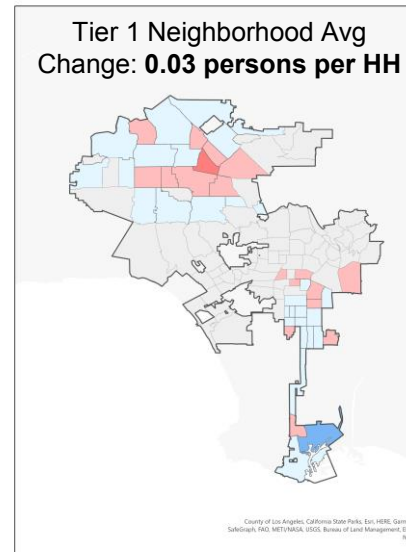

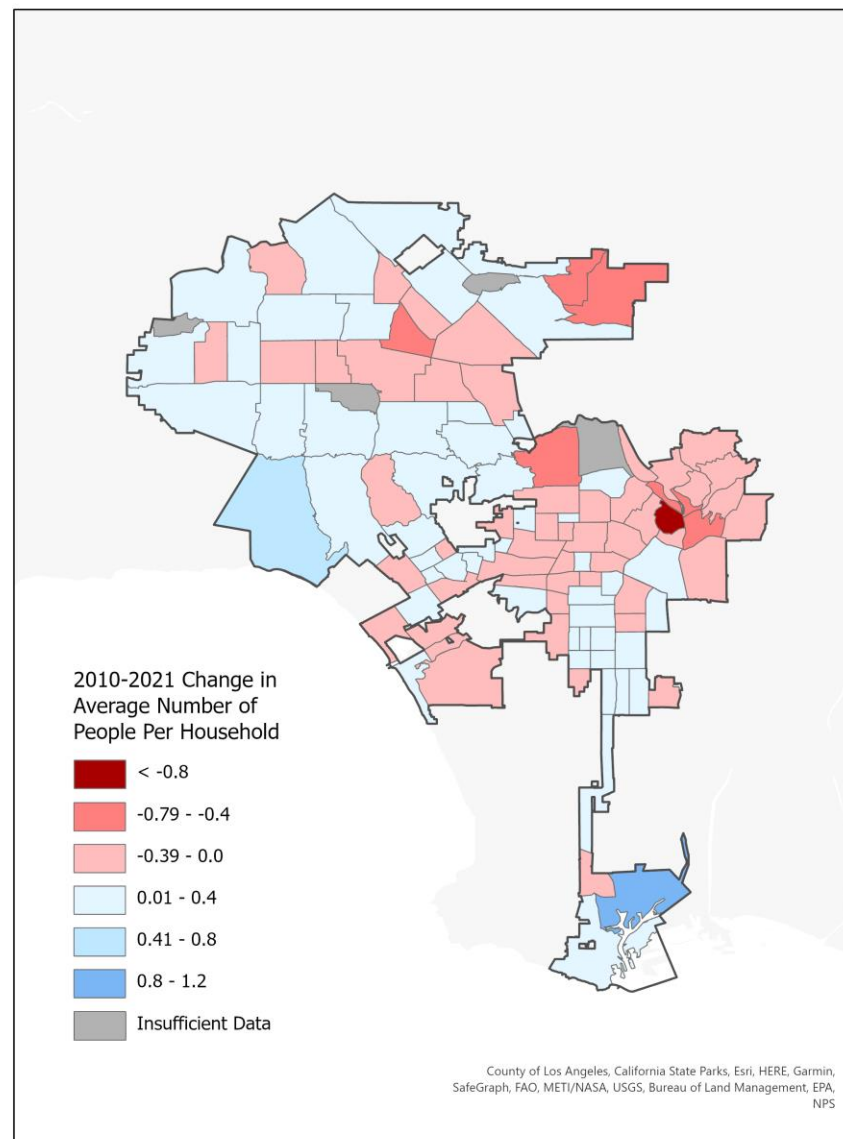

Market Tier

Market Tier 1 (Low)

Market Tier 2 (Medium/Low)

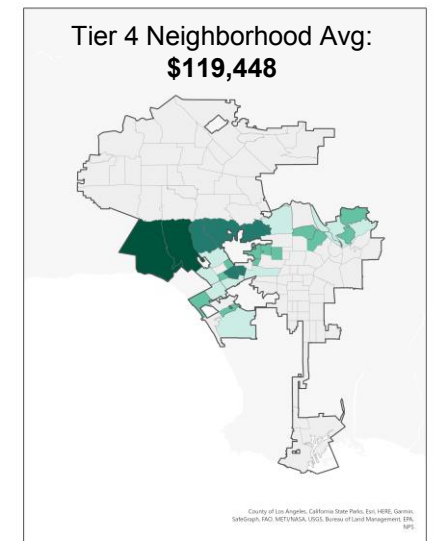

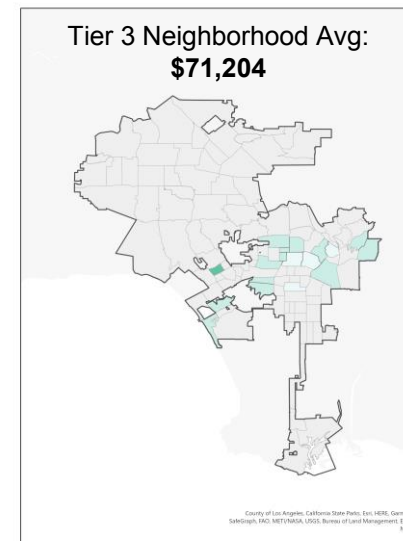

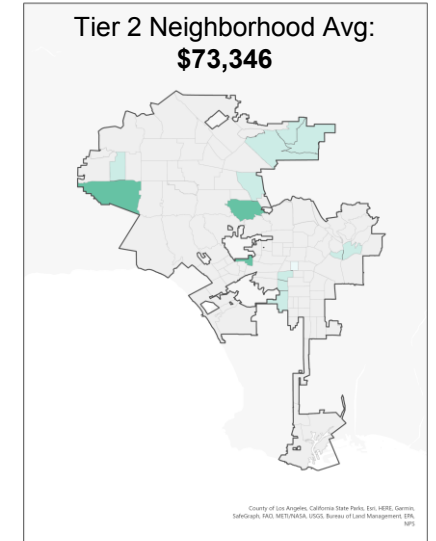

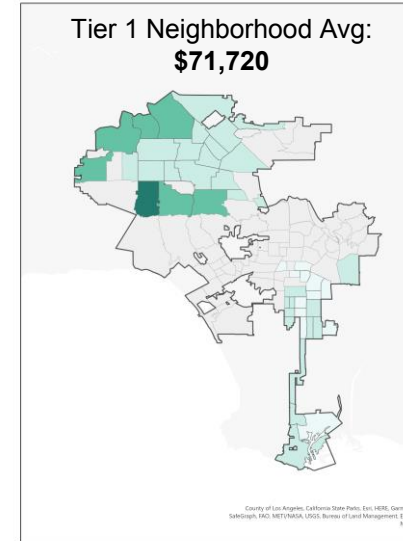

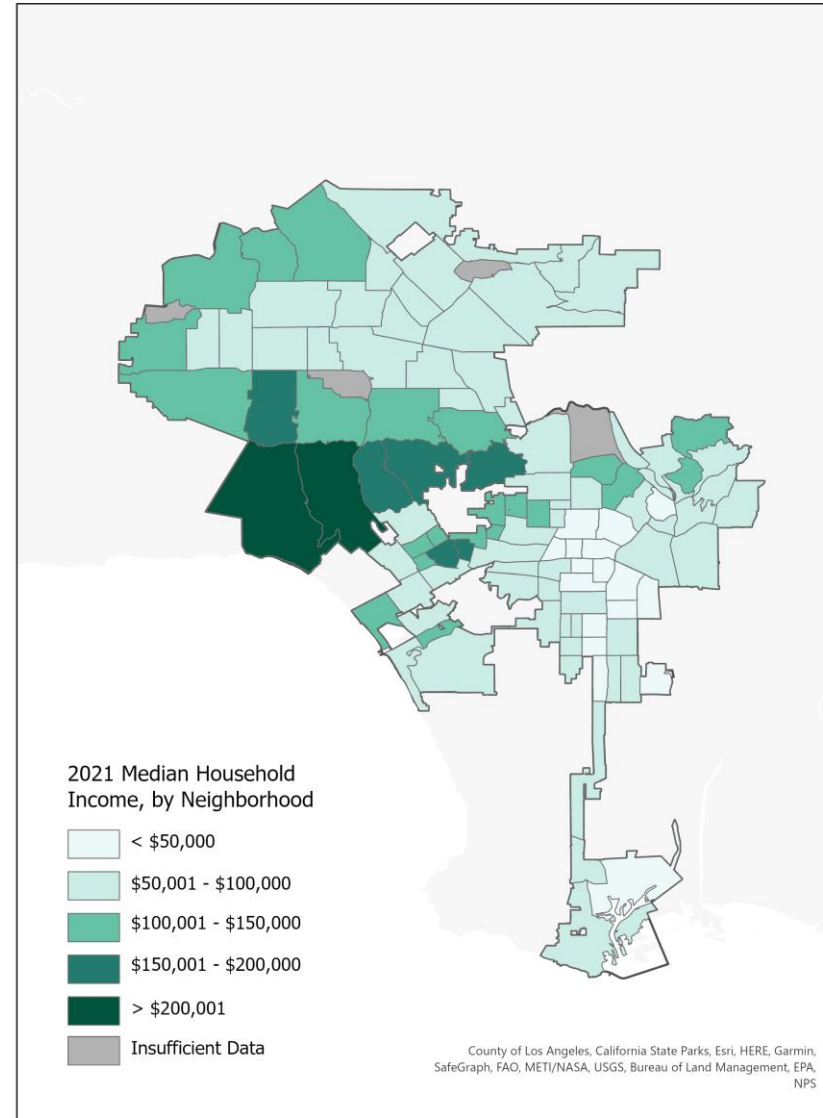

Market Tier 3 (Medium/High)

Market Tier 4 (High)

Median Household Income

- The citywide median household income is \$85,293 (\$2021).
- Tiers 1,2, and 3 all have average neighborhood incomes in the \$71,000-\$74,000 range.
- Only in Tier 4 does the average neighborhood income exceed the citywide median, with an average of just over \$119,000.

Market Tier

Market Tier 1 (Low)

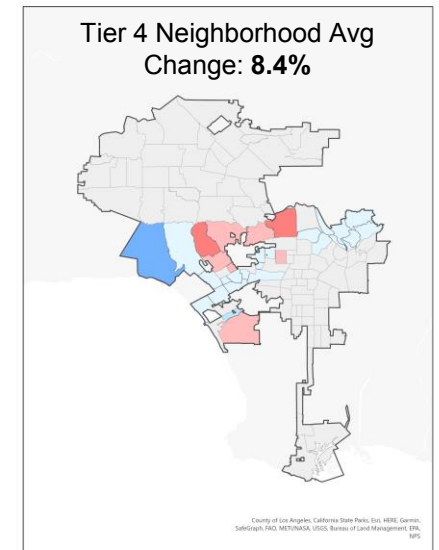

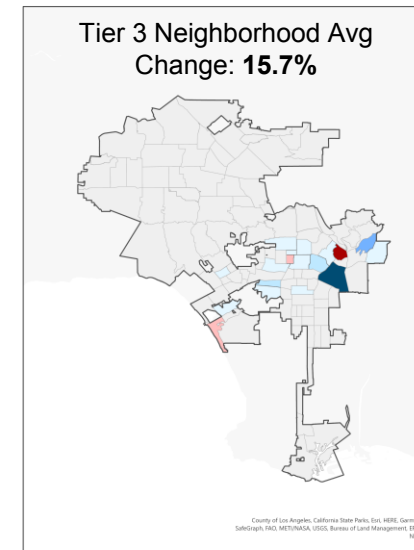

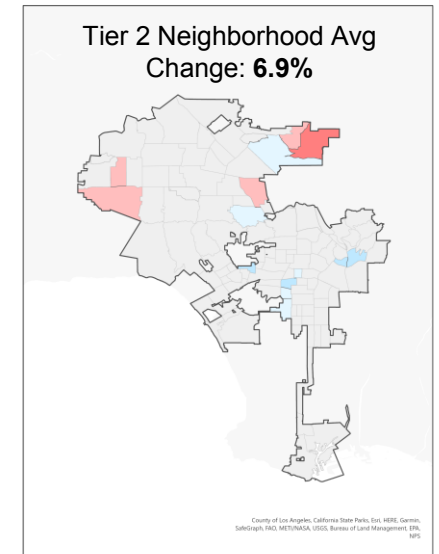

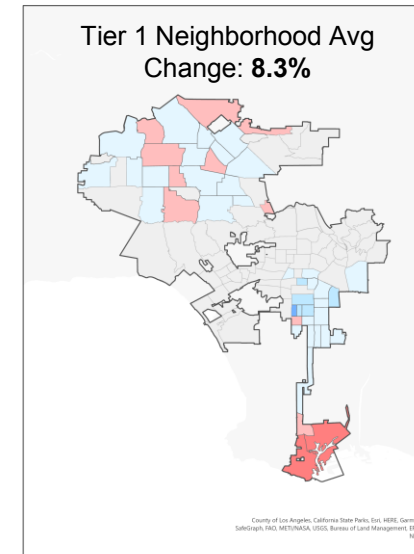

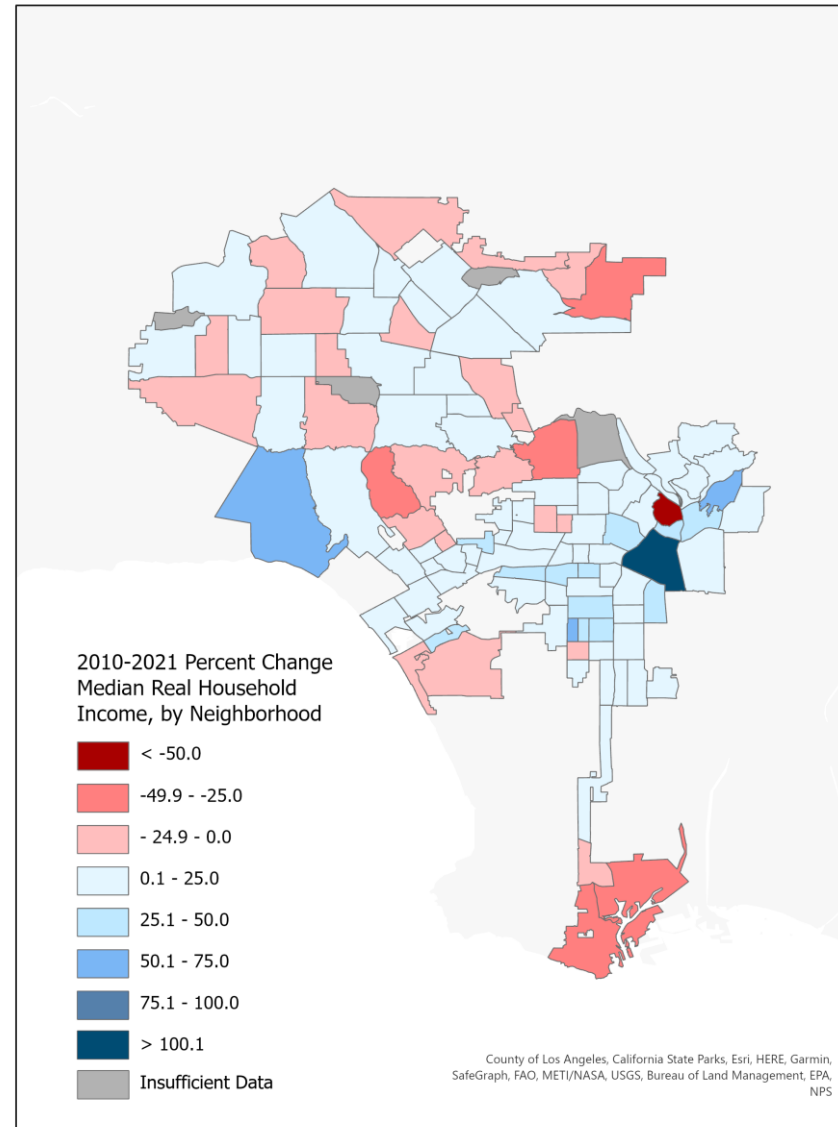

Market Tier 2 (Medium/Low)

Market Tier 3 (Medium/High)

Market Tier 4 (High)

Change in Median Household Income*

- From 2010 to 2021, median household income (in \$2021) in the city increased by 9.4%.
- Only Tier 3 neighborhoods, with income growth of 15.7%, had growth greater than the citywide average.
- Tier 2 neighborhoods had the slowest household income growth with 6.9% growth from 2010 to 2021.
- The neighborhood that experienced the largest increase in median household income during this time period was Downtown, which saw a large influx of new housing units during the period.

Market Tier

Market Tier 2 (Medium/Low)

Market Tier 3 (Medium/High)

Market Tier 4 (High)

Source: US Census American Community Survey 2021, 5-Year Estimates; Bureau of Labor and Statistics Consumer Price Index; AECOM.

*Household incomes for 2010 were adjusted for inflation to 2021\$ to illustrate a fair comparison between the two years. The Bureau of Labor and Statistics Consumer Price Index was used to make the adjustment.

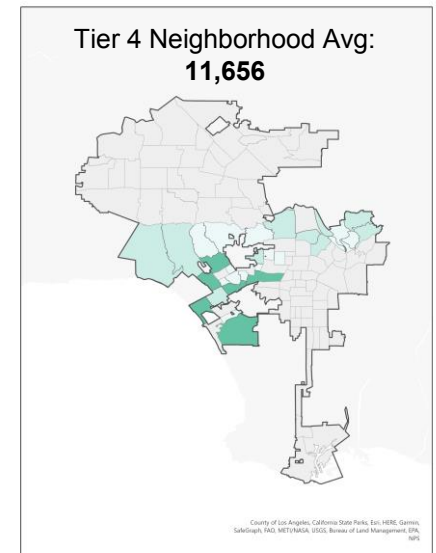

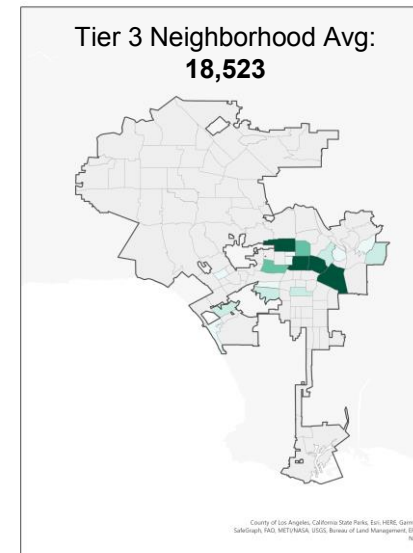

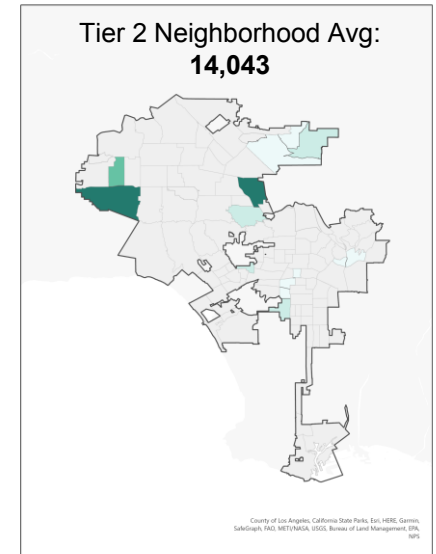

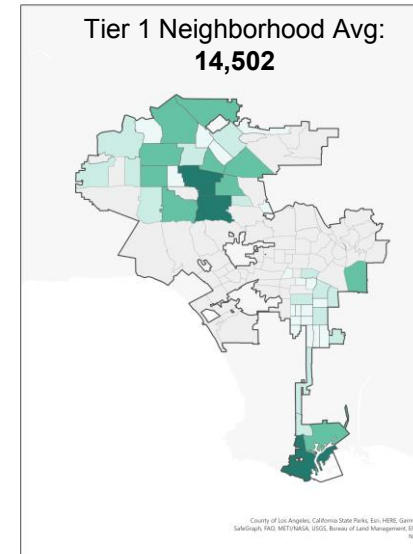

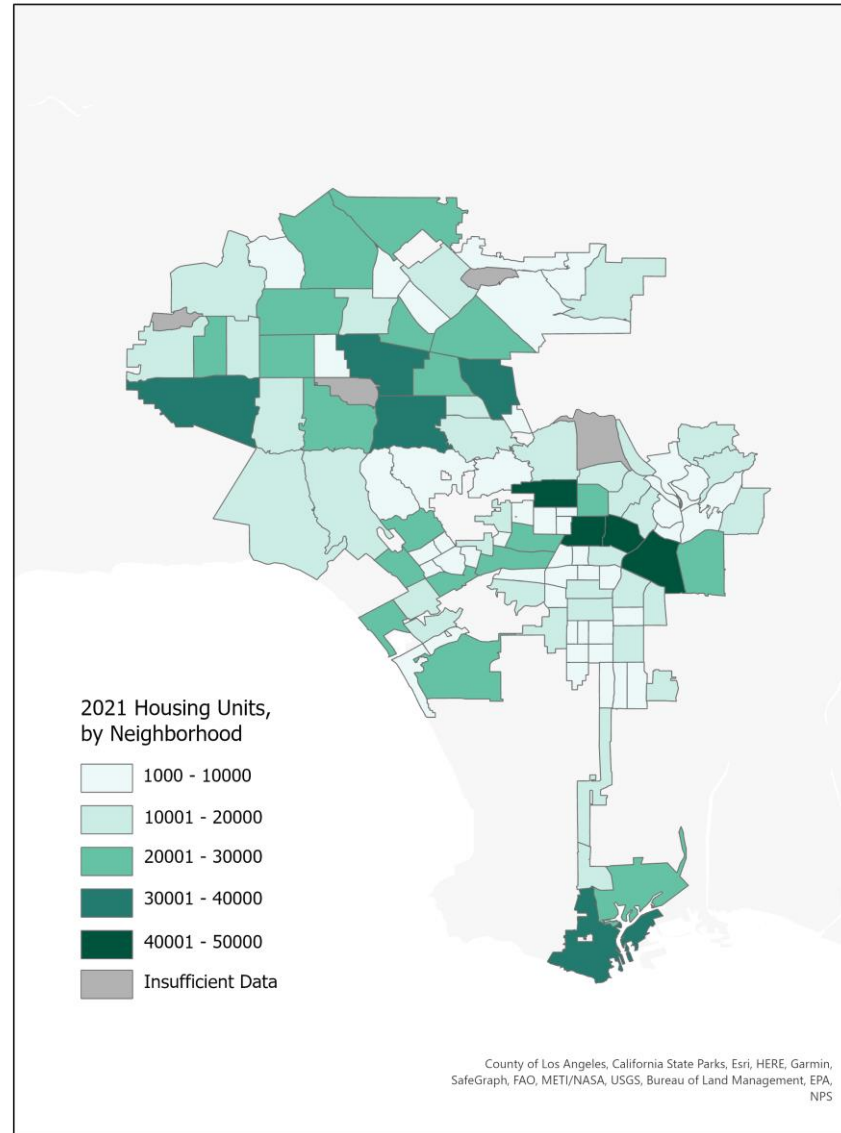

For full backing data, see Appendix C.4

Housing Inventory

- Citywide, the average number of units per neighborhood is 14,300.
- 43% of housing units in Los Angeles are within Tier 1 neighborhoods, 23% are in Tier 4 neighborhoods, 21% are in Tier 3 neighborhoods, and 12% are in Tier 2 neighborhoods.
- The average number of housing units per neighborhood does not vary significantly, ranging from nearly 12,000 in Tier 4 to nearly 19,000 in Tier 3.

Housing Inventory by Market Tier

Market Tier	Number of Housing Units	% of Citywide Total
Market Tier 1 (Low)	681,596	43%
Market Tier 2 (Medium/Low)	196,606	12%
Market Tier 3 (Medium/High)	333,408	21%
Market Tier 4 (High)	361,348	23%

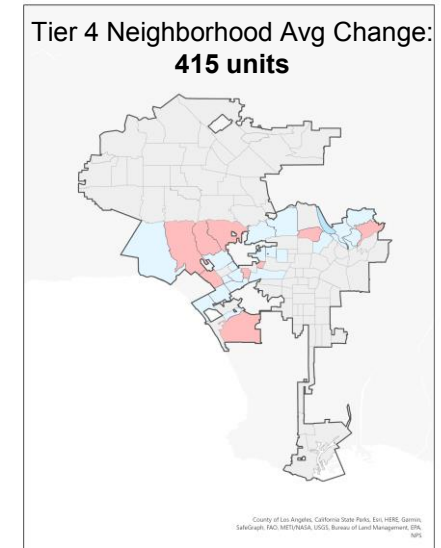

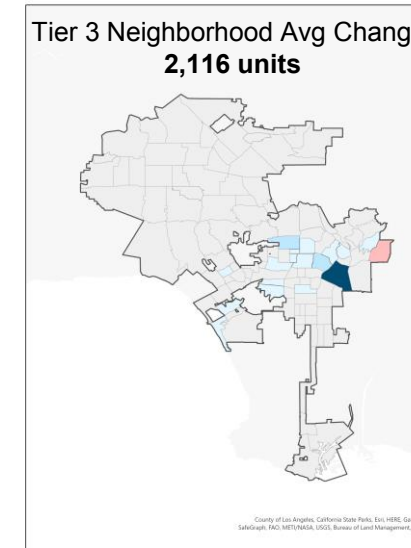

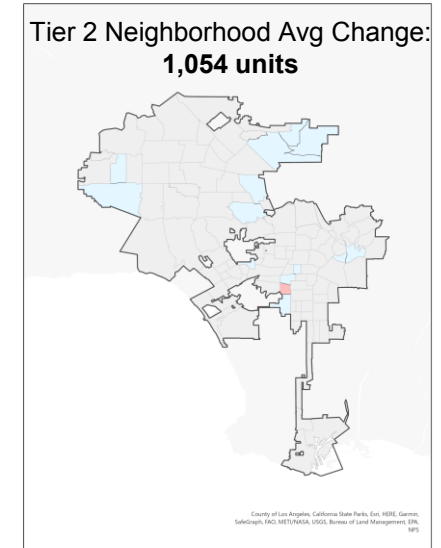

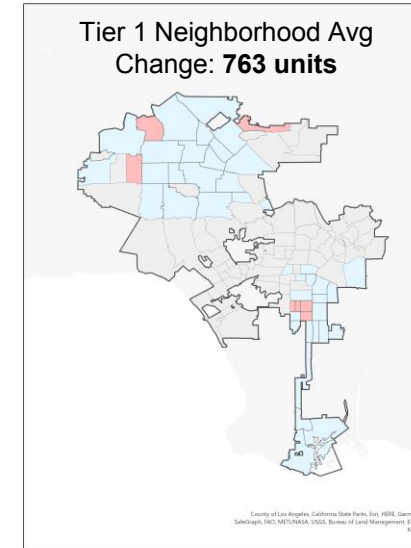

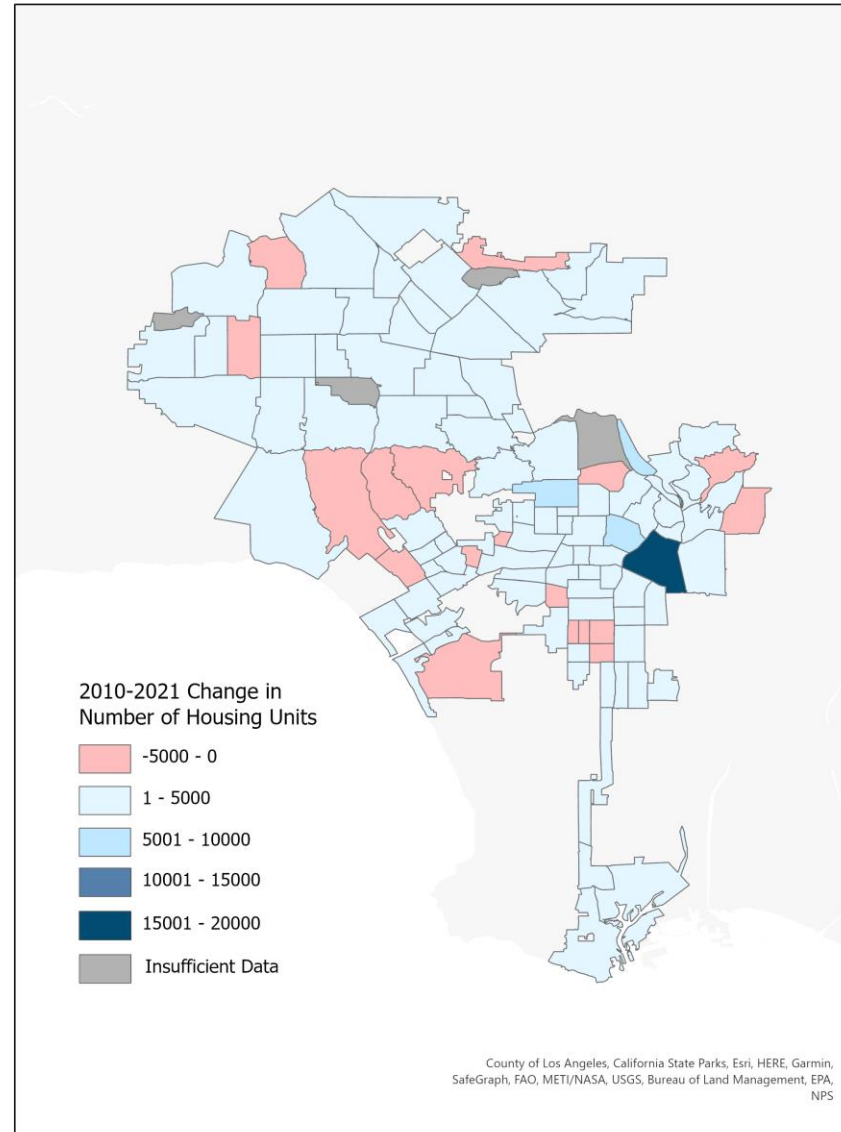

Source: U.S Census American Community Survey 2021, 5-Year Estimates; AECOM
For full backing data, see Appendix C.5

Housing Inventory Growth Since 2010

- From 2010 to 2021, housing inventory grew 6.9% with the addition of 101,569 units.
- The greatest growth occurred in Tier 3, which added 38,097 units. High inventory growth rates in Tier 3 were driven by new development in dense neighborhoods near the city core, including Downtown, Hollywood, and Koreatown.
- Some neighborhoods, especially in Tier 4, experienced small declines in the number of housing units. In these high value markets, some homes may only be occupied seasonally or dedicated to home sharing. In some, property owners may be consolidating units to form larger homes.

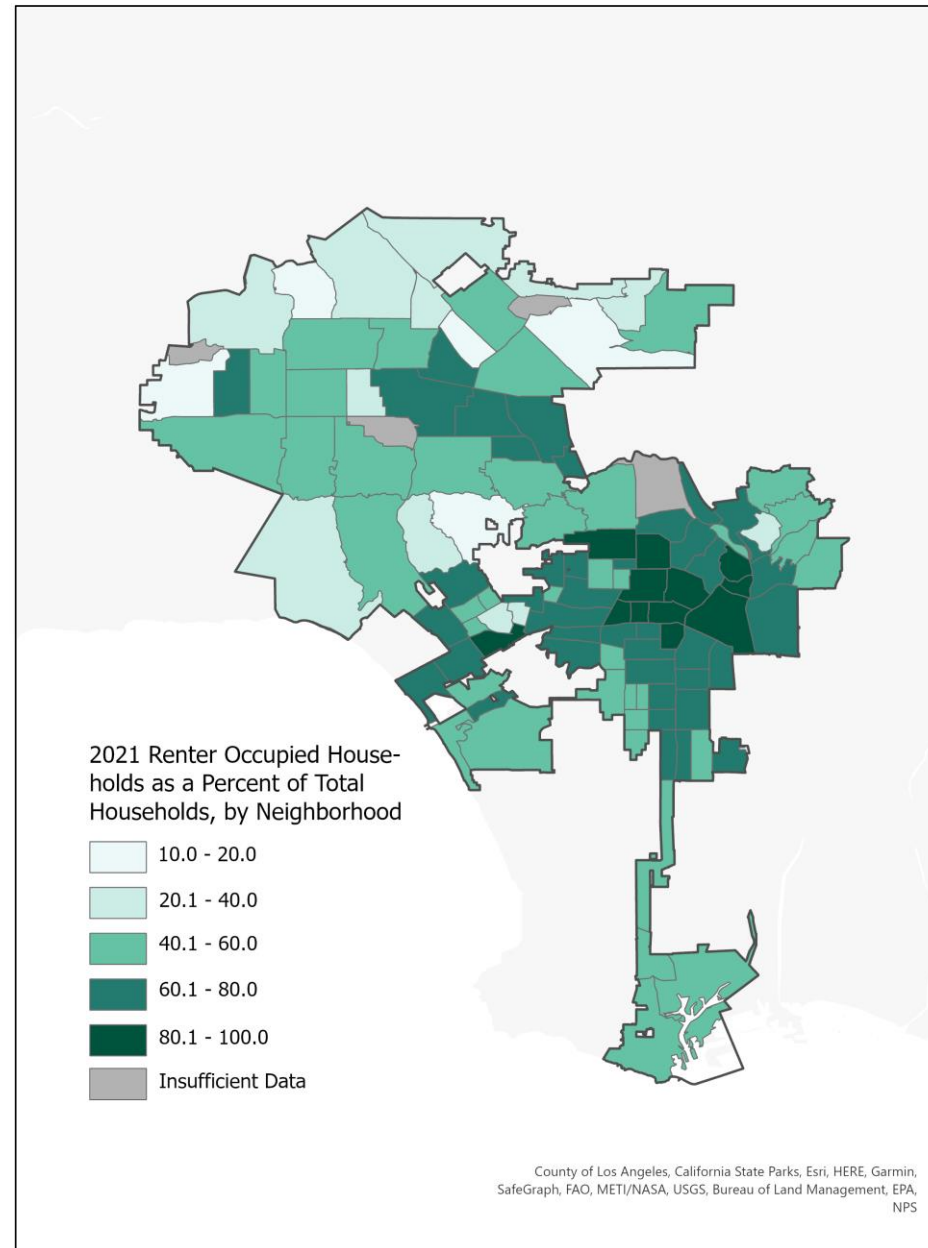

Housing Inventory Growth by Market Tier
Since 2010

Market Tier	Housing Units Added	% of Citywide Growth
Market Tier 1 (Low)	35,845	35%
Market Tier 2 (Medium/Low)	14,750	15%
Market Tier 3 (Medium/High)	38,097	38%
Market Tier 4 (High)	12,877	13%
Total	101,569	100%

Tenure

- Citywide, 59% of households are renter-occupied.
- Renters make up the largest share of households in Tier 3, at 72.4%, followed by 60% in Tier 2, 55.8% in Tier 1, and 54.4% in Tier 4.

For full backing data, see **Appendix C.6**

Tenure Change Since 2010

- Since 2010, there has been a 6% increase in rental households as a share of the city total.
- The greatest increase in renters occurred in Tier 4 (7.9%), followed by 7.2% in Tier 1, 3.6% in Tier 2, and 1.2% in Tier 1.
- High increases in rental household share in Tier 1 Porter Ranch and Tier 4 Bel Air reflect the impact of new rental projects introduced into neighborhoods with low existing inventory of rental units.

Tier 2 Neighborhood Avg: **3.6% increase**

Tier 3 Neighborhood Avg: **1.2% increase**

Tier 4 Neighborhood Avg: **7.9% increase**

Source: U.S Census American Community Survey 2021, 5-Year Estimates; AECOM
For full backing data, see **Appendix C.6**

Median Rent (all units)

- According to ACS 2021 5-year estimates, the median gross rent for all units citywide averaged \$1,785 per unit.
- Tier 4 gross rent is the highest at \$2,114 per unit, while gross rent in all the other tiers falls in a narrow below-average band of between \$1,640 and \$1,687 per unit.
- The relatively low level of rent differentiation between Tiers 1-3 is attributable to a number of factors. Most importantly, older units typically command far lower rent than newer units, which weighs down neighborhoods with a significant inventory of older units. In addition, a large portion of Tier 1 and Tier 2 neighborhoods are located in suburban areas where units are larger, which skews overall Tier averages.

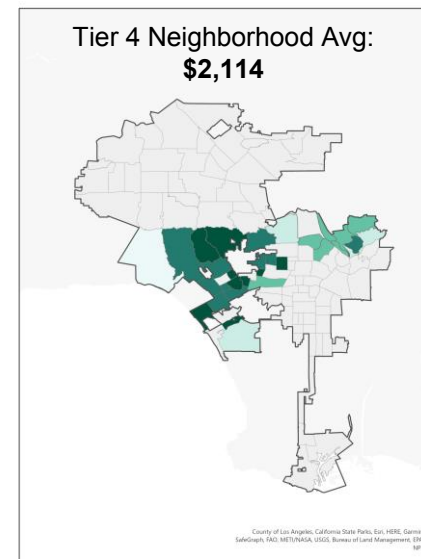

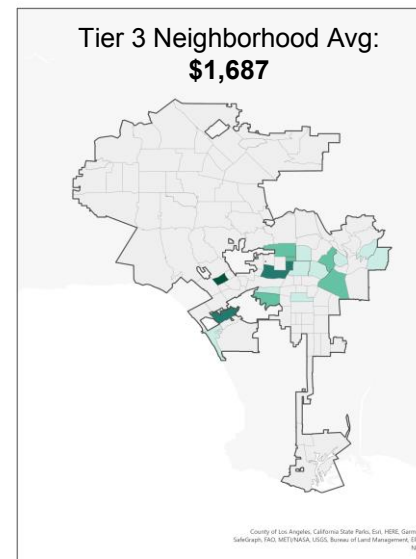

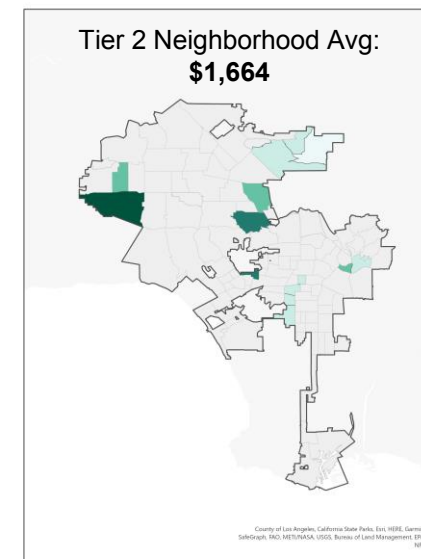

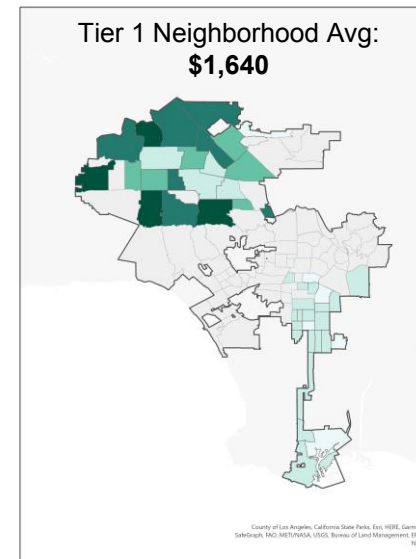

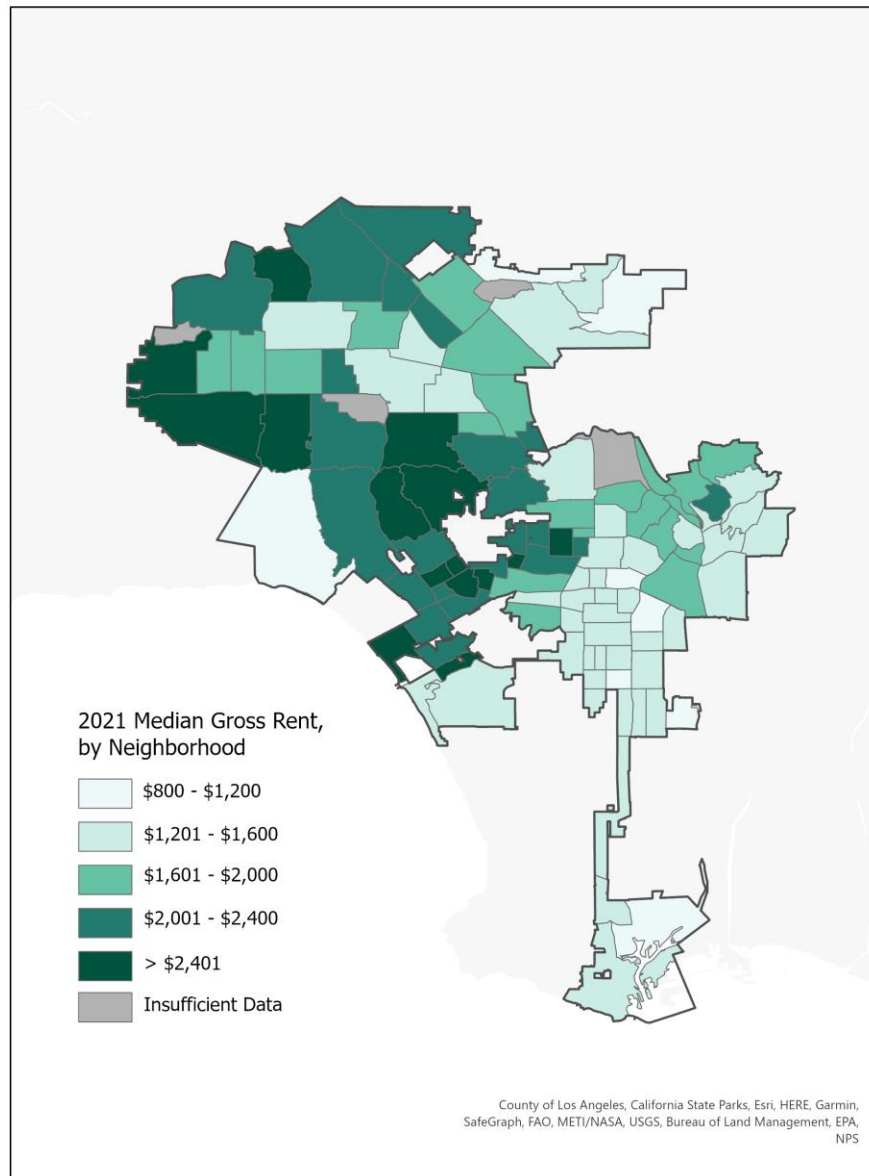

Market Tier

Market Tier 1 (Low)

Market Tier 2 (Medium/Low)

Market Tier 3 (Medium/High)

Market Tier 4 (High)

Source: U.S Census American Community Survey 2021, 5-Year Estimates; AECOM
For full backing data, see Appendix C.7

Change in Median Rent (all units)

- Citywide, median gross rent per unit (all units) between 2010 and 2021 grew 50%.
- Each Tier has at least one neighborhood with a 90% increase in rent per unit including: West Hills, Tarzana, Shadow Hills, Downtown, Elysian Valley, and Mount Washington.
- Two neighborhoods showed rent decline: Lakeview Terrace in Tier 1 and the Hollywood Hills in Tier 4. Both neighborhoods also declined in population and households during the period. (Other neighborhoods experienced negative population and household growth but also saw positive rent growth during the period.)
- For full backing data, see Appendix.

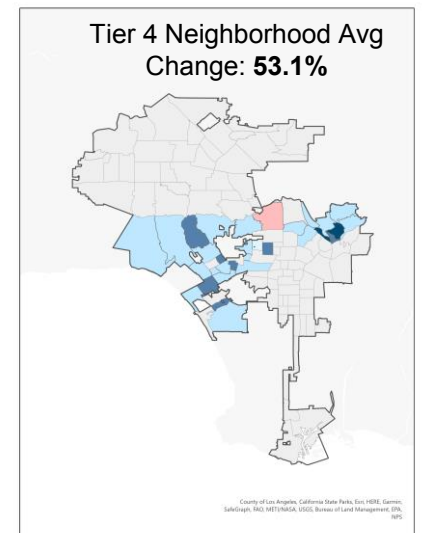

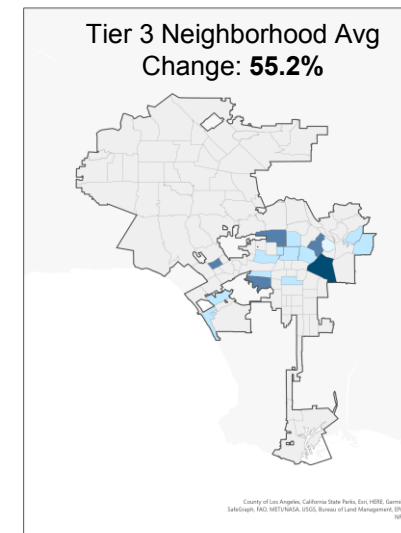

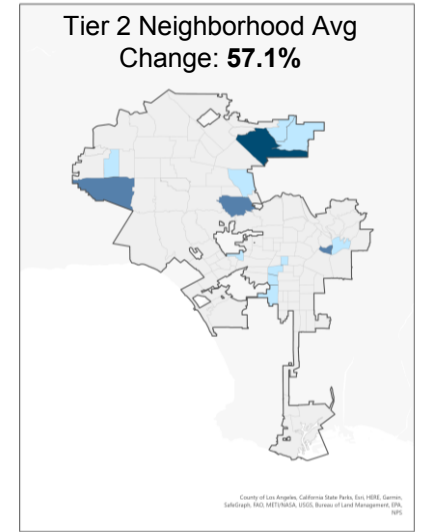

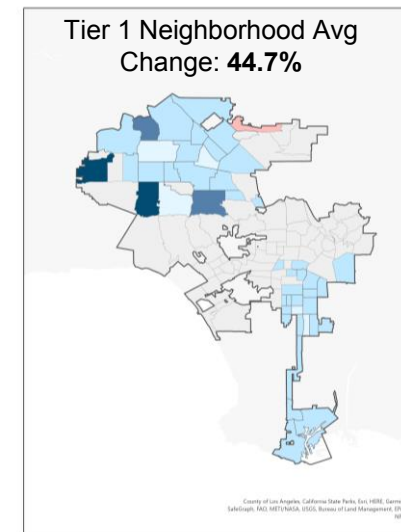

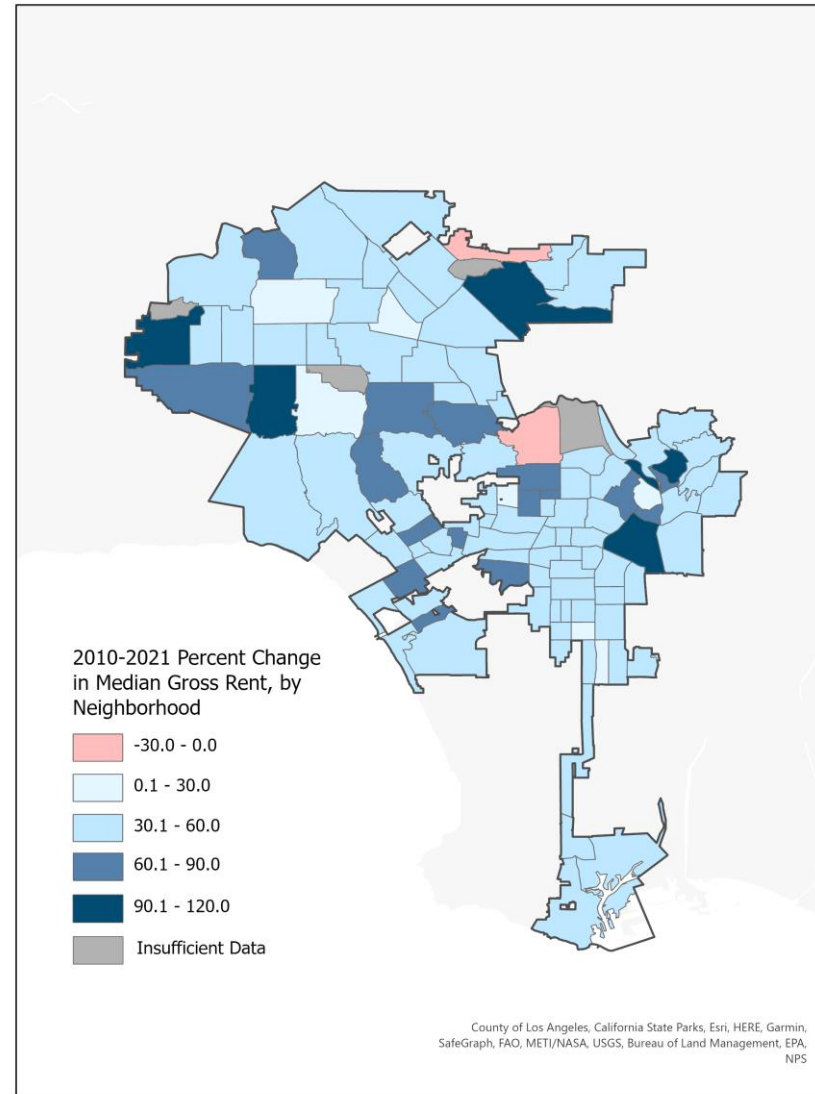

Market Tier

Market Tier 1 (Low)

Market Tier 2 (Medium/Low)

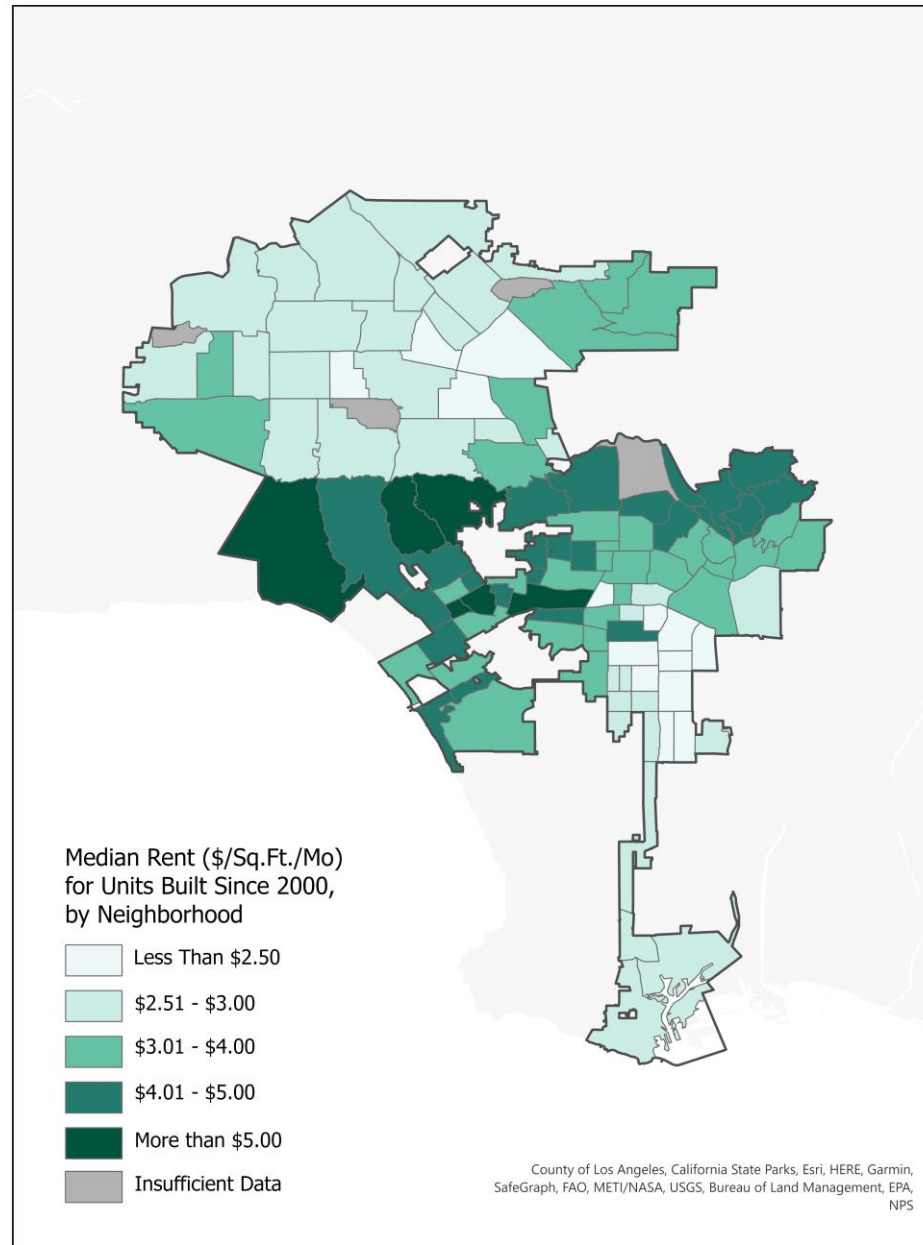

Market Tier 3 (Medium/High)

Market Tier 4 (High)

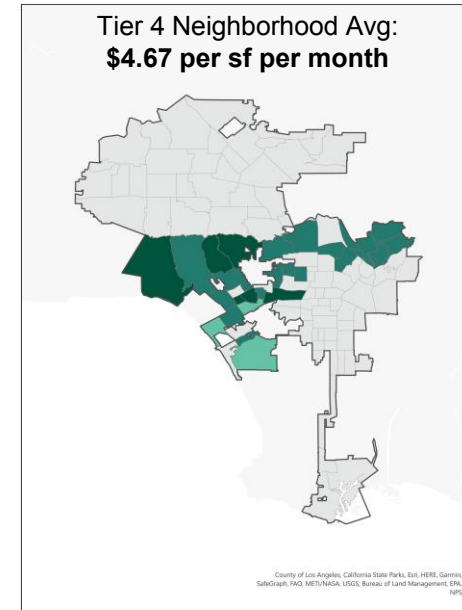

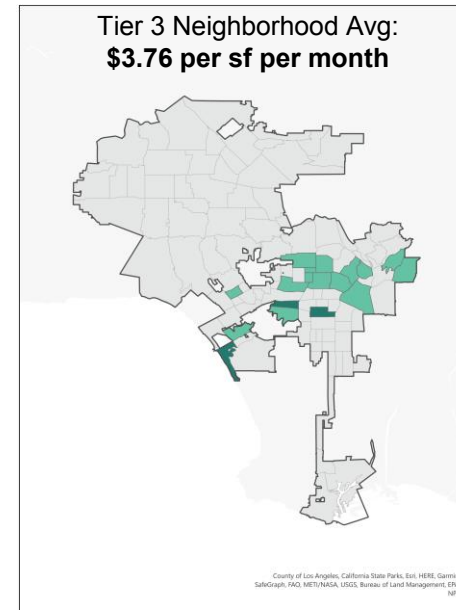

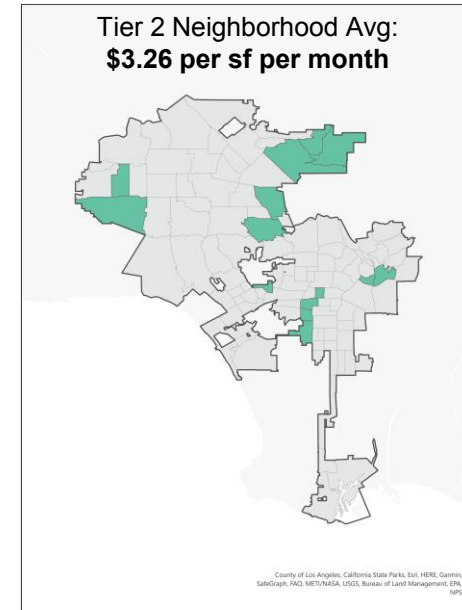

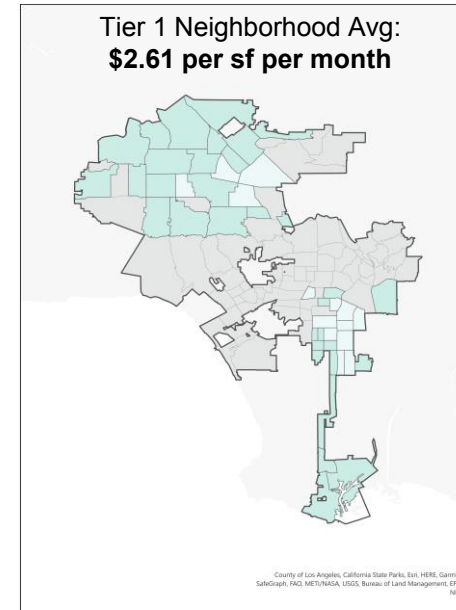

Median Rent (\$/SF, Units Built After 2000)

- While there is relatively little differentiation in rent/unit for Tiers 1, 2, and 3 when all units in a neighborhood are considered (as shown in the two previous slides), there is wide differentiation between Tiers when only more recently constructed units are assessed and when the rates are normalized per square foot, which eliminates the impact of unit size on averages, as shown here.
- Tier 1 neighborhoods average \$2.61/sq.ft. month, while Tier 2 are 25% higher at \$3.26, Tier 3 44% higher at \$3.76, and Tier 4 79% higher at \$4.67
- For comparison, the median citywide for all units (not just those constructed since 2000) is \$2.32 per SF.

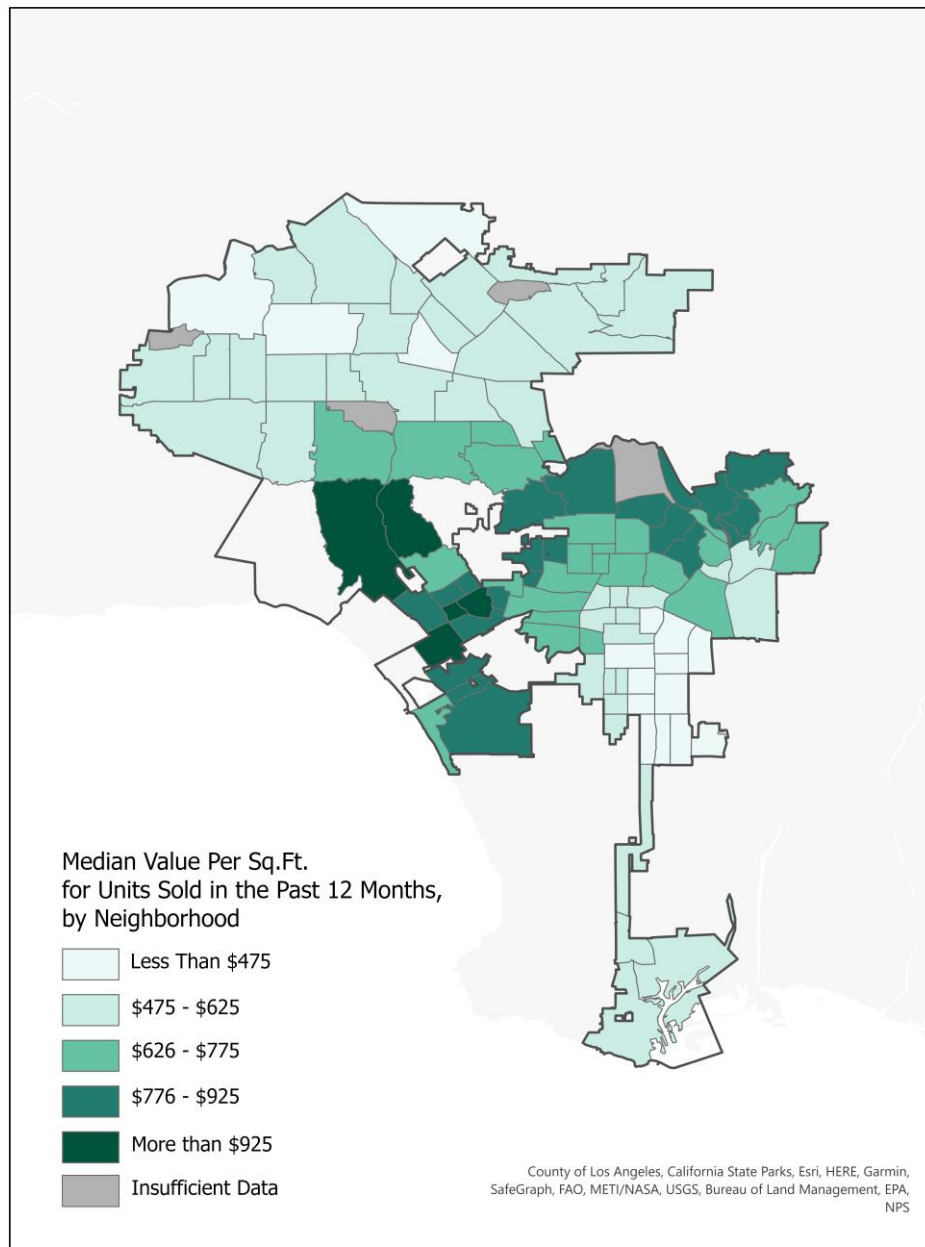

Source: CoStar

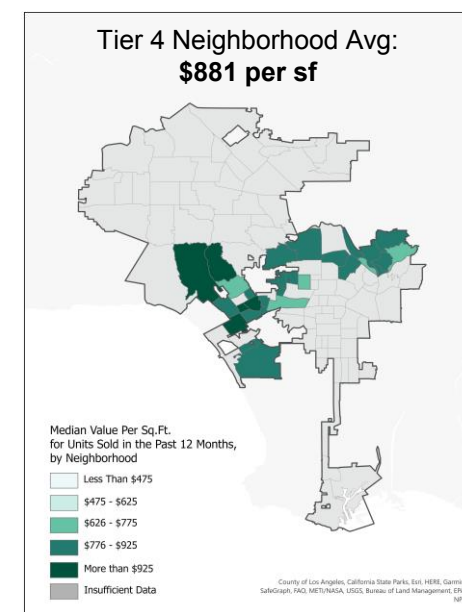

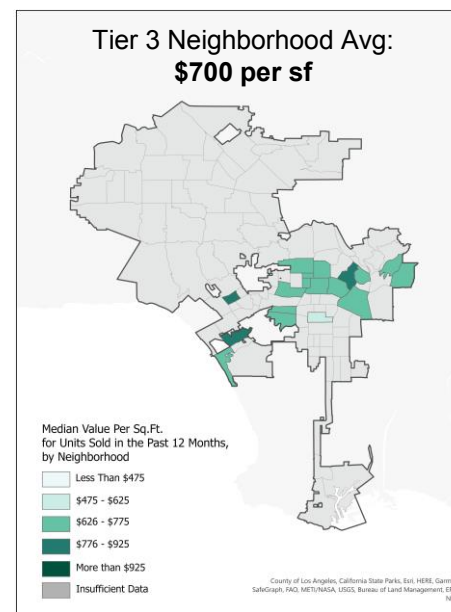

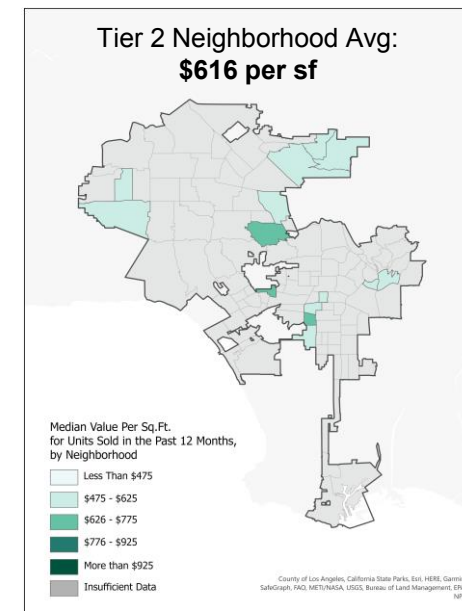

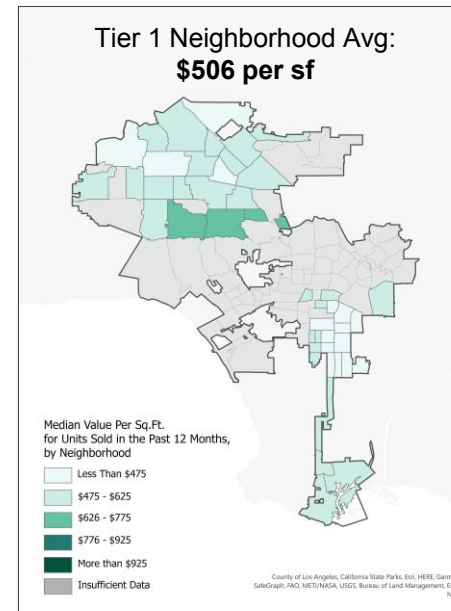

Home Value (\$ per SF, Units Transacted 10/21-9/22)

- A set of all residential transactions in the city from between October 2021 and September 2022, measured by zip code, indicates a median value of \$658 per square foot.
- Home values broken out by Tiers indicate Tier 1 neighborhoods have a median of \$506/sq.ft., while Tier 2 are 22% higher at \$616, Tier 3 38% higher at \$700, and Tier 4 74% higher at \$881

4. Housing Typology Assessment

Housing Typology Selection

A Multi-Step Approach to Select Housing Typologies for Future Testing

The figure below describes AECOM's multi-step approach to selecting housing typologies for further evaluation throughout the remainder of this project. Our approach begins by casting a wide net with a range of residential typologies and gradually narrows from there – concluding with a set of five typologies that will provide a representative sampling of results for the Los Angeles housing market in general and within the four market tiers more specifically.

Step 1 - Identify

Identify range of residential typologies

Step 2 - Assess

Broadly assess for potential future application in Los Angeles

Step 3 - Refine

Refine set based on recent development trends in each market area for further proforma analysis

Future Testing (Later Tasks)

Testing (Tasks 5 and 6)

Tier 1
5-6 defined prototypes

Tier 2
5-6 defined prototypes

Tier 3
5-6 defined prototypes

Tier 4
5-6 defined prototypes

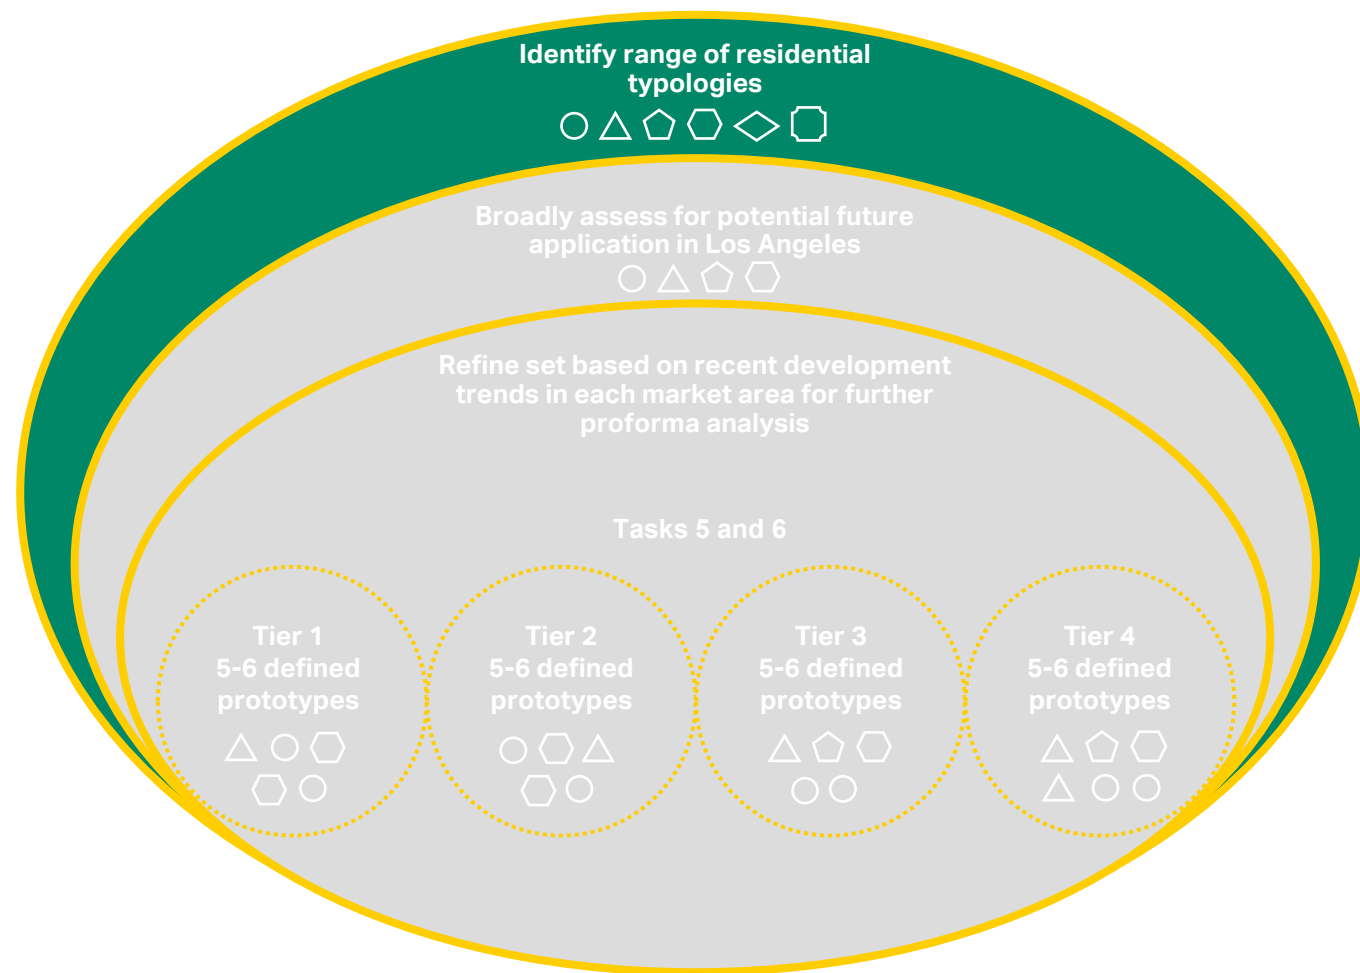

Step 1: Identify

Housing Typology Selection

In Step 1, a broad set of 21 housing typologies was assembled. These include housing products found in and outside the Los Angeles market and reflect uses that could help the city realize its goals to expedite housing growth, offer housing options at a wide range of price points, and expand “missing middle” formats.

The set was sorted into three groups by height: low-rise (1-3 stories), mid-rise (5-8 stories), and high-rise (9 or more stories), as shown on the following five slides

Step 1: Identify

Housing Typology Selection

Low-Rise (1-3 stories)

Step 1: Identify

Initial Set of Housing Typologies—Low Rise (1 of 3)

Low-Rise (1-3 Stories)

No.	Typology	Description	Typical Density (Gross DU/AC)	Example
L-1	Accessory dwelling unit (ADU)	A secondary residential unit that is either detached or attached to the main residential structure ⁴	3 – 6 du/acre	
L-2	Mobile Home Park	A community of multiple mobile homes that are usually prefabricated and without permanent foundations	5 – 10 du/acre	
L-3	Single-Family Residence (SFR)	A 1 to 3-story detached structure consisted of one single unit	3 – 6 du/acre	
L-4	Duplex V1: Side-by-Side V2: Stacked	A 1 to 2.5-story detached structure consisted of two dwelling units with a direct unit entry from the street ¹	6 -16 du/acre	
L-5	Triplex V1: Side-by-Side V2: Stacked	A 3 to 3.5-story detached structure consisted of three dwelling units that are usually stacked ¹	11 – 35 du/acre	
L-6	Fourplex V1: Side-by-Side V2: Stacked	A 2 to 2.5-story detached structure consisted of four dwelling units, usually in the form of two below and two above ¹	14 - 25 du/acre	

Step 1: Identify

Initial Set of Housing Typologies—Low Rise (2 of 3)

Low-Rise (1-3 Stories)

No.	Typology	Description	Typical Density (Gross DU/AC)	Example
L-7	Multiplex V1: Side-by-Side V2: Stacked	A 2 to 2.5-story detached structure consisted of 5 to 12 units ¹	10 - 63 du/acre	
L-8	Townhouse	A 2 to 4-story attached structure consisted of 2 to 16 units with a direct entry from the street and usually with on-site garage or parking ¹	10 – 22 du/acre	
L-9	Bungalow Court	A community of multiple 1 to 1.5-story detached single-family houses sharing a communal courtyard ¹	10 – 31 du/acre	
L-10	Courtyard Apartment	A 1 to 3.5-story detached, usually either "U" or "C"-shaped structure consisted of multiple dwelling units facing one or multiple courtyard ¹	21 – 61 du/acre	
L-11	Garden Apartment	A community of multiple 2 to 3-story multi-family apartment buildings that is designed as a "superblock" with abundant green spaces to separate car and pedestrian traffic	19 – 25 du/acre	
L-12	Traditional Rowhouse/Walk-Up V1: Single-Family V2: Single-Family Over ADU V3: Rowhouse Flats	A series of 2 to 3.5-story attached structures with similar forms and design lining along the street; each structure is consisted of one single unit, or one single unit above and one smaller ADU below, or 1- to 3-unit apartments	15 – 90 du/acre	

Step 1: Identify

Initial Set of Housing Typologies—Low Rise (3 of 3)

Low-Rise (1-3 Stories)

No.	Typology	Description	Typical Density (Gross DU/AC)	Example
L-13	Dingbat Apartments/Tuck-Under	An iconic Southern California form of 2 to 3-story detached structure consisted of 6 to 12 units with a carport on the ground level ²	20 – 30 du/acre	
L-14	Housing Over Retail	A 2 to 4-story detached or attached structure consisted of residential units above and commercial retail below.	20 – 30 du/acre	

Step 1: Identify

Initial Set of Housing Typologies—Mid-Rise & High-Rise

Mid-Rise (4-8 stories)

No.	Typology	Description	Typical Density (Gross DU/AC)	Example
M-1	Wrap-around	A 4 to 7-story residential complex “wrapping” a central parking structure ³	50 – 90 du/acre	
M-2	Podium	A 4 to 6-story wood or CFS residential complex sitting on a concrete base structure ³	80 – 150 du/acre	
M-3	Legacy Urban Housing (Minimal to No Parking)	A mid-rise residential structure with none or minimal parking provided	100 – 150 du/acre	

High-Rise (9 or more stories)

H-1	Residential Tower on a Base	A high-rise steel or concrete residential structure sitting on a base structure where houses non-residential space such as retails	140 – 300+ du/acre	
H-2	Residential Tower	A high-rise steel or concrete residential structure	140 – 300+ du/acre	

Step 2: Assess

Housing Typology Selection

In Step 2, AECOM assessed and qualified each housing typology for viability and applicability to the City of Los Angeles's RHNA Rezoning Strategies. Each typology in the initial set was assessed by several broad screens for feasibility:

- a) **Historical Precedent in LA:** Has the typology been built before?
- b) **Built since 2000 in LA:** Has the typology been developed recently?
- c) **Impeded by Market or Site Conditions:** Is development feasibility of the typology impeded by market or site conditions?
 - **Parking:** The economics of on-site parking makes certain typologies less feasible. For example, for Rowhouses, Triplexes, Fourplexes, Courtyard Apartments, and Bungalows, relatively low building height and high lot coverage requires either reduced or subterranean parking. In the current market, market-rate developers consider reduced-parking designs to be too risky even if projects qualify for reduced parking, and the high cost of subterranean parking typically requires higher-density typologies.
 - **Land Requirements:** Large minimum site requirements of certain typologies such as Wrap-Around, which features a central parking garage surrounded by residential units, are less suitable for infill environments where assembling a large development site in a built-out area is challenging.
 - **"Dated" Styles:** Styles such as Dingbat and Tuck-Under apartments are prevalent in Los Angeles but now considered dated by developers and renters.
- d) **Alignment with LACP's RHNA re-zoning strategies:**
 - **Missing Middle (MM):** Higher density than single family at three stories or less
 - **Density Bonus (DB):** Supports higher density
 - **Transit-Oriented Communities (TOC):** Supports higher density and mixed use
 - **Commercial Corridor (CC):** Supports higher density and mixed use
 - **Residential Corridor (RC):** Supports missing middle density (greater than single-family, three stories or less)

Step 2: Assess

Housing Typology Assessment by Parameter

The results of the broad screening using the four criteria described on the previous page are summarized in the table below and on the following page. These results are illustrative of the process underwent by AECOM and LACP as the final recommended typologies for further analysis were decided. These results are not intended to prohibit or discourage the development of certain typologies over others, but to narrow the future stages of our analysis to focus on typologies that are most likely to be constructed in Los Angeles in the future.

Typology	Current Market Viability		c) Impeded by Market or Site Conditions	d) Alignment with LACP's RHNA re-zoning strategies*
	a) Historical Precedent in LA	b) Built since 2000 in LA		
Low-Rise (1-3 Stories)				
Accessory dwelling unit (ADU)	X	X		MM
Mobile Home Park	X	X		
Single-family residence (SFR)	X	X		
Duplex	X	X		MM, SLD
Triplex	X	X	Parking, less profitable than higher-density typologies	MM
Fourplex	X	X	Parking, less profitable than higher-density typologies	MM
Multiplex	X	X		MM, DB, RC
Townhouse	X	X		MM, SLD, DB, RC, CC
Bungalow Court	X		Parking, less profitable than higher-density typologies	MM, SLD, DB, RC
Courtyard Apartment	X		Parking, less profitable than higher-density typologies	MM, DB, RC, CC
Garden Apartment	X		Parking, less profitable than higher-density typologies	MM
Rowhouse/Walk-up	X		Parking, conflicts with setback requirements	MM, DB, RC, CC
Dingbat Apartments/Tuck-under	X		Dated style, less profitable than higher-density typologies	MM, DB, RC
Housing Over Retail	X	X	Parking	DB, TOC, RC, CC
Mid-Rise (4-8 Stories)				
Wrap-around			Land-intensive	DB, TOC, MU, CC
Podium	X	X		DB, TOC, MU, CC
Legacy Urban Apartments	X		Parking	
High-Rise (9 or More Stories)				
Residential Tower on a Base	X	X		DB, TOC, CC
Residential Tower	X	X		DB, TOC, CC

*Housing Strategies include: Missing Middle (MM), Small Lot Subdivision (SLD); Density Bonus (DB), Transit-Oriented Communities (TOC), Micro-Units (MU), Commercial Corridor (CC), Residential Corridor (RC)

-  Not aligned with RHNA Rezoning Strategies
-  Not recently validated in LA Market
-  Site and Market Impediments

*The ADU typology, while an important component of the city's housing strategy, is a stand-alone policy that's outside of consideration by this RHNA rezoning strategy assessment.

Step 2: Assess

Shortlisted Prototype Concepts

Following the prior analysis and in consultation with staff, AECOM recommends the following eleven (11) typologies for further study and analysis.

(Note: while the Bungalow Court, Multifamily Row House, and Courtyard Apartment typologies were found in the prior assessment to face market and site impediments to feasibility, they merit further consideration under proposed RHNA rezoning strategies, which could alter the underlying regulatory conditions and contribute positively to project economics.)

4D Plex-Style

- 10 – 17 DUAC
- 4-6 units on 13,000-25,000 SF lot
- Attached or separated garage, surface prkng

RH Multifamily Row House

- 25-35 DUAC
- 4-5 stories, 56'
- Separated garage, or no parking

CGF Commercial Ground Floor Residential Above

- 60 – 90 DUAC
- 4-5 stories, 100% wood stick
- No parking, subterranean

P7 7-Story Podium

- 110 – 150 DUAC
- 7 stories, higher density
- Subterranean parking or above-grade parking

BC Bungalow Court

- 18 – 29 DUAC
- 1-2 story, low lot coverage, bldg. separation
- Surface parking or separated garage

CY3 33' Courtyard Multiplex

- 30 – 43 DUAC
- Stacked flats multiplex or L-shaped “City of Gardens” model
- Subterranean parking, separated/attached garage

P5-Mixed 5-Story Podium Mixed

- 90 – 109 DUAC
- Mid-rise, 5 stories, higher density
- Subterranean parking or above-grade parking

TW Mixed-Use Tower

- 140 – 217 DUAC
- High-rise, mixed-use
- Subterranean parking, above-grade parking

TH Townhouse

- 18 – 29 DUAC
- Up to 3 stories; ADU with apartments above
- Surface parking, tuck-under garage

CY4 45' Courtyard Apartment

- 50 – 55 DUAC
- Up to 45' in RD
- Subterranean parking

P5-Res 5-Story Podium All Residential

- 90-109 DUAC
- 100% residential, is it 1 or 2 stories of Type 1 Cons.

5. Housing Typology Refinement

Step 3: Refine

Housing Typology Selection

In Step 3, the residential typologies established in the previous chapter are refined with regards to overall project characteristics (e.g. by height, scale, affordability category, lot characteristics) and by density category.

Step 3: Refine

Building Permits 2017-2021

To gain insight into the nature of residential development currently favored by the market, AECOM analyzed building permits (construction and occupancy) issued between 2017 and 2021. The data comes from the Inclusionary Zoning Study Permit Database, which was originally compiled by BAE. The set of 722 permits from 2017 to 2021 excludes applications for projects with 4 or fewer units, projects from the Central City and Central City North CPAs, 100% affordable projects, and the Jordan Downs public housing development. Based on the data:

- Tier 3 captured the highest share of development with 38% of permits, followed by Tiers 1 and 4 with 22% and Tier 2 at 18%
- Mid-Rise projects (between 4 and 8 stories), captured approximately two-thirds of all permits, with low-rise capturing one-third and high-rise capturing only 2%. (Note, as the data excludes downtown CPAs and projects of less than 4 units, both the categories capture a lower share than the full dataset would indicate)
- The distribution of market-rate vs. mixed-income permits is nearly even with marginal differences between Market Tiers.
- Small lots (under 6,000 SF) captured a very small share of permitting with most permits roughly equally distributed between medium-low lots (6,000-10,000 SF), medium-high lots (10,000-20,000 SF) and Large Lots (>20,000 SF)

For an expanded view of this data, see Appendix G.0.

Building Permits 2017-2021* by Market Tier

Building Permits 2017-2021*: Distribution of Market-Rate vs. Mixed-Income

Building Permits 2017-2021*: Distribution by Tier and Height

Building Permits 2017-2021*: Distribution by Lot Size

Source: City of Los Angeles, AECOM

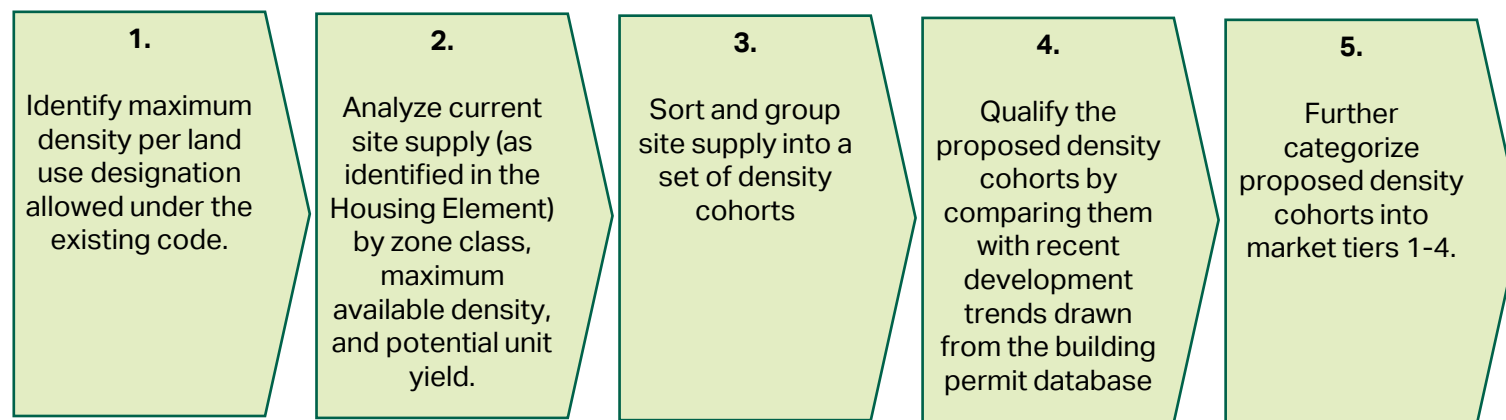

Step 3: Refine

Density Cohorts

The goal in defining a set of density cohorts is to broadly represent—for the purpose of analysis and policy recommendation—the zoning condition that future residential developers will face in Los Angeles for as long as the proposed RHNA Rezoning Program policies will remain in effect.

The resulting density cohorts provide a basis for analyzing the incentive value offered by different density bonuses in comparison with by-right development alternatives.

The proposed density cohorts were developed using a multi-step process, which is summarized on the right and fully described in the remainder of this section.

Data Sources Used in the Density Cohort Analysis:

City of LA's Inventory of Adequate Sites for Housing (Table A)

The City of LA's 2021-2029 Housing Element identified opportunity sites in Chapter 4 Adequate Sites for Housing. The Inventory of Adequate Sites for Housing provided in Appendix 4.1 offers the best insight into the sites likely eligible for the City's housing incentive programs and their capacity to accommodate additional housing units.

Los Angeles City Planning Zoning Code

The City's Zoning Code provided guidance on calculating a maximum density (DU/AC) for each zone class.

General Plan, Framework Element, Chapter 3

Policy 3.7.1 listed in the Framework Element in the City of LA's General Plan recognizes land use designations with corresponding zones and density ranges.

Step 3: Refine

Calculating Zone Class Maximum Density (DU/AC)

AECOM calculated maximum density, measured in dwelling units per acre (DU/AC) for each of the 46 zone classes identified in the City’s Zoning Code. This was conducted by translating Minimum Land Area per Dwelling Unit into a Maximum DU/AC.

While the Zoning Code Summary contains 46 zone classes, the density calculations indicate only 20 unique maximum densities.

A screenshot of this process is shown on the right. The full Summary of Zoning and Density with AECOM-calculated maximum densities for each Zone Class can be found in **Appendix E**.

Note: this Generalized Zoning Code Summary does not account for the variety of “unique zones” that can be found within a zone class through modifiers such as Prefixes, Height Districts, D Limits, and Supplemental Use Districts/Overlay Zones.

Summary of Zoning and Density							
Zone	Use	Minimum Area		Min. Lot Width	Min Unit Area (AC)	Min Unit Area (SF)	Max DU/AC
		Per Dwelling Unit					
Multiple Residential							
R2	Two-Family Dwellings R1 Uses, Home Occupations	2,500 sq-ft		50 ft	0.057	2,500	17.4
RD1.5	Restricted Density Multiple Dwelling One-Family Dwellings, Two-Family Dwellings, Apartment Houses, Multiple Dwellings, Home Occupations	1,500 sq-ft		60 ft	0.034	1,500	29.0
RD2		2,000 sq-ft			0.046	2,000	21.8
RD3		3,000 sq-ft			0.069	3,000	14.5
RD4		4,000 sq-ft		0.092	4,000	10.9	
RD5		5,000 sq-ft		0.115	5,000	8.7	
RD6		6,000 sq-ft		0.138	6,000	7.3	
RMP	Mobile Home Park Home Occupations	20,000 sq-ft		80 ft	0.459	20,000	2.2
RW2	Two-Family Residential Waterways One-Family Dwellings, Two-Family Dwellings, Home Occupations	1,150 sq-ft		28 ft	0.026	1,150	37.9
R3	Multiple Dwelling R2 Uses, Apartment Houses, Multiple Dwellings, Child Care (20 max)	800 sq-ft; 500 sq-ft per guest room		50 ft	0.018	800	54.5
RAS3	Residential/Accessory R3 uses, Limited ground floor commercial	800 sq-ft; 200 sq-ft per guest room			0.018	800	54.5
R4	Multiple Dwelling R3 Uses, Churches, Schools, Childcare, Homeless Shelter	400 sq-ft; 200 sq-ft per guest room			0.009	400	108.9
RAS4	Residential/Accessory R4 uses, Limited ground floor commercial		0.009		400	108.9	
R5	Multiple Dwelling R4 Uses, Clubs, Lodges, Hospitals, Sanitariums, Hotels	200 sq-ft			0.005	200	217.8

Step 3: Refine

Grouping by Density Cohorts

AECOM analyzed the Housing Element Site Inventory to gain further insight into logical density cohort groupings. The Site Inventory includes parcel-level data from the City, with characteristics including Zone Class and a Maximum Allowed Density (DU/AC) identified for each parcel.

The Site Inventory revealed four additional maximum densities that were not included in the Zoning Code Summary calculations. Combining the Zoning Code Summary and Site Inventory densities results in a total of 24 unique maximum densities.

AECOM used the density groups identified in Chapter 3 of the City's Framework Element (Policy 3.7.1) as the initial basis for organizing the 24 densities into broad density groupings called density cohorts.

The seven density cohorts shown in the table to the right, include: Low, Low-Medium I, Low-Medium II, Medium, High Medium, High, and Other. The "Other" Cohort includes parcels that don't have a specified maximum density in the site inventory (e.g., MU zones) and zones that are not necessarily for residential uses in the Zoning Summary Table (e.g., OS zones)

Density Cohort	Min Land Area per Unit	Maximum DUAC	Example of Zones ***
Low	N/A	1 unit per lot*	(Q)R1-1, (T)RS-1, A1, RU-1, etc.
	1 - 2.5ac	Less than 1	A1
	40,000sf - 1ac	1	A2, RE40
	15,000sf - 20,000sf	2	RA, RE20, RE15, RMP
	11,000sf	3	RE11
	9,000sf	4	RE9
	7,500sf	5	RS
	6,000sf	7	RD6
Low Medium I	5,000sf	8	R1, RD5
	4,000sf	10	RD4
	3,000sf	14	RD3
	2,500sf	17	R2
Low Medium II	2,000sf	21	RD2
	1,500sf	29	RD1.5
	1,200sf	36*	[Q]R3-1, [Q]C1-1VL, R3(EC), etc.
	1,150sf	37	RW2
Medium	1,000sf	43*	[Q]R3-1, [Q]C2-1, [T][[Q]CM-1, R1-1-RIO, etc.
	800sf	54	R3, RAS3, some commercial zones (C1, CM)
High Medium	600sf	72*	[Q]R4-1, [Q]R5-2, C4-2D-SN, etc.
	400sf	108	R4, RAS4, some commercial zones (CR, C1.5, C2, etc.), all manufacturing zones (e.g., MR1, M1, M2, etc.)
High	200sf	217	R5
Other****	N/A	N/A**	MU(EC), RMP-1-CUGU, etc.

Notes:

* Unique Maximum density found in the City's Housing Element Site Inventory.

** Includes parcels in the Site Inventory database that do not have a specified maximum density and the zones that are not necessarily for residential uses in the Zoning Summary Table

*** It is not an exclusive list of all zones

**** The "Other" category includes zones with Specific Plans that offer unlimited residential density in many cases, such as the Warner Center Specific Plan

Step 3: Refine

Site Inventory vs. Recent Development

A comparison between density cohorts from the Housing Element Site Inventory (from the prior slide) and recent development from a database provided by City staff of building permits from 2017-2021 (prepared by BAE as the Inclusionary Zoning Study Permit Database) shows a high level of consistency between the historical trend and future site supply. (See **Appendix F** for the detailed comparison.)

As shown in the tables at right, the High-Medium cohort (between 56 and 109 DUAC) is the largest category, representing 71% of unbuilt capacity and 61% of recently permitted units.

The second-largest cohort for both sets is Medium (between 30 and 55 DUAC) with 15% of the unbuilt capacity and 19% of permits.

Significant disparities between sets are found at Low Medium (combining Low Medium I and II) and High: Low Medium contributes 11% of unbuilt capacity compared with 2% of recently permitted units, and High reflects 2% of future growth compared with 10% of recent permits.

**Note: Because the City's RHNA Rezoning Program largely concerns the densities at 10 DU/AC and above, the "Low" cohort, featuring densities below 10 DU/AC, is excluded in this analysis.*

City of LA Housing Element Site Inventory Distribution by Density Cohorts

Density Cohort	Maximum Base Density Range (DUAC)	Land Area (AC)	% Land Area of Total	Unbuilt Capacity (units)	Unbuilt Capacity %
Low Medium I	10-17 DU/AC	5,693	18%	42,465	3%
Low Medium II	18-29 DU/AC	6,442	20%	93,554	8%
Medium	30-55 DU/AC	5,922	19%	190,473	15%
High Medium	56-109 DU/AC	8,840	28%	886,182	71%
High	110-218 DU/AC	148	0%	27,939	2%
Others	N/A	4,483	14%	5,776	0%
Total		31,528	100%	1,246,390	100%

Recent Development Permit Distribution by Density Cohorts, 2017-2021

Density Cohort	Maximum Base Density Range (DUAC)	Land Area (AC)	% Land Area of Total	Permitted (units)	Permitted Units %
Low Medium I	10-17 DU/AC	1	0%	11	0%
Low Medium II	18-29 DU/AC	41	8%	901	2%
Medium	30-55 DU/AC	139	32%	6,974	19%
High Medium	56-109 DU/AC	215	48%	22,702	61%
High	110-218 DU/AC	11	3%	2,629	7%
Others	N/A	38	9%	3,825	10%
Total		445	100%	37,042	100%

** Recent development based on projects included in the Inclusionary Zoning Study Permit Database (2017-2021) provided by the Los Angeles Housing Department.*

*** Excludes the development with less than 5 units*

Step 3: Refine

Site Inventory vs. Recent Development by Market Tier *

Sorting density cohorts by market tier* reveals further nuance that should be considered in the feasibility analyses to come.

Market Tiers 1, 3, and 4 exhibit similar distributions between housing element capacity and recent permitted units: in all, “High-Medium” (56-110 DU/AC) contributes a majority of units, whereas “Others” (mainly low-density) make minor contributions.

Market Tier 2 shows a notably different pattern with a very high share of recent production in the “Other” category and far less in “High Medium” – this is likely a result of the Warner Center Specific Plan which has its own zone class that permits unlimited residential density in many cases

The “High” cohort is largely absent in all Market Tiers except Tier 3.

See **Appendix F** for backing data.

* Market Tiers reflect market strength with Tier 1 the Weakest and Tier 4 the strongest. The market tiers were defined in the memo LA Density Bonus Task 3 Market Areas_020323.

Market Tier 1 Mix by Density Cohort

Market Tier 3 Mix by Density Cohort

Market Tier 2 Mix by Density Cohort

Market Tier 4 Mix by Density Cohort

■ Housing Element Unbuilt Capacity ■ 2017-2021 Permitted Units

■ Housing Element Unbuilt Capacity ■ 2017-2021 Permitted Units

Step 3: Refine

Recommended Density Cohorts

Based on the findings of the density cohort study, AECOM recommends that subsequent analyses to support RHNA rezoning strategies (including updates to the DBO and TOC as well as the inclusionary housing analysis) be based on five Density Cohorts: Low Medium I, Low Medium II, Medium, High Medium, High.

Density Cohort	Minimum Land Area per Unit	Maximum Base Density Range (DUAC)	Examples of Typical Zone Classes Included
Low Medium I	2,500-4,000 SF	10-17	RD3, RD4, R2
Low Medium II	1,000-2,000 SF	18-43	R1.5, RD2
Medium	800 SF	44-55	RW2, R3, RAS3, C1, CM
High Medium	400-600 SF	56-109	R4, RAS4, CR, C1.5, C2, C4, C5, MR1, M1, MR2, M2, M3
High	200 SF	110-218	R5

Step 3: Refine

Review Shortlisted Prototype Concepts

Objectives for reviewing the shortlisted prototype concepts

1. Align prototypes with RHNA Rezoning Strategies
2. Confirmation and alignment on prototype concepts
 - Defining features, unique characteristics
 - Site conditions
 - Parking strategy

4D Plex-Style

- 10 – 17 DUAC
- 4-6 units on 13,000-25,000 SF lot
- Attached or separated garage, surface prkng

RH Multifamily Row House

- 25-35 DUAC
- 4-5 stories, 56'
- Separated garage, or no parking

CGF Commercial Ground Floor Residential Above

- 60 – 90 DUAC
- 4-5 stories, 100% wood stick
- No parking, subterranean

P7 7-Story Podium

- 110 – 150 DUAC
- 7 stories, higher density
- Subterranean parking or above-grade parking

BC Bungalow Court

- 18 – 29 DUAC
- 1-2 story, low lot coverage, bldg. separation
- Surface parking or separated garage

CY3 33' Courtyard Multiplex

- 30 – 43 DUAC
- Stacked flats multiplex or L-shaped “City of Gardens” model
- Subterranean parking, separated/attached garage

P5-Mixed 5-Story Podium Mixed

- 90 – 109 DUAC
- Mid-rise, 5 stories, higher density
- Subterranean parking or above-grade parking

TW Mixed-Use Tower

- 140 – 217 DUAC
- High-rise, mixed-use
- Subterranean parking, above-grade parking

TH Townhouse

- 18 – 29 DUAC
- Up to 3 stories; ADU with apartments above
- Surface parking, tuck-under garage

CY4 45' Courtyard Apartment

- 50 – 55 DUAC
- Up to 45' in RD
- Subterranean parking

P5-Res 5-Story Podium All Residential

- 90-109 DUAC
- 100% residential, is it 1 or 2 stories of Type 1 Cons.

Step 3: Refine

Prototype Concepts Assigned to Density Cohorts

To prepare prototypes for further analysis, the prototypes must be assigned to the proposed density cohorts. The assignments are based on fit between prototype characteristics (e.g., site size, density range, height characteristics, parking strategy) and density cohort parameters.

The table below and the chart on the following slide reflect these proposed assignments.

Prototype Ref	Prototype Description	Parking Strategy(ies)	Potential Rezoning Strategy	Rent vs. Own	Source	DUAC Range*	
						Low	High
<u>Low Medium I (10-17 DUAC)</u>							
2D	Duplex	Attached Garage	DBO, MM	Rent	AECOM	10	17
<u>Low Medium II (18-43 DUAC)</u>							
BC	Bungalow Court: 1-2 story, low lot coverage, bldg. separation	Surface Parking, Separated garage	DBO, MM	Rent, Own	City	18	29
TH	Townhouse up to 3 stories (adu with apartment above)	Surface Parking, Tuck-Under Garage	DBO, MM	Own	City	22	29
RH	Multi-family Row House, 4-5 stories / 56'	Separated Garage+D12:K12D11:J1D12:I12	DBO, Cor, MM	Rent	City	25	35
CY3	Courtyard/Multiplex (up to 33' in R2)	Surface Parking; Separated Garage;	DBO, Cor, MM	Rent, Own	City	30	43
<u>Medium (44-59 DUAC)</u>							
CY4	Courtyard Apartment (up to 45' in RD)	Subterranean Parking	DBO, Cor	Rent	City	30	43
<u>High Medium (60-109 DUAC)</u>							
CGF	Commercial Ground Floor Residential Above, 4-5 stories	No parking	DBO, Cor	Rent	City	60	80
P5	Podium, Mid-Rise, 5 Stories	Subterranean Parking, Above Grade	DBO, Cor	Rent, Own	City	80	90
<u>High (110-217 DUAC)</u>							
P7	Podium, Mid-Rise, 7 Stories	Subterranean Parking, Above Grade	DBO	Rent, Own	City	110	150
TW	High-rise mixed-use tower	Subterranean Parking, Above Grade	DBO	Rent, Own	AECOM	140	217

*Illustrative density range, prototypical density will be determined at later stage.

Step 3: Refine

Prototype Concepts Assigned to Density Cohorts

Step 3: Refine

Final Recommendation – Prototypes by Market Tier

The table on the right shows the final recommended prototypes for further evaluation in each Tier. The recommendations are based on findings from the prior analytical tasks and integrate recent market preferences, opportunity site capacity, typology densities, and staff inputs.

Note that in AECOM's subsequent tasks related to **analysis of the City's RHNA Rezoning Program**, prototypes were further tailored so that they could be used to test specific policy questions.

Prototype Concepts to be Evaluated per Housing Incentive Market Tier					
Market Tier 1 Low	 4D Plex Style 10 – 17 DUAC	 CY3 33' Courtyard Multiplex 30 – 43 DUAC	 CY4 45' Courtyard Apartment 50 – 55 DUAC	 P5 5-story Podium Res + Mixed 90 – 109 DUAC	 P7 7-Story Podium 110 – 150 DUAC

Appendix B

Geographical Sub-Area Considerations

This market study considers the City's 35 Community Plan Areas as its primary geographic unit of analysis. Since the land use goals and zoning regulations for each CPA are established by its corresponding Community Plan, many development-related policies and programs, such as the Affordable Housing Linkage, have set a precedent for implementation at the CPA-level. Similarly, aspects of the RHNA Rezoning Program are likely to be implemented through updates to the Community Plans. Analysis by CPAs and CPA classification into market tiers builds on the City's existing administrative framework and simplifies navigating multiple development-related programs and policies for residents, developers, and other stakeholders.

However, CPAs can be large in area, spanning several neighborhoods and encompassing real estate sub-markets with wide-ranging home sales prices and average rents. Analysis at a smaller geography is necessary to account for market variability within CPAs and explore potential for splitting a CPA into more than one market tier where appropriate.

Census Tracts and Los Angeles Times Neighborhoods were both considered as options for sub-CPA analysis. The number of Census Tracts presented questions about implementation, whereas the small area posed questions about availability of appropriate residential market data. The LA Times Neighborhoods offered a unit of analysis with generally agreeable boundaries, more reflective of local real estate markets, and which had been previously used in the Linkage Fee Nexus Study.

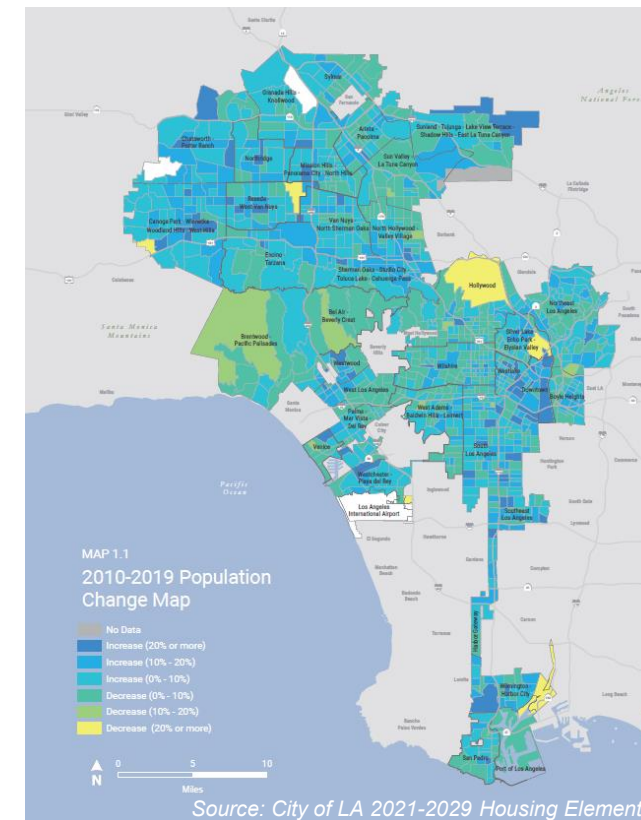

Analysis by CPA

Pros

- Aligns with market tiers of existing development programs (Linkage Fee)
- Uses existing administrative framework for zoning and land use
- Legible unit with established boundaries

Cons

- Too large to accommodate wide-ranging real estate values within boundaries
- Critical distinctions may be lost or averaged out

Analysis by Census Tract

Pros

- Boundaries perfectly align with reliable and important Census data
- Provides granularity of analysis and findings

Cons

- Too many tracts may be difficult to implement/update
- Not always aligned with CPA boundaries or local understanding of neighborhoods/real estate sub-markets
- Smaller geographies may have fewer reliable data points (e.g., low sales history, lack of rent comps)

Appendix C.1.

Population

Neighborhood	CPA	Market Tier	Total Population		
			2010	2021	Percentage Change

Appendix D.1

Regional Center Contributions to Site Inventory

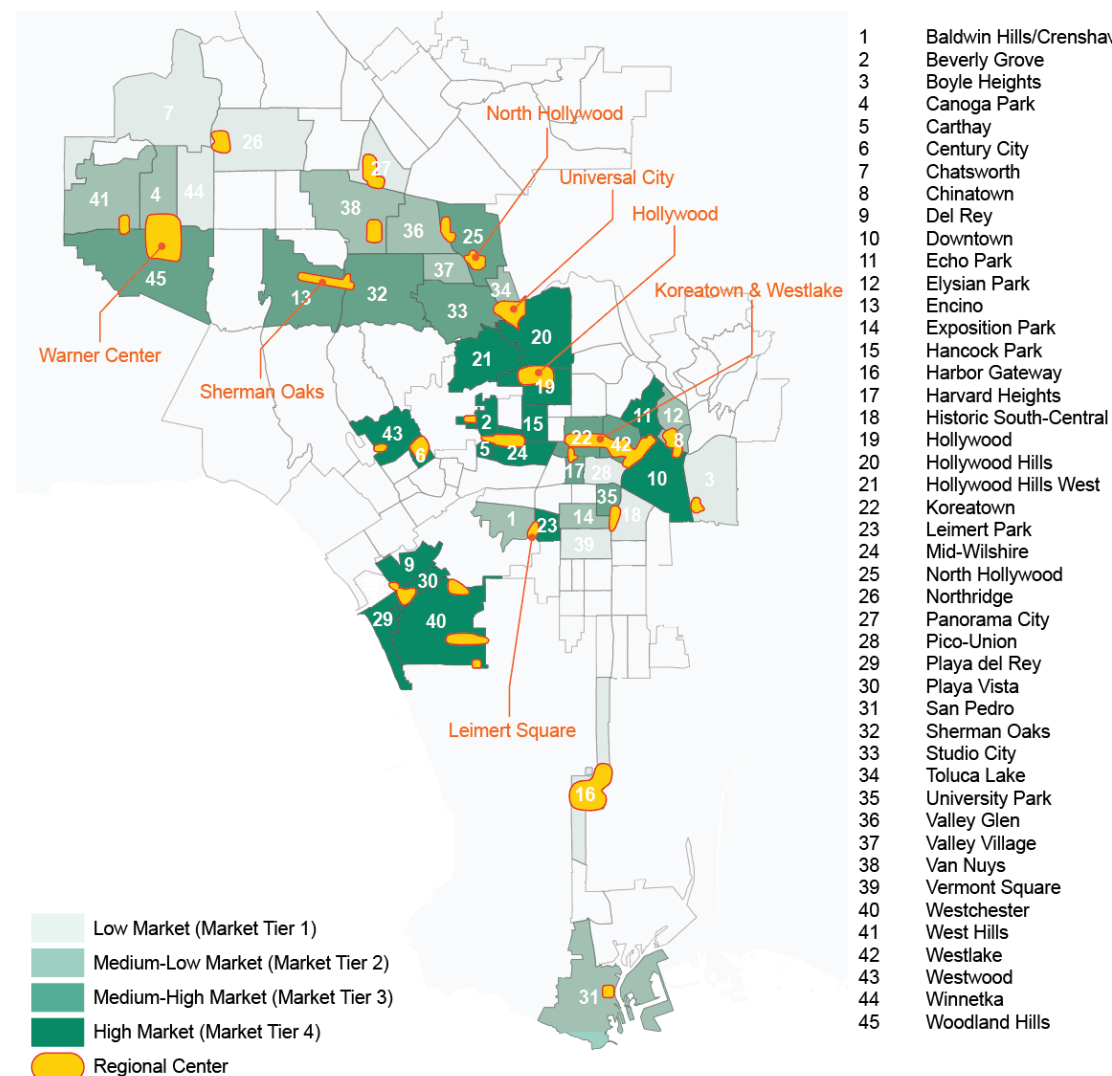

- Regional Centers, defined by the General Plan as a “focal point of regional commerce, identify, and activity,” are usually zoned to support higher densities than surrounding areas and can have unique sub-market characteristics.
- As shown in the breakdown below, **Regional Center parcels contribute a relatively small 11% of total citywide unit capacity.**
- The most significant Regional Center contribution is in the High Medium Cohort, with an estimated unbuilt capacity of 120,497 units amounting to 89% of all Regional Center units and 14% of all High Medium units citywide.**

Appendix D.2

Regional Centers and Market Tiers

- To determine whether Regional Centers should be treated as distinct sub-geographies for market tier classification, AECOM prepared the map at right, **which overlays the city's Regional Centers on the neighborhood sub-geographies** in which they are located.
- With this map as a guide, **AECOM has determined that Regional-Center-level market tier re-labeling will not have a meaningful impact on the feasibility study findings** and recommends that the current geographical submarkets and market tiers be retained for several reasons:
 - Many Regional Centers, such as those in Hollywood, Century City, Westwood, Beverly Grove, Carthay, and mid-Wilshire, are already in Tier 4 markets and cannot be upgraded further.
 - The Tier 3 Regional Centers, including Sherman Oaks, Universal City, North Hollywood, and Koreatown & Wilshire, reasonably reflect the market characteristics of the neighborhoods in which they're located. While Warner Center straddles Tier 3 and Tier 2 neighborhoods, the Tier 2 portion correctly occupies a lower-tier submarket from the Tier 3 portion.
 - For the density bonus analysis, it's more conservative to skew to the lower market tier, because higher-tier markets typically support more affordable units and thus need lower density bonuses to achieve policy goals. Consequently, keeping the regional centers in lower tiers will yield recommendations for higher density bonuses, thereby providing more overall incentive to encourage housing production.
 - Ultimately, the CPIO process may offer a better and more precise vehicle to further adjust incentive programs at the Regional Center level.

Summary of Zoning and Density (AECOM)			
Zone	Use	Min Unit Area (AC)	Max DU/AC
Commercial			
CR	Limited Commercial Banks, Clubs, Hotels, Churches, Schools, Business and Professional Colleges, Child Care, Parking Areas, Offices, R4 Uses	0.01	108
C1	Limited Commercial Local Retail Stores < 100,000 sq-ft, Offices or Businesses, Hotels, Hospitals and/or Clinics, Parking Areas, CR Uses except for Churches, Schools, Museums, R3 Uses	0.02	54
C1.5	Limited Commercial C1 Uses – Retail, Theaters, Hotels, Broadcasting Studios, Parking Buildings, Parks and Playgrounds, R4 Uses	0.01	108
C2	Commercial C1.5 Uses; Retail w/ Limited Manufacturing, Service Stations and Garages, Retail Contr. Business, Churches, Schools, Auto Sales, R4 Uses	0.01	108
C4	Commercial C2 Uses with Limitation, R4 Uses	0.01	108
C5	Commercial C2 Uses, Limited Floor Area for Manufacturing of CM Zone Type, R4 Uses	0.01	108
CM	Commercial Manufacturing Wholesale, Storage, Clinics, Limited Manufacturing, Limited C2 Uses, R3 Uses	0.02	54
Manufacturing			
MR1	Restricted Industrial CM Uses, Limited Commercial and Manufacturing, Clinics, Media Products, Limited Machine Shops, Animal Hospitals and Kennels	0.01	108
M1	Limited Industrial MR1 Uses, Limited Industrial and Manufacturing Uses, no R Zone Uses, no Hospitals, Schools, Churches, any Enclosed C2 Use, Wireless Telecommunications, Household Storage	0.01	108
MR2	Restricted Light Industrial MR1 Uses, Additional Industrial Uses, Mortuaries, Animal Keeping	0.01	108
M2	Light Industrial M1 and MR2 Uses, Additional Industrial Uses, Storage Yards, Animal Keeping, Enclosed Composting, no R Zone Uses	0.01	108
M3	Heavy Industrial M2 Uses, any Industrial I Uses, Nuisance Type Uses 500 ft from any other Zone, no R Zone Uses	0.01	108
Parking			
P	Automobile Parking – Surface and Underground Surface Parking; Parking Buildings if located below grade; Land in a P Zone may also be classified in A or R Zone	n/a	n/a
PB	Parking Building P Zone uses, Parking Buildings at or above grade; Automobile Parking within a Building	n/a	n/a
Open Space/Public Facilities/Submerged Lands			
OS	Open Space Parks and Recreation Facilities, Nature Reserves, Closed Sanitary Landfill sites, Public Water Supply Reservoirs, Water Conservation Areas	n/a	n/a
PF	Public Facilities Agricultural Uses, Parking Under Freeways, Fire and Police Stations, Government Buildings, Public Libraries, Post Offices, Public Health Facilities, Public Elementary and Secondary Schools, Qualified Permanent Supportive Housing Projects (12)	n/a	n/a
SL	Submerged Lands Navigation, Shipping, Fishing, Recreation	n/a	n/a

Appendix F

Comparing Housing Element Site Inventory and Permit Database (2017-2021)

A comparison between density cohorts from the Housing Element Site Inventory (from the prior slide) and recent development from a database provided by City staff of building permits from 2017-2021 (prepared by BAE as the Inclusionary Zoning Study Permit Database) shows a high level of consistency between the historical trend and future site supply.

AECOM also estimated unbuilt capacity of each density cohort by using the zoning designations to estimate allowable units, from which existing inventory was deducted to yield an estimate of unbuilt capacity.

Density Cohort	Min Land Area Per Unit	Specific Density	Generalized Density	Housing Element Site Inventory				Inclusionary Zoning Study Permit Dataset			
				Total Area (AC)	%	Unbuilt Capacity (Units)	%	Total Area (AC)	%	Permitted Units	%

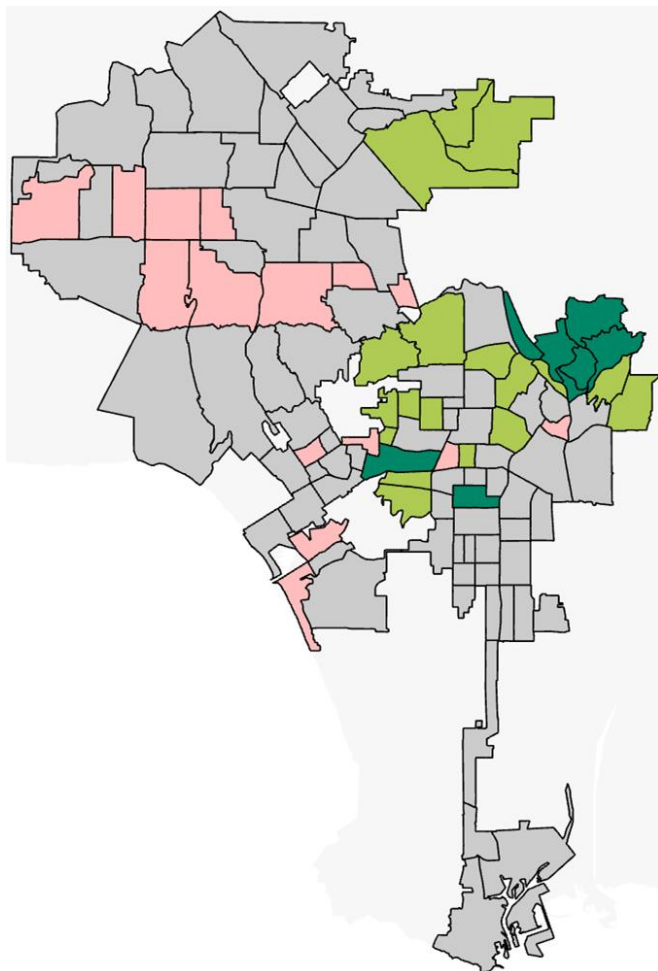

Map 3. Current Adopted Linkage Fee Tiers
by CPA

These maps compare the results of current adopted linkage fee tiers (**Map 3**) to the neighborhood-level market tiers analysis (**Map 1**) and CPA-level analysis (**Map 2**).

The differences between the maps are a result of differing underlying methodologies between AECOM's analysis and the Linkage Fee analysis, as well as differing market conditions at the time of AECOM's analysis (2023) and the Linkage Fee analysis (2016).

This comparison was conducted for City staff reference.

Market Tiers vs Linkage Fee Tiers

- 1 Tier Lower than Linkage Fee
- Same as Current Adopted Linkage Fee
- 1 Tier Higher than Linkage Fee
- 2 Tiers Higher than Linkage Fee

Market Tier Key

- Market Tier 1 (Low)
- Market Tier 2 (Medium/Low)
- Market Tier 3 (Medium/High)
- Market Tier 4 (High)

Appendix H.3. Alternate Market Tier Methodology

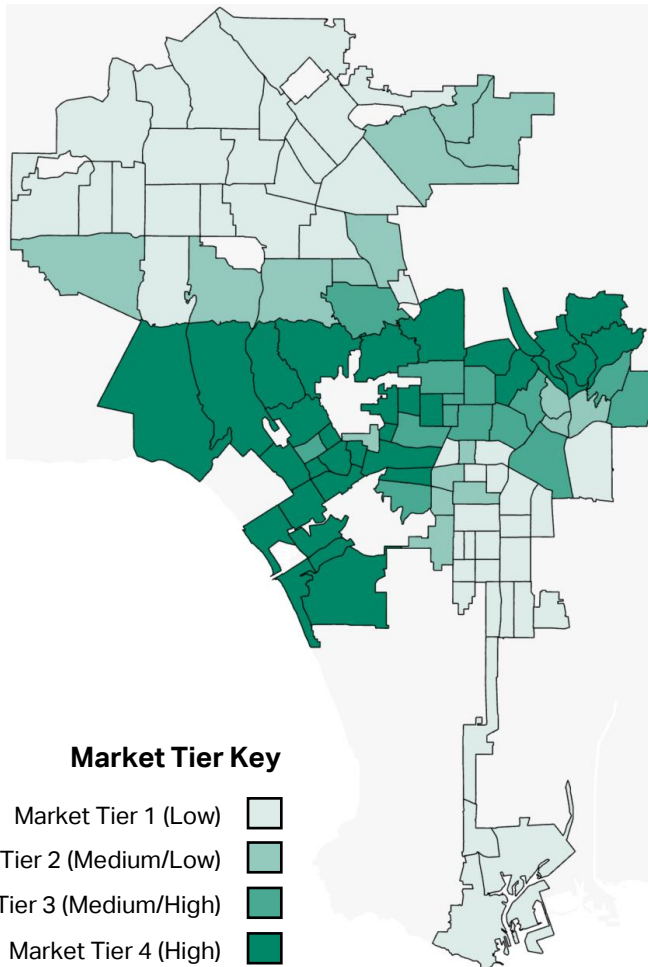

Weighting Rental and For-Sale Market Tiers Equally

The maps on the right present an alternate methodology for assigning market tier classifications by equally weighting for rent and for sale data.

This comparison was conducted for City staff reference. In general, weighting the for sale and rental data equally – rather than by the change in housing units by tenure as described on page 11 – places slightly more emphasis on for-sale values. This is because many neighborhoods and CPAs experienced significant increases in rental units, while the inventory of for sale units was generally more stable and even declined in some areas.

Final Consultant Deliverable

Potential Impact of 1:1 RSO-Affordable Replacement Requirement

Final Report

July 31, 2024

Los Angeles City Planning,
City of Los Angeles

Assumptions & Limitations

Deliverables and portions thereof shall be subject to the following assumptions and limitations:

The Deliverables are based on estimates, assumptions, information developed by AECOM from its independent research effort, general knowledge of the industry, and information provided by and consultations with Client and Client's representatives. No responsibility is assumed for inaccuracies in data provided by the Client, the Client's representatives, or any third-party data source used in preparing or presenting the Deliverables. AECOM assumes no duty to update the information contained in the Deliverables unless such additional services are separately retained pursuant to a written agreement signed by AECOM and Client.

AECOM's findings represent its professional judgment. Aside from the applicable standard of care required under the Contract, neither AECOM nor its parent corporations, nor their respective affiliates or subsidiaries ("AECOM Entities") make any warranty or guarantee, expressed or implied, with respect to any information or methods contained in or used to produce the Deliverables.

AECOM has served solely in the capacity of consultant and has not rendered any expert opinions in connection with the subject matter hereof. Any changes made to the Deliverables, or any use of the Deliverables not specifically identified in the Agreement between the Client and AECOM or otherwise expressly approved in writing by AECOM, shall be at the sole risk of the party making such changes or use.

The Deliverables were prepared solely for the use by the Client. No third party may rely on the Deliverables unless expressly authorized by AECOM in writing (including, without limitation, in the form of a formal reliance letter). Any third party expressly authorized by AECOM in writing to rely on the Deliverables may do so only on the Deliverable in its entirety and not on any abstract, excerpt or summary. Entitlement to rely upon the Deliverables is conditioned upon the entitled party accepting full responsibility for such use, strict compliance with the Contract and not holding AECOM liable in any way for any impacts on the forecasts or the earnings resulting from changes in "external" factors such as changes in government policy, in the pricing of commodities and materials, changes in market conditions, price levels generally, competitive alternatives to the project, the behavior of consumers or competitors and changes in the Client's policies affecting the operation of their projects.

The Deliverables may include "forward-looking statements". These statements relate to AECOM's expectations, beliefs, intentions or strategies regarding the future. These statements may be identified by the use of words like "anticipate," "believe," "estimate," "expect," "intend," "may," "plan," "project," "will," "should," "seek," and similar expressions. The forward-looking statements reflect AECOM's views and assumptions with respect to future events as of the date of the Deliverables and are subject to future economic conditions, and other risks and uncertainties. Actual and future results and trends could differ materially from those set forth in such statements due to various factors, including, without limitation, those discussed in the Deliverables. These factors are beyond AECOM's ability to control or predict. Accordingly, AECOM makes no warranty or representation that any of the projected values or results contained in the Deliverables will actually occur or be achieved. The Deliverables are qualified in their entirety by, and should be considered in light of, these assumptions, limitations, conditions and considerations.

Definitions of Key Terms

Affordable Units. For the purposes of this analysis, “affordable units” refers specifically to units that are subject to a recorded covenant, ordinance, or law that restricts rents to levels affordable to persons and families of lower or very low income. Also referred to as “Covenanted Affordable Units,” “Lower Income Restricted Affordable Units,” and “Deed Restricted Affordable Units”.

California Senate Bill 330 (SB 330) - Housing Crisis Act of 2019 (HCA). This bill aims to increase residential unit development, protect existing housing inventory, and expedite permit processing. The HCA prohibits net loss of residential units when redeveloping a site.

California Senate Bill 8 (SB 8) – Amendment to Housing Crisis Act of 2019 (HCA). Extended the sunset on the Housing Crisis Act of 2019 by five years, to January 1, 2030, and provides several changes and clarifications regarding the HCA’s demolition and replacement provisions.

CHAS database. United States Department of Housing and Urban Development (HUD) Comprehensive Housing Affordability Strategy (CHAS) database.

Existing RSO Tenants. Tenants living in a building or unit covered under the provisions of the RSO.

Newly Constructed Units. Housing units within a redevelopment project.

Pre-existing RSO Units. Housing units subject to the provisions of the RSO within the past five years.

Protected Units. Housing Units that have been either: subject to an affordability covenant within the past five years; subject to rent or price control within the past five years (including RSO); occupied by low or very low income households within last five years; or withdrawn from rent or lease per the Ellis Act within the past 10 years.

Rent Stabilization Ordinance (RSO). Chapter XV, Article 1 (Sections 151.00 to 151.35) of the Los Angeles Municipal Code. The ordinance regulates rent increases and evictions on certain rental properties (generally multifamily units built on or before October 1, 1978, and new rental units replacing pre-existing units covered under RSO).

RSO Sites. Parcels that contain or have contained a building with residential units subject to the provisions of the RSO within the past five years. For the purpose of this analysis, “RSO Sites” also refers to sites with units withdrawn from rent or lease per the Ellis Act within the past 10 years.

RSO Redevelopment Projects. Also referred to as **RSO Projects.** Projects that necessitate the removal or demolition of existing RSO units on the site of the new development, or projects located on RSO Sites (as defined above).

RSO Replacement Units. Housing units within a redevelopment project that are fulfilling replacement requirements such as affordability to lower income residents and/or coverage under RSO, as set by Los Angeles Municipal Code Section 151.28 (Ellis Act Provisions - Rental of Replacement Units), California Senate Bill 8, California Senate Bill 330, and Density Bonus and Transit Oriented Communities Incentive Program requirements.

RSO-Affordable replacement. The number of newly constructed affordable units built for each pre-existing RSO unit in an RSO redevelopment project. Commonly expressed as a ratio “e.g., 1:1” in which the first number represents the number of required affordable units, and the second number represents one pre-existing RSO unit. Sometimes expressed as a percentage, representing the affordable units as a percentage of pre-existing RSO units.

1. Introduction

1.1 Project Background and Objectives

The City of Los Angeles Department of City Planning (LACP) has engaged AECOM to prepare economic analysis to inform development of a variety of potential housing strategies to preserve and increase the inventory of affordable housing in Los Angeles. This report contains analysis of a proposal to adjust the City's requirements for replacement of pre-existing RSO units subject to the City's Rent Stabilization Ordinance (RSO). The proposed change would require that each existing RSO unit that is demolished for new development be replaced by at least one new covenanted affordable unit. This proposal is referred to as a "1:1 RSO-Affordable" replacement throughout the report. Current policy requires that development projects that involve demolition of RSO units ("RSO redevelopment projects") include at least the same number of units as were affordable to lower income households when the units were occupied, and that if the income level of current tenants is unknown, a percentage of replacement units must be made affordable in accordance with the citywide percentage of low-income households reported in the CHAS database as of September 2023.

For this report, AECOM used a database of recent (2020-2023) development projects provided by the City to answer three key questions:

1. How many projects are potentially impacted by the change in policy?

- > Many RSO redevelopment projects take advantage of incentive zoning programs offered by the City and under those programs some projects are already effectively providing at least 1:1 RSO-Affordable replacement. These projects would not be affected by the policy change. The analysis identified the subset of projects that are not already providing 1:1 RSO-Affordable replacement, to understand how many units would likely be affected by the policy change.

2. For RSO redevelopment projects, what characteristics may indicate when increasing the RSO-Affordable replacement requirement from the CHAS-based percentage to 1:1 (i.e., 100%) would create significant additional financial burden on the project?

- > To answer this question, AECOM analyzed the database to identify common characteristics of projects that are not already providing 1:1 RSO-Affordable replacement. Based on characteristics of past projects, the analysis identified a threshold ratio of RSO replacement units to development project size (i.e., the total number of units in the new development) when it appears that projects may face significant additional financial burdens from the new policy.

3. How many RSO redevelopment projects may be additionally burdened by the potential change in replacement policy? How many units?

- > To evaluate the total potential impact of the new policy, AECOM estimated the number of projects (and units) that fall beyond the identified threshold.

Note that the findings in this report are based on an analysis of past projects. Because of the wide range of development options available to residential developers (both proven options and options yet to be developed), the size and diversity of the City of Los Angeles, its submarkets, and its development opportunity sites, the findings herein represent a snapshot of a dynamic and changing situation.

The remainder of this report provides an overview of the existing policy context, a description of the project methodology, a summary of key findings, and a technical appendix with additional analysis.

2. Existing Policy Context

2.1 Existing Policy for Replacement of RSO Units

Pursuant to LAMC Section 151.28¹, if a building with housing units covered by the Rent Stabilization Ordinance (“pre-existing RSO units”) is redeveloped with new housing units that are rented within five years of the pre-existing units’ withdrawal from the market, the RSO will apply to all newly constructed rental units on that property. Alternatively, if the new development provides covenanted affordable units at least equal in number to the pre-existing RSO units or 20% of the new development’s total units (whichever is greater), the newly constructed affordable units can apply for an exemption from the RSO, but any remaining market-rate units will be subject to RSO provisions. Exemptions related to owner occupancy can be found in LAMC Section 151.28.

Pursuant to The Housing Crisis Act of 2019, as amended by SB 8 and AB 1218 (California Government Code Section 66300 et seq.), new housing development projects must replace any existing, demolished or removed protected units^{2,3}. “Protected units” include units that have either been: subject to an affordability covenant within the past five years; subject to rent or price control within the past five years; occupied by lower or very low income households within last five years; or withdrawn from rent or lease per the Ellis Act within the past 10 years.

If the current tenants’ incomes are *known* (e.g., a tenant submits their income information and exercises their right to return), developments replacing protected units (including RSO units) must include at least the same number of units of equivalent size (number of bedrooms) made affordable at the same or lower income category as the existing households at the time the units were occupied.

If the income level of current tenants is *unknown*, a percentage of replacement units must be made affordable in accordance with the citywide percentage of low-income households reported in the CHAS database (70% as of September 2023).

RSO redevelopment projects generally use one of the City’s incentive zoning programs to maximize density in return for providing affordable set-aside units. When replacing protected units, distribution of the affordable units across specific low-income categories has historically depended on the incentive program; Density Bonus (DB) only included requirements for VLI and LI income levels, whereas Transit Oriented Communities (TOC) included requirements for ELI, VLI, and LI income levels.⁴ The affordable replacement units must be distributed across these income level categories in accordance with the income distributions reported in the CHAS data. As of September 2023, those requirements were as follows:

- **DB projects: 51% very low income and 19% low income.**
 - DB projects provide a percentage of units as on-site affordable housing to qualify for incentives including a by-right density increase and a reduction in parking requirements.

¹ Los Angeles Municipal Code §151.28 Ellis Act Provisions - Rental of Replacement Units. Sub-section A. Replacement Units Subject to the RSO. https://codelibrary.amlegal.com/codes/los_angeles/latest/lamc/0-0-0-196145

² City of Los Angeles Memo: Implementation of State Law SB 330 – Housing Crisis Act of 2019 https://clkrep.lacity.org/online/docs/2020/20-0047_rpt_PLAN_02-13-2020.pdf

³ Los Angeles Housing Department. Replacement Unit Determination – Housing Crisis Act of 2019 (as amended by SB 8 and AB 1218). <https://housing2.lacity.org/partners/sb-8-determinations>

⁴ Note that the policy described in this section applied to development projects completed between 2020 and 2023, which were the basis for this analysis; recent policy updates have changed the income level requirements.

- **TOC projects: 32% extremely low income, 19% very low income, and 19% low income.**
 - Projects located in close proximity to major transit stops (TOC Tiers 1-4) provide a percentage of units as on-site affordable housing to qualify for incentives including a density increase and reduction in parking requirements.

Therefore, if the income of the tenants in the existing units are unknown, RSO redevelopment projects are currently required to provide 70% RSO-Affordable replacement (a ratio of 0.7:1 affordable units to existing RSO units, rounded up to the nearest whole number).

2.1.1 Considerations for Updating Replacement Policy

When new developments replace existing RSO units with affordable units at the percentage set by CHAS (currently 70%), the remaining replacement units (currently 30%) can be leased at market-rate rents if they are in compliance with the RSO. The City is studying the implications of requiring RSO redevelopment projects to provide 1:1 RSO-Affordable replacement (a 1:1 ratio of new affordable units to pre-existing RSO units).

Of projects subject to RSO replacement requirements and in the land covenants database (RSO redevelopment projects) many already provide lower income restricted affordable units that meet or exceed the 1:1 RSO-Affordable replacement ratio, either to take advantage of DB and TOC program incentives or to exempt replacement units from coverage under RSO. By analyzing the characteristics of RSO projects that do and do not already meet the proposed 1:1 RSO-Affordable replacement ratio, this study seeks to understand whether an updated requirement would ultimately impact production of new housing projects and affordable units.

3. Methodology and Approach

3.1 Data

The City of Los Angeles Housing Department (LAHD) provided AECOM with a database of all projects with covenanted units built in the City during the years 2020-2023. The database includes detailed data for individual projects, including:

- Basic project information such as project address, number of units, and number of stories.
- An overview of the newly constructed units identifying how many affordable and market-rate units are provided.
- Each project's participation in housing incentive programs, if any, such as DB and TOC.
- Whether the new project was built on an RSO site.
- Pre-existing conditions of redeveloped RSO sites (e.g., how many RSO units were demolished).

AECOM reviewed the LAHD-provided database of projects with covenanted affordable units, which contained information for 840 total new projects, providing a total of 46,529 new units. Nearly 17,500 of these new units were covenanted affordable units, either as part of a fully affordable project (projects with 80% or more of its units designated affordable) or a mixed-income incentive project. There were 303 RSO Replacement Projects in the database, accounting for over a third of all projects. These projects demolished a total of 1,561 RSO units and replaced them with 12,656 total new units, of which 4,581 were covenanted affordable units. However, this total includes fully affordable projects and other projects that would not be subject to the policy change and were excluded from the analysis.

After excluding projects that would not be subject to an increased RSO-Affordable replacement standard⁵, 209 mixed-income RSO redevelopment projects from 2020-2023 were included in AECOM's analysis. The selected projects are located on sites containing a total of 1,091 pre-existing RSO units, and the RSO redevelopment projects account for 8,959 newly constructed units, of which 1,161 are covenanted affordable.

Table 1. Newly Developed Projects with Covenanted Affordable Units (2020-2023)

RSO Site Status	New Projects Developed		New Affordable Units Provided		New Market-Rate Units Provided		Total New Units Provided		Total Pre-Existing RSO Units	
	#	%	#	%	#	%	#	%	#	%
Non RSO Replacement Projects & N/A	537	64%	12,866	74%	21,007	72%	33,873	73%	0	0%
RSO Replacement Projects Excluded from the Analysis ⁵	94	11%	3,420	20%	277	1%	3,697	8%	470	30%
RSO Replacement Projects Included in the Analysis ⁵	209	25%	1,161	7%	7,798	27%	8,959	19%	1,091	70%
Total	840	100%	17,447	100%	29,082	100%	46,529	100%	1,561	100%

Source: Land Use Recorded Covenants (2020-2023), AECOM

3.2 Analytic Approach

The 209 mixed-income RSO redevelopment projects were analyzed to understand which projects are already achieving the 1:1 RSO-affordable replacement standard and how this correlates with general characteristics, such as project scales, densities, and affordability levels provided. Specifically, the following project characteristics were analyzed:

1. **Incentive program utilized:** Application of DB, TOC, or other incentive programs.
2. **Affordability levels provided:** Mix of units included in the mixed-income RSO redevelopment project that are affordable to extremely low income, very low income, low income, moderate income, and workforce income households, based on percentages of Area Median Income (AMI) below:
 - a. Extremely Low Income: 30% of AMI
 - b. Very Low Income: 50% of AMI
 - c. Low Income: 80% of AMI
 - d. Moderate Income: 120% of AMI

⁵ Projects with the following characteristics would not be subject to an increased RSO-Affordable replacement standard and were therefore excluded from this analysis:

1. Non-RSO projects.
2. "Fully" affordable projects (projects with 80%+ set-aside of affordable units): Fully affordable projects are typically funded through subsidy programs and are not subject to the same market conditions as mixed income projects, in which affordable units are typically cross-subsidized by market-rate units. Excluded projects included those funded under the Affordable Housing Trust Fund and the Jordan Downs Public Housing Redevelopment project.
3. Unpermitted Dwelling Units (UDU) projects: These are non-compliant projects and are not subject to typical affordability requirements.
4. Projects with Missing/Invalid Data.

e. Workforce Income: 150% of AMI

3. **Market Tier:** Market Tiers categorize neighborhoods or Community Plan Areas into different tiers based on their rent levels, sale prices, tenure status, and anticipated future changes. Low Market Tier (Market Tier 1) includes areas with lower rent levels and sale prices, typically characterized by more affordable housing options. In contrast, High Market Tier (Market Tier 4) comprises neighborhoods with higher development premiums, often indicating more expensive and desirable real estate with strong market demand.
4. **Neighborhood:** Project location by neighborhood, using the neighborhood map originally created by the *Los Angeles Times* in its Mapping LA project, a well-regarded and frequently referenced project that since 2009 has sought to reflect geographical, historic, and socioeconomic associations that define communities
5. **Pre-existing RSO units:** Number of pre-existing RSO units (i.e., the number of demolished RSO units)
6. **Project scale:** Total number of newly constructed units
7. **Density cohort** (Table 2): Density cohorts categorize allowable density levels based on the base zoning regulations, referencing the Land Use Standards and Typical Development Characteristics outlined in the City's Framework Element⁶. These cohorts correspond to selected development prototypes designed for different density capacities, providing a structured approach to urban planning and land use management.

Table 2. Density Cohorts

Density Cohorts		
Density Cohort	Density Range	Examples of Typical Zone Classes
Low Medium I	10-17	RD3, RD4, R2
Low Medium II	18-29	R1.5, RD2
Medium	30-55	RW2, R3, RAS3, C1, CM
High Medium	56-109	R4, RAS4, CR, C1.5, C2, C4, C5, MR1, M1, MR2, M2, M3
High	110-218	R5

Source: The City of Los Angeles Department of City Planning (LACP), AECOM

8. **RSO-new unit ratio:** Categorization by the ratio of pre-existing RSO units to total newly constructed units (expressed as percentages)

4. Key Findings

This section describes key findings from the analysis, including the general characteristics of RSO redevelopment projects, the relationship between these project characteristics and affordable housing replacement, and the estimated impact of a policy requiring 1:1 RSO-Affordable replacement.

⁶ Los Angeles Department of City Planning. Chapter 3: Multi-family residential. Retrieved June 6, 2024, from <https://planning.lacity.gov/cwd/framwk/chapters/03/03202.htm>

4.1 General Characteristics of RSO Redevelopment Projects

Table 3, below shows RSO projects by development condition including incentive program, market tier, density cohort, and neighborhood. Table 4 show project characteristics including RSO replacement standard achieved, number of pre-existing RSO units, and number of newly constructed units. Table 5 shows affordable units provided by income level. Key findings from these tables are described below.

In total among all the RSO redevelopment projects analyzed, the City has achieved an overall RSO-Affordable replacement ratio slightly over 1:1. As discussed in the previous section, 209 mixed-income projects on sites containing a total of 1,091 pre-existing RSO units were identified. These mixed-income RSO redevelopment projects account for 8,959 newly constructed units, of which 1,161 are covenanted affordable.

On a per-project basis, 61% of RSO redevelopment projects, accounting for 67% of housing units, already provide at least 1:1 RSO Affordable replacement. As these projects already meet the 1:1 RSO-Affordable replacement requirement under consideration, they would not be negatively impacted by the potential change in policy. Within these projects, the vast majority of affordable units (92%) are designated for extremely low income and very low income residents. More than a quarter of projects (26%) provide a 1:25:1 RSO-Affordable Replacement Unit Ratio or higher; 22% provide a 1.5:1 ratio or higher, and 13% provide a 2:1 ratio or higher.

The remaining RSO redevelopment projects – 39% of RSO redevelopment projects, accounting for 33% of units – provided less than 1:1 RSO-Affordable replacement. These projects may have been additionally burdened if required to provide 1:1 RSO-Affordable replacement. Within RSO redevelopment projects providing less than 1:1 RSO-Affordable replacement, a majority of affordable units (87%) are designated for extremely low income and very low income residents.

Key characteristics of mixed-income RSO redevelopment projects include:

- **Nearly all mixed-income RSO redevelopment projects (99%) utilized DB⁷ or TOC incentives, and a majority of these (77%) utilized the TOC incentive program.** The remainder of the projects in the database used other incentives including Value Capture Ordinance (VCO).
- **More than 40% of mixed-income RSO redevelopment projects are located in neighborhoods that fall into Market Tier 3 (High Medium Market Tier).** The remaining projects are almost evenly distributed across market tiers.
- **Eighty percent of mixed-income RSO redevelopment projects are located on sites zoned for medium and high medium density.** Five percent of projects are located on low medium density sites and three percent are located on high density sites.
- **Together, the Westlake, Hollywood, North Hollywood, and Koreatown neighborhoods contain over one-third of the City's mixed-income RSO redevelopment projects.** Westlake alone accounts for 9% of total units in the City's new mixed-income RSO redevelopment projects.
- **Most mixed-income RSO redevelopment projects (71%) replaced small scale buildings with 1-5 pre-existing RSO units.** Only three projects were developed on sites with greater than 25 pre-existing RSO units.
- **Nearly all mixed-income RSO redevelopment projects (94%) are mid-scale to large-scale projects with 11 or more newly constructed units.**

⁷ Including DBO projects that only used a parking reduction incentive.

Table 3. Selected RSO Projects: Development Condition Characteristics

	Number of Total New Projects		Number of Total Units in New Projects		Number of Affordable Units Provided		Number of RSO Units Demolished

*N/A (not available) refers to the projects that have insufficient or incorrect geodata and cannot be identified in the map.

** Includes projects that have insufficient or incorrect geodata, or are located in single-family zones (e.g., R1), or the allowable densities are not fixed but vary depending on the specific location (e.g., MU(EC), CW, etc.).

***Neighborhoods are based on LA Times Neighborhoods; only those with 25 or more RSO units demolished are included in the table (sorted by the number of RSO units demolished), while the rest are grouped under "Other Neighborhoods." The complete list can be found in the appendix.

4.2 Relationship between Project Characteristics and Affordable Housing Replacement

Next, projects were categorized based on their RSO-Affordable replacement ratio, and analyzed to understand the number of affordable units in each income category for projects that provide 1:1 RSO-Affordable replacement (“1:1 Replacement Standard Achieved”) and projects that provide less than 1:1 RSO-Affordable replacement (“1:1 Replacement Standard Not Achieved”).

A cross tabulation analysis sought to identify any potential correlation between various project characteristics and 1:1 RSO-Affordable Replacement, and whether any patterns clearly identify a threshold beyond which projects are significantly less likely to achieve 1:1 RSO-Affordable replacement.

Analysis revealed RSO-new unit ratio as the only project characteristic to reflect a clear trend with achievement of 1:1 RSO-Affordable replacement, and a clearly identified threshold (20%) above which projects are significantly less likely to achieve 1:1 RSO-Affordable replacement. **Therefore, this analysis finds that mixed-income RSO redevelopment projects with an RSO-new unit ratio above 20% are significantly more likely to be impacted by a change in policy to require 1:1 RSO-Affordable replacement.**

The analysis of projects by RSO-New Unit Ratio is detailed below, while the analysis for the remaining project characteristics considered can be found in Appendix A.1. *Analysis by Other Project Characteristics.*

4.2.1 RSO-Affordable Replacement by RSO-New Unit Ratio

RSO-New Unit Ratio: *Categorization by the ratio of pre-existing RSO units to total newly constructed units (expressed as percentages)*

- Analysis by RSO-new unit ratio revealed the strongest relationship between a project characteristic and whether projects already provide 1:1 RSO-Affordable replacement.
- All projects with an RSO-new unit ratio of 0-10% (pre-existing RSO units equal to 10% or less of total newly constructed units) already provide 1:1 RSO-Affordable replacement.
- Approximately 60% of projects with an RSO-new unit ratio of 11-20% already provide 1:1 RSO-Affordable replacement.
- Approximately 20% of projects with an RSO-new unit ratio of 21-80% already provide 1:1 RSO-Affordable replacement.
- This analysis shows that the difficulty of achieving 1:1 RSO-Affordable replacement generally increases with a project’s RSO-new unit ratio and suggests that projects with an RSO-new unit ratio above 20% are significantly less likely to achieve 1:1 RSO-Affordable replacement, compared to projects with lower ratio.

Figure 1. 1:1 RSO-Affordable Replacement by RSO-New Unit Ratio

Source: Land Use Recorded Covenants (2020-2023), AECOM

Table 6. 1:1 RSO-Affordable Replacement by RSO-New Unit Ratio

RSO-New Unit Ratio	Achieved 1:1 RSO-Affordable Replacement		Not Achieved 1:1 RSO-Affordable Replacement		Total

31-80%	3	18%	14	82%	17

Source: Land Use Recorded Covenants (2020-2023), AECOM

4.3 Estimated Impact of Policy Change

Using the identified threshold of a 20% RSO-new unit ratio, this analysis estimates that a 1:1 RSO-Affordable replacement Requirement would likely have caused significant additional financial burden, and potentially may have impacted project feasibility, for the 48 RSO redevelopment projects that did not already provide 1:1 RSO-Affordable replacement; and had an RSO-new unit ratio over 20%. This estimate assumes that the other 33 projects that did not provide 1:1 RSO-Affordable replacement but had an RSO-new unit ratio under 20%, would in most cases have found ways to adapt densities or other project characteristics to accommodate the increased affordability requirement. Note that this estimate does not incorporate any site specific economic or physical feasibility analysis.

Key findings about the potential impact of the policy change include:

- Overall, 48 projects built between 2020 and 2023 could have been impacted if they were required to provide 1:1 RSO-Affordable replacement.
- These potentially impacted projects involved demolition of 374 RSO units and provided 1,306 total new housing units, including 231 new affordable housing units.
- These 48 projects accounted for 16% of all RSO redevelopment projects in the Land Covenants database (10% of total units), 6% of all approved projects (3% of total units) in the Land Covenants database, and 2% of all housing units permitted in the City of Los Angeles between 2020 and 2023.⁸

Table 7. Impacted RSO Projects

	Impacted RSO Projects	All RSO Projects	Impacted RSO Projects as a Share of all RSO Projects	Covenanted Approved Projects	Impacted RSO Project as a Share of all Covenanted Approved Projects
New Projects	48	303	16%	840	6%
Units in New Projects	1,306	12,656	10%	46,529	3%
Affordable Units Provided	231	4,581	5%	17,447	1%
RSO Units Demolished	374	1,561	24%	1,561	24%

Source: Land Use Recorded Covenants (2020-2023), AECOM

⁸ According to Los Angeles General Plan Housing Element Annual Progress Report (2020-2023), more than 77,700 total housing units were permitted between 2020 and 2023.

A.1 Analysis by Other Project Characteristics

A.1.1 Characteristic 1: Incentive Program Utilized

Incentive Program Utilized: Application of DB, TOC, or other incentive programs

- For both DB and TOC projects, a majority of projects are already providing 1:1 RSO-Affordable replacement.
- A slightly higher share of TOC projects (62%) than DB projects (56%) are already providing 1:1 RSO-Affordable replacement.
- While 100% of projects using “other” incentive programs already provide 1:1 RSO-Affordable replacement, this category includes just 3 projects.
- The specific incentive program utilized does not appear to be an effective characteristic for determining which projects would be impacted by a 1:1 RSO-Affordable replacement requirement.

Figure 2. 1:1 RSO-Affordable Replacement by Incentive Program Utilized

Source: Land Use Recorded Covenants (2020-2023), AECOM

Table 8. 1:1 RSO-Affordable Replacement by Incentive Program Utilized

Incentive Program	Achieved 1:1 RSO-Affordable Replacement		Not Achieved 1:1 RSO-Affordable Replacement		Total
	# of Projects	%	# of Projects	%	# of Projects
DBO	25	56%	20	44%	45
TOC	100	62%	61	38%	161
Others	3	100%	0	0%	3

Source: Land Use Recorded Covenants (2020-2023), AECOM

A.1.2 Characteristic 2: Market Tier

Market Tier: Categorization of local housing markets based on their rent levels, sale prices, tenure status, and anticipated future changes.

- The share of projects already providing 1:1 RSO-Affordable replacement varies across market tiers but without an observable pattern.
- In market tiers 1 and 3, around 70% of projects already provide 1:1 RSO-Affordable replacement.
- Half of projects in market tier 2 already provide 1:1 RSO-Affordable replacement.
- Market tier 4 has the lowest share of projects (41%) that already provide 1:1 RSO-Affordable replacement.
- Market tier does not appear to be an effective characteristic for determining which projects would be impacted by a 1:1 RSO-Affordable replacement requirement.
- The large geographies encompassed by Market Tiers may obscure some of the nuance between geographies. For a more granular analysis of RSO-Affordable Replacement by geography, refer to Characteristic 3: Neighborhood.

Figure 3. 1:1 RSO-Affordable Replacement by Market Tier

Source: Land Use Recorded Covenants (2020-2023), AECOM

Table 9. 1:1 RSO-Affordable Replacement by Market Tier

Market Tier	Achieved 1:1 RSO-Affordable Replacement		Not Achieved 1:1 RSO-Affordable Replacement		Total
	# of Projects	%	# of Projects	%	# of Projects
Market Tier 1 (Low)	27	69%	12	31%	39
Market Tier 2 (Low-Medium)	16	50%	16	50%	32
Market Tier 3 (High-Medium)	64	72%	25	28%	89
Market Tier 4 (High)	19	41%	27	59%	46
N/A	2	67%	1	33%	3

N/A (not available) refers to the projects that have insufficient geodata and cannot be identified in the map.

Source: Land Use Recorded Covenants (2020-2023), AECOM

A.1.3 Characteristic 3: Neighborhood

Neighborhood: Neighborhood boundaries as identified by the LA Times Mapping LA project

- The share of projects already providing 1:1 RSO-Affordable replacement varies across neighborhoods, with highest 1:1 RSO-Affordable replacement rates (70-90%) in the neighborhoods of East Hollywood, Koreatown, Pico-Union, Toluca Lake, Echo Park and Exposition Park. No projects in Century City or Northridge, and under 20% of projects in Westwood and Westchester, provided 1:1 RSO-Affordable replacement. Note that neighborhoods in the table are ordered by total number of RSO units demolished (see Table 3 above).
- As a categorical variable, neighborhood was not considered as a potential threshold for the analysis; however, this analysis provides insight into where higher levels of affordable units are already being provided.

Table 10. 1:1 RSO-Affordable Replacement by Neighborhood

Neighborhoods*	Market Tier	Achieved 1:1 RSO-Affordable Replacement		Not Achieved 1:1 RSO-Affordable Replacement		Total
		# of Projects	%	# of Projects	%	# of Projects
Westlake	3	13	68%	6	32%	19
Hollywood	3	10	59%	7	41%	17
North Hollywood	2	6	40%	9	60%	15
Koreatown	3	15	79%	4	21%	19
Palms	4	6	60%	4	40%	10
East Hollywood	3	10	83%	2	17%	12
Pico-Union	1	8	73%	3	27%	11
Northridge	1		0%	1	100%	1
Westchester	4	1	17%	5	83%	6
Westwood	4	1	17%	5	83%	6
Echo Park	3	6	100%		0%	6
Hyde Park	2	3	60%	2	40%	5
Exposition Park	3	4	80%	1	20%	5
Century City	4		0%	1	100%	1
Toluca Lake	1	5	71%	2	29%	7
Other Neighborhoods	-	38	58%	28	42%	66
N/A*	-	2	67%	1	33%	3

N/A (not available) refers to the projects that have insufficient geodata and cannot be identified in the map.

*Neighborhoods are based on LA Times Neighborhoods; only those with 25 or more RSO units demolished are included in the table (sorted by the number of RSO units demolished), while the rest are grouped under "Other Neighborhoods." The complete list can be found in the appendix.

Source: Land Use Recorded Covenants (2020-2023), AECOM

A.1.4 Characteristic 4: RSO Site Condition

RSO Site Condition: Categorization by number of pre-existing RSO units (i.e., the number of demolished RSO units)

- Sites with 1-5 pre-existing RSO units have, by far, the highest share of RSO redevelopment projects already providing 1:1 RSO-Affordable replacement. This is expected, given that these projects are able to meet 1:1 RSO-Affordable replacement through provision of a much lower quantity of affordable units compared to projects that demolished more RSO units.
- The share of projects already providing 1:1 RSO-Affordable replacement is similar across categories of sites with 6-10, 11-25, and 26-50 pre-existing RSO units.
- The number of projects analyzed across categories varies significantly, with only 3 projects analyzed for sites with 26-50 pre-existing RSO units.

Figure 3. 1:1 RSO-Affordable Replacement by RSO Site Condition

Source: Land Use Recorded Covenants (2020-2023), AECOM

Table 11. 1:1 RSO-Affordable Replacement by RSO Site Condition

RSO Site Condition	Achieved 1:1 RSO-Affordable Replacement		Not Achieved 1:1 RSO-Affordable Replacement		Total # of Projects
	# of Projects	%	# of Projects	%	
1-5 Units	110	74%	38	26%	148
6-10 Units	12	32%	26	68%	38
11-25 Units	5	25%	15	75%	20
26-50 Units	1	33%	2	67%	3
51 And More Units	0	0%	0	0%	0

Source: Land Use Recorded Covenants (2020-2023), AECOM

A.1.5 Characteristic 5: Project Scale

Project Scale: Categorization by total number of newly constructed units

- In the three categories with a substantial number of projects analyzed (11-25 units, 26-50 units, and 51+ units), a majority of projects (between 52% and 67%) already provide 1:1 RSO-Affordable replacement. There is not an observable pattern to indicate that projects above or below a certain project scale are more likely to already provide a 1:1 RSO-Affordable replacement.
- For projects with 11 units or greater, project scale does not appear to be an effective characteristic for determining which projects would be impacted by a 1:1 RSO-Affordable replacement requirement.

Figure 4. 1:1 RSO-Affordable Replacement by Project Scale

Source: Land Use Recorded Covenants (2020-2023), AECOM

Table 12. 1:1 RSO-Affordable Replacement by Project Scale

Project Scale	Achieved 1:1 RSO-Affordable Replacement		Not Achieved 1:1 RSO-Affordable Replacement		Total
	# of Projects	%	# of Projects	%	# of Projects
1-5 Units	0	0%	5	100%	5
6-10 Units	6	75%	2	25%	8
11-25 Units	53	67%	26	33%	79
26-50 Units	31	52%	29	48%	60
51 And More Units	38	67%	19	33%	57

Source: Land Use Recorded Covenants (2020-2023), AECOM

A.1.6 Characteristic 6: Density Cohort

Density Cohort: Categorization by allowed density under base zoning conditions into cohorts of Low Medium, Medium, High Medium, and High

- More than half of projects in the Low Medium density cohort already provide 1:1 RSO-Affordable replacement.
- In both categories with a substantial number of projects analyzed (Medium and High Medium density cohorts) 60% and 65 of projects already provide 1:1 RSO-Affordable replacement, respectively.
- Analysis indicates that projects in higher density cohorts are somewhat more likely to already provide a 1:1 RSO-Affordable replacement, but the smaller number of projects analyzed in Low Medium and High density cohorts detract from the significance of this pattern.
- Density cohort does not appear to be an effective characteristic for determining which projects would be impacted by a 1:1 RSO-Affordable replacement requirement.

Figure 5. 1:1 RSO-Affordable Replacement by Density Cohort

Appendix A: Mixed Affordability Pathways for TOIA and OC

**Appendix to the Economic and Feasibility Analysis for the
Citywide Housing Incentive Program (CHIP)**

September 16, 2024

Los Angeles City Planning
City of Los Angeles

A1. Overview

The newly proposed housing incentive program offers both single-affordability (where only one affordability level is provided) and mixed-affordability (where a mix of different affordability levels is offered) as pathways to achieve density bonuses under the Transit Oriented Incentive Areas (TOIA) and Opportunity Corridors (OC) Incentive Programs. The Economic and Feasibility Analysis for the Citywide Housing Incentive Program (CHIP) report (“the CHIP report”) includes analysis of single-affordability pathways only. This appendix to the report analyzes four additional, mixed-income pathways for TOIA and OC. The goal of these pathways is to promote deeper affordability and accommodate a variety of income groups within a project.

A1.1 Mixed-Affordability Scenarios Tested

The proposed mixed-affordability pathways tested in the CHIP report are based on the Draft Citywide Housing Incentive Program Ordinance (June 27, 2024 Version). The proposed program structure offers two sets of options tailored for lower market tiers (Market Tiers 1 and 2) and two sets of options for higher market tiers (Market Tiers 3 and 4), which are tested in this appendix. These four scenarios are outlined in Table A-1 below.

Table A-1. Additional Scenarios for Mixed-Affordability Pathway

Scenarios		Affordability*					
		Set-Aside	ALI	ELI	VLI	LI	MI
Lower Market Tiers (MK1 & 2)	Scenario L1	12%	-	4%	8%	-	-
	Scenario L2	23%	1%	4%	-	-	18%
Higher Market Tiers (MK3 & 4)	Scenario H1	14%	-	5%	9%	-	-
	Scenario H2	26%	4%	4%	-	-	12%

*ALI: Acutely Low Income; ELI: Extremely Low Income; VLI: Very Low Income; LI: Low Income; MI: Moderate Income
Source: LACP, AECOM

Note that in the single-affordability pathway, affordability requirements vary according to the TOIA and OC tiers. However, in the mixed-affordability scenarios, based on the proposed ordinance, affordability requirements do not vary by tier. In other words, developers who opt for the mixed-income pathway will receive incentives aligned with their respective TOIA and OC tiers (refer to Tables 29 and 38 in the CHIP report, which summarize the proposed incentive structure).

A1.2 Modifications to Existing Prototypes and Assumptions

In general, the analysis of the mixed-income scenarios used the original prototypes and their associated assumptions as described in the CHIP report. However, the proposed ordinance requires that all projects utilizing mixed-affordability options include at least one three-bedroom covenanted unit at the lowest affordability level. Some of the previously tested prototypes did not include a three-bedroom configuration. To align with the proposed policy, a three-bedroom unit at the lowest allowable area median income (AMI) level (i.e., a three-bedroom ELI unit for lower market tiers and a three-bedroom ALI unit for higher market tiers) was added to these scenarios. The remaining units were distributed according to the original unit mix. Table A-2

Transmittal/Technical Note
Technical Appendix

shows the unit mix tested for each prototype for the mixed-income scenarios; the yellow highlighted cells indicate modifications that were made to reflect the proposed three-bedroom requirement. For consistency with the original report, only for-rent prototypes were tested.

Table A-2. Updated Unit Mix for Mixed-Affordability Pathway

Housing Typology	4D	CY3	CY4	P5	P7	TW
Typical Unit Mix (Lower Density)						
Avg. Unit Size	1,250	1,320	1,190	1,000	Varied	Varied
0BR	0%	0%	0%	0%	30%	25%
1BR	0%	0%	0%	40%	50%	50%
2BR	20%	70%	70%	40%	20%	25%
3BR	40%	30%	30%	20%	1 Unit	1 Unit
4BR	40%	0%	0%	0%	0%	0%
Denser Unit Mix Alternative (Higher Density)						
Avg. Unit Size		Varied	Varied	Varied		
0BR		20%	0%	20%		
1BR		40%	50%	50%		
2BR		40%	50%	30%		
3BR		1 Unit	1 Unit	1 Unit		
4BR		0%	0%	0%		

Source: LACP, AECOM

Note: Cells highlighted in yellow indicate modified prototypes that include one covenanted 3-bedroom unit. In cases where no 3-bedroom unit was included in the original, the average unit size remains unchanged due to minimal impact.

The analysis of mixed-affordability pathways described in this appendix used the same market rents, development costs, developer return expectations, and other assumptions that were used in the CHIP report to test the single-affordability pathways. The cost and revenue assumptions varied by market tier according to the established methodology in the CHIP report and were not adjusted to account for potential variations in market conditions within California Tax Credit Allocation Committee (TCAC) opportunity areas. Table A-3 shows the assumed affordable rents, which are based on the City's published schedules and the utility allowance schedule published by the Housing Authority of the City of Los Angeles (HACLA).

Table A-3. Affordable Rent Schedule

	Acutely Low 15% AMI	Extremely Low 30% AMI	Very Low 50% AMI	Moderate 120% AMI
AMI % for calculating qualifying income	15%	30%	50%	120%
Share of Qualifying Income Toward Rent	30%	30%	30%	35%
Qualifying Income²				
1-Person Household (Studio)	\$10,350	\$26,500	\$44,150	\$82,500
2-Person Household (1BR)	\$11,800	\$30,300	\$50,450	\$94,300

Technical Appendix

Source: Housing Authority of the City of Los Angeles (HACLA); California Housing and Community Development (HCD), AECOM
Notes: (1) Area Median Income limits for Extremely Low, Very Low, Low income, and Moderate tiers from California Department of Housing and Community Development (HCD) - Land Use Schedule VI Effective Date: August 1, 2023. AMI is \$98,200.
(2) LACDA Utility Allowance Schedule, effective 12/01/2023; AECOM assumes trash collection is excluded from tenant costs.

A2. Testing Results

A2.1 Residual Land Value and Feasibility Analysis for TOIA

This section shows the feasibility results of the TOIA incentive program schedules for the mixed-affordability pathways. Similar to the results for all other programs, and as described in the CHIP report, the tables below present the outcomes using measures of residual land value (RLV). Depending on the results of each scenario and prototype, one of three potential feasibility levels is indicated: infeasible, feasible, or preferable.

The affordability sets tested in the main report and the newly added mixed-affordability pathways in this appendix are generally comparable, so the base cases for those scenarios remain unchanged (see Table 32 of the CHIP report for the base case scenarios).

As illustrated in Table A-4 and Table A-5, none of the scenarios tested in the lower market tiers (Market Tiers 1 and 2) were feasible. In general, the RLV values for these tiers are significantly negative. In Market Tier 3, feasibility is also very limited, with only CY4 proving feasible in commercial zones. In Market Tier 4, while residential parcels still have limited feasibility, many prototypes in the commercial zones become feasible.

Implications of these results are discussed below in Section A3.

A2.2 Residual Land Value and Feasibility Analysis for OC

The following tables present the feasibility results for the OC program with the mixed-affordability pathway. Only OC-3, represented by a seven-story podium prototype (P7), is feasible in both residential and commercial zones.

Implications of these results are discussed below in Section A3.

Table A-8. OC Additional Scenario Residual Land Value and Feasibility in Market Tier 1 and 2

OC Incentives Tested - Market Tier 1				RLV	Feasibility	RLV	Feasibility
				Residential		Commercial	
<i>Market Land Value/Sq.ft.</i>				\$140		\$115

A3. Summary and Implications

Given the similarities between TOIA and OC, the implications of mixed-affordability options are also comparable. The key policy implications of this analysis include:

- **The overall trends and patterns observed in the new mixed-affordability scenarios are similar to the single-affordability sets.** Similar to trends observed in the CHIP report, scenarios in Market Tiers 1 and 2 remain generally infeasible, while feasibility begins to emerge in Market Tier 3 and many scenarios are feasible in Market Tier 4.
- **With the same set-aside level, the mixed affordability pathways tested generally produce similar residual land values compared to single affordability pathways.** Figure A-1 compares the RLVs of TOIA programs within a given market tier for the same set-aside level, comparing single-affordability options to multi-affordability options.¹ In some cases, across various prototypes in Market Tier 4, feasibility decreases when scenarios shift to multi-affordability levels. However, in Market Tier 1, the change is less consistent—some scenarios show a slight improvement in feasibility when a mixed-affordability option is implemented (though the RLVs are still negative).

Figure A-1. Comparisons between Single-Affordability and Mixed- Affordability Pathways by Market Tier: TOIA

¹ Results shown are the maximum RLVs generated for each prototype among the various TOIA Tiers tested, for the set aside levels shown.

*Results shown are maximum RLVs generated for each prototype among the various TOIA Tiers tested, for the set aside levels shown.

- Results differ by TOIA and OC tier, but not in a consistent direction.** Unlike the set-aside structures proposed in the main report, which are tiered based on the TOIA levels, the structure for these new scenarios does not differentiate between TOIA tiers. However, each TOIA or OC tier provides different incentive structures (such as density bonuses, FAR, and height). For some scenarios tested, the RLVs differ by TOIA/OC tier, reflecting the difference in incentives. In other cases, different TOIA/OC tiers generate very similar (or exactly the same) RLVs, because the differences in incentives do not significantly affect the development products.
- For TOIA, pathways that include ALI, ELI, and MI units (L2) generally offer improved feasibility compared to pathways that only include ELI and VLI units (L1).** Figure A-2 illustrates how many scenarios show improved feasibility when transitioning from L1/H1 (ELI + VLI) to L2/H2 (ALI + ELI + MI). In TOIA, more than half of the scenarios demonstrate improved feasibility using the L2 pathways compared to L1, suggesting that for the projects MI units often offset the reduced rents from ALI units, regardless of the total set-aside level. In general, larger scale scenarios (P7, TW prototypes) are better able to absorb an ALI unit, and therefore benefit more from the L2 pathway.
- However, in the case of OC, fewer projects are likely to choose pathways that include ALI and MI units (H2) compared to pathways that only include ELI and VLI units (H1).** Most of these scenarios that experience greater feasibility from H2 compared to H1 involve larger scale projects in OC Tiers 1 and 2. Smaller-scale projects appear more sensitive to the addition of ALI units.

Figure A-2. Feasible Scenarios: L2/H2 Compared to L1/H1

- Although not tested, Higher Opportunity Areas may have higher rents compared to low opportunity areas, enabling projects in these areas to better absorb ALI units.** The ALI unit pathways are intended to apply primarily in Higher Opportunity Areas. The assumptions used for this analysis average rents and land values by market tier. However, Higher Opportunity Areas may differ from the average, for example with higher rent levels and lower parking ratios due to closer proximity to transit access, which can, in turn, increase feasibility.
- The requirement for 3-bedroom units to be restricted to the lowest affordability level in a given pathway (ALI or ELI) may be an important factor affecting feasibility results.** The rent schedule for affordable units is set on a per-unit basis based on assumptions about household size. Effectively, smaller affordable units command a higher price compared to larger affordable units. For instance, in Prototype 7, ALI rents for studio units are \$0.18 per square foot compared to \$0.02 per square foot for 3-bedroom units. Since ALI rents are typically far below market-level rents, allowing developers to set aside smaller units for ALI while allocating 3-bedroom units to higher affordability levels could potentially improve feasibility.²

The tradeoffs between mixed-affordability and single-affordability pathways as tested are complex, given the introduction of ALI and three-bedroom unit requirements to the mixed-affordability pathways. However, taken together, these findings suggest that ALI requirements have a significant impact on feasibility. The City may expect more ALI units to be built in larger projects, and that providing flexibility in the AMI level for the required 3-bedroom unit could help improve uptake of the mixed-income pathways.

A4. Proposed Policy Changes

Based on the analysis from the main report and this appendix, LACP has proposed modifications to the TOIA and OC programs (Table A-10). The proposed changes include:

- Reducing the set-aside level for the VLI and LI in Tier 1
- Consolidating TOIA 1 and 2 into a single tier that retains the incentive structure of TOIA 2

² Note this finding does not account for any potential impact of Section 8 vouchers on feasibility.

Transmittal/Technical Note
Technical Appendix

- Lowering the ELI set-aside level for all tiers

Table A-10. Proposed Update to TOIA and OC Programs

TABLE 12.22 A.38(c)(3)(iii) Single Affordability Options for Meeting Restricted Affordable Units					
Market Tier	Incentive Program		Minimum Percent of Total Units Provided

Low and Medium Market Tiers	T1 (Previously TOIA 1 and 2)*	OC-1	9%	12%	21%
	T2 (Previously TOIA 3)	OC-2	10%	14%	23%
	T3 (Previously TOIA 4)	OC-3	11%	15%	25%
High Medium and High Market Tiers	T1 (Previously TOIA 1 and 2)*	OC-1	11%	14%	23%
	T2 (Previously TOIA 3)	OC-2	12%	16%	25%
	T3 (Previously TOIA 4)	OC-3	13%	17%	27%

Source: LACP, AECOM

Note: * Previous TOIA 1 and TOIA 2 are consolidated into new T1. New T1 has previous TOIA 2 incentive structures.

By comparison, the prior TOIA and OC program details are replicated in Table A-11, based on Table 12.22 of the main CHIP report.

Table A-11. Previously Studied TOIA and OC Programs

TABLE 12.22 A.38(c)(3)(iii) Single Affordability Options for Meeting Restricted Affordable Units					
Market Tier	Incentive Program		Minimum Percent of Total Units Provided as		
	Transit Oriented Incentive Area	Opportunity Corridors Incentive	Income Level		
			ELI	VLI	LI
Low and Medium Market Tiers	TOIA 1	-	9%	12.5%	21%
	TOIA 2	OC-1	10%	13%	22%
	TOIA 3	OC-2	11%	14%	23%
	TOIA 4	OC-3	12%	15%	25%
High Medium and High Market Tiers	TOIA 1	-	11%	14%	22%
	TOIA 2	OC-1	12%	15%	23%
	TOIA 3	OC-2	13%	16%	25%
	TOIA 4	OC-3	14%	17%	27%

Source: LACP, AECOM

While AECOM has not modeled these specific updates to TOIA and OC, our expectation is that the proposed program changes will generally improve the financial feasibility of these programs by reducing the overall affordable set asides, effectively increasing the density bonus for TOIA 1, and specifically reducing ELI set asides.

First, the feasibility of scenarios was observed to be highly sensitive to increased affordable set-asides. Thus, decreasing ELI, VLI, and LI set-aside requirements even marginally will likely improve feasibility.

Second, feasibility is likely to be improved by the proposed revisions to TOIA tiers. The prior TOIA 1 and 2 tiers offered limited density bonuses, with slightly higher density allowed in TOIA 2 and thus slightly better feasibility outcomes. The prior TOIA 3 and 4 tiers allowed unlimited density. Consolidating TOIA 1 and 2 and maintaining the higher density incentive of TOIA 2 would likely improve feasibility.

Finally, ELI units generate less revenue per unit compared to VLI or LI units, so reducing the ELI set-aside percentage will likely improve feasibility.

Appendix B: Extension of Affordable Housing Covenant Length

Appendix to the Economic and Feasibility Analysis for the Citywide Housing Incentive Program (CHIP)

September 16, 2024

Los Angeles City Planning
City of Los Angeles

Los Angeles City Planning
City of Los Angeles

B1. Introduction

This technical appendix to the Economic and Feasibility Analysis for the Citywide Housing Incentive Program report (“the CHIP report”) discusses considerations related to the potential feasibility impact of extending the affordability covenant length from 55 years to 99 years. This analysis focuses on mixed-income, unsubsidized projects in the City of Los Angeles (“The City”). Housing subsidy programs generally impose their own requirements for affordable housing covenant length. As such, this analysis focuses on the potential impact of the covenant length extension on mixed-income projects built without subsidies under incentive and inclusionary programs.

This appendix aims to provide policy makers with guidance on the impact of extending affordability covenants. The analysis is based on AECOM’s review of existing industry practices, underwriting and investment requirements, and financial metrics, while also integrating previous analyses on the same topic.

B2. Background

In the City, there are various policy mechanisms governing affordability covenants, such as the Density Bonus Ordinance, Transit-Oriented Communities (TOC), Affordable Replacement Requirement (such as AB 2556 and the Housing Crisis Act), as well as Zoning Changes and discretionary decisions by the Department of City Planning or the City Council.¹ These covenants require affordable units to remain accessible for 55 years, aligning with recent state legislation and local initiatives like Measure JJJ and TOC. This extension is a significant shift from the previous standard of 30 years, for example under the Low-Income Housing Tax Credit (LIHTC) program, which remains the largest affordable housing development program in the nation. Under LIHTC, properties are monitored every three to five years for compliance over a 30-year term, though many agreements now align with the 55-year standard due to evolving state regulations. To ensure compliance, each covenant must specify the number of affordable units, income levels, methods for calculating qualifying income, and guidelines for determining affordable rents or sales prices.²

Other peer jurisdictions both within and outside of California have affordable housing incentive programs or inclusionary housing requirements that are comparable to those of the City. Additionally, the State of California offers various incentives to developments that include established set-asides of affordable housing. A survey of these jurisdictions shows that the most common affordable housing covenant length is 55 years. Table B-1 summarizes the programs and their covenant lengths.

¹ Los Angeles Housing Department, [Land Use Covenants](#), accessed August 29, 2024.

² League of California Cities, [Affordable Housing Covenants: Ensuring Continued Affordability](#), September 7, 2022.

Table B-1. Survey of Other Jurisdictions³

Jurisdiction	Program	Covenant Length	Notes
Los Angeles County	Inclusionary Housing Ordinance	55 years	Local Inclusionary Housing Requirement
City of New York	Inclusionary Housing Zoning	Perpetuity	Subareas of the city have mandatory or incentive inclusionary housing programs. Both require perpetual covenants
City of San Francisco	Inclusionary Affordable Housing Program	55 years	Local Inclusionary Housing Requirement
City of San Francisco	Affordable Housing Bonus Program	Perpetuity	Incentive program that offers a range of density bonuses from 30-100%
City of San Diego	Inclusionary Housing Ordinance	55 years	Local Inclusionary Housing Requirement
City of Long Beach	Inclusionary Housing Ordinance	55 years	Local Inclusionary Housing Requirement
City of Pasadena	Inclusionary Housing Ordinance	Perpetuity	Local Inclusionary Housing Requirement
City of San Jose	Inclusionary Housing Ordinance	55 years	Local Inclusionary Housing Requirement
State of California	Density Bonus Law	55 years	Minimum can be extended by local ordinance or financing requirement
State of California	SB 35	55 years	Provides streamlined review and CEQA exemptions for mixed-income developments

A similar analysis on affordability covenant length was conducted by HR&A Advisors, who evaluated the impact of extending the affordability covenant for mixed-income projects from multiple jurisdictions that receive density bonuses or other incentives. HR&A concluded that extending affordability covenants from 55 years to 99 years will not significantly impact the financial feasibility of mixed-income projects.⁴ This assessment was driven by the financial mechanics of the time-value of money as well as review of relevant literature.

B3. Considerations

Developers typically evaluate the feasibility of development opportunities through financial analysis and an assessment of risks. The financial analysis considers initial investment, operating cash flows during a holding period, and future disposition proceeds, calculating expected returns in comparison to the return metric thresholds set by each developer. Significant risks can be priced into this analysis or lead a developer to stop evaluation and pursue other opportunities. As such, there are mechanisms through which extending the affordability covenant length could impact development feasibility and by extension the production of new affordable housing. These are summarized in Task B-2.

Table B-2. Potential Feasibility Impacts

Mechanism	Description	Likely Impact of Extended Covenant Length	Commentary
Modeled Operating Cash Flows	Cash flows from property operation could theoretically increase upon expiration of affordability covenants, impacting expected returns.	Not Significant	<i>Operating cash flows beyond 55 years provide little to no impact on expected returns due to discounting (See discussion of discounting and the time value of money below). In addition, most developer financial models do not extend beyond 30 years.</i>
Modeled Reversionary Value	The value received in future sale of the property could be impacted by expectations around future use; for example, a developer may anticipate increased rents upon expiration of affordability covenants, increasing the expected value.	Not Significant	<i>Most real estate investment models do not extend beyond 30 years and holding periods are not likely to extend beyond 25 years. As a result, the next buyer is unlikely to consider covenant expiration as an investment strategy.</i>
Underwriting Risks	Debt and equity underwriters may view affordability covenants negatively due perceived risks related to future sale or enforcement, impacting access to financing or modeled financing terms.	Not Significant	<i>As most loans are no longer than a 30-year term, it is unlikely that extending the covenant beyond 55 years would significantly impact a project's ability to obtain financing or the terms of financing.</i>
Unknown Risks	Developers may add their own risk premium or avoid further financial evaluation due to unknown risks related to financing, future sale, enforcement, or other factors.	Low	<i>Confusion or uncertainty may be particularly likely for mixed-income developers who are unfamiliar with affordability covenants, but this ultimately impacts all covenant lengths including the current 55 years.</i>

Source: AECOM.

Lessening the impact of cash flows far into the future is the principle of **time-value of money**, wherein developers and investors value near-term revenues more highly than future revenues. This decreases the impact of future cash flows on project returns as developers apply discount rates equivalent to the opportunity cost of their investment plus a spread of additional risks appropriate to the project.

The time-value of money is determined through the process of discounting future cash flows using a discount rate. The discount rate typically reflects the expected return on an investment that carries a similar level of risk. Additionally, it includes a risk premium to account for the uncertainties associated with a particular project.

Figure 1 illustrates the long-term impact of the time-value concept. Starting at the Net Present Value (NPV) of a \$1,000,000 investment under various discount rates over a period of 120 years. At an 8% discount rate, the NPV of this investment is \$14,511 after 55 years, while after 99 years it decreases to \$491. This demonstrates the significant reduction in NPV over time, as the value in present dollars diminishes by 98.5% and 99.9% respectively.

This illustrative example highlights the low potential impacts of extending an affordable housing covenant beyond 55 years on the modeled operating cash flows a developer is likely to estimate when making an investment decision. It is unlikely to have an impact in the long term on the financial viability of a new development.

Figure B-1. Time Value of Money Impacts on Returns

B4. Recommendations

The discussion above suggests that the impact of longer covenants on feasibility and project valuation is likely to be minimal. At the same time, there may be advantages to extending the covenant length. UCLA's Lewis Center for Regional Policy Studies suggests that a longer affordability period could decrease the need for funds to preserve existing affordable housing and thus free up additional resources for new construction or acquisition.⁵

In addition, a covenant extension might present benefits such as stability in revenue from reduced turnover (from the developer perspective) as well as long-term predictability in the supply of affordable housing (from the community and resident perspective).

Table B-3 summarizes the advantages and disadvantages of different covenant lengths.

⁵ UCLA Lewis Center for Regional Policy Studies, [Increasing the Duration of Affordability Requirements for New Affordable Housing](#), 2020.

Table B-3. Affordability Covenant Length Considerations

Covenant Length	Advantages	Disadvantages
Remaining at 55 years	<ul style="list-style-type: none"> • Lower potential for developer to price unknown or unproven risks related to longer affordability covenants. • Small proportion of developers with a holding period longer than 25 years may model marginally higher reversionary value or land value, due to future buyer anticipating the expiration of affordability covenants. 	<ul style="list-style-type: none"> • Possible removal from affordable housing inventory at 55 years. • Owner may be less likely to make significant capital investments in property as term gets closer to 55 years, potentially impacting resident quality of life.
Increasing from 55 years to 99 years	<ul style="list-style-type: none"> • No significant impact on most developer evaluations of financial feasibility. • Forestall possible removal from affordable housing inventory at 55 years. 	<ul style="list-style-type: none"> • Lose potential for developer to expect higher reversionary value from expiration of affordability covenants. • Potential confusion if length inconsistent with other incentive programs or policy standards.

Based on AECOM's review of literature and the financial mechanics of affordable housing developments, we conclude the following:

- **There is limited financial difference between 55-year and 99-year covenants to a developer considering project feasibility**, as developers do not consider the impact of revenues this far into the future when evaluating feasibility. However, there may be a marginal impact to affordable housing production due downward expectations on future reversionary value, which may impact developers with longer holding periods.
- **While overall risk to project feasibility is low when increasing covenant lengths, there is greater risk that mixed-income developers will price unknowns or alter decision-making, compared to developers of fully affordable and/or subsidized projects** who are more familiar with such policy requirements.
- **Given these factors, AECOM does not anticipate a measurable impact on affordable housing production in Los Angeles should the City increase affordability covenants from 55 years to 99 years in CHIP programs.** This impact may become more notable if there are other perceived financial differences between available incentive programs such as Density Bonus (DB) or Transit Oriented Incentive Areas (TOIA).

While covenant extensions are one strategy to preserve affordability, they do not represent a comprehensive solution. Attaining long-term affordability requires robust legal mechanisms, well-designed resale restrictions, and effective maintenance and management of existing affordable housing units.⁶ These measures will help ensure that inclusionary and incentive program units remain affordable in the future.

* An applicant may request Incentives on or off the Menu of Incentives.

Program	Allowed Incentives (On/Off Menu)	Ministerial		Discretionary	
		Department of Building and Safety	Expanded Administrative Review	Director's Determination	City Planning Commission (Class 3 CUP)
Existing Density Bonus (DB)	Up to 3	Base Incentives (Density and Parking)	Menu of Incentives subject to Administrative Review	Not Applicable	Off-Menu / Waivers of Development Standards
Existing Transit Oriented Communities	Up to 3	Base Incentives (Density, Parking, FAR)	Not Applicable	Menu of Incentives	Not Applicable
Proposed Density Program State Bonus	Up to 4*	Base Incentives - Density - Parking Menu of Incentives (Exception: Housing Developments in Very High Fire Hazard Severity Zones, Sea Level Rise Areas, and Coastal Zones are not eligible for the Menu of Incentives)	Public Benefit Options (Exception: Housing Developments in Very High Fire Hazard Severity Zones, Sea Level Rise Areas, and Coastal Zones are not eligible for the Multi-Bedroom Public Benefit Option) Not on Menu of Incentives (Public Hearing may be Required)	Not Applicable	Waivers of a development standard including requests
Proposed Mixed Incentive Program (MIIP) Income Program	Up to 4*	Base Incentives - Density - Parking - FAR - Height Menu of Incentives	Public Benefit Options Not on Menu of Incentives (Public Hearing may be Required), except that the following Off-Menu requests may not be requested and shall be processed pursuant to the State Density Bonus Program: FAR, Height, Yards/Setbacks, Open Space, tree planting, and ground story	Up to one waiver of a Development Standard	Project requesting more than one waiver of a development standard
Proposed Affordable Incentive Program (AHIP) Housing Program	Up to 5*	Base Incentives - Density - Parking - FAR - Height Menu of Incentives (Exception: Projects in Very High Fire Hazard Severity Zones, Sea Level Rise Areas, and Coastal Zones are not eligible for Menu of Incentives)	Public Benefit Options (Exception: Projects in Very High Fire Hazard Severity Zones, Sea Level Rise Areas, and Coastal Zones are not eligible for Public Benefit Options except for bonuses for Childcare Facilities and Land Donation) Not on Menu of Incentives (Public Hearing may be Required) Base Incentives & Incentives requested from the Menu of Incentives for FBO sites with Surveyed Historic Resources Up to one waiver of a Development Standard	Up to three waivers of a Development Standard	More than three waivers of a development standard

APPENDIX 5: Rezoning Model Assumptions

CPC-2023-7068-CA, CPC-2024-387-CA, CPC-2024-388-CA

For consideration by the City Planning Commission

September 26, 2024

Appendix 5 - REZONING MODEL ASSUMPTIONS

Re-zoning Program Model Assumptions

The following section describes the assumptions that were developed to determine how the number of units (total realistic capacity) were determined for the different types of sites for the Program 121 RHNA Re-zoning, including the Citywide Housing Incentive Program (CHIP) and Downtown LA 2045 Community Plan Update. Sites identified to meet the lower-income RHNA need have separate requirements and therefore have their own individualized assumptions, which is described as well. This methodology outlined in the document below is consistent with the methodology utilized for the Rezoning Program Candidate Sites Inventory in Chapter 4 of the 2021-2029 Housing Element. Several adjustments were made to suitability factor assumptions, which are described below.

Given the size of Los Angeles, the large rezoning need, and desire to include multiple pathways to achieve the RHNA goals, the CHIP and Downtown LA 2045 Community Plan Update includes a wide array of sites, with approximately 83,000 sites that were selected based on a variety of criteria and with many different characteristics. The various rezoning strategies also include their own set of individualized assumptions regarding availability and suitability of sites and overall capacity. In addition, the following general citywide criteria has also been developed and applied to all sites in the proposed RHNA Rezoning Program.

The sites have been analyzed to ensure they have sufficient water, sewer, and dry utilities available and accessible. In an urbanized area like Los Angeles, the only sites that lack availability for basic infrastructure are located in remote, fire-prone undeveloped hillside areas, which have been removed from the rezoning inventory by excluding all parcels located in Very High Fire Hazard Severity Zone Areas (VHFHSZ). In addition, sites in the Coastal Zone, environmentally sensitive areas susceptible to sea level rise or located in zones that do not already allow for residential development (such as Open Space, Public Facilities, or Manufacturing) were generally removed (exceptions include areas that are anticipated to be rezoned to allow residential use, as described below). If a project site is located within a VHFHSZ or Coastal Zone Area shall be eligible for Opportunity Corridor incentives, they would be exempt from the exclusion. Adequate water and sewer service is required to obtain building permits in Los Angeles, with a priority for developments with units affordable to lower-income households.

While Los Angeles sees almost all types of sites turn into housing, certain types of uses can be assumed to be extremely unlikely to be discontinued, such as cemeteries, colleges, hospitals, schools (except for the PF Zone strategy described below), libraries, recreation centers, and police and fire stations, as well as a variety of other uses, were excluded altogether. Sites identified in Appendix 4.2 and Appendix 4.3 of the 2021-2029 Housing Element as pipeline development projects were included but adjustments were made to reduce likelihood these sites would utilize the CHIP incentives to redevelop.

Appendix 5 - REZONING MODEL ASSUMPTIONS

Non-vacant sites included in the Inventory are not precluded from being developed into housing at the capacities identified in the Rezoning Program, because existing barriers are being removed by the individualized approaches taken by each rezoning strategy. Sites with no reasonable likelihood or realistic capacity are excluded from the model both through the initial selection criteria, as well as a site-based series of suitability adjustment factors that were selected to ensure potential impediments regarding existing use and market demand are applied to the analysis (see Table 2). These additional adjustment factors create the methodology used to determine overall development potential and are designed to account for the major factors that most impact suitability and availability - and therefore likelihood of new housing development. The factors are based in part on some of the strongest findings from the regression model used for the Adequate Sites Inventory of the 2021-2029 Housing Element, as well as knowledge of local development trends.

The model considers the extent to which existing uses may constitute an impediment by incorporating the city's past experience with converting existing uses to higher density multi-family housing, including market-based factors. It also is based on the overall set of existing regulatory standards and incentives, and those proposed in conjunction with the Rezoning Program, to encourage additional residential development on these sites.

For all sites within the Rezoning Program, the base and maximum allowable number of units is calculated using the following assumptions at an APN and PIN level. Density for residential and commercially zoned parcels is divided by the lot area to result in the Maximum Potential Units. If the proposed FAR is less than or equal to 2:1, FAR is considered a limiting factor; therefore, Maximum Potential Units is calculated by multiplying the proposed FAR by Lot Size Square Feet (SF) and dividing by 1,150.

In general, development potential on every site is reduced from the maximum allowable units on a site by 80% to result in an expected buildout or realistic capacity figure. The 80% figure is taken from the Housing Element Sites Inventory regression model's findings that, on average, sites in Los Angeles developed for multi-family (5+ units) housing since 2015 have been built at 80% of the maximum allowable density.

Lower-income sites (VLI and LI) are allocated according to the State-required minimum density of 20 units per acre and 16 units per site. Unique affordability assumptions are included in many of the diverse rezoning strategies described below. Due to the additional cost and lack of experience of Los Angeles in building lower-income housing through high-rise developments, sites exceeding 4.5 FAR are assumed to include only 10% of total capacity as lower-income housing (the remaining 90% are assumed to be above moderate).

After the realistic capacity is established, the result is subtracted from the number of existing units on a site, to establish potential net gain in units. If the net is less than or equal to zero, the site is removed from the list. The remaining figure is then adjusted based on a series of suitability adjustment factors, selected due to their particular likelihood to impact the potential of

Appendix 5 - REZONING MODEL ASSUMPTIONS

housing development. **Table 1** below shows the suitability factors utilized in Chapter 4 of the 2021-2029 Housing Element to determine Appendix 4.7 Inventory of Candidate Sites.

Table 1 - Suitability Factors from Chapter 4 of the 2021-2029 Housing Element

Suitability Adjustment Factors	Percentage Adjustment
Presence of a Historic Cultural Monument	-50%
Ratio of maximum allowable units compared to the number of existing units is less than 4:1	-35%
On commercial sites, a lot area utilization rate equal to or greater than 2.0	-35%
Sites with buildings constructed in the last 20 years (2000-2021)	If building age is between 2011 and 2021 = -80%
Sites located in Higher Opportunity Area (High and Highest Resource Areas using TCAC/HCD)	+20%
Property is subject to the Rent Stabilization Ordinance (RSO)	-10%

The suitability adjustment factors described in Table 2 are applied to the realistic capacity figures in a cumulative fashion, based on the application of a composite percentage score resulting from the applicable factors on each site. In instances where the application of several factors results in more than a 100% reduction in site suitability, the site is removed from consideration. The assumptions in Table 2 have been strengthened to require higher more conservative capacity discounts than Table 1 which was utilized for the Candidate Sites for Rezoning Modeling in the 2021-2029 Housing Element.

Appendix 5 - REZONING MODEL ASSUMPTIONS

Table 2: Suitability Adjustment Factors Used In Re-zoning Model

Percentage Adjustment	Suitability Adjustment Factor	Explanation of Adjustment
-50%	Presence of a Historic Cultural Monument (HCMs)	Sites with designated HCMs including sites within an HPOZ, are subject to demolition restrictions but are eligible for reduced incentives, in some cases, may be incorporated into larger housing development projects but at a lower likelihood.
-35%	The ratio of maximum allowable units compared to the number of existing units is less than 4:1	Housing replacement requirements in the City's RSO and State law require most demolished RSO units to be replaced as restricted affordable housing, which likely results in lower redevelopment feasibility as seen in the regression model. Permit data suggests a lower likelihood of new housing being built on sites where the ratio of new to existing homes is less than 4:1. Still the city sees many projects with lower ratios, so these sites cannot be precluded altogether. Was not applied to the ADU or the R2/RD strategies.
-35%	On commercial sites, a lot area utilization rate equal to or greater than 2.0.	Commercial sites with high lot area utilization are less likely to be redeveloped to housing. However, high lot utilization does not preclude redevelopment, particularly as increasing types of uses become less valuable compared to residential use. Assessor valuations are also imperfect as they may reflect older assessments and not current values.
-50%,	On commercial sites, a lot area utilization rate equal to or greater than 4.0.	
-65%	On commercial sites, a lot area utilization rate equal to or greater than 6.0.	
-80%	Sites with buildings constructed in the last 13 years (2011 to 2024) years	If building age is between 2011 and 2021, assign -0.8 factor. If building age is between 2010 and 2000, assign -0.2 factor. Recently constructed buildings are less likely to be redeveloped overall; however, the regression model found that for higher-density sites the year built did not appear to be statistically significant.
-20%	Sites with buildings constructed in the last 14 to 25 years (2000 to 2010)	
-80%	Property is subject to the Rent Stabilization Ordinance (RSO) with 10 or more RSO units on site.	The regression analysis found that properties subject to the RSO experienced less development at the most common middle density range of housing projects; however, the impact was negligible on higher density sites and positive on the much more numerous lower density development sites. Therefore, a lighter reduction is applied.
-10%	Property is subject to the Rent Stabilization Ordinance (RSO) with less than 10 RSO units on site.	
-80%, -60%, -40%, 0%	If a site is located in: Market Tier 1, Market Tier 2, Market Tier 3, Market Tier 4	The economic feasibility analysis conducted by the City found that projects located in weaker markets of the City (Market Tiers 1 and 2) had almost no feasibility of development during this time period. Stronger markets in the City (Market Tiers 3 and 4) found more feasibility, the stronger the market.
-100%	Properties designated as condominiums	Condominium developments are unlikely to be discontinued, therefore, a high reduction is applied.
-90%	Properties listed as a Pipeline Project	Pipeline development projects are in the process of being permitted, but are not built yet. Therefore, a high reduction is applied, because there is a low possibility the project may not be constructed.
-15%	Properties with commercial General	Properties that allow mixed-use development of commercial and

Appendix 5 - REZONING MODEL ASSUMPTIONS

	Plan Land Use designations	residential uses have included a discount factor for non-residential floor area that may be included in the proposed project
--	----------------------------	--

The City's proposed RHNA Re-zoning Program is largely based on the strategy of incentivizing affordable housing production alongside market-rate housing. This is done by developing unique sets of development standards and affordability requirements like those that have proven to be successful in Los Angeles in creating mixed-income affordable housing at densities that exceed base zoning allowances. In 2020, the vast majority (more than 70%) of units created in 5+ unit multi-family projects in the city utilized development bonuses and built beyond the base density allowed by the site's zoning. This figure is expected to increase significantly to include almost all projects moving forward, as all permitted projects become subject to the City's Affordable Housing Linkage Fee. This is due to the significant shift (also noted above) where nearly all multi-family projects subject to Linkage Fee opt to include on-site affordable units. While not all new development builds to the maximum capacity allowed by the incentives, the density levels are typically beyond the base number of units allowed prior to receipt of a bonus or incentive. These maximum allowable densities are included as part of determining the total site capacity because development trends demonstrate densities higher than the maximum allowable densities, especially for housing including units affordable to lower-income households.

This trend is due to the successful usage of affordable housing incentive programs in Los Angeles, which are somewhat unique to Los Angeles due to careful design of incentive programs, which target common zoning barriers and provide alternative development standards to ensure the maximum densities can be achieved. City programs are tailored to allow for larger density increases than allowed by state density bonus law, particularly at transit-rich locations through use of the City's Transit Oriented Communities (TOC) program; through a citywide Value Capture Ordinance, which provides unlimited density through provision of additional affordable housing; and through Community Planning Implementation Overlays (CPIOs), which refine and often exceed the densities allowed in existing citywide incentives in the TOC. Other residential uses, such as 100% affordable housing and permanent supportive housing, have unlimited densities in most multi-family zoned parts of the city (through AB 1763 and the City's PSH Ordinance). The RHNA Re-zoning Program anticipates an expansion of these types of successful incentive programs, primarily in Higher Opportunity Areas. Projects using the City's incentive programs to exceed base density are generally processed ministerially, or through a transparent, objective standard-based discretionary process.

Because the methodology does not separately count the unique capacity created by various rezoning strategies that may all apply to a given site, but only counts the largest applicable rezoning strategy, the methodology is inherently conservative. In addition, having several new zoning strategies available on a given parcel increases the likelihood that the site will produce new housing.

Proposed RHNA Re-Zoning Strategies Methodology Updates

Opportunity Corridors

Appendix 5 - REZONING MODEL ASSUMPTIONS

A major focus of the rezoning is on major streets, known as Avenues and Boulevards, with transit service that runs at least every 30 minutes during peak commute hours exclusively in Higher Opportunity Areas to allow for multi-family development, with an affordable housing requirement. There are three types of Opportunity Corridors. Opportunity Corridor 1 represents buses arriving 30 minutes or less during peak hours (Frequent Bus Services). Opportunity Corridor 2 represents buses arriving 15 minutes or less during peak hours (High Quality Transit Services). Opportunity Corridor 3 represents corridors within one-half mile of a Metro Rail Station. OC projects are envisioned as 5 - 7 story podium buildings, with heights scaling down as the site is located further from the transit stop.

Transit Oriented Incentive Areas

The Transit Oriented Incentive Area (TOIA) program is proposed to operate similarly to today's Transit Oriented Communities program, with three Tiers of incentives within a one-half mile radius of a transit stop. These areas are based on sites that allow for multi-family uses located within one-half mile of a major transit stop citywide. TOIA projects are envisioned as 4 - 7 story buildings, scaled depending on their proximity to the transit stop, and would be eligible for tiered development incentives, meaning the closer a site is to the transit stop, the taller and more dense a project can be.

In order to Affirmatively Further Fair Housing, the TOIA incentives differ on whether the eligibility area is located in a Lower or Higher Opportunity Area. This emphasizes greater development incentives in Higher Opportunity Areas of the City. Density, FAR and height bonuses vary depending on eligibility area, opportunity area and zone. For the purpose of this model, TOIA density bonuses in Tier 1 Low Opportunity were removed from the model. As 100% density bonuses are available through State Density Bonus Incentives, the 100% bonus is not representative of a substantial capacity change.

Opportunity Corridor Transition Incentive Areas (CT)

Opportunity Corridor Transition Incentive Areas are located behind Opportunity Corridor Incentive Areas in Higher Opportunity Areas. There are three types of Corridor Transition Areas. Corridor Transition 1 involves projects located 750 feet of the furthest property from the Corridor within an Opportunity Corridor Incentive Area. Corridor Transition 2 involves projects located 500 feet of the furthest property from the Corridor within an Opportunity Corridor Incentive Area. Corridor Transition 3 involves projects located 250 feet of the furthest property from the Corridor within an Opportunity Corridor Incentive Area. Corridor Transition Areas allow up to six to 16 units per lot with incremental FAR, depending on their eligibility subarea. Projects are required to meet certain design standards surrounding entryways and open space, intended to facilitate new lower scale infill housing, largely within existing allowable buildable floor area limits. The intent is that OC buildings would work with CT buildings to provide a physical transition of 5 - 7 stories to 2 - 3 stories down from the major streets to lower scale neighborhoods.

Affordable Housing Incentive Program (AHIP)

Projects that commit to significantly deeper levels of affordable housing should qualify for the largest development incentives. The AHIP Program anticipates creating development incentives

Appendix 5 - REZONING MODEL ASSUMPTIONS

for projects that include at least 50% affordable housing in a wider array of areas of the City. Because this tool will likely only be available to majority deed restricted affordable projects, capacities are heavily adjusted (-80%). Recent experience with a similar State Bonus for 100% affordable projects (AB 1763) indicates the private market can find opportunities to build deeply affordable buildings if they are afforded ample incentives and a streamlined, transparent approval process. The overlay is expected to apply on any commercially or residentially zoned parcel, with varying allowable height and floor area depending on the type of site. While the state density bonus law already provides significant incentives for 100% affordable housing on sites that qualify under AB 1763, including density, additional height, and parking reductions, the Rezoning Program would extend incentives into other areas of the city and complement state rules. It is anticipated that these projects will not require a discretionary action, even when it would otherwise be required (similar to streamlining provisions in SB 35).

1. Public Facility Zone (PF) and Publicly Owned Sites

The Affordable Housing Overlay portion of the Rezoning Program will also allow a wider array of 100% affordable housing typologies on a set of publicly owned Public Facility (PF) zoned and Publicly Owned properties. The allowance is expected to permit joint public-private housing development on publicly owned PF zoned sites at the use, area and density standards of any adjacent zone, along with a minimum set of alternative development standards for other sites where adjacent standards would not permit affordable housing. The capacity figure reflects only sites owned by Los Angeles City or County, Los Angeles Unified School District (which has expressed a commitment to build affordable housing on their land) and Metro. Sites adjacent to airports, heavy manufacturing sites and with joint open space or agricultural designations were removed as were all Very High Fire Hazard Severity Zones and sites larger than 5 acres. The capacity assumptions recognize that the vast majority of public land (approximately 99%) is not suitable for housing development due to existing public use and insufficient public resources to develop 100% affordable housing.

2. Faith-Based Owned Properties (FBO)

Many faith-based organizations have underutilized properties, like parking lots that are empty most of the time, as well as a social mission to provide affordable housing. On land owned by a religious or faith-based institution, as part of the Affordable Housing Overlay, the Rezoning Program would allow affordable housing development at densities required for affordable (lower-income) housing sites. Allowable densities, heights and floor area can be based on the least restrictive adjacent zone, with a minimum FAR and density to permit affordable housing development of at least 20 units per acre and 16 units per development site. This incentive would be paired with local and state incentives including AB 1851 (2020), which provides parking replacement incentives. The methodology assumes that only a small percentage (approximately 3%) of faith-based owned sites would be suitable and available for housing and approximately 15% of the land would be available due to pre-existing uses.

3. Parking Zones (P)

Appendix 5 - REZONING MODEL ASSUMPTIONS

Another strategy would allow residential uses on all Parking (P) and Parking Building (PB) zones at the use, area and density standards of any adjacent commercial zone, with a transitional height component in some areas. The capacity figure reflects strong demand to utilize these sites, which are usually adjacent to commercially zoned corridor sites, and that existing parking can typically be replaced without triggering Zoning Code floor area limitations. In addition, this policy anticipates some right-sizing of replacement parking standards where existing parking spaces exceed demand, as well as the development of complementary programs to rezone commercial corridor sites, particularly in Higher Opportunity Areas (see Corridors strategy above). Still, the inventory uses a conservative 20% suitability and availability factor, which assumes that demand for existing commercial use parking may limit redevelopment potential in many areas. In addition, transitional height limits that apply when adjacent to single-family zones leads to a further limiting assumption that only 50% of the lot area of the available sites will be available for housing.

Downtown LA (DTLA 2024) Community Plan Update

No methodology updates were made to the Downtown assumptions.

INITIAL SUBMISSIONS

The following submissions by the public are in compliance with the Commission Rules and Operating Procedures (ROPs), Rule 4.3a. Please note that “compliance” means that the submission complies with deadline, delivery method (hard copy and/or electronic) AND the number of copies. The Commission’s ROPs can be accessed at <http://planning.lacity.org>, by selecting “Commissions & Hearings” and selecting the specific Commission.

The following submissions are not integrated or addressed in the Staff Report but have been distributed to the Commission.

Material which does not comply with the submission rules is not distributed to the Commission.

Dear Councilmember Yaroslavsky, Los Angeles City Planning Department and City Planning Commission:

We strongly oppose the majority of upzoning of single-family residential zones proposed in the WLA Community Plan and Housing Element drafts targeting the Westside NC area of CD 5. The proposed changes will have profound and severe impacts in our neighborhoods.

We acknowledge the need to increase housing capacity in the area and pledge to work with the Planning Dept. to identify better qualified candidate sites to meet our share of housing capacity to support meeting the City's RHNA goals. The upzoning of most single-family properties is unnecessary when a closer look at our commercial corridors is made adding blocks where upzoning and adaptive reuse have not been suggested. Similarly, there are sites where schools are located that should not be identified as future development sites. Additionally, the suggested placement of housing in the community's current light industrial/manufacturing zone, ignores the importance of retaining necessary services and jobs that support the area's residents and businesses. Combining these types of uses will create conflicts and are incompatible. With the loss of retail and office activity in the area, maintaining this area for businesses and jobs is important. Further, this zone is directly adjacent to the 405 Freeway corridor with its fine particulate pollution dangers.

Finally, the current community plan draft lacks mandatory and substantial inclusionary zoning and enforcement measures to ensure affordable housing for those who need it most. Local market rate TOC construction in the community has resulted making it harder for transit-dependent Angelenos to live here. We urge a reconsideration of the draft upzoning proposal. Community leaders offer to identify alternative sites for development by engaging residents and experts to find innovative solutions that align with the City's diversity, energy and sustainability goals.

Combining these types of uses will create conflicts and are incompatible. With the loss of retail and office activity in the area, maintaining this area for businesses and jobs is important. Further, this zone is directly adjacent to the 405 Freeway corridor with its fine particulate pollution dangers.

Finally, the current community plan draft lacks mandatory and substantial inclusionary zoning and enforcement measures to ensure affordable housing for those who need it most. Local market rate TOC construction in the community has resulted making it harder for transit-dependent Angelenos to live here. We urge a reconsideration of the draft upzoning proposal. Community leaders offer to identify alternative sites for development by engaging residents and experts to find innovative solutions that align with the City's diversity, energy and sustainability goals.

Dear Councilmember Yaroslavsky, Los Angeles City Planning Department and City Planning Commission:

We strongly oppose the majority of upzoning of single-family residential zones proposed in the WLA Community Plan and Housing Element drafts targeting the Westside NC area of CD 5. The proposed changes will have profound and severe impacts in our neighborhoods.

We acknowledge the need to increase housing capacity in the area and pledge to work with the Planning Dept. to identify better qualified candidate sites to meet our share of housing capacity to support meeting the City's RHNA goals. The upzoning of most single-family properties is unnecessary when a closer look at our commercial corridors is made adding blocks where upzoning and adaptive reuse have not been suggested. Similarly, there are sites where schools are located that should not be identified as future development sites. Additionally, the suggested placement of housing in the community's current light industrial/manufacturing zone, ignores the importance of retaining necessary services and jobs that support the area's residents and businesses. Combining these types of uses will create conflicts and are incompatible. With the loss of retail and office activity in the area, maintaining this area for businesses and jobs is important. Further, this zone is directly adjacent to the 405 Freeway corridor with its fine particulate pollution dangers.

Finally, the current community plan draft lacks mandatory and substantial inclusionary zoning and enforcement measures to ensure affordable housing for those who need it most. Local market rate TOC construction in the community has resulted making it harder for transit-dependent Angelenos to live here. We urge a reconsideration of the draft upzoning proposal. Community leaders offer to identify alternative sites for development by engaging residents and experts to find innovative solutions that align with the City's diversity, energy and sustainability goals.

Andrea Leon-Grossmann <strategicanvisual@me.com>

M

To: cpc@lacity.org

Cc: Vanessa Saldana <vanessa.saldana@lacity.org>

Dear LA City Planning Team,

As a longtime resident of West L.A. and a Mexican-born immigrant, I have experienced firsthand the welcoming nature of this community, both as a renter and now as a homeowner. Over the years, my neighborhood has evolved into a diverse and vibrant community where people of color, including Spanish-speaking neighbors, thrive. Contrary to what some narratives suggest, communities like mine are not all white, and it is important that these misrepresentations are corrected.

I am also an environmental justice advocate committed to ensuring that Los Angeles transitions to 100% affordable clean energy in an equitable way. As part of this commitment, I believe in protecting our communities and the environment. Unfortunately, there is a growing amount of misinformation being spread by developers and their supporters, which is misleading the public and complicating decisions.

I am writing to express my concerns regarding the current approach to housing development, particularly in R1 Zones and so-called "High Opportunity Areas." While I understand the need for the department to consider the limitations of these areas, there is only so much population density that any given area can sustain without compromising the quality of life and the integrity of the neighborhood.

It is vital that the Community Plan drives the decisions on how many units should be added and where rezoning is appropriate. Developing a Housing Element Rezoning Program without fully considering the outcomes of the Community Plan risks creating a disjointed and unsustainable approach to growth. We must avoid making radical changes that could undermine the stability of our neighborhoods for our residents.

Every Council District should share the responsibility of accommodating new housing, with a strong emphasis on affordable units for low-income and no-income tenants. This approach would ensure a more equitable distribution of housing opportunities across the city, rather than concentrating new developments in specific areas at the expense of community stability.

R1 Zones should not be seen as a reservoir for luxury housing projects driven by investors and speculators. Instead, these areas should be preserved to maintain stable, thriving communities that meet the needs of our city's residents.

One of the most egregious pieces of misinformation concerns the percentage of land zoned R1, or single-family. While it is technically true that 70% of L.A.'s land is zoned R1, over one-third of that land is not suitable for higher-density development due to significant environmental constraints, such as high fire risk, sea level rise, and other climate-related factors. When we account for these restrictions, **only a small portion of R1 land is developable**. For L.A. City Planning and developers to continue using the 70% figure is not just inaccurate—it fuels unnecessary division and promotes a narrative that does not reflect the ground reality.

Moreover, the claim that R1 zoning is a barrier to development is simply false. Under state law SB 9 and ADU regulations, R1-zoned land is no longer limited to single-family homes; it can now accommodate multi-unit developments. The notion that nearly three-quarters of L.A.'s land is being blocked from development is not only misleading but also divisive.

The very groups who advocate for walkable communities and to shut down parking lots should take a closer look at [Santa Monica's Third Street Promenade](#). Despite the presence of public transit, apartment buildings, and a walkable environment, rents have skyrocketed, and vacancies are up, largely due to [speculators](#) and [private equity investors](#). These entities do not have the community's best interests at heart, and their actions have exacerbated the housing crisis rather than alleviated it.

Another concern is the frequent turnover within L.A. City Planning, which has led to a lack of continuity and consistency. In one instance, planners proposed upzoning R1 streets located in areas provided with updated FEMA maps. **As climate change intensifies, it would be highly irresponsible to increase density in areas vulnerable to extreme weather events like a 500-year storm.**

Furthermore, during public discussions, very little attention has been paid to the impact of speculation, short-term rentals, and [landlord collusion](#) on the housing market. These factors are taking units off the market and driving up rents, yet we lack a comprehensive understanding of their full impact. Without addressing these issues, we risk building more units that will only serve the interests of speculators instead of housing Angelenos. It could also destroy neighborhoods just to benefit the very speculators who created this crisis.

We were assured by our Councilmember that L.A. could meet its housing needs without upzoning R1 areas. Yet, suddenly, there is a push to eliminate R1 zoning based on a narrative that ignores the experiences of residents like myself. If R1 zoning is abolished, developers will dictate where housing is built, not city planners. This could lead to the construction of luxury condos rather than the affordable housing that has already happened in the Bundy Triangle after upzoning.

What we truly need is more low-income and no-income housing, and we need regulators who are willing to enforce regulations, not just incentivize developers. Keeping R1 zoning intact ensures that we protect our neighborhoods and retain control over the future of our neighborhoods.

I urge you to prioritize balanced development that genuinely serves the people of Los Angeles, rather than succumbing to speculative pressures that could erode the fabric of our neighborhoods.

Thank you for your consideration.
 Andrea León-Grossmann

RE: Citywide Housing Incentive Program (CHIP) Ordinance, CPC-2023-7068-CA

Dear Members of the City Planning Commission,

The Engineers and Architects Association (EAA) represents nearly 5,800 members in over 40 departments in the City of Los Angeles. We plan and manage funding for the City's affordable housing and street infrastructure, manage disaster relief efforts, manage our procurement process to electrify vehicle fleets and build new public facilities, manage the City's transit system and community art programs, safely and respectfully clear encampments that pose public safety risks, investigate tenuous claims to reduce large legal payouts, and supervise 911 dispatchers, to list just a number of job duties EAA members carry out.

Decades of housing policy failure has led to insufficient zoning capacity that has impeded the production of naturally affordable housing in the City. This lack of housing options deprives City workers, including our members, of opportunities to live close to their work locations, live among the communities we serve, and consigns us to spend needless hours commuting to work simply because we are priced out of housing options in the city we serve.

Increasingly more of our members are making the difficult choice of moving further away from city limits due to Los Angeles having the highest housing cost burden of any large city in the United States. Our members, particularly our younger and lesser-paid members, cannot afford to rent a typical apartment and much less purchase a home. According to the City's 2021-2029 Housing Element, a person must make nearly \$80,000 per year to afford to rent a one-bedroom apartment and more than \$111,000 per year to afford to rent a two bedroom apartment. To buy a house in Los Angeles a person must make at least \$130,000 per year and have over \$170,000 ready to cover the 20 percent down payment. The lack of adequate housing supply forces our members to secure less costly housing outside the City's limits in exchange for long commutes that drawdown on their mental reserves, deteriorates their health, and reduces their quality of life, all while continuing to fuel the driving forces of climate change.

We are encouraged and proud of the hard work of our members in the City Planning Department. They are working under tremendous pressures to adequately respond to State housing directives that compel the City to reckon with decades of exclusionary zoning practices. However, the limitations in the current proposed Citywide Housing Incentive Program (CHIP) Ordinance continues to convey a diminished resolve by City policy leaders to build housing where it is most needed. That the current proposed CHIP Ordinance specifically excludes high resource, single family zone neighborhoods from receiving affordable and mid-income housing incentives means that incentives may undermine housing affordability by applying pressure to redevelop existing apartment buildings without providing housing options where they are most needed.

The EAA Board strongly encourages the City Planning Commission to address zoning in single-family zones in order to meet its housing targets, more equitably distribute new housing supply, and more effectively deploy the innovative incentive programs in the CHIP Ordinance in job rich areas to support housing opportunities so that future generations of hard working City workers can live amongst the communities that they proudly serve.

Respectful submitted on behalf of the EAA Board of Governors,

Keep densification on "Commercial Corridors", as long as Commercial Corridors are Wilshire, Santa Monica, Olympic and Pico and NOT Centinela and Bundy.

Centinela and Bundy are not commercial corridors. Centinela north of Pico and south of Wilshire is just a one lane street each way. Bundy is reduced to a one way street each way after 7pm and on weekends as people are allowed to park on the streets.

City of Los Angeles Department of City Planning
CC: Mayor Bass, Los Angeles City Council

RE: Citywide Housing Incentive Program

On May 20th, the undersigned organizations submitted a letter expressing our deep concern regarding the City of Los Angeles' Citywide Housing Incentive Program (CHIP). We write to you now in response to the revised ordinance. The CHIP's basic framework for focusing housing growth near transit and high opportunity corridors is sound, and the goal of expediting most projects is welcome. Furthermore, our coalition applauds the City for improvements that have been made to the proposed ordinance over the past two months, including wider geographic eligibility for the Opportunity Corridor Transition Areas and smartly calibrated incentives for family-sized units. Unfortunately, the most substantial changes in the latest draft reduce incentives, and therefore allowable density, across the multiple programs and geographies in the ordinance. Overall, we believe the revised CHIP ordinance would make it even more difficult to accommodate an additional 200,000 new homes and Affirmatively Further Fair Housing (AFFH) by equitably distributing new housing across the city. We are further concerned that by disallowing affordable and mixed-income homes on 72% of land in the City zoned for single-family homes, the CHIP ordinance further incentivizes demolishing rent-stabilized homes in existing multifamily areas.

We know that Los Angeles is in the midst of a historic housing crisis, with nearly half of households struggling to afford rent or mortgage payments and over a third of renters spending

half their income on rent.¹ And while unsheltered homelessness decreased slightly this year, we will continue to see high rates of homelessness as long as housing remains unattainable and unaffordable to half of the City's households. Additionally, the city's existing multi-family zoning and recent development are concentrated in relatively lower-income and renter neighborhoods. The CHIP and housing element process creates the opportunity to rebalance this pattern and ensure that every neighborhood does its fair share to house Angelenos at all income levels. Unfortunately, the CHIP does not significantly alter where multi-family housing is allowed, perpetuating inequitable land use patterns that have led the City into our current housing affordability crisis. That is why we are advocating for key changes to the CHIP to more effectively deploy the innovative incentive programs in the ordinance.

Namely, we continue to urge the City to allow all CHIP incentive programs in single-family zones in order to meet its housing targets and more equitably distribute new housing supply. **Making single-family zoned parcels in highest and high opportunity areas eligible for incentive programs is of particular importance**, as these areas are rich in jobs, public investments, and services, and have historically excluded Angelenos of color and lower income Angelenos. We appreciate that City Planning has created a more generous set of standards for the proposed new CT-3 subareas, but we continue to recommend consolidating the Opportunity Corridor Transition Area subareas into a single expanded geography with standards that make missing middle housing feasible to build.

Specifically, we recommend eliminating the CT-1 and CT-2 subareas and expanding CT-3 to at least a quarter-mile from the rear property lines of parcels abutting the corridors. Put simply, the CHIP ordinance must fundamentally expand *where* multi-family housing is allowed if it is to:

1. address the City's urgent need for more housing;
2. equitably distribute new development to higher resource areas;
3. and minimize the risk of displacement.

Overall, we must express our disappointment that the revised ordinance fails to make meaningful improvements towards opening up single-family zoned parcels to the incentive programs, despite the role exclusionary zoning has played in perpetuating segregation. Rather, the bulk of the changes seem to be focused on further limiting the potential for the CHIP to build the homes our city desperately needs. In particular, we oppose the removal of the coastal zone from the Mixed Income Incentive Program; the removal of unlimited density incentives in the upper tiers of the Transit Oriented Incentive Area program; the removal/reduction of FAR and height incentives for the State Density Bonus Program; and the removal of FAR incentives in historic areas in the Opportunity Corridor program. These changes will drive further displacement as a greater

¹ 2021-2029 Housing Element, pg 9.

number of existing multifamily parcels will need to be redeveloped to meet the need for more housing.

We want to reiterate that without allowing mixed-income multifamily housing throughout the City, especially in single-family zoned parcels in highest and high opportunity areas, we will never be able to truly address the critical shortage of affordable housing and reverse historic patterns of segregation. If we do not take bold action to make these needed changes, homelessness will not only remain unsolved, but will increase. **The City must address zoning in single-family zones in order to meet its housing targets, more equitably distribute new housing supply, and more effectively deploy the innovative incentive programs in the CHIP.** We are confident that Los Angeles, with the political courage and leadership of this Council, can tackle this crisis head-on, and CHIP is the key opportunity to do so.

The rezoning program offers a once in a generation opportunity for the city to address the harms of the past, and build a future where all Angelenos enjoy access to opportunity and are able to live in the neighborhoods of their choice. We applaud City Planning for creating a strong framework for where we should be focusing new homes in Los Angeles - near transit and in high opportunity communities - and for creating new streamlined processes to deliver new housing. But walling off single family neighborhoods from these programs reinforces exclusionary zoning and hobbles their effectiveness. We believe the City of Los Angeles can and must do better to undo these historic wrongs.

Dear City Planning Staff,

Inner City Law Center, SCANPH (Southern California Association of Nonprofit Housing), and Abundant Housing LA along with 57 of our partners including homeless services providers, affordable housing developers, pro-housing organizations, civil rights organizations, racial justice organizations, and religious organizations have serious concerns about the direction of the City of Los Angeles Housing Element Rezoning Program, namely the exclusion of the single-family zones.

We reiterate our concern that the draft ordinance proposes to preserve exclusionary single-family zones which were created to preserve segregation and continue to do so. We sincerely hope the city will change course and adopt a rezoning plan that undoes these wrongs, rather than continuing to perpetuate past mistakes.

Please see the attached letter which clarifies and expands upon our May 20th letter on this issue.

Thank you,

Mahdi Manji

Director of Public Policy

CPC-2024-388-CA - Draft Resident Protections Ordinance

seanpcochran@aol.com <seanpcochran@aol.com>
To: "cpc@lacity.org" <cpc@lacity.org>

Wed, Aug 21, 2024 at 5:00 PM

To whom it may concern,

The City of Los Angeles already accommodates tenants with some of the most stringent protections in the country. **More tenant protections are not needed.** In fact, protections such as allowing minimum rental delinquency amounts before a housing provider can pursue an eviction need to be removed. City expenditure to pay for tenant's eviction attorneys must also stop. Housing providers are not being offered city funds to represent them on their side of evictions, all the while as they continue to provide housing and housing services to defaulting tenants who don't pay rent.

All such current measures, and anything more that puts housing providers at a disadvantage, must stop. Housing providers subject to the rent stabilization ordinance already are under duress to keep pace with rising operating costs.

These measures disincentivize investment in housing.
