Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS),EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS),EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

RWQCB Region: LOS ANGELES RWQCB (REGION 4)
Site History: Pointe on La Brea is a newly constructed 50-unit affordable housing development currently occupied by residential tenants. The property consists of forty-nine income-restrictive, supportive housing apartments. Twenty-four of the units under the No Place Like Home program and an additional four of the units under the Mental Health Housing Program, are reserved for individuals experiencing

OMAGS AUTOMOTIVE (Continued) **S124822581**

homelessness and chronic homelessness, living with mental illness, referred and verified by the Department of Mental Health. Twenty-one of the units are reserved for individuals experiencing chronic homelessness (20 units) and homelessness (1 unit). In 1921, the site remained undeveloped. By 1923, the property was developed with a gas station. By 1928, it appeared the property was also developed with a residential structure. Past onsite property operations through the 1960s also included a glass manufacturer, restaurants, and office space. By 1972, the site was developed with a single commercial structure which remained until it was recently demolished for redevelopment activities, and its past use included a florist shop, a restaurant and auto repair. During site assessment in 2021, lead-affected soil was encountered (and removed) beneath the onsite structure prior to demolition. Lead-affected soil was excavated and removed from the site from two locations located beneath the former structure in accordance with South Coast Air Quality Management Division, Rule 1466. Impacted soil was transported and disposed of at an appropriately permitted landfill. In addition, volatile organic compounds (VOCs) have been detected in underlying groundwater within the local site vicinity and the site. A 2020 human health risk assessment (evaluating potential risks/hazards posed by predominantly low levels of VOCs in underlying soil vapor) was prepared for the site and concluded (with the installation of the city required methane barrier beneath the new residential complex) that the site was suitable for residential occupation. The human health risk assessment was also reviewed by the CalEPA Office of Environmental Health Hazard Assessment (OEHHA). In addition, during site grading and residential redevelopment activities, the property owner environmental consultant, EFI Global, implemented their soil management plan (SMP) to properly identify, assess, and cleanup any previously unknown potential contaminant sources and/or associated environmental impacts encountered during development activities. A seepage pit was encountered during site-wide grading activities and assessed, and no significant contamination found. A Notice of Environmental Condition and Environmental Restriction was recorded on January 5, 2024, at the Los Angeles County Recorder Office documenting and prohibiting disturbance of the methane barrier permitted by the City of Los Angeles.

RWQCB Region:	LOS ANGELES RWQCB (REGION 4)
Site History:	From the 1930 s, the Mole Richardson Company hosted multiple occupants in several buildings consisting of North La Brea Avenue and North Sycamore Avenue addresses, including a light manufacturing facility and dry cleaner. Six underground storage tanks (USTs) were associated with the former dry-cleaning activities. Onsite soil and groundwater are impacted with volatile organic compounds (VOCs), primarily tetrachloroethylene (PCE) and associated chlorinated

MOLE RICHARDSON COMPANY (Continued) **S105938726**

solvents. The Site was redeveloped in 2018 with an eight-story office building with 2 levels of subterranean parking, including a full vapor barrier. From 2003 through 2016, a groundwater pump-and-treat system was operated at the Site; Los Angeles Water Board staff approved shut down of the system in a letter dated June 19, 2018. The Los Angeles Water Board approved installation of five multi-depth soil vapor probes at the site in a letter dated February 25, 2016. On April 29, 2016, the Los Angeles Water Board approved the Soil Remedial Design Implementation Plan and Soil Vapor Extraction Pilot Test Work Plan, which proposed a multi-task approach starting with the remedial excavation of soil in the source area, before completing a soil vapor extraction (SVE) pilot test in the alley and subsequent full-scale employment of the SVE system. In October 2016, the Los Angeles Water Board transferred the oversight of the impacted soil to the United States Environmental Protection Agency (USEPA) Region 9 Emergency Response Section (EMS). Los Angeles Water Board continues to provide regulatory oversight for the groundwater plume. Remedial excavation of soil was completed in 2016 and 2017 in the area of the former onsite USTs; 41,555 tons of soil was excavated and disposed offsite. Site dewatering was conducted from 2016 to 2018, and SVE from 2017 to 2018 extracted approximately 29 pounds of VOCs from the subsurface. The USEPA granted the Site a Notice of Completion of Soil Remediation Activities on March 21, 2018. The Site continues to undergo quarterly groundwater monitoring from 2008 to present day. Investigations into deep groundwater at the Site completed in 2016, 2017, and 2020 identified PCE and trichloroethylene (TCE). Deep groundwater monitoring wells are scheduled for installation in the first quarter 2024.

CA Enviroscreen 4 Score:	40-45%
Military DOD Site:	No
Facility Project Subtype:	Not reported
RWQCB Region:	LOS ANGELES RWQCB (REGION 4)
Site History:	The site is owned by Laser-Pacific Media Corporation, a subsidiary of Eastman Kodak Company, and is located on the western side of the 800 block of North Seward Street in Los Angeles, California. The approximately 39,000 sq. ft. site includes three parcels. The northernmost parcel is developed with two buildings located at 823 - 835 North Seward Street. The southern two parcels are used as a parking area but one of the parcels is not owned by Laser-Pacific. The two buildings house a sound editing facility and a motion picture film developing and finishing facility, respectively. The properties and two buildings were developed as a one-story building by Technicolor in 1927 for use as a film laboratory. Use of photofinishing and other chemicals, including halogenated solvents, has been documented for the site. The use of tetrachloroethene (PCE) in a wet-gate printer located at 835 North Seward Street has been documented. According to site investigation reports submitted to the Regional Board, subsurface site investigations have been conducted since 2002. However, a Phase I environmental site assessment (ESA) was reportedly conducted in 1992. The site investigations involved soil gas survey, soil and groundwater sampling and groundwater monitoring well installation and indicated that the soil and groundwater beneath the site are contaminated with PCE, trichloroethene (TCE) and other volatile organic compounds (VOCs), heavy metals, aromatic hydrocarbons such as xylenes, diesel range petroleum hydrocarbons and inorganic anions such as nitrate, cyanide and sulfate. The concentrations of most of the contaminants in the soil matrix are below the Regional Board's soil screening levels.

LASER - PACIFIC MEDIA COMPANY (Continued) **S106487372**

Groundwater monitoring has also been conducted at the site since 2005 and has shown that the concentrations of contaminants are decreasing. The site has been closed with a deed restriction to limit future land use on the property to commercial/industrial.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

HOLLYWOOD CENTER STUDIOS (Continued) **1000597324**

The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS),EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).

BRIDGE PROJECTS LLC SITE (Continued) **S126421120**

RWQCB Region: LOS ANGELES RWQCB (REGION 4)
Site History: The Site consists of one single-story, approximately 14,500 square foot, commercial building with two separate tenant units identified as 6820 and 6830 Santa Monica Boulevard. The 6820 Santa Monica Boulevard tenant space is currently not occupied. The 6830 Santa Monica Boulevard tenant space is currently being used as an active art gallery. The building has a slab-on-grade foundation; the southern part of the building is not on grade. In addition to the building, the Site is improved with a small parking area and associated landscaping. The Site is bounded by Santa Monica Boulevard to the north, a Mobil-branded gasoline service station to the east (1051 Highland Avenue), a Public Storage facility to the west (6840 Santa Monica Boulevard) and north across Santa Monica Boulevard (6801, 6803, and 6823 Santa Monica Boulevard), Iron Mountain Storage facility to the south (1025-1035 Highland Avenue), and a Pet Hotel facility to the southeast (1041 Highland Avenue). The Site is relatively flat and sits at an elevation of approximately 295 feet above mean sea level. The regional topographic gradient direction slopes toward the southwest. According to the California State Water Resource Control Boards GeoTracker website, the depth to groundwater in the Site vicinity is approximately 24 to 42 feet below ground surface (ft bgs) and flows to the southwest. The environmental consultant, AEI Consultants (AEI), has concluded in the Performance Monitoring Report dated July 21, 2023 that soil vapor beneath the Site is impacted by volatile organic compounds (VOCs), primarily tetrachloroethene (PCE), from a regional groundwater plume. The historical soil, soil vapor, indoor air, and groundwater data and sampling locations for the Site are presented in the Regional Board correspondence Request for Additional Site Assessment Work Plan dated October 9, 2023. To protect the commercial users of the on-site building, AEI proposed the installation of a low-permeability barrier (Retro-Coat) to protect the human health for existing and future users of the Site from elevated concentrations of PCE identified in soil gas beneath the building. The Retro-Coat vapor barrier was installed in Unit 6820 during March 21 through 27, 2022, and in the garage and Unit 6830 from September 6 through 12, 2022. The historical and latest indoor air data and sampling locations for the Site is presented in the Regional Board correspondence Request for Additional Site Assessment Work Plan dated October 9, 2023. On October 9, 2023 the Regional Board requested that an Additional Site Assessment Work Plan be prepared to collect additional soil data to further investigate if the Bridge Projects LLC Site is a source of the VOC impacts that are evident in the soil vapor and groundwater beneath the Site and to close this remaining data gap.

Environmental Interest/Information System:
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS),EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Comments:	Pursuant to the MOU, DTSC has reviewed an environmental site assessment and other documents for the Linn House (Westside Hospice) property. The property, currently two vacant lots that have been combined into one legal parcel, is intended for the location of a new hospice to be owned and operated by the Aids Healthcare Foundation. A Supplemental Phase I Environmental Assessment Report was prepared by DTSC and concluded that no action was needed for this property; there is no contamination on the property.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL: National Priority List
National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 09/25/2024
Date Data Arrived at EDR: 10/01/2024

Proposed NPL: Proposed National Priority List Sites
A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 09/25/2024

Next Scheduled EDR Contact: 01/06/2025
Data Release Frequency: Quarterly

NPL LIENS: Federal Superfund Liens
Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Date of Government Version: 10/15/1991
Date Data Arrived at EDR: 02/02/1994

Lists of Federal Delisted NPL sites

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Lists of Federal sites subject to CERCLA removals and CERCLA orders

FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 06/07/2024

Data Release Frequency: Varies

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Data Release Frequency: Quarterly

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Lists of Federal RCRA TSD facilities

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Lists of Federal RCRA generators

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Date of Government Version: 06/03/2024

RCRA-VSQG: RCRA - Very Small Quantity Generators (Formerly Conditionally Exempt Small Quantity Generators)

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

Lists of state- and tribal hazardous waste facilities

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites
Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

WMUDS/SWAT: Waste Management Unit Database

Waste Management Unit Database System. WMUDS is used by the State Water Resources Control Board staff and the Regional Water Quality Control Boards for program tracking and inventory of waste management units. WMUDS is composed of the following databases: Facility Information, Scheduled Inspections Information, Waste Management Unit Information, SWAT Program Information, SWAT Report Summary Information, SWAT Report Summary Data, Chapter 15 (formerly Subchapter 15) Information, Chapter 15 Monitoring Parameters, TPCA Program Information, RCRA Program Information, Closure Information, and Interested Parties Information.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

Date of Government Version: 05/20/2024
Date Data Arrived at EDR: 08/19/2024

DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

EPA WATCH LIST: EPA Watch List

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

Date of Government Version: 04/17/1995

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing
A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)
The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

PFAS RCRA MANIFEST: PFAS Transfers Identified In the RCRA Database Listing

To work around the lack of PFAS waste codes in the RCRA database, EPA developed the PFAS Transfers dataset by mining e-Manifest records containing at least one of these common PFAS keywords: PFAS, PFOA, PFOS, PERFL, AFFF, GENX, GEN-X (plus the VT waste codes). These keywords were searched for in the following text fields: Manifest handling instructions (MANIFEST_HANDLING_INSTR), Non-hazardous waste description (NON_HAZ_WASTE_DESCRIPTION), DOT printed information (DOT_PRINTED_INFORMATION), Waste line handling instructions (WASTE_LINE_HANDLING_INSTR), Waste residue comments (WASTE_RESIDUE_COMMENTS).

PFAS PROJECT: NORTHEASTERN UNIVERSITY PFAS PROJECT

The PFAS Contamination Site Tracker records qualitative and quantitative data from each site in a chart, specifically examining discovery, contamination levels, government response, litigation, health impacts, media coverage, and community characteristics. All data presented in the chart were extracted from government websites, such as state health departments or the Environmental Protection Agency, and news articles.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

PFAS NPDES: Clean Water Act Discharge Monitoring Information

Any discharger of pollutants to waters of the United States from a point source must have a National Pollutant Discharge Elimination System (NPDES) permit. The process for obtaining limits involves the regulated entity (permittee) disclosing releases in a NPDES permit application and the permitting authority (typically the state but sometimes EPA) deciding whether to require monitoring or monitoring with limits. Caveats and Limitations: Less than half of states have required PFAS monitoring for at least one of their permittees and fewer states have established PFAS effluent limits for permittees. New rulemakings have been initiated that may increase the number of facilities monitoring for PFAS in the future.

PFAS ECHO: Facilities in Industries that May Be Handling PFAS Listing

Regulators and the public have expressed interest in knowing which regulated entities may be using PFAS. EPA has developed a dataset from various sources that show which industries may be handling PFAS. Approximately 120,000 facilities subject to federal environmental programs have operated or currently operate in industry sectors with processes that may involve handling and/or release of PFAS.

PFAS ECHO FIRE TRAIN: Facilities in Industries that May Be Handling PFAS Listing

A list of fire training sites was added to the Industry Sectors dataset using a keyword search on the permitted facilitys name to identify sites where fire-fighting foam may have been used in training exercises. Additionally, you may view an example spreadsheet of the subset of fire training facility data, as well as the keywords used in selecting or deselecting a facility for the subset. as well as the keywords used in selecting or deselecting a facility for the subset. These keywords were tested to maximize accuracy in selecting facilities that may use fire-fighting foam in training exercises, however, due to the lack of a required reporting field in the data systems for designating fire training sites, this methodology may not identify all fire training sites or may potentially misidentify them.

PFAS PT 139 AIRPORT: All Certified Part 139 Airports PFAS Information Listing

Since July 1, 2006, all certified part 139 airports are required to have fire-fighting foam onsite that meet military specifications (MIL-F-24385) (14 CFR 139.317). To date, these military specification fire-fighting foams are fluorinated and have been historically used for training and extinguishing. The 2018 FAA Reauthorization Act has a provision stating that no later than October 2021, FAA shall not require the use of fluorinated AFFF. This provision does not prohibit the use of fluorinated AFFF at Part 139 civilian airports; it only prohibits FAA from mandating its use. The Federal Aviation Administration?s document AC 150/5210-6D - Aircraft Fire Extinguishing Agents provides guidance on Aircraft Fire Extinguishing Agents, which includes Aqueous Film Forming Foam (AFFF).

AQUEOUS FOAM NRC: Aqueous Foam Related Incidents Listing

The National Response Center (NRC) serves as an emergency call center that fields initial reports for pollution and railroad incidents and forwards that information to appropriate federal/state agencies for response. The spreadsheets posted to the NRC website contain initial incident data that has not been validated or investigated by a federal/state response agency. Response center calls from 1990 to the most recent complete calendar year where there was indication of Aqueous Film Forming Foam (AFFF) usage are included in this dataset. NRC calls may reference AFFF usage in the ?Material Involved? or ?Incident Description? fields.

UST FINDER: UST Finder Database

EPA developed UST Finder, a web map application containing a comprehensive, state-sourced national map of underground storage tank (UST) and leaking UST (LUST) data. It provides the attributes and locations of active and closed USTs, UST facilities, and LUST sites from states and from Tribal lands and US territories . UST Finder contains information about proximity of UST facilities and LUST sites to: surface and groundwater public drinking water protection areas; estimated number of private domestic wells and number of people living nearby; and flooding and wildfires.

CHROME PLATING: Chrome Plating Facilities Listing

This listing represents chrome plating facilities the California State Water Resources Control Board staff identified as possibly being a source of Per- and polyfluoroalkyl substance (PFAS) contamination. Sites and locations were identified by staff with the Division of Water Quality in the California State Water Board. Data was collected from the CA Air Resources Board 2013 and 2018 - Cr VI emission survey, CA Emission Inventory, CA HAZ Waste discharge database and by reviewing storm water permits. Former chrome plating sites are also included that are open site investigation or remediation cases with the Regional Water Quality Control Boards and the Department of Toxic Substances Control.

Next Scheduled EDR Contact: 01/13/2025
Data Release Frequency: Varies

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

WASTEWATER PITS: Oil Wastewater Pits Listing
Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water boards review found that more than one-third of the region's active disposal pits are operating without permission.

WDR: Waste Discharge Requirements Listing
In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants
The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data
Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

6721 & 6727 MELROSE, 702 N MANSFIELD, 702 N MILTON
6721 & 6727 MELROSE AVENUE
LOS ANGELES, CA 90038

TARGET PROPERTY COORDINATES

Latitude (North):	34.083685 - 34° 5' 1.27"
Longitude (West):	118.340417 - 118° 20' 25.50"
Universal Tranverse Mercator:	Zone 11
UTM X (Meters):	376329.9
UTM Y (Meters):	3772051.0
Elevation:	262 ft. above sea level

USGS TOPOGRAPHIC MAP

Target Property Map:	50005776 HOLLYWOOD, CA
Version Date:	2022

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

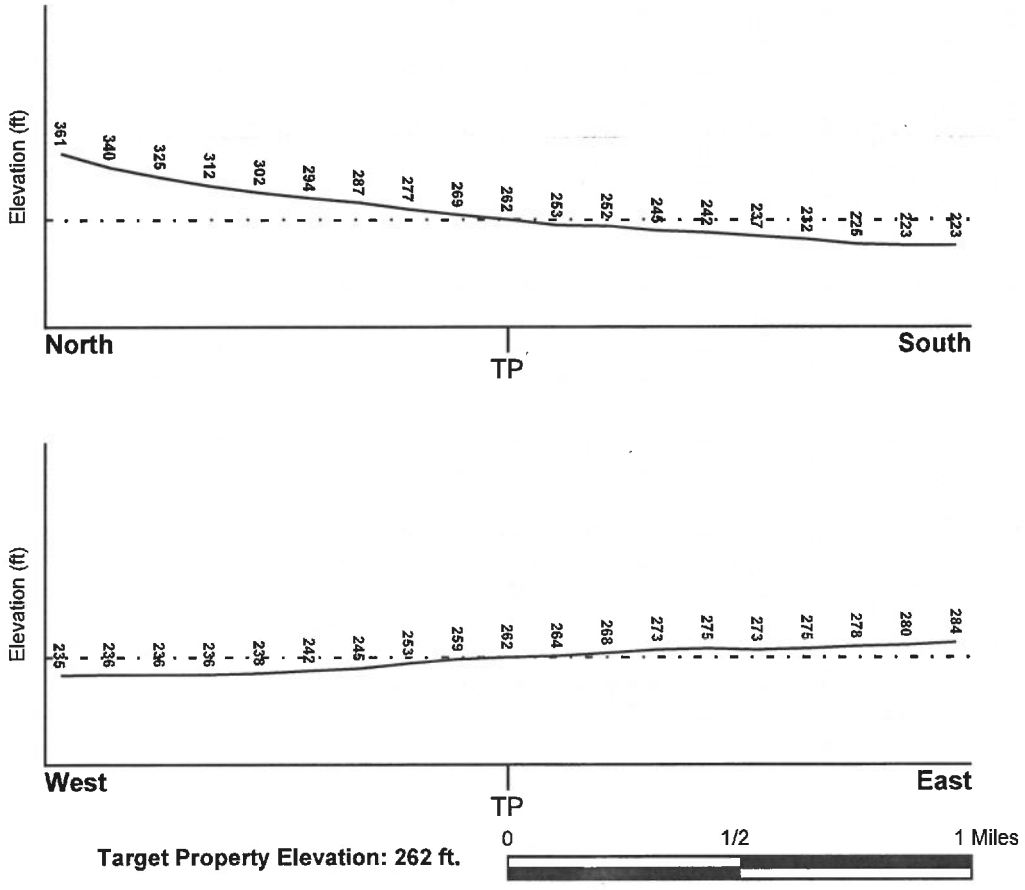
TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General SSW

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES



Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

Flood Plain Panel at Target Property	FEMA Source Type
06037C1605F	FEMA FIRM Flood data

Additional Panels in search area:	FEMA Source Type
Not Reported	

NATIONAL WETLAND INVENTORY

NWI Quad at Target Property	NWI Electronic Data Coverage
HOLLYWOOD	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Status:	Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

MAP ID	LOCATION FROM TP	GENERAL DIRECTION GROUNDWATER FLOW
93	1/2 - 1 Mile NE	SW
1G	1/2 - 1 Mile NE	SW

For additional site information, refer to Physical Setting Source Map Findings.

All of the information and opinions presented are those of the cited EPA report(s), which were completed under a Comprehensive Environmental Response Compensation and Liability Information System (CERCLIS) investigation.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

ROCK STRATIGRAPHIC UNIT

Era:	Cenozoic
System:	Quaternary
Series:	Quaternary
Code:	Q *(decoded above as Era, System & Series)*

GEOLOGIC AGE IDENTIFICATION

Geologic Age and Rock Stratigraphic Unit Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - a digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps. The following information is based on Soil Conservation Service STATSGO data.

Soil Component Name:	URBAN LAND
Soil Surface Texture:	variable
Hydrologic Group:	Not reported
Soil Drainage Class:	Not reported

Hydric Status: Soil does not meet the requirements for a hydric soil.

Corrosion Potential - Uncoated Steel:	Not Reported
Depth to Bedrock Min:	> 10 inches
Depth to Bedrock Max:	> 10 inches

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information							
	Boundary			Classification			
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil	Permeability Rate (in/hr)	Soil Reaction (pH)
1	0 inches	6 inches	variable	Not reported	Not reported	Max: 0.00 Min: 0.00	Max: 0.00 Min: 0.00

OTHER SOIL TYPES IN AREA

Based on Soil Conservation Service STATSGO data, the following additional subordinant soil types may appear within the general area of target property.

Soil Surface Textures:
sandy loam
gravelly - sandy loam
silt loam
clay
fine sand
gravelly - sand
sand
fine sandy loam

Surficial Soil Types:
sandy loam
gravelly - sandy loam
silt loam
clay
fine sand
gravelly - sand
sand
fine sandy loam

Shallow Soil Types:
fine sandy loam
gravelly - loam
sandy clay
sandy clay loam
clay
silty clay
sand

Deeper Soil Types:
gravelly - sandy loam
sandy loam
very gravelly - sandy loam
stratified
very fine sandy loam
weathered bedrock
sand
gravelly - fine sandy loam
silty clay loam
clay loam

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map
Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.
Source: FEMA
Telephone: 877-336-2627
Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005, 2010 and 2015 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory
Source: Department of Fish and Wildlife
Telephone: 916-445-0411

HYDROGEOLOGIC INFORMATION

AQUIFLOW^{R} Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

OTHER STATE DATABASE INFORMATION

Groundwater Ambient Monitoring & Assessment Program
State Water Resources Control Board
Telephone: 916-341-5577
The GAMA Program is Californias comprehensive groundwater quality monitoring program. GAMA collects data by testing the untreated, raw water in different types of wells for naturally-occurring and man-made chemicals. The GAMA data includes Domestic, Monitoring and Municipal well types from the following sources, Department of Water Resources, Department of Heath Services, EDF, Agricultural Lands, Lawrence Livermore National Laboratory, Department of Pesticide Regulation, United States Geological Survey, Groundwater Ambient Monitoring and Assessment Program and Local Groundwater Projects.

Water Well Database
Source: Department of Water Resources
Telephone: 916-651-9648

California Drinking Water Quality Database
Source: Department of Public Health
Telephone: 916-324-2319
The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

Geothermal Wells Listing
Department of Conservation
Telephone: 916-445-9686
Geothermal well means a well constructed to extract or return water to the ground after it has been used for heating or cooling purposes. Geothermal wells in California (except for wells on federal leases which are administered by the Bureau of Land Management) are permitted, drilled, operated, and permanently sealed and closed (plugged and abandoned) under requirements and procedures administered by the Geothermal Section of the Department of Conservations Geologic Energy Management Division (CalGEM, formerly DOGGR).

California Oil and Gas Well Locations

Unless a shorter period of time has been established by an official action, plan check approval expires one and a half years after the plan check fee has been paid. This permit expires two years after the building permit fee has been paid or 180 days after the fee has been paid and construction has not commenced or if work is suspended, discontinued or abandoned for a continuous period of 180 days (Sec 98 0602 LAMC). Claims for refund of fees paid must be filed within one year from the date of expiration for permits granted by the Dept. of Building & Safety (Sec. 22.12 & 22.13 LAMC).

17. LICENSED CONTRACTOR'S DECLARATION

I hereby affirm under penalty of perjury that I am licensed under the provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect. The following applies to B contractors only: I understand the limitations of Section 7057 related to my ability to take prime contracts or subcontracts involving specialty trades (For 1 or 2 family dwellings, use the declaration attachment if separate general, electrical, plumbing, and/or HVAC contractor's & workers' comp. declarations are desired.)

License Class. C-45 Lic No. 631033 Print: Peter Rawlli Sign: Peter Rawlli

18. WORKERS' COMPENSATION DECLARATION

I hereby affirm, under penalty of perjury, one of the following declarations:

☐ I have and will maintain a certificate of consent to self insure for workers' compensation, as provided for by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.

☐ I have and will maintain workers's compensation insurance, as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number are: Carrier Golden Eagle Policy Number: NWC-478751-03

☐ I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California, and agree that if I should become subject to the workers' compensation provisions of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.

Sign. Peter Rawlli Date. 9,27,99 ☒ Contractor ☒ Authorized Agent ☐ Owner

WARNING FAILURE TO SECURE WORKERS' COMPENSATION COVERAGE IS UNLAWFUL, AND SHALL SUBJECT AN EMPLOYER TO CRIMINAL PENALTIES AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS ($100,000), IN ADDITION TO THE COST OF COMPENSATION, DAMAGES AS PROVIDED FOR IN SECTION 3706 OF THE LABOR CODE, INTEREST, AND ATTORNEY'S FEES

19. CONSTRUCTION LENDING AGENCY

I hereby affirm under penalty of perjury that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civil Code).

Lender's name: _____ Lender's address _____

20. ASBESTOS REMOVAL

Notification of asbestos removal ☐ Is not applicable ☐ Letter was sent to the AQMD or EPA Sign: _____ Date ___/___/___

21. OWNER-BUILDER DECLARATION

I hereby affirm under penalty of perjury that I am exempt from the Contractors License Law for the following reason (Section 7031.5, Business and Professions Code. Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he or she is licensed pursuant to the provisions of the Contractors License Law (Chapter 9 commencing with Sec. 7000 of Division 3 of the Business and Professions Code) or that he or she is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500):)

☐ I, as the owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business & Professions Code: The Contractors License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or herself or through his or her own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year from completion, the owner-builder will have the burden of proving that he or she did not build or improve for the purpose of sale)

☐ I, as the owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business & Professions Code: The Contractors License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractors License Law.)

☐ I am exempt under Sec. _____, Bus. & Prof. Code for the following reason: _____

Print: _____ Sign. _____ Date: ___/___/___ ☐ Owner ☐ Authorized Agent

22. FINAL DECLARATION

I certify that I have read this application and state that the above information is correct. I agree to comply with all city and county ordinances and state laws relating to building construction, and hereby authorize representatives of this city to enter upon the above-mentioned property for inspection purposes. I realize that this permit is an application for inspection and that it does not approve or authorize the work specified herein. Also that it does not authorize or permit any violation or failure to comply with any applicable law. Furthermore, that neither the City of Los Angeles nor any board, department officer, or employee thereof, make any warranty, nor shall be responsible for the performance or results of any work described herein, nor the condition of the property nor the soil upon which such work is performed. I further affirm under penalty of perjury, that the proposed work will not destroy or unreasonably interfere with any access or utility easement belonging to others and located on my property, but in the event such work does destroy or unreasonably interfere with such easement, a substitute easement(s) satisfactory to the holder(s) of the easement will be provided (Sec. 91.0106.4.3.4 LAMC).

Nevertheless the information printed exceeds that required by section 19825 of the Health and Safety Code of the State of California.

15. BUILDING RELOCATED FROM:

16. CONTRACTOR, ARCHITECT & ENGINEER NAME	ADDRESS	CLASS	LICENSE #	PHONE #
(O) OWNER-BUILDER			0	

PERMIT EXPIRATION/REFUNDS: This permit expires two years after the date of the permit issuance. This permit will also expire if no construction work is performed for a continuous period of 180 days (Sec. 98.0602 LAMC). Claims for refund of fees paid must be filed within one year from the date of expiration for permits granted by LADBS (Sec. 22.12 & 22.13 LAMC). The permittee may be entitled to reimbursement of permit fees if the Department fails to conduct an inspection within 60 days of receiving a request for final inspection (HS 17951).

17. OWNER-BUILDER DECLARATION

I hereby affirm under penalty of perjury that I am exempt from the Contractors' State License Law for the following reason (Section 7031.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he or she is licensed pursuant to the provisions of the Contractors License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he or she is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500).):

( ) I, as the owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code: The Contractors License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or herself or through his or her own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year from completion, the owner-builder will have the burden of proving that he or she did not build or improve for the purpose of sale).

OR

(X) I, as the owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code: The Contractors License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractors License Law.)

18. WORKERS' COMPENSATION DECLARATION

I hereby affirm, under penalty of perjury, one of the following declarations:

(X) I have and will maintain a certificate of consent to self insure for workers' compensation, as provided for by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.

( ) I have and will maintain workers' compensation insurance, as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number are:

Carrier: _____ Policy Number: _____

( ) I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California, and agree that if I should become subject to the workers' compensation provisions of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.

WARNING: FAILURE TO SECURE WORKERS' COMPENSATION COVERAGE IS UNLAWFUL, AND SHALL SUBJECT AN EMPLOYER TO CRIMINAL PENALTIES AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS ($100,000), IN ADDITION TO THE COST OF COMPENSATION, DAMAGES AS PROVIDED FOR IN SECTION 3706 OF THE LABOR CODE, INTEREST, AND ATTORNEY'S FEES.

19. ASBESTOS REMOVAL DECLARATION / LEAD HAZARD WARNING

I certify that notification of asbestos removal is either not applicable or has been submitted to the AQMD or EPA as per section 19827.5 of the Health and Safety Code. Information is available at (909) 396-2336 and the notification form at www.aqmd.gov. Lead safe construction practices are required when doing repairs that disturb paint in pre-1978 buildings due to the presence of lead per section 6716 and 6717 of the Labor Code. Information is available at Health Services for LA County at (800) 524-5323 or the State of California at (800) 597-5323 or www.dhs.ca.gov/childlead.

20. FINAL DECLARATION

I certify that I have read this application **INCLUDING THE ABOVE DECLARATIONS** and state that the above information **INCLUDING THE ABOVE DECLARATIONS** is correct. I agree to comply with all city and county ordinances and state laws relating to building construction, and hereby authorize representatives of this city to enter upon the above-mentioned property for inspection purposes. I realize that this permit is an application for inspection and that it does not approve or authorize the work specified herein, and it does not authorize or permit any violation or failure to comply with any applicable law. Furthermore, neither the City of Los Angeles nor any board, department officer, or employee thereof, make any warranty, nor shall be responsible for the performance or results of any work described herein, nor the condition of the property nor the soil upon which such work is performed. I further affirm under penalty of perjury, that the proposed work will not destroy or unreasonably interfere with any access or utility easement belonging to others and located on my property, but in the event such work does destroy or unreasonably interfere with such easement, a substitute easement(s) satisfactory to the holder(s) of the easement will be provided (Sec. 91.0106.4.3.4 LAMC).

By signing below, I certify that:

(1) I accept all the declarations above namely the Owner-Builder Declaration, Workers' Compensation Declaration, Asbestos Removal Declaration / Lead Hazard Warning, and Final Declaration; and

(2) This permit is being obtained with the consent of the legal owner of the property.

OWNER'S ACKNOWLEDGMENT AND VERIFICATION OF INFORMATION

(OWNER-BUILDER DECLARATION, cont.)

Application Number: 17016-20000-05215

Project Address: 6721 Melrose Ave Los Angeles, CA 90038

10. I am aware of and consent to an Owner-Builder building permit applied for in my name, and understand that I am the party legally and financially responsible for proposed construction activity at the following address: 6721 Melrose Ave Los Angeles CA 90038.

11. I agree that, as the party legally and financially responsible for this proposed construction activity, I will abide by all applicable laws and requirements that govern Owner-Builders as well as employers.

12. I agree to notify the issuer of this form immediately of any additions, deletions, or changes to any of the information I have provided on this form. Licensed contractors are regulated by laws designed to protect the public. If you contract with someone who does not have a license, the Contractors' State License Board may be unable to assist you with any financial loss you may sustain as a result of a complaint. Your only remedy against unlicensed Contractors may be in civil court. It is also important for you to understand that if an unlicensed Contractor or employee of that individual or firm is injured while working on your property, you may be held liable for damages. If you obtain a permit as Owner-Builder and wish to hire Contractors, you will be responsible for verifying whether or not those Contractors are properly licensed and the status of their workers' compensation insurance coverage. Before a building permit can be issued, this form must be completed and signed by the property owner and returned to the agency responsible for issuing the permit.

Note: A copy of the property owner's driver's license, form notarization, or other verification acceptable to the agency is required to be presented when the permit is issued to verify the property owner's signature.

Owner's Name: Melrose Partners, LLC

Signature of property owner _____ Date: 2/13/17

CITY LA DBS
DEPARTMENT OF BUILDING AND SAFETY

OWNER'S ACKNOWLEDGMENT AND VERIFICATION OF INFORMATION

(OWNER-BUILDER DECLARATION)

Application Number: 17016-20000-05215

Project Address: 6721 Melrose Ave Los Angeles, CA 90038

DIRECTIONS: Read and initial each statement below to signify you understand or verify this information.

1. I understand a frequent practice of unlicensed persons is to have the property owner obtain an "Owner-Builder" building permit that erroneously implies that the property owner is providing his or her own labor and material personally. I, as an Owner-Builder, may be held liable and subject to serious financial risk for any injuries sustained by an unlicensed person and his or her employees while working on my property. My homeowner's insurance may not provide coverage for those injuries. I am willfully acting as an Owner-Builder and am aware of the limits of my insurance coverage for injuries to workers on my property.

2. I understand building permits are not required to be signed by property owners unless they are *responsible* for the construction and are not hiring a licensed Contractor to assume this responsibility.

3. I understand as an "Owner-Builder" I am the responsible party of record on the permit. I understand that I may protect myself from potential financial risk by hiring a licensed Contractor and having the permit filed in his or her name instead of my own.

4. I understand Contractors are required by law to be licensed and bonded in California and to list their license numbers on permits and contracts.

5. I understand if I employ or otherwise engage any persons, other than California licensed Contractors, and the total value of my construction is at least five hundred dollars ($500), including labor and materials, I may be considered an "employer" under state and federal law.

6. I understand if I am considered an "employer" under state and federal law, I must register with the state and federal government, withhold payroll taxes, provide workers' compensation disability insurance, and contribute to unemployment compensation for each "employee." I also understand my failure to abide by these laws may subject me to serious financial risk.

7. I understand under California Contractors' State License Law, an Owner-Builder who builds single-family residential structures cannot legally build them with the intent to offer them for sale, unless *all* work is performed by licensed subcontractors and the number of structures does not exceed four within any calendar year, or all of the work is performed under contract with a licensed general building Contractor.

8. I understand as an Owner-Builder if I sell the property for which this permit is issued, I may be held liable for any financial or personal injuries sustained by any subsequent owner(s) that result from any latent construction defects in the workmanship or materials.

9. I understand I may obtain more information regarding my obligations as an "employer" from the Internal Revenue Service, the United States Small. Business Administration, the California Department of Benefit Payments, and the California Division of Industrial Accidents. I also understand I may contact the California Contractors' State License Board (CSLB) at 1-800-321-CSLB (2752) or www.cslb.ca.gov for more information about licensed contractors.

As a covered entity under Title II of the Americans with Disabilities Act, the City of Los Angeles does not discriminate on the basis of disability and, upon request, will provide reasonable accommodation to ensure equal access to its programs, services and activities. For efficient handling of information internally and in the internet, conversion to this new format of code related and administrative information bulletins including MGD and RGA that were previously issued will allow flexibility and timely distribution of information to the public.

Nevertheless the information printed exceeds that required by section 19825 of the Health and Safety Code of the State of California.

15. BUILDING RELOCATED FROM:

16. CONTRACTOR, ARCHITECT & ENGINEER NAME	ADDRESS	CLASS	LICENSE #	PHONE #
(O) OWNER-BUILDER			0	

PERMIT EXPIRATION/REFUNDS: This permit expires two years after the date of the permit issuance. This permit will also expire if no construction work is performed for a continuous period of 180 days (Sec. 98.0602 LAMC). Claims for refund of fees paid must be filed within one year from the date of expiration for permits granted by LADBS (Sec. 22.12 & 22.13 LAMC). The permittee may be entitled to reimbursement of permit fees if the Department fails to conduct an inspection within 60 days of receiving a request for final inspection (HS 17951).

17. OWNER-BUILDER DECLARATION

I hereby affirm under penalty of perjury that I am exempt from the Contractors' State License Law for the following reason (Section 7031.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he or she is licensed pursuant to the provisions of the Contractors License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he or she is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500).):

(X) I, as the owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code: The Contractors License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or herself or through his or her own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year from completion, the owner-builder will have the burden of proving that he or she did not build or improve for the purpose of sale).

OR

( ) I, as the owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code: The Contractors License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractors License Law.)

18. WORKERS' COMPENSATION DECLARATION

I hereby affirm, under penalty of perjury, one of the following declarations:

(X) I have and will maintain a certificate of consent to self insure for workers' compensation, as provided for by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.

( ) I have and will maintain workers' compensation insurance, as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number are:

Carrier: _____ Policy Number: _____

( ) I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California, and agree that if I should become subject to the workers' compensation provisions of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.

WARNING: FAILURE TO SECURE WORKERS' COMPENSATION COVERAGE IS UNLAWFUL, AND SHALL SUBJECT AN EMPLOYER TO CRIMINAL PENALTIES AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS ($100,000), IN ADDITION TO THE COST OF COMPENSATION, DAMAGES AS PROVIDED FOR IN SECTION 3706 OF THE LABOR CODE, INTEREST, AND ATTORNEY'S FEES.

19. ASBESTOS REMOVAL DECLARATION / LEAD HAZARD WARNING

I certify that notification of asbestos removal is either not applicable or has been submitted to the AQMD or EPA as per section 19827.5 of the Health and Safety Code. Information is available at (909) 396-2336 and the notification form at www.aqmd.gov. Lead safe construction practices are required when doing repairs that disturb paint in pre-1978 buildings due to the presence of lead per section 6716 and 6717 of the Labor Code. Information is available at Health Services for LA County at (800) 524-5323 or the State of California at (800) 597-5323 or www.dhs.ca.gov/childlead.

20. FINAL DECLARATION

I certify that I have read this application **INCLUDING THE ABOVE DECLARATIONS** and state that the above information **INCLUDING THE ABOVE DECLARATIONS** is correct. I agree to comply with all city and county ordinances and state laws relating to building construction, and hereby authorize representatives of this city to enter upon the above-mentioned property for inspection purposes. I realize that this permit is an application for inspection and that it does not approve or authorize the work specified herein, and it does not authorize or permit any violation or failure to comply with any applicable law. Furthermore, neither the City of Los Angeles nor any board, department officer, or employee thereof, make any warranty, nor shall be responsible for the performance or results of any work described herein, nor the condition of the property nor the soil upon which such work is performed. I further affirm under penalty of perjury, that the proposed work will not destroy or unreasonably interfere with any access or utility easement belonging to others and located on my property, but in the event such work does destroy or unreasonably interfere with such easement, a substitute easement(s) satisfactory to the holder(s) of the easement will be provided (Sec. 91.0106.4.3.4 LAMC).

By signing below, I certify that:

(1) I accept all the declarations above namely the Owner-Builder Declaration, Workers' Compensation Declaration, Asbestos Removal Declaration / Lead Hazard Warning, and Final Declaration; and

(2) This permit is being obtained with the consent of the legal owner of the property.

If you contract with someone who does not have a license, the Contractors' State License Board may be unable to assist you with any financial loss you may sustain as a result of a complaint. Your only remedy against unlicensed Contractors may be in civil court. It is also important for you to understand that if an unlicensed Contractor or employee of that individual or firm is injured while working on your property, you may be held liable for damages. If you obtain a permit as Owner-Builder and wish to hire Contractors, you will be responsible for verifying whether or not those Contractors are properly licensed and the status of their workers' compensation insurance coverage. Before a building permit can be issued, this form must be completed and signed by the property owner and returned to the agency responsible for issuing the permit.

Note: A copy of the property owner's driver's license, form notarization, or other verification acceptable to the agency is required to be presented when the permit is issued to verify the property owner's signature.

Unless a shorter period of time has been established by an official action, plan check approval expires one and a half years after the plan check fee has been paid. This permit expires two years after the building permit fee has been paid or 180 days after the fee has been paid and construction has not commenced or if work is suspended, discontinued or abandoned for a continuous period of 180 days (Sec 98 0602 LAMC). Claims for refund of fees paid must be filed within one year from the date of expiration for permits granted by the Dept. of Building & Safety (Sec. 22.12 & 22.13 LAMC).

17. LICENSED CONTRACTOR'S DECLARATION

I hereby affirm under penalty of perjury that I am licensed under the provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect. The following applies to B contractors only: I understand the limitations of Section 7057 related to my ability to take prime contracts or subcontracts involving specialty trades. (For 1 or 2 family dwellings, use the declaration attachment if separate general, electrical, plumbing, and/or HVAC contractor's & workers' comp declarations are desired.)

License Class: C45 Lic. No.: 631033 Print: Peter Raulli Sign: Peter Raulli

18. WORKERS' COMPENSATION DECLARATION

I hereby affirm, under penalty of perjury, one of the following declarations:

☐ I have and will maintain a certificate of consent to self insure for workers' compensation, as provided for by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.

☐ I have and will maintain workers's compensation insurance, as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number are: Carrier: Golden Eagle Policy Number: NWC 478751-03

☐ I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California, and agree that if I should become subject to the workers' compensation provisions of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.

Sign. Peter Raulli Date: 11,18,99 ☐ Contractor ☒ Authorized Agent ☐ Owner

WARNING FAILURE TO SECURE WORKERS' COMPENSATION COVERAGE IS UNLAWFUL, AND SHALL SUBJECT AN EMPLOYER TO CRIMINAL PENALTIES AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS ($100,000), IN ADDITION TO THE COST OF COMPENSATION, DAMAGES AS PROVIDED FOR IN SECTION 3706 OF THE LABOR CODE, INTEREST, AND ATTORNEY'S FEES

19. CONSTRUCTION LENDING AGENCY

I hereby affirm under penalty of perjury that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civil Code)

Lender's name _____ Lender's address: _____

20. ASBESTOS REMOVAL

Notification of asbestos removal: ☐ Is not applicable ☐ Letter was sent to the AQMD or EPA Sign: _____ Date: / /

21. OWNER-BUILDER DECLARATION

I hereby affirm under penalty of perjury that I am exempt from the Contractors License Law for the following reason (Section 7031.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he or she is licensed pursuant to the provisions of the Contractors License Law (Chapter 9 commencing with Sec. 7000 of Division 3 of the Business and Professions Code) or that he or she is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500)):

☐ I, as the owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business & Professions Code: The Contractors License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or herself or through his or her own employees, provided that such improvements are not intended or offered for sale If, however, the building or improvement is sold within one year from completion, the owner-builder will have the burden of proving that he or she did not build or improve for the purpose of sale)

☐ I, as the owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business & Professions Code: The Contractors License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractors License Law.)

☐ I am exempt under Sec _____, Bus. & Prof. Code for the following reason: _____

Print _____ Sign: _____ Date: / / ☐ Owner ☐ Authorized Agent

22. FINAL DECLARATION

I certify that I have read this application and state that the above information is correct. I agree to comply with all city and county ordinances and state laws relating to building construction, and hereby authorize representatives of this city to enter upon the above-mentioned property for inspection purposes. I realize that this permit is an application for inspection and that it does not approve or authorize the work specified herein. Also that it does not authorize or permit any violation or failure to comply with any applicable law. Furthermore, that neither the City of Los Angeles nor any board, department officer, or employee thereof, make any warranty, nor shall be responsible for the performance or results of any work described herein, nor the condition of the property nor the soil upon which such work is performed. I further affirm under penalty of perjury, that the proposed work will not destroy or unreasonably interfere with any access or utility easement belonging to others and located on my property, but in the event such work does destroy or unreasonably interfere with such easement, a substitute easement(s) satisfactory to the holder(s) of the easement will be provided (Sec. 91.0106.4.3.4 LAMC).

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Alpha Environmental were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at approximately five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1920 through current. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

Summary information obtained is provided in the text of this report.

RECORD SOURCES

The EDR City Directory Report accesses a variety of business directory sources, including Haines, InfoUSA, Polk, Cole, Bresser, and Stewart. Listings marked as EDR Digital Archive access Cole and InfoUSA records. The various directory sources enhance and complement each other to provide a more thorough and accurate report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer.

REFERRAL FORMS:

TRANSPORTATION STUDY ASSESSMENT

DEPARTMENT OF TRANSPORTATION - REFERRAL FORM

RELATED CODE SECTION: Los Angeles Municipal Code Section 16.05 and various code sections.

PURPOSE: The Department of Transportation (LADOT) Referral Form serves as an initial assessment to determine whether a project requires a Transportation Assessment.

GENERAL INFORMATION

- Administrative: Prior to the submittal of a referral form with LADOT, a Planning case must have been filed with Los Angeles City Planning.
- All new school projects, including by-right projects, must contact LADOT for an assessment of the school's proposed drop-off/pick-up scheme and to determine if any traffic controls, school warning and speed limit signs, school crosswalk and pavement markings, passenger loading zones and school bus loading zones are needed.
- Unless exempted, projects located within a transportation specific plan area may be required to pay a traffic impact assessment fee regardless of the need to prepare a transportation assessment.
- Pursuant to LAMC Section 19.15, a review fee payable to LADOT may be required to process this form. The applicant should contact the appropriate LADOT Development Services Office to arrange payment.
- LADOT's Transportation Assessment Guidelines, VMT Calculator, and VMT Calculator User Guide can be found at **http://ladot.lacity.org**.
- A transportation study is not needed for the following project applications:
    - Ministerial / by-right projects
    - Discretionary projects limited to a request for change in hours of operation
    - Tenant improvement within an existing shopping center for change of tenants
    - Any project only installing a parking lot or parking structure
    - Time extension
    - Single family home (unless part of a subdivision)
- This Referral Form is not intended to address the project's site access plan, driveway dimensions and location, internal circulation elements, dedication and widening, and other issues. These items require separate review and approval by LADOT.

SPECIAL REQUIREMENTS

When submitting this referral form to LADOT, include the completed documents listed below.

☑ Copy of Department of City Planning Application (CP-7771.1).

☑ Copy of a fully dimensioned site plan showing all existing and proposed structures, parking and loading areas, driveways, as well as on-site and off-site circulation.

☐ If filing for purposes of Site Plan Review, a copy of the Site Plan Review Supplemental Application.

☑ Copy of project-specific VMT Calculator analysis results.

TO BE VERIFIED BY PLANNING STAFF PRIOR TO LADOT REVIEW

LADOT DEVELOPMENT SERVICES DIVISION OFFICES: Please route this form for processing to the appropriate LADOT Development Review Office as follows (see this map for geographical reference):

[1] Qualifying Existing Use to be determined by LADOT staff on following page, per LADOT's Transportation Assessment Guidelines.

[2] To calculate the project's total daily trips, use the VMT Calculator. Under 'Project Information', enter the project address, land use type, and intensity of all proposed land uses. Select the '**+**' icon to enter each land use. After you enter the information, copy the 'Daily Vehicle Trips' number into the total trips in this table. Do not consider any existing use information for screening purposes. For additional questions, consult LADOT's VMT Calculator User Guide and the LADOT Transportation Assessment Guidelines (available on the LADOT website).

[3] Relevant transit lines include: Metro Red, Purple, Blue, Green, Gold, Expo, Orange, and Silver line stations; and Metrolink stations.

TO BE COMPLETED BY LADOT

3. PROJECT INFORMATION

	Land Use (list all)	**Size / Unit**	**Daily Trips**
Proposed	Market Rate Apartments	24 units	
	Affordable Apartments	3 units	
	Commercial	416 sf	
	Total new trips:		137
Existing	N/A		
	Total existing trips:		0
	Net Increase / Decrease (+ or -)		137

a. Is the project a single retail use that is less than 50,000 square feet? **Yes** ☐ **No** ☑
b. Would the project generate a net increase of 250 or more daily vehicle trips? **Yes** ☐ **No** ☑
c. Would the project generate a net increase of 500 or more daily vehicle trips? **Yes** ☐ **No** ☑
d. Would the project result in a net increase in daily VMT? **Yes** ☑ **No** ☐
e. If the project is replacing an existing number of residential units with a smaller number of residential units, is the proposed project located within one-half mile of a heavy rail, light rail, or bus rapid transit station? **Yes** ☐ **No** ☑

f. Does the project trigger Site Plan Review (LAMC 16.05)? **Yes** ☐ **No** ☐

g. Project size:
- **i.** Would the project generate a net increase of 1,000 or more daily vehicle trips? **Yes** ☐ **No** ☑
- **ii.** Is the project's frontage 250 linear feet or more along a street classified as an Avenue or Boulevard per the City's General Plan? **Yes** ☐ **No** ☑
- **iii.** Is the project's building frontage encompassing an entire block along a street classified as an Avenue or Boulevard per the City's General Plan? **Yes** ☐ **No** ☑

VMT Analysis (CEQA Review)
If **YES** to **a.** and **NO** to **e.** a VMT analysis is **NOT** required.
If **YES** to both **b.** and **d.**; or to **e.** a VMT analysis **is** required.

Access, Safety, and Circulation Assessment (Corrective Conditions)
If **YES** to **c.**, a project access, safety, and circulation evaluation may be required.
If **YES** to **f.** and either **g.i**., **g.ii**., or **g.iii**., an access assessment may be required.

LADOT Comments:

Please note that this form is not intended to address the project's site access plan, driveway dimensions and location, internal circulation elements, dedication and widening, and other issues. These items require separate review and approval by LADOT. Qualifying Existing Use to be determined per LADOT's Transportation Assessment Guidelines.

4. Specific Plan with Trip Fee or TDM Requirements: **Yes** ☐ **No** ☑

Fee Calculation Estimate: _____

VMT Analysis Required (Question b. satisfied): **Yes** ☐ **No** ☑

Access, Safety, and Circulation Evaluation Required (Question c. satisfied): **Yes** ☐ **No** ☑

Access Assessment Required (Question c., f., and either g.i., g.ii. or g.iii satisfied): **Yes** ☐ **No** ☑

CITY OF LOS ANGELES VMT CALCULATOR Version 1.4

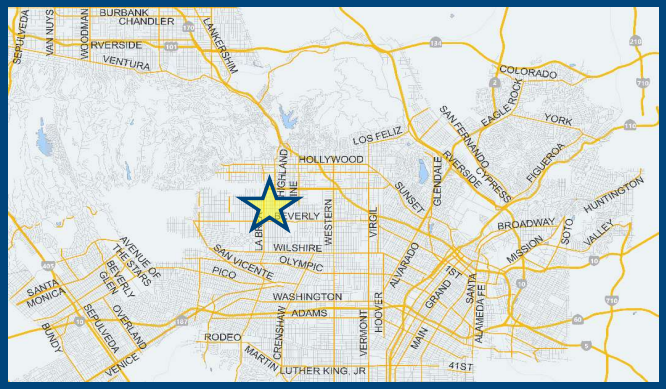
Project Screening Criteria: Is this project required to conduct a vehicle miles traveled analysis?

Project Information

Project: 6721-6727 Melrose MU

Scenario:

Address: 6721 W MELROSE AVE, 90038



Is the project replacing an existing number of residential units with a smaller number of residential units AND is located within one-half mile of a fixed-rail or fixed-guideway transit station?

○ Yes ◉ No

Existing Land Use

Land Use Type	Value	Unit
Housing | Single Family		DU

☐ Click here to add a single custom land use type (will be included in the above list)

Proposed Project Land Use

Land Use Type	Value	Unit
Retail | General Retail	0.416	ksf
Housing | Affordable Housing - Family	3	DU
Housing | Multi-Family	24	DU
Retail | General Retail	0.416	ksf

☐ Click here to add a single custom land use type (will be included in the above list)

Project Screening Summary

Existing Land Use	Proposed
0 Daily Vehicle Trips	137 Daily Vehicle Trips
0 Daily VMT	859 Daily VMT

Tier 1 Screening Criteria

Project will have less residential units compared to existing residential units & is within one-half mile of a fixed-rail station. ☐

Tier 2 Screening Criteria

The net increase in daily trips < 250 trips — 137 Net Daily Trips

The net increase in daily VMT ≤ 0 — 859 Net Daily VMT

The proposed project consists of only retail land uses ≤ 50,000 square feet total. — 0.416 ksf

The proposed project is not required to perform VMT analysis.

TECHNICAL MEMORANDUM

TO: Ms. Eileen Hunt, P.E., LADOT

FROM: Srinath Raju, P.E.
Christopher Muñoz

SUBJECT: 6721 Melrose Avenue Residential Project
Trip Generation Analysis and Transportation Assessment Screening

DATE: August 19, 2024 **REF:** RA 775

This technical memorandum documents the trip generation analysis and transportation assessment screening for the proposed Multi-Family Residential Project (the Project) located at 6721 Melrose Avenue (Council District 5) within the City of Los Angeles, California. The Project site is located at 6721-6727 Melrose Avenue (APN 5524-013-022). The trip generation and transportation assessment screening include a comparison of estimated net traffic generation associated with the Project, and the daily trip threshold of 250 trips used for transportation assessment screening.

This evaluation and analysis include a description of existing site conditions, a summary of the Project description, a summary of the Project's net trip generation estimates, and a comparison of the subject trip generation estimates with the threshold that warrants preparation of a formal transportation assessment analysis per City of Los Angeles Department of Transportation (LADOT) criteria. Details of this evaluation are presented in subsequent sections of this memorandum.

The results conclude that the Project does not meet or exceed thresholds to warrant preparation of a formal transportation assessment per LADOT screening criteria. Therefore, no further analysis is required for the purpose of satisfying the requirements of the California Environmental Quality Act (CEQA). The findings are discussed in more detail in the following sections.

EXISTING SITE CONDITIONS

The Project site is located at 6721-6727 Melrose Avenue in the Hollywood Community Plan Area of the City of Los Angeles, California. The Project site is generally bounded by an alley to the north, Melrose Avenue to the south, commercial uses to the east and Mansfield Avenue to the west. The Project Site and general vicinity are shown in Figure 1. The existing Project site is shown in Figure 2. A vacant commercial building occupies the existing site. This building has been vacant for more than two years and will be demolished.

PROJECT DESCRIPTION

The Project consists of a 6-story residential development with 32 mid-rise multifamily dwelling units including 4 affordable dwelling units and 614 square feet of retail use. The Project would provide a total of 23 vehicle parking spaces and 37 bicycle spaces (32 long-term and 5 short-term spaces). The Project ground floor site plan is shown in Figure 3, and the parking level plan is shown in Figure 4.

The alley, along the northern frontage, provides access to the existing site and would continue to provide access to the Project. As proposed, two driveways would be provided along the alley, as shown in Figure 3. The western driveway would provide access to the ground level parking area, while the eastern driveway would provide access to the parking garage.

PROJECT TRIP GENERATION

Per the current Los Angeles Department of Transportation (LADOT) *Transportation Assessment Guidelines*, (TAG) August 2022, "*For the purpose of screening for daily vehicle trips, a proposed project's daily vehicle trips should be estimated using the VMT Calculator tool or the most recent edition of the ITE Trip Generation Manual*".

RAJU Associates, Inc.

Also, per LADOT's TAG, "*For mixed-use projects, daily trips associated with local serving retail use of the project can be removed in determining if the project's daily vehicle trips are calculated for screening purposes*". Retail projects that are under 50,000 square feet are considered local serving (i.e., vehicle trips originate from the project area). As stated above, the Project's retail component is under 50,000 square feet and therefore, considered local serving and has been removed in determining the Project's daily vehicle trips.

LADOT's VMT calculator tool (version 1.4) was utilized to determine the Project's net daily trips. ITE's Trip Generation Manual, 11th Edition trip rates were utilized for Multifamily Mid-Rise Residential use (ITE Land Use 221) in the VMT calculator tool using the custom land use feature. For screening purposes, which do not include the proposed retail component, the Project would generate a total of 109 net daily trips (based on the City's VMT Calculator v1.4).

From Table 1, it can be observed that the Project's trip generation would result in a net total of approximately 13 trips during the morning peak hour and 16 trips during the evening peak hour. Utilizing the City of Los Angeles' VMT Calculator Tool (version 1.4), included in Attachment A, the Project is estimated to generate a total of 109 net daily trips.

CITY OF LOS ANGELES TRANSPORTATION ASSESSMENT SCREENING

Per the current *Los Angeles Department of Transportation (LADOT) Transportation Assessment Guidelines*, (TAG) August 2022, the city requires the preparation and submission of a transportation assessment for Development Projects that meet the following criteria:

- If the Development Project is estimated to generate a net increase of 250 or more daily vehicle trips and requires discretionary action, a transportation assessment for a Development Project is required.
- A transportation assessment is required by City ordinance or regulation.

As indicated in the previous section, the Project trip generation results in a total of 109 net daily trips. Therefore, per City's TAG, the Project's estimated trip generation does not meet or exceed the City's screening criteria for preparing a transportation assessment. Additionally, no City ordinance or regulations have been identified that require a transportation assessment for this Project. Therefore, no further analysis is needed for the Project.

TABLE 1
ESTIMATED PROJECT TRIP GENERATION

	Size	AM Peak Hour			PM Peak Hour		
		IN	OUT	TOTAL	IN	OUT	TOTAL
Proposed Project							
Multifamily Mid-Rise	28 d.u.	2	8	10	7	4	11
Affordable Housing	4 d.u.	1	1	2	1	0	1
Retail	614 s.f.	1	0	1	2	2	4
Project Trip Generation Total		4	9	13	10	6	16
Trip Rates [1]							
Affordable Housing (LADOT) [2]	Trips per d.u.	37%	63%	0.49	56%	44%	0.35
Multifamily Mid-Rise (ITE Land Use 221)	Trips per d.u.	23%	77%	0.37	61%	39%	0.39
Retail < 40 k.s.f. (ITE Land Use 822)	Trips per 1,000 s.f.	60%	40%	2.36	50%	50%	6.59

[1] *Trip Generation Manual*, 11th Edition, ITE 2021, unless otherwise noted.

[2] Affordable Housing trip generation rates from *Los Angeles Department of Transportation (LADOT) Transportation Guidelines, Table 3.3-2: Trip Generation Rates for Affordable Housing Projects,* August 2022. Trip generation rates "Inside TPA Area" were utilized.

** Utilizing the City of Los Angeles' VMT Calculator Tool (version 1.4), the Project is estimated to have a net increase of 109 daily trips.

CONCLUSION

The daily volume threshold identified in the LADOT's TAG for requiring preparation of a transportation assessment is 250 or more trips per day. As indicated in Attachment A, the Project trip generation is estimated to result in a net increase of 109 daily trips. Therefore, the Project does not exceed the threshold (250 or more daily trips) that require preparation of a transportation assessment per LADOT's *Transportation Assessment Guidelines*. No further transportation (CEQA and non-CEQA) analysis is necessary.

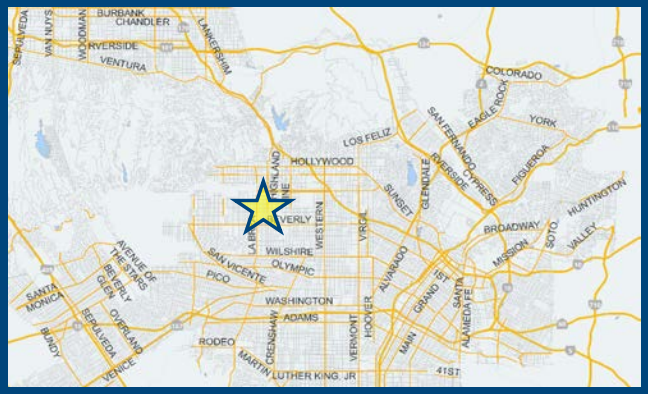
Project Screening Criteria: Is this project required to conduct a vehicle miles traveled analysis?

Project Information

Project: 6721 Melrose Avenue Residential Project

Scenario:

Address: 6721 W MELROSE AVE, 90038



Is the project replacing an existing number of residential units with a smaller number of residential units AND is located within one-half mile of a fixed-rail or fixed-guideway transit station?

○ Yes ● No

Existing Land Use

Land Use Type	Value	Unit
Housing | Single Family		DU

☐ Click here to add a single custom land use type (will be included in the above list)

Proposed Project Land Use

Arcadia, California 91006
(626) 408-8006

May 2, 2025

Management Summary

The proposed 6721 Melrose Avenue Project (Project) involves the demolition of the existing office building and paved surface parking for redevelopment of the site in the City of Los Angeles, Los Angeles County, California. The proposed Project area includes a 7,040-square foot lot at 6721 Melrose Avenue in the city and county of Los Angeles, California. Chronicle Heritage was contracted by 6727 MDD, LLC to conduct a cultural resource assessment (CRA) and tribal cultural resources (TCR) study of the proposed Project area in compliance with the California Environmental Quality Act (CEQA); the City of Los Angeles is the Lead Agency for CEQA compliance.

This study documents the methods and results of the CRA/TCR study that includes a California Historical Resources Information System records search at the South Central Coastal Information Center (SCCIC), a Sacred Land File (SLF) search by the Native American Heritage Commission (NAHC), informal tribal outreach to tribes with heritage ties to the area, and sufficient archival research used to evaluate the presence or likelihood of cultural resources and TCRs within the Project area.

The results of the SCCIC records search identified five cultural resources studies that have been conducted within the search area, none of which intersects the Project area. No previously recorded cultural resources or TCRs were identified within the Project area or within the 0.5-mile (mi) radius of the Project area.

A request to the NAHC to conduct the SLF search was made on November 25, 2024. The NAHC responded on December 16. The SLF search results were negative; however, the NAHC provided a list of contacts for tribal representatives and recommended that Chronicle Heritage contact them for information regarding known TCRs. As part of informal tribal outreach, Chronicle Heritage contacted the 16 representatives of eight NAHC-recommended tribes who may have knowledge of cultural resources in the Project area. Chronicle Heritage has received three responses to date.

The sufficient archival research conducted by Chronicle Heritage determined that the Project area is not near known locations of intensive Native American activity (e.g., habitation and village sites). The closest named Native American village (Geveronga) is 4.9 mi southeast of the Project area. Other important locations that would have been used or settled by Native Americans during the prehistoric and ethnohistoric periods in the general vicinity of the proposed Project include the La Brea Tar Pits approximately 1.6 mi to the southwest and the ethnohistoric villages of Maungna, Yangna, Wenot, Huachong-na, and Kuruvangna, all of which are more than 5 mi from the Project area. A network of trails running along the southern edge of the Santa Monica Mountains, near the Project area, likely linked villages and resource-gathering areas.

No pedestrian survey of the APE was performed as a result of the entire APE being covered by either building or a paved parking area.

The City has established a standard condition of approval to address inadvertent discovery of cultural resources and TCRs. Should cultural resources or TCRs be inadvertently encountered, this condition of approval provides for temporarily halting construction activities near the encounter and notifying the City and Native American tribes that have informed the City they are traditionally and culturally affiliated with the geographic area of the proposed project. If the City determines that the object or artifact appears to be a TCR, the City would provide any affected tribe a reasonable period to conduct a site visit and make recommendations regarding the monitoring of future ground-disturbance activities as well as the treatment and disposition of any discoveredTCRs. The Project Applicant would then implement the tribe's recommendations if a qualified archaeologist reasonably concludes that the tribe's recommendations are reasonable and

feasible. The recommendations would then be incorporated into a TCR monitoring plan, and once the plan is approved by the City, ground disturbance activities could resume. In accordance with the condition of approval, all activities would be conducted in accordance with regulatory requirements. As a result, potential impacts to TCRs would continue to be less than significant.

Introduction

The proposed 6721 Melrose Avenue (Project) involves the demolition of the existing office building and paved surface parking for redevelopment of the site in the City of Los Angeles, Los Angeles County, California. The proposed Project area includes a 7,040-square foot lot at 6721 Melrose Avenue in the city and county of Los Angeles, California. Chronicle Heritage was contracted by 6727 MDD, LLC to conduct a cultural resource assessment (CRA) and tribal cultural resources (TCR) study of the proposed Project area in compliance with the California Environmental Quality Act (CEQA); the City of Los Angeles is the Lead Agency for CEQA compliance.

Project Location and Description

The proposed Project involves the construction of a commercial building at 6721 Melrose Avenue in the Melrose district of the city of Los Angeles (Figure 1). The Project is in the eastern portion of the city in the Melrose district within the Hollywood Community Plan, Central Area Planning Commission, and Greater Wilshire Neighborhood Council, approximately 5 miles (mi) northwest of Downtown Los Angeles and 10 mi east of the Pacific Ocean. The Project area is bounded by Melrose Avenue to the south, North Mansfield Avenue to the west, lot 6715 Melrose Avenue to the east, and the Melrose district residential neighborhood to the north. Melrose Avenue is an arterial corridor in the Hollywood Community Plan Area (CPA). The Project is depicted within the Section 15 of Township (T) 1 South (S), Range (R) 14 West (W), San Bernardino Base and Meridian on a portion of the U.S. Geological Survey (USGS) Hollywood, California, 7.5-minute topographical map (Figure 2).

The Project area is fully developed and in use as an office building for the International Alliance of Theatrical Stage Employees (IATSE). The Project area contains one building and one flat paved parking area. The Project area is 272 feet above mean sea level.

6727 MDD, LLC is proposing the demolition of the existing office building and paved surface parking for redevelopment of the Project. Development of the proposed Project would include construction activities involving the demolition of the existing building and parking surface, grading and excavation, and construction of a new structure.

Personnel Qualifications

Associate Archaeologist Gabby St. Martin, B.A., was the primary author on the report. Senior Archaeologist Gena Severen, M.A., RPA provided senior technical review as a qualified archaeologist meeting the Secretary of the Interior's Professional Qualifications Standards (PQS) in archaeology. Brian Spelts served as the GIS analyst. Carrie Chasteen, Senior Architectural Historian, served and Project Manager.

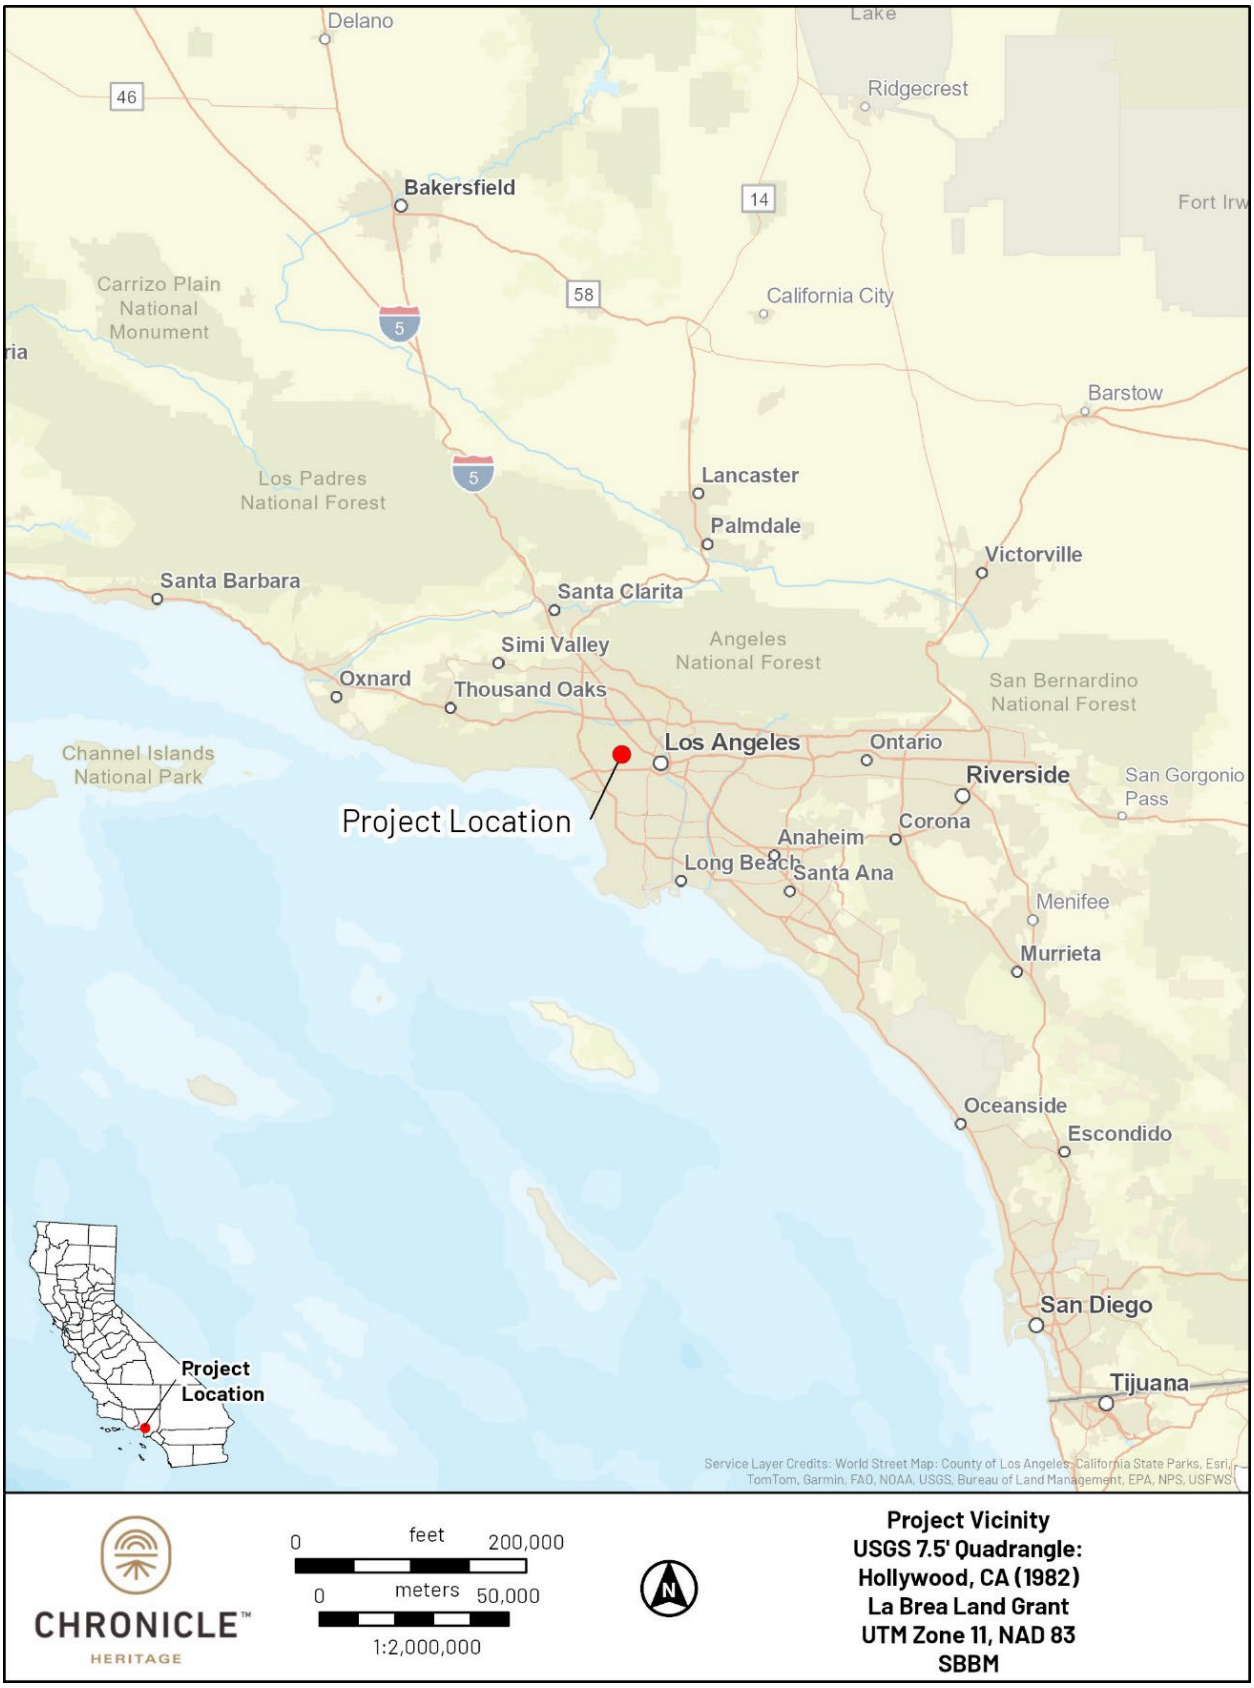

Figure 1. Project vicinity map.

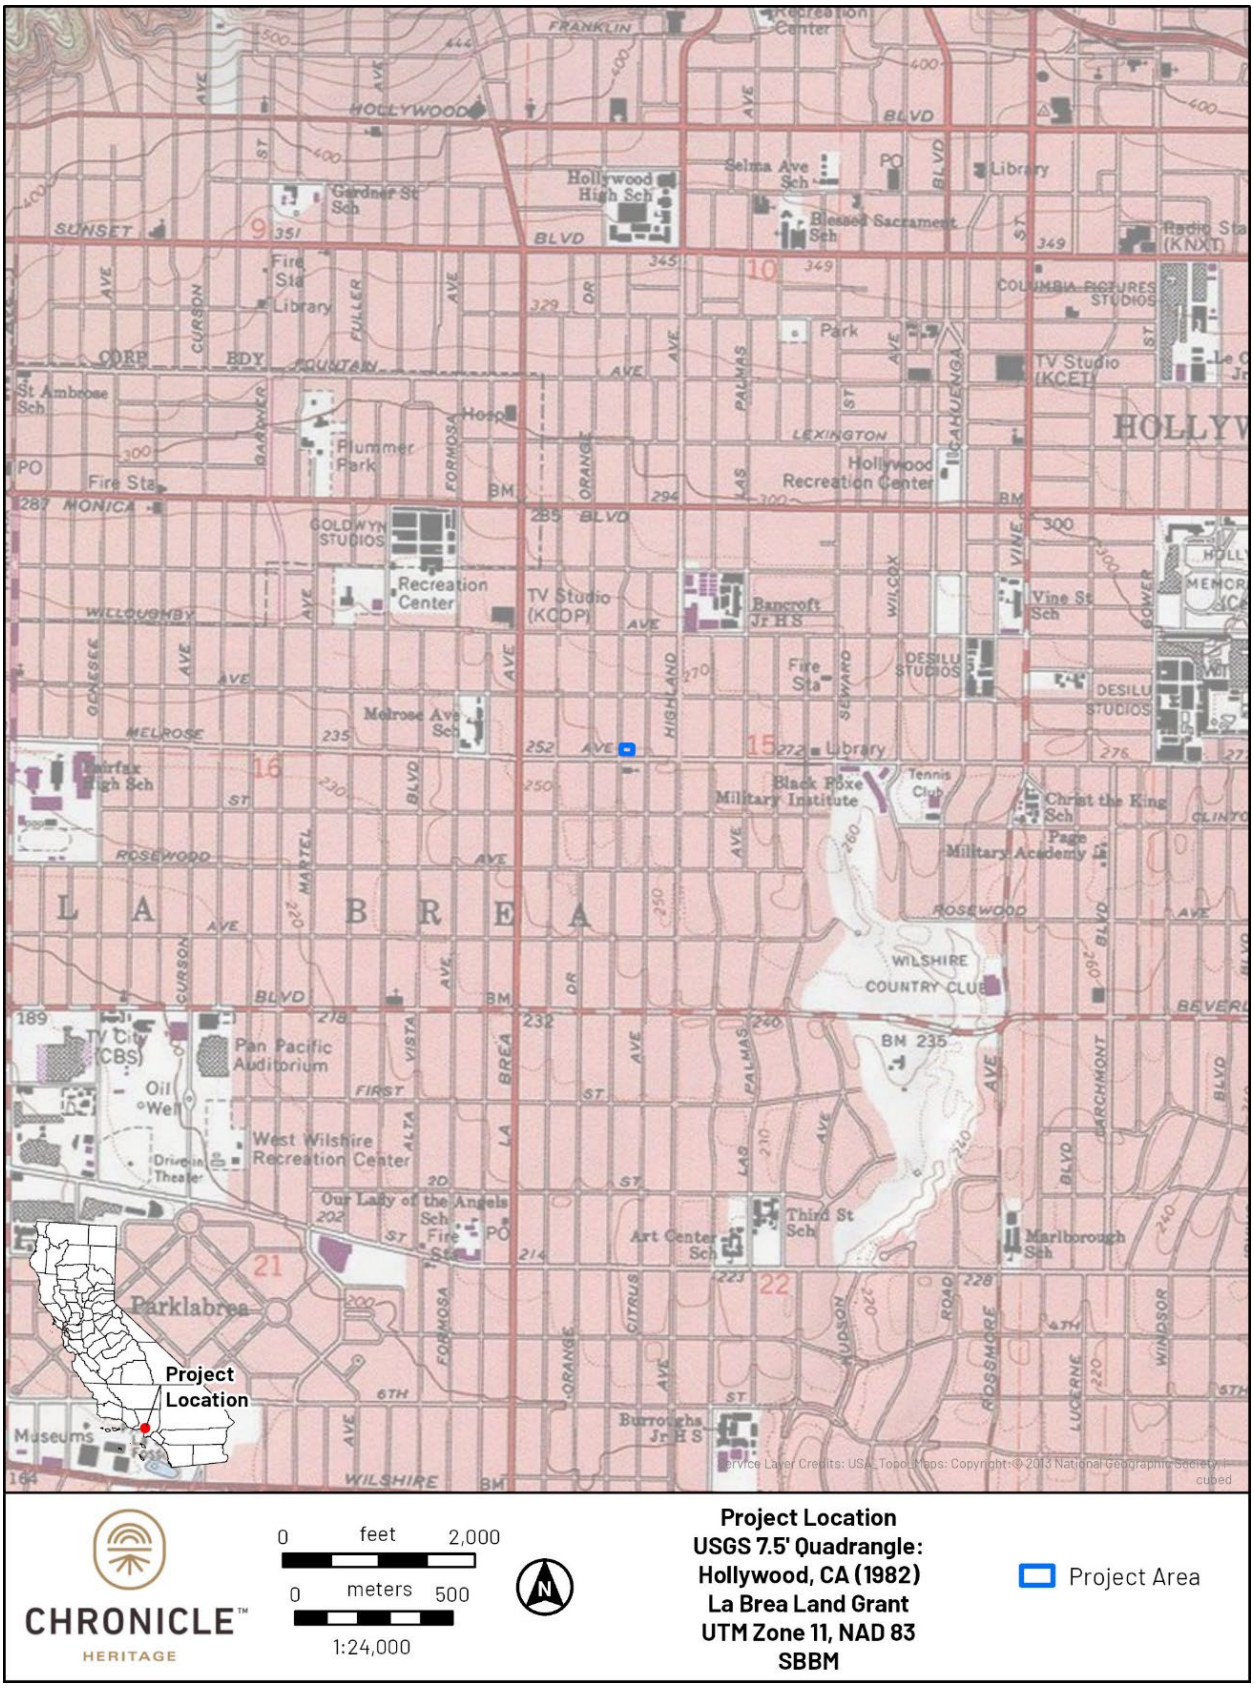

Figure 2. Project location map.

Regulatory Context

California Environmental Quality Act

The proposed Project is subject to compliance with CEQA, as amended. Compliance with CEQA statutes and guidelines requires both public and private projects with financing or approval from a public agency to assess the project's impact on cultural resources (Public Resources Code Sections 21082, 21083.2 and 21084 and California Code of Regulations, Section 10564.5). The first step in the process is to identify cultural resources that may be affected by the project and determine whether the resources are "historically significant" resources.

CEQA defines historically significant resources as "resources listed or eligible for listing in the California Register of Historical Resources (CRHR)" (Public Resources Code Section 5024.1). A cultural resource may be considered historically significant if the resource is at least 45 years old and possesses integrity of location, design, setting, materials, workmanship, feeling, and association.[1] In addition, it must meet any of the following criteria for listing on the CRHR:

- Is associated with events that have made a significant contribution to the broad patterns of California's history and cultural heritage
- Is associated with the lives of persons important in our past
- Embodies the distinctive characteristics of a type, period, region, or method of construction, or represents the work of an important creative individual, or possesses high artistic values
- Has yielded, or may be likely to yield, information important in prehistory or history (Public Resources Code Section 5024.1(c))

Cultural resources are buildings, sites, humanly modified landscapes, traditional cultural properties, structures, or objects that may have historical, architectural, cultural, or scientific importance. A resource can also be determined historically significant under CEQA by virtue of being included in a local register of historical resources regardless of CRHR eligibility (see Title 14 California Code of Regulations Section 15064.5(a)(2)). CEQA states that if a project will have a significant impact on important cultural resources, deemed "historically significant," then project alternatives and mitigation measures must be considered. Additionally, the Office of Historic Preservation may choose to comment on the CEQA compliance process for specific local government projects in an informal capacity but does not seek to review all projects that may affect historically significant cultural resources under CEQA provisions.

Citywide Housing Element 2021-2029 and Safety Element Updates Final Environmental Impact Report

The Project is tiering off of the Citywide Housing Element 2021-2029 and Safety Element Updates Final Environmental Impact Report (Program EIR) (City of Los Angeles and Rincon Consultants 2021), which was certified on November 24, 2021, for environmental clearance. The City of Los

1 The Office of Historic Preservation (OHP) guidelines recognize a 45-year-old criteria threshold for documenting and evaluating cultural resources (assumes a 5-year lag between resource identification and the date that planning decisions are made) (OHP 1995:2). The age threshold is an operational guideline and not specific to CEQA statutory or regulatory codes.

Angeles, as the Project Lead CEQA Agency, is responsible for initiating and conducting formal Tribal consultation as part of the implementation of Mitigation Measure 4.15-1 of the Program EIR.

As the Project proposes grading, Mitigation Measure 4.15-1 requires tribal notification and consultation to determine if there are any potential impacts to Tribal Cultural Resources. The City mailed letters to eleven tribes on January 16, 2025, notifying them of the Project, and inviting them to participate in consultation to determine if there are any potential impacts to Tribal Cultural Resources. Within the letter, the Tribes were also notified that they would have 30 calendar days from the receipt of the letter to notify the City of their intent to consult on the Project. To date, the City received one response of January 23, 2025, from the Gabrieleno Band of Mission Indians – Kizh Nation who stated they wished to participate in consultation. Copies of the letters sent to the eleven Tribes and summary of responses and of the consultation process are available from the City.

City of Los Angeles General Plan

The Conservation Element of the City's General Plan, which was adopted in 2001, contains one objective to protect archaeological resources for historical, cultural, research, and educational purposes. The policy associated with the objectives is as follows:

> continue to identify and protect significant archaeological and paleontological sites and/or resources known to exist or that are identified during land development, demolition or property modification activities. (City of Los Angeles 2001:11–5 to 11–6)

Natural and Cultural Setting

This section summarizes information regarding the physical and cultural setting of the Project area, including the prehistoric, ethnographic, and historic contexts of the general area. Several factors, including topography, available water sources, and biological resources, affect the nature and distribution of prehistoric, ethnographic, and historic-period human activities in an area. This background provides a context for understanding the nature of the TCRs that may be identified within the region.

Environmental Setting

The Project area is in the Los Angeles Basin, a sedimentary depression currently composed of coastal lowlands areas. The Los Angeles Basin can be further divided into four structural blocks: the northeastern block, the northwestern block, the central block, and the southwestern block. The Project area is on the northern edge of the southwestern block of the Los Angeles Basin, which is bounded on the north by the Santa Monica system and on the east by the Newport-Inglewood fault system. The southwestern block is underlain by late Jurassic to late Cretaceous basement rocks that form anticlinal ridges on top of which thick, mostly marine younger geologic units have been deposited since the Oligocene (33.9–23 million years ago) (Norris and Webb 1990).

According to geologic mapping by Castle (1960) and Dibblee (1991), the Project area is underlain by Holocene and Pleistocene alluvium and marine sediments. Specifically, the northern portion of the Project area is mapped as older alluvium (Qoa) (Figure 3). This older alluvium, which is composed of gray to light brown, pebble-gravel, sand, silt, and clay, represents a fan remnant, or an elevated older surface left behind while other portions of the alluvial fan were eroded away (Mirro et al.

2012). The original fan was deposited during the Pleistocene and was subsequently downcut by outflow from the Santa Monica Mountains during the latest Pleistocene and early Holocene, leaving behind the current elevated surface. The geology in the southern portion of the Project area is characterized by early to middle Pleistocene marine deposits (Qom), which consist of light gray to light brown sand, pebbly sand gravel, and silt.

Prior to the development of the area, the dominant plant community consisted of coastal sage scrub, freshwater and salt marshes, and riparian woodlands. Common flora found within a coastal sage scrub community consist of California sagebrush (*Artemisia californica*), black sage (*Salvia mellifera*), white sage (*Salvia apiana*), California buckwheat (*Eriogonum fasciculatum*), coast brittle-bush (*Encelia californica*), golden yarrow (*Eriophyllum confertifolium*), and lemonade berry (*Rhus integrifolia*).

Prehistoric Setting

The most widely used chronological sequence in the Project vicinity distinguishes Early, Middle, and Late periods. It was initially outlined by King (1981) and later revised to include additional radiocarbon dates (King 1990) and to incorporate refinements in our understanding of cultural developments (Arnold 1992).

Early Holocene

Archaeological data compiled over the last two decades indicate that initial settlement along the coast of Southern California began at least 12,000 B.P. Some of the earliest evidence of human occupation specifically derives from Daisy Cave (CA-SMI-261) on San Miguel Island where radiocarbon samples date the oldest cultural layer at the site between 11,550 and 10,950 cal B.P. (Erlandson et al. 1996). In the Southern California coastal region, the discovery of fluted projectile points indicates human use of the area possibly as early as possibly 13,000 B.P. (Erlandson et al. 1996; Stickel 2010), while sites on San Miguel and Santa Rosa islands have yielded radiocarbon dates older than 10,000 B.P. (Erlandson 1991; Johnson et al. 2002).

However, few known sites date to this earliest period (i.e., pre-10,000 B.P.), and relatively few sites have been identified specifically within the Los Angeles Basin that date to the early Holocene. The earliest evidence of human occupation in the Los Angeles region is represented by a set of female human remains that were discovered in association with a handstone in the tar pits of Rancho La Brea in 1914 (Merriam 1914). Possible low population densities may explain the scarcity of sites dating to the early Holocene in the region, but the few known sites suggest that they tend to be on elevated landforms, and their presence on the Northern Channel Islands indicates early knowledge and use of marine resources. Diagnostic tools associated with this period for coastal California have not been identified, and cultural assemblages dating to this period have fewer of the grinding implements common to subsequent periods. Research suggests that inhabitants of this period lived in small groups that had a relatively egalitarian social organization and a forager-type land-use strategy (Erlandson 1994; Glassow 1996; Greenwood 1972; Moratto 1984).

Figure 3. Geologic units in the Project area.

Middle Holocene

Shortly after 9000 B.P., sites in the coastal region begin to be characterized by an abundance in milling tools and the broader subsistence regime, including use of plants and seeds, terrestrial animals, and shellfish (Glassow 1996; Glassow et al. 1988; Sutton and Gardner 2010). Increasing populations composed of small, dispersed groups with more generalized tool kits and a mixed subsistence regime indicating a heavier reliance on shellfish than on fish and terrestrial food sources are also identifiers of the period (Erlandson 1991, 1994, 1997). Population densities appear to have decreased substantially between 6500 and 5000 B.P. throughout the region, and little is known about this period. It has been suggested that the arid conditions associated with the Altithermal (a mid-Holocene period of a predominantly warm and dry climate) damaged the environment to the point that only low population densities were sustainable (Glassow 1996; Glassow and Wilcoxon 1988).

After 5000 B.P., population densities increased significantly as conditions became cooler and moister. Between 5000 and 3000 B.P., mortars and pestles became increasingly common throughout the region, suggesting intensified use of acorns (Basgall 1987) and possibly pulpy roots or tubers (Glassow 1997). Large side-notched and stemmed projectile points became more prevalent, presumably reflecting increased hunting.

Coastal and inland sites of this period exhibit shallow midden accumulations, suggesting seasonal camping. Based on the distribution of sites assigned to this period, larger groups likely occupied a base camp during a portion of the year, while smaller groups of people used satellite camps to exploit seasonally available floral resources such as grass seeds, berries, tubers, and nuts (Binford 1980; Warren 1968). Site assemblages in coastal Southern California dating to this time contain numerous manos and metates, charmstones, cogged stones, discoidals, and some stone balls. A significant technological change in ground stone is seen at this time with the appearance of mortars and pestles, which suggests the adoption of acorn, nut, and seed processing by coastal groups (Sutton and Gardner 2010). The quantity of projectile points also increases during this time, indicating a subsistence shift toward greater reliance on large game. Burial practices also suggest that society was primarily egalitarian (Glassow 1996). Secondary burials among coastal communities continue to be the dominant mortuary regime, with a smaller number of flexed inhumations during the Middle Holocene.

Late Holocene

Cultural complexity appears to have increased around 3000–2500 B.P. Mortuary data research suggests a substantial change in social organization and political complexity during this period (King 1990). According to King, high-status positions became hereditary, and individuals began to accumulate wealth and control exchange systems. Arnold (1991, 1992) proposes that this evolutionary step in socioeconomic complexity occurred around 700–800 B.P. Technological innovation as well as a continued increase in cultural complexity marks the period between 2500 and 800 B.P. Fishing and sea mammal hunting became increasingly important. This corresponds to the development of the tomol (plank canoe), single-piece shell fishhooks, and harpoons (Glassow 1996; King 1990). In addition, the bow and arrow were introduced during this period. Use of imported obsidian continued to increase during this period as well (Jones et al. 2007).

A number of these new cultural traits have been thought to be attributable to the arrival of Takic-speaking people from the southern San Joaquin Valley in the coastal California region (Sutton 2009). Biological, archaeological, and linguistic data indicate that the Takic groups who settled in the Los Angeles Basin were ethnically distinct from the indigenous Hokan-speaking Topanga

populations that had inhabited the region just north of the Project. These Takic speakers are believed to be ancestral to the ethnographic Gabrielino groups (Sutton 2009).

The archaeological evidence suggests that Hokan-speaking groups were largely replaced or subsumed by the Gabrielino and Chumash by 2000 B.P. (Sutton and Gardner 2010). Several new types of material cultural appear in the archaeological record during 700 B.C.–A.D. 1800, including the presence of Cottonwood series points, birdstone and "spike" effigies, Olivella cupped beads, and Mytilus shell disk beads. The presence of Southwestern pottery, Patayan ceramic figurines, and Hohokam shell bracelets at some of these later sites suggests interaction between populations in Southern California and the Southwest. Potential changes in trade networks at this time may be evidenced by an increase in the number and size of steatite artifacts, including large vessels, elaborate effigies, and comals in the archaeological record.

Ethnographic Setting

The prehistory of California's coast spans the entire Holocene and may extend back to late Pleistocene times. At the time of contact, the ethnographic record indicates that the Gabrielino populations inhabited what is now known as the Los Angeles Basin and the Project region. Traditionally, the Gabrielino occupied a large territory, including the entire Los Angeles Basin, the coast from Malibu to Aliso Creek, parts of the Santa Monica Mountains, the San Fernando Valley, the San Gabriel Valley, the San Bernardino Valley, the northern part of the Santa Ana Mountains, and much of the middle and lower Santa Ana River reaches. The Gabrielino also inhabited the islands of Santa Catalina, San Clemente, and San Nicolas. The Gabrielino language was a Cupan language, which is part of the Takic language family and part of a larger language group called Uto-Aztecan (Harrington 1981; Kroeber 1925).

It is believed that more than 50 communities of 50–150 individuals inhabited the traditional territory of the Gabrielino precontact. Each autonomous community or village consisted of one or more patrilineages that maintained permanent placement and the maintenance of surrounding hunting and gathering areas and ceremonial sites. The chief, his family, and elite members were typically the epicenter of the village sites. The village members would encompass and surround the homes of the chief and elite with smaller houses or structures. Other common buildings and structures found in Gabrielino villages included sweathouses, clearings for ceremonies and playing fields, and cemeteries or burial grounds (McCawley 1996:32–33). Management of food and resources was implemented by the chief and food stores were also kept for each family when supply was low.

The material culture of the Gabrielino is elaborate and has been compared with that of the Chumash. Sources including Padre Geronimo Boscana's accounts (Boscana 1846), Hugo Reid's 1852 letters to the Los Angeles Star (Heizer 1968), and Harrington's (1981) early twentieth century interviews describing the common use of shell ornaments and beads, baskets, bone tools, flint weapons and drills, fishhooks, mortars and pestles, wooden bowls and paddles, shell spoons, wooden war clubs, and a variety of steatite items (cooking vessels, comals, ornaments) as many of the artifact types common in descriptions of Gabrielino culture (Blackburn 1963). Additionally, artesian development has been observed in the artifact assemblage with the implementation of shell inlays (using asphalt) and in the steatite items from production centers on Catalina Island.

Trade was an important element of the Gabrielino economy. Although the principal Gabrielino-produced commodity—steatite vessels from centers on Catalina Island—originated well outside the defined study region, trade in steatite items was conducted throughout the local territory and involved external relations with desert, Southwestern, mountain, and coastal groups beyond the

Gabrielino borders (Kroeber 1925). Subsistence resources were also supplemented by additional supplies of deer skins, seeds, and acorns from interior groups such as the Serrano (Kroeber 1925:629). Olivella shell callus beads, manufactured on the northern Channel Islands by the Chumash and their predecessors, were reportedly used quite frequently as a currency or as a status symbol by the Gabrielino and other Southern California groups.

As described in ethnographic sources, the subsistence resource base for the Gabrielino people included native grass seeds, six or more types of acorns, pinyon pine nuts, seeds and berries from various shrubs, fresh greens and shoots, mule deer, pronghorn, mountain sheep, rabbits and rodents, quail and waterfowl, snakes, lizards, insects, and freshwater fish, plus a wide variety of marine fish, shellfish, and sea mammals in coastal zones. Resource exploitation techniques were also described in ethnographic accounts and include rabbit drives in conjunction with seasonal controlled burning of chaparral and the use of throwing sticks or nets in the capture of waterfowl in the low-lying marshlands. Reed rafts may have been used for marshland hunting (Priestly 1937).

The Spanish exploration of North America began in the early 1500s, and Juan Rodriguez Cabrillo began exploring the Alta California coastline in 1542. The first contact between the Europeans and the Gabrielino is thought to have occurred in 1542 when Juan Rodriguez Cabrillo's small fleet arrived at Santa Catalina Island. Contact with the Gabrieleno by the Spanish likely occurred again in 1602 with the Sebastían Vizcaíno expedition (McCawley 1996:207) and in 1769 with the Gaspar de Portolá expedition.

Mission San Gabriel was founded on September 8, 1771, but moved to its present location around 1774 due to the second location consisting of more suitable land for agriculture. A second mission, San Fernando, was established within Gabrielino territory in 1797. The assimilation of the Gabrielino people into the mission system had a gross negative affect on the traditional Gabrielino communities as they were depopulated; lost many of their traditional cultural practices, lands, and political autonomy; had become enslaved and killed; and suffered from epidemics caused by the introduction of European diseases. Between 1832 and 1834, the secularization of the former mission lands, which was theoretically designed to turn over ownership of some of the lands back to the Native peoples of California, increased the displacement of the Gabrielino (McCawley 1996:208). The establishment of California as a state in 1850 brought further hardships to the Gabrielino, forcing many to settle into smaller groups of Native American and Mexican settlements in places like the Eagle Rock and Highland Park districts of Los Angeles as well as in Pauma, Pala, Temecula, Pechanga, and San Jacinto.

Historical Setting

Spanish exploration of North America in the early 1500s marked some of the first European contact with the indigenous peoples of the area now known as Los Angeles and the Project region. The mission system was established by the Catholic Church and the Spaniards to settle, colonize the Native Americans to utilize their labor to develop the lands, and spread Catholicism from Baja California to what is known today as northern California. The first mission was established in 1769 in present-day San Diego. The mission system's goal was for each mission to be self-sustaining. This required the conversion of indigenous peoples to claim lands in the name of Spain and required the Native American population to grow crops, raise livestock, and sustain the mission settlement and provide commodities for trade. The Mission San Gabriel Archangel was the fourth mission established in Alta California in 1771. The Native Americans that traditionally inhabited the region of the Project were assimilated into the Mission San Gabriel.

In addition to establishing the mission system in 1779, Spanish settlement of Alta California also included the establishment of pueblos and presidios. These settlements were used as bases from which to colonize the rest of California. The Spanish also laid out pueblos, or towns, along the coast. Providing supplies, animals, and colonists to the Spanish missions and presidios by way of ship was difficult, time consuming, expensive, and dangerous. Thus, an overland route was necessary to initiate a strong colonizing effort in Alta California. The city of Los Angeles was initially established by a mixed group of settlers, known as the Pobladores, as a pueblo in 1781 (Starr 2007:37). The original site of the plaza was constructed within the Los Angeles River floodplain but was moved to its current location after flooding and quickly became a center for economic, political, and social/cultural activities.

Although much of the land in California was under the supervision of the Spanish missions, the Spanish government granted lands to individuals who had served the government (Beedle et al. 2008). When Mexico achieved independence from Spain in 1821, the Spanish mission system became subject to the Secularization Act in 1833 where all mission lands became property of the new Mexican government. The former mission lands were divided into smaller land grants and distributed to prominent and wealthy Mexican military officers and families. Between 1835 and 1846, more than 600 land grants in Alta California were recorded with the Mexican government, including Rancho San Jose de Buenos Ayres, which encompasses the Project area (Robinson 1948:12–13; Starr 2007:49–52). The rancho, which consisted of 4,439 acres, was granted to Jose Maximo Alanes in 1843 (Avina 1932:73).

With the signing of the Treaty of Guadalupe-Hidalgo on February 2, 1848, California formally became an American territory, and 2 years later, on September 9, 1850, California became the thirty-first state in the Union. Prior to becoming a state, California was divided into 27 counties, and Los Angeles was one of them. In addition to California being granted statehood, the City of Los Angeles became incorporated in 1850. In those 2 years (1848–1850), there was an influx of Americans to California seeking their fortunes, triggered by James Marshall's 1848 discovery of gold at Sutter's Mill. However, statehood and an extensive drought in the 1860s eventually ended the prosperity of the ranchos (Beedle et al. 2008).

Development boom also occurred with the establishment of rail lines in California, such as the Southern Pacific Railroad and its completed Los Angeles route in 1880 and the Santa Fe Railway in 1886, made stagecoach companies obsolete. Banning also successfully lobbied for a branch of the Southern Pacific Railroad to connect the port to Los Angeles. The establishment of these rail lines further boosted Los Angeles' role in the economic development of Southern California and the United States (Starr 2007:114–118).

Commercial Development in Tract No. 4762

The Project Area and adjacent properties along Melrose Avenue are in Tract No. 4762. The tract was platted for G. Allan Hancock in 1922. Hancock was the heir to the Hancock family's extensive Los Angeles land holdings including the Rancho La Brea. Hancock invested in oil exploration of the Rancho land and pursued ventures in railroads and communications after founding the California Bank in 1920 (Torres and Chasteen 2024). Historical newspaper articles did not describe Tract No. 4762 as a significant commercial development (Torres and Chasteen 2024). Historic aerial photograph review and City building permits indicate the Project area was constructed as an office building for the Local 683 IATSE in 1952 (Torres and Chasteen 2024). IATSE was founded in 1893 in New York, with the Los Angeles theatrical workers union joining the IATSE in 1896 (IATSE 2024). The union continues to work in all forms of theatre, motion pictures, television, tradeshows, exhibitions, and concerts.

Background Research

Cultural Resource Records Search

Chronicle Heritage completed a records search at the SCCIC at California State University, Fullerton on December 11, 2024. The search was conducted to identify prior studies and previously recorded cultural resources within 0.5 mi of the Project area. The search also included a review of the State Historic Property Data Files, the National Register of Historic Places (NHRP), California Historical Landmarks, California Points of Historic Interest, and California Office of Historic Preservation Archaeological Determinations of Eligibility. A summary of the results of the record search and background research is provided below. Confidential record search information is provided in Appendix A.

Previous Cultural Resource Studies

The results of the records search indicates that no fewer than five previous investigations have been conducted and documented within 0.5 mi of the Project area since 2002 (Table 1). All five reports intersect the Project area and do not identify any previously recorded resources within a 0.5-mi radius of the Project area or within the Project area.

Table 1. Previous Cultural Studies Within 0.5 mi of the Project Area

Cultural Resources Reported Within the Study Area

The review of the record search data indicates there are no known or previously recorded historic or prehistoric archaeological resources within the record search area.

Native American Outreach

Chronicle Heritage contacted the NAHC to request a review of the SLF on November 25, 2024 (see Appendix B). The objective of the SLF search was to determine if the NAHC had any knowledge of Native American cultural resources (e.g., traditional use or gathering area, place of religious or sacred activity, etc.) within the immediate vicinity of the Project area. The NAHC responded on December 16, 2024, and stated that the SLF search resulted in negative results. The NAHC recommended that 16 contacts representing eight Tribal groups should also be contacted for information regarding tribal cultural resources. Chronicle Heritage completed an informal outreach initiative with the eight tribes listed in the response from the NAHC.

An initial outreach letter was sent by email on November 26, 2024, to all contacts of the eight tribes. Follow-up outreach calls and emails were placed on December 10, 2024. To date, three responses have been received.

On November 26, 2024, Chronicle Heritage received an email response from the Santa Rosa Band of Cahuilla Indians requesting that they defer any comments to the Soboba Band of Luiseno Indians.

On December 10, 2024, during a phone call, Christina Swindall Martinez, Secretary for the Gabrieleno Band of Mission Indians-Kizh Nation, requested the initial letter to be resent via email. The letter was resent to Ms. Swindall on the same day. No additional response was received from the tribe.

On December 10, 2024, during a phone call, Joseph Ontiveros, Director of the Cultural Resource Department for the Soboba Band of Luiseno Indians, requested that the tribe defer to the Gabrieleno/Tongva San Gabriel Band of Mission Indians.

Archival Research

As part of the CRA and TCR study, Chronicle Heritage performed sufficient archival research by reviewing ethnohistoric and historic archival sources to obtain information on past Native American use in the vicinity of the Project area. Results of this review indicate that there are several known Native American sites and features of significance within the general vicinity of the Project that may qualify as cultural resources or TCRs. The precise locations of some of these Native American resources are not known. However, the available data indicate that none of the potential TCRs is in the immediate vicinity of the proposed Project.

Gumprecht (2001:30) and McCawley (1996:60–63) have compiled information on the locations of known Native American villages within the Los Angeles Basin. These village sites tend to be concentrated along the former and current courses of the Los Angeles River (Figure 4). According to a historic map titled "The Gabrielino Indians at the Time of the Portola Expedition" (Figure 5; circles indicate the approximate location of ethnohistoric villages, and triangles denote known archaeological sites) on file at the Los Angeles Public Library (2022), the nearest named village to the Project site is Geveronga, approximately 4.9 mi southeast of the Project area. Other important Native American locations that date to the prehistoric and ethnohistoric periods include Maungna, approximately 5 mi east near Los Feliz; the village of Yangna, in downtown Los Angeles, approximately 6 mi to the southeast; Wenot, approximately 7 mi southeast; Huachong-na, approximately 6 mi southwest; and Kuruvangna, approximately 7 mi west (Figure 5). The settlement data suggest that proximity to a reliable water source was of primary importance in the determination of village locations. Although several small drainages are within the immediate

vicinity of the Project area, the lack of a permanent water source suggests that the area was not intensively used by prehistoric and ethnohistoric Native American groups for habitation purposes.

The 1860–1937 Kirkman-Harriman Pictorial and Historical Map (Kirkman 1937) was also examined as part of the archival research effort (Figure 6). This map depicts the approximate locations of historical events that took place in the late nineteenth and early twentieth centuries in Los Angeles County. The Project area is north of the "La Brea Road." Just west of the Project area, the trail bifurcates, with the southern branch extending along Colorado Street to the pier in Santa Monica and the northern trail continuing northwest toward Malibu and Point Dume. Another trail runs to the north of the Project area and is shown as having been used by Portola's expedition through the area in 1769. The map also depicts the locations of several "Indian Villages," which are indicated by a red teepee symbol. The closest mapped village site on the Kirkman-Harriman map is 2–3 mi west of the Project between the La Brea Road and the Santa Monica Mountains.

Geveronga, also known as Comicrabit or Comicranga, is adjacent to the Pueblo of Los Angeles (McCawley 1996:57). Johnston (1962:123) notes the village of Geveronga is neighboring the village of Yangna. Although Elliott (2018) notes the descriptions of the two village are similar, it is likely the Pueblo of Los Angeles placed proximal as neighboring settlements.

The Pueblo of Los Angeles is now a Historical Monument in the National Register of Historic Places known as El Pueblo de Los Angeles, or El Pueblo. The Monument now houses a museum, the Avila Adobe, the Catholic church Our Lady Queen of Angles, and 27 other buildings and sites of historical interest in downtown Los Angeles (City of Los Angeles 2024).

Another prominent landmark depicted on the Kirkman (1937) map is the "La Brea Asphalt," which refers to the tar pits located approximately 1.6 mi southwest of the Project area (Figure 6). Asphaltum, which is a naturally occurring substance found in seeps, was an important resource to Native American populations, who used it for binding and waterproofing purposes. The La Brea Tar Pits were likely visited on a regular basis by local Native American groups residing at Geveronga and villages farther west who accessed the asphaltum seeps using the east-west running trail south of the Project site (i.e., the historic La Brea Road). Populations living farther afield may have acquired asphaltum via trade or down-the-line exchange networks. A network of trails running along the southern edge of the Santa Monica Mountains near the vicinity of the Project area likely linked villages and resource-gathering areas.

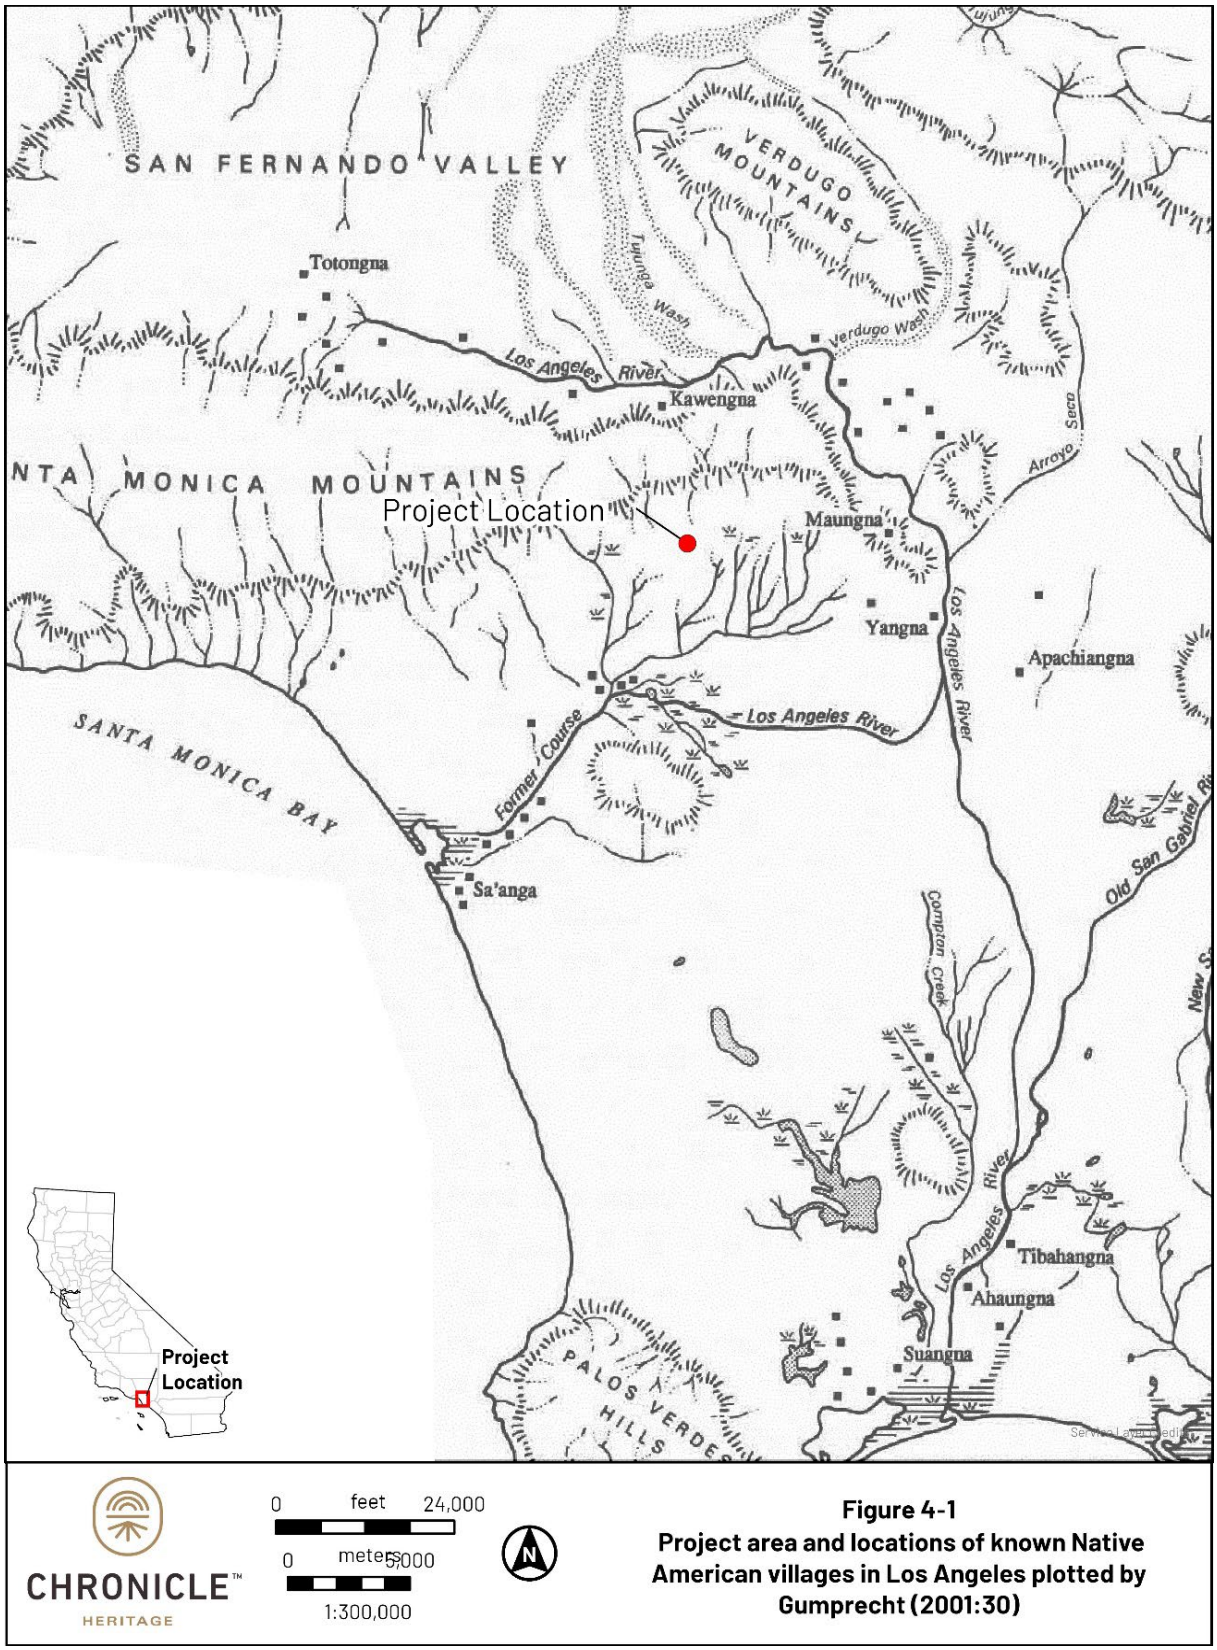

Figure 4. Project area and locations of known Native American villages in Los Angeles plotted by Gumprecht (2001:30).

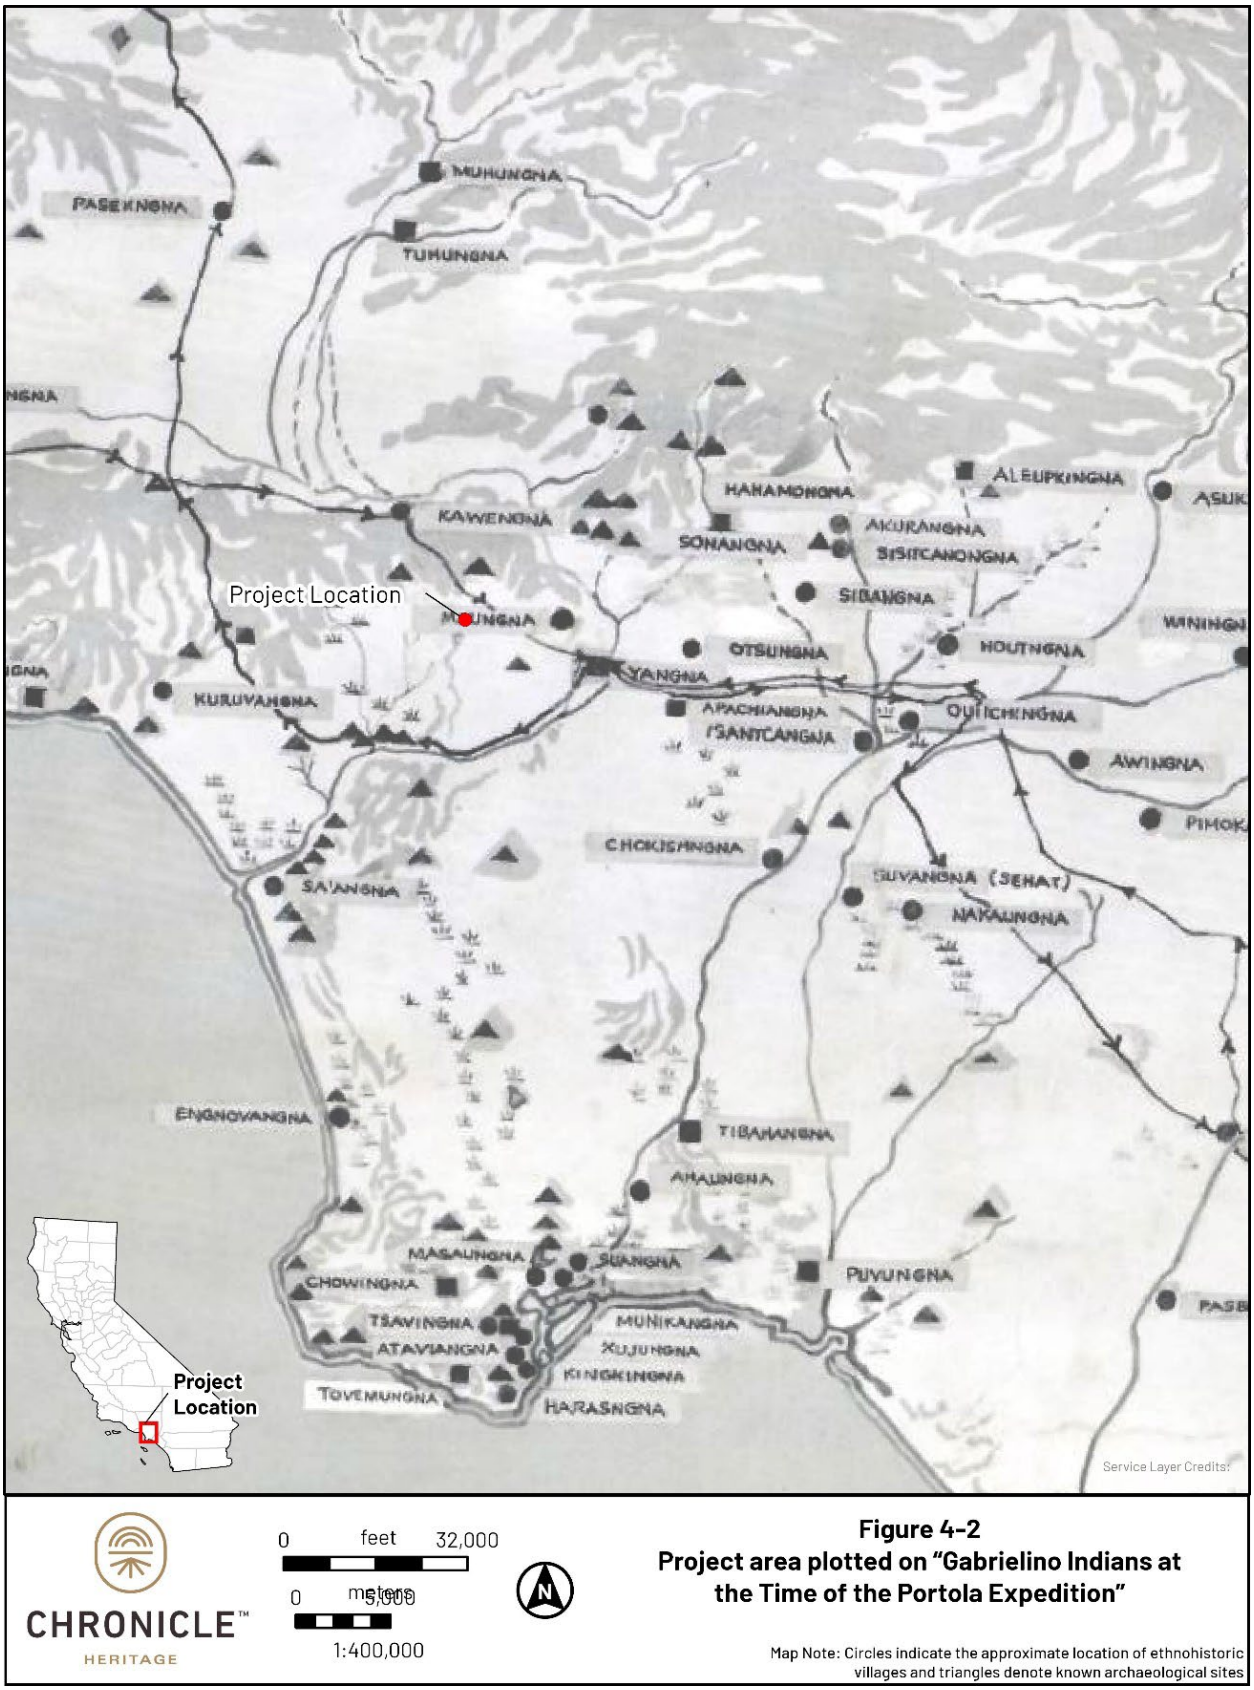

Figure 5. Project area plotted on "Gabrielino Indians at the Time of the Portola Expedition" map.

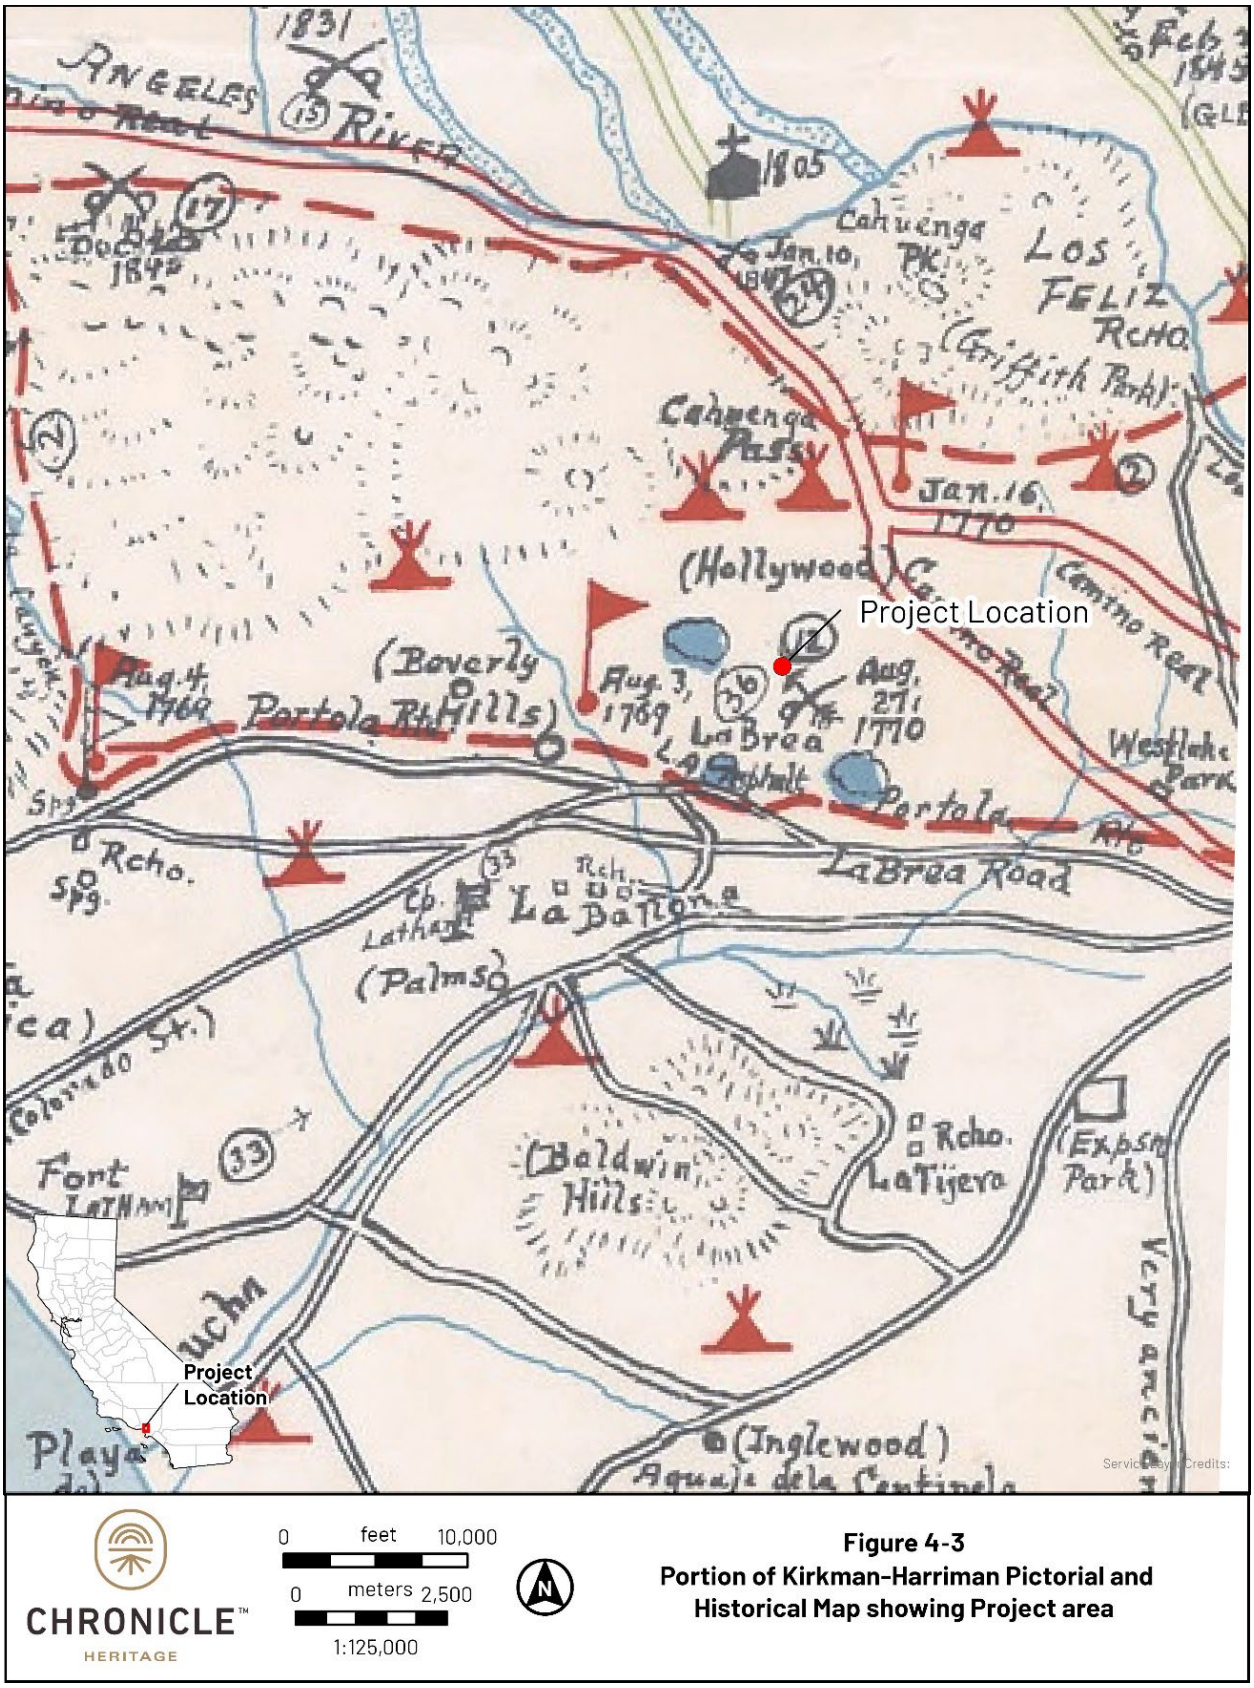

Figure 6. Portion of Kirkman-Harriman pictorial and historical map showing the Project area.

Findings and Recommendations

The results of the SCCIC records search indicate that there are no known previously documented cultural resources or TCRs within the Project area or the 0.5-mi search radius surrounding the Project area. The NAHC's SLF search results were also negative for TCRs within the Project area. During informal tribal outreach, Chronicle Heritage did not receive additional information regarding the location of any known TCRs for scoping within the Project area.

The sufficient archival research indicated that the Project area is between several village sites and important locations that would have been inhabited by Native Americans in the prehistoric and ethnohistoric periods. The closest of these locations includes the village site of Geveronga, approximately 4.9 mi east of the Project area, and the La Brea Tar Pits, approximately 2 mi to the southwest of the Project area. Other village sites in the area include Maungna, approximately 6 mi east of the Project area near Los Feliz; the village of Yangna, in downtown Los Angeles, approximately 6 mi southeast of the Project area; Wenot, approximately 7 mi southeast of the Project area; Huachong-na, approximately 6 mi southwest of the Project area; and Kuruvangna, approximately 7 mi west of the Project area. Trails, some of which are located within the Project vicinity, linked the surrounding villages and resource-gathering areas in the region. Trade items, including asphaltum from the La Brea Tar Pits, were also likely transported along these routes. Taken together, the data indicate that the area immediately surrounding the Project area was likely used as a travel thoroughfare with no known evidence for intensive Native American activity (e.g., habitation and village sites).

No pedestrian survey of the APE was performed as a result of the entire APE being covered by either building or a paved parking area.

Recommendations

The City has established a standard condition of approval to address inadvertent discovery of cultural resources or TCRs. Should TCRs be inadvertently encountered, this condition of approval provides for temporarily halting construction activities near the encounter and notifying the City and Native American tribes that have informed the City they are traditionally and culturally affiliated with the geographic area of the proposed project. If the City determines that the object or artifact appears to be a TCR, the City would provide any affected tribe a reasonable period of time to conduct a site visit and make recommendations regarding the monitoring of future ground-disturbing activities as well as the treatment and disposition of any discovered TCRs. The Project Applicant would then implement the tribe's recommendations if a qualified archaeologist reasonably concludes that the tribe's recommendations are reasonable and feasible. The recommendations would then be incorporated into a TCR monitoring plan, and, once the plan is approved by the City, ground-disturbing activities could resume. In accordance with the condition of approval, all activities would be conducted in accordance with regulatory requirements. As a result, potential impacts to TCRs would continue to be less than significant.

RE: Historical Resources Technical Report (HRTR) in Support of the 6721 Melrose Avenue, Los Angeles Project

Dear Mr. Alvarez,

Chronicle Heritage is preparing a HRTR on behalf of the applicant in support of the redevelopment of the property (Project), in Los Angeles County, California. The Project involves the demolition of the existing office building and paved surface parking for redevelopment of the site. Specifically, the Project site includes a 7,040 square foot lot. The Project is depicted within the Section 15 of Township (T) 1 South (S), Range (R) 14 West (W), San Bernardino Base and Meridian on a portion of the U.S. Geological Survey (USGS) *Hollywood, California*, 7.5-minute topographical map (see attached map). The Project is subject to the California Environmental Quality Act with the City of Los Angeles acting as the lead agency.

On November 25, 2024, Chronicle Heritage submitted a Sacred Land File (SLF) search request to the Native American Heritage Commission (NAHC). A response from the NAHC has not yet been received, however, we are writing to request any knowledge you may have of cultural resources that may be impacted by the proposed Project.

If you would like to share any information pertaining to the proposed Project, please contact me at 562-310-0153 or ggranger@chronicleheritage.com.

Please note that this letter ***does not*** constitute government-to-government consultation pursuant to Assembly Bill 52.

Sincerely,

Gena Severen, M.A., RPA
Senior Archaeologist and Task Manager
Chronicle Heritage

Los Angeles, CA 90012

Tribal Communications

DATE: August 28, 2025

TO: Case File No. ENV-2024-2366-HES

FROM: Valentina Knox-Jones
City Planner
Department of City Planning

SUBJECT: **CITY'S ANALYSIS OF PROJECT'S POTENTIAL IMPACTS TO TRIBAL CULTURAL RESOURCES AT 6727 WEST MELROSE AVENUE ("PROJECT SITE")**

This memo serves to document and summarize the City's good faith and reasonable efforts to carefully investigate and analyze potential direct, and reasonably foreseeable indirect, impacts to tribal cultural resources that may be caused by the above identified development project. For a complete project description and timeline of Assembly Bill 52 ("AB 52") compliance, please see Exhibits "A" and "B" respectively.

To comply with its obligations under the California Environmental Quality Act (CEQA), and specifically the requirements of Public Resources Code Sections 21074, 21080.3.1 and 21080.3.2, the City engaged in telephone and email consultations with the Gabrieleño Band of Mission Indians – Kizh Nation ("Kizh Nation"), requested record searches of the Sacred Lands File ("SLF") and the California Historical Resources Information System ("CHRIS"), and carefully reviewed all information/documentation submitted by the Kizh Nation.

1. Consultation with the Kizh Nation

Pursuant to the requirements of CEQA Guidelines Section 15168, the Project is electing to utilize the Los Angeles Citywide Housing Element 2021-2029 and Safety Element Updates Final Environmental Impact Report (Program EIR), which was certified on November 24, 2021, as the environmental clearance for the subject case. As the Project proposes grading, Mitigation Measure 4.15-1 requires tribal notification and consultation to determine if there are any potential impacts on Tribal Cultural Resources.

As such, the City provided written notice of the proposed project to Native American tribes that may be culturally affiliated with the Project Site, informing them of their right to request tribal consultation on January 16, 2025. The Kizh Nation was the only tribe who requested consultation. The consultation process included exchanges of information via email, and two telephone consultations with Chief Andrew Salas, Member Sophia Pinas, and legal representative Kara Grant ("Kizh Nation Representatives").

On January 21, 2025, the City received the Tribe's request for tribal consultation and in the letter, the Tribe noted that their concerns would be provide in written form for this consultation in lieu of an in-person meeting. On January 23, 2025, the Tribe also submitted an email with their concerns in written form, information was provided and the Tribe requested Mitigation Measures to address potential discovery of Tribal Cultural Resources, potential discovery of Human Remains, and ground disturbance monitoring.

Following this email consultation, the City responded on May 19, 2025 via email, noting that the Housing Element includes Mitigation Measures to ensure there is a less than significant impact on Tribal Cultural Resources through Mitigation Measure 4.15-1(b). Additionally, a Human Remains Inadvertent Discovery

condition would be applied to the project, to ensure the applicant was advised of the relevant Public Resources Code Section regulations which address inadvertent discovery.

The City also responded to the tribal information provided to the file and asked for additional clarification as to how this information would relate to the subject site. A copy of the Cultural Resource Assessment and Tribal Cultural Resource Report prepared for the site, dated May 2, 2025, was also attached to the email and provided to the Kizh Nation, and it documented the results of a California Historical Resources Information System records search at the South Central Coastal Information Center (SCCIC) and a Sacred Land File (SLF) search by the Native American Heritage Commission (NAHC). The report also conducted archival research used to evaluate the presence or likelihood of cultural resources and TCRs within the Project area.

The conclusion of the SCCIC records were that no previously recorded Tribal Cultural Resources were found on the project site, or within a ½ mile radius of the project site. Similarly, the Sacred Land File search results were also negative. As such, there has been no documented Tribal Cultural Resources on the site or within the near vicinity to date. As the evidence which had been submitted did not indicate that there were known resources existing on site which were considered sensitive so as to require monitoring, the City was unable to support the Kizh Nation's request for ground disturbance monitoring but the City requested that any more information regarding potential tribal activities on or near the site be provided to the file.

Following this email, the Kizh Nation emailed the City and noted their opposition to the City's Tribal consultation process and the City's position regarding the Tribe's Mitigation Measures. Kizh Nation then requested a phone consultation to discuss the issues further. This email did not provide comment on the City's Mitigation Measure or inadvertent discovery condition, and did not provide further documentation as requested.

On June 10, 2025, a phone consultation was held and the Kizh Nation provided confidential information. The Kizh Nation requested a meeting with the Executive Office of the Department of City Planning. A meeting was scheduled for June 20, 2025, but canceled at the request of the Kizh Nation.

The City sent an email on July 23, 2025, to further confirm and understand how the evidence provided identifies that a significant impact to tribal cultural resources would occur as a result of the proposed project. A copy of the June 10, 2025 meeting notes were provided and a chart documenting Tribal information and corresponding questions was included in the email. The City sought the Kizh Nation feedback on this questions to better understand whether a significant impact to Tribal Cultural Resources would occur as a result of the proposed project. A response was requested by August 8, 2025.

On August 11, 2025, the Kizh Nation emailed the City indicating interest in continued consultation but this email did not address the clarification requested by the City or the additional information requested.

On August 18, 2025, the City emailed the Kizh Nation, noting that as the questions raised by the City in seeking additional information and clarification have not been addressed, and the City was not able to conclude that the project would result in significant impacts to tribal cultural resources. Therefore, after acting in good faith and after reasonable effort, the City found that mutual agreement cannot be reached with regards to impacts to tribal cultural resources due to the project. The consultation was deemed concluded without reaching mutual agreement.

On August 19, 2025, the Kizh Nation requested a meeting with the Executive Director to discuss the consultation process and the City's determination.

On August 20, 2025, a phone consultation was held. Additional confidential tribal information was provided however, the Tribe did not address the City's request for more information requested in the June 10, 2025 phone consultation and July 23, 2025 email.

The City concluded that the inadvertent discovery condition imposed on the project would adequately address the concerns of the Kizh Nation and that there would no significant impacts to Tribal Cultural Resources as a result of the proposed project.

2. The City's Records Searches

Independent of the City's consultations with the Kizh Nation, the City requested record searches of the SLF and the CHRIS databases. Staff also researched whether the Project Site is within or in the vicinity of any listed sites in the California Register of Historic Resources or National Register of Historic Places. Neither the SLF nor CHRIS record searches identify the Project Site as a tribal cultural resource or provide any information that subsurface artifacts potentially exist on site or in the project vicinity that may qualify as tribal cultural resources.

ANALYSIS

The City carefully considered the information provided by the Kizh Nation in support of their claim that this project has the potential to impact tribal cultural resources, and the Tribe's request for the City to require its proposed mitigation measures to mitigate those potential impacts. The City has concluded that there is no substantial evidence to support a determination that this project could reasonably foreseeably impact tribal cultural resources.

During its review, Planning staff evaluated the relevance and credibility of each piece of submitted information alleged to be related to the Project Site, determined the geographic distance between any stated tribal cultural resource and the Project Site and evaluated the truthfulness, qualifications and integrity of any facts offered by the provided information sources and references.

In conclusion, the information provided by the Kizh Nation does not qualify as substantial evidence that the Project Site is a Tribal Cultural Resource. The City has determined the Proposed Project will have no potential direct, and reasonably foreseeable indirect, impacts on Tribal Cultural Resources.

As the project is utilizing the Housing Element Streamlining Checklist, the project is already required to comply with the following Mitigation Measure:

> **MM 4.15-1(b) Discovery of Potential Tribal Cultural Resources:** In the event that Tribal Cultural Resources are discovered during Project activities, whether or not a tribal monitor is present, and there is no CRMP or the CRMP does not cover treatment of inadvertent discovery, all work within a 50-foot buffer of the find shall cease and a Qualified Archaeologist meeting the Secretary of the Interior's Professional Qualification Standards for Archaeology shall assess the find. Tribes that are culturally and historically affiliated with the Project area and have requested consultation shall be notified, should any potential tribal cultural resource be discovered during project implementation. Construction personnel shall not collect or move any tribal resources. Construction activity may continue unimpeded on other portions of the project site. Unless agreed otherwise during the tribal consultation process or in a CRMP, if tribal cultural resources are discovered during construction, the applicant and/or owner shall retain a Qualified Tribal Monitor (as approved by the Tribe) if requested by the Tribe. Any and all archaeological/cultural documents created as a part of the Project (isolate records, site records, survey reports, testing reports, and monitoring reports) should be provided to consulting Tribes. Any tribal cultural resources discovered shall be treated with appropriate dignity and protected and preserved as appropriate with the agreement of the Tribal Representative and in accordance with federal, state, and local guidelines. If not otherwise provided in the CRMP, the Lead Agency and/or applicant shall, in good faith, provide all consulting Tribes the opportunity to consult on the disposition and treatment of resources. The location of the find of tribal cultural resources and the type and nature of the find will not be published, except to provide information to the Qualified Archaeologist, tribal representatives, and public agencies with jurisdiction or responsibilities related to the resources. An agreement will be

reached with the Tribal Representative to mitigate or avoid any significant impacts to identified tribal cultural resources. Absent an agreement with the Tribal Representative, as provided in Public Resources Code Section 21083.2, the find should be preserved in place or left in an undisturbed state unless the Project would damage the resource. When preserving in place or leaving in an undisturbed state is not possible, excavation should not occur until testing or studies prepared by a Qualified Archaeologist have adequately documented the recovery of scientifically consequential information from and about the resource. Construction activity may continue unimpeded on other portions of the project site if cleared by the Qualified Tribal Monitor or Qualified Archaeologist. Ground Disturbance Activities in the area where resources were found may commence once the identified resources are properly assessed and processed by a Tribal Representative or, if no Tribal Representative is identified, a Qualified Archaeologist. The measure shall be shown on plans.

The City's Mitigation Measure will already ensure that the impact to any unknown Tribal Cultural Resources are less than significant. Furthermore, the following Regulatory Compliance Measures are implemented for all projects citywide:

- **Human Remains Inadvertent Discovery.** In the event that human skeletal remains are encountered at the project site during construction or the course of any ground disturbance activities, all such activities shall halt immediately, pursuant to State Health and Safety Code Section 7050.5 which requires that no further ground disturbance shall occur until the County Coroner has made the necessary findings as to the origin and disposition pursuant to California Public Resources Code Section 5097.98. In the event human skeletal remains are discovered during construction or during any ground disturbance actives, the following procedures shall be followed:
    - Stop immediately and contact the County Coroner: 1104 N. Mission Road Los Angeles, CA 90033 323-343-0512 (8 a.m. to 5 p.m. Monday through Friday) or 323-343-0714 (After Hours, Saturday, Sunday, and Holidays)
    - If the remains are determined to be of Native American descent, the Coroner has 24 hours to notify the Native American Heritage Commission (NAHC).
    - The NAHC will immediately notify the person it believes to be the most likely descendent of the deceased Native American.
    - The most likely descendent has 48 hours to make recommendations to the Applicant, for the treatment or disposition, with proper dignity, of the human remains and grave goods.
    - If the Applicant does not accept the descendant's recommendations, the owner or the descendent may request mediation by the NAHC.
    - Funerary objects, called associated grave goods in Public Resources Code Section 5097.98, are also to be treated according to statute PRC 5097.98 (d)(1).
    - If Native American human remains and/or grave goods are discovered or recognized on the project site, then Public Resource Code 5097.9 as well as Health and Safety Code Section 7050.5 shall be followed.
    - Human remains and grave/burial goods shall be treated alike per California Public Resources Code section 5097.98(d)(1) and (2).
    - Preservation in place (i.e., avoidance) is the preferred manner of treatment for discovered human remains and/or burial goods.
    - Any discovery of human remains/burial goods shall be kept confidential to prevent further disturbance.

MITIGATION AND MONITORING PROGRAM

On November 24, 2021, the City Council certified the Citywide Housing Element 2021-2029 and Safety Element Updates Final Environmental Impact Report (EIR), SCH No. 2021010130, EIR No. ENV-2020-6762-EIR (Program EIR), to adopt the 2021-2029 Citywide Housing Element and the Updates to the Safety Element and the Plan for a Healthy LA (Health Element). Pursuant to CEQA Guidelines Sections 15168(c)(4) and 15168(d), as demonstrated in Form CP-4091, the 6727 Melrose Apartments Proposed Housing Project has been found to be within the scope of the program analyzed in the Program EIR and its environmental effects are within the scope of environmental impacts assessed in the Program EIR.

Form CP-4091 has been prepared for the 6727 Melrose Apartments Proposed Housing Project and the following mitigation measures (MMs) from the Program EIR Mitigation Monitoring Program (Program EIR MMP) are relevant and applicable to the Proposed Housing Project based on the mitigation measure thresholds of applicability and based on a review of the Proposed Housing Project. Each of these Project Specific Mitigation Measures will implement or would substitute Mitigation Measures identified in the Citywide Housing Element 2021-2029 and Safety Element Updates Final Environmental Impact Report (EIR). These are identified below as Implementing Mitigation Measures (IMM) and/or Substituted Mitigation Measures (SMM).

The Construction Monitor shall also prepare documentation of the Applicant's compliance with the MMs during construction every 90 days in a form satisfactory to the Department of City Planning. The documentation must be signed by the Applicant and Construction Monitor and be included as part of the Applicant's Compliance Report. The Construction Monitor shall be obligated to immediately report to the Enforcement Agency any non-compliance with the MMs within two businesses days if the Applicant does not correct the non-compliance within a reasonable time of notification to the Applicant by the monitor or if the non-compliance is repeated. Such non-compliance shall be appropriately addressed by the Enforcement Agency.

Mitigation Measure	Implementing Party	Enforcement and Monitoring Agency	Monitoring Phase and Monitoring Actions
IMM AQ-1 Construction TAC Reduction Measures: The Project shall use construction equipment that meets the CARB Tier 4 Final or USEPA Tier 4 off-road emissions for all equipment rated 50 horsepower or greater. A copy of each unit's certified tier specification or model year specification and CARB or SCAQMD operating permit (if applicable) shall be available upon request at the time of mobilization of each applicable unit of equipment.	Applicant	DCP, LADBS	Prior to project approval: condition for applicant to provide necessary assurances to use Tier 4 equipment with necessary CARB or SCAQMD operating permit (if applicable). Prior to building permits: verify necessary assurances provided.
IMM CUL-1 Archaeological Resources In the event that historic (e.g., bottles, foundations, refuse dumps/privies, railroads, etc.) or prehistoric (e.g., hearths, burials, stone tools, shell and faunal bone remains, etc.) archaeological resources are unearthed, ground-disturbing activities shall be halted or diverted away from the vicinity of the find so that the find can be evaluated. A 50-foot buffer within which construction activities shall not be allowed to continue shall be established by the qualified archaeologist around the find. Work shall be allowed to continue outside of the buffer area. All archaeological resources unearthed by project development activities shall be evaluated by the qualified archaeologist. If a resource is determined by the qualified archaeologist to constitute a "historical resource" pursuant to CEQA Guidelines Section 15064.5(a) or a "unique archaeological resource" pursuant to Public Resources Code Section 21083.2(g), the qualified archaeologist shall coordinate with the applicant and the City to develop a formal treatment plan that would serve to reduce impacts to the resources. The treatment plan established for the resources shall be in accordance with CEQA Guidelines Section 15064.5(f) for historical resources and Public Resources Code Sections 21083.2(b) for unique archaeological resources. Preservation in place (i.e., avoidance) is the preferred manner of treatment. If, in coordination with the City, it is determined that preservation in place is not feasible, appropriate treatment of the resource shall be developed by the qualified archaeologist in coordination	Applicant	DCP, OHR, affiliated California Native American Tribal Representative	During all ground disturbing activities: if archeological resources are inadvertently uncovered, verify that a qualified archeologist evaluates and prepares a treatment plan; monitoring to ensure that construction in the area ceases until the treatment plan process is complete.

Mitigation Measure	Implementing Party	Enforcement and Monitoring Agency	Monitoring Phase and Monitoring Actions
with the City and may include implementation of archaeological data recovery excavations to remove the resource along with subsequent laboratory processing and analysis. Any archaeological material collected shall be curated at a public, non-profit institution with a research interest in the materials, if such an institution agrees to accept the material. If no institution accepts the archaeological material, they shall be donated to a local school, Tribe, or historical society in the area for educational purposes.			
IMM CUL-2 Paleontological Procedures for Discretionary Projects: As recommended in the Paleontology Resource Technical Memorandum, the following shall be conducted as discussed in detail below: monitor all excavation and grading activities in areas underlain by soils or geologic units potentially containing paleontological resources; and identify, record, and evaluate all paleontological resources uncovered during project construction and submit a paleontological assessment report to the City for review and approval. In addition, during project construction, the following shall be conducted as discussed in detail below: cease all construction activities in the event of the discovery of paleontological resources; conduct fossil recovery as necessary by a qualified paleontologist; avoid handling of paleontological resources by parties other than the qualified paleontologist responsible for conducting fossil recovery; and resume construction activities only upon clearance by the qualified paleontologist. These procedures, as detailed below, shall be implemented to avoid impacts to paleontological resources or reduce potential impacts to a less-than-significant level: • A qualified paleontologist shall prepare a monitoring plan, and worker education plan. The paleontologist's assessment and any required monitoring or required worker education plan shall be submitted to the City for review and approval prior to the commencement of construction activities. Any monitoring plan shall include requiring compliance with Mitigation Measure 4.5-1(d) for discovery, salvage and treatment.	Applicant	DCP, OHR, LADBS	Prior to grading permits: review and approve the monitoring plan and worker education plan; condition project to comply with any monitoring plan or worker education plan.
IMM CUL-3 Worker Environmental Awareness Program, Fossil Salvage, and Construction Monitoring: As recommended in the Paleontology Resource Technical Memorandum, prior to the start of construction, a paleontological monitor shall conduct training for construction personnel regarding the appearance of fossils and the procedures for notifying paleontological staff should fossils be discovered	Applicant	DCP, OHR	Prior to grading permits, obtain necessary assurances to ensure WEAP plan requirement are met; ensure plans show

Mitigation Measure	Implementing Party	Enforcement and Monitoring Agency	Monitoring Phase and Monitoring Actions
by construction staff, and notice that the identified qualified paleontologist is the only one authorized to handle paleontological find(s), including but not limited to collection and removal. Approved plans shall include statement of WEAP requirement.			WEAP requirement.
IMM CUL-4 Construction Monitoring: As recommended in the Paleontology Resource Technical Memorandum, a paleontologist or designated paleontological monitor shall monitor ground disturbance activities, including the initial five feet below the ground surface, as areas with high paleontological sensitivity may contain resources at shallow depths and within the first five feet. If the paleontological monitor determines that full-time monitoring is no longer warranted, he or she may recommend that monitoring be reduced to periodic spot-checking or cease entirely. Monitoring shall be reinstated if any new or unforeseen deeper ground disturbances are required. After ground disturbing activities are completed, the paleontologist or designated monitor shall complete and submit a report to the City verifying compliance with the monitoring plan. Monitoring plan shall show on the plans.	Applicant	DCP, OHR	Prior to grading permits, obtain necessary assurances to ensure monitoring plan compliance, including compliance with mitigation measure 4.5-1(d) for discovery, salvage and treatment; ensure plans show monitoring plan requirements. During all ground disturbing activities: monitor compliance Prior to building permit: obtain verification report.
IMM CUL-5 Fossil Discovery, Salvage, and Treatment: Discovery. If paleontological resources are uncovered during construction activities (in either a previously disturbed or undisturbed area), all ground-disturbing activities in the area of the find shall cease until a qualified paleontologist has evaluated the find, and identified and prepared an appropriate mitigation plan, in accordance with federal, state, and local guidelines, Construction activities in the area of the discovery shall commence again only after the identified resource(s) are properly processed by a qualified paleontologist, and if construction activities are cleared by the qualified paleontologist to continue. If cleared by the qualified paleontologist, construction activity may continue unimpeded on other portions of the project site that would not affect evaluation or recovery of the identified resource(s).	Applicant	DCP, OHR	Prior to project approval: condition project to comply with requirement and obtain necessary assurances to ensure compliance. Prior to grading permit: verify site plan shows requirement and obtain necessary assurances. During fossil salvage:

Mitigation Measure	Implementing Party	Enforcement and Monitoring Agency	Monitoring Phase and Monitoring Actions
Fossil Salvage and Treatment. The qualified paleontologist or designated paleontological monitor shall recover intact fossils consistent with the mitigation plan and notify the City of any fossil salvage and recovery efforts. Typically, fossils can be safely salvaged quickly by a single paleontologist and not disrupt construction activity. In some cases, larger fossils (such as complete skeletons or large mammal fossils) require more extensive excavation and longer salvage periods. In this case the paleontologist shall have the authority to temporarily direct, divert or halt construction activity to ensure that the fossil(s) can be removed in a safe and timely manner. Any fossils shall be handled and deposited consistent with a mitigation plan prepared by the paleontological monitor. The qualified paleontologist shall prepare a report according to current professional standards including those of the SVP that describes the resource, how it was assessed, and disposition. The report shall be submitted to the City. The requirements in this mitigation measure shall be shown on plans.			monitor compliance
IMM NOI-1 Noise Shielding and Silencing: Power construction equipment (including combustion engines), fixed or mobile, shall be equipped with noise shielding and silencing devices consistent with manufacturer's standards or the Best Available Control Technology. Equipment shall be properly maintained, and the Project Applicant or Owner shall require any construction contractor to keep documentation on-site during any earthwork or construction activities demonstrating that the equipment has been maintained in accordance with manufacturer's specifications. Measure shall be shown on plans.	Applicant	DCP, LADBS	Prior to project approval: condition project to comply with measures and to provide necessary assurances to ensure compliance. Prior to building permits (including grading, demolition): ensure that requirement shows on plans and necessary assurances are obtained. During construction: field verify that power construction equipment includes noise shielding and silencing devices.

Mitigation Measure	Implementing Party	Enforcement and Monitoring Agency	Monitoring Phase and Monitoring Actions
IMM NOI-2 Use of Driven Pile Systems Driven (impact), sonic, or vibratory pile drivers shall not be used, except in locations where the underlying geology renders alternative methods infeasible, as determined by a soils or geotechnical engineer and documented in a soils report. Requirement shall show on plans.	Applicant	DCP, LADBS	Prior to grading permits: ensure that requirement shows on plans and necessary assurances have been obtained. During construction: field verify that driven, sonic or vibratory pile drivers are avoided.
IMM NOI-3 Enclosures and Screening: All outdoor mechanical equipment shall be enclosed or screened from off-site noise-sensitive uses. The equipment enclosure or screen shall be impermeable (i.e., solid material with minimum weight of 2 pounds per square feet) and break the line-of-sight from the equipment and off-site noise-sensitive uses.	Applicant	DCP, LADBS	Prior to project approval: condition project to comply with measures. Prior to building permits: ensure mechanical equipment is enclosed or screened. During construction: field verify that all outdoor mechanical equipment are screened or enclosed.
IMM NOI-4 Construction Staging Areas: Construction staging areas shall be located as far from noise-sensitive uses as reasonably possible and feasible in consideration of site boundaries, topography, intervening roads and uses, and operational constraints. Requirement shall show on plans	Applicant	DCP, LADBS	Prior to project approval: condition project to comply with measures and to provide necessary assurances to ensure compliance. Prior to building permits (including grading,

Mitigation Measure	Implementing Party	Enforcement and Monitoring Agency	Monitoring Phase and Monitoring Actions
			demolition): ensure that requirement shows on plans and necessary assurances are obtained. During construction: field verify that construction staging areas are located far from noise sensitive uses when possible and feasible.
IMM NOI-5 Temporary Sound Barriers: Sound barriers, such as temporary walls or sound blankets, shall be erected between construction activities and noise-sensitive uses when construction activities are located within a line-of-sight to and within 500 feet of noise-sensitive uses. Requirement shall show on plans.	Applicant	DCP, LADBS	Prior to project approval: condition project to comply with measures and to provide necessary assurances to ensure compliance. Prior to building permits (including grading, demolition): ensure that requirement shows on plans and necessary assurances are obtained. During construction: field verify that sound barriers between construction activities and noise-sensitive uses are provided.

Mitigation Measure	Implementing Party	Enforcement and Monitoring Agency	Monitoring Phase and Monitoring Actions
IMM NOI-6 Vibration Mitigation: • Impact pile drivers shall be avoided to eliminate excessive vibration levels. Drilled piles or similar methods are alternatives that shall be utilized where geological conditions permit their use. • Construction activities shall involve rubber-tired equipment rather than metal-tracked equipment. The construction contractor shall manage construction phasing (scheduling demolition, earthmoving, and ground-impacting operations so as not to occur in the same time period), use low-impact construction technologies, and shall avoid the use of vibrating equipment when allowed by best engineering practices. Requirement to be on plans.	Applicant	DCP, LADBS	Prior to project approval: condition project to comply with measures and to provide necessary assurances to ensure compliance. Prior to building permits (including grading, demolition): ensure that requirement shows on plans and necessary assurances are obtained. During construction: verify that vibrating equipment is avoided.
IMM TRA-1 Construction Management Plan: Any discretionary project that LADOT determines will have potential impacts to the circulation system even with application of existing regulatory compliance measures, shall prepare a detailed Construction Management Plan (CMP), including street closure information, detour plans, haul routes, and staging plans shall be prepared and submitted to LADOT for review and approval. The Construction Management Plan will formalize how construction would be carried out and identify specific actions that would be required to reduce effects on the surrounding community. The Construction Management Plan shall be based on the nature and timing of the specific construction activities and other projects in the vicinity of the Project Site, and shall include those elements required by LADOT for the project, which may include but are not limited to the following: • Providing for temporary traffic control during all construction activities adjacent to public right of way to improve traffic flow on public roadways (e.g., flag men) • Prohibition of construction worker parking on any adjacent residential streets	Applicant	DCP; LADOT; LADBS	Prior to project approval: review and approve construction management plan or condition project to provide construction management plan and provide necessary assurances to ensure compliance. Prior to issuance of building permit: review and approve Construction Management Plan; obtain necessary assurances.

Mitigation Measure	Implementing Party	Enforcement and Monitoring Agency	Monitoring Phase and Monitoring Actions

• Encouragement of carpool/vanpool of workers
• Prohibitions on construction-related vehicles parking on surrounding public streets
• Prohibitions on construction equipment or material deliveries within the public right-of-way
• Accommodation of all equipment on site as feasible
• Provisions for temporary traffic control during all construction activities adjacent to public right-of-way to improve traffic flow on public roadways (e.g., flag men)
• Scheduling of construction activities, including deliveries, to reduce the effect on peak hour traffic flow on surrounding arterial streets
• Rerouting of construction trucks to reduce travel on congested streets to the extent feasible
• Provisions of safety precautions for pedestrians and bicyclists through alternate routing and protection barriers and signage
• Provisions to accommodate the staging and storage of equipment
• Scheduling of construction-related deliveries to reduce travel during commuter peak hours
• Obtain necessary permits for any truck hauling from the City prior to issuance of any permit for the project.
• Noticing and coordination with any nearby schools that may be affected by construction activities, including deliveries, hauling and other construction transportation, to ensure safety of school children.
• Ensuring all feasible safety measures are taken to accommodate safe travel of pedestrian, bicyclists, and other users of the sidewalks around the construction site, including but not limited through the following measures:
  ○ Construction staging as to maintain pedestrian access on adjacent sidewalks throughout all construction phases.
  ○ Maintaining adequate and safe pedestrian protection, including physical separation (including utilization of barriers such as K-Rails or scaffolding, etc.) from work space and vehicular traffic and overhead protection, due to sidewalk closure or blockage, at all times.
  ○ Providing temporary pedestrian facilities adjacent to the Project Site and provide safe, accessible routes that replicate as nearly as practical the most desirable characteristics of			

Mitigation Measure	Implementing Party	Enforcement and Monitoring Agency	Monitoring Phase and Monitoring Actions
the existing facility. o Covered walkways shall be provided where pedestrians are exposed to potential injury from falling objects. o Keeping sidewalk open during construction until only when it is absolutely required to close or block sidewalk for construction staging. o Reopening the sidewalk as soon as reasonably feasible taking construction and construction staging into account.			
IMM TCR-1 Discovery of Potential Tribal Cultural Resources: In the event that Tribal Cultural Resources are discovered during Project activities, whether or not a tribal monitor is present, and there is no CRMP or the CRMP does not cover treatment of inadvertent discovery, all work within a 50-foot buffer of the find shall cease and a Qualified Archaeologist meeting the Secretary of the Interior's Professional Qualification Standards for Archaeology shall assess the find. Tribes that are culturally and historically affiliated with the Project area and have requested consultation shall be notified, should any potential tribal cultural resource be discovered during project implementation. Construction personnel shall not collect or move any tribal resources. Construction activity may continue unimpeded on other portions of the project site. Unless agreed otherwise during the tribal consultation process or in a CRMP, if tribal cultural resources are discovered during construction, the applicant and/or owner shall retain a Qualified Tribal Monitor (as approved by the Tribe) if requested by the Tribe. Any and all archaeological/cultural documents created as a part of the Project (isolate records, site records, survey reports, testing reports, and monitoring reports) should be provided to consulting Tribes. Any tribal cultural resources discovered shall be treated with appropriate dignity and protected and preserved as appropriate with the agreement of the Tribal Representative and in accordance with federal, state, and local guidelines. If not otherwise provided in the CRMP, the Lead Agency and/or applicant shall, in good faith, provide all consulting Tribes the opportunity to consult on the disposition and treatment of resources. The location of the find of tribal cultural resources and the type and nature of the find will not be published, except to provide information to the Qualified Archaeologist, tribal representatives, and public agencies with jurisdiction or responsibilities related to the resources. An agreement will be reached with the Tribal Representative to mitigate or avoid any significant impacts to identified tribal cultural resources. Absent an	Applicant	DCP, LADBS	Prior to project approval: condition project to comply with measure and provide assurance to ensure compliance. Prior to building permit: obtain necessary assurances: ensure measure shown on plans. During project activities: if resources are found, field verify that all work within a 50-foot buffer is ceased; verify that affiliated tribal representatives are notified; verify that the identified resources are properly assessed and processed by a Tribal Representative or, if no Tribal Representative is identified, a Qualified Archaeologist.

Mitigation Measure	Implementing Party	Enforcement and Monitoring Agency	Monitoring Phase and Monitoring Actions
agreement with the Tribal Representative, as provided in Public Resources Code Section 21083.2, the find should be preserved in place or left in an undisturbed state unless the Project would damage the resource. When preserving in place or leaving in an undisturbed state is not possible, excavation should not occur until testing or studies prepared by a Qualified Archaeologist have adequately documented the recovery of scientifically consequential information from and about the resource. Construction activity may continue unimpeded on other portions of the project site if cleared by the Qualified Tribal Monitor or Qualified Archaeologist. Ground Disturbance Activities in the area where resources were found may commence once the identified resources are properly assessed and processed by a Tribal Representative or, if no Tribal Representative is identified, a Qualified Archaeologist. The measure shall be shown on plans.
